ruin, all these things can come to you through these mediums. You have no control over them. They say she is very good lady, he is very good gentleman. He may be good or bad but what about the ones which are coming in. Can you see them? You know who are coming? It's like *[UNCLEAR]* passes without *[UNCLEAR* any exams]. Why go to the dead? But the Christian nations are so *[UNCLEAR]*, is supposed to be the heart of *[UNCLEAR]*. Every tenth house somebody sitting with a *[UNCLEAR]* talking to the great grandfather to know where *[UNCLEAR]* the property, or some such a thing. Every tenth house you see and so much. Then whatever was less then was completed by the Gurus from India.

Some of them came out of the jail. They had no place to go, they wore those dresses and went out. *[UNCLEAR]* straight *[UNCLEAR]*. Then some of them are so *[UNCLEAR]* and they became Gurus. Whatever they talk is horrible Hindi or horrible Marathi or whatever it is, *[UNCLEAR]* English. In English *[UNCLEAR]* politically, openly, ego-oriented, but *[UNCLEAR]* sly *[UNCLEAR]* superego.

And these Gurus are *[UNCLEAR]*, there's one who wants Rolls-Royce. He *[UNCLEAR]* asked for a Rolls-Royce. He has got 58 and wanted the 59th. Actually he wanted to buy *[UNCLEAR]* but somehow it puzzled out. And that's how the people are there and it is very *[UNCLEAR]*, who don't want to eat their food without the *[UNCLEAR]* are held by their *[UNCLEAR* tails], by these horrible Gurus.

Without knowing how much they are *[UNCLEAR]*. And even grown ups and old *[UNCLEAR]*. There was one lord's son who died. He was trying to fly in the air. The father and mother were downstairs, father about 70 years of age

and *[UNCLEAR]* trying to fly downstairs and upstairs was the daughter-in-law and the son. And the son collapsed, he died.

So the lady, the wife came and told that he is dead.

So they were very happy, he is now gone to heaven, he has achieved his last, now imagine these lords, these scholarly lords. And some Sahaja Yogis went to tell him, he says, “Don't tell us, don't come in our happiness and joy, our son has gone to heaven and we are all *[UNCLEAR]*." Can't understand this. What has happened to the brains? They are told that you take a drum, stand on Oxford street, wear that horrible dress, go on dancing in God's name and *[UNCLEAR]*, then you'll go to God. How will you believe such nonsense? And for Sahaja Yogis, I must tell you, I had six of them. All scholars turned into hippies, scholars from Oxford and from Cambridge. Oxford you know, ford car combined with an Ox. They really, completely exhausted Me. Four years I worked on them. I said oh God, these stones, what am I to do with them? They liked the food I cooked, the liked the house I lived, they liked the way I was, everything, but nothing happened to the Kuṇḍalinī. And then it did happen. Very difficult nuts to crack but now *[UNCLEAR]*. They found out that Sahaj Yog, it is spontaneous in Sahaj Yog. Everything points to Sahaj Yog, everything points to Kuṇḍalinī awakening. It's there, they recognized, logical *[UNCLEAR]*, absolutely logical *[UNCLEAR]*. I am here because of them, I should say.

They always *[UNCLEAR]*. They have a guilt about Australia that they ill treated people for very little offenses, when people steal the bread and all that. They sent away these

people *[UNCLEAR]*, now *[UNCLEAR]* thank God, we are here. It's a heaven. You got heaven in punishment, compared to that dirty London, now a days. It's nice to go and see. Every time you go out you have to have an umbrella, even people play foot ball with an umbrella in their hand. It's a mad place *[UNCLEAR]*, I don't know.

But it is the heart of the universe. Everything circulates from there. All your laws, all our governing things, everything comes from there.

So I had to work very hard, I know. But now we have really beautiful Sahaja Yogis, which *[UNCLEAR]* tremendous. And thanks to William Brake, he has already prophesized so much about Sahaja Yog, about what will happen, even where I lived, where ashram will be, everything so much in details. That now things are getting very much better in *[UNCLEAR]*.

So now we come back from there, to our Āgñyā Chakra, the center where Christ came in. There is ego and superego. He came at a point which is in the center of the ego and superego, which is controlled by pituitary, the ego is controlled and the pineal body controls the superego. In between them, in the Optic Chiasma, in the center of the Optic Chiasma, He came. That's why eyes are very important for Me.

Because eyes are controlled by this center. There are two petals that, hum, ksham. These are the two sounds that come out of those two petals, ham, ksham. On one side is ksham when the person in superego, *[UNCLEAR]* who like domination, who like beating up and all, I mean the extreme cases. In India we do not have this extreme type, we have people who are submissive or we have

people who are arrogant, at the most. But this the husband beating the wife, with a hunter or some women liking, this kind of nonsense I have not heard of. But you see, you go to such extremes in everything whatsoever. “All right. If we have to be suppressed all right, let us get beatings, let us go on suffering." Why should you suffer? Christ has suffered for you. What is the need for you to suffer, I just don't understand. And make a drama out of it, “We are suffering *[UNCLEAR]*." Like the French. French are very *[UNCLEAR]*, very difficult people, you can't *[UNCLEAR]*. They think they are very *[UNCLEAR]* making everybody miserable. In the same way, we also take to this kind of an idea. “Oh we are suffering, we are very unhappy people” all this sort of nonsensical emotional dramas we play and “Why are you laughing, why are you enjoying yourself?" Like I went to France. I told you the story. They said, “Mother, don't say that You are a happy person. They won’t like it. They will say you are not sensitive." I said, “Really?" Then I *[UNCLEAR]* laughed at the whole stuff. But this is what it is. We go to the extremes, we torture ourselves we go on condemning ourselves, “Oh I am so bad, I am good for nothing, I am useless." We had a gentleman like that. He did only one sin is to *[UNCLEAR]*. That man *[UNCLEAR]* never *[UNCLEAR]*. What a *[UNCLEAR]*, he himself was a horrible, licentious man and he writes about *[UNCLEAR]*. This *[UNCLEAR]* did it. Now he became the prisoner, you see, without any prison, without anything. He is the prisoner, this gentleman, his name is Ronnie. And Ronnie means the one who cries in Indian language, ronie.

So this Mister Ronnie all the time used to cry, weep, sleep in his bed, have his food in his bed, “I am very sorry, I am this and that." His mother got fed up with him. Wife ran away, also he cried for that. His son ran away, he cried for that. The mother said *[UNCLEAR]* so he cried for that, “She doesn't love me." And he came to Me, he said, “Mother I would like to wash your kitchen and *[UNCLEAR]*." I said, “You see there is no need, I have got My own people here, *[UNCLEAR]* you don't have to clean. Now will you please change your attitude towards life?" He said, “Mother I'll try this, I'll try that." *[UNCLEAR]* gave him Realisation, tried to. But he *[UNCLEAR]*. I said all right. We sent him back to his mother. Three days later she rang me up. She said, “You please take your son away from me. I am fed up of him. He has come here, he is weeping in his bed as usual. He has gone back to the same and he is doing no work. I have to cook for him, otherwise he starves himself. He thinks he is the most miserable man, you better have him." You see this is the *[UNCLEAR]* is the superego people, one side. The another are the *[UNCLEAR* aggressive].

Actually, the way aggressive people can become also people, because they are afraid of *[UNCLEAR]*.

Like in England, I was surprised people are very frightened, very frightened. Extremely frightened people.

Indians are not like that. I mean a few *[UNCLEAR]*. You better telephone to them and go to their house.

Otherwise if you go and knock at their door they might die of heart failure. They are so frightened, you see, most surprising. Extremely frightened people. And you cannot say anything to them. They just get like this. What are

they frightened about? I don't understand. Extremely frightened people they are.

In India it is not so. In India, supposing somebody comes here tonight immediately you think, oh may be your friend has come, he may be in difficulties. Immediately the husband would ask the wife, “You have sufficient money in the house? What have you got? Some ornaments? He might need some money.

Otherwise why has he come? Or may be some problem with him." It's like that. You just open the door immediately, without thinking.

And the things in India don't knock at the door and come in. I mean, they are not expert burglars you see, as we have in England. They are naive still.

So their thieving also is mostly of no value. Actually in My house, in My father's house, we never locked our houses, never. All our doors were open, morning till evening. And father said, “If you lock the house then people will think, there's something in the house, that's why it is locked. Please keep in open." We leave everything open and anybody can walk in, in the night *[UNCLEAR]*. I mean, we were like that. But now we have learnt how to thieve and how to do things and that's why the problem is different.

All right, so we have Christ in this place, where this red mark is, sitting at the crossing point. And this crossing point He has done for us. He has taken our Karmas, the sins upon himself. The Hindus should now realise that they need not go about with their Karma theory, *[UNCLEAR* befool everyone]. They do not want to talk of Christ, because now their Karma theory fails. If He has been sacrificed for our sins, either He was a false Guru or they

are true Gurus. Then how can we build up our Karmas? If we become the spirit all our Karmas will be sucked by Christ who is awakened in that.

So all the Karma theory has no meaning. All the *[UNCLEAR]* go away. All these ideas must go away.

And when I talk about these things, Hindus blame Me that, “You are a Christian." But when I talk about Kṛiṣhṇa, the Christians say that, “You are Hindu." Some say I am a Muslim, some say I am, but what am I? I am everything I think. Because I know all of them are one, in one body in one personality, they all exist. In one personality in every human being and no use disintegrating them and suffering the problems of disintegration. “I am a Christian” “I am a Muslim” “I am a this." You are a *[UNCLEAR]* because you are born in that. Do you think about it? You accept it just because you are born in that.

What have you got? What did your forefathers get? All your people have been going to the same thing.

You are a Hindu, you are doing like a Hindu rituals. If you are Christian you are doing like a Christian rituals. If you are a Muslim you are doing like a Muslim family. It's all that nonsense you have been doing for ages together. Did you get your Realisation, is the first point. Even in the Gītā the first thing He said is that if through Veda, Vid word means to know and Veda means by which you know. If these Vedas cannot make you know, then they are useless. They themselves have confessed it.

So we see here Christ, standing at the gate of three centers, three powers, Mahākālī, Mahālakṣhmī, Mahāsaraswatī. He is the one who's is controlling all these three powers within us. By one power He controls

all our superegos, He controls all the devils and spirits. If you show the cross the devils run away.

It's common. He controls our ego on the right hand side. Though the Christians are the most ego-oriented.

Whatever they profess, they are just the opposite. And then He controls the Dharma within us by which He makes us rise above towards spiritual *[UNCLEAR]* to be our spirit. He controls that center within us. And this center is the center where your eyes become pure. That your superego at the back is clear, that your ego is sucked in and from your eyes flows nothing but just compassion. Just compassion and love of God and the devotees have a *[UNCLEAR]* and nothing else.

One lecture is not sufficient to describe Christ. Nor it is sufficient to describe Śhrī Kṛiṣhṇa. I have spoken for hours, days together and this lecture has taken too much time because I have tackled two very important centers together. I hope you will not sit on certain words or certain thoughts and just try to renounce the truth. This is the truth. I have come here to tell you the truth and not to please you, your ego, to please your ego, or to excite your superego, but to comfort you. And to make you your Self, your spirit.

May God bless you all.

[To a seeker:] You have been asking too many questions. You better come and see Me. All right? That will be better because you must be satisfied. All right? Just too many questions also, why? Just take it.

First of all, get Realisation. Get Realisation. Did you read the book Advent? Question: [about cosmic consciousness.]

Shri Mataji: What is cosmic, it's not cosmic. Cosmic is something to do with your five elements. I know, just a minute. I will tell you. Sit down.

You see cosmic consciousness is a consciousness which develops when you have interest in the matter.

Cosmic consciousness, part of it is shown now by your knowledge of science. This is the cosmos. The spirit has nothing to do with the cosmos, in the sense that this matter is just a lamp for the light. Light is the spirit. The so-called cosmic consciousness is actually achieved by the movement of the mind to the right hand side, which is the supraconscious area. In this movement, before realisation you are helped by people who are busy bodies, who are anxious people, who are lying on the right hand side. Like you feel you are flying in the air, you are *[UNCLEAR]* your body, you are sitting on a tree, or suddenly *[UNCLEAR]*, some people are *[UNCLEAR]*. They know about the *[UNCLEAR]*, where the *[UNCLEAR]* is. All these suggestions come to you from the supraconscious area.

Sometimes you start knowing about certain stars. There are supraconscious people in Colombia *[UNCLEAR]* take this LSD and there are some drugs like that, if you take to, you go into supraconscious area. You start seeing colours and formations. Beyond that also these people were so surprisingly supraconscious. You will be amazed. I asked them, “Why do you have *[UNCLEAR]*." They said that, “It is because our old Indians told us that one it can be from *[UNCLEAR]* from India." *[UNCLEAR]*.

So that kind of a development is not necessary now. That time is over. When people wanted to build up the right side they tried to create their knowledge on the right side

like using Prāṇa, then using all these five elements, the Vedas and all that. Now you are developed, your ego is developed all right. Now the time of development is such that you have to become the spirit. You don't have to, you don't need it. By your knowledge of cosmic consciousness only you discovered the ether, you discovered the gravity, you discovered so many things. Now all these things that you have discovered are going to help the Sahaja Yoga. It's meant for this time. Like you make a stage. For the stage you put lights, you make all adjustments for sound everything. But the people who have to be on the stage are you. Your job is to be on the stage.

You are not to bother about the stage arrangements, that's all done. That's all finished. Now you see this mike, *[UNCLEAR]* such a simple thing. You know this mike, on this magnetic emission, I can put the spiritual power to you, as I told you, it is the lamp that carries the light.

So this is the carrier. If I put it here like this, say I put it here, then I know that you can hear Me the same way as you hear Me.

Contents: 1981-04-02 **Arrival, Airport, Melbourne, Victoria, Australia**

[To Sarah Frankcome:] I don't need to buy any [perfume], as I made all the fragrances, you know.

Contents: 1981-04-02**, Public Program, Day 1, The Pure Power of Desire, Exhibition Hall, Melbourne, Victoria, Australia**

It is really gratifying to come to Melbourne. I came here because somebody who had come to Sydney and said that “Mother, You must come to Melbourne. We need You." When I came here for some other purpose, I felt vibrations of Melbourne are really very good and here it is quite possible that there may be many seekers.

It is really gratifying, as I said, to be here among you. It's a fact that the time has come for thousands and thousands and thousands and millions of them who are born as seekers on this earth have to get their realisation. They have to know their meaning. They have to know why the nature has made them a human being from amoeba. What is the purpose of their life? Unless and until you find the purpose of your life you are not going to be happy. You are not going to be satisfied. You may try anything else.

You may have one of those ego trips, you may have other trips like seeking money. You may have other things like going to drugs, alcoholism, liver-cation, all kinds of things. But these things have not given any satisfaction to anyone. You have to find out that absolute without which we are in confusion.

That absolute is within you. That's why Sahaja Yoga is as spontaneous thing, is a living thing. `Saha' means with, `ja' means born. It is born with you, as in a seed. All the maps of the seed that it is going to manifest are built-in. In the same way within you, your spirit and your Kuṇḍalinī are all already existing there and they are just waiting for a chance to give you your Self-realisation. Before telling you about the benefits of Self-realisation, I have to tell you that you must keep your minds open as

you would for any science lecture or any other lecture. There's no jugglery or there is no shopping, Guru shopping in Sahaja Yoga. It is a happening; it's an actualisation. It is within you. It's a living force, like a flower becomes a fruit or an egg becomes a chick, you get your realisation and you become a different personality.

A new dimension of awareness grows into you and this new dimension of awareness is an actualisation, it's not just a mere words or any kind of a brainwash. It is an actualisation within you which happens by which you start feeling the collective consciousness. You are a part and parcel of the whole, so many have said it. We also believe in it that we are the part and parcel of the whole, but so far in our awareness, in our central nervous system, we have not felt that.

So this is actually should happen to you. In this we have to accept, whatever is nourishing for our growth, after realisation. Gradually you start accepting and I tell you why it happens. But the thing is in Sydney I found that people are extremely honest about their seeking and they really appreciated My honesty.

This is a process which was built in since long within us. Here that you see different Chakras. These centers are placed within the human beings and they exist as subtle centers in the spinal cord and in the brain. These are called in Sanskrit language as Chakras. These centers exist within us as milestones of our evolution. For example, the lowest Chakra, called as the Mūlādhāra Chakra, is the center, at that point we were carbon

atoms, we were matter. At that point we were innocent; matter is innocent.

So the first thing that was created within us was innocence. This whole universe was created after innocence was created. This Chakra is placed below the Kuṇḍalinī, if you see it clearly. Kuṇḍalinī is the pure power of desire. Pure power of desire. Whatever is pure we call it holy. Is the holy power of desire, which remains dormant. This power is the desire to be one with the spirit. Without knowing the spirit, you cannot know God.

You are to be input to the mains. You are not yet put to the mains. For example, this instrument [microphone] that we have made if it is not put to the mains, it has no meaning.

So that has to happen.

It's like the primule in the seed, a germinating power in the seed, that you have got this power, residual power sleeping, waiting for a moment when somebody who is authorized by the Divine and not by any organization or certificate that human beings give you, but somebody who himself is a realised Soul as an enlightened person and he knows what is this power is. It waits for such a personality and then it awakens itself and you get your Self-realisation. It has to be spontaneous; everything vital in life has to be spontaneous. The breathing that we have is so spontaneously going on that we take it for granted till it stops, or till we feel that we cannot breathe. If you have to go and read books or putting some efforts to breathe, then how many of us could even exist for more than say five minutes? It is so vital, is the culmination of our evolution and as the whole creation was created by

the Divine, as you are also created by Divine, this great happening is to be done by the Divine.

Now some people asked Me that “Can it not happen by itself to us?" We do not know that at every stage of our evolution some aspect of God had to incarnate or some guidance had to come from the Divine to give us a higher awareness. But specially at this time it is very important that somebody has to do it because you have reached a stage where you have to know it in words and Divine had to speak. It's a very common question that in, I think people are ego-orientated, they said, “Why You, Mother?" I said, “You better be there. I *[UNCLEAR* would] be very happy if you could do it because I am a happily married woman, I don't need anything from anyone, I have to just give. But if you can do My work, I will be very happy to retire." It's very easy to say, “Why You?" I mean, you should ask God why He gave Me these powers. But they are there, but one need not feel hurt about it so much also. After all you have some many powers which I don't have. For example, I don't know how to drive, really I don't know. I don't know many things, even I don't know how to open ordinary cans; but if I know how to open the Kuṇḍalinī, why should it hurt your ego? And why should you feel bad because I have to really work day and day out. To do this work, it's something just a gift to you. There is no shopping; you can't pay for it. It is beyond your control. To conceive God, you have to see, as the reality is. You have to give up your conceptions.

Supposing I had conceived a hall before seeing this, I would have had funny ideas, but after seeing it only I really know what it is. In the same way people have

written books, thousands of books they have written or even millions of books they have written, so what to do? If they have written the books, have they given you any Self-realisation? Have they given you that experience of the absolute by which you know yourself, you know your centers and you know the center of others and you start manifesting your own powers? You become the master of your powers. This is what should be the criteria of your seeking.

Why should you be identified with anything else but yourself? Because I get people belonging to this cult, or this group, or this religion, or this and that. But you must understand that you are not here to be pleader for any one of them. I mean you pay them to be their pleader or to be their lawyers or solicitors, whatever you may call it. But you should really try to honestly seek the truth and ask for this truth and then only you will get the truth.

So first thing one should understand that you cannot purchase Divine. You cannot pay for it, it is an insult, it is an insult. And secondly you cannot put in effort for that. When you have to sprout a seed what do you do? You put it in the Mother Earth and she sprouts by itself spontaneously. It has got that force in it; only have to put it to the Mother Earth. And the Mother Earth by her warmth germinates the seed. Do you get angry with the Mother Earth for that, that, “Why must you do that?" If she has to do it, she has to do it. Whatever the sun has to do, has to do and whatever you have to do, you can do and whatever the animals have to do, they do. If we understand that we have not yet achieved what we wanted to, then you will realise that there is a very little

gap. The Kuṇḍalinī awakening takes split of a second, but its rising may take more time in certain people because of blockages in the center or maybe some imbalances within us.

In short I will try to tell you what is the Kuṇḍalinī and what is this picture about. I hope you have got some books with you; you can also open and see for yourself. Those who haven't got books can also get from them. It will be easier to understand it. At the back of the book you will find a nice chart.

Firstly you have to be honest about your seeking, absolutely honest about it then everything will work out. Now here you see this chart is the first center called as the Mūlādhāra Chakra, as I said and the sacrum. See the meaning of the word sacrum means sacred. Sacrum is the bone in which the Kuṇḍalinī is there. I would like you to see from the top this blue colour balloon like structure comes down up to the first Chakra. Now this represents a subtle force within us, which is the power of desire. It manifests outside the left sympathetic nervous system. This is the emotional side of a human being. It's not only emotional.

This is the one that takes conditionings within itself when we say, “Don't do that, don't do that, don't do that” and creates by its activity a balloon-like structure called as superego, which is in Sanskrit called as mana.

So this is the power of mana, of mana Shakti.

English language is a little confused. When you say “mental cases" you do not mean the mental cases that has something to do with the mind which thinks. But when you say mental cases, you mean to say that they

are the people who suffer from emotional problems. It's a little confused thing, but in psychology it is very nicely described by Jung, who was a realised Soul himself, the superego and the id part is this power by which we get all our conditionings within us and we pass it to our past. Beyond this area on the left hand side lies, beyond the subconscious, the collective subconscious, all that is dead since creation lies this side on the left hand side. This manifests, as I told you, the left sympathetic nervous system. Now in the medical science there is no difference between the left and right. But you will find out that they have entirely two different functions. The left sympathetic nervous caters to our emotional side, which can be proved in Sahaja Yoga practice.

Now on the right hand side there is another power, which is the power of action. When we desire, the desire has to be put into action. And this power of desire is called the Prāṇa Shakti or the power of action, the kriya Shakti some people call it and it looks after our intellectual side, our intelligence and the mind, with which we think about the mental side and our physical side, through which we go into action. This as a result of its activity creates another balloon you can see there a yellow colour balloon, which we call as ego. E G O, ego. And this two powers meet at a point. When the child is about, say, twelve years of age, he is completely calcified here. But in childhood only, you see, at the age of, say, one year or one and a half year, you start feeling the calcification of this soft bone called as fontanelle bone.

In the center is the third power called as the power of evolution, the power of sustenance, the power of religion,

which is innate within us. Now `religo' means a capacity, you can say a quality. Like gold is untarnishable; that is the quality of gold. Carbon has four valences; that's the quality of carbon. In the same way, human beings also have got ten sustenances and these ten sustenance are the Dharma or the religions of a human being. It has nothing to do with outside religions, whatever you believe into or whatever you have fallen into or you are born into. But there are ten sustenances within us, which are in this area, call as, we call it Void, but it's not the same void as the Zen says, but is the visceral cavity. In this area we develop our sustenance. By developing our sustenance only we evolve.

For example, first a fish came out of the water and developed a sustenance by which it started crawling and it became a reptile. Firstly only one fish came and then shoals and shoals of fishes started coming out of the water.

So the evolution went on like this till we became human beings. In this process, as you know very well, the left-sided and the right-sided animals, the right-sided are the more ambitious, the dominating type, the left-sided are the sly. As you have many nocturnal animals, they are all left-sided, they are frightened and live in the left and those who are aggressive are on the right hand side. They were discarded, even some vegetables and what you call the plants were discarded in the process of evolution.

And they were thrown on the right and left side. And God created man in His own image. That means man has everything that God has. If He is the primordial being, He

is the macrocosm, then you are the microcosm, you are a cell in His body, but you are not aware of that. There's a difference between awareness and just consciousness. Awareness is an actualisation, while just to be conscious means mentally you believe, rationally you are a conscious, “I know that. We think we are brothers and sisters." Now the centers that are placed within. The first one, as I told you, is the Mūlādhāra Chakra. You will be happy to know that in the universe Australia is the Mūlādhāra Chakra. It's a fact; you will know that on vibrations, if you ask a question you will know. Basically you are innocent people. You don't know also when you commit sins that this is sin, you just do it very innocently. You don't do it knowingly, innocently you do it. And the second center is the center called as Swādhiṣhṭhāna Chakra.

The first center manifests your pelvic plexus. The right side, as I told you, manifests the right sympathetic nervous system. The center one manifests your parasympathetic which is broken, which is not yet complete. Whatever you have achieved in your awareness as a human being is there and there is little gap where you have to just break through into that and become united with that force.

Now this second Chakra is the Chakra called as Swādhiṣhṭhāna Chakra, you need not worry about the names, but is the center for action by which you think, think for the future. And this center looks after many other visaras or you can say organs within us. It looks after your liver. All attention is looked after by this

center. Liver, then it looks after your pancreas, your spleen, your kidneys and uterus in the women.

The most important function of this center is to manifest the aortic plexus in the gross and to convert the fat cells of the stomach to replace the fat cells of the brain because, after all, the fat cells of the brain are to be replaced because you think, think, think, think and go mad with thinking. You think so much that as if two horns are coming out of your thinking. You may say the other day that “Mother, mind is very important because mind is the problem." Don't you know that this mind is limited? This rationality is limited. You have to go to unlimited. When I have to come to this hall, we had to leave the car outside.

This mind can go up to a point and if you try to go beyond that, then you really go crazy. We don't bring the cars inside, in the same way this mind cannot take you to the unlimited. It's a limited thing, you have to go beyond the mind.

This center is doing this work of supplying the fat cells and when you think too much all other visaras or all other organs are not looked after, are neglected by which the person who thinks too much, who lives in the future, who plans too much, also then drinks in addition to that, supposing and in addition to that he does other things like drug taking in the stomach and eats lots of fat food and all that, so he really finishes that poor liver. And that liver is the one that sorts out all your poisons in the body, all kinds of poison. But this liver gets out of order and you don't feel it. Only the heat starts accumulating, you

feel always nauseating and you feel so unhappy, you don't want to face the present, you want to run away.

You feel extremely horrid; you don't know what to do with yourself. All that comes from a bad liver. Also apart from liver your pancreas goes out and you develop a disease called diabetes. With that you also try some coffee and all those things, which add up. Coffee, the amount of coffee that people consumes, sometimes I can't understand. And that coffee can really spoil the pancreas to such an extent that you can develop even more serious diseases than diabetes of the pancreas.

Beyond the pancreas lies the spleen. Spleen is the real victim of modern people, real victim is poor spleen. Spleen is the one which is the speedometer within us, it regulates your speed. When you are eating your food, you suddenly open the news on the TV or something, horrible things happen. You get so shocked and emergencies built-in. This spleen is already the busy producing RBCs, red blood corpuscles, for the digestion of the food and suddenly it has another emergency and a third emergency. The way we take our breakfast, half sandwich in the mouth and half outside stepping into the car, telling your wife that do this, do that and then rush through the rat race, ending up yourself into a very crazy spleen. The spleen does not know how to carry on with your telescopic behaviour and it goes so very crazy that it starts producing crazy cells and these are the crazy cells which create ultimately a very serious disease called blood cancer.

The other day somebody asked Me a question, “Mother, how the children get blood cancer?" I said, “If I tell you,

you shouldn't be angry with Me, but when we are after the life of our children, poor things, they are small children." We are trying to make them good citizens.

So this crazy spleen becomes absolutely uncontrollable, it start producing blood cells which become malignant. They go at random, any time and the malignancy starts where one cell becomes very big, unique, as we are also malignant people sometimes. You want to be unique people in the society, engulfing everybody, encroaching on other people, in this competition we want to have everything to ourselves and by the time you are old, you find your hands are shaking, feet are shaking, you can't walk properly or you develop diseases like say, heart attack or a stroke. This rat race is very competitive. Competition for what? Everybody should be able to grow in relation to others. For example, if your nose only starts growing like that, not in relation to your body or face, what is going to happen to the rest of you? To be on your own, “I'm on my own” and then you start growing without any relationship or coordination with the other parts of the society, other parts of the world, then you become malignant. You lose all balance; you don't know what you are doing.

This is the tragedy that when this happens to us we are so ego-orientated that the pangs are not felt till you reach a stage that suddenly you find a person goes, they, you call it in English `ga-ga,' they call it in American English. You find them, they can't talk, I have seen in Paris.

Some people, not very old, younger to Me in age, walk into a bus and they are talking loudly all sorts of French

words and I asked” What are they doing?" They said, “Mother, they are talking about last war." I said, “Why?" They said, “They just go on talking like this, they are gone." They are, what did you say, out of the deck. Because you are having such a running jump towards the hell that the progress, so-called, will make our society into very funny people, who are jittery, who are twitching their heads, necks and everything and their children are so aggressive that it is impossible to understand why they're behaving like this. We have to understand that we are part and parcel of the whole. And anything that is done without the relationship of other can create tremendous problems for the whole world as it is and it is creating.

The second center is very important for modern people, as I told you, because when you start thinking too much also, what you do, you use your right side and the left side gets frozen. By improving all your thinking processes, thinking too much of the future and planning and of course most of the plans go waste.

Such a lot of energy we waste in thinking that we find that if we had not thought so much, we would not have been that much frustrated. The planning also to such an extent doesn't help in any way. Supposing I have to come to this hall and I do not know the way. What planning can I have? I have just to ask somebody how do you go there and face as it is. Supposing a seed has to grow into a root, does it have any planning before hand? It does not. What it does is that it faces. It's a little cell but so wise. It knows that there is an obstruction, no use fighting with this rock, so it goes around, all soft places it

pierces and gets itself embedded sensibly and wisely and uses that rock, uses that rock for the strengthening of the tree.

So when we try to dominate others, I mean the sophisticated, the more sophisticated you get, the more sophisticated this ego gets and with that sophistication you are very pleased. “Sorry” “Yes" and all those things are there, but inside a big Mister Ego is developing like a balloon. And it presses down your superego and it comes down. Now the gap that is between the two or the place where it should be is not there and ego presses down the superego till superego starts seeing the colossal ego. And then such a person takes to escapes, it takes to alcohol, which gives rise to superego or it takes to drugs and all kinds of escapes in life to run away from his own ego because he can't bear it. Now the wobbling starts, the ego and superego start wobbling and that's how you get people who are absolutely confused. Moreover, to add up to the whole problem, the modern times are the ones that in this confusion Last Judgment has already started. Through your Kuṇḍalinī awakening only you will judge yourself and correct yourself and you will enter into the Kingdom of God. These confusions actually have led human beings to such frantic, precarious ages that Sahaja Yoga had to come on this earth to solve the problems once for all. After getting realisation it's so remarkable when you find your absolute through Kuṇḍalinī awakening and see people overnight they give up so many things.

Like I know of an old man, very old man in Singapore who is a very well known, very rich man and a very well

known personality. And he got his realisation and he told Me that “Overnight I gave up my gambling, I gave up my drinking and I gave up my racing." These are also escapes in life, these are all escapes because we are so bored of ourselves. Imagine a person is imprisoned. If he is just imprisoned in a nice place, he should not feel upset, after all it's a very good thing to face yourself that's the most beautiful thing we have. But because we are so *[UNCLEAR* frightened] of ourselves only that we don't want to be left alone, we think we are lonely. We want to run away from ourselves. We want to have somebody else, it's better to have somebody else and even if somebody else comes in, we do not want to face him squarely, but we want to have something in between, like a bottle of beer or something.

After realisation you first time start enjoying each other. You first time start feeling the vibrations on another person and you really enjoy the beauty of another person through this Cool Breeze that is coming out of the being of that person. And this should happen to all of you. You all should achieve it, it's very important because you are out and out seekers. But first you must have your self-estimation.

You must know that you are not here to play these games with yourself. All kinds of games are available.

The industries have provided, the Industrial Revolution has provided, all modern thinkers and the books and all that have got it and to add to it, Gurus have come from India to supply this demand market.

So the picture is complete. This should not upset you, because behind all fakeness and falsehood there has to

be reality. If you see thousands of artificial flowers, you must know there has to be one real rose.

And in the same way behind all this falsehood and confusion there is reality which is so beautiful within yourself, which you have to achieve through Kuṇḍalinī awakening. In short now I will tell you about the other centers because if you go through this book, you will know about the names and things, but in short I can tell you.

That the third center is the center of our seeking, is the center by which we are seeking, is the navel center, is by which amoeba, an amoeba felt hungry, he was seeking food. In seeking food only we went up to the stage of, say, mammoth and all these big animals. But they were such unwieldy big things that they could not maintain themselves.

So then the intelligent animals came in. In that also some of them were very horrid ones like foxes and all that. Then very powerful animals came up who had more physical power than their big body. Like that we developed with this seeking up to a point when we became really human beings and when we became human beings we started seeking things like possessions, if not possessions, like power in politics, economics, social work, social things and lastly the Spirit.

Spirit is the solution for all of them. Without the light you cannot see anything in this world. I cannot see you without any light in there. To Me, in darkness you are nothing but darkness. I don't see. I cannot relate one to another. I do not know who are sitting here and listening to Me, but once there is light you can see everything

clearly and that's what it is happens. That when you get your enlightenment you become the master of yourself. This is the end of the seeking which starts. In this seeking only, around the seeking are, our sustenances are develop gradually and ultimately we become human beings. And for human beings there are ten sustenances described in the Ten Commandments. When I talked about Ten Commandments, one gentleman got very angry and said, “You are a Christian, you are a Christian, you are a Christian!" But Ten Commandments were written when there were Jews, they were not written...

Moses was not a Christian, he was a Jew and the Jews got angry with Me that I was a Christian. Moses, Abraham, Confucius, Socrates, Mohammed, Nanak, Janak, Lao Tze, these are the primordial masters.

The principle of primordial masters, the Ādi Gurus, who incarnated on this earth to teach us how to keep our sustenance. They taught against all alcohols and strong things. Christ did not talk, but it does not mean that when he said he converted into wine means He fermented the wine. You cannot ferment the wine in a minute, you understand that. Wine is a very common word, even today if you go you'll find that wine means grapes. I mean even the creeper of the grape is called a wine, even the juice of these is called wine. Now to differentiate we have started to call it grape juice. But it is very, very *[UNCLEAR* loose, but your will be very surprised it is a very confusing]. About fifty years back people must have started, or something like that, in India, but may be abroad, I don't know. Even today many

people call it a wine rāksasia, even in Indian language it is called as the wine. Any grape juice is called as a wine.

So there are many other things which these people told us that you should not do, to keep yourself in the center.

Now I divide our mistakes in two categories. The first mistake we have is not to believe that God Almighty is going to look after our well-being. Kṛiṣhṇa has said very clearly that “Yogakshemam vahāmyaham." Meaning “After Yoga, after union with God, I will look after your well being." That means you should get connected. Supposing I am not an Australian citizen why will Australian government look after me? In the same way if you are not the members of God's community or if you are not entered into the Kingdom of God or if you are not a citizen of His Kingdom, it is not His responsibility to look after your well being.

I mean of course He has created you, so He looks after. But otherwise it's not certain that He'll look after you. People demand so much from God, they think they are already connected. They treat Him as if you can find Him somewhere under the stone. They go on demanding. “Please look after my son, please do this” praying morning till evening. I mean it's pestering. When you are not connected with God, if you go on doing like this to any human being also, you'll get arrested. And that's what happens, that we live under myths, “Oh, I have been praying and God has given me this and I have been doing this." But we don't see, do we deserve it? Are we the Spirit? Have we tried to be the Spirit? We have done all kinds of things but to be the Spirit. When you are the Spirit then you are really blessed, really blessed not only

by His powers but you become the master of your being and you start manifesting your own powers.

This seeking and the surrounding Dharma which is looked after by the primordial masters is another center here, above that is the center of the Mother of the Universe, who gives us the security. This one when spoiled, the sense of security spoiled, especially among women, when they feel that their husbands are negligent or they are flirting with other women and all sorts of things, then this center goes out of order. When this center goes out of order, then they develop diseases like breast cancer. Breast cancer is more common in societies where they have divorces. I have given a regular speech on this which you should get from Sydney and you will know all about it.

Now the right side Heart, which you see here, is the center of a Father, the left one is the center of the Mother. The right side Heart center catches when as a father you have not done your duty or if your father has died very early, you were shocked, then also it can happen. Anorexia and all these diseases can be also caused by this kind of happenings or also asthma. Asthma, is invariably, is caused by this center going out of order. The left side is the center of the Mother. Our father and mother we chose, before our birth we chose them. It was foolish to choose horrible parents. We better pay for it. In one lifetime it is better to pay for the horrible ones so that next time you won't have them again. But we are not to judge them. If they are not seekers, it's a very difficult thing to live with them, I know. It's very difficult to live with parents who are

morning till evening counting every penny, counting every tin, which are emptied, every tube that is emptied, they store up, they are so materialistic and you just can't bear such people, I can quite understand. Even a wife could be like that and a husband could be like that, extremely materialistic, you will be fed up. They write down everything, every lamp post they must know, count everything.

Today a lady who interviewed Me asked Me, “How many people, Mother, have You given realisation and how many people You have cured." I said, “You better ask the sun first of all how many leaves it has made green, then talk to Me." I never write any accounts, leave alone of human beings, even of money.

I never write, I have no time and I have no understanding as how to write accounts. Next life maybe I will be an accountant for you.

So this happens to us when we become against our parents. I don't say that you should carry on with mad people, there's no use asking the bull to come and hit you, is correct. But you need not judge them.

You can leave them, stay away and do not have them in your life, it's all right. But if you are taking interest in them as well as fighting with them morning till evening, then you catch on this Heart Chakra.

I would say that in this respect Indians are sensible people. They are very sensible that they keep their parents all right. And the parents are also yet very sensible people. They love their children; they give everything that they have to the children and children start really loving their parents, till they die they look

after them. The result of that is of course very bad, because here in all the Western countries the parents are still in a bridal mood, I mean they are brides and the bridegrooms, you see, they never become old enough to be parents. Even an eighty-year-old man you'll find marrying an eighteen-year-old girl. I mean it's a thing going on all the time. God knows what sort of intelligence is that. But with all that happening poor children do not know which parents to be chosen. And the last judgment has started.

Now, what to do? Now you place yourself in their places and think what would you do when you know such crazy parents that today they are together, tomorrow they are divorced. On the streets they will be kissing, hugging each other, doing all kinds of nonsensical things. Very embarrassing also and if you ask them, “Where are you going?" they say they are going to the divorce case.

These kinds of absurdities are taking place and because of that children don't want to get birth in all these places: England, Germany, Switzerland, everywhere. The birth rate is towards the minus side. In Germany especially, West Germany and East Germany of all the things people give so much money that a woman if she produces three children she earns more money than their prime minister. But still women don't want to produce. They want to be free, independent; they don't want to be mothers. As a result this poor India has to accommodate for all the children born today and we are blamed for overpopulation. Now what to do? We have to bear the load.

So also it is your responsibility to see if you do not produce children at least those who are producing children have some compassion for them and have some understanding.

Do not blame them.

Oh, everybody tells Me, “What about Your problem of population?" I tell them, “Now, who is responsible for our population? Because in that country, even if you have fourteen children, they love all their children that are there. They are not so ego-orientated that their hearts are not closed, they are not so unemotional, anybody who has no child will go to all the holy places and ask for blessings that they should get children. To get a child is such a blessing in India and child is such an important thing." But the mistake they are committing is just the other than yours. The mistake in those developing countries is that they do not believe that God Almighty is the One who is going to look after your well being. They don't believe in the power of their Father, so they do the crime against the Father, or you can say the sin against the Father, when you don't believe in the capacity of your Father.

So there is bribery, corruption, all sorts of things going on, cutting corners and money and all those things. Still in India I wouldn't say that ordinary people are dishonest. I mean our bureaucrats may be, our politicians may be and business people may be. But ordinary people are very honest in India. But this is what happens.

On the other side, you see, supposing an Indian comes to your house, be careful, he may run away with anything that you have in the house, anything, see, but if an

American comes to your house, be careful about your wife. He may run away with your wife or with your daughter. Or say an Englishman comes, he'll do it in a subtler way because he's a scholar.

So he reads some poetry to your wife and in the night you find she is missing. This is fundamental, I mean the wife who runs away like this creates problem fundamentally for the household. Just think in a house where there are children, there is husband, kitchen and all the places, everybody sleeping nicely, early in the morning they find that the main pole of the house is missing and the whole thing is collapsed. What will happen to the children, nobody thinks. Nobody understands or they think they are being in love so they must go? Men do the same. I mean there is no difference between men and women. But this is the sin against the Mother that the women have to be respectable and respected.

Housewives' position is within us here on the left hand side Nābhī and if a housewife, the deity of housewife, is not in our house, not that the woman but the housewife, then our spleen goes out. We get, children get crazy. Why aren't they being disciplined.

Somebody asked Me today, “What happens to the people like who try to kill Reagan?" I said, “Ask his mother." She must be after the life of the child morning till evening and that's why he's taking action, or is a reaction of what has happened to him. How do these complications arise has a basis in the family in the nest that is your house. You have to live in the nest as a father and a mother

looking after your children. Children are the most important things in the whole world for human beings.

Let the politics go to hell and let the economics take its own course, but children are to be looked after.

That's your primary duty. But in India we go to the other end: when we start looking after our children we don't mind selling our countries also in the name of children.

But we live with two extremes, I feel, that we sin against the Mother and sin against the Father. When we sin against the Mother as Australians, as I am now an Australian, let us face what happens to us. We go emotionally absolutely blackmailed by ourselves. We torture ourselves, we live with artificial things.

Like if a wife wants to run away with another man we will even go to get a honeymoon ticket for her because we are very considerate good husbands. Same thing with the wives if she finds that the husband is interested in another woman, she should not be jealous. In Sahaja Yoga this is not very much appreciated.

Husband has to behave like a husband. He should make his wife run the house. And the woman has to be a woman. She must see to it that no danger is brought to the children. We have no business to hurt anyone like this and we do not know how much we hurt, we give cancers to our wives and husbands.

We give all kinds of horrible diseases, mental tortures; we make them mad by our mad, capricious, very shallow understanding of our emotions. A one man starts going to another woman, then he goes to another woman, then to ten women he goes and then ten men go to ten women and end up in a lunatic asylum or in the

orphanage. I have seen in England we had a neighbour who had a very huge house. He died, he was an old man and you'd be surprised they did not discover his body for one month. Because there's no family feeling, nothing, even a rat doesn't enter that house. Can you imagine! This is what has happened in thinking, “I am separated, I am individualistic, I am exclusive." If you are really individualistic, if you are really mature individually, then you know the unity much better. Then you understand that you are the support of the whole because you are so matured. No wonder our children are not maturing. They are behaving in such a manner. We are responsible. We must accept that in our own ideas about compatibility and all this nonsense, we don't have in India, we are quite comfortable and we are producing children quite all right. We have no problems. Why do you run after these capricious, these shallow ideas? You will be held responsible for all these horrible diseases that men and women have got and the children that are going to suffer. If you have charity, better start it at home. Better be charitable to your own wife and to your own husband. Be charitable to your children. Don't go by concept of falling in love, you'll fall really and make others fall too. It's a concept, just a concept. I think some of these horrible people must have given you this concept. If you really fall in love how do you get up to marry another person? You fall, marry another person, again ready to marry another person. You are holding the hand of a person who is suppose to be your beloved or whatever it is and looking at another one. This concept is absolutely

wrong. You have to grow in love. As your own child is, in the same way is your companion.

They are two parts of one chariot, one is the left and other is the right. They are not unequal, they are equal, but they are not similar, they have their own role. And women have to take their role courageously, to be the mother. As I always say, “Look at Me, I am a mother and in no way, in any way, I cannot think I could be anything better than this." Now if I start thinking, “Oh God, I am a mother all right, but I must know how to drive” then I'm finished. “I must know how to drive a bus, I must know how to drive a train." What is the need? I saw one photographer who came to see Me. He was supposed to take My photograph and all hands were filled with blisters.

I said, “Let Me first cure your blisters. How you are going to take My photograph?" I said, “What have you been doing with your photography?" He said, “No, this, I went to a forest and I cut some trees." I said, “For what? You are a photographer, your hands are soft and deft. Why do you want to kill the deftness of your fingers?" He said, “No, we must do other things also." I said, “Why must you?" You see the nose doesn't do the work of the eyes and the eyes do not do the work of the ears. Why must you do, your hands are all finished! And this is what it is. To us we feel that men are great so we start saying that “Let's do the man's work." The man thinks, “Why should women be like this?" You are companions, you are eternal companions. You are two beautiful wheels of a chariot. This is to be grown and to be matured within you. And when this center is out, you get the problems of

this center by which you get asthma, tuberculosis and the breast troubles. Men get asthma, very serious asthma and other problems of the lungs and ultimately also lung cancer can develop.

When you work too hard with the right hand side, you are ego orientated, is that the ego develops too much. Then your left side is neglected, you become unemotional. That time your heart gives a signal, you get a heart attack. When you do too much sometimes you may escape the heart attack, but you may get a brain paralysis. We are bent upon destroying ourselves. The destruction is going to come from within, not from without. Those people who are trying to shock you, “This will happen, that the sun is doing this and..." Is nothing. It's all within you the destruction has started. You are facing it because you cannot accept it. You have to accept that this is a challenge, “I am not going to allow myself to be destroyed by foolish and stupid ideas that are around." And then in your own estimation and glory you will be surprised. After realisation you will be enriched, but without realisation, I don't know, it becomes a lecture and a lecture, just a brainwash. That beautiful thing should happen to you and once you find your beauty within yourself, overnight I have seen people changed. Overnight it happens and I hope that will happen to you tonight.

Today I have talked to you about this center and later on I will be talking to you about two other centers which are here and here. And the realisation that takes place out of the limbic area, in the fontanelle membrane, which is called as the Brahmarandhra in Sanskrit language.

Thank you very much. May God bless you.

If you have any questions you please ask Me. But questions should be something which are helpful, something which are not some sort of quarrel. I am not here to quarrel with you. If you don't want your realisation I am not going to force you. Please do not plead for any other organization or any other Guru, because I am not interested. I am only interested in you. I see that sparkle in you, that's why I am only interested in you, I'm not bothered about others.

So you do not try to bring others ideas that “This Guru has said this” or “This one has said that and this is in the book." The proof of the pudding is that you haven't got your realisation. If you have got it, then you can go out. If you are sure you have got it, I don't want to force it on you. There's no quarrel about anything. There's no election on, nothing. You cannot give Me anything. There's no shopping. It's a temple; you have come for a blessing. All right? Now you can ask the questions, all right. Thank you very much.

Warren: Any questions? What commonly happens at times like this when Mātājī has been speaking, because of these vibrations which She has been emitting, you enter the silence, you become thoughtless. You find that all the rational things that you want to ask, which is really only our ego just quietly sit down. The noisy radio gets switched off. And this in fact is what happens at the time of realisation. You enter the silence.

Shri Mataji: Realise there's nothing to be frightened about. The Kuṇḍalinī crosses this point, [places finger on Her forehead] this point and you feel thoughtlessly

aware. This is the first step. You are aware, but you are thoughtless.

Warren [repeating a question from the floor]: Most people find it too time-consuming in this modern life to devote enough time to their Self-realisation. What does Her Holiness suggest?

Shri Mataji: Firstly, are you realised or not? Have you got your realisation or not? You have got it. Now, if you have got your realisation, actually you are in meditation, you are in meditation. Now for doing the meditation, as they call it, there's nothing like doing. But cleansing is needed, because you have to be on the watch in the beginning, how the vibrations are coming, if there is proper flow or not, what Chakras you are catching. Moreover your life pattern also changes, because you do not enjoy the things that do not give you the real joy of the Spirit. And the greatest joy of the Spirit is that you give light to others. If you do not give light to others, you will never be satisfied. You may feel better because you are realised, but the completion of that or the development of your being doesn't take place, unless and until you come into collective places.

The best thing will be wherever you are, you start a little group there and meet there every weekend, or some time and meditate. That would be a very good idea; then you start feeling the sweetness and the beauty of another person. You start seeing it clearly and enjoying it. Then you curtail your timing from other things and you take to it and you enjoy it and also you grow.

Like there was one lady who got her realisation and she told Me that “Now I become very different, I don't

remember all the names of all the things that I had and all the quality of this." She was a sales girl, or something like that, she had her own business and she used to sell things.

“I do not remember all that and I am not that alert." And I said, “What has happened?" “I am very happy and joyous and things are selling much more and I am making a very big profit." It's a fact, it has happened to so many of them. That's the blessing of God. Only when I say that I am not telling you lies, you have to see for yourself, how these blessing works out. And then you will just, say, count your blessings one by one.

Warren: The meditation practice is very simple. We'll tell you about it later. Very simple. The point is, as Mātājī says, is to be in meditation, all the time. And that's what we have to develop.

Shri Mataji: Is there any other question? [Shri Mataji starts the Self-realisation process.]

***Contents: 1981-04-03*, Public Program, Cycle 1, Day 6, Sahasrāra Chakra, Maccabean Hall, 146, Darlinghurst Road, Darlinghurst (eastern suburb of Sydney), New South Wales, Australia**

The other day I told you about the center of Christ and center of Śhrī Kṛiṣhṇa and their relationship with each other. Now the last and the most important one within us is the center of Sahasrāra, is the limbic area. When you enter into it you become thoughtlessly aware. This is the area to be entered through the Kuṇḍalinī, through the center of Christ, through the Gate of Christ and that's what is written that you have to enter through Him. But

not like somebody else saying, “I'm the Christ" or saying, “I'm Jesus Christ." It's not that way. Christ is within us and when the Kuṇḍalinī rises, if it stops at this center, you have to take His name. Not the people who are not realised, but realised people have to chant His name, then only the Kuṇḍalinī pierces through that center, that's the door, that's the gate He's talked about and then you enter the Kingdom of God. “Thou shalt inherit the Kingdom of God." Inherit. That's your Father's Kingdom and that you have to inherit.

But now the most important is the last center of Sahasrāra. When you have all the seven centers placed one after another, these centers are really the seats of all the deities we have talked about. The seats are in the brain, their aura is around the heart but they are actually sleeping in the `Sthanas' as we call, the places of the centers.

So, it is in three ways you can understand. One, in the brain, there are seven centers of the seats and their auras are falling on the heart. Their places are in the center. And the first state of the awakening of the Kuṇḍalinī only these deities get awakened. That means when you chant anyone or you call Them by name, They react. In the sense They open the Chakra. You can feel it; you can see it clearly with your own eyes the Kuṇḍalinī rising through them. Then later on, when you go more and more, these Deities leave Their places and occupy Their seats and in Them the spirit, which is in the heart, comes up here on the fontanelle bone area where there is the heart, seat of the heart center, which is the heart here, open. But it is at a much later stage, that state at a

much later time at a much later state of your mind it's a, you get into that state in which you just achieve that state. It is an achievement. It cannot be a false certificate from somebody or one can't say this is written in the book.

So this and all that. There's no calculation like that. It has to mature in its living way and you yourself will know that you have got now complete Self-realisation.

First thing you get is thoughtless awareness. With this you cross the Gate of Christ. You can cure people, you can raise the Kuṇḍalinī. You may also be able to give Realisation. But still you are capable of falling out. Supposing somebody, a person comes with negative forces and fanaticism he may encompass you. And you may go down. But the second state is called as the Doubtless awareness. If you rise into that then you have no doubt whatsoever. You never fall down. Maybe your Kuṇḍalinī comes and goes and sometimes you can feel the catches, it's all right. But after that, you are so sure of yourself and of your achievement, your Self-realisation that you never fall down. But the last one is the very important thing where many Sahaja Yogis also falter, is the integration. For example, somebody's born a Christian, he's born. He could have been born a Hindu; he could have been born anything. He could have been Muslim.

Muslim like see, if he is born today as a fanatic Hindu or a fanatic Christian, these are all fanatics. They go from one swing to another swing and they profess. He will have Koran in his hand, this fellow will have Bible in his hand and another will have Gītā in his hand, three of them are

fighting. He says I'm correct, he says I'm correct and this fellow says I'm correct. Now what is the authority? Even these people will ask what is the authority of the Bible. What is the authority of the Gītā and what is the authority of the Koran? They'll say what is the authority of The Old Testament? If they ask authority, what is the answer? And you can ask what is My authority? You must ask this question. In the beginning people do ask this question. My authority is that I give Realisation. And you ask the question, `Mother are you the authority?' you get vibrations. This is My authority. Then you will understand why Bible is right, Koran is right and Gītā is right. Because of the narrow vision we have. Say we are born as a Christian then we'll stick to it. If you are Catholics you become protestants, if you are protestants you'll become *[UNCLEAR]*, Pentecostals, this that, Born Again, this that nonsense we go on ending up like that in a Christian genealogy, of one madness to another madness achieving nothing, believing into some sort of a theoretical thing like *[UNCLEAR]*. I can't understand it. These theories and these things are not going to give you living experience, which is beyond rationality, which is beyond mind, which is Baptism, the real sense of the word, where you get this breeze in the hand, of the Holy Spirit. But we want to *[UNCLEAR]*. These things become a divulgence.

Now see one case of Christ. Christ was definitely, as I told you, was Brahma, Omkāra, everything was there, no doubt. But when He was born, there was signs and everything. Despite all that there was a king who wanted to kill Him. See the negativity. No intellectual accepted

Him. No bureaucrat accepted Him, no educated person accepted Him. He had to actually beg of those very ordinary, mediocre people like fishermen to come and become His disciples. See the situation. And He was allowed to live only for four years by these horrible people. They may be born today as Christians and be Christians and say Christ and Christ and Christ. That's why Christ has said I will not recognize you. They might be the people who might have crucified Christ. And they're again crucifying Him by denying the living force of the living God. Four years. Now, what can you do in four years? I told you in four years, with all My powers, I was struggling with six hippies giving them realisation in *[UNCLEAR]*. He never even thought of giving Realisation because He thought they don't even have the brains to understand what is Realisation. Whatever He said, he said it very precise and deep. If anything that is narrow has to be deep. It cannot go into the heads of people who just listen to sermons and lectures and read books and sort of have big theories built up in them. It will only be possible when you get your Realisation, when you get your collective consciousness, when you become baptized. Then only you will be able to see what He talked about. Before that it's only mental activity, quarreling, fighting and gaining all artificial things. *[UNCLEAR]*. Your forefathers did it and their forefathers did it and their forefathers were like that. Now is it not time for you to see that *[UNCLEAR]*? What are you going to lose by that? We form organizations false and false and false. There should be some honesty about it. Just talking and talking morning till evening, you are not going to receive

any knowledge about Christ I can tell you. This narrow vision of Christianity has killed Christ and Christianity. The narrow vision of the Jews has killed Moses and Abraham. The narrow vision of the Christians and the narrow vision of all these people has killed.

They are dead. Your children are going to challenge you. They are going to ask you, what foolish things you have been doing all your lives. They are going to ask you why did you do it? Have you any answer today? For that one has to understand that we have now found our absolute. You be honest yourself.

Have you found your absolute? We have not yet found our absolute. That's what you have to find. You have to be born again. Not to certificate yourself that I am born again. I have seen many people, I am born again. Really? How is it? Can you feel the Chakras? Are you collectively conscious? Can you feel your own Chakras? Can you identify yourself with any transformation? What transformation? Then you have to choose also. Very effective. Muslims have lost even the recognition of God's mercy and compassion. It is such a sad state. At this sad state and confusion, there has to be the integrating force. And that integrating force is your spirit. That integration takes place in this seventh Chakra of Sahasrāra. All the seven centers are there and all the centers are coordinated and correlated and that's how, at the seventh Chakra you get your Realisation. He didn't allow any of them to say anything about it. If they're trying to say, oh it is written in so and so book and it is written in so and so book. Say for example when Christ was born. It was said that a child would be born to a girl.

Kanya. In Sanskrit language it's Kanya. In England there was a controversy about that, I think the Jews started it, I don't know who started it. Maybe the Muslims. God only knows. They go into all these details to find out about it, said that He will be born of Virgin but it was said there as girl.

So one of the Sahaja Yogis wrote a nice letter, of course under My guidance saying that at the time when Christ was born, even before that, this prophecy was made and that time, a girl meant a virgin. These are not modern times when a woman who is divorced ten times and 80 years is her age and she's still called as `my girl'. These are foolish stupid modern times where there's no difference between a girl and a woman. That time a girl meant, even today in India, Kanya means a virgin. Girl means a virgin. It's the same.

All such things have been raised against either Christ or Moses or Mohammad or this and that. I think there only is the raising things against each other, that's what they are doing. According to them, what they think is the truth? What have they thought? First they connect it or cancel it. That's it. Let's have this challenge. Can they bring peace to anyone? Are they peaceful? Have they been able to get over their adulterous eyes? Any transformation? Nothing.

So accept it. Be honest with yourself. You have no business to cheat yourself, or anything whatsoever. If you are little bad, awaken yourself. Find what is the best, absolute and the only thing that you have to find, your spirit. Your spirit resides in the heart. It is the reflection of God Almighty. It enjoys itself, by itself. It is the

spectator of the world, of its powers, The Holy Ghost. It watches you and is called as the knower of the fate. It knows what you are doing, what are your aspirations, what mistakes you are committing. It goes to a long extent to forgive and forgive and forgive. Forgiveness is one of the qualities of the spirit. It forgives and says it will work out. It will come. But when you go too far, say you pay too much attention to your physical being or to your mental being, if you try to think too much, the spirit indicates its displeasure and you get a heart attack. Heart attack comes to you through displeasure of the spirit. If the spirit is angry with you, you get a heart attack. That means you are neglecting your spirit, you're paying attention to things which are not important. You are hooked onto things which are not important. You are not worried about yourself, about the spirit, about your seeking. Even if you're lost, say in any fanatic behaviour of reading some books and things and taking out certain things and remembering them by heart and having an argument and quote something and all that, in not genuineness and goodness but stupidity then also you can get heart attack. Heart is very important. It sometimes gives you first warning by giving you a partial paralysis because in the heart *[UNCLEAR]*, is created by the spirit which creates a clot and that clot when goes into the brain you get a partial paralysis, so that you do not move any further. That danger is waiting for you.

Then you start thinking of God, thinking of all the things and then if you come to Sahaja Yoga you get cured because again your spirit forgives you. You are taking too much liberty with the spirit. It is true God has given you

freedom and He is not going to take away your freedom at any cost. You have to be absolutely free to choose whether to go to Heaven or to go to hell. He is not going to force you. Only thing one can do is to explain to you and tell you that this is the way you go to hell. Even then if you want to go then what can anybody do about it? Even God, He doesn't want to challenge your freedom at all. He doesn't want to make you, in any way bound to him, like some people want, bound just bound, without *[UNCLEAR]*. But He wants your complete liberation.

So the first stage is that you have to choose your liberation through your own freedom of choice. Now, up to this point, till you were human beings, there was no choice, but after becoming human beings you were given the choice because you could develop well to understand what is right and wrong in your own freedom, so that you could enter into the Kingdom of God as people who are free and have chosen good in their own glory and in their own freedom.

This is the only small little step where we always confuse our freedom with our ego. For example, now, this hall is here say, for Me to speak.

Somebody wants from outside who has been worked up in some sort of an organization and he thinks he is doing the greatest work in the whole world. Comes down here in that ego state, sits down here and asks Me questions after questions, questions after questions, questions after questions, doesn't allow anybody else to speak, takes away all My time to himself as if this hall is booked by him and all the audience is gathered by him. In this one has to see that this is an ego that is working.

So we should not confuse our freedom with ego, that's what I have to give you or counsel.

So I can differentiate your ego from your freedom. When you are ego bound, you are a slave of the ego. When you are super ego bound, you are slave of your super ego, of your conditioning. For example if you are born a Christian, you are bound forever. Fine, you are a Christian but what about the real Christianity within you. What about your rebirth in the real sense of the word.

So you become enslaved to these things.

So that is not good and spirit is being freedom, is being free. Being within us. It is detached. It cannot be killed. It cannot be thrown away. It cannot be burnt. It is eternal. Anant. It is eternal. That spirit is joy.

That spirit is the source of joy. That emits joy. Joy is different from happiness and unhappiness.

Ego, when it feels pampered, it feels happy. I liked this. This `I' business. In this ego pampering there is no joy. Because you like to drink today and tomorrow you don't like to have a headache. It has the double side of I like and I don't like. You like something through your ego, dislike through your super ego.

So it is a one point and there are two faces, one is happiness and another is unhappiness. Joy is beyond.

Joy is a drama is a seer, it is a witness. You see a drama. You know it's a drama going on. You just watch it as a drama. You're not involved and you are seeing it and enjoying it. You are crying if you seeing something, you're weeping but you know you are not that, it's a drama. *[UNCLEAR]* witness. Your spirit is the witness and

when you become the spirit you become the witness. You become the witness. For example, you are seeing something through a window. There is something else in the window for example.

Now you enter inside the room and you see through the window. Your conditioning is like one way arising in you as a thought, which comes from the past. It rises again and another thought comes up and goes in the past. First the past thought is there and then another future thought is there. You see the thought rising but you can't see it disappearing. In between that is the present. That's the place that's established, that present is established when your attention becomes enlightened by the spirit. Either you think of the future or of the past. But I say none. At this moment, at the present. You cannot stand there because your spirit is not enlightened. Because spirit is the present. When you get your Realisation, you find that you are not thinking of the future or the past, you are just enjoying.

Everything becomes different. Life becomes a drama and the joy of it starts coming out and you really enjoy small, small things here and there and you really understand how much joy was lost before Realisation. This is not a mental thing that gives you joy but the joy flows on you from your head and just like he said, cool thing starts flowing down. As some people have a feeling of attention rising up, it's the same way, a cool sort of thing, flow of joy you feel in your whole body.

Sometimes this Cool Breeze that rises in the head also starts becoming like a fountain pouring down that joy. You look at the picture, *[UNCLEAR]* you see David's star you

see that. When you see that you can think about it or else just watch this. Watch it and don't think. The joy of the creation of that thing, whole thing, becomes one with you. Like all the creation around a lake is completely felt in the lake because it has no ripples. Completely.

In the same way, all that is joy, the Creator, whosoever it may be has prepared. You get the complete joy within yourself because there is no thought. There is no magic. No conditioning. The whole thing becomes one with you and you start feeling extremely happy. Extremely joyous. A feeling, which is indescribable.

It is to be just enjoyed, to be felt. While coming I was asked, “Why don't you speak now?" So he says in Hindi language, he is one of the terrific poets we have, he says, “Jab mast huye to kya huye. When I have gone into the nectar of the intoxication of the spirit, now what can I talk. No cup can fill this joy, no words can create this meaning. You better be with me and get it and enjoy yourself." That's all he could say.

That's what I say, the narrow vision has closed your eyes to show human beings. Even Christ you cannot understand. About Christ it is written, Devī Māhātmyam, about Mahāviṣhṇu, all his life is written, if you can read it you can find out that before coming on this earth you will see how He was created, what powers were given, how He was the Son and all that is written. But for us, only you think that Bible is the authority. It is. But even to understand that Bible, as I told you, to understand it you have to get Realisation. In the same way to understand that Bible also you have to get your Realisation. The One about Who it is described had never went to school. None

of them have been to any school. For the first time in My life I have learnt this English language. I never knew this language in any one of My lives.

Because I know I have to talk to you. I have to tell you about spirit in this language. But to understand we have to read ancient scriptures. Beautiful ancient scripture are there which describes nature of the spirit. It is said that spirit has three qualities. Sat-chit-ānand, Sat, chit, Ānand. Sat means truth, chit means attention. What is truth now? If you see something white it is the truth. But what is the truth of this shawl. A realised Soul can see not you because his spirit is enlightened. He sees the fifth dimension of this shawl. Let him hold it in his hands *[UNCLEAR]* that this is Mother's shawl. Immediately he'll feel those cool vibrations coming out of it. He'll know that this is Mothers shawl. That is the truth.

The four dimensions, which we know of, is not the truth but the fifth one which is the truth, which is the spirit. Sitting down here you can find out anybody what is he suffering from what are his problems, what are his Chakras, it is absolute. This knowledge is absolute. If you have five or ten children who are realised and if you their eyes and ask them about a patient, what is he suffering, they will all raise their fingers this or this or all of them, whatever maybe the case. All are going to say the same thing, which is absolute knowledge. It cannot be argued. It cannot be *[UNCLEAR]*. It is what it is. And also today the man may be having these problems tomorrow he may not have them at all.

So then whatever was then is finished whatever is today that's what they are going to tell you, so this is the truth. The rest is all is mithya, is false.

I was once going in Kashmir driving through some very remote corner and suddenly I felt tremendous vibrations in My head and I asked the driver “Is there any temple here or something?" because in Kashmir there are many temples which are vibrated.

So many things come out of the Mother Earth, as it said in the Ten Commandments that “Thou shalt not worship anything that is created by Mother Earth, reproduced and worshipped." There are many in Kashmir like that.

So, I asked him and he said “No there is no temple and no Hindus live in this area." I said “still I could feel tremendous vibrations" so My husband told Me that “All right, let's go the way She says." So, we followed about three miles and we reached a colony of people who were Muslims living there. When we asked, “Is there any temple here?", they said, “No, there is one great mosque." “What mosque is that?" “Hazrat Iqbal." That means one hair of Hazrat Mohammad Sahib is there. And even now you take His name, the vibrations start flowing. How can I deny it? He was the truth. Spirit will not deny. It is the first to recognize all these real things. It is the spirit, that gives you the truth, which integrates all that is truth and throws away that is untruth.

That's why you must get your spirit. Before that anybody talks to you about God, about anything they are *[UNCLEAR]*. They are such stupid foolish people that they can do anything. They'll argue with you they'll fight with

you, they'll do all kinds of stupid things but understand you.

This is what My father told Me that You have to find out an en masse method, method by which You can give Realisation to many people so that they can see that there is something beyond. They are all standing on the first floor if You've gone to the tenth floor and tell them You see something on the tenth floor, they're not going to believe You, they will fight with You, they'll quarrel with You, they'll put You down because they want to challenge You all the time.

So best thing is to transform them, give them en masse Realisation. That is what is the spirit is that every one of you has got spirit but it was very difficult in those days to give en masse realisation, the blossom time had not come. Today the blossom time has come. And the wind that blows the cool wind gives Realisation to so many of them. Thousands of people have got Realisation, you also many of you have got your Realisation.

So this spirit is established, you feel you are something different. The transformation has started, the baptism has been done in the actual sense. You have started feeling it's moving, you feel the Cool Breeze. Now, when you take to your collectivity, you become one with the others also. You try to give. Now you are taking from Me when I give, it's time you give. When the light, the lamp is not enlightened, then you might try to enlighten it.

After that enlightenment what is the light, is to give people. Spirit gives you, your being.

Spirit gives you your understanding of the truth that is enlightened. Not *[UNCLEAR]* being, you cannot understand

if you are not realised. You cannot *[UNCLEAR]*. But those who are realised can know very well. Even if you might not know. A saint who met one of the Sahaja Yoginis, she was American and he just bowed to her and made her sit higher than him and said, you have met Mother. I have never met Her. And she was surprised that how did he know. There are so many saints in India who are real saints, who know about Me. But those who are very close to Me also, because you know My husband is highly placed in life and we are friends of the elite. As you know, the best of prime ministers of the world, I've met them and I've met all sorts of kings and queens and this and that and every day I am shaking hands with them. They don't recognize Me. There was a gentleman who we knew that we helped last, the President of the High Court, World High Court and we knew him very well, a great friend of My husband's and suddenly he saw, his wife saw My photograph with one of the famous Mahārājas had it in his pocket.

So the Mahārāja took it out and put it to his eyes and put it back.

So she said what is this? Such and such lady, I know Her very well. He said yes, but don't you know She is the Mātājī, She's cured Me of my heart trouble. She said, really? I didn't know She's a Mātājī or anything. She comes to the party, She's very quiet. She sits very quietly. I never heard even Her speaking. For the last twenty-five years I know, She speaks very little. Oh God, She gives lectures and there are thousands of people. Can She speak? She was surprised. We have never seen

Her speaking. I won't even be able to recognize Her voice.

Even My husband speaks a lot and of course Her husband, a lot and I also speak a bit but I have never heard Her speak. She just keeps quiet, sometimes sits by Herself. She seems to be a dignified lady but otherwise She never seems to make any effort to impress us or tell us that She is Mātājī. Immediately the husband got such a shock and immediately he telephoned to My husband, I never knew She was Mātājī? It is such a thing. You knew I am a seeker, I'm a seeker, a seeker.

So My husband said She's now in Delhi, go and meet Her. Immediately he said to call Me. Immediately he got his realisation in five minutes, but his wife didn't. He sent her back. He sent her by plane, that you better get it. This is the thing one has to get.

Now the emphasis that you have to be the spirit is very much reduced in the modern society. Emphasis should be that your spirit is to be achieved in this life. This is what one has to do, is the only thing one have to do, that is not there in the Western society. Secondly for this you have to control your attention, don't allow your attention to spill out. I don't know if you know but I will tell you about Rāja Janaka.

He was father of Sītā and father-in-law of Rāma. And Nārada went to him, another celestial being and He went to him and said, “How is it, you are a king and you move about like a king, you have everything like a king, you have gold and everything and how is it people say that you are behaving, means you are above this, above your body? How is it?" So he said, “All right, I will tell you in

the evening, but just now you do me a job. You carry some milk in this pot." The pot had no brim also.

So poor fellow was carrying that. The whole day he was carrying it. He said don't allow even a drop to spill. He was looking at it all the time. In the evening He got tired and said, “Now you tell Me, I've had enough of this." He said, “What did you see when you looked at the pot?" He said, “Nothing, what could I see? I was just watching this milk that it should not spill out." He said, “In the same way I am at that stage where my attention does not spill." That is the state you are achieving when you have Self-realisation, where the attention is completely enlightened by your spirit. It doesn't envelope anything like that and even if it goes down it comes back as it is. My hand when it touches it doesn't become this metal, does it? It comes out. It's absolutely detached from it. I can touch it but I am not that. Just now I am that. I am thinking, I am worried about My children and house and this, but when I get realised I get completely detached. I am a spiritual being.

For example there is no temptation for such a person. There's no temptation. There is no mental activity I think, there is no stealing or telling lies. This person is extremely honest and fearless, like Christ. He had nothing to do with the prostitute. I mean she was a different style, He was a different style. But when people started stoning the prostitute He stood up before them and asked them, what people who have not committed a sin can stone her. This is honesty and strength. He stopped it. They will always stand by people who are tortured and troubled by people who are oppressed. They

are not afraid. They are fearless people. Neither they frighten anyone. They are compassionate. But when it comes to protesting they stand up fearlessly against those who try to torture and ruin others. There is no oppression. Even I cannot force you to get Realisation. I cannot argue it out. It has to work out. It is as simple as that. If you do not want it, you cannot get it. Out of question.

So as I say, if you do not want it, you cannot get it, forget about it. But still some obstinate people will sit there. No, I'll get it. For what? Such people also give out very bad vibrations to others and they disturb others getting their Realisation.

It's a fact. Still I make them sit on My opposite. You cannot force it. It's a light within you.

And the analogy could be, like gas. It rises and touches the filament and the whole lamp is enlightened.

The filter is in the way all the time and watches. Then the whole thing becomes the truth. Truth is very different from what we know as truth. The new dimension, by which we know this is the truth and this is not the truth. You can ask any question when you are connected with the spirit. Ask any question. Ask the question about Me. Then ask the question about Christ, about Moses, about God. Ask any question. And when the answer is yes, little bit Cool Breeze comes out of your hands. If you *[UNCLEAR]* questions, you lose your vibrations. Might get tingling, might get heat. Because now your computer is connected with the absolute and the rapport is established of the truth. This is a new awareness you get by which you become aware of the truth which is the

vibratory awareness. Through vibrations a child also can. There are many children who are born realised. And they know where is the Kuṇḍalinī. They know. They will tell you where is the Kuṇḍalinī. It's the truth. Because they know the truth. For that you don't need too much of mental development. They are very dignified. They understand better than many elderly people and people who are placed very highly in life.

Christ has already said that rich men are not going to enter into the Kingdom of God. He has already said. But I am saying that even though they think they know a lot, all the way, they will not enter.

Because they do not want to enter. They know everything. They do not want to enter inside. They want to carry their mind everywhere. They want to carry their car inside the hall. How can you enter inside? They are not willing to keep their mind outside because they are always dependent on that mind which has become like nothing. But to achieve the spirit you have to come there egoless, to receive. The light of your being is going to enlighten the whole thing. Your temple. And when this light comes in, when this light shines in you, then you can feel your collective consciousness, you can feel it, the Cool Breeze of the spirit manifest in you, it is described in the Bible in very short but deep.

But, Ādi Shañkarāchārya has written such a great poem, what is called Saundarya Lahari or Chaitanya Lahari. It is not easy to talk about all these in such a short time. He wrote treaties of philosophy. Great personality he was called as Viveka Chūḍāmaṇi. First of all he says give your conscious a call. Where is your conscience? Viveka

Chūḍāmaṇi. Then he wrote many books and ultimately he wrote Saundarya Lahari. In that he says it's only the description and the beauty of my Mother I can describe and he gives all details of nothing but The Mother. Her fingers, Her hands, Her movements and everything important, saw how the vibrations flow in Her, everything. You have to read that book to understand Sahaja Yoga.

It's very clearly given all these things. As I told you the other day, you can make also such a book about Sahaja Yoga, very clearly. But unless and until you have Realisation you cannot know the truth.

So He's the truth, `Sat'. Then is `Chit' is attention, He's the attention. Spirit is the attention. Attention of God.

God is attention to you through your spirit and when your attention is enlightened by Him that means you've come in the attention of God. You are looked after by God. All His powers flow into you. All His protection comes to you. You will be amazed. For years Sahaja Yogi's will tell you. How they avoided accidents, what happened after accidents and miraculously how people are saved. It is nothing new with Me. It is the minimum that can happen to a person. This is the minimum of minimum, because all the deities are in charge.

You are on the stage and they look after you. And you really start to feel the presence of that blessing which is the attention of God.

So He's the `Chit'. `Sat', `Chit' and `Ānand' is the joy. Because God is joy. He created this universe not to make us serious and unhappy and sulky. See how many flowers, how many beautiful things, how many pleasant

things He did for us. For us to enjoy He has created all this not to indulge into nonsense, into filth, into dirt, the dirt of the mind, is filled with filthy ideas. But to have a clean heart and to have a clean morality within us. He has created this beautiful world for the spirit without that you cannot enjoy. You cannot enjoy unless and until you have a clean morality in you, you cannot enjoy. And that joy is your own once you get your Realisation. This joy is the compassion and grace of God. When the Kuṇḍalinī first rises through one small thread, she touches the Brahmarandhra, just one thread. She opens it and does the job. Because here is the seat of Sadāśhiva, here is the seat of your spirit. When it touches the spirit, that seat, the flow of the bliss starts coming on your sympathetic nervous system and you will relax. First thing happens to you is relax. The grace. Only one thread has reached and then the flow that is going to take which one is the Brahma is the power of God going through You. This is what you have to get. This is what you've to remember, somebody touched Christ and *[UNCLEAR]*.

For us it is necessary to know that we are the first Australians to get Realisation. We are the first people to get it. And it's a great responsibility on you, all of you who have got Realisation today and before, to keep it strong. Make it into *[UNCLEAR]*, because you are responsible for all the progeny that is going to come to this beautiful land of yours by which you are blessed.

So this is the beautiful place and beautiful people.

So many children are following. Today is the last day. It's a very sad thing that when one has to say goodbye. I hope you all will make it convenient to come and see Me

on Sunday. I'll be looking forward to it. Here I will try to cure also if you have any problems, but don't bring all the puzzles there. I will teach you how to cure and give realisation. Best thing is to bring the case to Me and I will teach you how to cure yourself because if you are realised Souls, you can cure yourself. We always in India do, when a cancer patient comes in, we call one of his relations, give him Realisation, teach him how to cure cancer and he will start Realisation. Because that's the best way one can do it. He can give Realisation, he can look after better, he knows the person better and it works out much better that way.

So I hope you make it convenient to come and see Me.

I must say, I was very much impressed by seeing the people who have been so kind to come here and listen and get their Realisation. I have to say that because I am a Mother. I cannot just leave it to your senses. I have to request you. I have to be very, very patient, extremely patient and loving so that you listen to Me and take your Realisation. I have to actually goad you people. It's all right, that is Mother's job, only Mother can do it. When Christ will come, He will take His eleven powers and just sort you out.

Before that please have yourself completely judged through your own Kuṇḍalinī awakening and work it out. Those people who are filled with ideas of their own should go and see for themselves what they have achieved by these ideas. There have been so many organizations, one after another. There is no way to organize God. Better organize yourself through your spirit, which is the absolute.

May God bless you! Please put your hands towards Me and close your eyes. Those who are still struggling with your questions, I'll tell you that I went to Melbourne and not a single question was asked and all of them got realisation and I've seen those who ask questions never get Realisation and they disturb others also who start thinking on their lines and get ruined. It's very sinful to do that to others.

So please try to get your Realisation and understand. Questioning has never helped you. Please keep your questions to yourself.

Ask them to Me some other time. Just now, get your Realisation.

Some people who have been to Gurus and all that will feel tremendous heat in the body. Possibly, they may feel some sort of a pressure on their necks. If they have been taken to mantras or wrong things, they might feel it. Everybody is welcome in Sahaja Yoga. Whatever wrong has to be brought outside. That is very important. For Me it is important that you get your pure spirit. Please close your eyes, just close your eyes and do not analyze anything.

Even if you have problems with your vibrations, do not worry about it. If it gets too much heat then you can just throw it away, twice, thrice as if you are throwing away water. It will work out.

Those who came for the first time may not feel Cool Breeze, which will definitely come some day.

All are welcome. Close your eyes. Close your eyes. The first center is the center of Christ. You have to forgive. All forgiving. Say, I forgive, I forgive, I forgive. Specially

those who have been professing, unauthorized about Christ without Realisation, damage this center very badly.

So you have to ask for forgiveness from Christ for that. Or from any other, like Moses or Kṛiṣhṇa or anyone who you have been worshipping without any authority. Without any Realisation you have no authority. Misidentifications can be corrected. For example power's the same. Supposing you are a Muslim, you can ask the question, Mother are you Mohammad? Just ask it. You are a Christian, you can ask a question, Mother are you Jesus? Just ask the question. Because power is the same. I am here at the integrating point.

So just ask the question. It will work it out. Ask Christ from your heart. Just ask the question. From your heart.

Not just for making fun, from your heart, just ask the question. If you are a real seeker and a true person and honest to yourself, you will ask a question from your heart. But if you are frivolous and you have come here just to be a frivolous person then nothing is going to happen. Just ask a question like that.

Any question of that kind you can ask Me.

Put your hand on your heart. Left hand towards Me. Right hand on your heart. Now ask for forgiveness.

If you have done anything wrong in your seeking without your knowledge or with your knowledge you have to ask for forgiveness from God almighty. He's the ocean of forgiveness. He's the ocean of Grace, ocean of compassion. You have to ask for His forgiveness and do not get any guilt with it. That is very important.

Once you have asked for forgiveness, you are forgiven. As I have already told you that Christ has suffered for you and He has taken responsibility of absolving your sins. Once your Kuṇḍalinī passes through that center your sins are absolved So do not form any guilt after saying that, please forgive me. You need not say precisely but in general that please forgive me if I have done anything wrong against you in my ignorance or in my knowledge.

In all humility you have to ask for forgiveness. Ask for it thrice. That's all. You cleanse your heart of all burdens, of so-called repentance and mistakes that you have committed. Say it thrice. Now ask a question, `Mother, am I the spirit?' Please ask the question, `Mother, am I the spirit?' Ask twelve times.

It is a very subtle happening.

So you may start feeling the Cool Breeze on your fingers. It is very subtle, while you are a person suddenly become that subtle being. Just ask the question. You become that subtle being. Like an egg becomes a chick. There's nothing in the egg. Same way you become the subtle being.

You become subtler. Ask the question `Am I the spirit.' `Mother, am I the spirit?' Now ask for your Realisation. `Mother please give me my Realisation and sustain my Realisation, let me grow in my Spirit.' Do not feel guilty. Just say `I am not guilty.' Ask for realisation. `Mother give us our Realisation.' In a very simple way. Do not feel guilty about anything. Not at all. That's your right to have your Realisation.

You have to desire. Your desire is weaker so there is no action. You have to desire from your heart.

Your left side is weaker. Put both hands towards Me now let's see. You are getting more vibrations on your right hand, less on the left. You can raise your left hand like this if it is less, you can raise your left hand like this. Do it seven times with the right hand. Just see how this *[UNCLEAR]* on top of your head. Good better. Now raise the Kuṇḍalinī. Now see yourself how to raise the Kuṇḍalinī. You can see in the photograph inside it is Me and you'll see how to raise the Kuṇḍalinī. Now you tie it up. You will feel it. Let's raise it again. No the other way around. Do it like that. Do it thrice. Now you'll feel it better.

You feel very relaxed. That's what it is. It's all right, balanced now. Both the sides. Mostly you feel the left side, in any society which is Western, is weak. Because of the desire is less. As I told you the desire to achieve the spirit is less. We don't want action than the desire so you have to raise the left side and put it to the right. You'll find the Cool Breeze on your head. It's there. Now you can take it down also like this. Good idea. Put down the pressure on the Mother Earth. Raising and put it down. Again. Do it seven times. You will feel much better. Because now your hands are now emitting the Cool Breeze. Do it with respect to yourself. See now, if you have done seven times. Feel very relaxed. No thought in your mind. I hope you will all make it convenient to come on Sunday and whatever I will tell you, whatever needs to be done.

Thank you very much.

May God bless you all.

Contents: 1981-04-04 **Śhrī Gaṇeśha Gaurī Pūjā, Sydney, New South Wales, Australia**

Today is a very unique thing that is happened, is a special luck for Sahaja Yogis of Australia. This day has never been celebrated before in the history of Sahaja Yoga. Today is the New Year's Day for Sahaja Yogis, because this is the New Year's Day of the Shālivāhan calendar. As you know, Shālivāhan is My dynasty and they are called as Shālivāhan because they are the carriers of the shawls of the Goddess, they are called as the, because, as you are also carrying so many times My shawls around and they were called as Shālivāhan.

So this New Year's Day is the first day of advent of Goddess, the nine days there are. Then in another times that there are Satya Yug, then there's Dvāpara , Treta, Kali Yuga: there are four yugas.

So in two yugas the Goddess incarnated, one before the Satya Yuga and one after it.

So today is the day to mark absolutely the first day when She incarnated on this Earth. That's the day also of the Gaurī, because Virgin is the first form of the Goddess. And She created also Gaṇeśha on Tuesday, just starting this week.

What is the day? The day today is...? Today...

Sahaja Yogini: Today's the fourth. Saturday, Mother. Saturday.

Shri Mataji: Saturday.

Now, now, it's over. Now don't stay, all right? While I'm speaking you should not take My photographs.

It's a very wrong idea, because it disturbs Me. Moreover, you see, when the speaking, while I'm speaking and when you take My photograph sometimes I've seen they come out very odd. Best take photographs when I'm not speaking, you see, because all the time the sound is coming, everybody is distracted and the attention doesn't fix, you see. Is a very important thing I'm talking, all right? Now don't take any photographs, please. Pay attention to what I'm saying. [Hindi.] So Tuesday is the day when Gaṇeśha was established and then the Goddess started working. The first one, the one day when She started is, was the Wednesday. She started working out on Wednesday.

Wednesday is the action day, that's why she started on Wednesday. Today is, under the circumstances it is Saturday; but I'm telling you about the original timings. Because Wednesday is the day of the Swādhiṣhṭhāna, that's the day She started working it out, the whole thing.

So first, Tuesday is the first day in Sahaja Yoga, Wednesday is the second day. And you'll be surprised that the stars are also the same, because Tuesday is the day of the Mars which is resided by Śhrī Gaṇeśh. Wednesday is the day of Mercury and Mercury is the Swādhiṣhṭhāna.

Third day, yes, third day is the day of Jupiter: what you call, we call it Guru, is the day of the Guru, is the Jupiter, is the teacher. Now, Friday is the day of the Goddess. Now see the Chakras also, of the Goddess, Mother of the Earth, Mother of the Universe, Venus. But in Indian Sanskrit language the names of the days are exactly the same, tallying with the stars, so...

Then Saturday is the day of Śhrī Kṛiṣhṇa, Shani, is Saturn. Then Sunday is the day of Christ, the Sun. Monday is the day of Sadāśhiva, is of realisation, of integration. These are the seven days when God created the whole universe. That's what I told yesterday, that in this narrow way you cannot understand Christianity. You'll think it's all mad, which is not. Only when you read other things, other scriptures, then only you will understand what Christ said.

So today is the day of, first day, of when Gaṇeśha was created, in the sense that, though today is not a Tuesday, but according to dates of the moon, today is the day, first day of the moon in this month.

[Marathi.] We call it Chaitra. Chaitra is the month. And this is the time when, [Marathi], Gaurī is the Chaitra.

So the establishment of the Gaurī is taken place during these nine days. But Gaṇeśha has to be established before anything else. Though first Gaurī had to come, you can see that. Gaurī had to come first to establish Gaṇeśha. But Gaṇeśha is always put before even Gaurī. Before the Pūjāna of the, worship of the Gaṇeśha, nothing starts; because He's the one who takes out all the obstacles, all the negativities, all the hurdles that are going to come up, all the attentions that are here and there.

So that's why we first worship Gaṇeśha, just to ask Him to protect us.

But first the Gaurī has to come and that's how the Gaurī is this nine days. She came on this Earth to fight the devils and demons, negativity, for people to transcend the Bhava-sāgara, the Void, the Rāmāyaṇa, the illusion.

When they were praying, when they were doing anything, people used to obstruct and then they troubled the bhaktas, the devotees of God, Rākshasas.

In those days the Rākshasas were separate and the saints were separate; there was not such a mixture as it is today. We find in saints there are negativities sitting there. Was never so before. This is Kali Yuga.

It's such a confusion that there is no absolute saint or there's no absolute Rākshasas. These Rākshasas have come and sitting in our heads. They are within us, so the negativity is there, so we are not absolute saints.

And this is the big problem of Sahaja Yoga is, that even when you are worshipping Me, try to be more on the saints than on the negative side. Try to be more on the saintly side. Because you are saints, no doubt, but these horrible things have somehow or other gone into your heads and they are sitting in your superego and ego, these horrible negativities, which you must really decide today to throw them away.

Because you are really saints and these are the bad spots, kalanka, is the thing that really ruins you, is within you.

So try to throw it away; try to become positive, be one with the Pūjā.

The second thing is the importance of this day is, that I have never celebrated this first day anywhere, so far. It was to be in Australia. It is the right of Australia to have this day here, celebrated here. We had other Pūjās, other Navarātris we had; with that I celebrated the first, second, third, over nine days we have done. But never

this Navarātri as such we have celebrated this day anywhere, of the Shālivāhana.

Though in London they had a little sort of a thing on this, which I, we had on the seventh of April, then I spoke about it; but actually on this day we had no Pūjā, before.

So, this is very creditable that it should happen here. I'm very happy, because this is where Gaurī established Śhrī Gaṇeśh.

Now for today we have two things to be worshipped: one, Gaṇeśha, because Gaṇeśha can preserve our status, our heights, in our realisation. He protects us when we are getting our realisation, we are rising high; so He preserves and He protects. And He looks after us and gives us wisdom, to have our ascent in such a way that we do not deviate into the left and the right side; we have full dignity; and that we are fully integrated with our heart, with Shiva Tattwa, with our realisation and do it with our heart genuinely.

That's why we worship Śhrī Gaṇeśh.

But today is actually the Pūjā of the Gaurī, that is, the Kuṇḍalinī.

So Śhrī Gaṇeśh we'll do first of all and then we'll worship the Kuṇḍalinī, which is the Gaurī.

Now luckily I got a sarī: this is really remarkable, because this is the colour of Australia. Green is the colour of the Gaurī. Gaurī wears the green sarī. And there is also, this is the, this is the, this is the symbol of Gaurī only. This is the symbol of Gaurī and this one inside is the Gaṇeśha, is in that colour, is most surprising this sarī I got.

So this one also is just the other way round, more of Gaṇeśha colour and less of the Gaurī colour. This is a very traditional combination in the Indian colour scheme, because red is the colour of Gaṇeśha. In you people it is very red and it can become more crimson, can become absolutely black, can be absolutely reduced to nothing. But in Me it is the colour of this clay, because it's absolutely obedient, it's absolutely one with Me, so it's the colour of the clay. And the Gaurī is the Mother Earth.

That's the place where the Gaurī exists, in the Mother Earth; and that's why the colour is green because Mother Earth is always covered with green, at least She's covered with. And Gaṇeśha's colour is that of the clay because He's made out of the Mother Earth, element is the Mother Earth. I hope I have been able to explain to you the symbolic relationship.

Do you know the story how Gaṇeśha was created by Gaurī? So that I will tell you; and then we all can have. It's very interesting, that's why I said I'll have My bath here. It is said this...

Sahaja Yogini: Excuse me, Mother, excuse me, we can't hear very well down the back. Is there any way You can speak louder or that we can hear better?

Shri Mataji: What's she say?

Sahaja Yogi: They cannot hear.

Shri Mataji: You can't hear Me?

Sahaja Yogini: No, Mother.

All right, so I'll have to shout. Not at all?

Sahaja Yogini: Yes, a little, most of the time...

Shri Mataji: All right. Should I use this?... All right. This you can hear.

So I'm now going to tell you the story of Śhrī Gaṇeśha's birth. Is very interesting, it's very symbolic. This is Christ and that is, He is the Omega and He is the Alpha and all that they talk of, they don't know what they are talking.

There's so short form of what the whole thing is. They don't know Gaṇeśha at all, nothing. They just take one word here and there, just talk like that.

So He's the first one created. Now it's very symbolic: the pure power of desire to be one with the spirit is symbolized in the Gaurī. The primordial Gaurī is that power which has separated from Her Lord, we can say. In Her previous lives She was separated and again She's born as Pārvatī. And She wants to be one with Shiva, which is the Spirit.

So now the marriage has taken place, in the sense that now She can meet Him. The wedding kindling has to start. But She's not yet married, in the sense that She's still a Virgin, but married otherwise, means She is now about to rise. Before that She wants to have a bath, because She has to meet Her Lord.

So She must have Her bath, the bridal bath. She's a virgin, absolutely virgin and She goes for Her bath.

Now, She's afraid that anybody might come inside when She's having Her bath. Look at the delicacy of the whole thing: this desire, which just is meant for the spirit, doesn't want to be exposed to anything else, any negativity coming in, anything happening like that.

So She closes the door, but still She's worried from the back side somebody may come.

So She puts this scented powder, which we use in India, for the bride specially it is the right one and rubs Her body with that and She finds that a lot of it comes out.

So She makes the Gaṇeśha out of that, now imagine how much vibrated it must be. She puts that, is made of camphor and all these beautiful things which are really celestial and that is completely vibrated on Her body. She makes a Gaṇeśha and puts Him to the back of the bathroom; She's having Her bath nicely. At that time Shiva comes suddenly, knocks at the door. She doesn't hear Him.

So He goes from the back door. There He sees Śhrī Gaṇeśha sitting.

He asks Śhrī Gaṇeśha, “Who are You?" So He says, “I am the Son of Gaurī." Shiva can't understand; She is a Virgin and this one is saying, “I am the Son of the Gaurī." See now the Immaculate Conception, try to understand.

So Shiva say, “How can She have a child? She is the Virgin." And He thinks He's bringing slander on His wife who is a Virgin.

So He cuts His neck in anger and He enters into the bathroom. And Gaurī is ready to receive Him. And She looks out and She sees Her child is dead.

So He asked Her, “What is this?" Said, “That's My child I created out of My, this mala", what you call this, all the body things that came out, “I've created Him and I have put Him down there. How dare You kill Him?" She said, “Now what to do?" He said, “All right, what You do is to

go and find the head of any animal that is available and we will put that on this trunk and He'll be My son again." Now it's all prearranged; because this child was not to grow into a human ego and superego business. It had to be the embodiment of childhood, embodiment of childlike innocence, because He's the embodiment of innocence.

So they had to get the head of an animal.

Now the wisest animal on this Earth is elephant and elephant was saved in evolution in a very miraculous way, is also another description which I'll give you later on.

So a she-elephant, mother elephant was lying down with her back towards her child, that's why in India women never sleep with their back towards their children, never. The child has to be in front, pudhe, in front. It should never be put at the back of the mother, never. Mother will get up and go on the other side and change the sides, but she would never put the child at the back.

So the head of that little animal was cut and He brought it and was put for Śhrī Gaṇeśh. And that's how Śhrī Gaṇeśha was created.

But you know, elephant is the conveyance of Mahālakṣhmī.

So the body is from Mahākālī, but the head is given by Mahālakṣhmī, the evolutionary power.

Now this Gaṇeśha within us resides in the Mūlādhāra Chakra.

Some people who tried all kinds of tricks to find God must have seen the trunk of Śhrī Gaṇeśha and must have

thought this is the Kuṇḍalinī, because as a Mother I give them few marks for that and that's how they started all these perversions and wrong things about Gaṇeśha.

But He is embodiment of innocence and later on you must read in `Devī Bhagavat' how He incarnated on this Earth as Christ; and how He is going to come with His eleven powers on this Earth as Kalki. It is very difficult for Hindus to accept that Gaṇeśha, such a dynamic personality like Him, should become a person like Christ, who got Himself crucified. And it is impossible, at least Hindus have much wider knowledge and much wider sense, but it is impossible for ardent Christians to understand that Christ could be this elephant boy. That is beyond them, because for them Christ should be a man who has no power to kill anyone. And then they say that He's coming to kill us, I don't know how they manage these things. They catch hold of one thing, like He was the Omega and Alpha, finished; now how are they authorized, God knows? But whatever it is, they do not see the other things, that He had a Mother; He said about the Holy Spirit. He said it in such a good way, that “I'll be sending Holy Spirit." And also He said that “Those who are, those who have sinned against Me or have insulted Me, it's all right, but with the Holy Spirit nothing will be tolerated", very clearly. Why did He say so? He's Alpha and Omega, but why did He say so? Of course, He's the first who was created and at this stage, at Kalki stage also it is He who, He's there at the end of it, no doubt. But that doesn't mean because you are Christians you have a special right, not at all. On the contrary, I would say many Hindus have much more right on Gaṇeśha than

you have, because you have spoilt your innocence. They have not spoilt their innocence.

So though you may call yourself Christians, Christians and fight for Christ, but you are not; because the basics of Christ is innocence, which we have ruined.

So those who, also Sahaja Yogis, get identified with Christ must know that this identification is actually a conditioning; it is not factually so. If so, you have to become innocent. You must re-establish your innocence. Then you are really Christians and then you are really so.

And I would say people in India, as it is, you know, luckily we did not get advanced as you people got. We never fall into the traps of advancement, luckily: too sluggish, elephant-like people, we could not fall into anything. India is like, large like an elephant. Anything comes in, this just goes on throwing this side, that side, that doesn't accept anything. We never bothered about Freud. For us he's some sort of a legendary fellow living in fool's paradise, we never accepted him. Nothing can penetrate that elephantine thing. You see, it just goes on blowing off all the things that comes round, so nothing got into their heads.

They never spoiled their innocence, simply because they are too large and very lethargic to new ideas.

And that's how they have, despite everything they are not converted Christians, they never heard of Christ, some of them. They have maintained their innocence much more and their sincerity of their heart, because they are not disconnected. When Gaṇeśha is destroyed you get disconnected. Your heart works on one side, your brain works on another side.

So, that they have not been able to yet achieve, that kind of a dissociation. And whatever they may try, they know in their, that it is wrong. They may try, I mean, like people steal but they know it is wrong; in the same way they still know.

So for us, we must know that we have to achieve our position as innocent people. But your Mother is very gracious, She's very powerful, She's very loving and She has created you on the same pattern as Gaṇeśha. You have all the powers that Śhrī Gaṇeśha has. The greatest power that Śhrī Gaṇeśha has, that you can come so close to Me. No other Gods can come that close to Me as you can come. Kuṇḍalinī cannot be risen by any Gods, any incarnations but Śhrī Gaṇeśha. He has to inform the Kuṇḍalinī, otherwise Kuṇḍalinī cannot rise. And it is you who have the power to raise the Kuṇḍalinī on your fingers. How many powers I have given you, you have no idea at all. I have made you in the pattern of Śhrī Gaṇeśh.

So you have to establish that innocence within you; that is being also established. You'll get back your innocence.

But the second thing which is so important about Śhrī Gaṇeśh one has to learn, that He does not know any other God but His Mother. For Him nothing exists but His Mother. He's so dedicated. There's a story once when Pārvatī, His Mother gave, said that “I will give You a big present, that there should be competition between You two brothers." Second was the Kārttikeya, the one, another brother of His who came on this Earth just to destroy this Narakasura. Is the, all the destructive powers were combined to create Kārttikeya.

So She said, “Whosoever goes round this Earth, I'll give You a prize." So, the conveyance of Kārttikeya is such a fast one, is a peacock.

So He got onto His peacock, started flying out like an aeroplane. And Śhrī Gaṇeśha's conveyance is just a little mouse, so what should He do? He took to wisdom. He said, “Who can be greater than My Mother? She has created all the Gods. She's the Mahākālī, She's the Ādi Shakti. She has created all the Gods, She has created all the universes, She's the one who has done everything, who can be greater than Her? She's the greatest of all." So She just, He just went round Her only thrice and He got the prize. And still He was flying in the air, Kārttikeya. He fought even Shiva. He fought everyone. It's a very interesting story how all that happened, that shows complete dedication. And for Sahaja Yogis it is important to understand complete surrendering, dedication and also a genuine feeling from the heart.

I will ask Raul Bai sometimes to talk to you about the protocol, that's important, though I am so close. Even Christ would not say anything; sometimes the way you people talk to Me, I am amazed.

Certain things you say to Me, I'm amazed: how can you say these things to Me, knowingly what I am? But you forget.

So it is important to understand that they were great because they knew the greatness of their Mother.

In the same way, you all have to learn certain protocols which Raul Bai will teach you, so that you do not make any mistakes of saying things which are not proper. It comes from bad Viśhuddhi, no doubt, but consciously if

you work it out you will do good to yourself; because you know, anything against the Holy Spirit won't be tolerated, anything, can you believe it? What strong words these are! Just think of it, anything against the Holy Spirit.

So one has to understand the protocol, for Sahaja Yogis, don't talk against the Holy Spirit. But the protocol is there which one must understand and how far to go, how far to understand is very, very, absolutely rudimentary for Sahaja Yoga.

So today we have a great day of Śhrī Gaṇeśha's Mother being established, incarnated. Today is the day She had Her bath, we can say and that's why I said I'll come and have a bath here.

About the times and timings, one should know that Mother knows best and everything works out with the timing properly. Because the, you know you are, you are ahead of India and all the timings work out in that way.

So everything has to work in the way, actually the timings are of the moon, so you don't have to worry about what is the timing, what time this works out, this thing, that. The watches and all that, in Sahaja Yoga, work out according to My understanding.

So one has to relax and just enjoy the Pūjā. I think today you are going to receive lots of vibrations.

Just enjoy them, just enjoy them. And if your ego is there or anything, just ask them to shut up, that's all, all right? Now...

Now, so first we'll have Gaṇeśha Pūjā, as Modi will be doing and he will be explaining what is to be done. How

Gaṇeśha is pleased with small, small things you will see now.

[Hindi.] Who will come for the, children should come for the Pūjā? Let all the children come for the Pūjā.

***Contents: 1981-04-06*, Public Program, Day 2, Exhibition Hall, The Aim of our Seeking, Melbourne, Victoria, Australia**

When Doctor Warren talks about many things I can't help laughing. It's beyond Me to understand why people get stuck up with them, it's really beyond that. Because it is so obvious that God cannot be bought, you cannot pay for God, it is absolutely obvious for any intelligent man, it should be obvious. How much did you pay to become a human being from a monkey, what did we do, did we cut our tails or anything to become the monkey? We have become by the grace of God. What can we pay for the grace of God? It is very simple, you cannot, God doesn't understand money. It is human beings who have created money and all the things like economic woes and all the economic problems. God doesn't understand these economics you have made. He doesn't understand! This is all your own doing. Your own projection and complication and you are entangled into it. It is as simple as that. And when you see these people who live on other people's money, I call it OPM, are parasites. You won't live on other people's money, you, any one of you.

So they do not have even a simple self respect. Not only that, but these parasites are cunning. It is so obvious, so very obvious, that we like to be fooled. The more cunning the befoolers, the better we are. I went to Calcutta once

for a program and I had many programs, but one of them was in a very posh place as they call it, in a hotel they had the program. I said this hotel is an irrelevancy. These people will not be interested in Sahaja Yoga. They are too rich. All over the world very rich people will never understand, they want somebody who will take money from them and they can show off their money.

And we had a program and there were two halls. I told them take a very small one because I know them too well and the bigger hall was occupied by another fellow who had some sort of a show on, stuff and they were amazed that, except for two people, most of them who came inside went to his program and after eight days he was arrested in Poona for robbing people. But all of them went to his program and not to Mine. When it was written articles about him and all those things and he looked so dishonest from his own photographs of, if you could see him, he was so dishonest to look at and people could not see that it was so simple to see that. See, so that shows you have lost every sensitivity to know what is plastic and what is real. It makes Me laugh sometimes, when the other day in the aeroplane they were discussing these things and they were telling Me most seriously how much he was tortured by another group and they took three thousand pounds just to get some horrible mantra which has no meaning and they worked very hard for days together and she broke his back and they broke every part of his bone in his backbone area, all sorts of things that he did and he became so nervous, a recluse, they even became frightened of a garlic, if they see a garlic, I mean after getting realisation you have to become a

person who is absolutely powerful and in control of yourself but not aggressive and not to be such, become cowardly recluses and he told Me all these things and I did not know what to do because it was such a description. They don't know whether to laugh or to cry really because this thing behind it is all hocus-pocus absolutely hocus-pocus, I mean this is absolutely absurd to say that you fly, see the light and all this nonsense and on top of that there is the suffering of a person, a person who is a genuine seeker, a seeker, who is seeker. He is a man of God and he being tortured like this makes him so unhappy. I just don't know what to say about the whole thing, things that are happening. You have to wake up to your self-esteem and know that you are created human beings for a special thing and not to be vamoosed and cheated by these horrible fake people. One has to understand this and the innate nature of God to understand what will happen to you as realised Souls, if you become abnormal and freaky then it is not that you have got your realisation, on the contrary a person who is realised becomes extremely normal, is the most normal person.

Apart from these things there are some diseases built within us which make us extremely stupid. Really built in I should say, because we have come from matter, we are gross, our origin has been gross, we came from matter and we grew up to see that there is something beyond the matter that is the spirit and we are the spirit, but we get dominated by this matter, we really get dominated by matter, all through in our ventures, for example, if you are sitting in a chair and you can't make a chair out of

some matter, you cannot sit on the ground, you have formed the habit, the habit of matter, matter starts growing on you, you become such a slave, such a slave of matter that you cannot get over it, any matter that you start using, for example if you start using a bath, then you can't do without a bath, you use electricity which is a material form, if it fails everything goes out, you cannot do without it.

So matter is all the time trying to overpower the spirit, but the beauty is, through your evolution, you evolve to a stage where you are human being and you start seeing that matter cannot dominate your spirit. This should be the self estimation, there should be the understanding that you are the spirit and not the matter. When you see this simple point then you understand that you cannot purchase God. Then also another point, that one understands that it is not the way, that materially you see, somebody say somebody you should but spiritually, if he does say something spiritual then you should accept for example seeing the light, if they say you see the light, to see the light I have to be away from the light, do you see the point? You have to be the light.

So it is a very simple thing, if you understand it is commonsense, that if you have to be the light, then you have to be inside the light, part and parcel of the light. But to see the light you have to go further. Actually from this distance I can't see the light, if I really have to see the light I have to go much further to see this light. All these things that they are copying and telling you is such a camouflage and they have been very good at befooling

you. It is impossible to convince people who want to be befooled.

It is impossible. It is easy to befool them because they are anxious to be befooled. Alright, but those who want to really be alive, then they should get it, then their attitude is very different. Then they should like to go and see what these disciples have got, these people who have paid so much money, that they been with people for fifteen and twenty years, go and see them, what have they got? If they say, “Alright, I am feeling very much better and happy” you look at the face and know they are not. Supposing they say “I feel relaxed” so what? What is so great about feeling relaxed, so-called relaxation, you can feel relaxed even in some company you might feel relaxed, so what? What is so great, is that something God's work? Just to relax you? Some people say “I feel better” this might be ego pampering. But what powers did you get yourself? If you become the spirit then you have to have powers of the spirit flowing through you, isn't it? It should be common thing, logical conclusion. “What is the power, what have I got from that? They have taken all my purse, my money. Thousands of pounds have gone to him, what did I get from him?" We should have an understanding, but this nobody asks because there is a big Mafiā in all these organizations, you are not supposed to ask questions, you are not supposed to talk. You are put in different compartments, there is a big secret going on, I you tell the Vidyā they just laugh, nobody knows the meaning of the words, are so stupid.

Some of the words of the mantras mean this finger, some of the words mean scorpion, some of them mean the serpent, all kinds of things and some of them means the silence.

In a ridiculous way these people have befooled you. I think it is a spite they have, or is it a spite of the Satanic for the Divine people who have come on this earth to seek God? It is that attack of these negative people who are trying to divide you completely, ruin your nature on this earth, you have to be aware of that. You are very vulnerable because you are saints, you are born vulnerable because you have no self esteem, you treat yourselves so cheaply. You do not judge what lions' den you are entering into and you can be so badly hurt, with all your sensitivity, with all that, you do not give a second to think that even if there are thousands of them going before I am going there I must find out what kind of a nonsense is going on. If you go there as an ordinary visitor, you will immediately find out that this is a fake and a false one, you have been warned in the bible there will be fakes and false people coming on this earth.

Now there are another type of people also, having covered the Chakras later, we will learn how to avoid, who are bound by futuristic idea, as he said about Kṛiṣhṇa, of giving very subtle forms of this. But we must see what it is doing, like Church of England, can you imagine, Church of English owns the whole of Soho. And the question was raised, “How can you own Soho, where all the prostitutes are earning their living?" And the answer came in that Christ looked after Mary Magdalene, who was a prostitute, you can see and the people

accepted this answer. Then the whole thing with the ritual starts, “Come along here and sit down and bring the child and we will baptize it." It's a joke, it's a very big joke. Baptism is a living process, it's a living happening. Did Christ baptize anyone himself? Did He put His hand on anybody's head and say “you are baptized by me"? Ask the question, did He really? Then how are these people doing it? They are taking Christ in their hand as if they found him somewhere in the storm somewhere. What right have they got to say they are baptizing? It is a living force of God which resides within you and says, “I will appear before you like tongues of flames." Let them explain this quality. Let them say, “He is our Father who art in Heaven” what does that mean to you? For that you have to read Bible. What was Christ? Who is Me? *[UNCLEAR]*. Why He came on this earth? Really, what was His purpose? There is nothing there. Just some few people who were not realised saw him and noted down, finished. How can that become such an authority for anyone who was an observer, that you are writing. It's very deep, it is because it is so narrow that it is extremely deep. You have to be right in it to see. For example, you are standing on a well which is very narrow, but just hardly you can see anything inside, you can just see something in the middle. To see the complete vision of that well you have to go in and see the narrower side and that we are not able to do because Bible is the last word. Now I could say that any other persons would come and say, “Now what is the authority of Bible, now what authority is there, if you say Christ is the authority of Bible." Take it like that, Christ never

wrote Bible, He never wrote a word, so you are correct. Could be some journalist who wrote about Him, could be anything absurd. If they do say Gītā, ask them “who wrote Gītā?" Kṛiṣhṇa never wrote Gītā, never, did he write it? So what is the authority of it. Gītā has no authority as such, how can you say it was written by Kṛiṣhṇa? He had nothing to do with it. Anybody, supposing you see Me today and you write about Me, you can write anything, anything you feel, like a journalist came just to sort of find fault with Me. She was paid by some fake Guru and she wrote that I chewed betel nut, which I have never eaten all my life I wish that I could because I think there are some people, but I never eat and she said she saw me eat betel nut and she never has. If she had written bible about Me it would have been very funny than that is not the authority either. Moreover they did not have tape recorders to tape anybody's lectures or anything, even the photographer was not there, that is today all these things are there, so what is the authority? This is the problem with us that we accept certain things as an authority because we think we can control people by this misappropriation of authority to ourselves.

There have been people who have said “I am the Christ." I said “alright" I said, “Alright, walk on the water" *[UNCLEAR]* no chance because Christ could walk on the water because he was Omkāra Himself.

Omkāra he can walk because he has no body as such he can walk on the water, *[UNCLEAR]* alright, “Walk on the water” first step he can take on the water, the second he will go down. All such hocus-pocus will be found out. If

somebody says “if you give me money I will make you y” let him go off this leaning tower of Pisa what it is meant for, after all it must be used sometimes and throw him down, see how far he goes with flight. Have a nice show for it. That how you can find out these people whether they have it or not.

So this is how I find in this country, also is in a very bad state from these people who are here to spoil your chances of realisation. And it is very difficult to give realisation to people who have been to these people, have been initiated, have been really spoiled in their Kuṇḍalinī. I have worked day in and day out to neutralise it, I have been working. For the interest in your Self can only come when you have such a thing that is very important and that is the you about Viśhuddhi.

The Viśhuddhi is the center placed at the back of the backbone here which has given to human beings a speciality which separates him from animals, that he raises his head up. By raising his head upward he has been able to create a new dimension for himself. And this new dimension is a dimension by which he creates ego within himself. Before becoming a human being your brain was at and all covered with the super ego. Animal like dogs, or you can say horses, they have the super ego. I hope you can see all of you before becoming a human being and when you become human beings a locking system took place by which you started developing, or you can say a twisting system took place by which you started developing our action. For example an animal does not know how to make a chair out of wood, an action physically, at the most it might carry this

chair you have made, put it there and let you sit on that. It can take the chair a man has made and sit on that, but he cannot make anything for himself. Maybe he can weave for himself a small little nest or something like that at the most.

So you with your action can overpower the matter. You have been able to achieve great heights in overpowering all the five elements and by using them as power, for example, electricity, magnetism, sound, *[UNCLEAR* everything], ether.

But animals when they come in contact with human beings they also can become conditioned as far as their understanding of relationship with human beings is concerned, but it is not that they could be made to act on to some matter and this action, physical action has given a by-product which is called as ego.

This is the beginning. Then the second action is the thinking. The animals don't think of the future, he doesn't have any insurances. Animals are not bothered about insurance, of what will happen to my great grandchildren when I die, what part of my house will be going to which children, he is not bothered about all these things and he does not even have such a sense of possession as human beings has, so it happens that we start developing our ego when we start planning for the future, thinking of the future, going into the future and also when we use our physical being to create something or any physical work or aggress something.

If any animal goes and attacks a cow or something, say a tiger and brings it home for this family, he is not a cow, he is not egoistically like human beings are. Like human

beings, if they earn about five hundred dollars they become very egoistical, they think they have earned such a lot of money and they have done so much that they have earned the right to dominate the wife and vice versa. But an animal doesn't think he has the right to dominate, for whatever he does is in the nature of his own personality, he doesn't do it as the idea that he has to do this and he is very important and he doesn't have this ego, so he does not even think that this is Karmas and he has to pay for it and he has done something wrong and go to a Brahman and pay a lot of money "because I have done such a thing" these ideas do not come into the head of an animal because he is not into that dimension. A new dimension of Karma which human beings are because of this situation, because of ego, if you feel you have done that the Mother will come, if you had no ego you would never have felt that. These two things are at this point and you should see very clearly *[UNCLEAR]*. It should start from there and pull down from there, actually it should start from these two points, animals start developing.

But you cannot put your attention inside, that's impossible. I cannot tell you just to put your attention inside, some happening has to take place within you. Supposing something is *[UNCLEAR]* false then your attention goes there isn't it? In the same way when your Kuṇḍalinī awakening takes place, then your attention goes through that which is awakened there and you just start seeing the way, or, you can say, feeling the way, but it is such a quick thing, a split of a second, that

sometimes you miss everything except that you see the Cool Breeze and start feeling it.

Sometimes you do start feeling it and it's here and here and so many people feel that it has come up now and its throbbing, now it's alright, it has started.

It depends on what sort of runway you have, if the runway is horrid, then you go on feeling all the bumps.

Sometimes the runways are so badly spoiled that it takes months for the Kuṇḍalinī to rise, but now I think in Sahaja Yoga we have developed such methods and techniques, such permutations and combinations, that now it is much easier to raise the Kuṇḍalinī than it was, say, ten years back.

Then I had twenty disciples with whom I worked for two years to give them realisation. In London I had six disciples for four years working to give them realisation. There are now nearly a thousand in UK and in Sydney we have lots of them also. And in India also we have thousands.

And they just get it in a second, but it is a different thing now because it has evolved so well. But this happening is a living happening, this you can't jump, take off your clothes, stand on your head, wear some badges, wear some clothes, but you can't make the Kuṇḍalinī rise unless you see the pulsation at the triangular bone, you can see the pulsation of the Kuṇḍalinī, until you feel the pulsation of the Kuṇḍalinī and see the pulsation, you can see the rising of the Kuṇḍalinī. You can see. You can also feel the Cool Breeze rising, you can also feel with a stethoscope the sound, lap lap lap lap coming up to here

which Kabīr has very clearly said *[UNCLEAR]* coming up to the apex of your head.

Anāhat is the thump of your heart and that is how we feel the Kuṇḍalinī and then it breaks through and then you feel it on your fingers, actually feel it, it is an actualisation of the experience. This is what the baptism is. When Warren has said that we have never had our real baptism, do not be angry with him. Because it is a fact, you have not got your realisation. Christ has said you have to be born again, you understand He has said it, so now they are saying we are born again, another form of self certification.

First it was a baptism, now there is another thing started, we are born again. Now when they come and us, these people they change from one to another. How is it that Christ, that how is it that through Christ, who has said so and you will see that only through Sahaja Yoga, ultimately you will pass through the gate of Christ only, to get to the Kingdom of God. It is a fact, what He said and He never told lies. He told the complete truth and nothing but the truth. But the way you interpret it, the way you understand it, is so narrowish, that you do not want to accept it.

This is the gate where our start and this is the greatest thing we have done. Now this Viśhuddhi Chakra is the center of Śhrī Kṛiṣhṇa. If I say this is the center of Śhrī Kṛiṣhṇa you may start doubting Me. You may doubt Me also, it is not proper, with Indians because they know of this center, they know where Śhrī Kṛiṣhṇa resides. They know there are sixteen petals for this and they know he is called as the complete incarnation of the sixteen

petals, all this they know, I do not have to bother with it. And the center here of Christ is actually bit confusing because it is called as Mahāviṣhṇu. Not as Christ, but as Mahāviṣhṇu and he is called as Bodha not as Buddha, but Bodha, it is a difference of language.

In one of My lectures on Christ you will find out what is His origin, why He was called Jesus, why He was called Christ and what is the origin of these things, why He arrived, who was His mother and everything you will find out from that lecture. It is better that you go through that lecture and see for yourself. We have lots of these tapes already in Sydney and we can sent it over to you and you can look at it from that angle because in this small little time I cannot elaborate talk about Kṛiṣhṇa and about Christ, but the only thing I have to tell you is there is a very great relationship between both of them and Christ is the word that comes from the word, Chrisna and Chis in India is means for agriculture and Chrisna and Chrisi also is the word for agriculture and agriculture means the one where you sow and they are the sowers of the seed. They are sowing the seed in the fields.

So the sowing of the seed is done by Śhrī Kṛiṣhṇa and the Gītā he is described is also another very interesting thing about Śhrī Kṛiṣhṇa which they have very much confused. Kṛiṣhṇa never wrote Gītā, first of all and it was never written by an absolute Brahmin or anything who was a born brahmin, it was written by the illegitimate child of a fisherman. How can he write, a man like that, that you are born as a Brahmin you have to be born as a Brahmin what he was meaning, then you have the aptitude for it, that means you are a seeker of God, all the seekers of

God are Brahmins and all the seekers of power are Shachtihis and seekers of money are payshics, which means the attitude, but Hindus as usual have made like all others, have made a mess out of these, made a Mess out of all their philosophers. According to them if you are born a Brahmin, even if you are born the greatest crook in the world, you are a Brahmin. And even if you are a person who is a very highly evolved person, then if you are not born in a Brahmin family, then you are good for nothing. This caste system is such a horrible thing in India, it has no explanation at all in the scriptures because it is written that in everyone resides the spirit, the spirit is in everyone of you, how many have mastered it? You can have those aptitudes, but as usual people have escapes for everything, on this point that everybody has the spirit within them. Gītā has described it, that everyone has the spirit, but one has to know when he says that the spirit within them that every human being has the spirit within them, not the devils. Because Kṛiṣhṇa himself has killed so many devils in his lifetime, because one of the powers is sobhandana, means to kill so many devil on this principle that there is spirit in everyone, why did he kill so many devils? The devils do not have spirit. There are devils and devils and devils, for example say, Hitler if he comes to ask for a realisation, do you think he can get it and should get it? His greatest reward would be for all his lives to come.

Question: How can you be sure he wasn't Śhrī Kṛiṣhṇa casting out devils?

Shri Mataji: For that you must get your realisation. That's all, you see, when you reach Nirvikalpa then you become

the absolute. For example I'll tell you, when you get your realisation, you get your vibrations, alright? And with these vibrations you can find out what is true and what is not true. For example we had some Brahmins at one of the programs I had first arranged and I didn't know they had a big fight with the organizers and they said, “She is not a Brahmin, so how can she hold a program here” or something like that. And they were sitting in the front of the hall and I said, “Who is Brahmin among you, who thinks he is a Brahmin, just come forward” so five or six of them came and sat, so I said to them, “Put your hand like that" and they started shaking their hands and they got frightened. I said, “Why are you shaking?" and they said, “Because we are Brahmins and You are the power." And I said, see to your neighbours, “Are they also shaking?" And they said “they be also shaking, they be also Brahmins." I said, “See now who are they” and they said they were some people who had come from an lunatic asylum. He said only two people there are shaking, I said “will you believe what you have seen, that when you thought you were Brahmins, you are mad too to believe such a thing." Now to believe that Hitler was also good, is a typical sign of escaping, to like horrible things, you see, just to have an idea that everything is fine, is the best place for jumping into the devils' hand. And that is what is happening to people, they never doubted anyone.

And I don't know where you people get these ideas about everybody's life, even Christ, he too a *[UNCLEAR]* in his hand and He was whipping them all. He was love and compassion, no doubt, but He did whip them and He also

said “don't throw pearls before the swines” was true, His compassion had a special purpose which I will tell you just now, why He got himself crucified, which is a very important thing, but when we just say that everything is fine, everything is good, the reason is we do not want to face the reality. Because, maybe we cannot understand that there could be anything bad, but after realisation, you will discover that yourself there are problems, is something wrong, even in the best there are problems you have not seen and faced. Perhaps there are problems in you which you have not wanted to see in others but after realisation you get out of yourself. Like this sarī I am wearing, if I am not identified with it, I see a spot I would like to clean, I will have to deal with, I see and I deal with it, I am not saying it is a good thing to have a spot, but supposing I am identified, I say, “Oh, there's nothing wrong, absolutely normal." There are among these Gurus, not one, but so many these days, that you have not at all any idea, if you had you would not have allowed.

Now whatever happens to us in our consciousness, is only limited to our human awareness and whatever we see in our human awareness, like at the time Śhrī Kṛiṣhṇa came, we got our human awareness, in that we got only two points, one is our super ego, which is our conditioning and another is our ego, which we have achieved at a rate that we have done this, I am that, I am this, I like that, you like this.

So we are only two things, either super ego, or ego. We wobble it. The third thing which should be in us, is our spirit in the heart. And for that the point is the central

point by which we balance, between these two, the desire and the action. We've got a balancing in the center, by understanding what is the best.

For example a person drinks a lot, he kills himself by drinking. He suddenly tells himself he knows it is bad, that his father killed himself by drinking, so he takes a life which is very much more in moderation.

You start learning by so many experiences, right and wrong, how to keep in the center, that's what you can learn with human awareness, if you can only learn how to keep in the center. Now, you have to go beyond human awareness to be the awareness of the spirit and when you become the awareness of the spirit, should become that you should ask for, when you become that the whole picture will be before you. Because you can feel it yourself and understand what is right and what is wrong. On your vibratory awareness, which is a new dimension. Even children. Take ten children who are realised Souls. If you ask them what is the matter with another person, then immediately they will raise the same finger and say this is the matter. If you ask the person “have you got a cold or bronchitis or something” and he will say, “Yes." If this hand shows the whole left side, then it means he suffering from emotional trouble. You do not know anything about your Chakras at all before realisation. One must accept what it is, that is nothing wrong, it is only your ego which stops now listen. Then once you get your realisation you start feeling your different centers, you start feeling it inside you and you start feeling the centers of others.

Anyone who wants to know if Hitler was or not only has to ask the question and you can feel it and can't even bear it, horrible vibrations you get from him.

Once some Sahaja Yogis were asking about some devilish people and got actual blisters, specially with this Hitler, actual blisters, they got, actual blisters. After realisation you get real actual self consciousness because you become the spirit within the heart. The spirit resides in the heart but this is the base of its' seat. There are seven seats in the head and the seat of the spirit is here. When the Kuṇḍalinī goes, it is just a small thread of Kuṇḍalinī rises because there are lots of problems and a very small thread through the Brahma Nāḍī in the very centermost channel, rise and opens and when it opens the grace comes to you and when the grace comes down you get completely relaxed and it falls in either side of the ida and Piñgalā Nāḍī, the sympathetic nervous system manifesting our left and right sympathetic nervous system.

By this you first feel relaxed, thoughtless and when it is little bit established you start feeling the Cool Breeze, because your spirit has started manifesting and you just feel a Cool Breeze, like a wind coming.

First you may feel a bit tingling, giddy, heat, all that going round, sometimes people a little bit shake, also because the nerves are not properly built up, if they do not have the strength to bear it, then it sometimes happens that you shake, doesn't matter. It takes some time to work in some people, in some people it doesn't take time at all. It is the quality of the central path of your Suṣhumnā that is important. If it is very simple,

there is no problems, then the Kuṇḍalinī takes no time She is anxiously waiting, She is your mother, She is the desire, the pure desire within you to become one with the spirit. Unless and until you achieve it, whatever you may try, you can do anything you like, you spoil your Suṣhumnā, but you have to get it because otherwise your seeking will not cure, but you have to reach the place where you can say `I have found it.' If you have not found the spirit, you will never be happy with anything sort of thing you do, anything you do. Be kind to yourself. Be gracious to yourself and get your realisation. This is the simple thing as a Mother I would like to tell you.

There is nothing to be done except by getting your realisation. But if you are an adamant person and if you are employed by some of the false Gurus, like some of the poor people who come here who have been to false Gurus, you cannot get realisation. I am sorry if you cannot get it, I cannot help you. But if you are coming here by yourself and you want to have it, if you do not have the desire for it you will not get it, at any cost.

You are not being forced to do it, your freedom is completely respected. If your freedom is not respected, how are you going to enjoy it, the freedom of your spirit? So it is completely in your hands, be free and accept, whether you get realisation or not. Now this Chakra of Viśhuddhi is very important because there are sixteen sub-plexus which are looked after, for example ear, nose, throat, all these things are looked after by this center of Śhrī Kṛiṣhṇa and this center has got two sides, one is the left and one is the right, I have to talk about it because people in the West somehow suffer from the left

Viśhuddhi, one of the main reasons is the heavy smoking, right is affected by the smoking, but later on it goes to the left also. But more important, you people have developed a theory, I don't know how, that you have to be guilty for everything. Maybe it is from your childhood, your mother said don't do this, don't do that, don't spoil the carpet, maybe your confessions in the churches, I don't know what to blame but it is a very good indulgence for people to sit down and think “oh I shouldn't have done this I should not have done that” criticising yourself. This is also a very good escape of egoistical people. They are egoistical, they dominate others, then they sit down and weep on their left Viśhuddhi. This left Viśhuddhi is such a dangerous place, that it creates problems of the worst nature in human beings. For example, if you have any cancerous growth in you and if you have left Viśhuddhi, it is going to be difficult to cure. Because the escape of the Kuṇḍalinī has to be through the Viśhuddhi Chakra and the escape of all these tensions of the cancer. And if you have this kind of a bad habit of sitting down and indulging into this kind of a nonsensical thing, like sitting down like Lord Byron and reading some tragedy and making some tragedy out of it, it is a drama! What is there to be tragic about? What is wrong with you? You are very rich people, you have everything, don't you very say count your blessings one by one? How many blessings have you got? You are specially blessed in this Australia, I think you are specially blessed. But you want to show that you are extremely miserable. The worst at this are the French I should say. “Mother you should." For when I went to

France, they said, not say you are a happy person because they will think you are not sensitive", I said, “Really?", for the French are very sensitive people, to what? Not to holiness, not to purity, they are sensitive to God knows what. Ten feet you walk along the road and find a prostitute standing on the road, walk another ten feet find alcoholics lying in the street, are these sensitive people? Sensitive to their spirit? What are they sensitive to? Is this a very good thing that in the night you drink a lot, sleep with ten women and in the morning they feel guilty. Who asked them to go into this kind of a life and then sit down and cry and say “I feel so guilty, I have done so wrong and so forth." That is why I have to talk about this center, is very important also because the center of the sister of Śhrī Kṛiṣhṇa, which is so very important, of Śhrī Viṣhṇumāyā. The relationship between brother and sister is absolutely God given, in all relationships. For us Indians we do not have this problem, really we don't. I tried to explain it. The other day we had a very interesting talk, because two Indians have come with Me, very great Sahaja Yogis they are, they said “Mother, why did you say that girl cannot hold the hand of a girl?" I said, “You won't understand." They said, “No, no, we would like to, does that mean to say we should close our girls' schools in India? I mean for a girl to hold the hand of a girl, it is much better." I said “this is rather difficult for you to understand." They said, “If a girl holds the hand of a man is that a holier relationship?" Is absurd. They think will it be holy to hold the hand of a man, it won't. They value the holy relationships. To this holy relationship is gone, it is the sole power of the brain.

Like, if you go and see the zoo. If there is a wombat, it behaves like a wombat, if there is a monkey, it behaves like a monkey, if there is a tiger, it behaves like a tiger, but a human being if you put him in the zoo, you will see, he will eat up all the foods, he will cut down all the trees, he will go to all the depths of it, he will break his nose, he will lose his ears, he will spoil it all, he cannot sit quiet. You give him a tree, he will eat the fruits, he will have the bark inside himself, he will have the roots inside himself, he is so irresponsible, it is so horrid the way this brain is moving, all the time with this relationship, that relationship of all the types, he cannot sit quiet. You see when he is sitting for five minutes he thinks it is a jail, it is so boring, he must always be doing something important. And what is the important thing he does? Is to really ruin himself.

He must go to a pub, he must go to a friend, he must go somewhere he will really ruin himself for his sense of holiness and all his sense of sanity. That's why we have no sense of sisterliness, the relationship of a sister. This is so much missing that to talk about it in England was impossible, because they said this is a Victorian or a Georgian or everything moves according to whatever moves that horrible England to the kings that worked so hard to ruin it.

The kings themselves were such horrible things, I don't know how they managed to stay.

So you are branded a Georgian or a this or a that, whatever you say, they cannot see the integration of anything, after one second they say, this is absolutely Victorian, so I say alright, doesn't matter, what is good, I

would like to know. They said to be Victorian everything has to be condemned, there has to be something good about it also? This is how the whole outlook of the people always trying to brand you, what about yourself? What brand are you to give to yourself? That's the point nobody wants to see. What brand am I? What is my brand? I am no brand. That's what you are.

Sometimes I feel so many people the way they think they have no sense, like in the night like nocturnal animals they do that and that and that is how they have broken themselves like mad, for what? For what? Be in the center. You must just wait for something to happen, you are. For what? You just have to wait, it is going to happen, this is your own, you are the people who are searching the soul, for which it is all created, the whole seed is there, you just have to get it, for why are you breaking everything that God has given you, it is such a beautiful being he has created, you are the most beautiful one, have you not seen when you go to the zoo all the animals are looking at you? It is a better bet they are looking forward, what have you got to give to them, I don't know. But once you have your realisation you will know the meaning of your being, you will know what you are. This is what one has to establish. We have really done lots of wrongs to ourselves by not understanding really, Self-realisation. One must know that you are the diamonds, that you are the saints, that you have the rights to the kingdom of God, you are specially made for this purpose, like being the people who are, you have climbed up there, instead of that you are lost into your egos and super egos and frankly what you are doing is

destroying all your chances of your ascent which is so easily to be done. It is such a living process which is going to work out, it is not going to harm you in any way it is for you only, it is all there, it is Sahaja, it is within you, it is spontaneous and it is going to work out, only thing you must know you must not treat yourself so shabbily and with such hatred towards yourself. It is no good to have such a low opinion towards yourself. This is the left side, the right side of course is the people who talk big, the people who say, like politicians, who talk down people, when they speak they just dominate and by their speech they control you. This center, right side people have who are hot tempered, who lose their tempers and frighten people with their tempers and say such horrible things and people are so frightened just to keep them quiet they manage somehow. This type of people have the right Viśhuddhi and if they have the colds it is a balance come to them and if they talk too much they have the problem of trying to speak and some people lose their voices if they talk too much because the balance comes into them.

Now the center one is of Śhrī Kṛiṣhṇa. Śhrī Kṛiṣhṇa is the one who creates the witness in us, he is the one who refuted all kinds of formal ritualistic things in religion. But he didn't become a hippie, that's one thing one should understand, he didn't go to another extreme. You see when he said that all these junks and formal things that are there, he didn't say that you take to drugs and other nonsensical forms of things, he said that if you have to get over this, you have to see it as a drama, the whole thing is a joke going on, it is a drama with life, but for

that you have to become, it is not a question of achieving it with rational thinking, you have to go beyond your mind to achieve it and that going beyond is done by your Kuṇḍalinī. Now that he did not do it does not mean he was there, he was very much there, like a painting you have first the background, then you have another colour, then you have another colour, then you have a third colour, now the fourth colour and now the time has come for the whole picture to be there. Everybody has played his part, a very important part in our evolution, everyone is needed, among you may be many who is having trouble with his Viśhuddhi, especially Hari Rāma Hari Kṛiṣhṇa people, they suffer mostly from throat cancer. Because they go against Śhrī Kṛiṣhṇa, by taking his name so vainly on Oxford street, they would stand with those things they get in the market, then they attach it here and go on dancing.

Making mockery out of Śhrī Kṛiṣhṇa. Apart from that they take the name of Śhrī Kṛiṣhṇa unauthorized.

Who has authorized them to take the name of Śhrī Kṛiṣhṇa? They spoil this Chakra completely because if you take the mantra this way you spoil the left Viśhuddhi really badly.

All those who have been given mantras have spoiled their left Viśhuddhi, because these mantras are not like one mantra to somebody. I mean, are we only one Chakra, or part of a Chakra? And that too like Tinga they say and all these things, where are they within us? They ran short of the names I would say, so they started getting hold of any names, or they were sinister giving such horrible names to you. This left Viśhuddhi you catch

so badly. Most people who took these mantras when they speak their lower jaw will be like this, they have difficulty to talk. They cannot talk properly. This is one of the things you will find they have pain in the left hand side at the back, this is the beginning of it. Anything mantra that has been given to you has to have logic. It is a big sign, it is not something nonsensical, you come here, I give you a card, finish. It is a big science, you see how many deities are there. You must know where the problem is, it is like the Kuṇḍalinī is rising here, a very big power and now that here is an obstruction and you want to get rid of that obstruction, then you say again the password and you go on again, but if the Kuṇḍalinī has not started, what is the use of saying a mantra? What is the use of having a mantra? If the Kuṇḍalinī is staying down there and you are saying a mantra about a Chakra and it would be something like this, “That I am frozen in England" and saying a password for a bridge here. This is absurd. Because you are so naive about it, our Indian women think they are so very westernized and sophisticated, they also are equally naive, they don't want to know anything about the scriptures, they are not half witted or anything, they do not know anything about Lord Kṛiṣhṇa, the mantra has to be connected with your development in your Kuṇḍalinī. Not only that, but it should relate to the movement in your Kuṇḍalinī.

It should be given by a person who is a realised Soul. Jāgrut, awakened. The mantra has to be awakened.

And that you will find in Sahaja Yoga is such a simple thing.

For example, the Kuṇḍalinī is stopping at this point, then what is the mantra for this point, Lord's prayer, or `I forgive,' to make it shorter. That is the weapon Christ has given us of forgiveness, at this point, which stops your thinking. If any Dick, Tom and Harry cannot do it, you have to have realisation for it and then because the Kuṇḍalinī has reached there and is stopping there you have to say alright, this is Lord's Prayer, you say Lord's Prayer. What is the mantra over here? It is Allah [hu] Akbar, you put these fingers here and say “Allah [hu] Akbar" three times, if you don't want to do sixteen. But you have to be a realised Soul, or the one who says to do it has to be a realised Soul. It is an authority from God, not some theological college. It is a mockery, do you get knowledge of God from a theological college? I mean you must enter the Kingdom of God to know what He is, what He is like, what is His whole Vidyā, His knowledge. You will find that His knowledge is very different from the knowledge you have. Have you ever known that this is the Viśhuddhi Chakra? You have not known this before, it is not written.

Some things had to be just told by Me also, because this was left for Me to be told. Now this Chakra, the Viśhuddhi Chakra, gives you the witness that Lord Kṛiṣhṇa has described that you become the *[UNCLEAR]*. I would like you also to listen to the tape on Śhrī Kṛiṣhṇa which is very good, recently I spoke about him in a very detailed manner. You can have all these tapes brought down to Melbourne and listen to them, but listening to them only is of no use if you start living again in a funny way. I do not want you to make a pickle out of Me as you have

pickled out others. Put it into practice. Because when I spoke in America they were all taping Me down and everybody said “Mother you should not allow them to tape because sitting there are writers and this and that and they will use your knowledge and spread the” and I said “what can I do?", after all the Kuṇḍalinī I have to awaken and I said “let them do it, I will be very happy to sit down if they can do it, let them do it I would be very happy." Anybody who says why should it be you, I will be very happy to settle down, because I gain nothing, what do I gain? For anybody who is willing to do it, I will be very happy to retire, absolutely. Because by God's grace I am a married woman, very happily married, I have My own children, I have grand children, why should I bother My head, travelling around like this? Yesterday in Sydney, today here in Melbourne, then again to Sydney, then to India, why should I do this? For what? Only because I love, I know this is My mission, I know I have to do it, this is My job, but if anybody else can do it I will be very happy for them to do it.

Now when it comes to this awakening and all that, it is the thing that happens to you, it is the thing that moves within you and you have to feel the movement, it is not a blind game where you throw the money into the fountain and say “now I am going to enter into the marriage." You can do what you like.

Somebody says jump, do this and so that. Nothing. Every bit is logical. First your Kuṇḍalinī must arise, if it does not I cannot give you a certificate, nobody can give you a certificate, It is nothing like this.

So in America when I went and they all had tape recorders, something bad has come out of it, it is called Born Again.

All these things have come from there, only from My lectures. Because I am told when the Christians, when they called Me, thinking they'd be Christians in the churches they called Me bonafide because I wasn't baptized according to them, so I should be baptized by these people so I would be alright, I was bonafide. They called Me in the church and they also collected a collection for Me, very interesting. But best part of it, some of them caught up as they were, I say you have to be born again. Born again, so they have got a college called Born Again, finish. It is very difficult with these mad people, anything you tell them they make a cult out of. Anything you do they want to pickle, it is such a difficult thing. They don't want to take to reality, they want to keep their egos everywhere asserting by which they pluck out all that is living and make it dead, ugly and say “this is mine, this is mine." Absurd. But this is what happened to us. Now about Christ, I think they just listened to Christ, they said *[UNCLEAR]* they showed what Kṛiṣhṇa has said in his lifetime, that the spirit doesn't die, it cannot be killed, it cannot be lowered, it has to rise, what ever and it rises. Whatever you may try, it is eternal, that is what Christ has proved by His resurrection. But by His resurrection He has achieved a great, which the Jews cannot know and the Christians have not carried the message because they also do not know. But the greatest thing He has done, to our

awareness is, that if you pass through that center your Karmas are sucked, your sins are forgiven.

This is the beauty He has created within us, by which our egos are sucked in, He sucks in our ego, He is the sucker of our ego. And all the Christian nations are the greatest ego orientated people. Very difficult to talk to them. First thing they will do is to box your nose. If not crucify you. They are extremely aggressive people, extremely aggressive and very ignorant. They are so naive, so naive, In India it is not so difficult to talk to them because they know what is knowledge. I mean they know what is Kuṇḍalinī, they know. They know what is the rising of the Kuṇḍalinī, they know who can do this, it is not difficult to talk to them, because the people are so naive, in spiritual life and then they are so ego orientated, despite the fact that Christ is the one who is the sucker of your ego, He is the one who sucks your ego, so there is no Karmas after realisation. You become the spirit and spirit does not have any Karma, it is a myth, it is sucked and this is what Christ has done for us.

So, when Christians, so-called, came to India, they converted people in such a crude method by putting a loaf in a well which the poor Indians ate, they are naive as far as Christianity was concerned and they said this was the meat of the cows and now you are all finished, you are Christians, so the whole village became Christians. Like that they tried all dirty tricks on Indians and they all became Christians and now Indian Christians are the worst of all, poor things, they think they are so condemned forever, now they can never be converted, they can never be realised, they cannot be resurrected,

they are doomed people, who have eaten the cows' meat, not they, but their forefathers. It is such a wretched state. But if a realised Soul had come they would have seen that this is what Christ was supposed to do, which is written in the Devī Māhātmyam, that He is the support of the universe.

But the narrow visions of Christians and the narrow visions of Hindus and the narrow visions of Moslems have made such a mess, that the time has come to get the whole picture, the complete integration, of all these great incarnations, who are within you and to understand them in reality, what they are and becoming yourself such a vital personality and a collective being Of Christ, I don't know, I must have spoken hours and hours, about Kṛiṣhṇa I must have spoken hours. In England also we have got about 300 to 400 tapes on different subjects which you should get them and listen to them. But again do not make it a big *[UNCLEAR]* for you, it is to be actualised, it has to be felt, it is to be practiced within yourself. It is not for giving you any big knowledge. We have a book called Advent, which is written by a French Sahaja Yogi. It is a very beautiful book, but we do not sell it to people who are not realised.

We do not, because it is very difficult for a person who is not realised to get the book, that is why they crucified Christ. That is why they tortured Mohammed. That is why they tortured all the saints, because they could not bear to the truth, their ego could not bear it.

So we do not give those books to people who are not realised, if you are realised then you can order a copy, you can get the book, but otherwise not. I am sorry we

have certain experiences and we feel on these experiences that unless and until human beings are realised they are not going to value anything like that, they will value anything else but their mukta and here you do not pay a single pai, so there is no binding force.

Like many people say, I say “why are you still doing these things” and they say “we have paid for it, so let us go through it” even if it is hell you go through it, that's the mentality. Now here there is nothing paid, there's on attachment, it is your freedom which is attached to you, if you are really a seeker you will go deep into it and have the blessings, have the beauty of that spirit which is within you, which you can have. The time has come, this was the time was promised, this was talked about in John's Revelations.

Also in many of the Indian scriptures it is described. But the best is William Blake, who has described it very beautifully in his book called `Milton', even the place where I lived, was Surrey Hills, he has said, the first beacons will be lit in Surrey Hills, he has also said where our ashram is, that in the ruins of Lambeth Way, foundations will...

[UNCLEAR] that now you want to go to My car. Now My car has shifted to London. Better go to London, that's what it is. One has to realise that when we talk of anyone like Christ or Moses or Abraham or Mohammad or anyone, we should know they are all related to each other. While we are identified with one or the other. Let us identify ourselves with all of them to understanding of Kuṇḍalinī you'll be amazed, when the Kuṇḍalinī rises, if somebody's a Muslim he has to take the name of Nanaka otherwise

Kuṇḍalinī doesn't rise. All the fanatics have to give up their fanaticism before the Kuṇḍalinī rises. And even if their Kuṇḍalinī rises and gives them realisation then again sinks back into their fanatic *[UNCLEAR]*.

So all these things will only disappear, all these related things will disappear as soon as you find your absolute, that is your spirit. About the Spirit, I'm sorry I cannot talk in such a small time, but there's a very good tape on Sat-chit-ānand, that is the spirit and it's best to listen to that because I would do no honour to your spirit if I just finish it in two minutes or three minutes like that.

It's a very wide subject and very beautiful. Most enjoyable to know about your own spirit, about yourself, that, truly you are not this body, not this mind, not this ego. Neither these conditionings and these old ideas you have, conceptions. You are what you are. Thank you very much. Now I'm going away to India on the 8th and tomorrow there's a good program in Sydney and 8th I'll be giving up and then I'll be in Europe a short time and going back to London. Maybe next year I'll be coming here.

I would request you that you must attend your collective programs because the message of Sahaja Yoga is collectivity. If you take My photograph and meditate at home after some time you'll find you'll lose vibrations. You will not grow. You have to grow collectively. It's very important that all of you should grow together collectively. Collectiveness must be developed otherwise you must work it out, how it works on others and how it cures others and how you help others, is to be seen.

Some people will be coming from Melbourne, from Sydney to Melbourne, in the beginning still, who understand Sahaja Yoga and then they will go away. Of course there is no money, nothing involved as you see, we have started in a very small way. Now next time I come I'm sure Melbourne will be a *[UNCLEAR]* of very good Sahaja Yogis. Not doubting, but understanding, doubting doesn't give you much chance, you see, what is there to doubt, is nothing but your ego is doubting something. There's nothing to doubt, just come and see this is a new university to which you have entered, you don't have to pay anything, that's all. When you have to pay, do not doubt and ask questions, I know you'll go head long, but here you are free, you have freedom to doubt but do not pull it too fast because you will spoil your chances of realisation.

May God bless you. [Applause.] Question: Why is Haṭha Yoga an impediment to the Heart Chakra?

Shri Mataji: The Haṭha Yoga that you do here is an apology for the real Haṭha Yoga. Real Haṭha Yoga was written by Patanjali thousands of years back for students who used to go to their Gurus and they were picked up specially for Self-realisation. All the children used to go to Gurus in childhood from 5-25 years of age and they lived a very celibate life in those places. There was not question of their marrying each other even when today we see these Gotras with the universities, we cannot marry. In the same Gotra, supposing my Gotra is a *[UNCLEAR]* I cannot marry any boy from the *[UNCLEAR]* Gotra. None of My children can also marry the Gotra of My

husband so that purity is still maintained as brothers and sisters.

You can imagine the celibacy, that all the students of the universities were brothers and sisters. These are the times when long time back they had this *[UNCLEAR]* where people used to have four stages of life. First was the Brahmacharia when celibacy was there. Second was the *[UNCLEAR* Grahasta] where they were married, then was the *[UNCLEAR* Vanavastha] where the husband-wife used to retire as grandparents in the forest and live with their children to give them love. And fourth one when they were Sannyāsīs, when one of them died they lived like just, like detached people and helped everyone around.

Like that we had *[UNCLEAR* Charturtvaisvath]. Now in this *[UNCLEAR* Charturtvaisvath] conditions you see the Patanjali was the great great master of realisation and the first thing that you have to do in Patanjali Yoga is *[UNCLEAR* ashtang]. There are eight things, but simultaneously to be done. First thing is Īshwaras, means establishment of God, means realisation. That's the first thing to be done that establish your God. Once you're established to your God then the Kuṇḍalinī starts rising. Then supposing there's any problem on any center, alright, then there is, there are other ways also of curing it. There are ashtanga and one of them is also a typical exercise for a particular Chakra, if it is on the right side part of it we do use that but depending on what's the trouble. For example, I have a trouble in the throat and I try to do some exercise for the stomach, stomach will go out and the throat will remain as it is. It is like taking all the medicines in a medicine bottle without

discrimination. That also is only *[UNCLEAR]* which is the 24th part of his eight ashtangas. Eight multiplied 24.

Now why have Chakra catches, also can be understood that when you pay so much attention to it is the [UNCLEAR... Yoga] means physical exercises, isn't it? Just to, which I don't know people do it to become slaves and things and all these things. But if your attention is so much in your body only, alone, you are not only your body, you are your body, you are the mind, you are ego, superego, of all the things you are your spirit. There's no attention on your Spirit! That's why heart gets a problem because you don't pay attention to your Spirit, but your body. If you divert your attention too much to your body the spirit is angry; that's why the modern Haṭha Yoga *[UNCLEAR]*, not the real Haṭha Yoga, but the so-called modern Haṭha Yoga, even today in India, in many places, they practice the real Haṭha Yoga but there are very few places and everybody's not allowed to enter there. It's very *[UNCLEAR]*.

We do use, we do use Haṭha Yoga. But we do not sort of use the way you people do. When the Kuṇḍalinī rises we know where is the problem is and different asanas are given. To all of them. I teach them which is to be done for each Chakra if it is pertaining to the Chakra that catches.

Question: I've always been given the impression, through reading about spiritual things, that you have to be a very evolved person before you start anything around Kuṇḍalinī and that it's actually quite dangerous to arouse Kuṇḍalinī before you're, you know, you're cleaned up and gotten rid of your Karmas and the whole business.

Shri Mataji: Very true, it's very difficult to raise the Kuṇḍalinī, no doubt about it. Nobody should mess about. You have to be a very holy person to do it. Actually these people who have written books do not know a word about it. There's a one big book I read, when they said the Kuṇḍalinī was in the stomach, I was astonished, I mean how can they write, he's a Western man.

So dishonest to write such a thing, that Kuṇḍalinī's in the stomach. He doesn't know a word about it. See and how they write, God only knows from where they learn these things like that. And just to publish, just now, please, will you listen to this answer and listen to things first and tell it, because your mind is just on one question, please keep your mind to what I'm answering alright, now what happens that when the Kuṇḍalinī rises She rises only under the authority of God, otherwise She does not. Because you are not in India, you will not know why I am raising the Kuṇḍalinī, But Indians immediately know that what I am, there must be something about Me and they know who I am. Which I am very afraid to tell you. But they immediately know who I am. I don't have to tell them because it's already written, that only such a person can raise the Kuṇḍalinī, so they know what it is. Because they have seen with their own eyes, the raising of the Kuṇḍalinī. Alright, there's something special about Me. That's how, alright now, what about this gentleman?
Question: If the highest and the lowest meet at the place of the Sahasrāra, why do you associate Australia with Mūlādhāra Chakra?

Shri Mataji: You see Mūlādhāra Chakra is not the lowest, it is the holiest of holy. Is the highest. Is the first to be

created. Is the greatest to be worshipped. Is first to be worshipped. If you ask an Indian he will know what it is to *[UNCLEAR* G...]. Mūlādhāra Chakra, if I have to declare to them that Australia Mūlādhāra Chakra they'll give up. *[UNCLEAR* Kashi] and all these places and come down here. [Laughter.] The Mūlādhāra Chakra is adorned by Gaṇeśha who is purity, complete purity, he is innocence, he is the highest of highest, nobody can reach Gaṇeśha, even Brahmā, Viṣhṇu, Maheśha cannot reach. Now he felt that, I respect you because you are born here. Oh, he must have thought and you are so pure, that's why you are put there. You are the highest of highest, that's why you are put there and nothing can make you impure. You are like a lotus, born in the mud.

Question: Can you feel your Kuṇḍalinī rising more than once and can you feel the sensations?

Shri Mataji: The Kuṇḍalinī is like many ropes, or strings tied together, like a rope, you see, you can say and one rises, then the second one rises. You can, so many people feel it, very much. Hugo told Me that, Mother I was near *[UNCLEAR]*, left Viśhuddhi because we had done this mantra business and he was cooking in the kitchen and suddenly he felt a Cool Breeze and the cool movement of the Kuṇḍalinī and the left Viśhuddhi and he said, “I know Mother you are working there." It's like that. *[UNCLEAR]* it's always right, once it is awakened.

So I did, but you can feel it also by certain things, you can, if you want to, I mean even *[UNCLEAR]* has freedom to do what they like. The Californian Indians, also, what to do if they are *[UNCLEAR]* or folly, how can you help them.

Question: Can India be in the land of Dharma?

Shri Mataji: Are you Indian? Answer: No, Australian, Mother.

Shri Mataji: If I say something will they get angry with Me, Australians? Answer: Yes they would.

Shri Mataji: Then you tell Me what is there, discretion is better part of valor.

Answer: Discretion Mother.

Shri Mataji: India is, India is a, I know what is the next will come after that, that why there is such a problem. India is a spiritual country, no doubt about it. Because the accent is not on material developments but is on the control of the spirit, the control of the attention. From the very childhood, the children are taught how to control the attention. “Where is your attention?", a mother will say. She will not say, `You spoiled the carpet,' she will not say this, that's it, accent is not on the carpet. But, “Where is your attention?" And still it's *[UNCLEAR* basic].

So we can say, apart from that, this country has the Kuṇḍalinī of the Universe. It is the Kuṇḍalinī and England is the Heart.

So I don't know which one is better, which one is less, everything is so important. But definitely, India is a Yoga Bhūmi, no doubt. But yours is Puṇya Bhūmi, I said, Puṇya means where people have earned lots of credits, credits, good credits from God, is a Puṇya Bhūmi, no doubt about it.

They have earned, their conscience is good, Australians have a good conscience. No doubt about it, it's a Puṇya Bhūmi.

Question [Warren repeats it]: There are people in Australia who play straight stock on Shambali consciousness. He's surprised you haven't mentioned it.

Shri Mataji: No, I don't know them, I've not met them. But maybe they are doing some sort of a supraconscious stuff. He says it is.

Warren: invisible master.

Shri Mataji: No, no, that invisible master is a joke, I tell you it's a big joke. You better be your own master. Because these invisible masters that I have been to some places in America, where they, having invisible masters and all that, they're all possessed, absolutely possessed people. None of them you see, actually one should understand one simple thing, that none of the masters can possess you, can never, they give you complete freedom. They do their job without possessing you, how can you get connected with them, unless and until you have got Kuṇḍalinī awakening? You have to be awakened, otherwise how will you be connected, just sitting together like this and this is all supraconscious activity which you can, listen to one of My lectures where I have described all these things very clearly. You see, it might have started from the seeking only, but while seeking, when they don't find it, they want to break their heads, that's what it is. All these things have started from seeking.

[UNCLEAR Not big nonsense]. I do not think. I do not want to say even that people who are using sex for Kuṇḍalinī awakening are also wrong, because I am a Mother, I want to excuse everyone. I said maybe that they might have seen Śhrī Gaṇeśha sitting there and his trunk they might

have misunderstood as the Kuṇḍalinī, might be, you see as a Mother I have to make excuses for My children. But, it's a big mistake, not to, a big mistake, but plunging into the nonsense, that is true. Proof of the pudding is in the eating. Anyone you meet who says I've got it, alright, tell me where is my Chakra? Where are your Chakras? Finished. Where is my Kuṇḍalinī? Where is your Kuṇḍalinī? He will tell you, Hugo can tell, Sahaja Yogis can tell. Any great realised Soul will say that the Kuṇḍalinī is there. This is, this is the way you should know. Does he tell you about the Kuṇḍalinī? Where is the Kuṇḍalinī? What is the Chakra and when did he say. Actual thing, if someone, supposing there's a doctor, then he should be able to diagnose. He says I'm a doctor of this university, doctor of that university, ultimately you find that he's not even a doctor.

Not ever a fisherman.

So anybody says anything, you should not believe, but see for yourself, what realised. Unless and until you have got realisation, you cannot understand it. Now what is it? Question: Do you want to keep the body in God or do you want to take mote incarnations? Warren: I think the language is very much styled by some of his reading, Mother.

Shri Mataji: I just don't understand, My child, you are reading too much; better stop it. One should not read so much that you go mad. Actually, really this is too much. That's why Kabīr says when I was born, I read Kabīr, he said *[UNCLEAR]* means by reading too much, even the learned have become stupid. I said how can they become stupid? I could not understand. If you read too much you

get so confused, you see. All of the *[UNCLEAR]* are in your head and you are lost. Now, don't be funny.

Don't ask about Me. I'm not going to tell you anything about Myself. I'll only tell you about you, alright! Better not, because I do not want to fall into any controversies, I do not want to be crucified this time! Alright. That's between you and Me.

Question: Twenty years ago my father used to tell me that I was not to make myself *[UNCLEAR]* the first half an hour of this program was spent criticising other people. I would have thought...

Warren: He's a little upset at the fact that you're criticising.

Shri Mataji: Yes, it is necessary. Because I find that here people have suffered a lot. I have to tell about them.

You see when a Mother sees *[UNCLEAR]* that children are doing and killed by other people She has to tell them. It is a very sad thing, I don't like it. I did not do it for years but I cannot help it now, to tell them. I find somebody like Hugo coming to Me with all his backbone broken and monies lost, everything.

I have to tell him. I should say “now go and garland the fellow and give all the money you have, also and give away?" Should I? What should I do? Criticising is only possible when you see you want to see that what is wrong. Like Christ, people said “now why do you criticise?" They do not criticise. He said the devil is not going to talk against his own home or house. It's true, they are not going to talk against, they are all friends! But they will all fight, you will see and fall down. Do you know what harm they have done to people? Then you will

not say I should not criticise. It takes courage to criticise them. Who will criticise? Will you? Answer: *[UNCLEAR]*.

Shri Mataji: Why not? Answer: I'm not going to say anything.

Shri Mataji: Will you, will you not criticise, if you find your own child being hurt and bothered by someone? Warren: It's a pointless discussion, Mother.

Shri Mataji: You are pointless really, Useless. If you are such a compassionate person do something good.

Answer: Yes, Mother.

Question: Did you explain about Karma, about letting go of Karma? What happens then?

Shri Mataji: You see, I was saying that you let it go mentally, or rationally. You see, it happens to you. Your Karma gets sucked in by the ego, this Chakra is that of Christ, alright and this Chakra, when it is opened, He sucks your Karmas. Ego is sucked in, is absorbed. And it is neutralised. This is what Christ has done, which nobody has been able to say, *[UNCLEAR]* he absorbs it, we say that he died for our sins, *[UNCLEAR]* means what? Still you say, “We are sinners." Now he died for, *[UNCLEAR]* “we should suffer” why should you suffer? You are saints! Why should you suffer? And if anybody tries any *[UNCLEAR]* at you, or makes you suffer, I will not allow. They had a very bad time before, no more.

They better not try these tricks, I'll flog them openly and expose them, all of them, one by one. Whether you like it or not. I have to protect My children.

Question: I've heard said that Kuṇḍalinī's the power of the imagination. What truth is in that?

Shri Mataji: You will see for yourself. It is not. You see this is the trouble, everybody starts talking about God, about Kuṇḍalinī, everybody has a right, whether you have authority or not. Who's going to ask you? These are like villagers coming to the city, touching somewhere in the plugs and saying that electricity gives you a shock. They are so naive and so stupid and *[UNCLEAR* lwnely/lonely] people.

Then they all start talking like this. I'm telling you the truth, you can see for yourself. Don't believe these people. What good have they done? You see, anybody who says anything, ask `what good have you done?' Why do you talk? Finished. How many people you have given realisation. But you will start giving realisation to others once your Kuṇḍalinī is awakened. The proof of the pudding is in eating. It is easy to talk.

Answer: Well actually, I read it in a pretty reputable book.

Warren: What was the book? Answer: In search of the miraculous.

Warren: The miraculous, who said it's, does it give vibrations this book, that's what you have to check.

Shri Mataji: So many reputable people, you'll find them very soon, are absolutely horrible people.

You'll find them. First you get your realisation. Can you tell where is this Kuṇḍalinī? Finished. Sahaja Yoga doesn't deal with all these dramas. You have to tell me where is the Kuṇḍalinī of another person? You have to raise the Kuṇḍalinī. You should be able to give baptism. You have to see that the Cool Breeze comes out. That's what Sahaja Yoga is. You might brand yourself, anything.

So what? You might brand yourself as Śhrī Kṛiṣhṇa, what to do? You can, you see this is all imagination. This is what imagination is.

Warren: not books, not books.

Shri Mataji: You see, Sydney people never ask so many questions and they got realisation, about five hundred of them. Melbourne are more asking questions and less people getting. And this is all imagination, just think of it. Who would like to be in such imaginary powers? Warren: Just finish your question.

Shri Mataji: But there is no question, you see people have questions...

Answer: No, I don't have a question, I just want to say that...

Shri Mataji: Question has no meaning, you must get your realisation.

Question: Didn't Lord Chaitanya in the 16th century propagate the chanting of Hare Kṛiṣhṇa in India? Wasn't he a very great person? Some say he was an incarnation of Kṛiṣhṇa himself.

Shri Mataji: You see Lord Chaitanya *[UNCLEAR]* 16th, in the 16th. This, the one who started was this Hare Kṛiṣhṇa fellow. I need not say, but you see his ways only. Now he's no more, thank God. But you see his ways. How does he look like? You always used to say he carried... who was the jockey. His face was so *[UNCLEAR]*. Did he look like a happy man, by any chance? What makes you think like this, that by chanting God's name you will reach God? On the contrary you'll be arrested. I'll tell you a simple thing. For example, if you have to chant God's name, this is,

say the prime ministers name, I don't know who's the prime minister. You go near his house and start chanting his name. They'll all arrest you. What right have you got to chant his name they will ask you? As simple as that. Lord Chaitanya was there, it's alright *[UNCLEAR]* this gentleman was saying, actually he is not Lord Chaitanya, so you better *[UNCLEAR]* confuse him with that. It's like any saying *[UNCLEAR]* “I'm Christ" *[UNCLEAR]* is like that, is not to be considered here but what I would say that is simple thing, use your logic.* If you want to take somebody's name you should be at least connected to that person. Supposing there's a telephone and is not connected you go on ringing a person, Śhrī Kṛiṣhṇa, Śhrī Kṛiṣhṇa will you reach there? You have to be connected.

It spoils your throat completely, you will see that it's an antidote of smoking, you take it from Me is a nervousness in the throat, you see and some people find an expression for the *[UNCLEAR]*, it is just an imaginary thing, there is nothing like enjoying something in the imaginations. Take the reality into your hands what Kṛiṣhṇa has said, that you are to become the *[UNCLEAR]*. You have to know it means you have to become realised Souls. Even in baptism he said you have to be *[UNCLEAR* ananyabakti]. Now *[UNCLEAR]* means you are realised when you are not the other, when you are realised then you do the Bhakti , he also said the same thing.

Question: But didn't He also say that to realise him you have to have devotion towards him, to realise him you have to worship him?

Shri Mataji: And did I say that you should not have devotion? You should have devotion from your heart but

not this imaginary thing, `I'm in love with Kṛiṣhṇa and the river Ganges and I'm the Yamuna river' or `I'm feeling the picture,' all this nonsense and then `I'm walking and Kṛiṣhṇa breaks *[UNCLEAR]*,' all this imaginary thing you should not do. Just you must have devotion not only for Kṛiṣhṇa but, for all these people. Hare Kṛiṣhṇa movement, do they tell you what Christ did, did they tell you what Mohammed has done, *[UNCLEAR* why did they cancelled all other?] Enjoyment is not the *[UNCLEAR]* you must get the joy, not enjoy.

Answer: No, but is like, is not even a reward is, just that I am saying that... truly, I find joy, I don't chant like a *[UNCLEAR]* `Hare Kṛiṣhṇa, Hare Kṛiṣhṇa'.

Shri Mataji: Why don't you do it, you should if you belong to that cult you should, you should wear that horrible sarī which is called *[UNCLEAR]* and dance with that, that's what you should do like all other Sādhus, if you don't do it you're a sensible woman but still you have to get your realisation.

Answer: Yes but you see,...

Shri Mataji: If you are satisfied with what you are I have nothing to force you, I also cannot promise you realisation My child that is one thing I have to tell you very humbly.

Answer: I agree with you Mātājī that we should look at all the great teachers, I'm not closed off, I read all the great teachers.

Shri Mataji: That you do, but it's all on the mental level I'm saying you have to go beyond, you have to become.

Question: In this age is it possible to get realisation from any other than you or your devotees?

Shri Mataji: Of course, you also can give realisation once you are realised, of course, that's what it is and that is what William Blake has written very clearly. About him, he has said that men of God will become prophets and these prophets will have the capacity to make others prophets. This is what it is.

You can do it. They, you see, you don't know in Australia, just a minute, just a minute, In Australia I didn't come before. He and his friend, Terence, were there in India and they are half-baked because I live in the villages you see, I have most of My disciples in the villages because the city people, the city people *[UNCLEAR]* they all want to try this show and circus, so I go to villages, I mean in the villages we don't even have *[UNCLEAR]* or anything. *[UNCLEAR]* with the whole show that they wanted to run away you see, but I said “No, no, no, stay back, stay back” somehow or other, *[UNCLEAR]* they got their realisation, very difficult, this one *[UNCLEAR]*. He didn't listen to anyone. Jai Rāma, Jai Kṛiṣhṇa, everything he has done, he's gone through every sort of a myth and then he got his realisation and then he gave realisation to two hundred people these two, so you can do it also.

Question: Yes, alright, I agree with that, but it can only come from you or your disciples, or can it come from people other than Sahaja Yogis?

Shri Mataji: Could be.

Warren: there are great realised Souls.

Shri Mataji: Yes, there are one or two of them, four or five I should say who I know. One of them is *[UNCLEAR]* and I

said “Why don't you give realisation to them?" You see these Gurus are not so simple like your Mother. He's very difficult personality. One day he told Me “if anyone troubles you you had better send him over to Me, I'm not going to give realisation to anyone. I gave to one and he turned out to be nothing." I didn't know he was such a difficult thing, one day this gentleman was just troubling Me for nothing at all, “Why do you want to give realisation to all of them, they don't deserve it” and all that sort of thing. Always they used to ask Me. Questions and trouble Me.

I said, “*[UNCLEAR* Gotal Mahārāja] calling you" and this man doesn't receive anyone normally, you see, so he was very happy, “Oh he's such a holy man, that *[UNCLEAR* Mahārāji] calling me." Really I don't know again whether to laugh or to cry, the way things happen. After some time he came in such a horrible state, poor thing, his legs were tied up here and he was dangling them, two people were carrying them. “What happened?", really tears came into My eyes, “What has happened? What has he done out of him." So he came in and said “Mother do anything, but don't send me to *[UNCLEAR* Mahārāji]." And what did he do? He said, “You don't know, he's very cruel." I said “What did you do?" He said that, “You see, I just told him." I said, “You talk against Me?" “Yes, I said, `Mother gives realisation to everyone, everyday, Tom Harry. She doesn't *[UNCLEAR]* anyone and this and that.' I said, `That's all!' Yes and a little more I said something against you I know." But what did you do, you see you said you did not do *[UNCLEAR]*. They had broken his legs and hands so he goes about on a tiger and he said his

tiger came in the night and threw me into a *[UNCLEAR]* and I was lying there for three days with the broken legs, nobody bothered about me. For he dropped some rotis, that's a kind of bread wheat in India, that you eat now, lie down there. I was just there in all filth and everything. I was lying there for again three days, he was giving me rotis from there and then of the seventh day he sent some people to carry me out. And he said, “Now you go to that Mātājī with your legs round your neck, dangling and she is the one who is going to fix you up and now don't say a word against her." That's what they are. Another doctor who was troubling Me a lot, so I said “why don't you *[UNCLEAR]*” this was before this thing happened, you know.

So the doctor came absolutely, in a very run down condition, I said “what happened?", he said “that Mahārāji asked me to clean a Shiva temple.

He said it's very nice you'll enjoy it very much. You are cleaning Shiva, this is a very great temple of Shiva, clean it. And everyday I used to walk three miles up the hill, clean the Shiva temple with water, buckets used to carry and then come back, carry buckets and all that." In one month he became a very thin fellow, just like as if he has been climbing Himālayas.

So I asked “why did you do like this?" He said “donkeys must be given donkeys' job." Another *[UNCLEAR* Mahārāj], he's a great person, I know of in *[UNCLEAR]* I asked him, I said “why don't you go to America." He ran away. In three days he ran away, he said, “They are useless people, why are you giving them realisation? They are good for nothing! They are useless people, they don't

deserve it. Let them hang themselves!" And one of the disciples who were in America had given him realisation. He was an Indian and he started earning money out of Sahaja Yoga. I did not know. When he came to Bombay [Mumbai], people found out from his vibrations that he was very hot, so I asked him “what do you do?" and he showed Me the brochure! It was written: “For ordinary vibrations $200 and for special ones $500." I was shocked, I said “how can you do it?" He said “now I have to run a hotel for them” and I said “you run a hotel or do whatever you like, in the name of God you cannot run a hotel like *[UNCLEAR]*, you have to run it for your own sake. It's alright. And you don't pay for their stay, but you cannot make money out of it. You cannot. I know. You can do some other work, what you were doing *[UNCLEAR]* I was teaching." I said, “Now you should teach. You cannot go into enterprises like this in the name of God. *[UNCLEAR]* to pay for vibrations. How much did you pay for your realisation? That you are charging?" He got very angry with Me. He said, “You must have money otherwise what will you do” and this and that.

I said, “See, you can do any business you like on your own but you cannot do it in the name of God and nor organization like this is going to be raised in the name of God. And I will not have it. I really tell you, forbid it *[UNCLEAR]*." I was very strict. Got very angry. Till *[UNCLEAR]* Mahārāj took it.

And then he came back about a month or so. He said, “I had a very bad time in this Mahārāj." I said “what happened?" “I don't know how he came to know that I have been to you. But I went to his place, I went into the

gate and he started throwing stones at me. And I got hurt very badly, so I ran away to the station. Then he said to one man there saying that ah, how dare you come to see me when you have insulted Mother.

And you wretched fellow" and all sorts of things.

So then, poor man, he said, “For that I'm sorry, but I must see Mahārāj" and all that. The third day he allowed him to see and then he said that you go and tell Mother that I will come and pay my respects. *[UNCLEAR]* and he sent a very nice tape with all the Sanskrit music that he knew with him.

When this fellow came back he telephoned to Me, he said “Mother, please forgive me, this has happened." *[UNCLEAR]* and he said this thing, He said it on the telephone “I want to meet You." But you'll be surprised he's tried and tried. He went to America, came to London, he never met Me. This is what happened.

You see, I can understand your questioning is alright, but I can tell you, I asked a gentleman this morning, that before 3,000, paid 3,000 pounds do you find out why you are paying or did you ask any questions, said nothing. “I just paid." Before these Gurus you don't ask any questions. Just go headlong before. It's only with Mother, you take liberties, go on this way or that way. For example, this lady who is Hare Kṛiṣhṇa, did she ask any questions to her Guru? Answer: Yes I did Mother.

Shri Mataji: Nothing.

Answer: No, I asked many questions.

Shri Mataji: That's it. What I'm trying to tell you, that when you have freedom, use it for your good.

Use it for your good. No. None of them has said that you should have your realisation, did they say? On the contrary, they said “perform your *[UNCLEAR]* here *[UNCLEAR]* your money. We have to run an organization. We have to run this." Did they say that `I'll give you realisation'? Any one of them? And when I say I'm giving you realisation, you want to ask Me questions. What does that suggest? What does that suggest, that you have no self estimation Simple thing. If you knew that you are *[UNCLEAR]* with it: You'll get it. Now you don't ask Me any questions, because your questions is pointless. Are you sent by somebody here? Answer: I'm very pleased to see you.

Shri Mataji: Ah.

Answer: I said I'm pleased to see you.

Shri Mataji: Then why do you ask questions, now disturbing everyone. If you really love Me, then sit down now and have your realisation. Be a nice boy. Come along. It's too much.

Answer: What is?

Shri Mataji: There's a real difference between and awareness that's free.

Warren: [MISSING.]

Shri Mataji: Now you see, disturbed us now, he's going out. Now how many of you want to... I do not want to answer the questions of the people who are just here to ask questions. Don't want to. All those who are asking questions are going to go away. I know that.

Contents: 1981-04-07 **Śhrī Gṛuhalakṣhmī Pūjā, Sydney, New South Wales, Australia**

Today is the anniversary day of the wedding and I have allowed them to celebrate it because marriage is very important in Sahaja Yoga. It is one of the most important things for Sahaja Yoga, that one should get married. Firstly, marriage always gives you a balance of understanding, if you have proper ideas about marriage. If you have funny ideas and if you are just marrying for fun's sake and you do not understand the value of marriage, then it is just a joke, it's not a marriage. But in Sahaja Yoga you really understand the value of marriage first of all, what it means. And then, luckily today we are going to have some Sahaja Yoga weddings, in which you will see how we try to conform to the Divine laws of marriage and get married under those laws.

Here I find in Australia as well as in other countries that marriage has lost its sanctity. People don't understand that by doing sin against the marriage, they are committing such great sins that many generations will have to suffer for this kind of a thing. One has to understand that fidelity is the basis of marriage. If there is no fidelity marriage has no meaning. If you are not capable of being `fidel', that means you are not yet a human being. A human being has to be a `fidelity'.

In marriage we confirm that the problem is over now, we have finished with the choices we had and now we are going to settle down with one person. And the sharing of life, in even absolutely private life, is with one person.

So you have to be very much harmonized with that person and in complete understanding and loyalties to each other, one has to develop.

Now the marriage is for the reproduction of the species, as they say. Now as you are another species, you are Sahaja Yogis, it's a new awareness, marriages between you will bring forth children of very high calibre. There are great saints who are anxious to get birth on this Earth and if they find good Sahaja Yogi husband and wife who love each other, are good progressive people in Sahaja Yoga, who are dedicated to Sahaja Yoga, they would be definitely descending on this Earth through you.

So it is very important and imminent at this time that one should understand the value, the value of the marriage of Sahaja Yoga.

So many marriages have taken place before also, but what is the validity or what is the credibility of those marriages, when the person who marries them in the name of God is not a realised Soul? He has to be a realised Soul to marry them. He has no authority to marry in the name of God. All right, registration is a different thing altogether because they do not marry in the name of God, they marry in the name of a nation. But if you have to marry in the name of God, you must have a realised Soul to do that. And one should understand every bit of the marriage that is performed, what you are doing, why you are doing.

There are certain promises that are to be given. We have taken this marriage system from the old wedding system, also changed it very much according to the Sahaja Yoga, where we have been trying to use all, also certain ceremonies which are done in the churches and other religions, but mainly it is based on the Kuṇḍalinī.

So the promise is to the fire, in this marriage, promise is to the fire; because fire is the one that burns off all that is ugly. And Kuṇḍalinī is also like a fire on one point, because that's the only energy that rises above. See, so like the fire goes upward, the Kuṇḍalinī also rises upward. That's why it is compared to the fire. But fire is the energy which is in the stomach, which is the Dharma, which is the religion.

And the religion of the Sahaja Yogis is to keep in the center, not to go to extremes. And when they get married, by their understanding of Sahaja Yoga they pull each other towards the center much more and enjoy themselves, the present, the present moment and the present as it is.

Sahaja Yoga marriages can be really fantastic if the Sahaja Yogis who marry are sensible, are equally balanced, or are not criticising each other, not taking an upper hand. It is possible for one Sahaja Yogi to marry another one, to gradually upgrade that Sahaja Yogi. It is possible also to degrade if a, another Sahaja Yogi is more powerful or negative so much that it can degrade also another person. It depends on your quality to be upgraded or degraded.

So marriage is a very big blessing in Sahaja Yoga, because all the, all the Gods and all the angels are watching these marriages and they will see to it that these marriages are successful. But if you are bent upon making them unsuccessful because you still have the same kind of an awareness which you had before and you want to go to the same, it can fail also like animals,

you see. If you live with the animals, even human beings can become like animals.

So the Sahaja Yogis must know that their awareness is changed, they are different people, they have to live with Sahaja Yogis and not with other human beings who are not yet realised. They can talk to them, but they must know that the Sahaja Yogis are at a very different level of awareness. If they realise this point, if they understand this simple point that their awareness is very different, they would adjust much better in married life.

There's no divorce in Sahaja Yoga. We do not think of as divorce, but there's nothing forced. I mean, if they fail to live together it's a shame, but so far we have had no divorces. But as the people are coming from every sort of culture and things, there is a possibility that people may like to divorce legally. But in Sahaja Yoga there is nothing like divorce, but there's no force on anyone. One must try to understand marriage, that it is for your enjoyment. If you cannot your enjoyment, you cannot enjoy the marriage, then it is of no use. In Sahaja Yoga it is to be ensured that people enjoy their marriages and live very well, happily with each other. It is the responsibility of both the people in Sahaja Yoga.

But say in My case, own case, My husband was not a realised Soul, nor did he understood realisation, nor was he a seeker. Despite all these...

[To a child that comes:] It would like to come to Me for sitting in My lap now!... And despite all that, you see, I didn't get upset or anything, I didn't push him. I didn't push anyone. I said, “Gradually he will be able to see it through." So even if the person, another person is not a

realised Soul one can manage it very well and can live very happily. But in case you get both the people realised, then it's a much better thing and should be enjoyed. But the interest should be in Sahaja Yoga. If you have other interests then there could be problems, because a Sahaja Yogi would not tolerate his wife or a Sahaja Yogini would not tolerate her husband to waste his energy on nonsensical things. And a new sort of conflict will start between Sahaja Yoga and the Sahaja Yogis and Sahaja Yoginis.

So it should never be a matter of conflict, because we have so many now ways and methods of finding out what's the matter with us. And if there is anything wrong with us, we should try to face it and clear it out. We should not try to clear each other's Chakras, but our own. Actually we do not pay attention to ourselves, we start paying attention to others.

Moreover, I must say that Sahaja Yoga marriages will be the most successful marriages, have to be.

They will re-establish the institution of marriage on very sound basis. There's no doubt about it. And those who'll be married in Sahaja Yoga will be really remarkably happy married couples. But there will be an attack of the negativity on them as soon as they get married, because it is not a very happy thing for these negative forces to see that people are happily married. And they would try their level best to bring all sorts of problems, all sorts of complications in the beginning, to see that these marriages are broken.

And when you start playing into their hands you will also be spoiling the chances of getting good realised Souls to

you, because they would not accept the situation. If you have been quarreling in the beginning also it's not good, because you go down in their estimation.

So you have to be very patient, very soft and good to each other, to see that you create an atmosphere of invitation for these great souls to come on this Earth. And if that is not so, then they will wait, they will not incarnate, because they don't want to have parents who are quarreling, who are fighting, who are suspecting, who are troubling each other.

Now, one has to know that Sahaja Yoga marriage has a precise reason. It is not you are marrying just out of fashion; you are marrying because you want to have children who are realised Souls, on this Earth to come. We give them a place, parentage to do that. And if you do not understand the value of that marriage, then it is better not to be married in Sahaja Yoga. It's better to spare the Sahaja Yoga. There's only one snag in Sahaja Yoga is this, that you are all born of the same Mother, so you are all brothers and sisters in a way. But when you are going to marry each other, then this point becomes a little funny, that how can a brother marry a sister? Now, we can say like that, that I would say that it would be better if you marry not in the same community, but marry from somewhere else. At the most a Sydney Sahaja Yogi should marry a Melbourne Sahaja Yogi.

Some distance should be like that, so that it is kept like not brothers and sisters, should be better.

But I've seen when this happens there is more conflict, because they still carry on with the idea that they are from Melbourne and another from, what do you call it?,

Sydney. Just I can't tell them about it, Sydney. Now the Sydney and Melbourne should not be a matter of conflict. Because as soon as they start quarreling they'll say, “Oh, you Melbournian, I know you are like that." And she'll say, “You Sydneians, you are like that." And immediately you become like that and you start quarreling about it.

So you must know that you are not a Sydneian or a Melbournian, but you are nothing but a Sahaja Yogi. And Sahaja Yogi has no caste, community or any race, or any, any religion, or also no bar of any nation. Whatever nation you come from, you are a Sahaja Yogi, you are a universal being, you are. You can feel the vibrations of anyone sitting down here, whether he's from Hawaii or from America, doesn't matter.

So, when you can feel about everyone, that means you are no more belonging to any community or any particular country, you are a universal being. And that's what we have to do, we have to create more universal beings. And to expedite that, we want to get these great souls on this Earth, so it's a very important work. They have to be on this Earth, because they are the great channels for this Divine work.

Once they start descending on this Earth, the real ones, it will all expedite, it will be such a great, you don't know, it will be such a great sudden explosion of Sahaja Yoga. You'll be amazed how it can grow faster with these people coming down. And we should try to make such arrangements that we get the real blessings of those people, that they come down on this Earth. It's very important.

So I would request you to think about the marriage from a new angle and from new ideas by which you can really understand the value, the value of these marriages. And then you make it a successful marriage and not a failure or a nonsense of it. That's such a great sinful thing to do, because you are married before realised Souls.

So there is no question of being just married like other people are married and then they, they take a nameplate on their car saying “Just married" and they go, they are going to a divorce case. There cannot be such a thing for Sahaja Yog, it's a serious thing. If you are not serious enough about it, better not marry. If you have expectations about marriage, it is better not to marry. It is better not to marry.

Nobody is going to force you to marry. Just say, `No, not at all, I'm not going to.' But if you are going to go on like this, you are really be harming Sahaja Yoga in the worst possible way. It is like stabbing Sahaja Yoga from the back.

So there is no need for you to get married, in case you do not want to have it. On the contrary, it would be better that there are many married couples who can produce children and they can have those great people born to them. But if you think that adjustment and all that means all kinds of these old ideas of married life, it's better that you do not get married. It's a new heavenly marriage, for which you should be prepared to receive the beauty and the blessings and also the greatest of greatest, the ultimate meaning of it.

I hope you will understand that Sahaja Yoga is emphasizing on marriages and we do not believe in any

asceticism, running away from family life. We believe that family life is the most important thing. We have to establish it very well on this Earth and that we have to see in these beautiful nests of Divine Love that great souls are born and we have to continue with it. There's no escape from having a very good married life. And I wish you, all of you, that you will have a very good happy married life. And those who are not married, I wish them that they also will have a very happy married life.

Now I've been married, I think thirty-sixth year is this, My marriage today. There's so many years have passed but still, I still feel like a bride with My husband, because really we have been very wise people to live like that. And of course there are ups and downs, but ultimately one feels very different about the whole thing. He has sent a beautiful letter today, thanking you all for your kindness shown to Me and for all the kindness you have shown to him.

So we should have the Pūjā: is today as a Gṛuhalakṣhmī you are worshipping Me. As a Gṛuhalakṣhmī in you and which is very essential also, to worship Me as a Gṛuhalakṣhmī, because you all have a problem with your Gṛuhalakṣhmī. That's the left Nābhī.

So I hope it will work out better for you and we'll start with the Pūjā.

After this short Pūjā that we have, then we'll start with this Devī havan, because this we have not been able to do so far and this is very important. We have to somehow or other manage it today if possible.

We should do thousand Names, would be a very good idea.

[Hindi/Marathi conversation.] Who else is getting married? You also? Get these two. Would you come, too? Please come.

How can you sit there? Can you spread something? Have you got something to spread?... These are very handy things, eh? Very handy. You can pull that. I think that's a better idea. Just now we are not going to sit there, so you can pull all this out. Why not spread it here? No, no, it's all right, no, that's OK. This is better, to pull this out.

That's better, yes. Now everyone sit down. [Hindi/Marathi.] Yes, that's all right. Come along, sit down. Now, who else is there? She's left. You can sit there. You can move there. You see, just have that thing connected there, see, she can move it. She can move it, you see? That's sufficient now, that's all right. Come and sit down. It's all right? Now. It's now one more you want? Just leave it.... Yes, that's better. This is better. You spread it more like that. This is the better thing. [Hindi/Marathi.] It's a short one, not too long, all right? First is Gaṇeśha Pūjā. Tell the meaning of it. [Hindi/Marathi.] They should know the meaning.

This is a, I have told him to today say it out. Now this is what we were saying, that Christ is described in short. This is very short description. And what He is, actually His all aspects have been described in short, again in short, very much in short. These few things he will be reading it and explaining it to you, while you just wash Me.

Sahaja Yogi: Now here we worship the Lord Jesus in the name of Lord Gaṇeśha [Gaṇeśha Atharva Sheersha

begins]. He is supposed to be in totality the essence of all the principles. He is in totality,

Shri Mataji: Principles, all the principles.

Sahaja Yogi: All the principles of the universe.

Shri Mataji: Tattwa.

Sahaja Yogi: TatTwam asi. Means the totality of all the principles of the universe... Then he is supposed to be the kartasi, kartasi means...

Shri Mataji: The Doer.

Sahaji Yogi:... he is supposed to do all the doings, it is he who does all the doings... then he says Twameva kevalam dartasi means he is the

Shri Mataji:... Support.

So He is the support.... He is the one who takes away all the problems.

He's the one. He's the sucker of all the problems of the universe.... Brahma, Brahma. Brahma is this Brahma Shakti, you see, this Praṇava. Praṇava.... Present in you as the spirit. He resides you as spirit.

Is the truth. Not `He says the truth,' but He is the truth....

The disciples. In the disciple principle.... He exists in all the directions.... He is the complete literature.... Joy. “You are the one who is the All-pervading Power within us." “Sat chit Ānanda dvitiyosi" means “Nobody can compare You to Your capacity to be Sat chit Ānanda."... Attention. Ānanda means joy. And “Nobody can be compared with You."... The Creator.... Science of knowledge....

He is the complete literature.... Joy. You are the one who is the All-pervading Power within us...

nobody can compare to your capacity to be sat chit Ānanda. You are the knowledge and you are the science of knowledge Destroys... “Tish thati" means it stays: “The whole world stays because of You. As long as You are there, the world will stay." [Aside:] Let him be, let him be. That's not so,. Sit down, sit down, sit down.

When you are completely, the whole world is destroyed, that time only You are there. You are the witness.... Everybody can only experience You and nothing else.... Him, through Him, through Him....

The water. He is the ākāsha.... He's the sky, ether. All the elements.... Guided by Him.

There are, you see, four stages of your sound, you see, when they, para, pashanti, madhyama. You see, there are four stages of your sound that starts from here.... You see, the sound starts from here. This is para.

Sound starts from para. From here it starts. Then it goes to pashanti and the heart just pulsate.

But it is, pashanti means it is just watching. Here it is madhyama. It is the center, means it doesn't, neither watch nor this thing. And then, at the mouth part it becomes eloquent.

So “all these four stages of the sound are governed by You." By You.

No, no, Guṇas virtues nahi. Guṇas means moods, moods, moods; qualities. You see, Tamo Guṇa and Rajo Guṇa and Satya Guṇa: He's beyond them, He's transcended. You see, for Him there's nothing like sin.

Whatever He does is Divine.... “You are beyond Your body."... “You are beyond time."... Mūlādhāra Chakra....

“You are the three powers." Three powers. Trigunātmika, means all these three powers: Mahālakṣhmī, Mahāsaraswatī, Mahākālī.... “Upon You." All the time....

He's the Creator. He's the Sustainer. He's the Protector also. He's the one destroys.... Indra is the God of the Gods.... He is the sound of God, Omkāra.... He's the assemblage of all that.

Gana means all the, all the celestial beings on the left hand side are called as ganas, you see? They are, the leader of them is St. Michael. He is even before them, He's born even before them. He's even higher than them.... You see, this is what is Alpha and Omega: that He is, He's the first Word that is created and He is the last Word, He's above the last Word that is created....

The bindu gives you salvation.... You see the vibrations, I don't know if you can see them? It looks like a comma, `anusvarah' is commas.

So that's how you, each side like little, little commas; if you can see them...

See, the complete Omkāra is: first is Ga-karah, is Gaṇapati, Ga. “Ga-karah purva-rūpam": the first is, you see, You take the form of Gaṇeśha in the beginning, “purva-rūpam", Gaṇeśha is in that. Then You take the form of Omkāra... And the last is when You become just a comma.

Sound is mantras, you see. To know Him through the mantras, you have to learn the Gaṇeśha-Vidyā, is the knowledge of Jesus. If you have to know the mantras, you have to know through the knowledge that the whole science is called, is the knowledge of Gaṇeśha. Or you can call the Vidyā of Gaṇeśha, means the technique of

Gaṇeśha. And if you have to know how the mantras work out, this is the science. The science is called as Gaṇeśha-Vidyā, is all His science.... He, that's why He's called as Ganaka, Ganaka-rishihi, that's why He's called, because He's the master of that. He's the master of the art of mantras, the sounds.

Chandah. It's a mantra, Gāyatrī is one of the mantras, you see. And it's on the right hand side.

Chandah is... music of all the mantras. The rhythm, rhythm, rhythm. You see, you have to say mantras with a certain rhythm and He's the rhythm.

How to, how to... awaken this deity.

Sahaja Yogi: “Om Gam Ganapataye namaḥ", this is the mantra for awakening this deity.

Shri Mataji: You see, the Gaṇeśha-Vidyā.... One tooth; because with the another one He writes.

And He's got the trunk. Is one of the loops. See, He controls you with a loop. If you try to misbehave, then He puts a loop round you and pulls you back.... Yes. Ankusha is that you use it on the elephant, to control. On the elephant. Ankusha. But it is a very, it's a guiding instrument.

Protection.... I mean, something very humble animal, very humble, is mouse for Him. And for Christ also, the donkey, which is the humblest animal.... Red clothes.... At least on His Chakras we should put red. That's why...

Sahaja Yogi: And that's how He manifests, even as a human being.

Shri Mataji: See.... Good yogi, not a,... No, no, `a yogi' means anybody going to church: that's not a yogi. See, a

yogi... Yoga. You see, “vam dhyayati" means “by which you know."... Only the yogis, again.

Bow to You.... Because He's purity.... of Shiva. Shiva is the... You know Shiva, you know. You are the one, You are the statue of blessings. You are the statue of blessings.

This is just the abridged form.

So this is nothing to understand Him. But just this is said, is just in the beginning, to make it... [Hindi.] See, they're Gods, you see. You're also Gods now, because you have all the powers. Prayed to the, prayed to Viṣhṇu to create a power by which they, all these horrible devils can be destroyed. And then a Goddess was created. This story is better to hear.

Sahaja Yogi: [Asks if it is the same story as in the `Devī Māhātmyam'.] You've got `Devī Bhagavat', you have got it? But I wish you had read it. All right.... You know the story? All right... then say the mantras.

`Mahālakṣhmī Stotram'. [Hindi.] Raul Bai is very particular about the ritual to be done properly. I said the brain should be all right, first of all. If you go on doing everything properly, doing this, do this...

First of all ego must go, otherwise what's the use?... [Hindi.] There is some yoghurt in that? [Hindi.] You've been working very hard,... really. You have been really working very hard. You have; two Pūjās is too much! You see the raktagandha: He likes to be, He likes to be covered with raktagandha, you see. You see, the kind of a tree we get, called as raktagandha, which is like the sandalwood but is red coloured; and He likes it to be all the time covered with it. That's why I have to cover

Myself, it's to cover this portion, there He resides. Raktagandha. `Rakta' means blood and `gandha' means this particular type of a sandalwood it is, which is of the red colour, which is rubbed and is put here.

This is typically Bali, or Australian? There's so much vibrations, all the rest I'm doing it. She says, you have said all the mantras, she says, now she's finished. [Hindi.] Let's see who gets the best! Where is Barbara? Come along, take your photograph. Let her have one. Let's see now and she'll decide. See, your photographs also depend on your state of mind, very much so. Done? All right? Now, may God bless you. Does he want? All right. You can come closer, for My feet. Come along, you have to do My feet also.

Done? All right.

Of the sanctity of marriage. May God bless you and give you the full idea of sanctity of marriage.

Let's start the *[UNCLEAR]*. Now, you all have to get up from here and some people who have come for the first time should come forward. If you have come for the first time, you should come forward. And you can also take a stool for yourself or something, or a chair.

[Version 2:] [Gaṇeśha Atharva Sheersha starts.]

Shri Mataji: Tell the meaning. [Hindi/Marathi.] They should know the meaning. [Hindi/Marathi.] This is a, I have told him to today say it out. Now this is what we were saying, that Christ is described in short. This is very short description. And what He is, actually His all aspects have been described in short, again in short, very much in short. These few things he will be reading it and explaining it to you, while you just wash My feet.

[To a Sahaja Yogini:] Now you organize.

[Gaṇeśha Atharva Sheersha starts again.]

Sahaja Yogi: Om, Namaste Ganapataye. Twameva Pratyaksham TatTwam asi. Twameva Kevalam Kartasi. Twameva Kevalam Dhartasi. Twameva Kevalam Hartasi. Twameva Sarvam Khalvidam Brahm'āsi. Twam sākṣhāt Ātmāsi Nityam.

Now here, we worship the Lord Jesus in the name of Lord Gaṇeśha. He is supposed to be in totality, the essence of all the principles. He is in totality,

Shri Mataji: Principles, all the principles,

Sahaja Yogi: All the principles of the universe,

Shri Mataji: Tattwa.

Sahaja Yogi: “TatTwam asi." Means the totality of all the principles of the universe. Then he is supposed to be the “kartasi” kartasi means...

Shri Mataji: The Doer.

Sahaja Yogi: He is supposed to do all the doings, it is he who does all the doings. Then he says “Twameva kevalam dartasi" means he is the...

Shri Mataji: Support.

Sahaja Yogi:... he is the supporter of all the things in the universe.

Shri Mataji: He is the support.

Sahaja Yogi: The he is the “Kevalam dhartasi." Ara ne?

Shri Mataji: He is the one who takes away all the problems. He's the one. He's the sucker of all the problems of the universe.

Sahaja Yogi: Then it is said: “Twameva Sarvam Khalvidam Brahm'āsi" means he is the totality of the universe.

Shri Mataji: Brahma, Brahma. Brahma is this Brahma Shakti, you see, this Praṇava. Pranam, Pranam.

Sahaja Yogi: He himself is the All-pervading Energy.

Sahaja Yogi: “Twam sākṣhāt Ātmāsi Nityam" He's always...

Shri Mataji: Present in you as the Spirit. He resides in you as Spirit.

Sahaja Yogi: He always says the truth.

Shri Mataji: He's the truth. Not “He says the truth” but He is the truth.

Sahaja Yogi: “Ritam Vachmi. Satyam Vachmi. Ava Twam Mam. Ava Vaktaram. Ava Shrotaram. Ava Dataram. Ava Dhataram. Ava noo Chanam. Ava Shishyam. Ava Pash chat tat. Ava Puras tat. Avot tarat tat. Ava Dakshinat tat. Ava Chor Dhvat tat. Ava Dharat tat. Sarvato Mam Pahi Pahi Saman tat." Here he says, that he is supposed to be *[UNCLEAR]*. The hearing is done by him. The speaking is also done by him. He is in the “shirsha” shirsha means...

Shri Mataji: In the disciples, in the disciple principle.

Sahaja Yogi: Disciple principle is also the Lord Gaṇeśha. In the principle of teacher also is the principle of Lord Jesus. He's also in all the directions, east west north south.

Shri Mataji: He exists in all the directions.

Sahaja Yogi: Since he exists in all the directions, he is all-pervading. Every where *[UNCLEAR]*.

“Twam Vang mayas Twam Chin mayah. Twam Ānanda mayas Twam Brahma mayah. Twam Sat chit Ānanda dvitiyosi. Twam Pratyaksham Brahm'āsi. Twam Gñyāna mayo ViGñyāna mayosi."

Sahaja Yogi: He says the entire...

Shri Mataji: “vang mayah" means literature. He is the complete literature.

Sahaja Yogi: He is the complete “ānanda"; Ānanda means...

Shri Mataji: Joy.

Sahaja Yogi: “Brahma mayas"...

Shri Mataji: “You are the one who is the All-pervading Power within us."

Sahaja Yogi: “Sat chit Ānanda dvitiyosi" means, if there is no other better happiness.

Shri Mataji: No. “Sat chit Ānanda dvitiyosi" means, nobody can compare you to your capacity to be Sat chit Ānanda.

Sahaja Yogi: Sat means truth, chit means...

Shri Mataji: Attention. Ānanda means joy. And Nobody can be compared with You.

Sahaja Yogi: “Twam Pratyaksham Brahm'āsi" you are in totality, existing Brahma.

Shri Mataji: The Creator.

Sahaja Yogi: “Twam Gñyāna mayo ViGñyāna mayosi." You are the knowledge

Shri Mataji: Science of knowledge.

Sahaja Yogi: You are the knowledge and you are the science of knowledge. “Sarvam Jagadidam Twatto Jayate.

Sarvam Jagadidam twat tas tish thati. Sarvam Jagadidam Twayi Laya me shyati. Sarvam Jagadidam Twayi Pratyeti. Twam Bhūmi rapo nalo nilo Nabhah. Twam Chatvari Vak Padani."

Sahaja Yogi: That means here he says, when the all world goes away...

Shri Mataji: Destroyed.

Sahaja Yogi:... is destroyed, it is he who remains. “Sarvam Jagadidam twat tas tish thati" when the all body...

Shri Mataji: No. “Tish thati" means it stays in it. The whole world stays because of You. As long as You are there, the world will stay.

[Perhaps about a dog:] Let him be, let him be. That's not so very,. Sit down, sit down, sit down.

When You are completely, the whole world is destroyed, that time also, You are there. You are the witness.

Sahaja Yogi: “Twayi Pratyeti."

Shri Mataji: “Twayi Pratyeti” Everybody can only experience You and nothing else.

Sahaja Yogi: If you have any experience of the Divine it is because of him.

Shri Mataji: Him, through Him, through Him.

Sahaja Yogi: “Twam Bhūmi rapo nalo nilo Nabhah” He is the soil, He is...

Shri Mataji: The water. He is the ākāsha. Nala means fire.

Sahaja Yogi: Nilo...

Shri Mataji: He's the sky, ether.

Sahaja Yogi: He is the fire.

Shri Mataji: All the elements.

Sahaja Yogi: “Twam Chatvari Vak Padani"...

Shri Mataji: Guided by Him. There are, you see, four stages of your sound, you see, when they, para, pashanti, madhyama. You see, there are four stages of your sound that starts from here. You see, the sound starts from here [shows her stomach]. This is para.

Sound starts from para, from here it starts [shows again her stomach]. Then it goes to pashanti, the heart just pulsate. But it is `pashanti', means it is just watching. Here it is `madhyama' [shows her throat]. It is the center, means it doesn't, neither watch nor this thing. And then, at the mouth part, becomes eloquent.

So all these four stages of the sound are governed by You, by You.

Sahaja Yogi: “Twam Guṇa traya teetah. Twam Deha traya teetah. Twam Kala traya teetah. Twam Mūlādhāra sthitosi Nityam. Twam Shakti trayat makah. Twam Yogino Dhyayanti Nityam. Twam Brahmā, Twam Viṣhṇus, Twam Rudras, Twam Indras, Twam Agnis, Twam Vāyus, Twam Sūryas, Twam Chandramas. Twam Brahma bhūr bhuvah Swarom." He is beyond all the Guṇas, that means, beyond all the virtues.

Shri Mataji: No, no, “guṇas virtues nahi" [Guṇas are not virtues]. Guṇas means moods, moods, moods; qualities. You see, `tamo Guṇa' and `rajo Guṇa' and `Satya Guṇa' He's beyond them, He transcended.

You see, for Him there's nothing like sin, whatever He does is Divine.

Sahaja Yogi: “Twam Deha traya teetah."

Shri Mataji: You are beyond Your body.

Sahaja Yogi: “Twam Kala traya teetah."

Shri Mataji: You are beyond time.

Sahaja Yogi: “Twam Mūlādhāra sthitosi Nityam." Now Mūlādhāra means, the Mūlādhāra of the universe.

Shri Mataji: Mūlādhāra Chakra.

Sahaja Yogi: Mūlādhāra Chakra of the universe. There he resides.

Shri Mataji: resides.

Sahaja Yogi: “Twam Shakti trayat makah."

Shri Mataji: You are the three powers. Three powers. Trigunātmika, means all these three powers: Mahālakṣhmī, Mahāsaraswatī, Mahākālī.

Sahaja Yogi: “Twam Yogino Dhyayanti Nityam" means Yogis, means all the saints of the universe they always meditate...

Shri Mataji: Upon You. All the time....

Sahaja Yogi: “Nityam" means every time. “Twam Brahmā” you are Brahmā.

Shri Mataji: He's the Creator.

Sahaja Yogi: He is Viṣhṇu.

Shri Mataji: He's the Sustainer. He's the Protector also.

Sahaja Yogi: He is Rudra.

Shri Mataji: He's the one destroyer.

Sahaja Yogi: He is Indra.

Shri Mataji: Indra is the God of the Gods.

Sahaja Yogi: Agni he is the fire. He is the wind, he is the Sun, he is the Moon. “Bhūr Bhuvah Swarom."

Shri Mataji: He is the sound of God, Omkāra.

Sahaja Yogi: “Ganadim Poorva much charya. Varna dim Tada nan taram. Anus varah Para tarah.

Ardhendu lasitam, Tare na Ruddham. Etat tava Manuswa rūpam. Gakarah Poorva rūpam. Akaro Madhyama rūpam. Anuswarash chantya rūpam. Bindu ru tara rūpam. Nada Sandha nam. Sanhita Sandhih. Saisha Gaṇeśha Vidyā. Ganaka Rishihi. Nich rid Gāyatrī Chandah. Gaṇapatir Devatā. Om Gam Ganapataye namaḥ."

Sahaja Yogi:... Every aspect of Omkāra is he himself.

Shri Mataji: He's the assemblage of all that. “Gana" means all the, all the celestial beings on the left hand side are called as ganas, you see? They are, the leader of them is St. Michael.

So He is even before them, He's born even before them. He's even higher than them.

Sahaja Yogi: “Varna dim Tada nan taram."

Shri Mataji: You see, this is what is Alpha and Omega: that He is, He's the first word that is created and He is the last word, He's above the last word that is created, `varana'.

Sahaja Yogi:... There is a stage after Realisation which is supposed to be...

Shri Mataji: Above it.

Sahaja Yogi: Above Sahasrāra, is ardha bindu sthiti, bindu sthiti and vale sthiti.

So from bindu sthiti, all the sthitis, all the stages, from bindu sthiti onward, there are something like fourteen stages above. All the stages are governed by him... “Tare na Ruddham."

Shri Mataji: The one who gives you salvation.

You see the vibrations, I don't know if you can see them, it looks like a comma, `anusvarah' is commas.

So that's how You reside like little, little commas; if you can see them...

See, the complete Omkāra is: first is Ga-karah, is Gaṇapati, Ga. “Ga-karah purva-rūpam": the first is, you see, You take the form of Gaṇeśha in the beginning, “purva-rūpam", Gaṇeśha is in them. Then You take the form of Omkāra. And the last is when You become just a comma.

Sahaja Yogi:... If you have to learn him from the sound, then Śhrī Gaṇeśha Vidyā, then that knowledge, the knowledge of learning through the sound, is known as Śhrī Gaṇeśha Vidyā.

Shri Mataji: Sound is mantras, you see. To know Him through the mantras, you have to learn the Gaṇeśha-Vidyā, is the knowledge of Jesus. If you have to know the mantras, you have to know through the knowledge, that the whole science is called, is the knowledge of Gaṇeśha. Or you can call the Vidyā of Gaṇeśha, means the technique of Gaṇeśha. And if you have to know how the mantras work out, this is the science. The science is called as Gaṇeśha-Vidyā, is all His science.

Sahaja Yogi:... The one who masters this knowledge is Ganaka-rishihi

Shri Mataji: He, that's why He's called as Ganaka, Ganaka-rishihi, that's why He's called, because He's the master of that. He's the master of the art of mantras, the sounds.

Sahaja Yogi: “Nich rid Gāyatrī Chandah."

Shri Mataji: Chandah. It's a mantra, Gāyatrī is one of the mantras, you see. And it's on the right hand side. Chandah is... music of all the mantras. The rhythm, rhythm, rhythm [tāla]. You see, you have to say mantras with a certain rhythm and He's the rhythm.

Sahaja Yogi: “Gaṇapatir Devatā." The Lord himself is Gaṇeśha. “Om Gam Gaṇapataye namaḥ."

Shri Mataji: How to, how to awaken this deity.

Sahaja Yogi: For that the mantra has been given. “Om Gam Gaṇapataye namaḥ" this is the mantra for awakening this deity. “Eka Dantaya Vidmahe. Vakra Tundaya Dheemahi. Tanno Dantih Prachodayat." His description has been made all here. “Ekadantam Chatur hastam."

Shri Mataji: You see, the Gaṇeśha's mantra. He is having one tooth; because with the another one, He writes. And He's got the trunk.

Sahaja Yogi: “Pasham ankush dharinam." Pash?

Shri Mataji: Is one of the loops. See, He controls you with a loop. If you try to misbehave, then He puts a loop round you and pulls you back, pash,

Sahaja Yogi: Ankush is a kind of instrument...

Shri Mataji: Yes. Ankusha is that you use it on the elephant, to control. On the elephant. Ankusha.

But it is a very, it's a guiding instrument.

Sahaja Yogi: “Radam Cha Varadam Hastair" means He is offering you hand,...

Shri Mataji: Protection.

Sahaja Yogi: “Bi bhranam Mooshak dhvajam." Mouse is his carrier...

Shri Mataji: I mean, something very humble animal, very humble, is mouse for Him. And for Christ also, the donkey, which is the humblest animal.

Sahaja Yogi: “Raktam Lambodaram Shoorpa karnakam. Rakta vasasam." Means he wears red clothes, he likes to wear red clothes.

Shri Mataji: Red clothes.

Sahaja Yogi: “Rakta gandhanu liptangam." It should be red on the forehead and on the body. Even on the body, he would like to put red safran the red one.

Shri Mataji: At least on this Chakra, we should put red [shows the Āgñyā Chakra].

Sahaja Yogi: “Rakta Pushpaihi Supoojitam." Means he likes the red flowers.

Shri Mataji: That's why...

Sahaja Yogi: That's why you brought am those red flowers for the Pūjā? “Bhaktanu Kampitam Devam." For the devotees, he has a tremendous compassion... The compassion that flows from him is for the universal good.

“Aavir bhootam Cha Shristyadau. Prakritehe Puruṣhat param." He comes on the earth to give emancipation to the human beings and that's how He manifests, even as a human being.

Shri Mataji: See.

Sahaja Yogi: “Evam Dhya yati Yo Nityam. Sa Yogi Yoginam Varah." A yogi.

Shri Mataji: Good Yogi, not “a yogi." No, no, “A yogi" means anybody who is going to church: that's not a yogi. See, a yogi...

Sahaja Yogi: So the connexion by which you know the Divine is known as Yoga.

Shri Mataji: Yoga. You see, “evam dhyayati" means “by which you know."

Sahaja Yogi: Such Yogi worships this Lord Gaṇeśha or Lord Jesus in the fashion by meditation.

Shri Mataji: Only the Yogis, again.

Sahaja Yogi: “Namo Vratapataye. namo Gaṇapataye. namaḥ Pramatha Pataye. Namaste Astu Lambodaraya, Ekadantaya, Vighna Nashine, Shiva sutaye, Śhrī Varada moortaye namaḥ." Here, such Divine personality, I bown to you.

Shri Mataji: Bow to You.

Sahaja Yogi: Always, in purity, I bow to you.

Shri Mataji: Because He's purity.

Sahaja Yogi: You are the son of the Spirit “Shiva sutaye."

Shri Mataji: No, of Shiva.

Sahaja Yogi: He is born out of Shiva.

Shri Mataji: Shiva is the,

Sahaja Yogi: Shiva is the Spirit of the Universe.

Shri Mataji: Yes. Sadāśhiva is God Almighty. You know Shiva, you know.

Sahaja Yogi: Śhrī Varada moortaye namo namaḥ.

Shri Mataji: You are the one, You are the statue of blessings. You are the statue of blessings. You see, this is just the abridged form.

Sahaja Yogi: There are only eight Shlokas, eight stanzas, very small. Bolo Śhrī Bhagavatī Mātājī, Śhrī Nirmalā Devī ki Jai!

Shri Mataji: So this is nothing to understand Him. But just this is said, is just in the beginning. To make it... Atharva Devī *[UNCLEAR]*. You have got this Book in English? No? [At the end of the talk Shri Mataji is a bit annoyed by the ego of the Sahaja Yogi who chanted and explained Atharva Shirsha. In fact, he made a `mistake' between Sadāśhiva and Shiva when he said “Gaṇeśha is the child of the Spirit." He extrapolated because this is not what is written, literally.

So Shri Mataji corrected him. Unfortunately, when Shri Mataji wanted to explain the difference between Sadāśhiva and Shiva, he did not let Her speak. It is for this reason that She added Sadāśhiva is God Almighty as it is under this form that He is the Spirit of the universe.]

... when the Holy Ghost came in the form... in the form of the Cool Breeze like this [Shri Mataji blows into the microphone].

Contents: 1981-04-08 **Talk to Sahaja Yogis, Farewell Talk about an Ashram of Sahaja Yoga, Sydney, New South Wales, Australia**

The first thing about ashram one must know, that an ashram of Sahaja Yoga is a place for, not only worship, not only for getting realisation, but transformation, but is a nucleus, is a nucleus which triggers the happenings.

This is an instillment through which the whole atmosphere can be changed and so this is a very, very

holy place. Extremely holy, holier than holy, which is called as synagogue, some people might say, the holiest, sanctum sanctorium. And this place is to be treated with that respect by the inhabitants, as well as by the people who visit this place.

Because if something goes wrong with this, then it is going to be difficult for Me also to communicate with you. It is like a Gaṇeśha Shakti or the power of Śhrī Gaṇeśha, is placed in asthana, means a place, thana.

So this is a very important thing one must realise about this place.

So one has to be very respectful about this place. Those who live here have to sacrifice certain things that they would do in their house, but it has an advantage over other things.

Contents: 1981-04-14 **Welcome Address to Her Holiness Shri Mataji Nirmalā Devī by K. Subramanyam, Mavalankar Auditorium, Constitution Club, Raff Marg, New Delhi, India, from Nirmalā Yoga, Issue 3 (May-Jun 1981), pp.22,24**

As the famous German philosopher Schelling remarked once: “If God would appear to me with the truth in the right hand and the quest of the truth in the left, asking me to choose between the two, I would rush towards his left hand telling him: Oh God! keep the truth for yourself alone." This is because the modern seeker is more interested in the game of truth seeking than in the Truth itself It would not have mattered if subject was only for academic discussion like the question whether God exists

or whether rebirth is a fact or fiction. But it directly affects the life of a large mass of humanity today in the world. Millions of people have taken to one course or another under the name of spiritualism. They are all wandering in wilderness, treading the tracks which they believe will lead them to their goals.

The spiritual guides in this country who show these tracks are called Gurus and Mahārishis. They even usurp the attributes of God and call themselves Bhagwans. How to know who is a real Guru and who an imposter? In Indian thought, Gurus are held in high esteem. The tradition demands absolute faith from a follower and his complete surrender to the Guru. It shuts doors to the discerning eye and the discriminating mind. No surprise that shrewd men with greed and passion don the garb of spiritual guides and their Ashrams become dens of vice and corruption.

A craze for spiritualism is raging all over the world. Spiritual masters and their Ashrams are growing like mushrooms. Hundreds of books are being published to preach the so-called spiritual ideas and thoughts. Thoughts of gullible people, desperately seeking solace, fall pray to self-styled saviours. India has become a focal point of this Spiritual craze.

So far, India is known for her great spiritual wisdom, as the land of enlightenment. This has attracted a huge inux of lay seekers into this country and large export of spiritual leaders to the affluent countries in the West.

In India, the spiritual phenomenon, as it is commonly believed, has innumerable ramifications. For instance, formal worship of a deity, invocation of ghosts and

spirits, reciting of mantras and lastly the meditation on a God's name or form or with a blank mind, for achieving occults powers by difficult or odd rituals and they are all believed to be spiritual practices. Devotion and surrender to God, control of mind and body, introvert search of the ultimate reality, physical austerity and fasts, indulgence in intoxicants and sex, have all been postulated as ways of Sadhana, This is broadly the so-called spiritual scene today.

It is a matter of great concern for all those who are real seekers and who have a genuine urge for spiritual development. It raises before them the questions? `What is right and what is wrong? What is true and what is false? What is base and what is exalted?' And the crux of the problem, `What is exactly the spiritual phenomenon?' The answers to these questions are essential to clear off the mass in which spiritualism is enmeshed today.

We have gathered today here to hear the clear message of Her Holiness Mātājī Nirmalā Devī who interprets this phenomenon differently. She defines the Sahaja Yoga Kuṇḍalinī Yoga as the Yoga innate to the human nature. Since it comes so natural to our personality, we need not impose any external discipline on ourselves for spiritual growth. What we have to do is to just understand the cosmic force working within us and allow it its free play. Let our Kuṇḍalinī awaken from its slumber and flow up in its natural course.

According to the legend, Lord Kṛiṣhṇa, in his young age, used to pelt stones and break the pitchers of the Gopies [milk maids] of Gokul and Brindavana while they were on their way home from the Yamuna.

He enjoyed the fun when the milk maids were drenched with the water pouring down from their pitchers.

Poets in the past have interpreted this mischief as an amorous sport of Lord Kṛiṣhṇa, the saints, saw in it Divine Love between the Gopies and the God. Mātājī Nirmalā Devī interprets it differently. She says, cosmic vibrations were saturated in the waters of the Yamuna through the touch of Kṛiṣhṇa, who was a manifestation of the cosmic power. When he broke a water-filled pitcher, the vibrated water flowed down the back of the Gopi to the base of her spine and there, by contact, awakened Kuṇḍalinī, the serpent power which is a fraction of the cosmic power in the human body. In other words, by his apparent mischief, Lord Kṛiṣhṇa bestowed on the Gopis the bliss of the Divine energy. This interpretation was given by Her Holiness Mātājī Nirmalā Devī in one of Her discourses in Delhi. The Kuṇḍalinī Yoga is centuries old in India. But Mātājī has given it a new interpretation and a scientific base. What is amazingly remarkable about her is that she awakens your Kuṇḍalinī just by the grace of her glance or her mere presence, as though she is an inexhaustible reservoir of the cosmic energy awaiting you only to stretch out your hands towards her. This awakening of the Kuṇḍalinī brings you all joy of life and enables you to live better, she says. In the presence of Mātājī Nirmalā Devī, the Divine Kuṇḍalinī Shakti of the seeker is awakened to its glory. Realisation of God is possible only after the sleeping Divinity Kuṇḍalinī Shakti is fully awakened.

By regular Sadhana and dedication, the Divine Kuṇḍalinī Shakti aroused in you by Mātājī can grow in strength and

envelope your whole being You experience the divinity within you, which is the essence of truth, bliss, beauty and love. Then the complete integration of the mental, physical, emotional and spiritual self in you takes place. Gradually all your physical, mental and emotional ailments are cured.

Cool nectarine vibrations of divinity flow through your body and hands. You can grant Self-realisation to others and cure them of physical ailments.

The awakening of Kuṇḍalinī Shakti by Mātājī Nirmalā Devī when it blossoms into its fullness will give you the experience of the Divine which is in total conformity with what is described in all our scriptures.

Nobody would doubt her claim when one sees her in exuberance of health and joy and attending to the various ailments of people. The most lovable thing about Mātājī Nirmalā Devī is her disarming informality and contagiously affectionate disposition. Unlike other god-men she bestows her grace on all without discrimination and delights in personal contact with everyone in a congregation. That explains why she calls herself your mother, rather the mother and not your master.

It is our great fortune that Mātājī Nirmalā Devī is amidst us today in spite of her hectic tour of Australia. She has returned only a few days ago to Bombay [Mumbai] to cheer our minds and grant Self-realisation. I, therefore, appeal to all present here to be simple and humble in receiving the Divine vibrations and listening to her message, Let us stop our game and stand in the sunrise, behold the smile of the Goddess. The birth of the new

day! Let us recognize Her, the goal, the Devī, the Mahā Devī.

Contents: 19**81-04-1x Letter to London Sahaja Yogis, India from Nirmalā Yoga, Issue 4 (Jul-Aug 1981), Front Back Cover**

My dearest Children, Thank you very much for the beautiful flowers you sent me. They remind me of you all. I missed you very much all those days of separation.

I hope you get my tapes from Australia, I have said lots of new wonderful things.

I am coming back very soon to enjoy your joyful and sweet company.

Yours as ever, Your loving mother Nirmalā 1981-04-1x Letter to London Sahaja Yogis, India (around April 14) (Original Writing)

Contents: 1981-04-17**, Public Program (Hindi), New Delhi, India**

It was a good program. We all in Delhi were expecting a big number and they came and got their realisation. It has happened before also, people come get their realisation and then get lost.

So first thing should be to get them registered. Distribute them in groups and keep in touch with them otherwise again they will be lost.....

I may never speak to them [deep people] but I know them because we resonate together.

Contents: 1981-05-04 **Sahasrāra Pūjā, Chelsham Road, London, UK**

Such a pleasure to come back to Europe.....

.....

Today is a day, when I should talking about Sahasrāra. Because tomorrow is the day of Sahasrāra and that is the greatest blessing of Sahaja Yoga after Christ's advent. Even if He has sucked your sins, you are to be given realisation. Without realisation it has no meaning and so this Sahaja Yoga which is today's Mahā Yoga came into being because you all have to be realised. You have to know yourself. *[UNCLEAR]* that is the spirit. That is the only way we can know God. There is no other way that we can know God.

We have to be our spirit.

The second thing that we in all the Christian nations have done is to forget our spirit. It is a Devīl catch. If the ego develops, it covers your heart. You can even become emotionless. When it covers your heart, then your heart becomes like a stone and the spirit does not shine. All the time what you have to say, that `I'm the Spirit!' All the realised Souls have to say “I'm the Spirit. I'm not this body, not this mind, nor this superego, none of these `upadhi's' as they call them, but I'm the Spirit, the pure Spirit I am." If you could that recognize in you, that you are the spirit, your realisation will be fully established.

As long as you are identified with other things, this cannot be established.

So first and foremost thing you have to recognize that you are the spirit. You are not the thoughts which are overcrowding you, you are not the fears with which you suffer, you are not the ambitions whit which you run, but you are that pure spirit, which never changes, which is eternal, which is blissful, which is Sat-chit-ānand. We all the Sahaja Yogis have to know, that we are the spirit. This is the mantra, that one hat to recite for heart catch.

If your heart is not clean, you can never get realisation. Anybody who comes with funny ideas about Me you have seen, he never gets realisation. You have to have clean heart. You have to cleanse your heart, that's why I sometimes say that you have to put your Guru into your heart, who will clean your heart.

Just to clean your heart, as you employ a maid in the house to clean your *[UNCLEAR* heart/hut] you can employ your mother for that purpose. Cleansing is My job, morning till evening I'm cleansing. That's My name is also. But cleansing is such a big thing, such a big thing that brings forth everything else with it. If there is dust on the *[UNCLEAR]* on any diamond which will be very expensive, you cannot see it! In the same way if your spirit is clouded with doubts and fears, cunningness *[UNCLEAR]*, then your spirit cannot shine. Now, it's such a vicious circle that it is not easy to break. Even there your mind *[UNCLEAR]* for Sahaja Yogi it is very easy is to sit before My photograph, put your left hand here and one on your heart and say: I'm the spirit. Mother, I'm the spirit.

Can you try that now. Just put it and say it together. The people in the audience say `Mother, I'm the Spirit' trice.

And a humbler way could be also: `Mother, am I the Spirit?' The people in the audience say `Mother, am I the Spirit' trice. See now.

Now, Sahasrāra braking took place on the 5th May 1970. I was just pushed into it. Then I said one has to now break it. And if you see a very thin line of Kuṇḍalinī really breaks the Sahasrāra through the Heart Chakra. Here is the Heart Chakra. Through the Heart Chakra point only it breaks. If your heart is not clean, it will not break.

So the first and the foremost thing is your Shiva Tattwa, is your heart. Heart must be kept absolutely clean. There should be nothing, that is doubting, that is confused, that is angry, that is ambitious, that is afraid of, nothing of that kind should be into the heart. Just be confident. Just leave it into the hands of God. Because that is the point where the Kuṇḍalinī breaks it and if that point is heavy, you can never break the Sahasrāra. Then it happens, it's such a vicious circle again sets in, those people who have a bad heart, they come to Me and they cannot get their realisation.

So they have an additional chance to attack Me by saying: “We never got the realisation, we never felt the vibrations, so how is it, that You are this?" Because already the heart is dirty, you see. It starts there emitting manifesting its spirit *[UNCLEAR]* and it goes and adding up and adding up and then they can build up a big story against Me.

But the main thing is you have to come to ask for something so great. You have to be, have a heart which is humble, steadfast and also proud of itself. Because in this heart is the spirit which is going to be enshrined. But

what do I do about your realisation. My heart is very pure, absolute purity. There is not even the slightest ripple of anything else but love for it. Even if I get angry it is out of love. Even if I say something sometimes harsh to you, it is out of love. To keep you out of troubles. But in My heart there is nothing but pure love, pure love. And this pure love is the pure Vidyā, is the Pure Knowledge. Is the Pure Knowledge, is pure Vidyā. The complete technic of purity it knows. How does the water purify you? Do you know the Technic what the water does to you? The complete technic of purity resides in the heart and how do I give you realisation is to put you in My heart. Bathe you there nicely. Have you seen crocodiles? People are laughing. Crocodiles have a very ferocious, but when the have their eggs, they take all the little, little crocodiles in their big mouth and you should see the eyes of the crocodile, there are full of love... People are laughing... at the children *[UNCLEAR]*. And the crocodile then put the mouth inside the water and cleanses their... *[UNCLEAR]*. People are laughing. First thing I do is to give you birth in My heart and then cleanse you there in My heart and then take you through My Sahasrāra. I give you your second birth.

Many people ask, that what happens to our Karma? I say I cleanse it! It has to be cleansed.

So many people have ask one question so many times, that how is it that Kuṇḍalinī is such a difficult thing and how is it, You can do so well? I think, there must be something special about Me. I did not tell them who I am. If I say Ādi Shakti they say some sort of a *[UNCLEAR]* woman, see who is about to Ādi Shakti or else Shakti

power itself is horrified and then all talk of that is Ādi Shakti. But this is the Ādi Shakti of love which is beyond human conception. Only by its power you can recognize it and understand it. How it cleanses you. That's how people get cured. They don't know how they get cured. Just with a photograph under your pillow. There is another actress in India who is getting cured. A very famous actress, it's all cured. Just they can't understand and they cannot explain. But this is a Pure Knowledge of cleansing which is built in that photograph, built in! It knows vibrations. It knows everything, the whole technic is built inside. Once you have the vibrations, you don't have to learn any technic, it works out by itself. It is very subtle. It is complete Brahma Shakti. Is a very powerful, very penetrating, very understanding, but it has all its knowledge built in itself. Is the Shuddha Vidyā, is the Pure Knowledge. When you say Nirmalā Vidyā is also the same. It is immaculate. It cannot compared with anything. The technic is so perfect, that it never fails. It knows all the permutations and combinations. It knows how to work it out.

One has to enter into the kingdom of God to see the working of all these technics. That is why it was necessary to open the Sahasrāra of people. Otherwise everything is Greece and Latin for people who listen to all these great prophets and the great Avatāras, they thought they were talking trough their heads. I mean nowadays we talk through our heads only. Because Sahasrāra is there and through Sahasrāra we hear and we talk. To break the Sahasrāra was very important. Of course you were also ready to be saved.

The time had come. Mutual understanding was there and it worked out. It's a tremendous thing that has happened. It should work out in England. I should be here on this day because as I have told you before, England is the heart of the universe.

Contents: 1981-05-10 **Talk to Sahaja Yogis, Organization of Sahaja Yoga in UK, Chelsham Road, London, UK**

..... personality that everybody wants to follow, to become, to love. This would be very selfish to say that I'm enjoying, it's something very funny. You see, some people are like that, self-certificated, again I call them. “Oh, I'm enjoying myself, I'm no problems, you see, why should you worry?" This is all nonsense, absolute nonsense it is. It is that you are enjoying your ego that. But to enjoy yourself means you are enjoying everyone and everybody is enjoying you. Everybody likes you. You are not extreme neither to ritualistic. You are so flexible, you are adjustable. That's like whatever you makes with, takes the colour.

Wherever you put it, it washes. If it appears in the eyes it makes you look beautiful. It's like that. That's the spiritual quality of a person. They are adjustable. In whatever they you are, people enjoy you and love you. *[UNCLEAR]* improved, alright.

Don't blame anyone for anything, not yourself anyone. Enjoy! This is the time for enjoyment, not for blaming, for sitting down sulking and..., no it's for enjoyment. Good. Are you alright now? Good, put your hand towards Me straight. Be alert! You see, some people need alertness.

Be alert! Look at children, how alert they are. When there is an aeroplane going, they'll all come and say: “Bye-bye aeroplane, bye-bye aeroplane!" Now the aeroplane is gone, so that work is done, *[UNCLEAR]* they will come inside, you see something else they will get and do it. You see, to them the whole world is their responsibility. The aeroplane is going, somebody must say bye-bye to the aeroplane.

[Laughter.] So *[UNCLEAR]* will come out and say: “Bye-bye, bye-bye!" And then they'll come inside the house and then they'll get very seriously involved into something else they were doing. Then the pull out these, pull out that, put everything together and whatever it is, you may call it mess, but according to them they are constructing everything. They are responsible for the whole world, you know. If they are realised Souls they are even greater. Every time they say something is so remarkable that really the way they take attitude towards things.

Like this time, at My elder Aradnath came up to Me and she said: “Did You ever study a very nonsensical subject called moral science?" I said: “No, never." “You see, this is such a stupid subject aunty, that you need not study at all. It's horrible." I said: “What do they teach you?" “They teach you `don't steal!' Now, do we steal? Are we servants or what? Why should we steal? Are we thieves? That's tell us don't tell lies. Why should we tell lies?" So, they are realised Souls, they can't understand. They can't understand, can you imagine *[UNCLEAR]* all that. They said: “Why should they teach us like this? What is the need?" I mean, everybody knows, you see. It is like teaching somebody that `food is good for your stomach' or

something else. According to them it is so essential. I mean, it is so much there, what is there to tell them this stupid subject of moral science.

So I said all right, but supposing you have to deal with criminals, then you have to tell them, isn't it? What is to be done and what is not to be done.

So if you become teachers tomorrow you will have to tell criminals: `Don't do it this!' So the younger one says: “By telling anybody, do you think they'll be all right? They'll punch your noses." [Laughter.] The younger one *[UNCLEAR]*. She said, they'll punch your noses! No use telling them. It's useless to tell them “don't do, don't do." They're will do it. If you say: `Don't kill!', they will kill you.

So they said: “Give them realisation otherwise they will never listen to You. Because how will they know, that killing is bad?" Because “if you have vibrations” this elder one tells Me, “then you will know that you are loosing vibrations, if you do like this” but otherwise how will they know. See, look at that.

I said: “But still supposing there are criminals, what should we do about them. If there are murderers, what should we do?" “They should be destroyed, no question!" I said: “Really, see the other side of it!" I said: “Do you think there it they do not won't to take realisation, they must be destroyed? If they want to take realisation, well and good. Otherwise they have to be destroyed!" I say: “How do you destroy them?" So the younger one says: “All right, put them in the fishpond!" [Laughter.] So the elder one says: “But the fishes will be ruined. Think of the fishes. How can you put them to the fishes?" So the elder one says: “All right, are there any serpents who can

devour people?" So I said: “There are serpents. But then, what about the serpents. They're already serpents. When serpents go to serpents, makes no difference, you see." So, I said then: “What do you do, when you get a serpent." So they said: “Fix it to a machine.

Machine is the best. Fix it to a machine, keep the mouth wide open. Don't touch them! Just throw them inside. Because if you touch them, you will be spoiled." You see, without any fear of any kind of violence, this is so innocently. And then, when they become serpents, they will learn. Then they will come back.

Then they will be better off and you can give them realisation. Otherwise they have to become serpents.

You see, simple solutions. But you don't touch them. Nobody should touch them, they are serpents. No use teaching such stupid subjects like “don't do, don't do!", is no good. I mean, these must be the saints of ancient times who must have realised that ten commandments is not going to help this human beings.

You need a better way of doing it. This is what it is.

So their way of thinking and their stiles are very different.

Like Ānanda, I must tell you about Ānanda. He said that: “How is it that people don't realise that Anukampa is...", Anukampa is a very special Sanskrit word. It is said that he'll become a great Sanskrit scholar, you see. He talks the list to the class and nobody knows how he does that, you see. Very clever.

So, I said: “What did you say?" He said: “The God has His Anukampa. His grace. Everywhere is grace.

People don't know that. Do You know Nanny. They don't know, that there is grace everywhere. There is something likes God's grace everywhere and there are many people who do not know. What can You do about this people?" This is Mr. Ananda *[UNCLEAR* stile/style]. “How can You solve this problem to make people know, that there is grace of God all around." But if I tell him, that there are many Sahaja Yogis who do not know, he'll be shocked. I said, that I'm surprised that people do not know that there is God's grace exists everywhere.

What is your realisation? And the person was not getting realisation, he was on My feet, you see.

So he went and brought one of My garlands and put it in his back, like that. I said: “What are you doing?" He said: “I'm decorating the Kuṇḍalinī” and the Kuṇḍalinī shot off. It shot off just like that. He worshipped it. He worshipped his Kuṇḍalinī. A little *[UNCLEAR]*. And then he took back the garland, washed it and put it back. What a sense? They are all come up now.

.....

***Contents: 1981-05-11*, Public Program, Lord Jesus and Forgiveness, Caxton Hall, London, UK**

To seek the truth about which all the scriptures have described. All the scriptures have said, “That you are to be born again." You are to be born, not to read about it, not to just imagine that you are born again, not to just believe that you are born again or any artificial ritual that certifies that you are born again is to be accepted, but something deāntly has to happen with us.

Some experience of reality must take place within us. It's not just a, an idea that it is so, yes, yes we are born again, now we are the chosen ones, we are the best people. But it's something definitely, there is something that evolutionary should manifest within us as been predicted by all the scriptures, no exception at all. Right from Hinduism up to the most modern personality, we can say is the new Guru Nanaka you can say, is the one who wrote a scripture. In the Koran it is very clearly said that, “You have to become the *[UNCLEAR* pheul]" the one who has the knowledge. Veda itself says, “That by reading the Vedas” Veda means, Veda means to know, “if you do not know then it is useless." In the first chapter in the first stanza is so clearly said there “That you have to know." Something has to happen to our awareness, which does not know. That means that we are so far, away from the knowledge and that something has to happen to our awareness by which we will know more. This knowledge is the Pure Knowledge of the science of Divine laws, of the Divine powers.

It has been said that, “There is Divine power, All-pervading Power, the Grace of God all around us." Now if I give you a big lecture on this, every week I can give a lecture `There's a Divine power here, oh what a great thing it is.' Like the other day one gentleman came to see Me and he said, “Oh I am a realised Soul, ah, ah, ah, ah, I'm a realised Soul." I said, “Really?" “And I'm in the Divine power ah, ah, ah, ah." Then he said, “It is the Divine power I'm feeling ah, ah, ah, ah." I started looking at him. I said, “Whom is he befooling?" He's befooling himself. Who's at a loss, it is he, it is nobody else. I mean

he's not befooling Me by any chance, even if I am a fool, no use befooling me. It is he who is befooling himself.

He's cutting the branch on which he is standing; he is not understanding that his own personality is not worth befooling. And he was on and on for half an hour before Me and I didn't know what to tell him, because what can you talk to these blind people. Those who are blind and know they're blind and profess they have eyes, they're the most dangerous people to themselves and to the society. Because once they believe into such nonsense they want everybody to believe into that.

Some of them could be genuine fools, some of them could be sinister people.

So it's an experience that has to take place within you. You are not to believe Me either on this point.

Like I may say, “Oh, this is it” and say maybe I may create a big scene, that's not the thing that is going to help us at all. We are the seekers of truth and unless and until we find it, why should we be satisfied with anything what so ever.

So here we are to find out the truth and the truth is very simple. It is so very simple that it's not possible to believe in it, that you are the part and parcel of the whole and you have to feel the whole, that's what you are seeking. All your seeking form amoeba stage to this stage is this simple seeking, is to become the part and parcel of the whole which you are all ready, but to know that you are, to know.

So to know means in your awareness you should feel that you are the part of the whole. Once you become the

whole you do not seek any more. If that seeking is completed you do not seek any more.

[Aside:] I think that today's very warm can you open some of the doors. Since I've come it has become so warm.

So the main thing one has to learn that you are not to be persuaded by any talk, by any miracles so-called, by any tom foolery, but the basic happening must take place.

Now this happening has been planted within us since we were amoeba. Like a seed sprouts into a tree, today we are at a stage where we are human beings and this stage is just a transitory one to jump into another stage where you become that knowledgeable personality. Because that stage is so close that's why you are seeking very ardently. Now to talk of God in this age of science is impossible. But scientist when they will know there is a knowledge beyond their human understanding and when they get that awareness within themselves, then only they will know that whatever they have know so far has been of no value.

That's why all these endeavours, all these so-called manifestations of human intelligence and all that, has lead them into confusions and problems. They don't know what to do with themselves. There's an atomic war on top of heads, there's another shock on their heads. They don't know what is going to happen in the future. Despite all their good wishes and benevolence they're not been able to achieve any blissful state for us.

Now if I say there is God, yes there is and there is that blissful state within us which we have to achieve by becoming one with the whole, you don't have to believe

it, but don't deny it. Within us lies that pure desire, absolutely that unmanifested desire within us which in Sanskrit language is called as Kuṇḍalinī and this is lying in the triangular bone in three and a half coils. Now in the process of Sahaja Yoga you will see the pulsation of this Kuṇḍalinī with your naked eyes. Then the pulsation rising, you can also feel the pulsation on the top of your head, about which many great saints have written very openly, especially one of the latest, Kabīra has described it very, very clearly. In the sixth century Ādi Shañkarāchārya has described it, even in the Bible you find the description but in a little mysterious way because people were so funny that you couldn't tell them anything straight off. As it is you know what happened. Everything that has happened on this earth has a Divine plan, especially all the advents of people. Like Christ coming on this earth, Mosses taking people away from slavery, Kṛiṣhṇa's advent on this earth, Rāma's coming on this earth as a benevolent King. All these things have given us a special power within ourselves. These powers are all dormant, they are dormant, we can say they are sleeping just like some candles, which are not yet enlightened. When the Kuṇḍalinī rises she enlightens these powers within us so this pure desire that is within us to be one with the whole, this connects us to the whole. Not only that, but it awakens all those deeper powers within us which are yet not awakened.

Today I want to tell you about Christ's powers which has never been before talked about. Because those people who talked about Christ were *[UNCLEAR* dangerous], they were not realised Souls. They were just ordinary human

beings and even those who are talking about Christ are not realised Souls. They are talking without having any knowledge as to this subtle side of Christ. Christ resides within us in this evolutionary process, in that crossing point. His Deity is placed there. Now this was not placed after Christ came in, it was placed much before when human being was created. And then he incarnated on this earth. Now this Deity was specially created to cross that point, that door into the kingdom of God, which is the Sahasrāra, is the thousand petaled, that round place which is opened called as limbic area.

On the gross level it is called as limbic area. And He was specially created for a very special job, which was never interpreted by people. When the Deity of Christ is awakened with us what does He do? It is said that, “He died for our sins." Everybody says, “Christ died for our sins so you become Christians so He has died for us and every thing is fine." You are not a Christian unless and until you are baptized. You're not a Jew unless and until you are baptized. Now what is the baptism are we having? Do we really get the awakening of Christ within us, do we get the awakening of Moses within us, do we get the awakening of Śhrī Kṛiṣhṇa within us. If so we do not have those powers. When this deity's awakened within us it is said that, “He died for our sins." I India we had a long theory of Karma. That was at the time of Kṛiṣhṇa had described that, “Whatever Karmas you do accordingly you are born, accordingly you suffer." This theory was at the time of Kṛiṣhṇa, who was about six thousand years back.

So by this they wanted to tell people that you build up your Karmas and you will suffer accordingly, the suffering are due to the past bad behaviour, or anti God behaviour of human beings. But they found that human beings were just the same. When Moses bought Jews away from there, they were just the same. When Kṛiṣhṇa preached, nothing happened to them, they were just the same. They would not look after their Karmas, they're not bothered about their Karmas and they suffered, in their ignorance they suffered because they did not believe in those incarnations. They did not believe in any incarnation what so ever.

So they continued with what they were doing, going against their sustenance, against their Dharma, against their human benevolence.

So something had to be done by which one could create an instrument, which would absorb those Karmas once for all.

That's how Christ was created with very great effort, with very great understanding of human problems.

To incarnate on this earth as an ordinary human being and when He resurrected himself He showed by His life that Spirit is eternal. That's what Kṛiṣhṇa told them, “That Spirit is eternal." Somebody had to prove it, that it is eternal and Christ proved it, that it is eternal.

So far till Christ came in, all the powers of incarnations were expressed as their personal powers, as their personal powers. Means the Goddess She came on this earth to kill demons, Kṛiṣhṇa came on this earth to kill demons, to tell them what is right and wrong, Moses came on this earth to save people.

But we needed somebody who would take away the sins, who would pardon the people, who would go on this earth as the embodiment of forgiveness. To forgive the erring human beings who were so ignorant with that love and compassion. Not to show off His great powers, which He has still, but just through his compassion and forgiveness to absorb the sins of these people. And this deity was placed long, long time back within us, who incarnated as a human being on this earth, but we never recognized Him. Can you imagine now we have so many thousand of Sahaja Yogis all over the whole world, can you imagine there was not a single person who really, but for His Mother, really understood Him? Till He got his resurrection then they all started saying ah, ah, ah. Till then nobody would believe, not like you people, but it's all right because they were not realised, so even that is forgive. That's why He said, “That anything against Me will be tolerated” because He knew people were not realised people. “But after realisation, after getting your enlightenment, if you do not recognize God then He's not going to forgive." Imagine the ocean of forgiveness has denied His forgiveness. That would be the greatest crime and the sin, not to recognize God after realisation.

Now He came on this earth to absorb the sins of the people. When the Kuṇḍalinī rises and if this Āgñyā opens out which is a very difficult thing, for others I feel it is very much difficult. But in Sahaja Yoga today it has become really easy to awaken Christ and the sins get lost completely absorbed there's no Karmas left. There are many people still outing this idea of Karmas, you see they are still harping on that. Because when Christ came

on this earth and did all these miracles and when He told them that, “He's was dying for the sins of the people” and they knew this, they said it, they started preaching about it, they took Christ like a book. They used Him so wrongly; they never interpreted what it meant.

That after becoming a realised Soul when you are born again as He said, “You are to be born again." He said it again and again these things. I must tell you I went to America in seventy three and when I was talking they were all taping Me and people told Me you should not allow them to tape You, must have some sort of a, what you call that, patient or something. I said, “What, it's very difficult” and they taped Me and they said, “They'll be printing all this." I said, “Good material then." Let it go, it's a very good thing. After all for realisation they have to come to Sahaja Yoga. Kuṇḍalinī awakening that has to happen but let them talk about it." So actually human beings are so wonderful they know how to make mess of everything.

They created organizations called twice born because I said, “You have to be born again." So said, “All right, we have an organization twice born." And these self-certificate, people are all around quarreling with Me, you see. And they said, “This we got it from America." And they're many like these, you see, who believe in this or that. And they've formed organizations. By forming organizations you are not going to be born again. It's a living process; it's a living thing. You cannot just brand somebody, you are born again, you cannot brand someone it has to happen, but all right what ever has happened to them will come round very soon.

So, the principle of Christ when it is awakened within us, all our Karmas are absorbed. What a wonderful thing it is, just think of it. Just think of it, no more sins. The past sins are lost, every sin and when the Kuṇḍalinī pierce Āgñyā you really become thoughtlessly aware, absolutely thoughtlessly aware. This happens to you, not that because I say you should believe it but it happens to you, you yourself should find out. And when the Kuṇḍalinī pierces the fontanelle bone area, means when you really get you baptism in the real sense of the word, when it pierces through, then you feel start feeling the Cool Breeze in the hand flowing. It's a happening for which you cannot put in any effort.

But then to keep this Deity alive you have to do something about it, that further more you do not commit *[UNCLEAR]*. Your sins are finished at the point when the Kuṇḍalinī rises and Christ is awakened, but keep Him awakened. In the beginning it happens I've seen that you take to all things again and this leads off. You have to keep Him happy and the methods which are implied to keep them happy is called as Shuddha Vidyā or Nirmalā Vidyā, means the Pure Knowledge. Because once the attention is enlightened, it's not like this light; of course it has certain powers, when it is, when there is light you can see all these clearly. You start seeing clearly on your centers within yourself and you can see the centers of other people by feeling them on your fingers. This is the minimum of minimum that happens. But you'll be amazed when these powers are properly raised within us you get an awareness by which if you pay attention to anything it acts, your attention acts. This is what is

called, as really Nirmalā Vidyā, is the one where the attention starts acting by itself. You pay attention to something you just think of it and it works.

Normally you attention is nothing but where ever is your desire, wherever you want to go you can go with your attention. But doesn't act anywhere, doesn't report anything to you. You pay attention to someone you want to know about and you get connected with that person and you know what's the matter with that person.

So first of all because the Kuṇḍalinī spreads in the brain you get the awareness enlightened.

First that has to be established, that the attention becomes enlightened and that it becomes active, active not in the wrong way, always on the right side. What ever it does is good, it is good, good for your spirit.

There's a Sanskrit word for that is *[UNCLEAR* Hitakard] all your decision making become very easy, because if you use your vibratory awareness immediately you know this is right, this wrong. You can feel it on the vibrations because now you are connected with the absolute, with your spirit any you know what is to be done what is not to be done.

But realisation is something like jumping from dead to life. The attention that was acting like dead becomes alive, every particle of it.

So it's a tremendous change within you and to establish that tremendous change you have to have patience and understanding. Those who have shown that patience and understanding have achieved that establishment very well, those who have not shown that understanding have again gone back to as it is position. I'm here, in no way to

form any cult or anything, no way to get any money or any such nonsense. I'm here to make you that knowledgeable personality, which you can be very easily, someone has to do it, you can do it tomorrow. There were two people who went to Australia and they got thousand people realised. In India there's one gentleman who got ten thousand people realised. You all can do it yourself; first of all you have to establish yourself. It is easy to doubt something, you should doubt, there's nothing wrong in doubting but one should know that I have nothing to gain.

See there are so many fake people, so many moneymakers and so many misleading personalities that when you come to Me it is better to be that way, I know. But also think that you have come here for seeking there's nothing to loose but if you get this experience, this is what you are seeking for ages and you are born on this earth in these modern times when this Mahā Yoga has started. But it works slowly, you have to get it, there is no way of enlisting you as a Sahaja Yogi, there's no way. It has to happen, I cannot have you on the register or something like that, put down your names, all right these are the Sahaja Yogis you cannot just do it. If it has not happened to you, you are not there; you have to be there. If you are not there you are not a realised Soul you have to have it.

So we cannot behave the same way as others do.

The other day some Sahaja Yogis asked Me, “That they're used to courses." That first day you do this course of pulling your nose, second day pulling you ears and third day pulling your chins. There's nothing like that in Sahaja

Yoga, a course. I have to tell you it's a living process is something very different.

There is nothing like a course because whatever you have to achieve you achieve through your Kuṇḍalinī awakening. And you realise it, that from thoughtless awareness you jump into doubtless awareness, it's an awareness, a state which is built within us, how can there be a course for it. There cannot be any course as such, but of course you can learn about Nirmalā Vidyā, you can learn how to awaken your Deity, you can learn how to raise your Kuṇḍalinī, you can learn how to raise the Kuṇḍalinī of others.

The other point, which might upset some of the people who come for the first time, I've seen it happens.

But there could be some people among here, who call themselves Sahaja Yogis but are not up to the point.

Because the door is open to everyone to come in, all kinds of people come in.

Some of them may proclaim they are Sahaja Yogis, they may try to misbehave but that doesn't mean that something wrong with Sahaja Yoga, but the person has not achieved the state. There is nothing to be upset with people who behave like that, you should say, “He'll be all right." They get all right afterwards no doubt, we have people who are coming directly for lunatic asylum you'll be surprised. Don't be frightened but we had people I don't know if there is somebody like that today. Directly from lunatic asylum one lady came to see Me in Leeds and when she went back they said, “We don't need you here now you are all right." But now such a person comes in, if you meet that person he'll say, “Oh I'm a Sahaja

Yogi, I'm this, I'm that” and you are not to believe such a person. You have to believe in your achievements and not the achievements of the other people, this is what the Sahaja Yoga is. While in an artificial place they create a big hallo around them. They'll have ten people dressed up just to attract you attention to impress you.

They'll dress them up; they'll study how to influence other people you'll see, text books and they'll make these people look very attractive and very impressive and they'll pass you through such big, big halls and big, big corridors and impress you with that you see. And you'll be amazed when you reach there you'll find somebody sitting seven steps ahead of you, you have to go a bow to the person without asking any questions and you'll do it. Because you will see all these things very, very much the same as you see if you have to go to see a king or if you have to go and see some pope or somebody, that's how all these things are very impressive.

But for God it is not at all impressive, He can demolish all the wealth of the world and He can recreate.

For Him nothing is more impressive that your spirit. The spirit that is within, that's the most important thing. Not what country you come from, what race you come from, all these nonsensical differences do not exist in the realm of God. You are a seeker and your spirit has to be enlightened.

So maybe today we've got Caxton Hall, tomorrow maybe we could be sitting near a sea, or maybe somewhere on a hill. We had a problem in Australia, we had to many people we didn't know what to do.

So we went to an open space, one of the parks you can say and arranged a program. It does not matter where we have the program, how it is organized, maybe it is a little bit disorganized sometimes, may be there is a little problem here and there. That's not important, you have to experience, the experience that is very beautifully organized within. Inside you're well organized, see that organization that is within you and not the organization that is outside. The thing that is with in you, or the beauty that is within you must see that, experience that and enjoy that. I hope it will work out with all the new people, I think most of them are already realised and you all will have a deeper inside, into yourself and you'll enjoy the bliss and joy of the Spirit and feel the power of collective consciousness within you.

This is all for the new people but today I want to talk to old Sahaja Yogis also something about them, about the Saraswatī power within us, which I've not yet talked...

[Aside:] Can I have some water please.

... to you so far, because you're all ready using it to much. The power of Saraswatī, this may also upset people that shoes are put up, you see, in England people might think that, “Why to put up the shoes?" But you see they're supposed to respect even the shoes of a person who has vibrations, because there're lots of vibrations there. These are all things you have to gradually see why it is done. Not to get upset with things but to understand how we have to respect Divinity and the Divine power within us and within others, you see. Now about, we have three powers within us, so that it will also be *[UNCLEAR]* to the people who have come for the first time. Is the one

power which is starting from the right side goes to the left side is the power of desire. In Sahaja Yoga language we call it is the Mahākālī power. These are also awakened within us all these powers are awakened within us because what ever we desire, the desire comes true.

After some time you find you do not desire anything that is not wanted. You only desire something that is for the good of your Spirit and the Spirit of others. That's only your desire; you reach that stage where you do not ask. In the beginning people do ask, like things “Mother my father is sick, will you look after him? Mother my brother is wayward he drinks, smokes this that, can you look after him?" Then something else like that, it's not bad but it's not the ultimate. But them you start asking, “Mother please give realisation to people." Then you do not say, `My brother, my sister,' you start thinking about the whole. Then you may say, “England” you see, come up to that point, “Let England be awakened Mother, please try to help English people” like that then it goes to he whole world, then to the whole universe.

That's how you start expanding yourself and *[UNCLEAR* everyone] starts expanding. The desires change, the priorities change, absolutely you change your priorities. You see you hanker after something, specially the desires of your habits. People are used to certain habits, for example some are smoking, see.

You don't have to tell them don't smoke, don't tell them, there's no need to tell them also it causes cancer or anything, automatically they stop it, overnight, I've known people who have been drunkards, overnight they

have stopped. The desire changes, the whole priority changes because it is enlightened, the power of desire is enlightened.

But the other power, which is enlightened within us, is the right hand side power is the power of action.

The power of action is called as Mahāsaraswatī. You really act quite a lot by thinking, by planning, by physical exercise. Physically and mentally we are overactive specially in the societies where we are supposed to be developed. We develop through using this power, the power of action. We act and when we feel we have something surplus we take to violence also, very easily. This power of action within us is absolutely exhausted as it is, that causes lots of problems. But because of you changing of desire, action also changes. The persons who were going to pub every night stop going there. They start doing something else which is much more joyful and blissful. The desire changes the action automatically, but you can also change your actions. But the subtle thing of the action is such that you realise that the power is flowing through your fingers. You realise that there's emission of power. You go to some place, suddenly you find there's a release of power, you find something is flowing out in that area. You find out what sort of area is this. You find that some great saint might have died there.

Sometimes you go to some place and you find your hands are tingling, you don't like it, you ask them what sort of a place is this. “This is a place where people were murdered, this happened, that happened people are very, very disturbed, there is no peace within them." So

the action also changes, you change your movements; you go to places, which make you happier.

But the subtle side of the action is this, that the movement of these fingers, even the movement of your hand, the speech, the turning of your eye, everything is enlightened. You start growing with it. When you become subtler and subtler you get to your principle, the principle that is the spirit. And once you reach your principle you can reach the principle of anything. But for that one has to develop the right side in a proper way, is to use your hands properly. For example you'll find many people raising the Kuṇḍalinī like this and may people have a very conventional ideas about things. For example if a pope takes a child puts it in his hand and puts some water from somewhere and makes it is baptized, everybody accepts it, nobody has an objection for that. Or if a priest wears a funny type of a dress, which makes children frightened to begin with or a donkey hat, nobody objects to that, because it is accepted by all our norms you see.

In Singapore I was surprised that there is a pub down below and a temple on top and run by the same organization is accepted. Nobody finds it funny, but if anybody says, “I have to just raise your Kuṇḍalinī just moves the hand” “Oh they're queer people you know, they're mad." According to the standard of the unrealised they're mad. Now how do you raise the Kuṇḍalinī? We can raise it with the attention, but it should not be done because the others should know that something has been done. Because people unless and until the see

something has been done to them they are not going to believe.

Yesterday we had somebody who had bad eczema, very bad eczema. All his hands were absolutely chard and horrible, both the hands and I asked him to put his hand towards Me, maybe he might have been cured only by putting his hands, but I had to make the mark of cross and a swastika on his hands and it cleared out, all became solved.

So he saw Me doing something, if I had said, “All right, he'll be all right” it happens with Sahaja Yogis it can. But if I say that and if it happens, because attention is enlightened, “Oh it might be a coincidence." So you have to raise the Kuṇḍalinī with your hand so the person who raises can also see as far as the hand moves the Kuṇḍalinī moves, you can feel it within your spine. You can see in the spine of another fellow, then you raise it, oh God; it's coming up, coming up. You see with your hand movement and the others can also see this and this is the action which one has to understand. When I say you have to give yourself a protection and bondage, you have to give yourself a bhandan through your aura. You have to take your hand down and put it down like that and bring it back. When somebody does that immediately people say, “Oh, they're mad people, they're doing hands like this." I would compare it to Indian classical music you see, when an Indian classical music *[UNCLEAR]* why not our religious music or this shaky music, you see, then they take the thing in they're hands and *[UNCLEAR]*. Either you feel they're going to break or

your going to break the way they are all are ah, ah, ah, ah, they go.

So in the beginning it was a shock you know, to see what's happening, is your life, is gone mad or what is he doing about it. You could not accept it, it is really for old people like Me. It was a shock to see the way people were holding on to it and ho, ho, ho and the other people were shaking their legs like this and shaking like that, so they were going like that. One was raising the head this was the first *[UNCLEAR* show] is saw, I think about sixty five when I came here. And they you see, just to entertain us, I don't know what got into they're head, you see, many ladies had also come. And they invited us to this place called as Talk of the Town, I believe. And there these ladies came and they were turning their legs on top of the heads you see, all the time and we were looking everywhere, what are they up to. They said, “This is dancing." “Oh this is dancing;" we couldn't believe that dancing legs is take like that is a dance you know. According to Indian standards is not, in Indian standard the dance cannot be with her long leg like that raising up straight like that. This is exercise; according to Indian standard it is exercise I mean for us the old people I'm saying. But the young people may accept this kind of a, [GAP] you know and the whole thing filled us with such nauseas and we didn't know what was happening to us. I was so stunned, I mean somebody should have taken our photographs the way we were ignorant about it.

In the same way the people might find it little abnormal the way we have to do the Kuṇḍalinī awakening though it's not so bad you see, I must tell you. It's quite gracious,

in acts very gracious. But one should not have fixed ideas also, you must keep yourself open to see that this is the work of the Divine and one has to raise that. Now somebody might see Christ standing with a finger like that. It has a great meaning, what it means, in Sahaja Yoga you can understand, in Sahaja Yoga you can understand what does this mean, is His Father. You know, those who know what are these fingers for, you will know what it is. He always pointed to these two fingers that is His Father, which he described. Everything that, now Buddha sitting with another kind of a pudra, somebody is doing like this, somebody that, you don't understand why, why they did it. But we have accepted that point, we have accepted that so we don't mind. But when this is a new thing that is happening to us, people do not want to accept. This was a very, very secret knowledge once upon a time. Just like you had only one king who had seven wives, but now a days everyone can have twenty-one if they want to.

In the same way in you inner being you are all now capable of becoming kings. You are all capable of becoming great beings. Outside you have lost inside you have gained. Outside you have lost much, much by thinking that all these wrong things that these so-called powerful people did was something to be achieved, that's how you've lost, but your spirit has gained. It has gained a lot because you realised now, you have reached that stage where you realise that it was a mistake. It was a mistake that we thought this kind of power is going to make us happy, this kind of thing is going to give us joy. Now you are realizing, all of a sudden realizing that was

not the thing we asked for. It's a miserable state that we have landed ourselves in and the inner joy has to be achieved and you are just ready for that.

So this action power within us has to be kept very clear. Now for Sahaja Yogis as I say, there is no ritual that *[UNCLEAR]*, ritualistic things always make you absolutely dead. There should not be, like early in the morning you start with a mantra go on repeating mantra like a mechanical thing, it's absolutely paying no respect to the deity. But in a proper way whichever Deity you want to awaken, think of the Deity, try to cleans it with all understanding and deliberation with respect, is the protocol. And not just to take somebody's name, just go chanting any mantra you feel like. [Sound returns:] It's not a mechanical thing.

Some people just start doing it mechanically because they have done things before also mechanically. Sahaja Yoga is a thing that has to come from heart. It is heart felt. If you do not do it from your heart it has no meaning. You may carry on like that but you'll find after sometime you have lost your vibrations, you have lost the Cool Breeze. Because heart doesn't like mechanical things, every day it does new things. Like the living things, there are every day a new flower and new style a new method it never sticks on to habits; it never sticks on to the same routine *[UNCLEAR]*. This way you come sometime, the other way you come sometime. It's bubbling everyday with new appearances and so the mechanical things that you do deaden this power of Saraswatī. One has to do it with complete love toward yourself and towards others, with complete esteem of you being and the esteem of others.

The whole behaviour should be such, while I find some people are still taking to very childish behaviour. And some are taking to very broodish behaviour. Sahaja Yoga should be in the center. There's a difference between childish and childlike. You can be innocent like a child but you're mature, you understand things and the both things make a special dignified personality of such a person. All these things come to you from this right side power when you use it properly. Unless and until you have this properly established you cannot impress other people by your behaviour. Other people, new people who come to you should see this majesty, this royalty within you, which you are enjoying as a blessing from God Almighty.

May God bless you.

I would like to have some questions from the new people it's a good idea.

[Aside:] Hello, hello they recognize Me. Let them enjoy, let them have their freedom they know what to do. What ever they do they have a meaning.

Can I have some questions? Question: *[UNCLEAR]*.

Shri Mataji: You mean to say, “After a great illness can you be born again." Yes, yes of course yes, actually when you are born again you are cleansed completely you get cured. We have cured cancer.

Cancer is very easy to be cured by Sahaja Yoga.

So many diseases are cured just as soon as the Kuṇḍalinī comes up it has a cleansing power. It cleanses, your physical, your mental, your emotional being, it does cleans no doubt about it. It does, but it just does it

because that's its job. *[UNCLEAR* Sobhava] is the nature, that's the nature of Kuṇḍalinī that it cleanses.

Same seeker: [speaks to Shri Mataji about health problem].

Shri Mataji: Now you see, this is the thing is doctors only know the physical side of human being they do not know the mental side, you see. And you'll be surprised that I found out even a disease like cancer starts from mental side, its from the left side it starts. Now the doctors have accepted that there are some proteins within us, which are placed in the areas, which are unknown to us, since our creation and they attack us.

So the problem you have had, doctors will say there's nothing wrong till it manifests its physical side.

So if there is any problem in your chest we will know first and doctors will know much later, maybe it will be so difficult that they may not be able to do anything about it. Now the other day we had a boy who suffered from Asthma, who could not be cured by anything, but it could be cured by SahajaYoga, because it not only caters to the physical side but to the mental side. You don't have to go to psychologist and to a doctor. Only your Kuṇḍalinī does everything and your spiritual problems.

Like we had a telephone call from Australia saying that there's one gentleman who has come from Transcendental Meditation and he is behaving like an animal, he's growling and he's making all kinds of noises this and that and he has been to doctors to show this and the doctor said, “We cannot cure the people who go to TM." Better ask TM people, he asked TM people they said, “You are stressing and you are taking out the stress

and this and that." And he said, “This is an eternal process, for the last twelve years I've been nothing but stressing out. What am I stressing out, nothing comes out it is increasing." But on the phone I told him something, which relieved him of his problem.

So these things cannot be understood by doctors, even the doctors have to come for this. The phycologists do not know about the physical side and the physical doctors do not know about the phycology. When you are, I said it to you there must be some problem and now if it is clear you see about it. And you your self *[UNCLEAR]* and you yourself felt that way.

Seeker: *[UNCLEAR]*.

Shri Mataji: Yes it was there, but doctors won't be able too.

So it's such a subtle thing it finds out everything, even before the trouble starts you see. Which is manifesting outside we know it inside even the slightest *[UNCLEAR* of it], even the slightest of it.

Yes what is it.

Seeker: [talks of feelings of seeking].

Shri Mataji: Here is out attention in the stomach here is the attention within us and is the principle of the Guru. Is the principle of the master the Primordial Master, he is within us here he is to be awakened.

Now the guidance we take from others you see sometimes could be upsetting that, or the way we listen to some people you see, some people talk we just don't like it, it goes you see, sometimes with Me this, that even if I see somebody I feel something is like that, you see.

That sensitivity is a very good sign and it can be corrected, is Sahaja Yoga that you can register it, but you do not feel that sense. You just register of course, but that sensitivity is not lost but in fact it's not so much you just feel it and you just say, “He's catching on the void” you see that's all. Then you see it is happening to another person not to yourself, that's what happens to you after realisation. You get rid of all that, is a very good sign to have all that.

It is of course it is.

Seeker: *[UNCLEAR]*.

Shri Mataji: Yes, that's a very good sign, very good sign that you are very sensitive about it. That means you are a seeker of ages.

Seeker: [about his health and kidney problems and an operation].

Shri Mataji: That's it, what it is, that's what without seeing how you do how can you say. And you must see, you must see for yourself this is what is Sahaja Yoga in which you have to see. And the knowledge that comes to you is so, so much clear-cut, but first you don't believe it, you just can't believe it, it's so fantastic just don't believe it. But like this say now she goes and tells somebody about this they'll say, “Oh this woman” either they'll say, “She's mad" or they'll say, “She needs psychological treatment” or they'll say, “Forget it." Nobody is going to believe you see, because they don't have this problem. You see that's it, unless and until you see it your not going to see it that's very true. What you say is true, unless and until you see it how are you going to believe.

Any other question?

Seeker: *[UNCLEAR]*.

So then how are you feeling now? Seekers: *[UNCLEAR]*.

Shri Mataji: No it was something else you see which you will know gradually what it was, it has to be cleared out. It's not a germ it's a, from the left side you are getting it from the back here is a center, yellow center you see here has two sides right and left it moves on both the sides. And on left side is the center which we call as left Swādhiṣhṭhān, we call it left Swādhiṣhṭhān is the center which is for black magic. You see when people do any black magic on you, you get a problem and naturally when it starts manifesting it affects the kidney because it is very close to the kidney.

So it's the, first it starts as a black magic thing and then when we raise the Kuṇḍalinī it was pushed up to here and could not get out from there you see.

So the thing is that it moves also, you can feel the movement of it, after sometime if it is not gone you feel it's here, it's here, it's here the thing starts moving and doctors may say, “You better take B complex” you see to get rid of it. You cannot, it's a spirit, it's a spirit that moves and once it starts moving you know how to take it out and how to work it out.

So there are ways and methods by which we really take it out. There is a force, a Satanic force that does all these things, is a fact. He has felt you, he has that sensitivity you must see that sensitivity also.

See on the stomach, because your stomach is weak. They know how to work, where to work, where to go.

I'm so interested in that.

Question: *[UNCLEAR]*.

Shri Mataji: If they're blocked we have ways and methods how to raise them.

Seeker: *[UNCLEAR]*.

Shri Mataji: I think the first, second, third, fourth one you mean to say. That is the center of security and if it is blocked you problems, like breast problems and things like that and also breathing sometimes you get. Is a sense of security and there is a Deity there. Is the Deity, which is the Mother of the Universe you see and you have to awaken her, if she's awakened then you don't have those problems. It's very simple. Are you feeling the Cool Breeze? Seekers: *[UNCLEAR]*

Shri Mataji: Just put your hand towards Me.

Yes it's something like that.

Seeker: [makes a comment].

Shri Mataji: Now all of you just put your hands towards Me like this, close your eyes, put you legs straight on the ground, straight on the ground just like that. But as I told you even if you get realisation doesn't mean that you've achieved it. You have to establish it, which is very important because the whole thing is a transformation and to establish it, it takes time.

So just coming today, getting realisation finishing off, is of no help to you, is a waste of time for Me and you also. And again you'll come back with a greater problem because once you are realised you must establish. You must establish is an essential part of the whole thing. Will you please take your hands towards Me.

Seeker: *[UNCLEAR]*.

Shri Mataji: Some people get it really permanently I think, some people do get it permanently but some people leave it for a while. You see it is for us to maintain *[UNCLEAR* if you establish your self], once it is awakened it's awakened. I've seen people who get lost for about four or five months again they come back. But then they are not so much progressed as the people who have continued to progress you see. You must know that you are the seekers, without seeking you are not going to be helped.

So why go half-baked about it, it's no a shopping you see it's something that is *[UNCLEAR]* that's important, that's vital. You must know something that is vital.

Seeker: *[UNCLEAR]*.

Shri Mataji: No, no there's no time, no space, no time, nothing. Which is all the time you are in meditation, all the time what ever you are doing you are in meditation.

So please put you hands towards Me. Put you hands towards Me. Close your eyes please.

[Aside:] She to has a little breathing problem that needs to be corrected.

Close your eyes please close your eyes. Put your hands straight towards Me straight like this, because if there is any shaking in the hands you can see. Little bit away from your, like this, you see. Not on the knees because in the beginning you must see where is the heaviness. Now what if feel is more on the heart now put your right hand on the heart, right hand on the heart. Now you have to ask for forgiveness.

Saying that, “If we done anything wrong please forgive us." You have to ask twice for forgiveness. Now when I say that immediately you start catching the center it shows that you are guilty. You are not to be guilty once you say that it's finished, that's why you say it, just to clear it out, just put your hand on your heart and your left hand towards Me. You say it without any guilt *[UNCLEAR]* just say it. Because you could have committed mistakes after all to err is human and to forgive Divine. Do not build up any guilt at all, what is this guilt for? [Aside:] *[UNCLEAR]*. Let someone take the baby and *[UNCLEAR]* around.

Do not build your guilt, that is one thing happens very often, you catch on the heart, you ask for forgiveness and you start thinking I've done this, I've done forget about it, forget it, forget it.

So it goes to the third point this is a very common circuit in the developed countries, the third circuit is where you have to forgive yourself and forgive others. Āgñyā Chakra you catch, so you forgive. First of all you forgive yourself, you have to respect yourself because you are the temple of God. Forgive yourself, can you forgive yourself, close your eyes and forgive yourself. Respect yourself; you have to respect yourself because you're asking for something, because you deserve it. What ever you have done is finished now so just forgive yourself. Now you put your right hand towards Me and left hand on the stomach and forgive others. Just on the stomach more on the liver, forgive others, forgive others. Forgive everyone even if they've harmed you just forgive them

because by remembering that you are miserable for nothing at all.

Now put both the hands towards Me and watch Me without thinking, let's see if you can do it without thinking. Just watch Me without thinking. Not by thinking, without thinking.

Now there are many *[UNCLEAR]* you can still feel and you can stabilize it. But as your awareness you have everything, but in the beginning you try to raise the Kuṇḍalinī to establish it, then only certain things are close to you *[UNCLEAR* visually because you ignore]. Because truth is something you cannot bear it. They could not bear the truth that Christ was an incarnation, that He was the Son of God, very difficult for human beings *[UNCLEAR* I must say] tremendous ego that they cannot bear anything.

So everything is not told to you at the beginning. But gradually you will build up that sense because, because you don't go on in anyway that this *[UNCLEAR* new body is itself...]. And once you are ready to receive this thing in its full capacity you *[UNCLEAR]* in the beginning *[UNCLEAR]* of the Deity the Spirit that you are. But even with this yourself *[UNCLEAR]*.

But first of all you must cure yourself, you must respect yourself and cure that is very important. If you have been to other Guru's and you've been harmed by them, then there are certain things *[UNCLEAR]*.

Between left side problems or anything there are certain things need to be done for that you have to come to the center *[UNCLEAR]* coming out, all about what has to be done. Because now you are realised you can cure

yourself you don't need anybody else to do it. Only thing you have to know how to do it. Once you cure yourself you can cure others *[UNCLEAR]*. For curing your this trouble or any other trouble there are particular things that have to be done and they'll tell you how to do it, how to awaken the Deity of the Primordial Master within us by which He looks after the void. And all the other problems can be solved as soon as you know how to solve them, all that knowledge is absolutely free with love, with great joy you can't pay for it, never pay for it. *[UNCLEAR]* I hope every Monday you'll get a *[UNCLEAR]* to come here. There may be some negative forces which will come, drop in but don't listen to them, definitely don't listen to them. Establish yourself *[UNCLEAR]*. These are your own absolutely your own *[UNCLEAR]*.

May God bless you.

The feeling on top of your head *[UNCLEAR]* you can see it very clearly. *[UNCLEAR]* so happy you know that *[UNCLEAR]*.

Unknown: *[UNCLEAR* Jai Shri Mataji].

Shri Mataji: Something you know, you see *[UNCLEAR]* all right, *[UNCLEAR]*.

Then you start seeing things how it works out, it just works out, it works out.

***Contents: 1981-05-14*, Public Program, Awareness, Hampstead Meeting Hall, London, UK**

Seekers who have achieved something, those who have achieved a lot and there are some who are still seeking.

So, when I talk to people who are still seeking it should be *[UNCLEAR]* to people who have really found out *[UNCLEAR]*, because they have to talk to such people and

we should have them to talk to people who are not *[UNCLEAR]*. Firstly one has to know that there are many people of *[UNCLEAR]*.

[UNCLEAR I Mean] in the market [as well] and they have many solutions to give and many things to [UNCLEAR... say/pay] also. While in Sahaja Yoga one has to understand logically what should we expect, the logical *[UNCLEAR* side], logic is different from *[UNCLEAR* rationality/ration], one has to understand. Rationality is a thing that is an edge of your ego. Whatever ego says, you go ahead with it *[UNCLEAR* it's an ex-fashion], what's wrong? You go ahead, what's wrong? It has no *[UNCLEAR* time now], it has no history, it has no experiment, experimental evidence, nothing, it is just what's wrong because it is like a *[UNCLEAR* bounder], you can call it, it's a *[UNCLEAR* bounder] who just wants to jump into everything. That is rationality which helps you to rationalise everything. But a logic is a very different thing, it's a very deep and a wide thing, it comes from the experiences, from the knowledge of others.

You are half baked, half baked, “[and] I got a headache Mother” this happened, that happened *[UNCLEAR* for Mother, it has to work], in any case, because you have seen My face, you are obliging by coming down here [UNCLEAR... faith]. But what is it? Is it fair? Is it fair? Is it just? You must have some justice done to Me also and I would request you that some justice should be done toward yourself.

That's the main point, what justice have you done to yourself. If you waste your life in frivolous things you are going to suffer no doubt. If you get out of the grace of

God, you are going to suffer. If you get His grace, then you are going to [enjoy]. It's a very simple thing. And in this *[UNCLEAR* be aware] it's such a lot of joy, so much. I know, people don't understand, but if you can really understand a person who enjoys loving others. Anything *[UNCLEAR* which is/with this] love, that's the only thing somebody enjoys.

That's the first and the last, the most *[UNCLEAR* specific] and the joyful happening for *[UNCLEAR* yourself]. If you can imagine of such a thing, then think that there could be someone who just wants nothing.

May God bless you.

Let's have some questions. See the awareness is that to be free, it's freedom. Next time I must talk on freedom but today I want to *[UNCLEAR* see about] awareness. Let us see. If there are any questions please ask. Don't be afraid, all right? No questions? Any question, anyone?

Seeker: Yes, why do you have to have this Kuṇḍalinī?

Shri Mataji: Why do you have to?

Seeker: Why does the Kuṇḍalinī have to rise to become aware?

Shri Mataji: What, why did we have to?

Seeker: Why do we have this, eh...

Shri Mataji: Evolve?

Seeker: Yes, why do you have this experience?

Shri Mataji: Why should we evolve, isn't it? We are already human beings.

Seeker: Yes, I mean I could see why. But why this particular experience of awareness?

Shri Mataji: Why should we seek?

Sahaja Yogi: No, she is asking why the Kuṇḍalinī must rise? Why must the Kuṇḍalinī rise, she is asking.

Shri Mataji: I mean why should we have Self-realisation?

Sahaja Yogi: Yes, in a way.

Seeker: Why that particular type of awareness?

Sahaja Yogi: Why that particular type of awareness?

Shri Mataji: Oh, why should we have *[UNCLEAR]* that's the point, isn't it? Now first of all, why should we become human beings? *[UNCLEAR]* amoeba is better off. Why did we become human beings? What was the need to become human beings? You have these rates to be paid and *[UNCLEAR* the/this] insurance to be paid and all *[UNCLEAR* that]. You are better off as amoeba, *[UNCLEAR]* no problems, all right? Logical, all right, first question is why should we be human beings? First question you should ask. All these horrible appendages we have like a nose and *[UNCLEAR* narrines] why to carry on this load. And also tension on our heads. Why should we be human beings, where we have freedom to choose whether right or wrong and bump our heads everywhere. Why should we be human beings? Question to be asked, why? This is the question, if you ask you will know why you are human beings and then you will know that to get the answer you have to get Realisation. Because we have no meaning to our life, we don't understand. Either God must be a crazy person to make us into human beings. Monkeys are better off than us, I can tell you. In a way they are better off, they don't have problems, they don't have to see newspapers, there are no problems of any kind, I tell you. I mean, I don't know if you have seen monkeys. If a child dies of a monkey, child, [his] own child; as soon as it

dies, *[UNCLEAR* it's not bothered]. It knows it's dead and finished, it knows that. They know how to live in the atmosphere, they live, they have got everything. The birds know how to do it. They know how to cross the Atlantic and *[UNCLEAR* everything]; *[UNCLEAR* think about our fate/to work with fate]. They have everything, we don't have. We have to make *[UNCLEAR* airplanes] even if we have to go from here to Scotland.

The problem for us, you see they have these nice wings, they have no problems, nothing.

A tiger can eat a cow but for an Indian it's difficult to even think like that. What a problem it is? Dos and don'ts and this and that, laws and regulations and you have to carry a passport with you *[UNCLEAR* like to remember]. I mean anybody would say why this human race? The way we have faith, amazing. Animals are not so much insecure as we are.

So why God has made this beautiful thing called as human race? Why has He made? We can think about it, we can ask this question but animals never ask, `Why am I a tiger with such a heavy tail behind me to carry?' It does not.

So we have the sight or vision of something by which we start asking, “Why am I here?" They don't think like that, I mean the animal part, only the human beings do. And the answer is: you are here to become one with the whole. The whole is the primordial being, you are *[UNCLEAR* saints] and you have to become one with that. Unless and until you become that, all the problems that are created by this half backed awareness of human beings can not be solved. None of them can be solved.

Anyone of these problems, say political, economic, anything economical, anything, physical, racial, emotional, nothing can be solved because you are not connected with the whole, you can not solve the problem. It's very simple.

Supposing this finger has a problem, it can not be solved unless and until it is fully connected with the whole. In the same way, unless and until you are fully connected *[UNCLEAR* also], you are connected in a way because you are living, but you are not aware of it. You do not know how you are connected.

So you have to become one. The instrument, if you make an ordinary instrument, it does not think that I am not yet connected with the mains, it does not think, whether it is connected or not makes no difference.

But human beings think, “Oh God, what am I doing here? I have to be connected with something, is it?" Then you see these things and find out, “Yes, I have no meaning unless and until I am connected." But some people have this seeking from very very long time. They have reached there rationally, then it became their character, they develop *[UNCLEAR]* on that and that's why *[UNCLEAR* it never happened]. They have got everything, people have got cars this that and [UNCLEAR... you can't understand, I Mean], you think you should become *[UNCLEAR* modern, I can't remember]. But tomorrow you find *[UNCLEAR]* it's over, what's the matter with *[UNCLEAR* you/me]. She was supposed to be such a happy woman. What happened? She didn't get the essence of joy in her life.

That's how you jump here and there, looking at places where you can find, you can not be *[UNCLEAR* satisfied]. If

you say so, then you have not felt *[UNCLEAR* anything]. No human beings have, of course the awareness *[UNCLEAR]*.

Some people have a real intense seeking, intense seeking. I mean, they want to seek even if a devil comes before them, *[UNCLEAR* they say/are you going to] give me my name, all right, *[UNCLEAR* I'll give you my name]. Anything, they don't mind anything, they are such intense.

Some people have less some people have *[UNCLEAR* more], like I would say people who are developing now, they come to Me, “Mother, my son has no job” “My *[UNCLEAR* head/hair] is not all right” *[UNCLEAR* this and that/that, that]. Those people are over developed, they suffer from over developed *[UNCLEAR]*.

So they say we can't see, I am artificial, my eyebrows are artificial, *[UNCLEAR]* is artificial.

So we have from primitive to over, overly, overly *[UNCLEAR* dull] people, half *[UNCLEAR* dull] people, we have many sorts of things, isn't it? In the same way.

Now this *[UNCLEAR]* exists in everyone one of us, but only thing is that some of them are manifesting it very strongly, some are not. For example somebody takes to drinking now for example. I am not against drinking as such, just now, for the time being, you see. I don't want to say that, because if I say that some people may not like it. But if you *[UNCLEAR* have drinks] then your awareness is dull. Then *[UNCLEAR* one minute], if I have a little whisky in the evening, what's wrong? Finished. But your awareness if it is alert and if you see around you'll find a solution and then you'll know something is missing in human beings. That's why we have problem, that's

why we are confused and if you are sensitive and concerned about others, you would like to know how to *[UNCLEAR* cure it]. That's how you seek for yourself and for others, all right? Any other question?

Seeker: I was meditating the other week before last and I had big problem because I was very happy and I was very *[UNCLEAR]*, do you understand? But what I would like to know is can I or anyone else *[UNCLEAR]* in their own mind to do this, to raise the Kuṇḍalinī? *[UNCLEAR]* while looking at you, do you understand?

Shri Mataji: Have you got your Realisation?

Seeker: Well, I'll tell you what happened, actually it was really a problem for me. As I was meditating *[UNCLEAR* here] and I am realised into this.

Shri Mataji: Meditating how?

Seeker: Well, I was *[UNCLEAR* hanging/having] my hands like this.

Shri Mataji: Towards the photograph?

Seeker: Yes, towards the photograph and then suddenly an [UNCLEAR… came a completely uncomfortable/completely uncomfortable] it was really wonderful actually I felt very happy and then suddenly I have a big problem. The face distorted, the neck turned into a *[UNCLEAR* coats grow], a big boil grew from the nose. And I had, I started to loose control, do you understand? I really started to *[UNCLEAR* swept], you see and I had to fight really hard to get rid of this distortion, to get rid of this bad distortion of the face and everything, for sometime to get better. Now did I bring this on myself? Or I am not completely concentrating on You?

Shri Mataji: Did you concentrate on your Āgñyā Chakra before? Did you concentrate here before?

Seeker: Yes, I always do concentrate there.

Shri Mataji: That's it. That's it. That's the point, you see, this is the bridge or this is the door as you call it.

Seeker: Yes.

Shri Mataji: And if you are really concentrating and it's a weak thing, of course Kuṇḍalinī must be, *[UNCLEAR* I have seen that/you are a seeker] actually and I am very happy to know this, I mean this is a great gift, this I had said that once a number of people get Realisation, on the photograph they'll get Realisation, it's a very great news actually. Now if your Āgñyā is all right, this point, you see, this is the point, [Shri Mataji repeats twice this is the point], this is weak; so what happened when it rushed out, you see, you felt all that, but when you came down your attention suddenly was pushed into right and left. If this *[UNCLEAR* was correct]. See for example this is the door, all right, this is the door and [I mean] it's weak door here. When the Kuṇḍalinī comes up this is a good thing, it sustains it and it's all right.

But if this is weak, what happens? That the Kuṇḍalinī comes up and She takes the attention upward but then suddenly this breaks, when this brakes, Kuṇḍalinī goes down and then the attention spreads on sides. And there you see all sort of things, you see heads and noses and things like that. It's absolutely LSD, we call it supraconscious, supraconscious thing.

You see, people see so very often when I am lecturing also, you see, they see *[UNCLEAR* some/so].

I am surprised that they don't run away. They see light coming out of Me and one gentleman when he came to see Me, never saw Me, he never saw Me, he just saw the light, he just saw the light, *[UNCLEAR* you see]. And he did not know to whom to talk, he was *[UNCLEAR* seeing/feeling] the light was speaking, or what was happening. But he had taken lot of LSD, always. I hope he didn't come to Me *[UNCLEAR]* but he was absolutely happy. And then, another lady who came to see Me, her eyes were down like that.

And when she tried to raise her eyes, you see, she saw nothing but burning of light, like flames of lights.

And she couldn't see that, she couldn't see that's false. And she was so frightened and she said “Now what is this?" But, all this is because of your supraconscious problems or your subconscious problem, where you move on your Āgñyā. It's very important to have this point all right, I don't know who had told that you should concentrate here? I don't know. It was a big mistake those who have done it. I'm told that somebody has written even in Gītā. How could Kṛiṣhṇa say that? I don't know, they have, I tell you, spoiled everything, that's *[UNCLEAR* how/what] I can say, I mean, how can you concentrate here when the door is here.

How can you concentrate here? It is said in all the books, much before Kṛiṣhṇa also it is said that it is Brahmarandhra which is to be opened. Kṛiṣhṇa himself has said that Brahmarandhra is to be opened.

Then where are you concentrating? Because concentration is done with your attention, isn't it? And you are putting your attention here, the Kuṇḍalinī is not going to come out from here. Can you imagine a *[UNCLEAR*

hole] coming out like that? It's not that way, it has to come out here. And so, this door which we say, “I am the door” you see, He is the door and the door is weak. But we can put it right. No problem, there's nothing to worry.

But I am happy you enjoyed *[UNCLEAR* the evening] and remember *[UNCLEAR* what you are going to get]. But you are giving Me the greatest news and a great great encouragement. Because of the photograph people start getting Realisation. I don't have to go to all these places.

Oh God, I've been travelling for five, five months continuously absolutely continuously, by plane, by trains, by buses, by bullock carts. Any, any conveyance you'll say, I have used that. You see, every *[UNCLEAR* deity/Deity] had one conveyance. I have used all, even *[UNCLEAR* elephants].

So it would be a great idea if you could get this Self-realisation. That's the best and that [what or when it] happens, I am sure the day is very nice that the gates of Heavens are going to open. No doubt, no doubt.

May God bless you.

But that definitely means that you should consult other Sahaja Yogis about it and get it all right. This is absolutely supraconscious. You see those people who are coming here, they look so simple. They are scholars in Sahaja Yoga now. You see within six months you can become a scholar in Sahaja Yoga.

So it's very simple. You just ask them and you'll become a scholar yourself. You will be a scholar of Sahaja Yoga very soon. And in Australia people ask Me, “Are your disciples all scholars, scholars?" I never knew, who are these scholars? They said, “The way they talk and the

amount of things they know, we think they are all scholars." I said they must be scholars in God's *[UNCLEAR* grace].

So what do I do now, would you like to have your Realisation? *[UNCLEAR]*. Put your hands towards Me. I *[UNCLEAR]*. *[UNCLEAR* Close your eyes]. And do not concentrate things, allow your attention to be free absolutely. *[UNCLEAR* That's good]. If your attention is going here and there you can put your attention on the top of your head, means on the fontanelle bone area.

[Silence for about 8 minutes.] Did you feel any Cool Breeze in the hand? Did you feel? No? You should feel Cool Breeze. That's important. You have any *[UNCLEAR* cold/cough] or something? You get it very often? If *[UNCLEAR* your Viśhuddhi Chakra] is not all right, then you get problems with these vibrations, you don't feel the Cool Breeze. But you just sit here, may be *[UNCLEAR]*.

Contents: 1981-05-17 **Talk to Sahaja Yogis, The Power of Kuṇḍalinī, Chelsham Road, London, UK**

... day I told you about Kuṇḍalinī and that Kuṇḍalinī is the Pure Desire within us, that manifests or is awakened to give us our Self-realisation. Means the desire is only fulfilled when you get your Selfrealisation, otherwise it is not manifested, it is just dormant; it is still residual. It has created the whole universe, but until and unless you get Self-realisation, unless and until you become one with your spirit, you have not achieved the manifestation of this power, which will go on making you run and run and run, thinking that you have not yet achieved or you have

not found out your meaning. It will be there, all the time, sleeping, but giving you a feeling of vacuum.

So this power must be made to manifest, but when it manifests [Shri Mataji pauses to comfort an infant]. Then, this power has got certain qualities. The first quality it has got, this is *[UNCLEAR* umtrova], means it goes against the gravity. It goes against the gravity. You see, a thing rises, it doesn't go down, so a person who has to be aspiring by nature, if a person is not aspiring type the Kuṇḍalinī doesn't rise, because, like, you see that when food passes down our stomach it presses the sides of the intestines. By that these movements of going down takes place. You see My point? So when the Kuṇḍalinī starts and starts pressing on the sides of the Chakras, She creates a feeling of throwing it higher and higher so the Chakra is bounced upward. All the heavy things, all go downward, but the Kuṇḍalinī rises higher and higher and higher, because it is like fire.

Fire never burns downward. It always burns upward. She looks also like fire and She has the capacity of fire within Her. The fire has a capacity to purify and to burn off whatever can be burnt off. It purifies the things which it cannot burn and burns all the things which are inflammable, which can be burnt out.

So, the quality of fire that exists in the Kuṇḍalinī burns off whatever is useless, like in our house, we find all the useless things and we take them in the garden and burn them, finished, once and for all they're all finished.

So when the Kuṇḍalinī rises, She also burns off all useless things, all your useless desires, your useless ideas of action, all sorts of useless accumulation of feelings and

egos and every sort of a nonsensical thing that is in between. Everything is burnt off fast, because they can be burnt, they are not eternal, by nature. They are not eternal by nature. They are temporarily there. All that is temporary, She burns down and that's how She enlightens the Spirit, because Spirit cannot be burnt by anything.

But this burning is so beautiful that it burns off all that is bad, stagnating, all that is polluting, all that is a disease and cools down the system.

It is very interesting to see how this power of fire becomes the Cool Breeze, but in the science also you find that electricity can give you hot breeze or Cool Breeze. You can transform from one to another, but there is no ultimate for these things, they are always reversible. Supposing something becomes a magnetism, you can always convert into electricity, electricity can always be converted into magnetism.

But Kuṇḍalinī's such a thing that once she burns off everything that is there, that's how you get heat, because she's burning. But when she cools down and becomes cool then she's not reversible. That's why it is a living process. Living process is never reversible. All dead processes can be reversible, but anything that is reversible, now, supposing you are grown up, you can all become a little baby, whatever you may try, you may have any number of operations, you cannot become. [Laughter.] Now you are grown up, now you are modern, over-developed. You may try anything to become a primitive person, you cannot.

You just cannot, whatever you may try. That will be all very artificial. You may just feel that you have become primitive by wearing some sort of a dress, by feeling that, `Oh now there's no modernism in us and now we have become very very subdued,' nothing of the kind. It is curable, but not reversible. But, it is a living process.

So, Kuṇḍalinī within us expedites the living process within us of our evolution.

So the power of Kuṇḍalinī is to purify, she purifies us like fire. She doesn't purify us like water, surprisingly, she doesn't purify us like water. Now, water, what does the water do? Water never burns off anything, but it dissolves certain things. It can take in something within itself, see. It can contain some of the dirt within itself. Supposing you put a colour in the water, it assumes the colour. But Kuṇḍalinī does not assume the colour. She burns out. Do you follow My point? So, if you have anything wrong within you, she'll burn it off, but she'll not absorb, she's pure. She cannot absorb those things into her that will pollute her. She cannot be polluted.

This quality of fire, say, for example, if you put gold in fire, silver in fire, you can purify it. The pure form comes in. That's how you know. But if you put gold and fire in water, nothing will happen. At the most you can wash them from outside. But in and out you cannot do it.

So outwardly you can do it with other things, but with Kuṇḍalinī you do in and out. The face also looks beautiful, as if some glazing has taken place on the face, a new, bright face. It's not sallow, neither it is horribly burning, nor is it pale and ugly-looking, but it becomes radiant. Radiance, that's what Kuṇḍalinī gives you.

It looks also, as if a molten iron, you see, have you seen molten iron?, pillar of, supposing you take a pillar of iron, and and heat it, to a point where it starts showing, you see, copper, every colour in it, copperish and all sorts of colour you see, golden, copperish and all that, you see, like a furnace. But very silent, very silent, it works out.

Now, the sound of Kuṇḍalinī I have told you in one of My lectures, how it creates sound. For example at Viśhuddhi [throat], it creates the sound of all the vowels that are in Sanskrit language. The English vowels are very few. Sanskrit language are sixteen of them *[UNCLEAR]*. These are the sounds that Viśhuddhi *[UNCLEAR]*.

She creates sounds on all the Chakras, but when she comes to Nābhī it becomes a *[UNCLEAR* one]. *[UNCLEAR* One] means information, coded information, that's the nearest you can say, coded information. First it is the Paravhani, which you don't hear, when it rises from the Kuṇḍalinī point, means Mūlādhāra Chakra and Mūlādhāra, then it is not heard, there's no sound. Then it comes to the stomach, the Paravāṇi starts. Then it comes into the center, where, in the heart, where always you hear it *[UNCLEAR* Matama], where you can hear it `Lub dub, Lub dub, Lud dub,' just like heart, properly.

With a stethoscope you can hear it. Then it comes to Viśhuddhi. It becomes a witness, means `Pashyanti', the One who Sees. What I've noticed, yourself, when you are caught up in the Viśhuddhi, you feel the thing going on here. But here She sees. Then this sound, which is the sound with which you speak, when it comes to the throat, it becomes Vaikharī *[UNCLEAR* it says].

This is even before the Kuṇḍalinī's there, the *[UNCLEAR* Vāṇi], the coded information, the language, which is first only coded, becomes decoded here, so it's called *[UNCLEAR* Vaikharī, it talks]. But after realisation, the Kuṇḍalinī enlightens the *[UNCLEAR* Wali] as it enlightens everything else. Because of that enlightenment your mantras become enlightened and that's how, when you say a mantra, it is effective, it's lighted. Before this, any mantra said has no meaning, it's just ordinary *[UNCLEAR* Vahani] just like in any ordinary person.

So, it is called as the mantra which is `Jāgrut', awakened.

So, a mantra which is Jāgrut cannot be created out of a mantra which is not enlightened.

Like if you have, say, an earthen pot or an earthen thing like this or this one as it is and you have all the oil and everything there, still it won't give light till it is enlightened. In the same way, the mantra is nothing, it's just a dead *[UNCLEAR* pot].

Unless and until it is enlightened by Kuṇḍalinī it is from ordinary *[UNCLEAR* Wali/`whining'] which cannot give you enlightenment and which cannot give enlightenment to the mantras and that's why these mantras have no meaning at all. A person whose spirit is enlightened and his *[UNCLEAR* Vahani is/Wali is/`whining"] enlightened, such a person, whatever he says comes true. Whatever he asks for happens. Even before he says something, the desire, the desire within us, it is the *[UNCLEAR* Paravāṇi/Parawari/Paramaya] which is the coded information of the desire you have, becomes enlightened and that's how you get the results. Suddenly you get

something, you say “Oh, I have struck the jackpot and Mother has done it." That's how it works.

The whole system of Kuṇḍalinī works out this way.

So this pure Kuṇḍalinī creates purity within us.

Without the purity we cannot see anything. Anything that is impure, say, er, say my hands are not clean, I can't see the light. Anything that is dirtied, you cannot see the real picture of it, you cannot see the reality if it is not being purified. But, even if it is superficially purified or artificially painted, still, you can always say that it is artificially painted and we cannot see the beauty of this one, because this is done from outside. But Kuṇḍalinī burns off everything *[UNCLEAR* Basfayan/busvesad] makes everything into ashes and whatever remains is the pure gold of the Spirit within us.

That's why, when people try to raise the Kuṇḍalinī by wrong methods, she shows her temper. Actually, she never gets angry. If Kuṇḍalinī gets angry such a person can never exist, impossible, but doesn't matter *[UNCLEAR]*. But it is Śhrī Gaṇeśha, which is the deity of Śhrī Kuṇḍalinī, gets angry and he creates this problem of heat. Because She's fire and he's the deity.

So the fire of this Kuṇḍalinī works out in such a manner that the Sympathetic Nervous gets excited with heat and then we get even blisters and things if you try any tricks with Kuṇḍalinī, any unholy behaviour.

The *[UNCLEAR* Urdtuni] of Kuṇḍalinī, the rising of the Kuṇḍalinī, is its nature, but when She goes and touches the Sahasrāra, that is an important point. If She does not touch the Sahasrāra then the Grace doesn't fall in and

the Grace has to come in, within us on our both sides of the Iḍā and Piñgalā Nāḍī.

That's how you feel relaxed.

Now, how important it is for us to preserve our being, before coming to realisation. To preserve it as it is. But we do not preserve it. We make mistakes. Kuṇḍalinī is not forgiveness, She does not forgive you.

She's not the one who can forgive, because Her nature is not, like the fire. She cannot forgive. Only the Spirit can forgive. Only the Ātmā can forgive, because She is the one who indicates all your problems.

She's the one who cleanses you. She has to cleanse you. If She starts forgiving you your dirt will be left there. As we do *[UNCLEAR]* it cannot be cleaned, leave it alone, what to do? She's not like that.

If it is not clean She will burn.

Cancer is the cause of neglect of Kuṇḍalinī awakening. Unless and until Kuṇḍalinī's awakened, you cannot cure cancer of any person.

So, if somebody, say, has, a nice mother-in-law, she might be a relation and she was a good lady, she also tried to take vibrations and all that, she was quite aged, maybe she might be also a seeker, but it acts best on seekers, because the Kuṇḍalinī has to be awakened and She will not be awakened unless and until you have aspirations and if you have no aspirations, if you just try to get it for your curing, you might get cured, by her awakening, but it's a very forced action. It's not so natural, there's no suction about it.

You can say like that, supposing in this room we light a fire, there is no more oxygen, it won't light.

So we have to have that oxygen within us of our aspirations. If that atmosphere doesn't exist, the Kuṇḍalinī takes time to rise. Unless and until you are realised you cannot keep Kuṇḍalinī up there. You may just touch it, go down, again you'll touch it, go down, again you'll touch it, go down.

So, as a result of this, some people start feeling the guilt. “Why should I have done this? I should not have done that” a lot. But, after realisation, this guilt is a big problem. Even before realisation, I find, it is. Because guilt is an escape, where all the things are accumulated, which have to be burned out. You see, all things accumulate on the side, very nicely stored up, stored away you see, kept there nicely, so they do not face the Kuṇḍalinī and get burnt. And that's how the left side of a person goes on recurring all the time, all the time, through these two points of left Nābhī and left Viśhuddhi.

Allow the Kuṇḍalinī to burn it off. Just put this to the fire. And when you put this to fire of Kuṇḍalinī it will burn off completely. Don't build up any kind of guilt.

At least after realisation. Before realisation, of course, one has to worry a little.

But, even telling all this, it is convenient to feel guilty. You avoid all problems by feeling guilty, “Oh I should not have done, I'm sorry", English language. Very simple: “I'm sorry, I should not have done.

I'm sorry. I tell you I've done a mistake, all right." But you do not say like this that that “Alright, I'm sorry, forget it." That should be added.

You see, when you say somebody “I'm sorry" to somebody, he says “Forget it." The other person should also say, within you, that “Forget it." If you do not try that thing, you see that this is very nicely accumulated here all the time and this feeling guilty is a very convenient method of escaping the truth, you see, showing that you are very frightened, you are very upset, this and that and just storing up the whole thing up here in the left Viśhuddhi. How will you progress? You cannot progress with this idea that you are guilty, even if you are, what are you going to do, what? You want to go to jail? Take two running jumps and go there! [Laughs.] I would say like that. Why come to Sahaj Yog? Just go to Hell, you can go very fast, there's no need. But, if you have to be saved, accept that you are saved and do not build up these left Viśhuddhi problems. It's a bit too much now. I think it's high time that we should burn, burn all these things, these guilts, these wrong ideas which always keeps us down. It's like putting something in the neck, a heavy stone and saying “I can't see what to do." Now, the stone must be removed, how can Mātājī pull you out? See, whatever I may try, there's a big stone and that's pulling you down.

It's a very big problem, I think now, because Kuṇḍalinī doesn't know what to do and how to reach your left Viśhuddhi, to burn out that nonsensical thing which you are storing very sweetly “Aah, I'm frightened, I'm afraid, I'm sorry." In Sahaj Yoga, such English usages are not allowed, none of this `I'm afraid.' Even a politician who's so dominating will say “I'm afraid." And what are you afraid of? Everybody's afraid of you. What is there to be

afraid of? So this usage is not allowed, `I'm afraid.' This is not allowed at all, to say `I'm afraid.' What are you afraid of? As I said today that “Wages of sin is fear." Is alright, but wages of sin is fear, so, if the sin is removed, then the fear should go or not? But still, it is like this, there is light, still you behave as if you, you are in the dark, still you `I can't see, I'm frightened.' As *[UNCLEAR]* there is light, see for yourself. This is a thing one should know, that your Kuṇḍalinī's awakened, that your spirit is shining.

Open your heart, accept this, recognize it, know that you are a realised Soul, now and that Kuṇḍalinī has purified you. Now, please do not accumulate this dirt, here, on the left side, because you like it, because it's very convenient to put a faces, to say “Oh, it's all..." [Little bit heat coming up, send it up here, go like that] it will be cleaned out. Leave it alone. Let us face it.

Somebody gets a little heat, “Oooh I'm again bad, again I'm lost, God knows. What have I done?" [Laughter.] Correct? It happens, very commonly. I find suddenly people [gestures to laughter] without My saying anything *[UNCLEAR]*. What's the matter? “Very hot." Is this the way to greet your Mother? You are the soldiers, you are the warriors. But, what I find, hands are shaking. Where should I put these souls? This is My experience now, that this pouch of the left Viśhuddhi is a very difficult thing. My ears are also becoming absolutely clogged with that vibration, so much flowing on the left side, all this left Viśhuddhi, that I can't *[UNCLEAR* work/hear] on the left now.

So, at least have some pity on Me and give up that nonsense of guilt.

Even a minute you feel guilty, just look at outside and look at the birds and look at the sunshine and look at the beautiful Nature that has given you such a beautiful colour and all that. Look at that and just take the beauty within yourself and without. Enjoy and give up this miserable look. You should at least look like realised people. Look, at least if not feel. [Laughter.] So, this kind of seriousness has no meaning in Sahaja Yoga. A Sahaj Yogi stands like this and talks like this and walks like this, normally. [Laughter.] So, feeling guilty is not only a speciality of English, but I have seen it with all the Western people have this very good idea of feeling guilty *[UNCLEAR]*.

I went to France, I told you about French people. As soon as I went there, they warned Me for one thing, that, “Mother, never say that you are a happy person, you are very happy." I said “Why?", because I knew I am a happy person, but should I tell them lies? They said “they will never believe Me and they'll think you are absolutely ignorant of the Truth, you are ignorant of the reality and that you are an uneducated person. You have not read books on `shocks of future' and things like that." I said “All right” but then I really lashed all the French on that and they really laughed and laughed at themselves. “Les miserables” I said, “You people, everybody's miserable because of you." Any Frenchman coming anywhere, the people don't know where to sit, don't know, this camel, which side it is going to sit, on whose head it is going to sit and the camel is very miserable. And here,

everybody's frightened of the camel, how he's going to behave. Very difficult person if he's French. Everywhere internationally they're known to be difficult. And now, here you are, what are you miserable about? And English have taken certain qualities from Americans, which they need not have taken and some from French. They don't understand their quality of mind is the best. They have taken from here and there and that's how they are also becoming French you see. Bathroom culture, that's what it is and you all don't have to learn anything from them. It is they they have work to learn from. What have they got? Have they got any scholars? Very few. And you, your this, weakness for becoming miserable and er, guilty and all that, is coming from where? I really can't understand, what is there to be miserable? If you don't have a job, you get a dole. Nowhere in the World people get doles. Do you know that? Nowhere! Nowhere people get doles. While you get your doles quite all right, you don't starve. Germany, France, anywhere, you don't get a good dole.

So what is there to be miserable? At least you people be happy people. At least the English should show the way. Feel happy within yourself. Then only you'll be able to see the Spirit. Don't be miserable. There's nothing to be miserable. You are special people, who have got the blessings of our Spirit. We should all sing, laugh, enjoy, be pink with vitality. There's nothing to feel miserable. I mean, after some time you'll find you really have to act to be miserable. It will be difficult for you to be miserable for more than five minutes. I can bet on that.

With Me, same problem. I find it impossible, you see. I try to be very serious “I'm going to now say something

serious” first [we never stop] laughing, because to Me the whole thing is nothing but a big joke on.

So don't have these French ideas in your head of becoming miserable for nothing at all. Be a happy *[UNCLEAR]*. Emit happiness, joy to others.

There's nothing like `future shock', for you at least. There's nothing like future problems. The future is beautiful, *[UNCLEAR* Peter] you have no idea. But do not lag behind with a big stone tied to your necks. For people who know that they have found the Spirit, they should know that they have found the joy. Spirit is the source of joy and that should be evident when you talk. No inhibitions, no curbing, is complete freedom. But do not try to mold yourself into the molds of the people who are not realised. Now you are different, you are changed, it is irreversible. Whatever you may try, say after two years or three years, all of you will be bubbling with laughter. But why not do it now? If it is going to happen later, why not have the blossom time now? We start thinking about it, we start worrying about it, there's nothing like that. Our problems are solved, our lives are beautified, everything is so nice and good, just to make you happy. Still if you are not happy, still if you are worried, then the Divine recedes. It recedes, it's like sunshine. If you do not want to face the sunshine you do not get it. You have to face the sunshine. You just don't get it. Everything moves to the sunshine. Every leaf tries to be towards the sunshine. They have this innately built wisdom, in the same way you should be and you will see that this, your life will change completely. Every moment you'll enjoy.

Every minute of life you'll enjoy. Everything that you do you'll enjoy. Every small thing you do you'll enjoy.

People are sometimes amazed with Me, also. Once I climbed up a place called Palitana *[UNCLEAR]* which is about seven miles one has to walk, with My son-in-law, daughter and they said “If you cannot go up you'd better sit on those palanquins and all that." “No, no" I said, “I can walk, I'll walk." And I was just enjoying, you know, I never felt I was walking on a thing like that, because I was enjoying the Nature, I was enjoying the people, how they were coming down, how the people were going up and all that and the *[UNCLEAR* gates] and things and I was just enjoying all that and then we reached there, these people who were going with Me, absolutely fagged out and tired and they said “and hāā." And I also sat down with them and looked and I said “Look at this, so many elephants they made and everybody's tail is differently twisted. How they must have thought of so many permutations and combinations?" My son-in-law said “How could you see the tail of an elephant when we are so very tired, here?" You see, I just spontaneously saw the thing, I said “How surprising that they have twisted the tail of the elephants", there were many elephants created, you see, at least there must be about a hundred elephants in that pattern, everybody's tail was twisted differently. I said “It's so, I mean, imagine, in a hundred elephants should twist their tails in different directions. It's remarkable for Me." They said “How can you see the tails? We are so tired we want some water." That's what it is. Inexhaustible. This power of enjoyment is inexhaustible. I want you all to enjoy like that, to drink

that nectar of your spirit and to forget about all these artificial problems that you have.

Just enjoy, because now you are drenched in your Spirit.

So enjoy that. Why not? Some people haven't got it, they will get it also. Don't worry about anyone, they will all get it, they will all have to get it, all those who are seekers will have to come.

It's nice you have come earlier, it's a nice thing, but now do not stop your progress by lingering with this load around your neck. Let the Kuṇḍalinī take you up, for She likes light things, She's a light thing herself, that's why She rises. Everything that is heavy within you She'll burn, but do not make yourself additionally heavy.

May God Bless.

I'll have some water please.

[Shri Mataji relates a story about thieves trying to steal silver from her home and in particular a heavy silver statue She refers to as the `heavy gentleman'].

You brought this gentleman here? You brought him?

Sahaja Yogi: Yes, Mother.

Shri Mataji: A hāa.

Sahaja Yogi: Is it the correct place in the temple?

Shri Mataji: Anywhere, it's good, you know.

Some thieves came into our house. And this heavy gentleman had come from India.... very vibrated. And the thieves *[UNCLEAR* kept] with some silver put in the drawing room. They collected all the silver, put it on a tablecloth and put the whole thing on the dining room [table]. And then suddenly no-one knows what happened. They just ran away, leaving that there. And this gentleman was

there, in the passage. They just ran away. Can you imagine, these thieves, I mean they are burglars, competent absolutely, experts, nobody could believe it, except that they saw some steps *[UNCLEAR]* and our door was opened up. Otherwise nobody could believe it “Not here, Oxted." But they did not take even a spoon. God knows what happened, [laughter]. I was not there.

[Laughter.] Recently brought from India. See, four very hectic people who brought our luggage. Do, leave it there.

And they brought this also. They said “this is a very heavy gentleman from India." They were both hot and exhausted but their Kuṇḍalinī had risen up.

[Showing a statue.] This is Kārttikeya. Hmmm! This is the fire of Christ. This is the one that is going to come. The fire of Christ. The destroying power Rudras. This is one of the Rudras of Christ.

Hmm, it's quite warm, I think.

Kuṇḍalinī *[UNCLEAR* to bring it up]. She *[UNCLEAR* will rise it].

How are you here?

Sahaja Yogini: *[UNCLEAR* Mother...]

Shri Mataji: Alright? Alexa. Hmm.

Come. Come.

I would like to see all the children on My Feet today.

***Contents: 1981-05-18*, Public Program, The Right Side, Caxton Hall, London, UK**

I'll talk to you about the right side, right side sympathetic nervous system, which is expressed by our subtle energy of Mahāsaraswatī, which gives us the power to act.

By left side we desire and by using the right side, the power of Piñgalā Nāḍī, we act.

I was telling you about the right side the other day. Let us see how our right side is built up. I am sorry for people who have come for the first time but every time when I start the introduction to the subject, again it becomes the same but later on I'll explain to you about Sahaj Yoga.

Now this right side, Piñgalā Nāḍī, is a very, very important energy-giving energy which makes us act and activate. Now this one is made of all the five elements. You know all the five elements that have created our physical being and our mental being. That's how it helps us to work out all our physical and mental problems, mental activities and mental and physical growth. Now this, being made by those five elements, when, first time, human beings started thinking of doing some action, about anything, say in India, they first thought why not, somehow or other, reach to the principle of these elements; which is beyond physics, which is beyond chemistry. And to reach to that point, they thought it would be better if we try to invoke or to awaken the Deities which are governing those five elements. This was a very big mistake though, I should say, because human beings, whatever they take up, they do not know where to stop. If you tell them that you have to clean your teeth every day, then they'll go on cleaning it twelve times in twelve hours. You tell them anything, they'll go so far that they will destroy the instrument which is suppose to be looked out. That's the nature of human beings. They cannot have brakes to themselves.

They do not have common sense as far as balancing their life.

So, anything you give them, they become so mad after it that, in Marathi, there's a word that, they ultimately put ashes on their head, to say to declare that, “I am dead now, I have become ashes." Like that, they get so frantic that even while doing this awakening of these principles they forgot, lost their sight that we are after our Spirit and not these elements. We are beyond that, we have to reach beyond that. All these elements are only useful for us to achieve a state in which we can create things and we can have more time to devote to meditation to enjoy our Self-realisation. They got completely blinded by the advances they made on this side which is, in pure and simple words, materialism. They became so responsible, so efficient.

First in the Vedas, it's written, the first stanza is such that, “By reading these Vedas if you do not know your Spirit then it is absolutely useless." But this stanza they always close down I think. Then they started worshipping those Deities, this, that, exciting them, doing all ritualism and all that. And they just went into it headlong, absolutely headlong. They would not turn back.

So by exciting these elements, they discovered the principles of these elements; for example, they discovered that gravity is the essence of the Mother Earth. But [actually] it is not. That is not the essence of the Mother Earth, that is the energy that is asserted by Her but Her essence is Her fragrance.

They could not cross that limit where they could see really the subtle thing which was [that] the subtle

principle of this energy of gravity is the fragrance. All the fragrances come from Her. Of course man-made [fragrances] there are, that's different, but even the man-made are also coming from Her, if you go trace the, source it up to the point, it is from there. Like that they went on discovering the subtler, so-called subtler, energies or the principles of these elements from the Vedas time.

Then it became the science. People started studying physics, chemistry, this, that. Understanding what was there before them by going into it and trying to find out what is it made of. For example, they went into atoms, they went into molecules and things and they tried to find out. And there they find the oscillation of the protons and they find the oscillation of these atoms. They just can't understand, “Now, from where this energy of this oscillation is coming?" They could not capture that energy so they thought better use the energy.

So they started using the energy.

Now it has gone to such a limit of the whole thing is, now I read, saw that, microchips or something coming up. After some time you won't be using hands or head or anything, it will be that microchips will be going on. But with this kind of a thing, with this extreme behaviour, you will become a machine yourself, a slave of the machine. Today the petrol is exhausted, tomorrow electricity is exhausted, then what are you going to do? You don't know even to count two plus two! So you are left without any counting, you will become the same primitive man and I don't know what you will be doing, climbing on the

trees and living like monkeys? I don't know what will happen.

So all this advancement that you did has gone too far. But as a result of too much efficiency, too much responsibility and all that, you became sort of addicted to it and then, with that, you started dominating other people. The machinery came in, with that you produced such a lot of machinery stuff that you didn't know what to do so you had to find out markets where you'll sell them, so you started capturing other markets where you started selling them and that's how all these economic problems and all these have started. There are developing countries, there are developed countries, all things going on in this mad world. Alright! But we reach a point now where we realise that this machine has done something nonsensical within us.

When we reach that point, we start thinking, “Now what are we to do?" We have been very responsible, not you people but your forefathers maybe, who went to fight the whole world and do this and they had to be at right time at right places and do all sorts of things. By that overresponsibility you became fed up. You just didn't know what to do. For example, morning you wear a grey suit, in the night you have to wear a tailcoat and then if you have to drink your wine, you have to take a separate glass, or for that, this. It became too much messy, [so] you said “Throw them in the sea! Not going to have all this nonsense.

We have collected all these forms and horrible things that have made us so rigid." That's how you try to throw away everything but even then when you throw away,

where do you go? I mean you have to exist, you cannot just hang in the air.

So you said now take another style. And the another style is even worse, much worse. Because then: no responsibility, no respect, no understanding, so this power goes absolutely zero. You are tired very soon. I have seen, I mean in the BBC and all that, young people and I'm a very old woman compared to them, after saying two three words, they say “Hāhh” they go down. Again after saying something, “Hāhh." This is very big acting these days. In any play you see a person says, “Hāhh." What does it take to act for this kind of a thing? This is what is very common. Now'll you notice it. The reason is you are tired. You are absolutely tired, why? Because your brain is the same old brain and you have taken a new life, you cannot adjust yourself to that. You say that, “Now I am sitting down, doing nothing. I am not going to be efficient anymore and all that, I'm sitting down” [but] the brain is going, `chuk, chuk, chuk, chuk, chug,' morning till evening. How to stop this brain? This brain is working so hard, using up all your energy [so] you have no strength.

So to counteract you will say let's take to some sort of a thing by which we go out of this madness.

Let's take to something that takes you, as we call it the right or the left side, take something like say hasheesh, or something like another thing, LSD, to go to the right or to the left. Now what happens with that you know very well. Now thank God, you have realised also that that was nonsensical also, that was no good. These are two areas within us which are called as Ādi Bhautik and Ādi

Daivik. Now the Ādi Bhautik are the ones which take you to the left side is the subconscious and the Ādi Daivik are the ones where you try to invoke the devas and all that on the right hand side, that one is the Ādi Daivik where we call it supraconscious area. These two are of no use to human beings, actually. They are not meant for you. They are meant for people who are dead, who are dead souls, who are good for nothing. Now they cannot get realisation. It's not meant for you. That's the area you should not reside in. But you enter into these areas because of extreme natures.

Some people by going into these drugs, some [by] taking to some sort of movements like mesmerisms, spiritualisms and all sorts of isms.

Some people onto the right hand side like taking to what you call these people who are racialists and all such organizations which are racialist and this and that and you know all that kind of a people, like hitler-ish type. All this is nothing but is a kind of an intoxicant which makes you forget the reality, that you are a human being, that you have to become the Spirit. That you are the Spirit is the reality.

Now the present trend in the Western life is very much set in this country about which I am very much concerned. I have talked about [this] to many people in person and also otherwise, that the quality of the mind, because we are with the English, let's talk about the English. Quality of mind of English is excellent, I have said it always. And the young people of England have a very good quality of mind. But their heart is like this. They are frightened of what? God alone knows, but they

are frightened. Or they have taken this course? I don't know. Now to do any work, also they are frightened. Supposing we put this colour, then it may not match, it doesn't matter. What does it matter? Because of those previous ideas they are so frightened of doing anything. Though they say they have broken all those ideas and they have taken to new liberated ways and all that. But this liberation is also another madness in which they're fear has not gone.

So the quality of mind of we the English Sahaja Yogis and English people is excellent. If you talk to them you will think you are talking to a scholar, I mean no less than Shakespeare! They could be very well read. They will know about anything you ask them, “What is this road?" “This is the road!" “Now, what is the name of this road?" “This is the gentleman." Who was he, his grandfather, what he did, what was the gossip about him, scandals, everything! You can get everything from them. They know everything about everything.

Sometimes I'm amazed the way people know about things, about all the details as to how many women he had and how many wives he divorced and what he did and where he went and what he wrote. Take anyone! Take a writer, or take an artist, take a hooligan, or take a robber or anyone who has appeared on the newspaper as if they have drunk all the newspaper into their memory. The whole thing is so clear-cut in their mind that it's sometimes amazing. But if you tell them to fix one chair, never trust that chair! [Laughter.] Never trust it. If you ask them to do anything, they'll tell you, “Alright, tomorrow at 7 sharp, I'll be there." Even if he comes after

seven days, thank your [lucky] stars. I have known people who have done this to Me [and] now it's four years, I have never seen their faces again. They are supposed to be XYZ from Oxford and ABCD from Cambridge. They have got first class first and this and that [but] if you go into their rooms, you will find it's a pig sty! You don't know where you have landed. I mean, you don't believe that it belongs to any educated person! There's no sense of responsibility left in their head. I mean this energy that is working in the head, if it is not put into a responsible channel, no wonder, we find every third person is a paranoid, something wrong with the brain.

What is wrong with the brain is that so much energy is here and you are not channelizing it at all.

By what ways are we to channelize it? Even after realisation, I find people have no respect for anything.

Sometimes it's most surprising that with all this brain activity going on, they get all the satisfaction from the Spirit, they are raising the Kuṇḍalinī and all that, but they have lost that capacity to be responsible.

And that's why, in Sahaja Yoga also, they are not responsible. This goes on not only about their own private work but about Sahaja Yoga, about everything.

So this quality of mind has no heart. It has heart in nothing! Supposing I am telling you something, I don't know about Sahaja Yogis as such, but now I have seen with people, [if] you give them a lecture for one year, one hour, it's lost, finished! They are just the same! What has happened? It's only the vibrations, it's only how you work

it out that the life changes and all that, but as far as they are concerned, nothing is recorded in the memory.

Sometimes I feel how do I talk? Is it too much on their heads or below their feet? Where is it flowing? So the reason is that the heart is not there. If you register it through your heart, you will do it. If you put your heart into things, you will do it. The heart is, as I told you, is chicken-hearted, is absolutely chicken-hearted. And that's why, this is what is lacking in our character. For that now the stage has reached [that] we have to raise our right side, not the left side. Our right side is absolutely finished and there the leader of the right side are two persons.

The Deities are two persons. Of course Brahmadeva is the one who is The Creator, who has created this Universe and who is The One who is busy still creating and doing lots of things for you people. But I would suggest that we have to pay attention to two ideals we had in the history, for this, to understand what sort of ideals we should have. Because the right side is a Rajo Guṇa is the one by which you become majestic, you become royal, you achieve all the Rajo Guṇa as you know that.

Now two persons are really to be followed in this. One of them is Śhrī Rām. Śhrī Rām resides on the right Heart and is the Father. He is the Father and He is the fatherhood. He is the one who came on this Earth to teach us how to be a father as a king. He is a Father King, He is a Benevolent King, which was described [by Socrates] before Plato. He is the Benevolent King. He was the ideal that came on this Earth to teach us how to be

responsible to others, how to respect others, how to understand the feelings of others. To such an extent He went, that He had to sacrifice His own wife for the sake of His own state.

He did that and He had to ask His wife who was pregnant to go and live with a very great sage. One may say that, “What was He doing about His wife?" She was the Goddess. She was so remarkable that He was not bothered about Her. He was so sure of Her powers that He did it. And there is nothing wrong in leaving things to the Goddess to do, instead of meddling with Her all the time. But this gentleman Śhrī Rāma understood the responsibility of a king and that responsibility is lacking in us. That responsibility towards ourselves and towards others.

It is very, very surprising. I mean I came from India. I had never met Englishmen at this close quarters till I came to England, I should say, because before that all we met was missionaries. All missionaries were terribly responsible for converting all the people into Christianity. They would get up early in the morning, take their Bible, go around to all the places, clean all the dirty lanes and clean all the children like Pickwick Papers, you see! Clean all the dirty people there, kiss them and do all impressive things to convert the people. They would go even to the forest to convert them. They were so responsible about it that they felt they have to do it, this is God's job, they're doing God's job, they must convert. And they went on with this and that's how, some of the people I met. Then the rulers, the rulers are extremely responsible. They were ruthless and they thought this was the greatest

thing they were doing, was to spread British Rāj and that was their responsibility.

When it comes to spreading God's Rāj we are not. First of all in our own life, we should see, “Are we responsible?" Now, in the modern time, I find that we have got rid of that sense of responsibility. It's called as a sense of diminishing responsibility. We'll just say, “Yes, yes, I know. I shouldn't. I know, I know." I can't understand. If you have a heart, how can you say that? That, “I know I should not have done it." “I know, I should have been here." The reason is, there is no heart and the heart always catches when your right side over acts. That means your brain is acting too much and there is no real action the output of it. You think too much and do not put it to practice. “I should have gone” “I should have done this” “I should have said so” and this is the problem with our right side.

Now, among our Sahaja Yogis also, I find people have the problem of the right side. To worship the right side, we have to see to Śhrī Rām: How He felt responsible for the whole world. How He use to look after people. How He looked after the things of other people. How He behaved towards other people.

That's a very important thing which we have to learn. But I find people coming, if it is somebody else's, they'll throw away. They will just jump into something and say that, “Alright, this is my house I just settle down here, the way I like." There's no sense of responsibility at all about it, that you have come to somebody else's house, you have to have some care about it. In the same way you have to know you have come in the World of God, this is

the Kingdom of God where you have entered. You have been a stranger. Today you are a guest in His house, what are you doing about it? How are you behaving? Are you responsible? Are you like Śhrī Rāma who took up Himself all the problems of the world and still He was so responsible? He would not do anything even this much to disturb a person. As far as possible He would like to try to console and to have the formalities of good living. Formality is meant for good living and good understanding.

Unless and until you have this sense of responsibility, your collectivity cannot be alright. You cannot be collectively alright. You need not be a machine for that. There is no need to be a machine, like Japanese, only one person says, the another doesn't talk. But this one kind of a funny individualism that you have got will never give you that collectivity that is expected of a Sahaja Yogi. We all have to be one, being responsible for each other. Not only for one or two persons, because he is my friend, he is my husband, she is my wife but for all of us. We have to be responsible for them, for their things, for their children, for their house, for everything. We have to be responsible. And if this sense of responsibility is lacking, how will you have responsibility for your Self-realisation? Only it can be a self-centered thing, thinking that, “I'm very much better, my powers are better. I must have more powers." But if you do not have this sense of responsibility why should God also give you powers? The main thing is your right side is completely lacking. That is the Sūrya Nāḍī, that is the Nāḍī which is called as the Nāḍī by which people hold their Prāṇa, so it gives you the

PrāṇaShakti. It's the PrāṇaShakti within you which is the vital force of energy within you, which is lacking.

Now this lacking is added up by your heart. At least for a man like that whose PrāṇaShakti is exhausted.

At least for such a man if the heart is there, he can really use that power which is accumulating in the head and exhausting him, like eating up his brain, if he has the heart in it.

Now this is what I have told you last time that the right side of human beings is very important when it comes to Sahaja Yoga because when the Kuṇḍalinī rises, your right side is also, right side is also awakened.

Now the question is: why Sahaja Yoga does not spread in England so far? Is a very good question [which] any people have asked Me, while in Australia it's spread so fast. The reason is the right side is missing. For the right side to be awakened, first of all there should be some right side! If there is no right side, what do you awaken? If there is no light at all what are you going to awaken? There has to be a lamp to be awakened.

So all these topics and talks that we have in the society, “I know! I know!" and then you ask them they just say, “I know!" “How are you?" Like that. All these accents and all that, one should give up.

One should know that you have to be responsible. That's a very, very important thing of life. I personally think, unless and until you feel that responsibility, that heart, into Sahaja Yoga, you will enjoy just My talk as you would just enjoy anything else. Real enjoyment comes when your Spirit really blows out the vibrations. You are taking My vibrations, alright, you are feeling them, but what

about yours? Are you blowing your vibrations out or they are just taking your brain. Simple questions is, are you blowing any vibrations outside? We have some Sahaja Yogis when they just enter into a house immediately everyone feels it. Everyone can feel it that somebody has come. Immediately the whole thing cools down in no time.

Somebody has come. There are some here also, not that there are none, but they are few people. You have to blow out vibrations otherwise you are just a liability to yourself. Why don't you blow out vibrations? Because you don't feel responsible. In your day to day life, morning till evening, you have to see that you develop this instrument of responsibility within you, otherwise the vibrations won't flow because the main reason is that our nervous system comes to us through our right side.

Our nervous system is built up by our right side. All the elements within us have built [it] up. If the elements are weakened, if the Chakras which are made by these elements, as you know all these Chakras are made by elements, if the pot is weak, nothing is going to work out. You should be able to hold that water of love or you can say the water of bliss and should be able to pour it out to others. Unless and until you are able to do that, Sahaja Yoga won't spread. It will spread very slowly. This is the difference, I feel, between English and Australians, that the quality of mind is thousands times better than Australians.

They are not scholars. I found very few people there who are even graduates. Here everybody is a Ph.D.

or maybe a M.A.D. But they are all very well educated. Despite all that, Sahaja Yoga does not spread out, why? The reason is the quality of mind is good but the action is extremely poor because they're exhausted, tired, you are fighting in the mind. You are not doing anything by which you blow it out.

The right side is what you call the Brahmā's, Brahmadeva's, creation and the Brahma Shakti as they call it. This is the power of Brahma which is flowing through you. We call it the power of the Spirit, it's true. But the Spirit, the power of the Spirit, flows on your central nervous system. If there is the electricity all stored up here and there are very weak wires what can you do with all that stored up energy? The wires have to be improved and for this wire your right side has to be improved immensely.

Every minute you have to be responsible. And this is what is lacking. Then I find when some people who are responsible, they feel extremely hurt. They feel that they should really shout and scream and should do something. They don't know that these are really the saints, they are realised Souls. They are great people, no doubt, but their right side is weakened. But that is not a great thing to accept, it is a very bad thing. But that does not mean you should feel guilty again, I am saying. Because very nice! This is the way you manage is to feel guilty. Because feeling guilty is the best way, “I'm sorry, I'm sorry. I should have done it. I know, I know, I know!", finished! Then how can you improve? If you have a pouch here filled up [of guilt in left Viśhuddhi] all the time with responsibility denied, all the junk you have created out of

that, you are pushing into that pouch and then you say, “Yes, yes, I know, I should not have done it!" Now what can you do? As I Mother you can't say `You hang yourself by the nearest tree!' What do I do? But I just look at you flabbergasted, I said, “Really?" “Yes, I should have done but I haven't done it." For example, I should tell somebody you better cook for ten people, they are coming and the person says, “No, I'm sorry, I forgot, I didn't cook." You are doomed! You cannot hit him with the back, can you. What to do? That's how you are at a standstill. You really don't know how to deal with them! The point is: in all this talking of Spirit and God, one has to know [that] the vehicle has to be better.

The vehicle is so very poor that it cannot carry, otherwise you will emit vibrations like this. I know you can. Wherever you will stand you'll attract people. People must gather round you! You'll be amazed, I went to Australia for how many months? At the most a month or so. I came back from there. Already seven centers have started and every centre has got at least three hundred regular people coming! It is not to feel guilty. I'm not saying [for that], but to awaken yourself, to arise to this point, to be elated with understanding that you have to rise up to that point and that you have to take up that position because you are the warriors of Truth. You are the people who are seekers, you have been for ages and you have no business to be irresponsible. You have to do it. It is My earnest desire that you understand what I am saying.

Just sitting, meditating, putting hands towards Me or towards the photograph is not everything. You are still

receiving. You are still at the receiving end. You have to be on the giving end. How will you do it? You get so many vibrations sometimes that you cannot feel after some time. It's so filled the pitcher is so much filled. But what about pouring it out? Why you cannot pour it out? The reason is that the vehicle within you, which is the right side, is the Piñgalā Nāḍī, is out of gear. And this is what one has to understand. That can be built up only when you know about Śhrī Rāma's life, the way He led His life.

Every minute of His life was dynamic. Not a single minute He wasted in life. Every minute, whether He was in the forest or? He went to a place with His wife when He was in exile and there, He knew His wife was a very shy lady and She would not take Her bath in the open, so there's a rock which is completely honed out, such a big rock honed out [a place called Sītānani near Rahuri], can you imagine? Inside, there is a water tap sort of a thing coming out, there's a water coming out.

So that there's stone here, stone here, stone there and at the end of it there's a opening so that there's light coming from this side, light coming from that side but inside nobody can see. There are trees with which it is hidden. There are trees like which are called as shikakai [used as hair shampoo] means that its kind of a soap giving trees are created by Him for His wife.

Anywhere He lived He created a new dimension, a new house, a new style of life. Of course He was an incarnation you can say. But He is your ideal and not those people who sit out for hours together drinking something and thinking they are great martyrs. I see all

of them sitting near our church here and one of them was asked by someone who was passing by, “What are you doing?" “We [are] killing ourselves!" Very proudly to say that! I mean I just don't understand, what business have they got to kill themselves? How much time it has taken God to create them? And here they are sitting and proudly telling that, “We are killing ourselves!" [Laughter.] This is the situation in which I suddenly find Myself.

So I ask you what should I do? How should I do? You have to feel responsible in every way of life. But you do not think that there is anything wrong if you are a hanky-panky person. If your feathers are falling everywhere [you think] it's alright! To you it really does not matter but to the Divine it does. That means a person cannot convey the message of God, cannot emit it, the bliss of God, cannot pour that love. We have to become very responsible in every day life, I'm not saying that in Sahaja Yoga, but in every day life, how you live, what you do. Are you only worried about yourself or you are worried about others? Are you responsible for others? I mean the modern style is not even to wish good morning, is regarded bad manners. You see it is bad manners even to open door to someone, is bad manners, they think it's slavish. I mean, all manners and all those things, all responsibility, seems to be [regarded as] slavish. And this kind of these modern ideas that are floating in the air, you should throw them away! You have to be human beings of a very great quality. You have to be people who have created new worlds. You are going to create that, I know. You have to just rise up to

that point and not to sink into your guilt's and say, “Oh God, what we have been doing?" No! Awaken and arise and get it what you have to do. That's what I feel about England.

England is so great and it's the heart, it's the heart. And look at the condition of the heart! Your heart is so weak. There's no heart to anything. Alright, you love Me and I love you, but what about you loving others? And loving other things? Loving doesn't mean writing love letters. Doing something about it! And that's what, the doing something is missing and lacking. And that's what we have to build up our right side properly, into proper shape. If we have to really do the cooking we have to know how to light the fire within us and not to sit down and worry how to do it.

It is a very great thing to come to England for Me, really, for one reason that this is the place where Sahaja Yoga is going to work out. It is going to circulate in the whole world, I know, through you people.

But if you do not improve the communication wires of yours it will become completely stagnate and the responsibility of this stagnation will be on you the Sahaja Yogis of London, because you did not put your life together, that's why it did not work out. It's a tremendous responsibility. Of course, to be responsible is wrong for wrong things but not to be responsible for Divine work, when God has blessed you with Self-realisation, is absolutely against God, against your Self, against Sahaja Yoga.

The other personality which I was talking about is Śhrī Hanumāna. Śhrī Hanumāna is such a great powerful

personality about whom I did not tell you. That, I mean, Rāma once, you see, His brother was hit by an arrow. And Rāma told Hanumāna, that, “Why don't you go and get a particular type of a medicine for him and you get it on a particular hill, mountain, so you go and get that particular thing." So he had a power, he had nine powers, navadha Shaktis he had, nine powers, by which he could become small, he could become big. And He could lift anything. He had lots of powers like that, so nine powers: anima, laghuma, garima, like that. He could become so heavy that nobody could lift him [garima]. I mean these are the powers he's got of the right hand side. And so he went down to that mountain and he couldn't see that anywhere, he just couldn't see. He said, “Why not take the whole mountain?" He took the whole mountain on himself and he brought it to Rāma and he said, “Now you select whichever you like!" He could have come back and said, “Oh, I can't find! I am sorry, I know, I have been useless!" If he was an Englishman! But he said, “Alright, if you want!" He brought the whole mountain, “Now come along have it!" In every way of his life, you see his sense of responsibility and how He carries on.

For example, he was sent to Rāvaṇa and he was asked by Rāvaṇa that he told him that you cannot stay in this place, why did you come here? Actually, first he was, he went to Sītā and told Her that, “Śhrī Rāma had sent Me” and he showed the ring. And She recognized that was the ring of Her husband. And he said, “Mother if you want, I can take you on my back." But She said, “No. Already you see I am a woman who has come with another man.

And I don't want to have another bad name and you'll have a bad name, so I will not come.

So it's alright. You can go back and tell Rāma that I am alright. You as a husband, come and fight this man. Otherwise I'm not going to come with you." So then he was caught up and taken to Rāvaṇa.

Now Rāvaṇa said that, “You are a monkey and what have you come to do it?" He said that, “You better release His wife of Śhrī Rāma and He is such and such." So He said that, “You monkey, you are telling me this?" “Alright” he said, “burn his tail." He said, “If they burn my tail, I know how to use!" He knows how the responsibility of the tail is! He started burning the whole of Lanka with his tail and he could have said that, “Alright he burnt my tail I better run away! Why to do such a thing? You know, better avoid, get out, forget it! I am not going to go to Rāma, he has burnt my tail, tomorrow he will do something else." [Instead] he burnt the whole of Lanka, the whole of it he burnt till Rāvaṇa had to say, that, “Please forgive and go away." He did all kinds of tricks to show that he was really powerful.

His so many ways of his sense of responsibility and his dedication and love is expressed. But, they say that, even if you take once his name, whatever work you want to do, it can be done. Any work that you want to be finished will be done. And his day is a Tuesday. On Tuesday, if you request him for anything, he will help you to do the work. But it's not like this that you sit down, “Now come along Hanumāna, will you please do this job?" [Laughter.] But if you are doing the job, then he comes to help you. Means that he activates, he activates

and he makes your energy flow into that direction that your work is done.

He's so helpful in so many ways that you can't imagine.

Our so many Sahaja Yogis have tried it with that and he has created such miracles. Specially the Australians, somehow they have such a feeling for him, I know the reason, but they have such a feeling for him that every time, anything happening, they tell Hanumāna, “Hanumāna, now please look after us!" And they have told Me that such miraculous things have happened since they have been using Śhrī Hanumāna. But you must have the vehicle to carry this Hanumāna! He's a very subtle Deity within you and if you are irresponsible, he hates such people, he hates, he just can't bear it. He thinks they are absolutely useless people! He doesn't pay attention to such people, those who are not responsible. They may give any excuses, they may show off, they may do anything, [but] he just doesn't care for such people.

He has no love, no respect, no attention for the people who are not responsible. There's a very nice English saying, “God helps those who help themselves." English language has so many beautiful things in it, all it's nursery rhymes and everything. I wish people would not just utter those sayings but do it. They listen to Me but they don't do it. Now you have heard Me today you should see how much responsible you are.

Now we had our first ashram and if there are others, please excuse Me, because it is an open thing and we have to talk about it. And I was surprised that in our first ashram, when I went there, I was amazed! I mean, young

people living like pigs! I couldn't understand. I mean, they are not hippies, they are not taking any smokes, drinks, or anything. They are so irresponsible! They go to the bathroom, they come out as if a bull in a china shop has entered it! They really live like that, I was amazed! How could they? And they were all graduates, M.A.D.'s, Ph.D.'s and everything. I was wondering, “What has happened to these people?" Slowly, slowly they improved. But this lot went away and a new lot came in and a new lot came in. And it's so surprising that once they become responsible and good, somehow or other Hanumāna takes them out, they just get out of it.

Now I have to tell you to determine today to decide that every moment and movement of your life you are going to feel responsible as Hanumāna does. Any work that you are doing, about Him it is said, “Har kārje karne ko, tat par." Means for doing any work, he is just ready! He is just ready! You tell him anything, he is just ready to do it. It is his quality that you should have. And that quality is so much lacking today in England. All your strikes, all your problems can be solved.

First time when I came, I was surprised, I asked somebody, “Are you working?" He said, “No, I am successfully unemployed!" I said, “Really, you are successfully unemployed so how do you eat?" “Oh, we get our doles." “Oh really?" “We have securities." What a security, it is nonsense, you are parasite! There is no self-respect. Leave alone the respect of others, there is no self-respect. I was amazed! Then I told them, “All of you have to take to work. Anybody who takes to doles is not going to stay in the ashram." I wish your government

can take some note of it! That we have to create responsible citizens. In England itself, we have to show that by Sahaja Yoga you have turned the tables, you have got smart people, now efficient, responsible. This is what we have to show. Once you show this to others, people will be amazed at it! With other's money, the same thing. If you can get hold of somebody else's money that's the best thing! Is a very common feature.

First time the Sahaja Yogis went to India they came back here, they never wrote a letter back thanking them. And I was amazed. For six months, I said, “What are you doing?" “I know we should have written.

I know we should have written." “Then why? Why didn't you write?" No responsibility! What is this, I could not understand it.

Gradually they developed and developed and developed. Now they feel. But those who have started feeling are the matured Sahaja Yogis I should say. But others who are coming to you, must know that you have to have a sense of responsibility.

Sometimes people who are realised have a feeling, “Oh, now we are realised!" No nothing! “Settle down, have the bliss of Mother. Sit down and enjoy it." Nothing doing! It will stop! You have to be able to give this to others, you should emit. If you cannot emit those vibrations yourself. If you are enlightened, you should be able to give light to others. You can raise the Kuṇḍalinī, alright, but what about your own personality which is so irresponsible? Which is nowhere near Hanumāna's. This Hanumāna style of complete obedience to your being, complete emission of that love that you have received, that Divine

Power you have received. Unless and until you achieve that state you should not be satisfied with your Self-realisation.

Self-realisation is only complete when you yourself become the giver of light. You the Guru, you the great stars. That's My ambition. I know I expect [a lot] sometimes from My children. And I want them to understand that I want you to be really honoured in the Kingdom of God as great sons of your Mother.

May God bless you.

Left side also, you know that, but keep it up. I do correct, by saying all these things. I do awaken Hanumāna and Śhrī Rāma within you, no doubt, I know, but keep them awake, keep them alert.

And you have to be alert and active, responsible and respectable. You have to realise that you are saints, saints of a very special quality. The saints who can give realisations to others! There have been not such saints, maybe, before, nor even today. There are saints who are realised Souls but they don't know how to give realisation. They don't know so much. You have so much of knowledge and everything, except the vehicle is poor. It cannot carry the bliss.

The cup has to be alright otherwise it cannot carry the beautiful fountain of love that is pouring down on this Earth. And that is how you must know that within you this is awakened, keep it awakened, keep it going.

Please close your eyes.

[Continues with guided meditation.]

***Contents: 1981-05-20*, Public Program, Selfridge's (department store, organized by a Sahaja Yogini who was working there), London, UK**

(other date 05-29) The scriptures they have talked about our second birth, that you have to be born again. And it is a vague talk one doesn't know what's that mean, to be born again. For example Christians say you should be baptized. And Hindus say you have to be twice born. Muslims say you have to become a *[UNCLEAR* pink/pir] but nobody knows what is that mean, at least they haven't been able to explain it very clearly.

But if it is written in all these scriptures either they were all wrong or false or there is some truth about it. If there is some truth, it has to be revealed sometime. Now the time has come that the truth has to be revealed. And it's such a precarious time that if the truth is not revealed we are out for a complete destruction of this universe. If the humanity has to be saved, if this creation has to be saved then God Himself has to do something about it. Because He would not like His creation to be destroyed. And the most beautiful thing that God has created is the human beings, perhaps you won't believe it and you think it is not true because our experience may not tell us that but it is the fact. It is the most delicate, most sensitive and the most alert being created by God. And if the human beings are destroyed this creation has no meaning.

First of all the human beings must find out their own meanings. They don't know what's their meaning.

Why are you here? Why did they become human beings from amoeba to this stage? What was the need for God

or any natural forces or whatever you may call it, what was the need to make human beings? And because we are not been able to find out our meanings all the problems exist, problems of stress, strain, tensions, then quarrels and then fights and wars and everything are because we haven't been able to find out our meanings. Now as a scientific approach one has to keep your mind absolutely open about it. In the science also when a person is told about something it is just a projection of a hypothesis they put it before you and then they try to prove it, by proving it they make it a law. In the same way we have to see now whether what I say is truth or not and then it is to be proved and if it is proved then one has to believe Me that these are the Divine laws. That's how we keep ourselves completely open to it.

Now he must have explained it to you about what we are talking about. This is the hypothesis. To start it lies within is this power called as Kuṇḍalinī in Sanskrit language. Why in Sanskrit language because India being an ancient country it is not separated from the world it is one part of your world, this is yours and that's the part of it so nothing that it is said in India so it is something foreign to you. For God nothing is like foreign. He only made one world, only we are like that thinking that some countries different that is different. In that country people meditated because they did not have to fight the nature so much like we have to fight it here. Just before coming I had to wear a coat, cover Myself properly because I've taken a bath and My husband would say, “Oh! No you can't go just like that, you have to cover up yourself very

well. It is very cold." This and that but India is a warm country. You can live under a tree, no problems.

And they had lots of support from the nature as such because there was no problem from the nature so these people had much more time and much more, I should to say energy left in them to seek within themselves. And they started seeing within themselves, “Why are we here?" This question started coming to their brains, much before here people thinking about it. And maybe that here also I have a feeling that we had lots of people who thought of it because I see the places Stonehenge and all that, I am sure there exist civilization that people thought of it but the whole discovery was lost.

Now this Kuṇḍalinī is the force that resides in the triangular bone. Now when you try to raise the Kuṇḍalinī, everybody cannot raise it. Like only an enlightened light can enlighten another light. You see a light which is not enlightened cannot enlighten so if somebody who knows the job tries to raise the Kuṇḍalinī in so many people you will see the pulsation of this Kuṇḍalinī with your actual eyes. Now this you cannot do. You can do all sorts of things, there are somebody will say that, “If you do this then you will start jumping on your own." Jumping on your own is not God's work. We can do it yourself with our mind. But something we cannot do it with our mind is, the raising of the Kuṇḍalinī. You see it's rising, you see it's waiting there and you can feel the Cool Breeze coming out of your fontanelle bone area which is the real union, baptism. Now this real baptism takes place because it is a living process, living process of evolution.

So you are created as human beings, a complete machinery, a complete mechanism and then you are put to the mains. And that's how you know your meaning and your working. This has to happen.

If it does not happen how are we to know what are we connected with.

There are people who give theories that you are a part and parcel of the whole but how are we to know? Unless and until we are connected to the whole and this happening has to take place. That's the time, today is the time it has to happen, that's why it's happening, thousands of people now all over the world.

I was surprised in Australia, I mean, we had people about six to seven hundred in a hall and all of them got their Realisation. All of them felt the Cool Breeze of the Holy Ghost as described in the Bible as well, in all the books it is described that you get the Cool Breeze as the indication, that's called as Rooh in, say, in Koran it is called *[UNCLEAR* as a Rooh] as the Divine power. This you cannot do, you cannot do this by your mental activities or anything, you cannot do it, it's just something beyond your mental activities comes from Divine that's within you, that's the Spirit that resides in your heart.

This Kuṇḍalinī rising has been described in all books and later on so many people, Germans and all these people went to India and they have written very big books about Kuṇḍalinī but without seeing yourself, without getting the experience yourself, if you start writing something about it, it could be something very funny. For example, now I've been to Selfridges before also many a times. I came here in 1965 to begin with and when people told Me

about Selfridges I had very different ideas till I came here and saw the place Myself. In the same way unless and until you have the experience yourself whatever people talk is talk, talk, talk, talk, talk and this talking is not going to help us. You have to be there. You have to experience it and you have to get it. Unless and until you get this experience you cannot know what is it like, what it means, what is to be Self-realised.

Now what I said is that it is not talk, you cannot pay for it. You cannot pay for God, that's one thing that way everywhere they take money. I mean there is no place where they do not sell God, I am yet to come across were people do not take money but really you cannot pay for God. God doesn't understand money. He doesn't understand. It is all your own doing, money this business and all that, it's your own.

For God, love is everything. He loves you. That's why He has created you. He loves you that's why He wants you to have Realisation and to achieve that consciousness by which that you know Him, that personality by which you flow His powers through you that you are empowered to feel His power flowing through you.

So you cannot put in any effort either because what effort can you put in for a living thing? For example, there is a seed, the seed has to grow. It grows spontaneously. You cannot make it grow. You cannot, stand on your head and say now the seed has to grow, as soon as you put the seed in the Mother Earth She just sprouts the seed. It's all built in it. In the same way the whole thing is built in us and the whole thing is like this in a subtle way within us built. Now these subtle centers

give rise to the gross sub plexuses within us which work out all the physical side and also mental side. When the whole thing take place, automatically as a by product you will feel better physically, mentally, emotionally.

Now for the last ten years I have been telling people that cancer only can be cured through Kuṇḍalinī awakening. There is no way out. But people have believed it. Those doctors who come to Me who got cured and who talk about it that we got cancer, we got cured, they say, “Oh, he's gone mad, how can it be because it is a very *[UNCLEAR* machinery] thing." You can't think that you can't be cured by not taking money. I know doctors would accept the situation where he does not take any money for curing people. It is very funny attitude of people that they want to make money out of all these gracious things that God has given us but you cannot sell this Divine Love and when this curity takes place people are amazed how this happened. Mentally you feel absolutely relaxed. There are many people who are suffering from mental troubles in the Western countries especially because of the stress and strain of the family life in the society. In India we have problems more of physical. Here we have problems are more mental and these mental problems can be solved if the Kuṇḍalinī could be awakened. We have got people with us, if you can come any time to Caxton Hall you can meet them who have been cured of their epileptic trouble with Kuṇḍalinī awakening, even they, the door keeper of the Caxton Hall was suffering from epilepsy.

He got completely cured. But it is not for curing you should come. You should come for getting your own

power, power of your Spirit which resides within you because it is your own, only thing what I do is just enlighten you because I am an enlightened light and when you are enlighten you can enlighten other people. Like a, say, we can say a candle has everything in it. Only thing another candle just goes near there, which is enlightened enlightens.

So there is no obligation, there is no any gratitude about it. It is just a very simple method by which it works out. Everything that is vital, everything that is important has to be, has to be absolutely simple because, supposing we have to pay for our breathing half of us would have finished in a second or we had to make any effort, we cannot read about it either. I mean if you read something or talking to you something, it is not the way you can get it. It is the way it happens. It's a happening. It has to happen. You have to become. It is not just a brain washing that I give you a brain washing, all right. It is not that. It's the happening, it should take place, the sprouting has to take place.

Once it takes place you know you have got it.

But after getting is the main problem. Once the thing sprouts, it's like a small little seedling, just now Don told Me there are five, six girls got their Realisation here, the sort of you see they go up and down and they got lost. But I have seen some great seekers in this country, very great seekers who have come to Me, got their Realisation, they settle down. They have mastered, they have mastered completely the art of raising the Kuṇḍalinī and giving Realisation and this is not their profession or nothing, they have to earn their living as you are earning

but this is something God's gift by which you become that consciousness by which you feel others. It is a collective consciousness that you can feel of other people, sitting down here you can feel what's wrong with her, what is the center that's wrong. We don't bother what dress you are wearing, how you look like or how you talk, of from what race you come, what country you come, nothing matters. What matters is where are your centers, where is the problem, in what center.

Supposing there is insecurity in this region you feel insecure then there is one center, that one, the blue one that you see there, that is in danger. If this center is goes into a greater danger of insecurity, such woman can develop breast cancer. The center that is down below you see there is the center that is, responsible for our evolution, also this center is very important if a person is fanatic. Now you won't believe that the fanaticism gives cancer, you will be surprised. If you are a fanatic [a (lift) bell sounds here] about something you may develop a very serious type of cancer, it can be only cured if you accept that all the religions are the same and the people who were born in those religions are all related to each other, we are only fighting, while they are all related, they all help each other, they are all connected to each other and you can find out their integration completely within us.

Then no conflict because it is such an absolute knowledge that even a child, say about five year child or two years old child who is a born realised, there are many now in England I have seen so many children are born realised. They all say the same because you feel

them on your fingers and if you ask them now what is the finger catching they will immediately say this one or this one, this means that center, all of them will say the same thing, they can feel it, they sort of a burning sometimes or sometimes you feel a little *[UNCLEAR* chart] in there or sometime you might even feel a little tingling. And the children know which finger is catching and they say these are decoded and you can verify it. Like somebody talk to Me on the phone the other day I said, “You have very bad liver. What is the matter with you?" He said, “How do You know?" I said, “I know because I am catching on the centers which give you the liver problem." So I said, “I know that." He said, “Yes, I am suffering I really telephone for that only to you." I said, “All right." Then now I told him what is to be done about it. All these things can be overcome; you can enjoy very good health apart from that all your habits.

Habits come to us because we get bored. You see all habits are there because we are bored of life.

We don't know what to do with ourselves. We have too much time.

So once you find yourself all your habits stop automatically. I mean, we had people first time six people who came to Me, out of them four of them were hippies and they were indulging into a very serious type of drugging and next day they gave up, just next day after getting Realisation they just left it. They don't want it anymore. Because they started enjoying themselves, very miraculous, I know of another gentleman who used to smoke cigars and cigarettes and he is about 80 year age at least, must be about 80, now he is about 83 years,

must be about 80 years of age and he told Me that over night he gave up, over night, next day he gave up. And he said, “I just forgot what. I just forgot that I have to smoke." Now we have French, also from Algeria and there is we have French from all over the world.

Now whether you are Hindus or Muslims or Christians or Russians or anything this can happen to all of us and once it happens we know that we become part and parcel of one God. We are all children of one God and we have to understand, unless and until we understand this we are not going to be happy.

We are not going to live happily. And there are going to be problems and problems. The world is under shock now and they think that tremendous things can happen to us or horrible things can happen to us and they are very precariously placed now. But God is alert, nothing can wrong. He is there to help us and I'm sure one day will come when so many of you will be realised Souls. I mean this is the last chance I should say because this is the last judgement. The last judgement has started. Now how God is going to judge us? Let's see, is He going to put us into any measuring weighing machines? He is going to only judge us by raising our Kuṇḍalinī, *[UNCLEAR* years it has started years full time] correct yourself to be all right. You will be all right and once you are all right, once your are place in such a situation you start enjoying yourself.

Now it is nice to see young people from Reading, especially from Reading I am surprised. Young people have very good quality of mind and that they do feel we have to do something about it and we gone too much

head along with this mechanism and this and that whether it give us joy or not. But any extremes are not good but by telling anyone is not going to work out. One has to work it in such way that they find the meaning of their life. And they automatically they start enjoying. They start enjoying themselves because you are nothing but your Spirit and the Spirit is the most beautiful thing. It is the most beautiful thing and once you have that state, a glimpse of that then you start enjoying yourself. You don't want anything else but enjoy yourself and then you develop that respect about the glory that you are! But it has to be executed, it has to be manifested and it has to be retained and it has to be established. If it happens I have seen people getting it and they are such beautiful people.

So beautiful that you can't believe it that the same people who were just standing on the streets and misbehaving and such destructive things have become beautiful souls. And such joy to their parents and to all.

May God bless you! And now if you have questions ask Me. It is a very, very vast subject and I must have spoken, I don't know how many, hundred of times in London, it. Ah, apart from abroad and I would like you to ask Me questions. It is remarkable that to give a lecture like this I should come to a store, that I was saying that it's a store. It must be unique for Me to come to a store. I am very happy because I have respect for this store and a very well known store for a long time and the first store I visited when I came to England was Selfridges. I have a feeling for it. I am very happy that I can come here and

talk to you people. I would like to have some questions from you.

[Aside:] Can you give Me some water? Question: Rāja Yog and meditation is it same or no *[UNCLEAR]*?

Shri Mataji: I'll tell you Rāja Yog people are preaching about is something very outside it is that you do like this and I mean there are Bandas and all that they use, have you done any studies in Rāja Yog? No, then I would say that you see, they would talk of creating a situation, for example, Rāja Yog can be very dangerous because they cut the tongue down just like that put it back into the throat and they say this called as *[UNCLEAR* Kechari]. I mean like putting your tongue back into your throat, if you can get caught, I just can't understand, how can people accept it. People have accepted it and I've seen those people doing Rāja Yog with their tongues back. In America there are so many like mad people, I mean one must understand that these things cannot give you God. You see this is how in modern days they have started all sorts of things. They say, “We will teach you to fly." Now you want to become birds? Why do you want to fly, I just don't understand.

I mean, it's absurd, to fly also that's another thing this Haṭha Yoga people talk of. Now Haṭha Yoga was actually originally practiced in, I should say thousands of years back when Patanjali was there. When the system, the whole social system was different, where the children were sent to school.

Some children were selected who were seeking God and they were given instruction and these so-called the Haṭha Yoga that we do these days is exercise, just a wee

bit of it. But we also do exercises, we teach people some exercises but depending on what center is catching. For example, we are suffering from this center, now if you start doing all the exercises, how will you cure this center? Isn't? You have to know this center you are catching which is the problem. Unless and until your Kuṇḍalinī is opened out, unless and until She is awakened you will not know what center you are catching. Now doing all these exercises means that you are taking all the medicines at the same time without knowing what's the problem is so it is absurd some of things has come out of Haṭha Yoga. Actually in real Haṭha Yoga the first thing was called as Īshwara pranithar means first of all the discovery of God, or you can call it establishment of God, means Realisation. The first is Realisation and then other things were there and a very little was there with that kind of language celibacy is most important thing.

Now that's over. Let's see the modern times are there. We have to have something as you have got we can say, everything is a *[UNCLEAR* mystery/very discreet]. We have to have something that should work out en masse Realisation so many must get it, otherwise nobody is going to believe Me or believe any one of them. Supposing if I was born on the 10th floor I am telling people I see that and I see this, they say, “You're mad, we don't see that." So let's some people come up to see, all right.

So this is what Sahaja Yoga is. Sahaja Yoga the difference between other, these so-called Yogas, I called them so-called because there is no Yoga, Yoga means union,

where is the union, first they do cleansing they say you must to cleanse your mind, you can do this but you cannot. You cannot do because supposing you try to cleanse your mind you do it through your mind. You have to get out of it you see and when you do cleanse your mind you develop an ego. How do you cleanse, you cannot, so you have to get out of it. First you must get your Realisation. Once you get your Realisation they you start seeing it yourself because you can feel it and you don't like it. When you don't have eyes how do you clean yourself? You must get your eyes then you see and then you can cleanse it, isn't it? That's why it's called Sahaja, Sahaja means born with you, it's spontaneous, it's living, it's a living process. I am talking of living God and not of something that's dead. It is what Kabīra has talked about, this is what Christ has talked about, this is what Mohammed has talked, that's what Sahaja.

Question: What is the proper time for meditation, early morning or evening time?

Shri Mataji: Once you get your Realisation you are in meditation. You see you have to be in meditation. For example, I am in meditation in the sense that for Me it's peace inside, I have no problem, I am talking to you and I am doing everything but inside is the peace established. You are in meditation.

There is no time to be taken out or anything but your awareness becomes different. You don't have to sit down and say now I must do meditation [a bell and announcement in the store]. Of course we have certain things we can do supposing you now meet someone and he tries to sort of say something or you don't like it or

something you feel disturbed or upset because of Kuṇḍalinī awakening we know how to clear out ourselves, you see, through water element, through we have methods how to clear out and that's how you can spend some time within but there is no need to sit down for hours for meditation. You are a different person altogether. You become the Spirit.

So the time is not needed as it is but you become a different person. You see, like an egg becomes a bird. Then you just enjoy. With all the drama finished first you you see are involved in the drama, but then you see the drama going on. There is not fixed time, nothing, you see they are all the time flowering, even when you are in the shops you are enjoying. You are enjoying every part of it, actually every moment is filled with enjoyment but we have lost I should say the sensitivity or we have to deal with that sensitivity or we can say that it has to happen to you. Once it opens out, you would like it, the entire attitude to life changes. This is how you become a saint, actually you become saint. But you live in this world. You don't have to run away if you are a saint you should be the most noble person, isn't it? A saintly person should never run away, I mean if he runs away from the society that means he is not a saint. He is an escapee, escapist. I should say he escapes from life. If there is beauty in life why should he runs away from it? You are just not there, enjoy and make others enjoy.

Any question from you? Question: I think we all want to know how to get there quick.

Shri Mataji: Ah, that's like a Pūjā. This is great. Let's have it. Just put your hands like this...

[Shri Mataji is giving Realisation and continues with working on people.]

Contents: 1981-05-24 **Talk to Sahaja Yogis, Subconscious, Supraconscious and our Correct Ideals, Chelsham Road, London, UK**

Question: What are the curing powers coming from the supraconscious as there are so many people who are curing other people with supraconscious power and what is the difference between this curing power and curing power of the Kuṇḍalinī?

Shri Mataji: There can be two types of curing power. One could be those who get the power of the collective subconscious and those who get the power of the collective supraconscious. Both can cure depending on where the problem is. For example a person with the power of the collective subconscious can cure problems of the left side. And a supraconscious person can cure the physical side.

We have two types of people in India known as Māntrikas and Tāntrikas. The Māntrikas are those people who go to the funerals and cemetreies and they try to capture the dead spirits. These dead spirits are of the sly type. These sly spirits are the so-called `social workers' or `busy-bodies' trying to help others.

They are in the category of Chaturvarnas or Vishudhras, the people who believe in serving others. They appear to be good people because they want to serve other people and help others and that is why they do not want to die and want to stay around the earth plane. One could call this a `servant class'. They are absolutely servile. They

like to be whipped, beaten up and be ill-treated. They are another extreme.

They enjoy a horrid type of existence, they are masochists. All such dead people are around us and they are left-sided bhoots i.e. very timid and clinging. These Māntrikas get hold of such dead people and tell them to do this work or that work, control this or go there. And these bhoots feel very happy about it as they are servile.

So, if there is someone suffering from a mental problem, for example, someone of his has died then he gets a mental pushback into the collective subconscious and gets possessed. Such people go to the Māntrikas and these Māntrikas tell the dead spirits that you have been troubling this man for a long time and you leave this man.

So they remove this dead spirit and put another dead spirit in its place and tell the first dead spirit that he can get another body to go to. These Māntrikas are the mediators or liaison officers. They catch hold of these spirits and remove them from one man and put them onto some other person.

So the first person is `cured'. For example, there was a lady whose husband used to drink quite a lot. She went to one of the lady Māntrikas who said she will cure her husband but the lady must pay Rs 100 for that.

So she put a dead spirit on this man by which the `bhoot' of the drunkard on him was removed.

So this man gave up drinking but he started going to races. Then she solved that problem by removing the `races' bhoot' and put another one by which he started going to dirty women. Now this lady got frightened. Every

time she would pay Rs 100 and had ended up by paying a lot of money. Then she complained to the lady Māntrika about it. After that she found that her husband was doing all three things together.

So she went to fight with that lady Māntrika, who put a bhoot on her too. Since then, that woman is still mad and I have not been able to cure her. She is a very good looking woman married to a very rich man who owns a factory and this is the life both of them are leading i.e. burning the candle on both ends. This is the case of the subconscious people.

The second case is of the people of supraconscious type. For example `Doctor Lambs International Curative Center'. `International bhoots' he had! You have to write to them that you are suffering from such and such disease. All the dead supraconscious people the very ambitious type i.e. all the great doctors, all the `great' lawyers all the `great' scientists, all the `great' engineers and architects, Hitler and all such great' warriors gather on the right hand side. When Doctor Lamb died he met all his friends there and he could communicate with them because these doctors did not want to die as they had been experimenting with this or that.

So they started Doctor Lamb's Clinic. Now this Doctor Lamb who died lived in London and had a son. Doctor Lamb's spirit attacked an ordinary soldier in Vietnam and told him that he was Doctor Lamb from London and that he better go to his son and tell him that you want to start such a clinic. He didn't attack his son as he knew that his son would not be able to bear him as the son was not

healthy. He wanted a very healthy and sturdy man whom he could possess.

So the soldier went to his son and said that “your father is within me and he wants to open a clinic." The son would not believe it.

So the soldier went into a trance and told him that I have got some money in a secret place kept for you and he had talked in secret about it.

So the son believed and started the clinic for him. He gave all that money for the clinic. And all the `bhoot doctors' were helping this man to act whenever he wanted and an intercommunication was established on that level i.e. the collective supraconscious. A lady who was suffering from high blood pressure, kidney and uterus problems went to them. They told her to write a letter to the Center in London who wrote back that on this particular day, at this particular time we will appear within you and cure you but you must lie down in your bed. On that particular day and at that particular time she started shivering and one of the `dead doctors' entered into her and she got cured.

For one year she was alright. But then she started feeling very dizzy. When she came to Me she was in a tattered condition. Absolutely Finished. She knew that a spirit had come in her at the time she came to see Me. She said and knew that there were at least ten or eleven within her and she could not bear them.

So this kind of curing also can take place from the supraconscious. Supposing there is an architect and he approaches such people he can get the spirit of a dead architect upon himself. Now this Jack the Ripper was

possessed of the spirit of a dead ripper. One hall to have an inclination for such things. This weakness is there within such people, that is why they are easily possessed. Otherwise it does not happen.

Only if you are weak in mind and have weaknesses for such things, then these dead spirits can catch hold of you. If it has something to do with your physical side then the supraconscious can help you. If it has something to do with your mental side then the subconscious people can help you. But they help you very temporarily and then come back with a big foursome.

But Sahaja Yoga makes you so powerful and so pure that impurities just fall out. It is a cleansing force.

It is a very different thing where your intention is not to cure but as a by-product people get cured. Now many dynamic things are happening. In Australia I met an Australian couple who were journalists and the lady was the president of the Journalist Association of Australia. She could not conceive. Doctors said she can never have a baby. Still they kept having tests done as the husband wanted a baby very much. But after coming to the Sahaja Yoga she conceived after about fifteen years of marriage. Now her entire idea of life has changed. First she indulged in all kinds of therapies. She was a Catholic to begin with and then went to different Gurus and tried different therapies. She overcame all that after coming to Sahaja Yoga.

Now she finds the answer physically for I have made all bhoots get out of her. Now she said she is going to expose all such people. I told her that if she could write what these people are doing she would be able to show

that this is madness. And once you have talked about it then you can prepare a base for Sahaja Yoga and then show that this is the reality which makes you sane, powerful and loving. Then only people are going to get convinced. Sahaja Yoga achieves miracles, on the material level, on the mental level, on the emotional level and ultimately on the spiritual level. You are all endowed with such tremendous powers for you are realised Souls and if you want to give realisation you can. For example, this lamp which is enlightened may be unclean or may not be good to light but once it is lit it can enlighten others. Similarly your Spirit is pure. But we have to fight all these `bhoots'. On the unlimited I am working very hard. That is how they are exposed. But on the limited you have to work hard to fight, you should prepare yourself to fight these evil forces for they are the ones who ruin your own being. There will be a big depression coming on and people will just obstruct it. They will trouble you like anything. But you have to fight it and for that you should be evolved. It is strange that all great people, children of God, men of God, are born more in the west than in the east. They have been born in countries where there is a lot of affluence and they do not have so much poverty and troubles and these are the very people who are lost. For, the modern concept of life is to make something that can be demolished very easily. We should realise that the reason for this is that our foundations have been made very weak by the Satanic forces and they have built it since long. That is why our ideas are very weak. In the west if you observe the behaviour and lifestyle of the kings and the queens and

the kind of life the people lived was so debased and horrifying. Even what the so-called `religious' people and the Catholic churches did was so horrid that these very foundations were shaken. Now you have to rebuild your foundations. You have to lay new foundations for Dharmic life. You have to absolutely accept the Dharmic way of life. That is the only way to make your foundation strong again.

In India the foundations are good especially in Maharashtra, but the yearning and aspiring is not there.

For example, an aeroplane which is so perfectly built that it can never fly. And another aeroplane which as soon as it flies goes into pieces.

So one must realise that the damage to our foundation by the Satanic forces is much deeper, much more subtle than what you understand. You have to fight these very foundations.

These horrible kings who kept seven wives etc. are not your ideals. Your ideals are yourself. You have to bring new ideas in the Western countries then only you can change it because you are such a dynamic force. Everyone of you have to rise up and build yourself into ideals and try to lead a life of that ideal within. For this you have to sacrifice. And the greatest sacrifice is that of your ego which makes you so obstinate and hardhearted. Face yourself. This ideal has to be created. One has to have compassion; one has to have love and understanding. Never talk ill of one another. Never. Try to help each other for we are very few and we cannot afford to fight among ourselves, for we are wedded to a

very great cause. We cannot have wrong ideas, we cannot waste our time on mundane things like marriage.

If marriage has to be, then it has to be good and compatible and you must try to patch up your problems. You have to make it a beautiful institution. Do not indulge in small and petty things, for otherwise we cannot carry out this task because we have still a very long way to go in life. These Satanic forces are very nicely built up and very united in these Western countries. They did not bother about India because India is a poor country. The blessings of poverty are that it teaches you to have a proper foundation. The poor are just the same as the rich. The very rich are not your ideals nor the very poor.

You are your own ideal and you have to create new ideals. You are the new presidents of America and prime ministers of England. You are the ones who are great people, so you have to stand up to it, i.e.

people of character, generosity, of hard work and proper understanding. Otherwise you cannot do this task.

It is very easy to study and get degrees like M.D., M.A., Ph.D., but to bean ideal you have to mature. You have to constantly tell yourself that you have to come up and you have to do this tremendous work which is not difficult because you have the source under your command. Everything is possible. Just ask for it and it will be done. But build it up. Even now if you cannot build up your personality and new ideals then when are you going to do so? I am here with all the Chakras intact. It is easy to justify yourself, i.e.

this is wrong or that is right. Finish all this. You have to become That.

So the first is that you change your foundation. We have great people like Shakespeare, Tennyson, Mozart, Jung and tremendous people in this country also. Taking their name itself liberates vibrations. In those countries single-handed they created their ideas and just think how in those countries they must have fought all these Satanic forces.

But who accepts these people? Everyone of you is capable of being like them. Everyone of you has to become a leader. In Poland an ordinary factory worker did that but he was not a realised Soul. He could not communicate with God. He had no way of knowing the Absolute.

So channelize yourself properly, cleanse yourself properly and dedicate yourself. For dedication you have to do nothing but give up your ego and superego. Take these loads off and create a space which is the heart and it will work out. It is easy to kill these Rākshasas but what about the lost souls? Everything will work out for a year or so or even two years. After that I am going to blast them. Before that you should be ready because once I blast them they will come back on you people.

So you should be such top people that you are not finished by that.

It is the easiest thing for Me to blast them all, finish them off. But first they will go to the subconscious and then they will attack you again.

So I want them to live with paralysis, with diabetes, with all sorts of things. And they will live, they won't die. It is a

tremendous task. And I am working twenty four hours, I have no sleep and no rest and you know that. I can see the whole vision very clearly of those beautiful days when we all will be enjoying each other and the bliss of God together. All that I want is that we pull out so many human beings in the clutches of the evil forces for which we have to dedicate ourselves.

Our attention is on too many useless things, materialistic things. There is no end to it. Be satisfied with less. You will be looked after materially also. There won't be much problem.

So don't run after so many things. Just don't have interest in these. It is all trash. You should be loving and affectionate. Once you start giving up the Real you become hardhearted persons. “I have no interest in anything." Then who has interest in such a stone as you? You are the foundation and your children will talk of you, not of these horrible persons. You have to be ideals of love, affection and not of domination and all such nonsenses.

All of you will be the first Sahaja Yogis. You are the ones who are going to change the complete concept of life. New ideas have to be built up. Are you people really aware of your responsibilities? Sometimes you are worried about yourselves only, “Where I am catching? What is happening to me?" It is so self-centered or you are worried about others, “He should not have done this or that. He should not have sat next to Mother." Nobody should think they love Me more than anybody else.

Some people know more rituals, others know more protocol but does not matter. I know the one who loves

Me. The one who loves others loves Me the most. I don't care for you, protocols and rituals. It is nonsense for Me. What does it matter to Me? The one who loves others is the one who really loves Me. I have had all these rituals and protocols and I have no care for these things. It makes no difference whether you say good morning to Me or good evening to Me. What you say to your brothers and sisters is the most important thing. Sahaja Yoga will never work if you do not look after that side, i.e. how you behave towards your wife, husband, your brothers and sisters. That is the most important, thing and anybody who does otherwise will get out of Sahaja Yoga. You know I have thrown out the so-called important people out of Sahaja Yoga who tried to dominate others by saying “this is not good. You should not put your hand there. Don't put your feet there etc., etc." Who can know the protocol of the Divine mother. You cannot bind Me into protocol. You cannot bind Me into anything. I am unlimited. I am detached. To think that, you have Me attracted towards you by your protocol, which is dead, has no meaning. It has to be a living protocol of being kind and generous.

Be beautiful Some are lethargic. Like a husband who wants the wife to work all the time or the wife who wants the husband to work every time. Everybody finds fault with each other. They are not Sahaja Yogis.

Sahaja Yogis are the ones who take it Sahaja. If somebody is not working that person will go down. I will put that person out of Sahaja Yoga. Why did you come to Sahaja Yoga? You are seekers. You have been seeking for ages. Are you going to waste your life? In any case you

have to sleep most of your life. Why not work it out now? In every way be active.

Firstly you become real and very good citizens and with moral values which are your foundation. You yourself judge. You are realised Souls. I leave it to you to judge. You will lose your vibrations. You can become silent. Silence can be from other agencies. Negative forces from the left side of the Āgñyā are giving ideas. You must have your own ideas. “I can't, I go on thinking" this nonsense goes on. Just tell yourself how dare you do all this nonsense of the left side. Those who are left-sided better go for lemon treatment and shoe-beating. Those who are right-sided better shoe-beat 108 times. Get in the center. You should really love yourself, cleanse yourself and be in the center. Never be proud of your ego. “I think this is correct." Beat yourself 108 times. You can be very high handed and then you can have no embarrassment of what you are doing. You can be absolutely shameless. But you are a Sahaja Yogi. You should feet embarrassed about such things. There should be a little `sankoch'. There should be reservations about it.

How can you say such a thing to some one? Why hurt anyone? Āgñyā bloats more and more.

So many are like that. I know where somebody tries to show off, tries to be a Guru and tries to push down others.

“Oh I know Sahaja Yoga. I am a great Sahaja Yogi." Then I make their `ego-horns' come out. You can feel it jutting out of your head. Push it down. This is the sticking point. Though the balloon goes thin, it sticks on. You are all

Buddhas. Buddha is the one who is realised, the one who is enlightened, one who knows. You are the enlightened ones. How can you have an ego? Ego and superego are the greatest enemies. I have seen people who suffer from superego. You push it down and it goes to the ego.

So in the west we have the greatest problem of the ego. Whatever appeals to the ego we run to that. That is how people are made mad by these `Gurus'. They say you can fly, so you have gone into it.

Somebody says you will become very powerful, so you have gone into it.

Somebody says you will become a great Guru and you go into it. But nobody says you become the Spirit and become One with the Whole. When I say you are realised, you are great, you are saints there is more bloating of the ego-balloon. I say it to create that awareness within you. Your ideals have all been full of ego. See Churchill standing there with a stick in his hand. The complete body looks like the ego. We have to form new ideals. He was right for meeting another ego called Hitler.

So it was alright to break their heads together.

But now we need new ideals. The past, is over now. When there is flood you need boats to carry you across. But after reaching the shore you don't carry the boats with you. You leave them behind. These boats are no good for us. They have done the job. Now we have to go ahead with our own feet.

So no bloating of the ego should be there. We should realise that we are in no way exceptional, for only you

are blowing up your ego. You have to be ideals. You have to be in the center. You have to be a Sahaja Yogi.

That is the most important thing. Don't judge yourself by what you think of yourself but what Mother thinks of you. How much joy are you giving to your Mother? If you make Her unhappy then what is the use.

You must have noticed that there are really very few true seekers in this world. And seekers also must realise that they cannot be happy with anything else but their Spirit. This is the test of a seeker and a non-seeker can never understand a seeker. It is very difficult to live with a man or woman who is not a seeker because you catch all the bad points and you suffer. If the person has an ego you catch it on your Āgñyā. Nothing happens to him. He is very nicely off. He has his ego intact and he is torturing you.

But a person who is a seeker is a better person because you can give realisation to such a person and your vibratory awareness can be shared. But to be with a non-seeker can be a very difficult situation. You cannot make a fruit into a flower. In your case you have become the fruit. But you must have a flower around which you can make into a fruit. Those who are entangled with problems like `my father, my mother, my brother, my son' etc. should learn not to get entangled with such problems. Those who are not flowers should be avoided, forgotten and lost. The more you try to improve them the more entangled you will become. They can never improve. I give you a big rope. If they are not seekers then they will never be so and you cannot inject seeking into them. They may become materially well off but they

can never become seekers and you forget about them. You may have to suffer because of them, for if they catch, you suffer. If they have a Nābhī Chakra you suffer. This kind of person is very difficult to change.

Do not waste your energy. Christ has side [said] “do not cast your pearls before swine." You cannot force anybody to become a seeker. There are millions of seekers in the world, so forget about such relationships.

They may call you mad or crazy or anything but they will realise one thing that you lead a much better life than they do. You are much more peaceful, blissful, Dharmic and sane but they won't accept your life.

Play around with them with the understanding that they cannot change. Even if they change mentally they cannot have that urge because to a seeker nothing is important except seeking.

Question: What about the people who are good people, not seekers, but who have got realisation but don't seem to see the significance of Sahaja Yoga?

Shri Mataji: They will go out of circulation. Sahaja Yoga rejects more than accepts. It is a judgement going on. Such people will go out of realisation. You can talk to them of realisation, give them bandhans etc. for, they are the people in whom you could be interested but they are lost otherwise. For example, butter is made out of curd by churning. A little butter comes out and the rest is butter milk. To separate it, a big lump of butter is put in the buttermilk and when it is churned all the butter gets around that big lump and gathers into a larger lump of butter. But some butter particles are left behind. If they

do not stick to the larger lump of butter they are thrown away with buttermilk.

So, those who do not come to Sahaja Yoga and are not up to the mark, will be thrown out. It is a fact but you should have `nirpekshita' i.e. you should have no attachment to such people.

May God bless you.

[Answering to another question Shri Mataji said:] The question is that the psychologists say that mind is limited, i.e. whatever the mind does is limited. Whatever action we perform is done through mind only and this mind has limited energy and so it cannot take you to the unlimited.

So something has to be which i3 beyond the control of the mind, that is the only spontaneous thing. Now see the confusion. But their question can be answered on mental level. What is the basic difference between Divine and human? How to convince ordinary humans of Sahaja Yoga and the Divine? They are doubting you as you are doubting them.

The simple answer is that whatever you do with your mind like shouting, howling, jumping etc. can be done by the limited mind.

So one who is doing is some human agency, some human being and not the Divine. But you cannot make your Kuṇḍalinī pulsate with your mind. The Divine, if it has to do something, it must be extraordinary which human beings cannot do. To pulsate Kuṇḍalinī is only possible for the Divine. It is a living force. Man makes things, dead things. Man can do dead actions. But a living force cannot be activated. What is the need to go

to the Gurus if they make you do the limited actions of the mind. You can always shout, howl and jump without them. But you cannot make the Kuṇḍalinī pulsate.

Divine does something which you cannot do. You cannot make the Cool Breezes flow from your hand.

So, if you go beyond the mind it has to be something extraordinary, something different. The limited and the unlimited are two different dimensions. This is the secret of your Mother's Māyā, that I live on unlimited and do unlimited things. That is how I create Māyā. You can know Me only through knowing your vibratory awareness. If you put your hand on the head of someone nobody can make you shake.

So the Divine force is something that human beings cannot do through their mind. I repeat, you cannot pulsate the Kuṇḍalinī. It is a living force and human being cannot create or generate life. They cannot make the pupil dilate when the Kuṇḍalinī goes up. As ordinary humans and so-called Gurus cannot feel the vibrations you cannot talk of the vibratory awareness to them but you can see with your naked eyes. They cannot make the Cool Breeze come out of your head. This is something extraordinary. What I can do with the limited is make myself. I can also do unlimited. That is the side of the Divine Mother. In the same way you are limited now but you have jumped into the unlimited.

So you can do all these things. That is why you are saints. The things you can do in the unlimited you could not have done before realisation.

You start doing something that you could not have done before, i.e. to raise your Kuṇḍalinī and of the people.

The Gurus, so-called, can shout, howl, jump and do all these things but they cannot raise the Kuṇḍalinī of the people. All other things, we can say, are arbitrary, subjective. Then, you will get your cure, change your mental attitude and all that.

Contents: 1981-05-25 **Quote from the blue 1993 edition of Sahaja Yoga Mantra Book, p.34, UK**

Those who love others are those who really love Me.

Contents: 1981-06-01**, Public Program, The Time of the Seeker, Caxton Hall, London, UK**

[UNCLEAR] that so many seekers are born.

So many of them. They are real seekers.

Contents: 1981-06-04**, Public Program, Improving the Spirit, Friends' Meeting House, 120 Heath Street, Hampstead, NW3, London, UK**

We on Earth understand God with our earthly understanding. We understand Him through our mind, through our imagination, through our books and other things where He's described as such and such.

There is a big mystery, God and His Divine Power. It's a big mystery, mystery for all the human beings and you cannot conceive it, with your limited mind. The working of God's Divine Power is also very mysterious. Whatever we call mysterious means that it is beyond our mind. We cannot conceive it in our mind. His power of love is very mysterious. What we think is love, is not the way He loves us.

Or His power of compassion, His power of forgiveness, is extremely mysterious for us, because we are so imperfect. Because of our imperfection we cannot understand a person who is absolute who is perfect.

When we see Him, we see through our imperfections and that's how we form our ideas according to our own imperfections about God. Say for a small little ant, if you have to convey the political issue that is facing Britain today, is it possible? Because for the poor little ant, it is not even conceivable that we have an mind which thinks, which has imagination, which projects like an octopus, goes all round, catches this, catches that. It cannot even understand that we have a kind of a freedom by which we can do what we like. The conception cannot be contained in that little mind or little head of that tiny creature. But the difference between an ant and a human being is, that ant has no ego. Now the problem with human beings is, that despite the same correlationship, or we can say, despite the same parallels as a human being and God and ant and man, to top the whole thing is the ego part, which in a way makes us even lower than an ant. Because our reception is so poor, that we cannot see that there must be something mysterious about God.

God has to be a mystery for human beings. And to understand the mystery, we have to enter into a new realm, more than what we can really understand with this human awareness. There has to be another plane from which we should try to see this mystery, because we cannot understand anything about it, how He does it. I mean see now, in chemistry if you see the periodical laws that exist it's fantastic, absolutely fantastic. Look at

a little amoeba, how it acts and look at small animals who live in the rivers and who live in the seas. The number of creatures that are living harmoniously, not like human beings but quite harmoniously. Accepting each other's demand even on the life.

So with this freedom and such a big mystery and a big ego in between, it's difficult for us to conceive Him, His greatness, His compassion, His love. That whatever He does, is for the betterment of our spirit. Even if he kills someone, it is for the betterment of the spirit. Even if He thrashes someone and throws him down many hills, it is for the betterment of your spirit. When he puts you to problems and troubles, it is for the betterment of the spirit.

Anything that happens to you is a testing ground for the betterment of your spirit. He's working day in and day out just to improve your awareness in your spirit, to feel your spirit. Everything, the nature, the beauty, everything is working it out so that you, the human beings should feel His beauty, should know Him in your own awareness, should feel the vibrant love of God. For ages it has been worked out imagine, since this world was created till today, with various Incarnations, who came on this earth to represent Her, to talk about Him, to work about Him, to improve our different centers within us.

And then suddenly, when we are placed face to face we can't believe that it can happen to us, which is a mixture of, I think, ego and superego, both. First of all we cannot believe ourselves that we are capable of getting realisation. And secondly, I think, that we are afraid to

get realisation. Thirdly we do not trust anyone who talks of realisation. The third one is a good idea. Not to trust anyone, but at least trust yourself, see start from that point. You trust yourself that you should get your realisation, otherwise why do you call you're a seeker. You have to get your realisation no doubt about it, but when it comes to trust, whom do we trust? Say for example, when Christ said that, “God is My Father, He has sent Me specially to do this work” we couldn't believe it, this man a son of a carpenter talking like this, better crucify Him.

And our compassion went to a confirmed thief, than to the adoration of the Son of God. Now when He's dead, of course, He's Son of God, there is Holy Ghost, everything starts, I mean, when He's no more. Then people start believing. I don't know why, even today they believe He was the Son of God. Why do they believe even the Holy Ghost? I mean even the Bible, why should we believe it? What is the authority of Bible? I mean, Islam can ask that question, a Muslim can ask a question, “What is the authority of the Bible. Why do you believe in Bible?" I mean, if you take out the Bible they say, “What is the authority?" They might say, “Christ is the authority." But Christ never wrote Bible.

So what is the authority is your own ego. You want to believe in it. You want to believe in it, that's all. You want to believe in it. That helps you to sort out many questions. Because anything happens you'll say, “All right, it's God's wish." Because we can use Him better when He was crucified. Before that we cannot use Him, because he was independent, He was living there. When

He died it's very handy so we accept Him, we do not question.

So was that a mistake, for Him to say that He was the Son of God? Do you think it was a mistake that Christ said that He was the Son of God" Because of that He was crucified.

Do you think it was a mistake that He said the truth about Himself? Would you say that? How, how can you justify His saying that, you see, if He was crucified for that, then He was indiscriminate. One would say that to say such a thing, there was no discrimination; it was not wise to say. After all He would have lived longer, He would have spent better time with His Mother, He could have built a house or something like that. He would have amassed some money or some sort of a very important thing He would have done.

But there's the mystery.

That's the mystery we do not know, because we want to see it from our angle and at a point we just give it up. We don't justify, then we do not rationalise it, at a point we just give up, “Oh, it's all right, He's God." We reach a point where we say, “All right, He was Son of God, let Him, whatever He wanted, He did. Whatever He thought proper. How are we to judge?" But now, not when He lived. I must say God is a mystery, but human beings are greater mystery than God, to Me at least. I mean, they know how far to go and how to switch off, suddenly, to something, oh that's Divine. Up to a point they go on rationalizing, intellectualizing and then they say, “Oh that's Divine, finished." None of you have seen Him

walking on the water, did you? Nor He being resurrected, none of you have.

So why should we believe that He did that? That's the question we should ask ourselves. But He did, that He was the Son of God, but how are we to believe into it. We have to become something more to know the mystery of His life. Why He crucified Himself, why He accepted that life and why with all His powers, that He's going to come to destroy the whole world now. Why did He not destroy these people who were trying to crucify Him? What was the role He had to play in his lifetime? We cannot understand it with this human awareness, we have to become something more. And that's why He again and again said, “You are to be born again." How many of us think that we are to be born again, are we born again? We certify, many people certify, “I'm born again, I'm a Christian” meaning born again, isn't it? Mussulman means the same and Brahmin means the same, those who are born again. Now how are you born again, is again, a make believe, that I am born again, self-certification. Walking around with the certificate, that human beings giving the certificate to human beings.

So where is the truth? But if you are ardently seeking the truth then the mysteries can be open to you. But you have to seek the truth and truth and truth alone and nothing else. If you want to live with your ego, go ahead, nobody can cheat you. When you start seeing your ego you have to know that this is not yourself, there's something beyond. Because through ego, whatever you have known is all a chaos, all that knowledge that you got with ego is creating all the problems of the world. All

the fears you have gathered through your superego is another disaster for human beings. There must be something that God must have put within us, some light, by which we can see something beyond our ego and superego.

Unless and until that happens to you, you cannot understand the mystery of God and His love, you cannot understand. Human love has no depth to feel the depth of God's love and His heart, is so self-centered, is so ego orientated. His heart has to melt, open, it has to melt completely and flow. This frozen heart is like an iceberg, has to be dissolved in the ocean of His love, otherwise you can never get to the depths of His love.

Some people write to Me, “Mother I am not in love with so and do and so how can I be happy with that person, that person will be miserable?" Now you are living with that person for years, your are having children from that person, you don't love. You don't love anyone, you cannot love, you don't know what love is. They fall into love, you see, falling. And some sort of a thing for them is love, I don't know what is love for human beings, to be very frank I don't understand. Here they fall in love and next day they're out to the courts. And according to them falling in love is something, you see, out of the blue, “Oh! I've fallen in love, you see, oh, done." I've yet to come across a person who has really fallen in love, because as soon as something comes up, that companionship and that love, that enjoyment of oneness vanishes.

Heart has to melt. Hearts must meet where they have no stones in between, otherwise the stony hearts will just break each other. Imagine, two stones trying to meet

each other, loving each other. How can they love I can't understand. It's a big mystery that human beings know how to live with artificiality and with false beliefs, you see. They compromise, but Spirit does not compromise with it, it does not.

It forgives, because it loves. It just forgives goes on forgiving, forgiving, because it loves. And then it punishes also, because it loves and it destroys also because it loves. Thus the Spirit has to shine through your Self-realisation. Talking big about Self-realisation, pay hundred rupees get your Self-realisation, all this nonsense is at such a low ebb and such a horrid thing, that the beauty of His mystery is just left alone. You are in the chamber of a Satan to believe in these things.

Here in the Kingdom of God, there is forgiveness, there is love, there is compassion, there is understanding.

There is complete all-pervading assurances and a support and a hand that wants to raise you.

An anxious Father who wants to sooth you, to give you joy, to give you eternal joy. Can you think of someone like that in this world? He has problems, many problems. He has problems, but the greatest problem is, that He cannot have a rapport with His own children. That He cannot give what He wants to give to His children, who have a heart, which has no emptiness in it, which cannot be filled like a cup with His love. Kuṇḍalinī does that suction in our heart, no doubt. But first She enters into the brain, into the limbic area and then it proceeds towards heart.

So this mystery is solved once we start engulfing our brain, our thoughts, our thinking, completely drenched in

the showers of His grace. Otherwise this spiky mind can never receive those beautiful dews of love, which fall as dewdrops, you have to be a flower to receive it. A very soft, tender, receptive person and then only the fruit appears when you mature. The heart, the heart of a saint, which is larger than all the oceans of the world. Such wisdom of enjoying one's own love, just that love, that flows. This mystery, I wish all of you could achieve in this lifetime. Give up your ideas of judging something on gross levels. You have to become subtler, try to enjoy things, do not be joy killers and you will get the benefit of this, in such immeasurable quantities. Try to receive, receive more of the grace, drench yourself with them, it's so soothing. It is the energy that soothes you. Can you think of an energy that soothes your mind completely, that gives you wisdom, that coordinates the whole atmosphere to make you happy? This Divine energy is all-pervading and to understand the mystery of that All-pervading Power, you have to become Self-realised, you are to be born again, there is no other way out and to mature after this rebirth. It's easy to make fun of someone, very easy, but what did you get all these days making fun. Now you are here to get really something substantial, better have it. Thank you very much.

May God Bless.

Today I would request you to ask Me some questions, because there's such still time and would be better if you ask some questions to Me.

Some questions, David, you shouldn't get so serious about it.

What's the matter, are you not all right? You'll be all right you just put your left had up just like that.

Left, no left I said. You see when they feel, you see.

Doctors treat physically, psychologists treat mentally, others treat, I mean, as I said that, “There's one doctor for one hand and another for this eye." Seeker [interrupts]: *[UNCLEAR]*.

Shri Mataji: No integration and no understanding among themselves. Now, even I've seen that, psychologists when they treat patients, I mean really, they're putting their hands into a mouth of a serpent. They don't know how they're affected. They don't what happens to them. That's why they're so perverted. I mean Freud you can explain because, you see, he must have been contaminated with all kinds of problematic people, you know, very pathological people and when these people come to you, you try to sort of cure them, you cannot, because they are absolutely off people, you see. But you try to build them up and this is all artificial sort of thing, you try with them. And what you do it to exchange that disease, or to also share it. And then, that's why this psychologist when, they write they look so abnormal, because they always meet abnormal people, they never meet normal people.

So to them, you see everything, like Freud every thing is sex, I mean, any normal people would say, “Eh, what's that, how could it be?" So that's what happens with the patients, that's why I said could be your profession because you meet all kinds of people.

Sometimes what we call very physical troubles are starting from the mental, very much I tell you, even

cancer. You'll be amazed, that I have now treated many cancer patients and have not come across one of them, even one of them, whose problem doesn't start from the left side, meaning the mental problem. See you'll be surprised that cancer is, actually the base of it, is a mental problem. Now the doctors have said that they saw some proteins attacking and triggering cancer and these proteins they call as protein 58 and some such names they give them. And these are living proteins they enter into us, into our awareness and they live within us in areas, which are unknown to us since creation, they have said it now. But this I've said about at least ten or eleven years back. What are these areas, from where they come, how they attack us But this is the setting of thugs *[UNCLEAR]* and how the triggering takes place.

Seeker [interrupts]: *[UNCLEAR]*.

Shri Mataji: Yes, there must be something that triggers it. But the left side is the side, which we call as the side, which has to do with our emotions. Now the trouble is, doctors also do not consider that left and right sympathetic nervous system are two different systems, they think they're one. I mean so far they do not know that they're absolutely two different systems and they work separately. But because they're so connected you see, that you feel that both are one, but they are not. In Sahaja Yoga you can find out, that they're two systems and they work separately, one is for emotions and another for physical and mental activities. And this must be the reason, you just put your left hand and you'll be better off I think and your right hand like this.

Now new people who are they? Good. Did you feel any Cool Breeze? Did you feel any Cool Breeze in the hand? Mother converses with seeker about feeling the cool in hands.

I'll tell you what Cool Breeze is. When you become subtler personality, you see, it is everywhere, this is All-pervading Power. You don't feel it normally, but when you become subtler, then only this feeling starts coming in and that is the proof that you have become subtler. You must start feeling the Cool Breeze coming from here. That's the proof that you have become subtler, that means you are twice born according to us, because that is the sign of a realisation. Now it's written in the Bible also that one feels the Cool Breeze of the Holy Ghost, you see, Cool Breeze of the Holy Ghost.

But Bible is a mystery of mystery, because first of all, they never allowed Christ to live long. I mean, he could only work for four years, can you imagine? Four years I was struggling with six Sahaja Yogis in London. Four years I was struggling with six of them. I must say Christ at least had twelve of them. He was better off. He could not though give them realisation, he was a bit fed up and this is what it is. And then to explain all the mysteries I mean, you cannot put your foot anywhere. See you don't understand there are limitations If they say anything everybody is sitting there, “You said so, all right catch hold of him. Did you say so, all right, listen?" As if you know, everybody is feeling attacked. There's such a lot of fear is in human mind is. That anybody says anything which is truth, they can't bear, can't bear the truth. In Sahaja Yoga also there are mysteries. Everybody doesn't

know everything, in the beginning gradually they come to know. In the beginning everybody does not know everything because it's difficult for human beings to bear the truth. It's not that I have any fear from you. Like if you know anything about Me I'll have any problems, because thank God, you cannot crucify Me this time. But I have a fear about you because you'll be upset. You will be upset, not it's Me, you will be upset, oh that's the truth.

So the Sahaja Yogis are prohibited from telling much about Me, better talk about Sahaja Yoga, Kuṇḍalinī, this that, because people get upset about it.

Now just put you hands like this, just like this, put your both hands *[UNCLEAR]*.

Now it's a spontaneous happening, has to happen. If it does not happen then there's a problem. And that problem is to be corrected and there are ways and methods of correcting. Now, for that, you have first of all, to see where is the problem is. Now for those who are realised Souls have got this flow of this energy in them. Now if they move their hand even like this they say, “Oh, they were doing hands like this." If they have to move, I mean supposing there's a screw that is to be driven in, you have to drive in the screw, isn't it? You have to do something about it. That is also objectionable for people you see, if you sit here transfixed if they try to do anything them people run away. We have had such horrible experiences of these, running away people. We call them Bhadaruyi in our language. Bhadaruyi means those who always run, take on the run, who are always on the run. That if somebody tries to raise the Kuṇḍalinī

also they say, “Oh” see these are mad people they just run away. They just want to hear what they want to hear. They have their own conceptions and they want to see those conceptions being said to them, just pampering them. But that's not the truth.

Somebody has to tell you the truth and people are not willing for that. It's a big problem, to talk to people. They'll go on asking you questions after questions. Then what is this, then how is it, why is it Mātājī alone, that's very common in England. “Why Mātājī?" I said, “You do it please, for God's sake, I'll be very happy. I would like to retire." But why is it Me, better ask God Almighty, why is it Me? But if it is Me, I have to bear the cross, what to do. Why it was Christ? I mean, you could have been better that way, some people can say, that any one of you could have been better than Christ, could be, might be, but why not? So you come to the point, that you cannot explain everything in the beginning, if you do you get upset, people get upset.

So just we say, “All right see now first of all let it be, first feel the Cool Breeze." If that Cool Breeze is there then we talk about it later, all right.

So step by step we go. First of all you must feel the Cool Breeze. Otherwise the other day I was reading an article about because, these people have taken a bath or some bath they were sitting and meditating.

So the lady had a big objection to the bath. I mean what is the harm, if they have to meditate in bath, what does it matter. If you meditate in a palace they will say, “Oh these people are all sitting in a palace, all right." If you are sitting in a bath they will say, “They are sitting a

bath." What do you do, you hang in the air they say, “They were hanging in the air." I mean, you have to be something, isn't it? Like some of them have an objection, why should she be an Indian she could have been English, Baba, what to do, I became an Indian, I had to be something, isn't it? It's such a helpless condition. You don't know what to do with yourself. This is the problem and this what happens, that's why I say, you first get your Cool Breeze all right, then we'll talk about it. Now this you cannot get by yourself, can you? You cannot. By thinking can you? No.

So you should get your Cool Breeze that's the first condition of Sahaja Yoga. If you do not get your Cool Breeze then you are not yet started understanding. This is the first thing that should happen you get your Cool Breeze, then maintain it, then go further, all right? So we have to see if you are getting the Cool Breeze or not, then we'll talk about it later.

Are you? Not yet, what about you? Look at this Viśhuddhi.

So are you a Jew, no, or a Christian, which one? Are you doing a catholic or protestant? Everyone did some sort of mistake, no doubt. You can feel it here, you see, just feel your forehead here. You can feel with your left hand, here higher, see there's a lump. Is there, can you feel, that's it that's the problem. It will work out, just rub it, rub it hard.

Are you better doctor, just put this hand, stiff your not well doctor, you have to have some treatment, all right. You are not normal according to Sahaja Yoga and you need little treatment, all right.

So I'll tell you what treatment we have to give you for this.

Seeker: [A question about raising Kuṇḍalinī being dangerous and Sahaja Yoga.]

Shri Mataji: This is, you see it would be dangerous for anyone to so something which they do not know. For example if somebody says, “Car driving is dangerous” would be for a person like Me, I've never driven a car, you see. Next moment you'll find Me sitting on a tree and the car in *[UNCLEAR]*. [Laughs.] Absolutely I tell you, I can't drive even one inch.

So with such a person if I say car driving is the most dangerous thing, should you accept that? The same thing, somebody has to know the job. First of all it's a Divine work, it's the work of God Almighty. Such a person has to be a holy person, has to be a honest person, has to be Divine, otherwise they never come. *[UNCLEAR]*. If you are not a holy person, can you raise the Kuṇḍalinī, which is the holiest of holy within you? She doesn't understand unholy people. She doesn't like them.

So such a person has to be something that, that's why it's difficult for these people who want to make money out of Kuṇḍalinī awakening. Like some people might say that, “To sprout a seed is the most difficult thing. You have to pull out the seed, you have to pull out the primule” but for a farmer, it is very common knowledge, that you put it under the mother's care. The Mother Earth looks after the seed, very simple, She knows the job.

So one has to know the job and those who do not know they try all kinds of tricks, which is unauthorized, unholy and sinful, that's why they suffer.

But to Me it is Sahaja, to Me it is absolutely My nature. I'm a Kuṇḍalinī addict you can say in modern terminology, or you can say that what else, I don't know what other words you use, I'm not so modern.

But a sort of a, the whole attention in a person I have is of Kuṇḍalinī. I don't know a person otherwise.

The face wise I don't recognize people so much as I know from their Kuṇḍalinī.

So it's a different play into which we just go. After Kuṇḍalinī awakening takes place, then your attention also becomes, you see, so subtle that you can see Kuṇḍalinī around, you can. If there's a clear sky you can see Kuṇḍalinīs around, you can. And you start seeing the Kuṇḍalinī's of people and feeling it, I mean not with the eyes, but you start really feeling them, all around, you just go about like that. Like My own two grandchildren who have come now are realised Souls.

So today somebody came in and they came and told in My ears, that “This man has a bad stomach, ask him to go to bathroom." So I asked the fellow, “Have you got pain in the stomach?" He said, “Is terrible." Said, “You better go to the bathroom the girls are saying you'll be better off." And he had a big motion, he felt very much better. Now these two girls worked on the fellow, in such a miraculous way, he did not know. He said, “I was having a terrible pain and when I came here it was even worse." They told Me and they're little girls one is nine and the other is about five and they did it.

Now there is a nice announcement that I would like to make, that we are having a nice music program on...

[Aside:] Gavin you tell about that.

... pure classical Indian music which will be good, from Sahaja Yoga point of view also, because you can use these notes for transmitting vibrations, it's very simple to do that. And I would request all the Sahaja Yogis to attend this program and we're going to have dinner after that together. And I hope Cooley have you fixed the hall.

So will you tell them Gavin what time it is and where. Gavins speaks about arrangements.

You see, this is just meant for Sahaja Yogis, because only the Sahaja Yogis can understand the value of this particular program, because it's more the notes and the extension of these notes and the permutations and combinations which we are going to work out.

So please ask all the Sahajis Yogis to attend it, from Brighton and all these places if they could come would be a good idea. As it is they come for Sunday program so I think it will be all right.

So are you all right now? Seeker answers mother.

No I know, you see.

So I tell you it is true, you see, it's such a big book I read, such big book on Kuṇḍalinī. And the fellow says, “Perhaps the Kuṇḍalinī is in the stomach." I said, “Now what to do?" And because it is written down, it's a law. You see for people if it is written down it become a Vedas. They just can't talk to them. Said, “But in this book it is written in this." How much does it take to write? In the stomach he writes in such a big book. And a German, imagine, supposed to be very meticulous and truthful, writing such a big book and saying that it is in the stomach. When I saw it I said, “And such diagrams, you can't imagine." All the diagrams of Gray's anatomy is there, everywhere, all

sorts of diagrams there. I said, “This man what is he talking, God only knows." You see God is something everybody can use, anywhere. There's no law against it, do what you like. People have used God for their own purposes.

Is it working out? No. Good. Are you all right, are you feeling? Just you can feel it just see if it is not there on the head. May be a little hot there. Is it hot? Warm, all right it will cool down. It should cool down a little. Are you all right? Good. Are you? Seekers: [A question about facing one's real problems.]

Shri Mataji: Now I'll tell you the answer to this very simple is. Say if you are in the water and you see the waves coming into you and you are frightened of them, but by some chance if you get into the boat, you can enjoy them and you can see them. Now it's nice to say that when you are in it, you face them better, actually you do not, because you have no solutions. You have no solutions. And when you are above them, then only you can solve the problem. To give a very gross analogy we can say, you are going in a car, all right. And something is wrong with the car, you have to get out of it to see, you have to get out of it to see the problem clearly, to solve it. If you are in it, you are involved into it, you are biased, you are in fear, you are in trouble, you can never solve the problem. And then, it is even more dangerous because then you play into the hands of people who have vested interest. They may play about with it and would like to use that to blackmail you, or to trouble you, or to torture you. But in Sahaja Yoga you don't have to tell Me anything. I mean, there are no confessions, I mean, there

should be no confessions at all. What is the need to confess, because I know what's the problem is. But I know the problem and the problem that is at the root of it, at the base of it, which has not yet taken the shape of an actual problem, but where it is really troubling you at the root of it. For example, before the thought rises in you, it is first stirred in the abstract, you see. In the same way the problem is in the abstract that comes to the gross.

So if you can know the problem at the abstract point, you can cure it, in a much better way and improve it. But you have to get out of the problem to see it. Your mind has to be out of it to see it, to solve the problem. And then, when you are solving it yourself you are solving it through your ego or your superego. You have only two ways, either you solve it with your aggression or with your depression, there's no way out. But the Self has a power of enlightening the whole thing, like this room is in darkness for example. One way would be to clean this room or to solve the problem of this room, is to aggressively come inside, go like a bull in a China shop, do what you like, hit yourself and get out. Another could be, to be afraid of, see come here, get underneath some, one of the chairs sit there like a rat and go off go of to sleep and get out, thinking maybe that we have faced the problem. But you have not because there is no light and your eyes are not open. But when the lights are open, you walk in, you know what's the problem is, you clear it out.

So one must have enlightenment. Without your awareness being enlightened, you cannot find out how to

cure yourself, how to get out of the problems. Just see, anybody fighting a devil in the dark, you don't know whether you are fighting yourself or the devil.

So light is important to see and that light is the Spirit.

Seeker: [A comment about actualizing the Spirit.]

Shri Mataji: Actualise is the point, actualizing. Is not just talking about it, actualizing. No it is there, actually it is there, I can see it, it's there. It's to be actualised and already God has placed within you this power, which is called as Kuṇḍalinī, which actualises it. Now why it rises, awakens, because something has to happen within you so that your attention is attracted inside. Once your attention is attracted inside then that attention gets enlightened. Once you get enlightenment you can feel your own centers and you talk in a way that people will say, “Mother my right Āgñyā catching” means my ego.

But they don't mind saying that, “Then Mother, I'm getting egotistical." They don't mind saying that, because they can see themselves. They might say, “Mother my Center Heart is catching” means your, I'm are feeling insecure, all right? It has to work our first, you can only have the value of this when you get it. You do not stand on the fence, just have it. Have you been able to solve your problems? Not so far.

So better try this method. It is so dynamic that the problems do not exist. Your priorities change, then you start solving the problems of others, you become your own master.

The situation where, somebody who is afraid of a car, then the somebody starts learning how to drive a car and the driver teaching. Then somebody learning how to

drive a car. Then after that, the master of the car, you become. You become the master of yourself. Complete master of all the problems, you become and you play them just like a drama. That situation is very much close, then must you deny it? Tell your mind to understand, magnitude of your own capacities, which have not yet manifested, you see.

They must manifest, you have to know that they have not yet manifested. They must fully manifest, you must find out meaning of your being, you must find out the role of your life, why you are here.

[Aside:] Better now David, now put your another hand toward Me. The other one, Just *[UNCLEAR]* will be better.

There're so many ways also to correct yourself in Sahaja Yoga, which you have to try later on. But at the first shot you get realisation then you have to establish yourself, no doubt.

No question from any Sahaja Yogi so far. Gavin or someone. They're beyond question, they're problem solved, David.

I have to ask you one question, When are these journalists going to start writing something constructive? Otherwise, they are just waiting for some horrible things to happen and to publish it. How to make these journalists understand, that the time has come, for them to write something that will not shock everyone.

Actually we are under shock because we read newspapers and the world is not that bad, human beings are not so horrid. There maybe one ripple here and there, but I mean, the way they make life so miserable that you find as if it's hiding here or there, everywhere. Why can't

they think that they should publish also something that accomplishes joy and happiness? It's very difficult to understand this.

Seeker: [A comment about people getting paid for printing bad news.]

Shri Mataji: But I must say that they must have found out also what they do with all this payment.

You see, all they are having strikes, they are closing down most of the newspapers. That means it's not interesting.

Seeker: [A comment about bad news selling.]

Shri Mataji: They have.

One has to see why people do not like them very much now, because of this, people are fed up, even from their economics point of view. They should change their trend and their methods and give some good news and some good things. Always bad news doesn't sell. Even this manager of this lady, she is such a, I can't understand the disgraceful things they are talking. No respect for *[UNCLEAR]*.

Seeker [interrupts and asks a question]: *[UNCLEAR]*.

Shri Mataji: [Hindi.] She is asking Me a question, “Does Kuṇḍalinī passes through all the three Nāḍīs or one Nāḍī?" It only passes through Suṣhumnā but the grace flows onto these two. Yes, see the question? Different. She's the one. Question is at a different level, see. See the difference. Attention is somewhere else.

So the new people, all of you have felt the Cool Breeze or not? I don't think you are feeling it, *[UNCLEAR]*, it has to be worked out.

[To a seeker:] What work do you do?

Seeker: [She is a theatrical agent.]

Shri Mataji: Theater. Um better now. Relaxed are you feeling in the hand. Good, this is remote control. Shri Mataji speaks in Hindi and with seeker. Is she feeling, this lady who asked the questions, did you feeling any Cool Breeze. Just put your hands like this just a little bit, let's see. You've been to some spiritualist, never. What work do you do?

Seeker: [answers.]

Shri Mataji: “Office work” you have to forgive, you have to forgive, all right. Just say, `I forgive,' that's all, just say, just see, in your heart. You say, `I forgive everyone,' in your heart. [Hindi.] It's very subtle, keep your eyes shut, it's very subtle thing, so please pay attention to your fingertips.

Pay attention to your heart, to your Spirit in your heart and say that, `Am I the Spirit?' Are you feeling, see now left hand. And you are relaxed, watch Me without thinking and just keep your eyes open, watch Me without thinking. Hum, better, are you relaxed, are you thinking now? Just watch Me again, better, still better. Yes, it is working out, you see, first day sometimes it doesn't work full way, but it does work out, is working out now, see. It's very subtle happening and sometimes it takes one or two days, three days, four days.

Seeker: *[UNCLEAR]*.

Shri Mataji: But what is the use of becoming that? No use becoming anything, you see you have to become the Self, that's all. All right, now keep your mind to that, that

you have to become the Self, you have to become the Spirit. Don't put your mind to anything else. You cannot become anything else, but your Self, that's all. All that is myth, all right? To just become the Spirit, tell yourself, `I have to be the Spirit, I am the Spirit.' You have to tell yourself it's important, that helps.

Ah, now, better, good.

May God bless you.

***Contents: 1981-06-08*, Public Program, Mystery of God, Caxton Hall, London, UK**

Yesterday you all enjoyed the music and I was very happy, at your enjoyment. Music plays a very dynamic role in human life, one has to understand that. One of the mysteries I was describing to you, last time, also, created by nād, they call it nād. You can say the logos or the first sound, the Om, the Brahma.

The sound, first time, the sound that was created, when the Primordial Mother, or the Primordial Power, of Divine Love, the power of God separated, from God Himself. God was, the Witness, Witness of the Play of the Divine Power. There is no difference between the two. God Almighty and His Power are just like the sun and His rays. For us for human beings, this is impossible to conceive the mystery. Moreover, in our ego, we think that we can understand Him, is another mystery for Me. But, to Me it's a, very sweet thing to see that human beings trying to comprehend the mystery of God. It's like a little child trying to understand the favoured work of his father. Or could be much more. But this sound, the first sound, which is described as also logos I believe, is the sound of

this Primordial Power, of this Divine Power, that has created the whole universe. Now one may say that how are we to believe that this sound exists? Of course, one should not believe. But whether you believe or not, it exists, so why not discover it. Instead of discarding something, why not discover it? Is a better way of looking at things. You should keep yourself absolutely open and see for yourself if it is true or not. For any scientific man, it is important to be an open-minded person. If he is bound by some traditional ideas or some sort of old fashioned ideas or, you can say, some sort of, hypocritical ideas, or fanatical ideas, such a person cannot be a scientist.

For any scientist, is important, to be a very open-minded man, objective and not subjective. You remain subjectively, very controversial, when you are not Self-realised. Before that, every subject is a different subject.

Someone likes a blue colour, someone like a red colour, someone likes a green colour.

Someone likes to eat ice cream, someone likes to eat something else. Everybody is a different person subjectively.

Some person like a blonde lady, someone likes with the dark hair and everybody has a different idea. There's nothing like absolute among people, naturally, because they have not reached their absolute.

So you are absolutely subjective. For music or for anything, whatever you like, is all subjective, colours...

I was watching a TV for interior decoration once and I was amazed the colours they used, were so fantastic, so beautiful. I liked them very much Myself, but I had some

other people watching they said: “Horrid, they are absolutely horrid." I said: “Then what colours you would like?" “Something grey." “Really?" “Or something pale or insipid." They didn't mean insipid but the colours they liked were insipid according to Me. Because if you enter into a room with that kind of insipid thing, I mean you really recoil back thinking: “Oh God what sort of people are living here?" But the ideas have changed quite a lot that people now think of warmth. I mean naturally they have avoided many colours which are not warm, which are dull. But still it is subjective, depending on the conditioning, of people. I mean for example Indians like a particular type of colours and English like another type, everyone likes different.

So some absolute has to be found out.

So everything that is subjective is useless for a scientist, no doubt. But scientists have not reached their absolute either. What they know as absolute also turns out to be, not that. Whatever law is said now, they said that everything moves and goes on moving, like Newton's Law was, but Einstein challenged it.

Some said that the things are made of atoms, then they came out with another theory saying: “No, it's made of molecules." So you are also discovering something, challenging it, checking it and understanding it. Whatever looks today the truth, may not look the truth tomorrow.

So this is not truth. If the truth is changing, it cannot be the truth. There's something illusory about the whole thing, because what you think today as the truth, doesn't remain as the truth tomorrow.

So there's some sort of an illusion that is working in between.

Something you like in childhood, you may not like it in your old age. It's all the time changing. The subjective mood depends on so many things, your family, your treatment, your childhood, your parents, your relations, the country you are born, the culture you are brought up in. Everything, gives you this personality which has that subjective feelings or subjective understanding. Now the science confuses, confuses more when you see that whatever we have produced through science, has not given us joy. Our hearts have become, just like stones. And we have created devils and devils and devils, like atom bombs and hydrogen bombs and this and that and now we are frightened of them and we are fighting: “No more hydrogen bombs and no more nuclear things and we don't want nuclear weapons." Who has created them? You have created them and now you are against it. Human beings are wonderful. They create something and then they create an organization against it.

It's rather, wasteful I think, to go about like this, you see. First you build up yourself and knock it down.

Then again build up something else and knock it down. It's very frustrating and one feels so puzzled and confused. But truth is never confused. Truth remains the truth. It never changes. It is absolute. It is nitya. It is never changed. It remains the same. It may manifest, in different forms, but it never changes.

And what is the truth? What is the truth? In very simple words, what is truth, that God loves us. This is the truth. That He created us because He loved us. It is His love,

that has created us. He looks after us. He protects us. He guides us. He gives us our evolution as a human being and then He gives us a higher status, higher consciousness by which we know His powers and the powers flow throw, is the truth.

This does not change. At monkey stage the truth was there, at human stage the truth is there. Whether you are a drunkard or a sinner or a saint, the truth remains that God loves you. He may punish you in His love. That's a different point. He may be angry with you in His love, but He loves you. Loves what? What does He love in you, is your spirit. The spirit in you, that sparkles. He sees that spirit. He tries to bring it out. For example, you see a diamond and you see that it is lying in the mud. You lift it from the mud. You clean it, wipe it, chisel it and make a beautiful diamond out of it. Anything that is created has had to go through some processes. In the same way, you have gone through your evolutionary process, but with what delicacy, with what understanding, with what love? Imagine, supposing you have to become a monkey suddenly, how would it be? Very painful, won't it be? And extremely embarrassing, too. But we have come out of monkeys as they say, supposing we have. Then, it has happened without our knowledge, without any embarrassment. I mean imagine a monkey suddenly becoming human being losing his tail, he must be feeling quite nervous about the whole stuff, that he cannot jump from trees to tree. He cannot behave like the monkeys do I mean it's rather difficult, isn't it? And to create this beautiful thing called as human beings, without any pressure on Him, without any effort on Him, without any

money load, because there's interests, rates are very high up you see. God knows, if He had charged you money like the Gurus are charging you, to become human beings from monkeys to this stage I don't know how much you would have paid off.

That's the thing is that He loves us. And you can't understand His love, that His love is His own satisfaction. He loves you because, He enjoys His love. His nature is to love. That gives Him, completeness.

That gives Him His own meaning. That is His play. That is His joy. And that's the only Truth. Everything may change in this world, but that Truth remains. If you have this faith within you, that He loves you, despite the facts, that you have had bad problems. It's all human beings who create problems for themselves. God doesn't create any problem for you. You do not know how much He looks after you. How many problems you have created for Him, so that there is a barrier between His grace and you.

People have created mountains and mountains between Him and themselves. They don't want to have Him. He's there to pour down all that He has and here such a big balloon of an ego, carrying you through, without receiving a single drop of that grace.

So, we have to understand, that we are still children and children have to behave like children. Not to say that we know everything. Actually you don't know anything, I would say, till you have got your Realisation.

[Aside:] Hello. Come along. Sit down. Give them some room to sit down, these children, they are essential part. This side there is some room. Come along.

His love never changes. Then His love is victorious, victorious. It surpasses all the efforts of human beings to lose it, everything we do, everything that is possible under the sun, to make Him unhappy, frustrated, angry. Whatever good He does to people, they will turn it into something nonsensical. Say for example, give them money. Let them have some Lakṣhmī's prasad is to, let them have some money, some well-being, material. That's the best way to ruin people. Give them money and they're out for breaking their heads. Absolutely. You give them the power. Any power you give them, political, economic and other sorts of, social, finished. They know how to break themselves, completely destroy themselves.

The whole wisdom works out at destroying your attention, your holiness, your innocence, your beautiful being that has been created with such, tender care and love. This is supposed to be freedom you know, liberated. Liberated. With this kind of, mess, it's rather difficult, to make the children understand that you are destroying yourself, so they have to have some shocks. You tell a child: “Don't put your finger in the plug." But if you say: “Don't put." Then that must go. It's a sort of a, you see a, worm in the head you see. “Oh, they have said not to put. We must." So they will put the fingers in there. You said: “Don't put it." Still. Then again you say: “Don't put it." Still. Then you say: “All right, go ahead." And then they get a shock. It can be serious. But what to do? They don't want to listen to you. I can understand children and some very old people are like that. I have had very funny experiences of old people also.

We had a gentleman here, a High Commissioner long time back. Indian people have a speciality in appointing very old people as Ambassadors, you see, shaky, I don't know. Americans also do that. And this gentleman, was standing next to another gentleman, whom we knew very well you see, so we went there and he said: “Meet Mr. Gupta." I said: “Look at that, this fellow's name is something else. Say his name was, say, we can say, Mister, nothing to do with Gupta, Varma say for example." So he says: “Sir, I'm sorry, my name is Mr. Varma." He said: “What did you say? You mean I said wrong?" He said: “Not that sir, my name is Varma." So another fellow comes in. He says: “Please meet Mr. Gupta." He says: “Sir, I'm sorry my name is Varma." He said: “Do you mean to say I'm telling it wrong? What do you mean by this?" “But sir but my real name is Varma. Everyone knows me." “Doesn't matter. Do you mean I am telling you wrong names?" Then another fellow comes in. He says: “Now meet Mr. Gupta." So the gentleman says: “But I know him, he's not Gupta, he's Varma. How do you say Varma?" “But because I say he's Gupta." You see? In the same way the children are obstinate is all right, but what about the in-betweens? The people who are grown-up, who are mature, who do not suffer from senile decay, are supposed to be sensible, at the helm of affairs, very responsible people, you see them and you don't know whether to put them as children or senile, where they stand. One can't understand their obstinacy and their stupidity. The way they deny all that is Divine, all that is beautiful and just, run headlong, towards ugliness and unholy things,

inauspicious and then they end up with something tremendous that has no chance for them to return.

Something horrifyingly powerful that engulfs them.

So, for us it is necessary to understand, basically when you come to Sahaja Yoga, you must have your wisdom intact. If you have no wisdom, it's going to be very difficult. I mean I have seen people, walking out of lunatic asylums and coming to Sahaja Yoga because the door is open to anyone who wants to come in. It's free, too. I mean anyone who has no place to go anywhere, they come round here, or they go to some cinema show, they didn't get the tickets can come and sit down here also, you see. There could be all kinds of people coming down from all kinds of places, but, though Sahaja Yoga opens doors to everyone, how much do you open your doors to Sahaja Yoga is more important.

That is what is wanted, is the wisdom. Wisdom to understand that, we have not found the truth and we have to find it. And that must happen to you. There cannot be any brain-washing about it. There's no other way, but the actual happening, the becoming. That has to take place. But you cannot demand anything here. No. It's a humble asking for that happening. You have to ask for it. It is, to be judged, by your Kuṇḍalinī awakening, how much time you will take, how far you can go. Without that, we just can't say.

You see, there are people: “Can you give me realisation in five minutes, Mother?" On the phone I hear the voice. I hear the vibrations. Oh God. I said: “Can you come tomorrow?" “Then will You give me in five minutes?" Said: “Then can you come day after?" I know I can't give

him in five years, because vibrations are horrid. I have to work. I have to work for that person. Then he calls Me. I said: “Come along today My child." “Mother, give me my realisation." It works out. Is the attitude, very important. If you have aggressive attitude, Sahaja Yoga doesn't work out. You are all welcome. You are welcome in My Heart, there where the rebirth takes place, no doubt. But you should value the love of God and should know that He loves you. And you have to be humble to receive it, that the grace should flow on you that, you should be gracious to receive it. Imagine you go to some place as a guest and there a big dinner is laid down and you go and with a big thump on the table and you say: “How dare you do this?" Then they'll say some lunatic has walked in this hall: “Oh, get out." That's exactly what happens to many people who come down. In Sahaja Yoga you have to have a balanced *[UNCLEAR* sainya] balanced wisdom. Wisdom that gives you a balance. If you keep that for a month, I am sure you'll establish yourself fully and it will work out. It's your own. It's for yourself. You have to have it. You have every right to have it. Agreed.

Everything is your... but you have to have little patience with yourself, a respect and attention. This is very important. Then this brahma nād I was talking about, this aumkara, is made of three powers within us A-u-m and these three powers are called as Mahākālī, Mahālakṣhmī, Mahāsaraswatī, in Sahaja Yoga. These are the three powers that exist within us. This Mahākālī power is on the left hand side, as you see, which comes from the right, comes down, is the power of desire. Right hand side power, called as Mahāsaraswatī, comes from the left to

the right and the central one, is the one, called as, the Mahālakṣhmī power, which gives you your evolution.

So you have a left-sided power, which is called as Mahākālī's the power of desire, the right side one is the power of action and the central one is the power of evolution, the third one, the center one. The center one, is the one, that has, created you into a human being. This is the subtle power within us, but we have expressed them in the gross, that the left and right sympathetic nervous system, are expressed by left and right-sided power and the parasympathetic nervous system is expressing, the central path, called as Suṣhumnā as far as we have achieved, in our human awareness.

So in our human awareness we have reached a particular point. To go beyond this, is the modern problem, is the latest, the extra, what do you call that, ultra modern. Ultra modern problem is how, to raise our consciousness to that point where we become one with ourselves, with our spirit. Otherwise you have no meaning, no meaning to your life. You don't know why you exist. You may go to hundred places, do what you like, you have to find out your Self and that is done by the power within you called as Kuṇḍalinī, which rests in the triangular bone, in the coccyx in three and a half coils and we try this, through, all these centers, six, which are placed above it and gives you your baptism, where the Kuṇḍalinī breaks through this point, called as Brahmarandhra, in the fontanelle bone area and you achieve that, you become that, that collective being, so that you start feeling a Cool Breeze flowing in your hands and feeling the different centers. Is the becoming.

And the whole system starts changing, the priorities start changing and you start seeing the working of the Divine Power. That is love. Not the love that we understand is limited, but love that is emitting all the time ceaselessly, the love that knows, the love that loves, the love that coordinates and cooperates and runs this whole world. That's the Truth. The rest is all falsehood. Is all illusion. Is that Power, managing everything in this world. The rest of it is all, a fake thing. That's what you have to achieve. That's how I hope you are.

May God bless you.

Now. Any questions? I'm sorry I'm taking tea and you are not taking the tea. Any questions please.

Thoughtless you see. The Kuṇḍalinī has risen above this. You cannot think of a question. That's the first trick I do. Kuṇḍalinī has risen over. Because thinking is a horrid thing. You don't know where you go, like an octopus here, there, there, what you gather.

Sahaja Yogi: Mother would You please vibrate some lemons and chilies for me?

Shri Mataji: Of course, of course. That I will do. Not just now. Just wait, I will do it later. Let Me give them realisation first. Mm. That's very interesting. That's another mystery. We have a new relationship in our family and there was a doctor and his wife has been sick for the last eight years and she's very nervous and she's having lots of problems, this, that.

So I told her: “All right you get some lemon and chilies I'll vibrate it and they'll work it out." She said: “What? I've paid so much to the psychologist, I've been to this place and that place." I said: “Only I need lemon and chilies but

you have to pay for it. I can't pay for that." She said: “All right." I said: “Now you try Me." So she brought it. In India it's very cheap you know, lemon and chilies. I vibrated and gave it to her. Next day she came up.

“Oh God, what's happened? I'm perfectly all right. What did you do with the lemon chilies? What has happened, what's the mystery?" But her husband is a very fine man, a doctor. He said: “What is this, what is this magic, what have You done? I couldn't get this wife of mine cured all these days we did every thing, operations, this that.

How these lemon, chilies have cured?" I said: “Now I'll not tell you, but later on." Such simple things.

That's the mystery. The vibrations. Same thing.

In Sahaja Yoga, some things will sound very strange to people. For example you see, when they give a bandhan, to their aura, you see when they try to give, move their hands, because from the hand, the power is flowing you see.

So you put, a bondage to your aura, so that nothing negative comes to you. You see like this. It's all right. Indians may understand it but, not in the west. But I'm sure when Christ was, they used to do like this, in the beginning, most of the people must be laughing at it. Not understanding what all this is, you see. Or when they started doing namaz. Now everybody's doing namaz you see, specially in London I think we are all becoming Arabic. That suits us better.

I was surprised that there are schools and schools for all the *[UNCLEAR* exhibitors/exupiters] to learn Arabic now. It's the money religion started. And when Mohammed Sahib started this thing, I mean, everybody used to make fun of

Him. It's complete Kuṇḍalinī jāgruti. Complete namaz is nothing but Kuṇḍalinī jāgruti it is. But these Muslims do they know, or those who laugh at them? Nobody knows.

Both are in the same boat, because one are doing blindly and another are just laughing at them blindly, again.

Now the Hindus when they do Pūjā and Ār.ti do they know what they are doing? They don't know.

They do it because traditionally they have been doing it. They don't know how they are giving bandhan.

They don't know what they are doing, what is this movement is. Nothing they know. But traditionally they are doing it. Whatever it is, all these things have meanings. In Sahaja Yoga you know the meanings of everything. The meaning of these Incarnations like Prophets, like Kṛiṣhṇa, Rāma, Christ, Mohammed, Moses, every one has a great meaning in our lives.

All that you discover after coming to Sahaja Yoga, not before that. Before realisation nothing can be understood. But once you know, you know. Those who do not know, should not laugh at people who know. On the contrary they should try to know and then laugh at them. Then they won't. Then they respect each other and love each other. No questions there.

Seeker: I would like to ask a question actually. I got my Kuṇḍalinī wakened by another Guru...

Shri Mataji: Loudly. Little loudly. Come here.

Somebody has to say it loudly.

Seeker: My Kuṇḍalinī was awakened by another Guru and I've been doing sadhana but I feel as if I've reached some kind of blockage and we're not taught how to overcome

these blockages at all and I was wondering what I could do.

Shri Mataji: How can they tell? You see, that's the trouble with all of them. Naturally they have to keep some sort of a, detective story going on isn't it, to sell in the market. They know, but they don't tell you, then why do you want to listen to them? You should not. You should ask them: `Please tell us.' For example somebody says: “You can fly." “All right, you fly for us." You should ask. Let one of the, nobody has said so far. Why don't you write letters to this gentleman, who's teaching you flying. Tell him to drop himself from Leaning Tower of Pisa. Yes, good idea, to all of them. You see those who say you'll do this you'll do that: You say: “You show us what you do." But you do not. You go headlong. But the trouble is, Oh God, the way you are impressed by this circus. How can there be a circus of God? It has no pretensions. It cannot have any pretensions.

Seeker: I'm not actually doing TM, I'm following the teachings of...

Shri Mataji: What were you doing?

Seeker: I'm not actually doing TM practices. Siddha Yoga.

Shri Mataji: Who is that one?

Seeker: Swāmī Muktananda.

Shri Mataji: Ah. Does he look like a siddha? With his... ah. Ah. How can you believe him, now tell Me. First of all, now supposing, now I'll tell you I agree with you but you people are so simple.

So simple. You go into his ashram, you meet his disciples. Poor things you know, they are good people, no

doubt lost. Absolutely no doubt. But what have they achieved? All good people tossing their heads there.

Have they known anything? Do they know anything? About the Kuṇḍalinī, do they know how to raise the Kuṇḍalinī? They know anything about the Chakras? Nothing. Then how is it that you are also there? What I'm saying, that these poor things do not know anything. Now you ask here all these Sahaja Yogis are sitting. They'll tell you where is the catch. Even a child, even a child will say the same. Not necessarily they should be very intelligent here, or something very developed. Any child will say the same thing as others will say because it's there, you see, on the fingers. They are all going to feel the same now.

But when you go and see these horrid people, I mean they made the Guruees and all these, what you call these, spoons around, we call them chamcha in our language, means the assistants you know, who made a big ado out of these big things. There's no direct rapport with this Muktananda. Horrible thing I say.

How many people he has finished like this. They want money. Let them do smuggling. Why are they after all the saints? They want money, that's what they want, nothing else. Their interest is money, but also they want to ruin the saints. They want to have it from the saints. Why don't they do smuggling, they'll do better, than many smugglers. That's their interest. You cannot purchase God. Have they transformed anyone? Why not see other people? Are they transformed, are they relaxed? They all have blockage. And then they very nicely say, oh very good explanations they have.

One of them came to Me from this Muktananda and he said that, this Guruji says, that: “You have got this blockage because of your purva Karmas, the bad things you have done in last life." I said: “Really and what did he say that you were in last life?" “He said I was a pig." I said: “What bad things pig can do?" “He says might be a pig might have hit a human being." I said: “I've not seen any pig hitting a human being." So what bad Karmas a pig must have done. I said: “This fellow must have been a real pig in his head to tell you. He doesn't even have intelligence to tell you that you were not a pig, but something that is aggressive at least he should have told you." And then you must clear out your Karmas you see.

So I said: “What does he do about, sitting down there taking money for what? If he cannot clear out your Karmas then he better, retire." If you have to cleanse your Karmas, then what is he doing there? I mean imagine he has opened a shop, for repairs and if you have to repair your things, then why is he there? What is he doing? “Oh he says he can wash off our one sixteenth of the Karmas." “Really? But why only one sixteenth? He can wash off all your money all right. And why only one sixteenth. Why do you believe these stories?" They made a big mistake, the Christians I should say. They misinterpreted Christ, the message of Christ never reached India in time, to say that Somebody was born on this Earth, to take away all our sins. If He's awakened within us, all our sins can be washed out because He is `sākṣhāt Parabrahma,' He is `sākṣhāt Śhrī Gaṇeśha,' purity Himself. If He's awakened within us, all our sins He can, suck in. These horrible Christians went there to

convert Indians and now Indians have come to convert you. That's what it is. Nonsense. Is a very subtle action of negative forces, all anti-God. It has nothing to do with God. Christ is a part and parcel of God, as Śhrī Gaṇeśha is. There's no difference between the two. He incarnated on this Earth for this particular purpose.

Every time you see this church there is: “God came on this Earth, to die for our sins." All right then what are you doing about it? What does that mean? That means, if He's awakened within you, then He sucks all your Karmas and your sins so-called. That's why these people give you these explanations and nobody can tell them off because they start with one theory that side, that we have committed our sins and that's why we have to pay for it. And here there are people, “We have done original sin and for that we must suffer” the Christians are suffering from where I don't know. And there the Indians are saying that we are paying for our Karmas, that's why we are...

[MISSING about two sentences.] How God must be feeling about the people, who have been bestowed upon, by all His grace, by all His love, by all His beauty and are enjoying the sufferings and announcing to the world: “We are suffering." He wants to suck all your sins. What sins can you commit also human beings? What sins can you commit you tell Me. What sins have you committed? Specially you the saints who are seeking God, what sins can you commit? Thank God in India the idea of sin is not so strong. You see in a village, Indian village, a pastor went there and he told them something about Christ and something about, in their own way, you see, preach them

something. And they didn't know what to say when he was going for farewell you see to be kind to him.

So they said: “Thank you very much for coming to our village and telling us what is sin. We did not know." What sins can you commit, you tell Me. What sins? I'm talking about Ocean of Love, Ocean of Forgiveness. Is He going to sit down and count your sins or He is going to count the days when you have to have your realisation? You have to enter into His kingdom. He is your Father, who loves you. Any father who loves does not sit down counting the sins of his children. He is just counting days and days just for His children to enter into His Kingdom to enjoy Him. What sins can you commit? And why are you suffering now? Christ did for you all the suffering. Now why are you suffering. That's why the Jews don't want to accept Christ because they say: “We are suffering." Wherever they go everybody had to suffer because of them.

But they want to a create a story they are suffering now because if they say: “We are not suffering” means they accept Christ and that they don't want to say. Two thousand years they must suffer more, make everyone suffer with wars and things. Because they cannot accept Christ.

So this kind of madness all over, I mean everybody's just the same. There's nothing to choose. Doesn't matter. Still Sahaja Yoga works out. Sahaja Yoga works out, because, as I told you, there's one eternal truth is that your Father, God Almighty, loves you. Remember that. Write it down everywhere, so that you'll have confidence in yourself. All

right? I'll put this Muktananda right don't you worry. How much money you have given him?

Seeker: Not very much. [Laughter.]

Shri Mataji: [Hindi.] *[UNCLEAR]*. Put your hands like that. Just put your both the feet still on the ground...

[MISSING 15 minutes.]

Contents: 1981-06-12 **Quotes from the article `Opening the door to a Cool Breeze' published in `Ham and High' on June 12, 1981, Hampstead, London, UK**

[As a little girl she never knew fear and would play with snakes knowing they would never harm her:] If you love everything, what is there to fear? He [Prasadrao Salve] knew that I would have to persuade a hostile world. When the time came for me to heal, I would have to talk to doctors on their own terms. “God has given no names to what you will do", he said. “So you must learn their language." I experienced other people, so that I could understand them.

As mothers we are very powerful and as women we are very strong, if we remain women. I do not understand the so-called `liberation' of women. Man and woman, husband and wife are complementary.

What is there to fight about? There are so many bad Gurus all over the world, all causing destruction and all making a great deal of money. No one who comes to Me brings money, what has money to do with God? You cannot pay for Him.

[But she does not want to emphasize this side (healing) of Sahaja Yoga.] What we seek is complete recovery and

complete integration, a balance of the body, the spirit and the mind. Curing people is a by-product of what I do.

God will not allow us to destroy the world. If each of us has peace within, we can stop war. One light can kindle another light. It is a living process and it will take time. But we can do it.

***Contents: 1981-06-18*, Public Program, There Must Be Something Beyond, Friends' Meeting House, 120 Heath Street, Hampstead, NW3, London, UK**

So many people are seeking the Truth. This is only possible because we have reached the stage of our evolution that we do feel that there must be something beyond. We have tried everything before. Like today, I received a letter from a boy from Australia. He must have been to all the Gurus of the world.

What a seeker, I felt. What a seeker he was! To begin with, he did science, then did music, then did painting. He felt that he had not found any peace, any joy. And then he started going to different people, to find out, where does this joy lie.

But even to be aware that there is something beyond, that we have to seek that joy itself, is very significant of these modern times. Modern times are highly blessed, I must say. Really very much blessed.

It was never so before. Today I get another news from Brighton that archbishop of black magic has got Realisation. I said, "Oh, God." I mean, just think of it! What a blessing that is pouring down. How can it work out that so good? I mean, when I was here, in the beginning, with six people studying for four years, when I

think of it, *[UNCLEAR]*. That means the time, the blossom time, is in its full bloOm Absolutely in full action. Now let us see what are we seeking and what God Almighty has done, nature has done for us. And why are we seeking? Why are we not satisfied with what we have? We have sufficient to eat; we are not starving people, we are not just surviving. But still, what makes us seek? What is there within us that has made us seek something beyond? It's better we understand ourselves, as I tell you about it. But I would request you to keep yourself open to what I say. That means, like a scientific approach towards the faith. That whatever I say to you is not to be accepted blindfolded, not necessarily. It won't help Me, either, that way. Blindness is not going to help, but to keep yourself open, so that we see something beyond, we feel something beyond. Like the hypothesis comes forward, like a theory. Even, say, the theory of relativity is still not been proved beyond doubt, but it is accepted.

But the theory that God exists and that you are a part and parcel of that great thing and that you have within yourself a Spirit in your heart, can be actualised, can be actualised. And should be seen from that. If it can be actualised, it's the greatest thing that could happen to human beings. Within us lies, if you see here clearly, this is of course a hypothesis which you may not have heard about. Doesn't matter.

Because all this research I'm talking to you about, or all these theories that are theory for you today may not be tomorrow, of course. But these are not the work of one day, or two days, but thousands of years.

Of the nature that created human beings and of the human beings, those who went into the search of the topic.

Just like anything, I would say that, there is, say, gravity, existing in the Mother Earth. But it was found out by humans.

So first it was created by some force and was found out by human beings, in the same way, this all was created within us and was then later on discovered by human beings, who shut themselves away from the mundane research of the world and the mundane things people are seeking.

And then people themselves are trying to find out what are we here for.

So it's the culmination today that is working out as en masse Realisation. It's the culmination of all these people and the culmination of all this knowledge. It is now being expressed, which is very rightly described in the Bible, in all the scriptures that at this time, it has to happen. The greatest of all was your great poet, William Blake, who has very clearly described these days. After Realisation, you will know His importance. Perhaps in this country people have thought Him to be a visionary and some sort of a chemical action going in His head, that He saw all these things. But whatever He has said is coming true, every word of it. And to understand it you have to have this new awareness about which we are talking.

So within us lie these three powers. The first one as you see as the blue one, which arises from the right side and goes down on the left side. This is the power that exists within us, is a very subtle power, which runs into our

brain and into the *[UNCLEAR* Optic Chiasma]. And this power is the power we have got by which we desire. This is the power gives us our past preservation; by which we have our past intact; it manifests our past. All our conditioning and *[UNCLEAR* superego] as Freud has put it, or, you can say, other psychologists, it is this part. This is not the whole; this is just a part, but as I say these psychologists are also, they are not the people who have seen inside. They are not seers.

So, whatever they have said about human beings is partial. And that partial thing that they have described is that, is only one small *[UNCLEAR]* part which also they have not been able to enter into. Inside out, but outside *[UNCLEAR* yet], so they have not been able to understand it fully.

So this is the past, this is the place where we condition ourselves and accumulate all our past experiences. That's how our personality's built; that's how our desires are built.

So this is the power which gives us the desiring capacity. Now desire, as you know, is the desire of the heart, or you can say it's an emotional side of life. It's not complete; it's not, it's abstracted. It is we may desire for the, say, the cattle of a big lord, or somebody, but we may not get it at all.

So the desire is more abstract.

Then we have the other power, which you see there in the yellow colour. Is the power by which we execute this desire. We work it out, is the power of action, by which we put it into action through our physical or our mental efforts. This one stands for our future: we plan to do it

and we think about the future and is our mental and physical being which is looked after by it.

The central power is the power of our evolution, by which we have evolved. *[UNCLEAR* Many/The] people say that we were monkeys, or we were amoebae, or something like that, but they do not know how could it be, why we became human beings like this. I mean, such a beautiful thing like human being: why it was created. What was the need to create, with such a lot of effort and such a lot of *[UNCLEAR* planning/scanning] out, why this evolution took place? Science doesn't answer that “Why?"; it just says, “It is so." All right. They have found out that there has been evolution and lots of things went out of the circulation of evolution. Out of this, human being came up and he's the one who is standing on this earth as the real, we can say the ultimate, the culmination of evolutionary power.

So this evolution has taken place through us in the central path, which we work the power of evolution; but its power comes to us by our sustenance. For example, a carbon atom has, say... it's the tetravalent: it has four valences. Then the carbon atom starts attracting to itself H-ions and O-ions and all these start creating a living cell. Now the living cell again goes into higher animals and higher animals till you become a human being. Now this process of evolution that is within us takes place because you have to become *[UNCLEAR* samtay]. I mean, you are not perfect. There must be some purpose to this evolution. The sustenance within us comes by different, we call it, Dharma. Is the sustenance, or in English

language they say `religion', but religion can make us frightened of ourselves. `Religion' means `your qualities'.

Human beings have ten qualities. They have to have ten qualities, or ten sustenances. For example, gold is untarnishable; gold is untarnishable and that is the quality of gold wherever you go. Carbon has four valences; in the same way, everything, the quality of a thing, of an element, in the same way the human being has ten qualities it has to have, maintain ten qualities. And once he has maintained these ten qualities, he can jump into the higher awareness where he has to reach.

So these ten qualities are what we call, is the Dharma. According to Sanskrit language is easier to understand *[UNCLEAR]* Dharma; means the one which is sustained within us is our Dharma. Is not what X, Y, Z has told you, or anything that we are or anything, but it is absolutely innate quality a human being must retain within himself to be there. And this one is the central path which gives you this quality, by which you are a human. And you have those ten qualities established in you. Now this is what Nature has done for you: that Nature has given you these three powers now. And that Nature has brought you up to a point, up to the threshold, that you have to enter into a new realm of awareness. It's the work of Nature. Nature has worked out also these centers for you. Now these are seven centers basically like seven notes in the music. Basically. But there are twelve because they again make *[UNCLEAR* same] basically; and there are thousands of these centers within us, which are all worked out very carefully by Nature to be there. Now these, all these centers are there to give us a different

help in different realms of our life. For example, for physical being, for emotional being, for our mental being, for our spiritual being, these centers are within us. It's a very great thing that is done by Nature.

Apart from that, a very important thing has been done to bring forth this evolution. Is to send an aspect of divinity on this earth, an aspect of divinity on this earth to emancipate, to lead the people. To lead the fish, a fish came; to lead the tortoise, a tortoise came. To lead the human beings, also, a person like Christ came on this earth. They created these centers: for example, Christ has created the center that you can see there at the crossroad, here. This is the window of that. This is the window of Christ *[UNCLEAR* arised]. Now, if you don't mind, I'll talk about Christ. If there are Jews, they should know that Moses is very important too for us, because Moses is the one [who] *[UNCLEAR* opened up this green area for us] [points to the Void area on the Chakra Chart].

So nobody should feel hurt if I talk of Christ. It's very difficult to *[UNCLEAR]* in one lecture. But all of them are our leaders of our evolution.

All of them are. Like Christ has said, “Those who are not against Me are with Me." Who are those? I mean they did not give Him time even to talk, the way He was killed in three, four years' time. Imagine for four years I was struggling for six Sahaja Yogis in London. In four years, what could Christ do? But crucifixion itself is a very big thing, which He was supposed to do, for a special purpose, by which whatever mistakes you have committed, or so-called sins, or whatever you have done against God, He came on this earth to ask for forgiveness

for all of you. And for that He killed Himself, or crucified; got Himself crucified.

There's no need: He's a very, very powerful personality. He's extremely powerful personality: in Sanskrit language He's called as Mahāviṣhṇu. And He has got eleven rudras, means eleven destroying powers and He gives them to you later, also.

Now this may be little odd to you to share, that Mother is saying all this about Christ, but we can prove it. It can be proved that it was Christ who came on this earth, on this center within us. Because when this power, which is going to give you your union, the power which is going to give you your Self-realisation, which resides in the triangular bone as you see, is the pure desire of God Almighty. The pure desire of Divine Power that you should get your Realisation. It is not yet awakened, if it had been, you would have been realised.

So it is called as residual because He has created the whole human being. Clearly it is sleeping: it has not manifested itself. And this power of Kuṇḍalinī is the power you can see there, in the triangular bone, in three and a half coils, sleeps for this awakening. And when She rises, when She comes up to this point and stops, we have to take the name of Christ, otherwise it won't rise.

All these centers, which are governed by one of these leaders who came on this earth as human beings, to save us, to protect us, to guide us, to give us our sustenance, all of them are so important at different points that we have to find out at what point this Kuṇḍalinī stops. With your naked eyes, you can see the pulsation of the Kuṇḍalinī; with the naked eye you can see the rising of

the Kuṇḍalinī and you can see the breaking of the Kuṇḍalinī here. If you put your hand there, in the beginning you might feel a little throbbing and the throbbing disappears. At that time, you'll start feeling in your hand a Cool Breeze blows, the Cool Breeze of the Holy Ghost, as you can say, it's blowing off your hand. It's actualisation.

This is to prove all the Scriptures and all the Incarnations and all the Prophets who came on this earth.

Of course also to prove those who are false, who have been false, when there is light, you can make out what is right and what is wrong. But is actualisation that you become *[UNCLEAR* that/that love/that love in] your awareness, that new dimension in your awareness, by which you can feel within yourself the power of God flowing through you as Cool Breeze.

Someone may say “it's psychological” or, “I'm amazed"; I think because people are too brainy; I mean a bit too much brainy. You have to be slightly less. Balanced with the heart. But doesn't matter, it worked with everyone now, so doesn't matter.

Now, this idea that it can be psychological, let's find out. And whatever is *[UNCLEAR* alone/unknown] is not Divine. But that also can be proved: that it is Divine. It's very simple, I don't know why people don't employ this method for finding out anything whatsoever. Once you have these powers flowing through you, you'll be surprised that it starts answering your questions. Like a computer. If you ask the question, for example, `Is there God?', you get a big blow of that *[UNCLEAR* feeling]. If you ask about a fake person, `Is he a real person?', you'll feel

the breeze stop. Not only that, but you'll become collectively conscious, you'll become, like Jung has said, “You have to become collectively conscious in your next step of evolution." You become. Not by anything that, “You are all brothers and sisters, there should be no race, creed and religion." It just happens to you. *[UNCLEAR* Praise God./Means what?] Even these children who are sitting here are born realised. They can say what Chakras you are catching. They can just feel it and say it, what centers you are catching. Because on your fingers you have five, six and seven places. You can say what centers they are catching, I'm just here to decode it. Now I have decoded it; I have told you that this center means this. This center you're feeling guilty, this is very common now.

Everybody's feeling guilty for nothing at all. *[UNCLEAR]* I mean, should not be there! It's ocean of love I'm talking about and what is there to feel guilty? What guilt can you have? What mistakes can you commit compared to God's love? So feeling guilty, “Oh, I should not have done this mistake" or anything; whatever I say, I don't know, I didn't say anything like that. But sometimes it happens, works out, that people start criticising themselves and this center catches. It's called as left Viśhuddhi, this side.

They have Spondylitis with that; they have problems on the neck; most of the people have problems in the neck. It's all due to feeling guilty, you'll be surprised.

And this is very true, that you all can feel your own centers and the centers of others. You will see your own power flowing. Of course maybe in the first shot you may not all get your Realisation. May not.

But don't get worried about it. Again, if you start worrying, it will not work out. Keep it open. It will work out. But once you get it you have to establish it a little bit; you have to understand. And you'll be amazed when you will know the *[UNCLEAR* Laws] of the Divine Power. [UNCLEAR…/All that, then], that's why Ādi Shañkarāchārya said that this whole world is Māyā, the whole world is absolutely false. Truth is only the Divine Power. *[UNCLEAR* Brahmadra], this is the Brahma Shakti *[UNCLEAR* as you call it/power]. And then you are amazed, how it works. And how it manifests itself through you. Oh, you think, “Oh, how could I? And after all you see, I am no good Mother. But how can it?" But it does.

I mean, do you know thousands of years have been spent in creating you? How can you be something insignificant? The whole stage is laid for you, especially for seekers. But seekers are the realists; and the realists *[UNCLEAR* want/for] God's love. Don't start counting your sins, because, as I said, Christ, if He's awakened within you, He sucks in all your so-called Karmas and your sins. This idea of giving you, “That there are Karmas...": many Gurus stop there. “We have got Karma and we must suffer and we are just suffering." Why? Why should you suffer, when Christ has suffered for you? Why should you suffer? So we are sitting down and suffering and writing stories of our suffering? Suffering is only one that you have not met your Self. That separation is to suffer. You have not yet met your own Spirit. Your Spirit has not yet manifested, is the only suffering you have. And once that happens, everything flows with the wind and the wind flows and you can feel that thing happening. The subject

matter is too deep and very extensive. I don't know when will I be able to say that *[UNCLEAR]*. No more. But it is very extensive.

Today there are lots of new people, so I have said something which is basically needed to explain what is Sahaja Yoga. Sahaja: Saha means `with', Ja means `born'. It is spontaneous. Martin Luther said that, that it's a spontaneous happening. But the disciples of Martin Luther outed it. Anybody who said anything, all these Incarnations, all these prophets, whatever They said, human beings know how to make a pickle out of it. See, they did it. Every one of them made such a mess of everything, I'm surprised, how can human beings think of making Them so dead and finished. Like the flowers on the trees: are so living and nice and spontaneous. But they pick them up as their own; they say “This is mine; this is mine." *[UNCLEAR* Until] they try on the same energy, of spontaneity. It is absolutely spontaneous. It has nothing to do with any doing or effort. Is absolutely spontaneous. Surprisingly, the word for effortlessness is also `Sahaj'. Spontaneous and Sahaja is the same. Like, spontaneously we've become human beings.

What did we do to become human beings from monkeys? Did we cut our tails? We didn't do anything like that, we just became. Spontaneously. What does a fruit do to become a fruit? Just the flower becomes a fruit. It's all built in, the whole map is built within us. This is a map that we have within us, which is going to give you your Self-realisation. It is your right to have it. Not only that, but the Divine is anxious to give you, I can tell you, very anxious. That's why there are so many seekers coming.

Also, certain diseases like cancer and all that can only be cured through Sahaja Yoga; there is no other way out. Cancer is a `blessing' of this, so-called, horrible modern times. And the cure of it also lies with the modern times.

In the modern times, only, this en masse evolution was possible.

On the mental side, people are so maddened, so confused, so upset; suffering from so many troubles of the mind. I mean, every third person you find, he says, “Oh God, I've a fuzzy head." Tensions and all these complications of the nervous systems and all that; they are all because we have not found our meaning. We have to find our meaning. Unless and until we are connected with the mains, we are not going to find the working of our being.

So far, whatever we have been worked out as human beings was in our own idea that we thought, “I like this and I like that." “This is good, that is *[UNCLEAR* horrid/not]." *[UNCLEAR* But quite contrary] there's no relief. But after you have found out your meaning, the Spirit, it's so universal that everybody will say the same, that, “This is correct and this is wrong." There's no difference of opinion. Everyone feels the same way. It's not out of love, as they say that “you love each other"; you just love, you can't help it. You are in it! You just drop down into the power of love of God.

You just can't help it. You become that, you cannot help it. You have to do it. It becomes part and parcel for every one of us. And we don't have to sit down and think about love, it just pours and pours out of us and pours and pours within us.

What is God? Is nothing but love. His grace is His love; freely distributed and felt within ourselves.

That He has created us into human beings out of His love. Because He is the most loving, caring and generous Father we have, who wants to bestow all His blessings upon us. And He is so anxious that you should enter into His kingdom: to adorn you with all His graces and *[UNCLEAR* these things] and all His overwhelming love. That *[UNCLEAR* He's just built within/His just...], it should happen to all of you. It should happen. I'm just a catalyst, you can say. Because I don't want your ego to come up.

Some people do come up with ideas, saying that, “Why You, Mother?" I say “Now, *[UNCLEAR]* you'd better be there in My place; if you can do it, I'll be very happy. It's a thankless job. You'd better do it. I would like to retire." But the trouble is, I'm meant to be there, just somehow I am put there, see, for this job.

So, if this is My job and you are put for this job, you shouldn't mind it. You can do it, the same. One enlightened light can enlighten another light.

So it is not necessary to feel like, “Why Mother is the first?" Or somebody. It could be you. But He chose Me, somehow, I don't know what happened to Him, that He thought I would be the best to do this job. May be I have too much patience with people, perhaps, may be. Or, I have too much love. May be that. I don't know what it is that decided Him that I should take up this upon Myself. But, you should know that there's somebody who really, really loves you well and that I can see that Spirit within you. I can see it. You don't see, but I see that star sparkling. And that's why I I've worked, day in and day

out, that you should see that; you should feel that and you should get your own powers, *[UNCLEAR* and thoughts]. I think people can't understand anyone who could be like that. But I suffer from My own love, you know, I feel it is too much. And I don't know what to do with it. If you can understand it, it will be better for Me and better for you. That there's somebody who just loves, just out of love. Everything is done out of love. And, for this, you should never talk of paying and all that. It's very insulting. You can't pay for it. Must know that you cannot pay for love. You cannot pay for love. It is so invaluable. One should not even talk about it, it's insulting.

So, I would request you to see that you get your Realisation; to establish it properly; to understand what are the implications of it. And not to just deny it, because it is for you; for you, for seekers, this is the best. Because otherwise you'll be seeking all your life. You have to stop it at the point; you have to find it and get it.

And those who get it will start thinking about it, you can't think about it; this is the *[UNCLEAR* unthinking]. You become thoughtlessly aware to begin with. And once it pierces through here, then what can you do? Because, without any thinking, you have got it. By thinking, if you could get, then it would be the easiest to go into the library, sit down and think. But by thinking you cannot get it. It's a happening that takes place, it's a living happening. And everything within is done without thinking. That is what is to be understood. And whatever was possible in this short time I've been able to tell you, but, as I said, it's a very big subject. If you have any questions, I would like to answer them.

May God bless you! *[UNCLEAR* There is another one/... because they are] born realised. There are many children who are born realised in this country. Surprising: in England, we have so many children who are born realised.

And I am sure people do not understand what Realisation is. These children are going to suffer. These are going to suffer, we'll never understand them. Never. They talk in a different language, you know.

[MISSING.] I've seen the new line. The new horizon. And that's how you change. And laughing at things is natural, when you become, like, when they show Christ, hanky-panky like that; never believe such stories. He was a healthy, charming man with a very healthy face. He could carry a cross, I would challenge any wrestler of this country to carry such a thing. Such a powerful man, they show Him like a skeleton. Because they themselves are like that.

So, no use feeling guilty about it. But doing something about it is important.

And that's what is going to work it out. If you want to really help, *[UNCLEAR* test/be placed] with yourself; know yourself; know your powers. And once you are powerful you are so dynamic with your love that you can transform the whole world. You can. I know one gentleman, who came to Sahaja Yoga in India, in a village: he's transformed ten thousand people. And the poverty goes out, of course, you don't become like Mr. Ford *[UNCLEAR]*, who's running after money and materialistic, but your problems get solved. It is said, in the Gītā, that “Yogakshemam vahāmyaham", “If you get

your Realisation, Yoga, then I look after your well-being." It is true; it happens. You won't believe. It happens that way. After all, from where does this wealth come in? From where all these bounties come in? Not money, but the rest of it. All that is fulfilled: you solve your problems. If you are standing in the water and the waves are coming to you, then you are afraid of it. But, if you get into the boat, you can see that. And you can enjoy. Not only that, but you may be able to help others to get out of it. That is the situation. All right? Because whatever you have done by worrying, or feeling guilty, *[UNCLEAR* which is nothing/or what is that].

So try a new method. At least try a new method. Any other questions? Lady: Do you advocate meditation?

Shri Mataji: Yeah. But this is the idea of meditation is not the way we understand, is to sit down, cross-legged, for hours together and be lost to the whole world; not that. I am in meditation all the time.

You are in meditation. You cannot do meditation, you are in meditation. When you are one with the Spirit, you need not do anything like that. But sometimes you just want to look into yourself; you can just sit down and enjoy your Self, *[UNCLEAR* it's better/in spare time]. But not to waste your time sitting, arranging. I've seen people arranging, I have seen that, when they go into meditation, they arrange all the seats, this, that, get all the paraphernalia and just think about what to *[UNCLEAR* put/cook] next. But here you are in that state, it's a state, meditative state, into which you are.

So, you don't have to waste any time meditating, you are there! Just there! I think all these trees and all, they are

meditating, aren't they? They are one with the whole. But we have lost our connection, deliberately, or some development within us. They do not know that they are in meditation, but you will know that.

This is the difference. You'll be aware of it. Not that famous meditation, where people say they fly and this nonsense. See, the flying business is not *[UNCLEAR* here on]. I don't know why people want to become birds. Or to become frogs. It's absurd, you have to become something higher. And it has to happen within, everybody has said, “You are to be born again." Now, what does that mean? `Dvijaḥ' means `born again'. Only two things are called as dvija, first the one is a realised Soul and another one is the bird. Like the egg has to become the bird, it has to become the bird. A new dimension altogether.

All right? It's a state. Of new awareness.

Lady: I was told it was a state that leads to Realisation. *[UNCLEAR]*.

Shri Mataji [hears something different]: No danger at all. How can there be any danger? It's all described about Kuṇḍalinī, I know; you see, these people have written books on Kuṇḍalinī, horrid! Absolutely horrid, take it from Me. They don't know where the Kuṇḍalinī is, somebody says it is here, somebody says, somebody there. They don't know anything about it and writing such big books, you see. Anybody can write anything about God. I'm surprised even Hitler used to talk about God and even Napoleon used to talk about God; everybody talked about God. There's no law to forbid them. And these are the people most unauthorized. Kuṇḍalinī is a very dear

thing to you; She is the only Mother you have got and you are the only child She has. And She's the holiest of holy. And She's looking after you. And She will mother you. She's not going to give you any trouble at all. Not at all. But, for example, now this archbishop of black magic, you see, he got his Realisation and then, when he went into his house, he started seeing things flying out from here, there and all that and he got frightened. But, you see, if you are doing such things, you see these spirits try to again show their temptation, you see; they try to create a temptation for you. For a while. But if you understand that you don't want all these things, they disappear. These are all temptations. They come to you a little bit, but not to normal people. I mean, if the Archbishop of Canterbury comes to Me, he may have some problems, but not you people.

Lady: *[UNCLEAR* Where do the other Chakras come from?/You mentioned the other Chakras.] You said this is Christ's.

Shri Mataji: Yes, there are many others. You see, all these Chakras are there. The first Chakra is down below, the first one is for innocence. The first thing that was created on this earth was innocence. And the second one is for our creativity. And the third one is for our evolution actually; the green one is for our evolution. The one that is higher is for our security and the one here is for our collective consciousness.

And this one is for forgiveness. And the last one is for our Realisation. There are all the seven centers in the limbic area, which are integrated, and, when you get your Realisation, all these centers get integrated.

And because the Deities there are awakened and it starts working out its own manifestation. It's fantastic.

Fantastic.

Lady: So, actually it's a gift, is it? It's a gift.

Shri Mataji: Yes, of course, it's a gift of God.

Lady: You can't acquire it yourself; it has to be given by God.

Shri Mataji: Yes, of course. But He's so gracious; He's anxious to give. That's the way God is. Even in taking gift, we think we should return; there's no return. It's just giving. It's just flowing. It's just giving, that's all. You cannot *[UNCLEAR* run it] in material way, that, “It's a gift. Supposing I give you something of $2; you give me something of $3." It's not like that. It's just giving, like the sunshine.

It's a gift. Gift of God. We cannot demand it. We cannot demand it, but it works. If somebody's so gracious, won't it work out? Like the sun's rays you see, we may not demand it, but we can have it.

But supposing you run away from it and hide yourself somewhere and then say, “Oh, I didn't get any sunshine." Then you can blame yourself. You have to expose yourself. Just expose. Any other question? Lady: Is the meditation supposed to soothe the nerves, relax the nerves?

Shri Mataji: Yes, it does relax them. Completely. You feel very relaxed, very, very relaxed. And blissful, absolutely blissful. You can prove even sometimes, see, when after Realisation, then you must have felt it, a cool sort of *[UNCLEAR* strange] feeling coming up and completely

relaxed. That's His Grace. That's simply Grace. Relaxes, blissful. You become at least ten years younger next day.

Gentleman: How does one achieve Realisation?

Shri Mataji: That's the point! That's what I'm coming to, now. That's exactly the point. This question had to come to Me. You have to just ask for it.

So, we are all at that threshold to have it, isn't it? Will you please put your hands towards Me like this, just like this? And close your eyes. Put both the feet straight. Even if you don't want to put on the ground, you can put it there, but should be straight.

Connected with the earth, somehow on the earth. Now put your hands straight, just straight. Again, to say, `I'm not guilty' is important, because all of you have this problem.

So just say within yourself, that, `I am not guilty.' Say it thrice. If you want to have Realisation, then you must know that how can guilty people have Realisation? You should not judge yourself. Who are you to judge? Let the Divine judge you.

Just say, `I am not guilty.' Just in your heart of hearts, say, `I am not guilty.' For anything whatsoever.

Close your eyes. Just say that. That's going to help Me a lot. Close your eyes and just say, `I am not guilty.' Close your eyes. You have to keep your eyes closed, because, when the Kuṇḍalinī rises at the Āgñyā level, then if your eyes are open then it doesn't rise, because there is dilation of the pupils that takes place, you see? Please keep your eyes open [closed] would be a better idea.

Now watch your mind. You'll find there's no thought in your mind. When the Kuṇḍalinī rises above Āgñyā, there's no thought. No thought at all.

Got it. Just start getting the Cool Breeze in the hand. Just put the hands like this. See *[UNCLEAR]*.

Enjoy yourselves. Just don't think much. When you get it, don't think about it. Just leave it. It will work out. Just it will work out. Close your eyes. Just you put your hands. I'm working on there. You just put your hands straight, like that. Just enjoy yourselves. Those who have got it, just put your hands like this and close your eyes. Put your hands on your laps, if you want to. If you have got the Cool Breeze, it's better to drop them. Don't start thinking about it. It should work out. It will work out, I'm sure it will. You have to forgive. You have to forgive. First of all, forgive yourself. Forgive yourself.

That's very important, because, if you are the temple of God, you cannot have a temple which is all time thinking it's no good. You have to forgive yourself. You are the one who has to get Realisation.

So forgive yourself. Don't blame yourself for anything. Forgive yourself. That's very important. That's what I mean by saying, `I'm not guilty.' Just forgive yourself.

You must forgive yourself to begin with. Then, forgive others. Say it twice: `I forgive everyone.' Just say that. Saying itself will help you. You'll feel very relieved if you say that. That, `I forgive everyone.' Now, without feeling guilty, ask for forgiveness, if you have done any mistakes, `Forgive us.' Just ask for forgiveness from God Almighty. Just ask for forgiveness. Without feeling guilty about it. When you are asking for forgiveness, you are

forgiven, so don't feel guilty about it. Just ask, thrice. It will work out.

Now, ask for your Realisation: `Mother, give us our Realisation.' Just ask this within yourself thrice.

Put your right hand on the heart. Right hand on the heart and left hand towards Me. And now ask for forgiveness. One forgiveness has to be asked, that, `I've not paid sufficient attention to my Spirit.' That's one forgiveness one has to ask. But not to feel guilty about it; that's one thing very important.

[Shri Mataji continues to give realisation and to correct people's vibrations, particularly working on the liver.] Thinking is the Liver; “We have so much heat, we can supply to the whole of London!" And don't be that serious. It's the play of God, you see, it is just His play. We become so serious, you see. Children don't; they just play and throw it away. They're not bothered, they're not involved, they just play. That's how God is playing.

I must thank Ruth for her kindness towards Sahaja Yoga, because she wrote such a nice article, you see. It could approach people, I hope and the media will also take kindly to us, you see, because we don't pay any money or anything, so people don't take that much heat.

[Shri Mataji still working on everyone.] Hm, better; it's good. Close your eyes. Enjoy yourself. Just enjoy yourself. Now don't think about it.

That's one thing: `don't think' is the first mantra. Don't think about it; just enjoy. Because you'll drop it soon, if you think. Let it be established. It takes about seven-eight days to establish itself.

So they will tell you what is to be done to establish.

It's cooling down. Just allow yourself to drift into that, so that you enjoy it fully, as it's a very great impact. The first moment of Realisation is very great and you must remember it. Just enjoy it. Let it go, let it go. And become that. Allow yourself to be completely dissolved into it.

So it becomes a beautiful memory in your heart, of your Realisation point. Now don't wonder about the Kuṇḍalinī, if it comes down, or anything, we know how to work it out. You have to sprout it first of all. You will also know how to work it out.

Are you all right? Good! Close your eyes; go deep into yourself. This is your own depth; it is your own beauty. Just try to enjoy your own beauty. This is your Self, your Self is manifesting this. Just enjoy your Self. Allow it to work out. Don't doubt it, don't doubt yourself.

After Realisation, you really become master of yourself. And you can mould your life as you like. You can also feel the Cool Breeze coming out of your head, from the fontanelle area. This is your baptism.

Contents: 1981-06-20 **Talk to Sahaja Yogis, Europe, the Liver, How to Love, Seminar, Day 1, Village outside Paris, France**

Like this room has got the atmosphere which is clean, so when the sun rises the light shines very well inside.

Spirit is unchangeable, cannot be in anyway made impure nor can it be destroyed. But the attention, if not clear, you may not see the Spirit at all. We can say the lampshade, we can say, is the liver which contains the space which is the attention. Now if you put the light

inside the lampshade and the lampshade is not clean then you don't see any light. If the lampshade is absolutely black you won't even feel the existence of light inside. This is an analogy of the dead things, but we are talking about living, so when the Kuṇḍalinī rises, she first feels your Swādhiṣhṭhāna.

Now, the Swādhiṣhṭhāna is the one which looks after your attention. The Swādhiṣhṭhāna clears out your attention through your liver, through your pancreas and through your kidneys. And it sustain it through your spleen and it makes it richer by transforming the fat cells into your brain cells. Now, the human brain cells are very special ones. They have an attention which goes out. If a man looks at something he creates a thought wave of himself about that.

So all the dimension of aesthetics and of, we can say the form and the colour and all the dynamics are in the human brain, which animals don't have. For if an artist sees this flower arrangement he can project his attention in such a way, that he sees something beyond it and by using few lights, you can create the atmosphere that this arrangement is making.

For example, a dramatist can write a play and put the whole thing in such a way that he creates a mood. Or a musician can put a melody before you and create an atmosphere of abstract joy.

So it's the only human mind that can do the abstract. Of course, we have very gross human beings also but they can develop into very beautiful human beings who can project their mind to abstraction. I mean there is no end to the dimensions of human brain. For example, a

scientist can find out what is under this leaf, but an animal cannot see anything beyond it, but it's a leaf that's all. The animal does not know any mannerism or any method of expressing his love which does not hurt another person and there is consideration, all the beauties of human beings come through the brain cells.

So, this multidimensional brain cell is sustained by your attention.

But I've known great Indian artist, musician, getting completely lost because they became drunkard, or they've affected some other organs within themselves, more than liver, by taking to something like say hashish and all these things, I don't know what all sorts of things human beings have done. But these ill effects of alcohol are not seen because it gives rise to your ego.

Now, how does a thing that goes to the sub *[UNCLEAR* place] to the subconscious gives rise to your ego? The trouble is to avoid the ego, you take alcohol. Because you can't face your ego so you want to escape your personality and you take to alcohol. If you had faced your ego it would have been much less.

So when you comeback from that drink you have another big balloon coming up and because of this ego activation your brain cells start becoming very active. Yes, an egoistic man has a tremendous brain, for some time. For some time, you become extremely powerful, you have new inventions, this kind of things.

With your ego you can be a very successful person and could be a great orator and you could be like Hitler for example.

And this would go on and on and if you were not affected by the aftereffect, the hangovers. But all the poisons have a capacity to react. All that is not Divine in the long run always reacts.

So then after sometime you find nations after nations finish off like the Roman Empire was finished off. Now England is leading the way, France I don't know, Switzerland. [Laughs.] Switzerland has another problem also they are giving military training, God save the *[UNCLEAR]* fake military training.

So Norway people are committing suicide, Sweden is competing with them. Now, I have touched all the European countries.

Sahaja Yogini: Spain is a major country.

Shri Mataji: All right Spain and then Italy. Spain: Spanish people, you know how aggressive they were once upon a time. They went up to Chile and Argentina and all these things and now they are supposed to be developing country. They are a poor country. What about Portugal? Portuguese came up to India they ruled us for so many years. While the British, they ruled us for 300 years, but now they can't even hold a glass like this, how will they carry the crown of Empire on their head? They are having strikes everywhere, for drinking, why do they want more money? Just to have more drinks. Are they going to do anything better with that money? The more money you give [to] human beings, the first thing they will do is go to pub. You bless them with the good crops of say grapes they will make alcohol. You give them any power they will make atom bombs.

Now, this kind of confused attitude that people have developed is because of their awareness being completely flooded with smoke of poison. All the foundations of your values are shaken that is why people have no self, what you call, confidence, they have only ego, but the self confidence comes through your virtues, through the manifestation of your Spirit. When you enjoy your virtues, then you are confident, you are not bothered. But ego trips are bad experience. You stick your nose into everything and nose gets smashed every time. And that is how diffidence came in. But a virtuous person has no way to be defendant. He's not egoistical because the greatest virtue is to love.

So, now how to love? [Laughs.] [Aside.] How to love? Our idea of love comes to us from our ego. Love means, a husband or a lover should bring a flower for you and the wife must smile, whether you feel like smiling or not, you should smile. The whole idea of love is some sort of a make-believe. But they are right to say that “we fall in love" so we fall, that you have to fall, you cannot rise in love. [Laughs.] And so many Sahaja Yogis have told Me that “Mother, we have not yet fallen in love." [Laughs.] As if some piston is going to make them rush into that form or I don't know what sort of make-believe, it is a very dramatic stuff. They will take three years to fall in love and two days to get a divorce. [Laughs.] So to describe love the way human beings understand is impossible. It is all nonsense. It is all done through your ego. You have to do it from your heart, but where is the heart? It is all covered with ego.

So, the idea of love is nothing but a very subtle expression of your ego. Whether it is a mother's love or a father's love this `I' is there. Like my son, my daughter, my wife, my volleyboc *[UNCLEAR]* [laughs] and this my and mine is not love.

We want that we should love others, how can you love when you analyze everything about everyone? You deaden the person completely by this. For example, I love this flower, I want to love this flower.

So as a human being I will cut its throat, take out every petal, make a nice paste out of it and then eat it and then say “I really loved it." This is not the way love is. It is a state of your heart. Really, the love is a feeling of giving, feeling of so-called sacrifice, people call it sacrifice. Like somebody said to Me, “Oh! Are You sacrificing Your Holidays?" It is giving. And the joy of giving is the love, but when you try to judge and decide on very material level everything, then it becomes the farce. Supposing you have a lover who has been to, say, in the military of Switzerland.

So he comes back home and he has already grown a big mustache and he goes on twisting his mustache and he says “you haven't yet saluted me." [Laughs.] Then, he puts his left foot ahead then the right foot on the side, then he goes into at ease pose and then says “it's alright, let us kiss" [laughs]. And then you do two-three left right and go near him now he measures the angle of your forehead and then he just touches you and finished again like a swing.

[A big and sudden noise; Shri Mataji speaks aside.] That is so, that is not love. It is the state of mind one has to achieve. There you do not judge anyone.

[The translator does not understand and Shri Mataji repeats:] You don't judge anyone.

You know there is a defect, but you envelope it with your love, make a beautiful pearl out of that. Like the sun shine that is spreading everywhere, it does not see any defects and count the leaves, it just gives and gives and gives. That's how one has to achieve that state where you just give without consideration of my-my or material considerations and other nonsensical gross methods of approaching it. Allow your heart to melt it, allow love to slip and you are enjoying it, nobody else, you really enjoy it. If others get angry with you so what, if they say anything nonsensical, so what, you are not enjoying them, you are enjoying yourself. This is real love and not a farce. For love I have to write books. If all the oceans become the ink and the sky becomes paper, I cannot write. It is so beautiful, it is so energy giving, it is so radiant.

I cannot tell you how many words one can have for that.

You achieve that love, that's real love not the way human beings describe it. It gives forgiveness that you enjoy. It gives complete confidence; it gives you complete self respect and respect of another person. It is the communication of the Spirit with others, it's not rational, it may not be logical. We cannot explain how God grace for it. For example an archbishop of black magic gets Realisation. I am *[UNCLEAR]* enamoured, I am enamoured

by the grace. Those who were going to hell are given the beauty of the Self.

Can you describe it in human words, you cannot. This is love [Pause.] [Shri Mataji speaks to a baby...] The French Yogis had given a list of questions; the first one was about how to love others and the second one was about the Swādhiṣhṭhān, the function of liver and of Europe in the world and the problems of the left Swādhiṣhṭhān...

[Shri Mataji starts to talk again after ten minutes about the, Public Program She gave in Australia, saying that Australian are more open-minded towards Realisation than Europeans. For example, the place where She gave this, Public Program was related to a synagogue and She did not know it.

So the first day when She talked about Jesus Christ, the Jews who were there said that it was alright but that She could have talked about Moses first...] [A baby cries...] [Shri Mataji restarts talking after five minutes] Now the first question that comes to us you know is how to look after your Swādhiṣhṭhāna, because as I said that Europe is the liver of the world. The function of liver is to eliminate all poisonous things that are detrimental to the growth of the being. All such things can be called as poisons.

So the role of Europe is to eliminate all that is poisonous for the society and I must say you have had great people in this country for whom I have tremendous respect and regard. One of them was Emile Zola who very clearly described the perversity of a human mind and how it gets poisoned inside.

In a book called Nana, he has described a society which is very decadent and very perverse and how it was making a man into a stupid fool. I mean he described the gentleman, something like Aristotel [Aristotle]. How one can be very stupid when he tries to bow to his lust and a four sided woman how she could be very good wife and how she could be a horrid personality, the four sides of a woman. Then there is Maupassant another great writer, whom I read when I was very young I should say, about thirteen to fourteen years of age he's very great who tried to point out to the poisons of the society. And the religious writers who were realised Souls also have been there many in France.

For example, John of Arc is another example of a powerful woman. Her powers were of virginity. An ordinary farmer's daughter could controlled an army through her virginity. You don't have to see whether they were successful or not, but we have to see that they very clearly and boldly showed or expressed in their lives the existence of Divinity and of purifying power of liver.

Now we have many types of poison in the human beings. The first one is the physical. If you start taking poison within you, gradually your liver goes wrong. As a challenge to this universal liver, people started brewing wine into an alcohol. There are two things: wine is different and alcohol is different. Now, this wine or this alcohol, what we normally drink in Europe, spoils the liver within us and the universal liver also. Our liver is symbolic of the liver of the Primordial Being or we can say our liver is one of the cells of the largest liver, I mean the European liver.

So, the responsibility of Europeans has been to remove the poisons of this universe, not the consumption of it and then boast it off. This liver that exists as Europe could have been alright, but so many types of poisons have settled down in this country, that people could not overcome.

It's a very vicious circle as far as the liver is concerned, because liver sustains our attention. If you do not try to keep your attention on purification anything like alcohol also intoxicates your attention, so your awareness becomes dull. This dull awareness helps you to forget the so-called `realities of life'. Thus you start accepting it more and more, just to get out of this, or sort of escape out of the present, now, to be. And the whole system of European people became intoxicated. They started living in a make believe world. By taking these alcohols one becomes more impressed by its subconscious, I mean you live more in the subconscious.

And the beginning of subconscious starts from the sex.

So when you start moving on that line, the extreme point becomes most important.

So, the whole descent leads you up to sex point.

Now, why all the prophets were against alcohol, because once you take alcohol the vicious circle starts you start losing your human value. Then compromises start in life in saying “What is wrong in taking a little alcohol?" If the Dharma or our sustenance gets disturbed by these poisons intoxicating our health, then the basis on which we stand starts shattering.

So, at this, at this point one starts thinking of, in this conflict, starts thinking of God and religion, but that too

has a biased of this liver intoxication. For example, people took to ascetics. Catholicism in this country became very common, but they did not put any clamping on the drinks. In the beginning they did, but gradually that was the thing they relaxed.

When your awareness is disturbed even your ideas about sex get disturbed. You start compromising with your sexual behaviour.

So, a kind of a funny conflict came upon human beings that they have to be ascetic and they take alcohol, by taking alcohol they lose all their values about sex and they don't know what to do with them.

So, all the nuns and all the ascetic people, inside them they are so disturbed, but outside they had to wear an artificial life of asceticism.

I asked a friend of My husband one day, very clearly “What happens to you when you get drunk?" He says that “I developed a new type of attachment for women and their body. I did not respect them as sisters or mothers, but I liked them as women." Like a human being becomes an animal and he sees the other side of a sex as something as another animal.

So, all the beauty that human beings have developed of married life and of virginity and of respect of women, is lost. The, another thing I found out from him that he told Me that other friends of his, some of them started looking at their own sisters as women.

The fathers started looking at their daughters as women and the mothers started looking at their son, as a man.

So, these sublime relationships which are existing in human beings, as the evolution has given them, is a special aptitude to develop this society of human beings, where the relationships are of different degrees, was lost.

When this happens in any human being, compared to other human beings, he feels that he is something inferior to others in his heart *[UNCLEAR* box] or he has done a mistake or a sin or something, a guilt, in his heart *[UNCLEAR* box], he feels that way. He starts fighting his own being, the sustenance the human being as he is: pure. He starts fighting his own purity, sense of purity function. And then he starts rebuilding himself on new premises by saying that “Oh! I haven't done wrong, this is all nonsense, we should not have believed into it” like a thief who becomes a robber after committing three or four thefts.

And that's how he concludes, or gets over his conflict, because he doesn't want to live every moment with that conflict. The problem is when the liver gets affected, the confidence in oneself also becomes very-very low.

Now, as a Mother I will never blame anyone. I should take the blame on Myself. The reason is that when the Incarnations came on this earth, all these Incarnations or Prophets talked against alcohol, but they should have very clearly explained, that these alcohols are poisons and they are the creation of some devils who have been able to ferment them and they have created for the use of the destruction of this world. Say, supposing they had told that this is an atomic bomb, nobody would have drank, but they did not say, they just said “don't drink."

By saying that only they created a problem for human beings.

Because if you say “no" to them then they do it ten times, that's how the children are. And once they get into the habit of drinking then there is no way of return.

But, for example, Christ did not talk against alcohol, because his job was different. Another thing, Kṛiṣhṇa never talked against alcohol. Rāma never talked against alcohol. To that extent, I would say none of the Incarnations ever talked against alcohol, except for the Primordial Master. And when these Prophets told “don't drink” as I told you, the people who are told, are the greatest drunkards. First of all, Europeans being the liver, were very conscious of it. And their conscience itself was so far in their Guru, that they went against it with very great force. Just to overcome their conscience, the ego thought: “better put it down by drinking it." We can say the Muslims now, Mohammed Sahib has very plainly said that Muslims people should not drink. He said “No intoxication should be taken” but first they started smoking they said he never said don't smoke. There was no smoke at that time, He didn't know that human beings are going to develop smoke after him and He also did not know that there will be something like LSD and bhang and all this nonsense. Otherwise, He would have said that “you should not have bhang, you should not have charas, you should not have this, you should not have that because that is poison, that it spoils your awareness, you become this, your society will be spoilt" but He didn't think that human beings wouldn't use their wisdom.

All these great Incarnations lacked their human achieveness, I should say, human understanding. They could never understand that these human beings are so childish and they could be so stupid. Moreover, they had to do some other type of work with which they were busy. But a Mother understands and that's why she forgives and she knows that you have to tell them very clearly about it. You have to give them a complete counsel, complete understanding.

... about the dangers of these poisons, how far they harm you physically, mentally and emotionally So one has to remember after coming to Sahaja Yoga that if our attention is not clear, the light of the Spirit will not shine.

***Contents: 1981-06-25*, Public Program, The Ocean of Love, Friends' Meeting House, 120 Heath Street, Hampstead, NW3, London, UK**

I told you about the three powers we have within ourselves: one is the power of desire that is on the left hand side; and the another power of action which is on the right hand side; and the central power which is the power of our *[UNCLEAR* divinity/evolution]. Also I told you about the centers that we have.

The lowest center is below the Kuṇḍalinī which is responsible for our innocence. When this center gets disturbed then our innocence is also disturbed. This is a very, very important center for Sahaja Yoga. It plays a very vital role in your evolution. Whatever you have done before or you have done now to spoil the awakening of the Kuṇḍalinī or you can say to spoil the Suṣhumnā, the central part, is all recorded in that Kuṇḍalinī Itself. But

the recording takes place because this center which is at the end, which is innocence, receives all the information from this conditioning line, the left side. It receives all the information and it records, just like a tape recorder.

So the Kuṇḍalinī is aware of the mistakes that are committed by you personally, by the society, by the conditioning of the, your seeking, by all sorts of things that you have done so far, by which you have tried to hamper the path of your Realisation.

So this is the path, the central path which is very important for your *[UNCLEAR* ascent]. But that should not give you a guilt. One thing I must tell you, when I speak you should not take Me that seriously. Because that's the worst thing that happens to you, that you start developing a guilt and then the Realisation becomes very difficult.

So please do not develop any guilt when I say something, or just start pondering, “Oh, I have done this mistake and that mistake." Because I'm talking of first and last time as I said it and today is the first time I would say again to begin with that I'm talking of Ocean of Love. If you were so perfect there was no need to have Sahaja Yoga. There was no need to do anything. Should have been the simplest job, you see. Anybody could have done it. Because there are complications and problems that somebody has to work it out.

So there is nothing to feel guilty about it. First thing I have to request today is not to feel guilty about anything.

So the second center is the second center, is of your activity, as I told you.

So through your activity also you create problems on the central line. Now how do you create that? It's like this. You can see the left and the right and the central. Central part is the Suṣhumnā. Now these two start working. When they work very hard or they pull each other on the sides, then sometimes this may be dislocation completely by which you lose your complete connection with the whole. Or could be that it may narrow down, the path may narrow down and sometimes it can be very much injured or sick. These centers could be very sick.

Before we discuss about the deities on these centers I would like to say that all these powers, these three powers get enlightened after your Realisation. Before your Realisation there is no enlightenment.

For example, the left hand side power is the power of desire. First of all, your priorities start changing.

Say, a person wants to buy a very comfortable car, a car like Rolls-Royce, for example. He dreams, `I must have a Rolls-Royce. I must have a nice Rolls-Royce to go out.' But after Realisation he doesn't like much these things. The reason is he starts feeling the comfort of Rolls-Royce within himself. He forgets about all these things. His attention does not go to these things which look apparently very comfortable.

They are not. If you see through the scrutinizing, say for example take the question of Rolls-Royce. It's a headache to have such a so-called comfortable car. Because somebody *[UNCLEAR* might/will] steal and you have to have insurance. Insurance people might have loophole somewhere. You may lose the money. If something happens to the car you are so much worried.

While you are driving you are so much worried somebody bumps into your car if you go in such a nice car. I mean, it's a headache to possess a Rolls-Royce. It's better that somebody has it and you, you enjoy it. But if you own it and if you possess it, then you go to this registration office to register it there and this and that and it's a big headache.

And the worst of all is that people are jealous of you. They don't like you. They don't like you because you have got a, I mean, what is the advantage of having a Rolls-Royce car? But then that it is so many disadvantages. Plus, I mean, on the one side only you can say, I don't know which one, what should I say, what is the advantage? Maybe that I mean it's a good car, reliable car and all that could be there, a quality-wise all that there. But for that how much you have to sacrifice and how much you have to work so to possess something.

The idea of possession becomes different. Then you want to possess these cool vibrations, you see. You want to possess that, because you get really fed up of other possessions and you start seeing that this is what gives you the greatest comfort and *[UNCLEAR* joy]. You start just changing your desires of all the things. The second desire is about, say, some people want to have a, say, a good family life and for that just try, even there are Romeos and Juliets and this and that, all kinds of things crying and weeping there. All thing goes on and the husband doesn't carry on with the wife and the wife doesn't carry on with the husband and then they feel very hurt and all those things happen, that they fail. That you feel that you

can get happiness from your wife is absolutely wrong, I tell you. You can never get happiness from anybody else but from your Spirit. The joy comes from your Spirit, not from anybody else. Now supposing a Sahaja Yogi has married a person who is not a Sahaja Yogi. It's a wonderful *[UNCLEAR* circumstance]. You can study a person so close who is not a Sahaja Yogi, how he is prankish, how he goes into Tantrums and how he'll behave. You get a regular elegy, means sort of a role being played by someone.

You start seeing the whole drama much better. Supposing he is a Sahaja Yogi, may be little insecure but they can't because there won't be any problem or a quarrel but you see then, you see the person how he behaves and how he is. Then you understand. You understand that why he'll behave like this and what we have to do, what are the, what are the problems and how to make the arrangements by which these people stop going into these holes and getting stuck-up into them.

You see, you start studying it. When you start studying like that, not getting angry and impatient with the person who is your partner, then you will start enjoying. But if you start getting impatient, in the beginning when the Sahaja Yogis do feel impatient with their partners because they are not Sahaja Yogis.

They think that people are lost now, what will they do, then when are they going to get their Realisation and all that. Instead of that, if you really develop properly, if you go properly you start seeing it in a different angle. “Oh, that's the way they are." You see, when you start generalizing all *[UNCLEAR* these things], then you do not

say, `This is my wife. She should have been like this. This is my wife.' You know, some people think because somebody is your wife, she should be a perfect personality. And because she's your wife and what are you? Are you perfect? I mean, why do you expect your wife to be that perfect? If she has kept one thing you here or there or he, I mean, it can be any way, I mean he or she, does not matter. Whosoever has done so-called mistake you say actually it comes because you think you are absolutely perfect, on the top of the world, you see. And that's why you try to find faults with another person. But you see when you are Sahaja Yogi you realise that you have to grow; you have to mature.

And how can you find faults with people like that? Only thing you can do is to study the whole thing because the whole thing becomes a drama. OK, you become. You start seeing the whole thing as a drama and it doesn't behave the way you want. He used to behave as if that these circumstances sometimes are engulfing and you can become fanatical. I see here people, you see because the husband came late.

So wife hits the husband and kills him or something like that. But see how funny it is. She, she was angry with him. He came late or whatever he did was because he did not love her. She felt that it was due that he should love. And to love should you kill the husband? Then who is going to love you? See this kind of thing, you see, you start thinking very, I should say, paradoxical behaviour of people. They're so paradoxical and the whole thing becomes so apparent and so vivid when you start seeing it through your Spirit because you are not within it. You

are yourself. You are not now the husband or wife or anything, but you see yourself as a husband and another person as a wife, or you see yourself as a wife and another person as a husband. And it's a very different thing and then the whole thing becomes such a drama and such a beautiful poetry that you start seeing, you see feel that, oh, the whole Shakespeare is coming before you or whatsoever. Most dramatic thing it's happening to you.

So this is another thing, that our desire has changed, that you see, “I want a peaceful life." You see, but the peace is within; peace is not outside. If you are not peaceful within *[UNCLEAR* you/the] inside, you cannot be peaceful outside. Anybody who will see you will know that you are not at all peaceful within. You have to find your own peace, your own bliss and if you want, you want to have that it is you who has to receive. This is the thing and it is you who have to enjoy it.

So no use blaming anybody else by saying that, “Oh, I'm so unhappy and this was, she was not making much, much noise” or, “I get very disturbed." Then you don't feel this. Actually, after Realisation you'll be surprised all this oversensitivity used to harm you and to, noises and all that, that disappear. Because you enter into your silence within.

Let the people shout, scream, you are in your silence [moment], start singing and sometimes you also think that they are shouting at somebody who just can't hear them.

The whole priorities of your desires start changing because you start enjoying something. For example, to a

child who has never eaten ice cream and has just taken, say, only milk all his life, if you give him ice cream, then he shifts his attention to ice cream much more than to milk. In the same way, once you taste or you get the nectar of your spiritual bliss pouring into you, these ideas that are built up about your desires all start collapsing and what you find a new sort of a personality comes in you and you start desiring something else. For example, a, an egg may be desiring something which a bird does not. Bird has different desires and an egg has different desires. In the same way it happens to us when we change our state, when we are in a different situation as far as our Spirit is concerned. Then all our desires take a different turn and we become differently made. Like our many habits that we have because of our conditionings and things and people have so many habits that sometimes I'm really surprised how people boast of their habits. Like a lady came to Me, she boasted with, by telling Me, “Oh, You know I can't take milk with any cream on it. If I see cream, I'll vomit." I said, “This is too much for Me and now. How far I will go? Mad." Then she came out with something else, `You know I'm so particular about *[UNCLEAR* sleep] and in my bed if there's even one light I can't sleep." Then how does she exist [even]? Mad woman.

Like that she just can't bear this; she just can't bear that. She's so very queer and so funny. I said, “How people must be living with her?" Must be another problem, the way she lives on. And she really bored Me stiff and I didn't know what to tell her. But then I just said, “What about your husband? He is so normal. What's the matter

with you?" So said, “He is different. I'm different." I said “You better become like him because is too much. I don't know how he bears you up, but it's too much." I think that the thing was her husband was a realised Soul and she was not. And he just saw her, saw her like that she was. He must be laughing at her the way she was fussy about the wanting. “I can't bear this. I won't have this. I won't have this. I'm such and such. I'm such and such." All these ideas about yourselves also come to you from your conditionings. For example, an Englishman thinks he's an Englishman, you see, something upper lip. Then, then if you take an American he thinks he's very rich and he may be very fast and he boasts of his fastness, you see.

Sometimes they boast so much that it's amazing the way they go about their speediness, you see, the way they are speedy. Then a German will boast of his overmeticulous efficiency or something like that. An Indian will boast of his ritualism and all nonsense that they do around. All sorts of things like that you find people being proud of, you see, to belong to a certain nation. It's all right. It's very good. You should be proud of your nation, but of good things and not of bad things. Now all such a conditioning that, `I am an Englishman.

I am an Indian. I am this and that,' all fail, because these are demarcations created by human beings. I mean, God just created a beautiful *[UNCLEAR* man/matter]. He had to put some rivers after all, you see. He had to put some mountains somewhere. He had to do all these things. He never asked you to get yourself divided. “I'm this. I'm that. I'm that." We ourselves have done all this nonsense.

I mean, think from God's point of view. He must have wondering, “What's the matter with these people?" We have to have immigrations, we have to have things to go to some country, we have to get a pass, we have to have a visa, we have to have this. Why? Because we are ourselves like that. We are ourselves, are so greedy, so selfish, everything is together. And that's how all human beings are against God if you see, that He must be wondering, “What's the matter with these people? I've given them such a beautiful world to enjoy themselves. Why don't they enjoy?" Instead of that, every time they work on the energy of hatred, how to create hatred and all these different things *[UNCLEAR* are/on] human conditionings are based.

We can say about art and everything, also about conditionings are based up according to what we have been seeing. If somebody has been seeing the white colour more or a grey colour more they will always like it.

If they have, say, if they have seen red all the time they'll like red. It's the only question of conditioning.

It's not question of your innate some sort of a spiritual feeling. Do not confuse Spirit with these material aspirations you have, or the material ideas you have; it's wrong. Spirit is beyond; it's that. It has nothing to do with what race, creed you are born into. It is not bothered about what things you think beautiful, what things you don't. Because it is absolute. There is not *[UNCLEAR* nothing relative]. It's absolute.

When you seek through your vibrations, you will be amazed that certain things, whether they are Indian, English or anything, you will not like *[UNCLEAR* to see/say].

Certain things, they may be anything, you are going to enjoy. This absolute is a coefficient worked out by God's mathematics, not by any human mathematics. And if that works out, then only you are going to like it because you like these vibrations.

Ultimately you like the vibrations. The things that do not give you good vibrations, you are not going to have.

I'll give you an example. Supposing there's a chair. It is being sat on by some negative personality.

Any Sahaja Yogi will come there. If he just touched the chair, get up and walk out, may sit on the other one, because he'll feel, immediately he'll feel the vibrations and he is not going to sit there. Just now *[UNCLEAR* name] she told Me about her daughter that, “A one magician came and my daughter who is a realised Soul, she said that, `He is a very funny man and I don't like him.' She started screaming." Even a child can feel. It's absolute. Everything becomes absolute, not because somebody has a blond hair or somebody has blue eyes or red lips or anything, but it is the whole, the whole of it. It is the coefficient of that personality that gives good vibrations which people are going to enjoy and are going to feel and that is what that is going to appeal it, to appeal to them.

So the whole idea of our colour skins, of our art, our esthetics, fails. Only God's esthetics are working out in us. We don't like anything that is not Divine, that's not emitting vibrations. Even food, everybody will give vibrations to food, everything that they desire. For example, now I have people who are bad-livered, for example. Say in London it's a common disease of bad liver. It's absolutely liverish, surprisingly and the worst is

Europe. And Europe is the liver of the universe and where the liver is so bad. And the first questions they asked Me, “Mother, what is to be done about awareness and about liver?" I said, “Why? Why are you concerned?" “Because Europe, Europe is the liver of the universe and we are Europeans and we drink all through and what are we to do now?" I said, “Now you have a sick liver for the whole universe.

You have a sick liver.

So be careful about it. You have to work it out." And then they wrote it down what is to be done, these things. They got it. They got through it. They said it is important because they felt not that they should keep their livers all right but they should get the liver of all the Europeans all right, because if the Europeans have bad livers God Himself is going to have a bad liver problem.

See the whole idea changes because you start translating your ideas in relation to the whole. And when you start thinking of the whole that, “Oh, God, by me this is going to be caused and by this everybody is going to suffer” then naturally, not mentally so much as through vibrations, you start doing it. You start improving. I've seen people that when I told them that, “You should not eat this” then immediately they took it. I tell you, no doctor would have had such obedience as I have. But I don't even tell that religiously and I don't tell them that frantically or in any way, but they just start doing it because they don't want to lose their vibrations. If you have a bad liver you get very hot vibrations. Are you getting now? Vibrations.

So this is what happens. This is the liver that gives you heat and this liver must be cured because if liver is bad you can get cirrhosis, you can get this, you can get that; lots of problems can come in and you will be in trouble. And you start understanding your own value, the value of your health, more than material things. Doesn't matter if you have one dress less or one house less; doesn't matter.

First of all, this body should be all right. And that is how the desire that you have a healthy body [works] in a proper way that you should have a proper body that should be the temple of God. *[UNCLEAR* You should get that.] Same thing about your thoughts. You start cleaning them, you start seeing them and you start understanding why these thoughts are coming to me. From where are they coming? These thoughts are not good; they do not give you any nourishment. They are very exasperating and they tire you out.

So you start working on that, you start making your mind, bringing down your mind and making your mind still and going into thoughtless awareness so that you have a tranquil feeling, which is so good, which is so nice. Everybody wants to have that *[UNCLEAR* thoughtless/peace]. I mean, if you can achieve it through your spiritual growth, why not? Then the best part of it that you start seeing your ego and superego; that's the best part. When you start seeing your ego like a big balloon, you see, getting out like that, oh God! And then you'll say, “Mother, this is too much. I've never thought I have such a bad ego." “It's all right. Doesn't matter. Calm down." So they work on their ego and they start seeing it.

And they say, “Oh Mother, this was my ego." Once you start seeing it, it goes down. You cannot enjoy life if you have ego. Ego is the thing that *[UNCLEAR* fills/kills] you completely; it will make you a spoilsport. It's a spoil-sporting stuff, you see. It always gives you joy if it is pampered and the pampering of it comes by spoiling the sport, the sport of the Divine. Such a person is an aggressor out and out and is a problem to everyone and people do not know what to do with him. Everybody will know that he is too much aggressive but they'll ignore. But the aggressor, he is the same as the person who takes aggression, I feel.

The one who takes aggression hurts himself. Why should you hurt yourself? God has made this body so beautiful, with such care, with such love. He's raised it from amoeba to this stage and have you decided to destroy it? This beautiful body, why do you want to destroy it? Why do you want to hurt it? So the superego also starts getting reduced. You start saying, “No, I don't want to do it. I don't want to play into the hands of negativity by which I become a useless temple." Superego people sometimes, you see, have an idea, `Oh, that if we are very frightened of everyone, we are very good,' because Christ has said, “Bless the downtrodden." That's something different, very different to be seen in a very different light which I'll explain to you later on. But the way people have interpreted is that if you become very mild and non-aggressive then you are a very nice person. I mean, I don't say that you should be aggressive; I mean, again the other side should be clean. I talked of ego first so that you don't become aggressive, but the

thing is to be even non-aggressive is all right but we can say that to take aggression upon you is also wrong, very wrong. One should never take any aggression.

I would say Hitler would never have been successful if at that time from the very beginning you would have resisted. But they allowed, they allowed them to take advantage gradually; gradually it grew up.

Anywhere there is an operation like that coming out, everybody must stand against it. This is a very dangerous; it's poison. Few people take aggression, then more people take aggression, you see and those who go on backing up, “Oh, it's all right. It's all right." This is another *[UNCLEAR* world/one]. It grows and grows and grows and this poison then comes up like such a controlling force that the whole world could not control this Germany to save these people who were killed, so helplessly. But they first showed their helplessness in the very beginning, at the very *[UNCLEAR* point/moment] when somebody tells that you should stand up and say, “No, it's not right." So both the things are responsible for this kind of a derail.

I would blame Jews the same way as I would blame Hitler and Germans because why should the Jews suffer so much to begin with? Now when they are free, they have got a land, they are behaving in a different manner. That time if they all would have stood up and said, “Nothing doing. We are not going to stand all this nonsense” they could have taken help from other countries and could have saved those people. That's what it is. You see, “We are sufferers." Go ahead with suffering then. “We all suffer." Why do you suffer? Christ has suffered for you,

already suffered for you. You don't have to suffer at all. You are not here to suffer. You are all here to enjoy, to be happy, to be drenched in His love; not to suffer.

Why do you want to suffer? I mean, this is crucifixion for nothing at all. You are not needed for any more for crucifixions. But these things can create a big problem, I must tell you. This kind of witnessing of *[UNCLEAR* cruel] people, negative people, these aggressive people, this silent witnessing is very wrong.

One should not allow this kind of a filth to come out. Hatred that is developing anywhere in any country, any place, is wrong. Like in our country, India, we think Indians are not like that. They are also quite horrible. In our country also we have a untouchables and touchables. But Mahatma Gandhi came and he just outed them. He said, “What do you mean by touchables and untouchables?" And he saw to it that it was removed. He himself was not from the same community as untouchables but there was a fellow from untouchables also. He was a very great doctor, American, who fought it. He said, “Nothing doing. We don't believe in nonsense." In the same way we have to know whether we belong to the oppressed or to the oppressor group, so-called. We should stand by people who are oppressed and we should really out all such ideas because it's very dangerous.

So it happens that you stand up against all kind of injuries, unfair play. You get the courage *[UNCLEAR]*.

Like Christ. What has He got to do with Maria Magdalena? She was a prostitute. Prostitutes have nothing to do with the saints as such. But when He saw that she was stoned

by these people, out of proportion she was punished for what? He was the One who maintained this truth before you. That courage comes to you, through your spiritual growth and you stand by the right. You stand by the people who are oppressed. You just don't take anything in, like those ideas of bearing up and all that nonsense is gone. As it is, Christ has said that if somebody slaps you on one face you turn the other one. It was at the time of Romans. One had to say it. For egoistical people it is better practice, all those ego-oriented people. Most of the Christian nations, you can say, are that. For them is a good practice that if somebody slaps on one face, you turn the other one. But the people who are suppressed are, those say, we can say people who are living in the most...

[MISSING.] They are great because they were realised Souls, that greatness *[UNCLEAR* you/should] get spontaneously because it is within you, to grow to that. You suddenly grow when the seed of your Spirit grows inward. And you are amazed at your great ideas and you will transcend all these *[UNCLEAR* things], transcending attention and awareness.

So this is what will happen to you.

Because you don't desire nonsense. That's what I said and we desire [ascent] and we get it. You just desire to have whatever you want. Just ask for it; you'll have it. But first we have to enlist ourselves into the kingdom of God. You have to become the kingdom. If I'm not the citizen of England I cannot get the benefit of English laws. If you are not the citizen of God's kingdom you do not get the benefit. He has got His own telecommunication; He has

got everything you won't believe. And the way He works it out, it's so tremendous. It is so magnificent. It's so miraculous that then you start saying that, “All that we have known so far, it's falsehood and it's different." This is the truth which we should achieve. We should establish, mature ourselves and enjoy it. It's just for your enjoyment Sahaja Yoga has come on this earth and for nothing else.

Today I've talked to you on one side. Tomorrow and next time when I come I'll tell you on the other side.

I hope in this center Sahaja Yoga will work out and you should go into the *[UNCLEAR* depth of this] living organization. This is a living organization which does not have any membership, no payments, nothing. It's a living thing and the people will be attracted because of the love that they feel for each other and because of the love they feel for themselves. That's all. Vibrations, these pure vibrations of Divine Love, once you get them you don't want to part with them. You just don't want to part with them.

They are so beautiful. May God bless you.

Now have you any questions today? Are you better now, Brian?

Sahaja Yogi: Yes, Mother.

Shri Mataji: I'm working. Let's have some questions; will be good idea. All right, it will be good.

Some questions, please. Rather difficult. Better ask Me questions. You can't ask. Trouble is, the Kuṇḍalinī has risen about this, you see. Then you are in thoughtless awareness and don't want to then go into thoughts, think

over. Just you can't think of a problem or a question. What happened? Yeah, people are coming. [Hindi.] Now today we have in our presence Mister Pradhan, who is now seventy-six and he came to Me about twelve years back or eleven years back. He belongs to the first batch of Sahaja Yogis. And I've worked on them, about twenty-five of them for two years and after two years only twelve of them got Realisation.

After two years, can you believe it? He is one of them. And he is now going to America because I'll be going to America so he wants to go and pave way for Me. He has come all the way from India. He is a lawyer, he's an advocate and he has *[UNCLEAR* had/that], a very great understanding of Sahaja Yoga.

He's helped Me a lot. Last time when I went to America also he came round. And he is our trustee. And we had to have a trust in India. You cannot even get a hall without a trust. Then we had a trust and today there's a good news that somebody has given us donation of one acre of land in Powa Lake area which is a very beautiful area in addition to what that they had given us.

So I don't know, maybe that people who want to now have places there, they could come and meditate and sit down.

So it's little far away from Bombay [Mumbai], about, say, I think about eight miles or so. It's a very, very quiet area, very quiet area and there's, there are two lakes there. It's a very nice place. And today only I received *[UNCLEAR* a/the] message saying that somebody has donated that. I was very happy that they have donated us because we could not buy any, any land, because I

said that we'll not give any black money nor any bribery or anything and the land has to be proper price. We'll not give extra money, *[UNCLEAR* would be] public money but somehow or other now we got some land there. Now I would request one of the Sahaja Yogis to say few words about Mister Pradhan and then Mister Pradhan will speak to you how Indian Sahaja Yogis have been to these people when they went to India and how they treated them and how they were kind and then Mister Pradhan *[UNCLEAR]*. And Gavin will you, would you like to say few words or anyone who has been to India? Anyone.

Sahaja Yogi: Mister Gavin.

Shri Mataji: About to see some places and Pradhan will say about his, because now he'll be able to tell you what experiences he had. He's an advocate and he'll tell you some miraculous experiences he had had after Sahaja Yoga. Let's see now.

So what I said you, you'll be little bit certified.

Sahaja Yogi: Mister Pradhan it's a, it's a great pleasure for us to receive you here and to be able to welcome you here.

Shri Mataji: And Mrs. Pradhan is also with him.

Sahaja Yogi: Mrs. Pradhan is also here and and we flowe a great deal to Bombay [Mumbai] Sahaja Yogis and especially to the senior ones who had looked after us on many visits now. Personally, I've been with my wife twice to India and both times we've been most generously and hospitably looked after. It's quite a different style from the kind of hospitality we offer here. It's a good deal more giving and more complete. Really, everything was seen to.

Mister Pradhan is such a quiet, *[UNCLEAR* I must/a most] unassuming personality. One doesn't realise what a tremendous work he has done on the administrating side in establishing Sahaja Yoga in Bombay [Mumbai]. I know he's had a number of really remarkable experiences in Sahaja Yoga and I hope he will speak about those afterwards.

We would just like to thank him for coming to our country and wish him every success *[UNCLEAR* back/in] his trip to America which I'm sure it's going to be a very important stage in the spreading of Sahaja Yoga. And I know Mister Pradhan will quietly and efficiently set the scene for Mātājī going in September. And we have something to present on behalf of Sahaja Yogis.

Shri Mataji: *[UNCLEAR]*. But let him speak first of all, then.

Sahaja Yogi: Maybe after.

Shri Mataji: He is My eldest *[UNCLEAR* son now]. When he died he was ninety eight years old his [Hindi.] And this gentleman is no more now, this ninety years old gentleman but now he's the eldest one.

Mister Pradhan: I am going, I have so many thanks for Gavin for speaking very good words about me.

In the first place I had pleasure to meet our London Sahaja Yogis here because I've been to the Lotus Feet of Mātājī for the last twelve years... And I would get practicing or I got a number of instances about experience, about my experience about the, how the Divine Mother's powers say we can achieve a great deal by [the] Self-realisation at the feet of our Divine Mother.

You see, our Divine Mother Mātājī had discovered this Sahaja Yoga to be the unique Sahaja Yoga, by which you have seen that thousands of people get Self-realisation, irrespective of cast, creed or religion.

As explained by Mātājī I think already, Sahaja means born with you, pure and spontaneous. Now about my experience I tell you many people, Self-realised, they become pianists, they get songs [written] that is my experience and whatever work you do, you do it with great confidence and meditate a good manner.

You see the power our Mātājī, the Divine Mother, powers I have to tell you, are really tremendous... I, I must firstly say, I'm a lawyer practicing in Bombay [Mumbai] High Court. You see, you'll be surprised to find the miracle about one matter in my business company. [Hindi.] You see, I had an appeal in Bombay [Mumbai] High Court. It was the second appeal from appellant. And the letter came up before his lordship Dashera's night. As usual my [matter] of appeal was on fifteen of August. That was Friday. I remember that, that was Friday. I thought generally only four or five matters are taken up by his lordship every day.

And Saturday and Sunday being holidays I was quite sure that my appeal won't reach here at least before Tuesday.

So I was on that particular day, I was very busy because I'm a trustee upon Mātājī Life Eternal Trust.

Shri Mataji: He was with us, I remember.

Mister Pradhan: And *[UNCLEAR* that is/at this] reason I was doing some *[UNCLEAR* work/program].

So I was quite sure that the matter won't be and about the whole day I was at Mātājī's residence. On that day, the Saturday and Sunday being holidays, I have called my client to see him in Bombay [Mumbai] trying to attend the Court. But my client came very late. He came to my residence on Sunday and inquired as to what happened about my appeal. Then I told him, “Please wait. I'll let you know." I phoned the advocate for the other side that if he's gone to the Magistrate and enquired as to what has happened about the matter, that they got it on the list or he should explain me. He said, “What? Are you befooling me?" I said, “What happened?" He said, “Pradhan, the matter was argued by you. The matter was disposed of on Friday." I was surprised. I couldn't believe the whole thing. *[UNCLEAR]* at my table, at my agency something has happened. Then I kept quiet. I said, “Very well. I had some misunderstanding about the whole matter." Then I told my client, “Better see Me on Monday in the High Court." Then on Monday I went to High Court. I enquired for the judicial clerk there as to what happened about this matter which you *[UNCLEAR* were/are] *[UNCLEAR* fitting on the board]. He said, “Mister Pradhan, you were here. The matter was argued on that day." “On that day? What happened?" “Some four or five matters were adjourned. Two, three matters were compromised.

So your matter *[UNCLEAR]* at about 4:30. And it is all sort out." Still I was not sure. Generally the judges, they, the stenograph write the judgments. They write the judgments and send it to be signed after two, three days.

So when the judgment was issued by the office I went to the office in the High Court and I saw this judgment is signed *[UNCLEAR]* by lordship. And it that particularly their name, my name was mentioned thrice. Mister Pradhan and *[UNCLEAR]*, Mister Pradhan and *[UNCLEAR]* and Mister Pradhan thrice has entered and also it was given, my name thrice.

So you, you have seen from Mātājī, this is what it is. This is Mātājī's power. I was on holiday, I was not present there and You went there and argued the appeal.

So in the evening, so I went to Mātājī's residence and I told Mātājī, “Mātājī, this miracle has happened." *[UNCLEAR* She was amazed]. Shri Mataji laughed to *[UNCLEAR]*. “Now Mister Pradhan, you are dealing with our President. The Ādi Shakti came there, argued the matter what was in your brain and it was arranged." I said, “These are the last powers used *[UNCLEAR]*."

Shri Mataji: [Hindi.] Mister Pradhan: She, there is one fellow, one Sahaja Yogi, journalist *[UNCLEAR]*. He has also a wife from Baghora, is basically Indian. He had taken Self-realisation at ninety-eight and then Mātājī has come to Baghora from Bombay [Mumbai] as they had some centers there. This gentleman, ninety-eight-years, he climbs two, two floors to visit Her. There was no lift. And he came there and Mātājī was surprised to find *[UNCLEAR]*. You see, you'll be surprised to find...

Shri Mataji: He came on a stretcher, actually. He came on a stretcher. And just to come out, he couldn't walk up. It was nice and they were all surprised *[UNCLEAR]* when he got up and started walking.

Mister Pradhan: And there was, some fragrance was coming, by coming you could see some fragrance it would go.

Shri Mataji: He said, “I got some fragrance. I got up and started walking." Mister Pradhan: He got up and started walking. You see, all of you should get Realisation. Because I think that we have in Bombay [Mumbai] near about thousand of Self-realised *[UNCLEAR]*. You are doing a good thing in Bombay [Mumbai]. You have got a lot of centers. And our London Sahaja Yogis also they are coming to Bombay [Mumbai] and they help us a lot. You see, according to me I had a little to assure you of the power of Mātājī in Sahaja Yoga. Whatever I must have done, I must have done by the power of Mātājī. One thing is certain: She made me Guru and Self-realised, your *[UNCLEAR* elder] Guru. See, look at my age, but look at me. You'll be surprised to find that I am [running] seventy-seven.

But still Mātājī says, “Look at Mister Pradhan. He's working [as a young] man." It's Mātājī's grace.

So I don't do anything.

Shri Mataji: And he is going to America, that's the best part of it, to help the Americans with the Sahaja Yoga. Let's see how many Indian young Sahaja Yogis are going to come out.

Mister Pradhan: You see, whatever work I'll take, Mātājī is going to *[UNCLEAR* help me] so easily.

Spontaneously it happens, spontaneously. Two, three years. I am one of the *[UNCLEAR* so many at Mātājī's feet] and a trustee also.

Shri Mataji: [Hindi.] Mister Pradhan: We have several centers in Bombay [Mumbai].

Shri Mataji: [Hindi.] Mister Pradhan: We have, we have completed a *[UNCLEAR]* and we have very great donations. We got very big donations for *[UNCLEAR* we had to build our ashrams] at Bombay [Mumbai], Pune, Delhi.

So in Pune also *[UNCLEAR* I was] appealing people to help us and what is the good cause. And we have the Mātājī's mission to *[UNCLEAR* assert/extend]. You see, *[UNCLEAR* the mercy/we meet] God gives us the same love and *[UNCLEAR]* of Mātājī to help all the Sahaja Yogis to give them the Self-realisation. To *[UNCLEAR]* we'll help, we'll all continue to give the Self-realisation by [these]...

Shri Mataji: [Hindi.] I'm just telling, he should...

Mister Pradhan: Our Mātājī [is so humble]. I've seen it that when we go to the seaside and when we are on the seashore I've seen it. See, among the ladies on the sea shore [You sleep] under the tree on sands.

I've seen that. She is not particular about any place, whether you have *[UNCLEAR]* bungalow or some *[UNCLEAR]* instead. *[UNCLEAR]*. She just [receives]. Mātājī never cares to look at the account. She doesn't care *[UNCLEAR]*.

Shri Mataji: I don't know that.

Mister Pradhan: She doesn't care what money you have received, what money you have spend which is in human nature. And you'll be surprised to find a lot of issues also in Her work. But I've seen how that She's not taken lunch even till three, three thirty in the afternoon. She will *[UNCLEAR* meet somebody...], Mātājī, go for Her bath and

change later and have Her lunch. And [shows up anything].

Shri Mataji: [Hindi.] Mister Pradhan: Do you eat something?

Shri Mataji: [Hindi.] I'm telling him to tell about the experiences of Sahaja Yoga, how he grew up.

You see, this is the point, is that how one should grow. I think he has grown himself, you see, through vibrations.

Mister Pradhan: You see, one thing is certain. Many become Self-realised. You must *[UNCLEAR* do minimum a] meditation everyday. You must stick up to this Sahaja Yoga. You should not give it up. You must stick it and carry on.

Shri Mataji: [Hindi.] You see how, you see negativity affects, how affected him and how you see, you should be, you should understand how to continue with Sahaja Yoga, despite all negativity, how to overcome it. [Hindi.] You see, small, small things, you see and when I tell people that don't do this they feel very hurt. But he has found out from his experience that whatever I say it comes out of a danger that I *[UNCLEAR* could know].

Mister Pradhan: You see, I'll tell you one experience, particular experience. You see, Mātājī has beyond this power, healing power. By Self-realisation you can cure any people.

So what happened, in Kolhapur city, there's a big city, Kolhapur, Kolhapur, in Bombay [Mumbai] province.

So we had a very good program there. About one hundred people had assembled among the villages. At that time, you see, the hall was full and it was our duty to

see and go around and see that the all new people are doing well, they are just seated.

So what happened there was only one door, entrance door and because at the entrance door there was *[UNCLEAR* a/some] small crowd, an old lady was crying. Mātājī was quite busy with the work, giving vibrations to hundreds of people.

So that lady was crying. I said, “What is it?" “It is about my son, *[UNCLEAR]* so then he became unconscious. As soon as he entered the hall he became unconscious." Then I gave him *[UNCLEAR]*. I cured him, by doing the *[UNCLEAR]*, by giving vibrations. Then he got up. That young man then got up. I've told his mother that, “Please now go and bow at the Feet of Mātājī, that strong Lady here and go." That lady has listened to me. And then the meditation goes on a lower only when you are not at the Feet of Mātājī.

Shri Mataji: Here is just the other way round. In India if you tell somebody you are not to touch My Feet, then they are very angry. Here if you tell somebody you have to touch My Feet that person will never jump here again. Is just the other way round. Because, you see, the power was most of the Feet, you see.

So that's why those who know will jump there, but those who do not if you tell them then you had it. Better not tell. It's a very different thing. And if you tell in India that, “You, nobody has to touch My Feet today” because sometimes are thousands of people at My Feet; sometimes I get swollen of the way they go on touching My Feet. But if you tell them, then that's the worst thing.

The one who tells then it's finished. They don't like such a mention. It's a very different situation.

Mister Pradhan: But, Mātājī, I get very good vibrations from You when I touch Your Feet. I get very cool vibrations. You see, I've, I think the best *[UNCLEAR* of everything is to love] Mātājī. They can take vibrations as if pumping the petrol in Her body you can *[UNCLEAR* get/have the car].

So *[UNCLEAR]* that they were a bit proud. That lady went with her son at Mātājī's Feet. As soon as he touched Mātājī's Feet that fellow became unconscious again.

So *[UNCLEAR* I wondered the and then I said] “Mātājī, I've only seen this fellow became unconscious and I cured him." Then Mātājī looked at me and said, “You are a man of advanced age. You have cured him? Oh, really? So strong is everything in your body. You are now affected." Then Mātājī took fifteen minutes to cure me. I told Her my liver became very hot.

Shri Mataji: He was about to faint himself.

Mister Pradhan: Then She has warned me, “Mister Pradhan you are a man of advanced age. Don't cure anybody. Because that negativity it, it *[UNCLEAR* affects/attacks] you and you can catch it in your body."

Shri Mataji: There should be no sympathy, no sympathy. You should take it easy. You see, sympathy [to form] when you are very strong enough. Otherwise no need to have sympathies with these people. It can attack you so badly, you all will get affected. With one negative person coming in the hall now, supposing somebody comes like that, all will get attacked. You see, because dirt and filth can get always attached to you. But to cleanse it, it's

difficult. To get attached, supposing somebody pours say some sort of a colour, everybody will get the colour. But to remove it it's difficult. That's what it is.

So, one has to be very careful about this negativity. No doubt.

Mister Pradhan: And these people, these persons with negativity, they always *[UNCLEAR* distemper/ disturb/just trouble the guests] and first instance they should be removed from the crowd.

Shri Mataji: Now people have started understanding. Before they used to think it's not good. We should have everyone there. But you can't just bear. When they come out you don't know what happens to you people. But I find there are *[UNCLEAR* thousands that are attacking you people].

Mister Pradhan: So many people I advised *[UNCLEAR]* of Mātājī. We hope of continuing to raise their Kuṇḍalinī by Sahaja Yoga and transform this world full of crimes *[UNCLEAR]* into the kingdom of God. I thank you very much for this invitation and...

Shri Mataji: [Hindi.] Mrs. Pradhan also has been very kind to Sahaja Yoga. Though she's not a, she's not a trustee but she's made lots of nice poems and she sings very well. Now she's an old lady. And she has looked after people very well. And first of all Mister Gān *[UNCLEAR* took really good] care.

This is Mrs. Pradhan. This is the typical Maharashtrian sarī that they wear in India, you see. [Hindi.] [To a child:] Aha, Lucia.

The photograph. You see today because of his trusteeship here.

Mister Pradhan: Thank you.

Shri Mataji: Photograph nahi hai? [Hindi.] Where is he? Then he has gone to get him. [Hindi.] I feel very proud of Mister Pradhan. I wish you people all try to follow his example.

Mister Pradhan: According to me I've done nothing on the ascending part for Sahaja Yoga. It was Mātājī *[UNCLEAR* who has done it]. It's a unique discovery. All of you without Realisation *[UNCLEAR]*.

Shri Mataji: [Hindi.] Those people, now those people who are in charge of America Tour and all that can talk to Pradhan and discuss with him and take his addresses, suppose his address and all those people that are there and also get information as to other people's addresses, whatever you need and then about *[UNCLEAR* the program]. Give him the address of also Tim's so that he can contact. Just tell him what is done so that he can contact. [Hindi.] And Doctor Ladhu was also there No, that is additionally help. I think this is the address so you got it. *[UNCLEAR]*.

Mister Pradhan: Again I thank you, Mother, for Your *[UNCLEAR* help].

Shri Mataji: When he came to Me first, Pradhan, he said, “Mother, I am of a very average intelligence, average income. I am nothing outstanding. And what can I help you? I mean, I'm of no good. Only think I'll be getting help out of You. And how will I be of an instrument to You, of any, any kind of a vehicle for Your powers, I think." But he has shown with his assiduity and

understanding that he himself and whatever he could do he has done tremendously. And he really worked very hard and he seen to it that things are done properly. He is a very efficient, extremely efficient. He used to arrange all our programs and halls and things and, I mean, lots of things, at his age, very efficient, always first to arrive, last to leave, organizing everything and looking after everything and *[UNCLEAR* extremely humble]. Still, it's remarkable to have such people. It is nice to have somebody with average intelligence than have too much intelligence which would be headache, *[UNCLEAR* because they never listen]. And they have a method of avoiding things and say and something you see and sometimes if it was not possible to forget something, do something, he would say, “Mother, please forgive me." But he would never argue out. He'll just say, “Please forgive me. I must have forgotten, or something might have happened” and all that. And it was such an easy thing to be with him because I'm so bad at organizing matters, I tell you. Even I am so bad at money, you know that and I never know how to keep accounts and these people have been organizing money and I have nothing to do with their money. And it's true that I'm very bad at all that. And it is these people who are so sincere and honest that they have looked after this money and they have looked after everything. And that now they have been able to produce that land and that is very remarkable. But I would say this is Sahaja Yoga that has given them all these powers to *[UNCLEAR* manage] all these things and it has created really tremendous people out of Sahaja Yoga, no doubt. May God bless you all and I hope you all people will also

see the blessings of Sahaja Yoga and will rise very much in estimation of God.

Mister Pradhan: You see, one thing that I used to do is total surrender to the Divine Mother, total surrender. Not selfishness of mind, nothing. Then you will get a very cooling effect.

Shri Mataji: This is all right to say in India, not here. Here if you say total surrendered they'll think they have to surrender house or car or anything. It is your ego. And ego must be surrendered. What else? You see, to surrender, the ego it's not you. You have to surrender your ego so that you get rid of. That's what it means. But that is understood more in India than here. Because if you say `surrender' people start thinking *[UNCLEAR]*. This is something, you see, an Indian mind is different from a developed mind and this is how things work out differently. But I must say there are great saints who are born here.

You are all great saints to be born like this. And they are amazed sometimes, these people are amazed the way you are dedicated to Sahaja Yoga. I mean, you have taken to it; shows that you are spiritually very tremendous, no doubt about it. I mean, if we are so that from childhood we are told we must have control on our attention because if you have to attend to God, we must get to God. From childhood we are told this. We have to get to God and we have to achieve our Self-realisation. I mean, My grandchild was born and the message that I got from an astrologer because we always have an astrologer as soon as a child is born. And he sent a telegram saying that it's the greatest thing that her Guru

is in the house, that her master, the teacher is in the house. And it was the biggest thing for whole family. “Oh, the teacher is in the house. That's great. Child doesn't have to go out to seek this." Of course, I mean, this is our traditional way life in India. But now, of course, we are getting also westernized. That's different. But normally it is so. From childhood it is told that you have to take your attention to God. The attention has to go to God. But here to say something that *[UNCLEAR* Divine asks for] total surrender, what is the gain? The gain is God. The gain is your Self, is your Spirit. But that is, once it is, is still in your mind, you think that is the simplest you can do because the highest you are going to get.

So the difference is of understanding, but in any way quality-wise I *[UNCLEAR* must/would] say you are much better than many Indians put together, no doubt, very high. Specially Indians here, I don't know what they are doing here. I don't know about them.

So no more questions, that [he] can answer you, because he's going now for, it won't be any other time.

It ought to be simple. If it is complicated then it's difficult. This truth should be simple. All right. It's working. Please close your eyes. Now first what you will feel is that there is no thought within you and then you will start feeling the Cool Breeze in the hands. Close your eyes. Especially close your eyes. But this is just the beginning. This is just the germination. You have to go further with it and you have to grow into it. Better. All those who are getting Cool Breeze raise your hands. Now, all of you. Those who are getting Cool Breeze raise your hands, higher. All the Sahaja Yogis also raise your hands, those who are getting

Cool Breeze. All the Sahaja Yogis also. [Hindi.] Now those who have come for the first time and are not getting Cool Breeze, raise your hands. [Hindi.] It's good. He's got it. You felt a Cool Breeze? *[UNCLEAR* You can see it on the hands]. [Hindi.] All right? [Hindi.] He is a realised Soul. This is not getting? What's the matter?

Sahaja Yogini: *[UNCLEAR* He enjoys it by concentrating].

Shri Mataji: Forget now. Come. Here. Feeling the Cool Breeze in the hands? Are you feeling Cool Breeze in the hands?

***Contents: 1981-06-29*, Public Program, The Conditioning, Caxton Hall, London, UK**

The other day I talked to you about the left side... ah power that we have by which we desire. In Sahaja Yoga language we call it as Mahākālī power. And this power gives us the left side which is our subconscious. And the subconscious which gives us the conditioning. Through our subconscious only we become conditioned.

Now how does our subconscious takes the conditioning? In between the thought there's a very little space which we can call as the silence, as the present. But the thought that comes to you rises and falls off, stops for a while and again another thought starts and falls off. The first thought that rises, we can see the rising of the thought, not the falling of it. And when it falls it goes into the subconscious. Another one also rises, it rises and again it falls [and] it goes into the subconscious. That's how our subconscious starts building up.

How do the thoughts come into us? Thought comes to us because human beings, when they look at a thing, they

have a method of projecting their mind into it. If you have got a blackboard I can tell you how it happens. Can you close it? Ha, wipe it out. I wanted to talk about this subject but see it's rather complicated. But we have to somehow or other face it sometimes in life.

[Shri Mataji draws on a blackboard.] This is the brain of a human [laughter]. *[UNCLEAR* This is/Isn't a] special type! It starts as a little thing like that, you see, then grows up into a at surface, then grows on rising like that till it becomes this kind of a thing which is the area, you can say, of the brain this develops up, go on rising.

Alright.

So what happens? The energy that falls out of it, in the very childhood one has a very long type of head, when the mother is pregnant, the child is in the foetus stage, in the foetus stage it happens that, second month or so. Then, the energy coils in three parts, one like that, one like that. This is one energy, that is Brahma Shakti. One energy. Because there are three parts it gets divided into three shete.

So there's not *[UNCLEAR]* we'll talk about this. This when it comes here, it passes through [drawing on the board for a while] we can say, two densities, because, you know, we have two matters, white matter and grey, into two densities and that's why and inside is a hollow.

So, because of it's different densities it goes into a refraction. Then this one also goes into a refraction.

Then my head is so heavy and I have to tell you something. [See Figure 8.] [Laughter.] Now, this thing has to, now, has to go into the verdina abdomina, means

the spinal cord, all right? This is here, something like that.

So it has to divert itself. When it goes like that, here, I don't know if you know the principle of parallelogram of forces. *[UNCLEAR* This is] through, breaking through a component and this goes like that.

So you have one component going down like that and the one going like that. In the same way it happens to this one also at this point, you can say.

So we have the attention of the human beings are going out.

Now this one that is going down is waking up our sympathetic nervous system. And this one are [is] going down and this one are [is] going out build up our attention which goes to things. Now [if] it falls, supposing, on to any, any, any matter [then] this reflects on it. You see, this attention does not know what to do, it goes and gets involved into it, carrying this. Like English going to India to dominate. That's how we must *[UNCLEAR* tense up]. And when, when it is stored into it [drawing on the blackboard], like that. This is how the two systems turn off. This is the subconscious. This is the supraconscious. This is the superego. This is supraego. [See Figure 8.] Now, to take this attention inside is the problem.

This attention has to go to the, to the Spirit. It's not sort of reacting there. But this attention has to go to the Spirit. When the subconscious acts, for example, I put My, say, attention onto this chair. Alright? So now, if I'm not attached to it I see it just as a play. After realisation I can see it. But before realisation to me, this is a precious

thing. This is my possession, this is my home and this one is a[n] emblem of some sort of my greatness, whatever it is. All these ideas come to my head. Then I get involved into this one.

Then this becomes a conditioning factor. Supposing something happens to this chair, then I'm finished! [Laughter.] I may even become mad. I can go to the lunatic asylum [laughter]. That's possible, people do. I mean, for something material they can go into madness. But this has nothing to do with you, see it's nothing, it's outside, is outside, it is not inside. Here we are.

So they devise methods. These are make-beliefs, specific make-beliefs. And the subconscious gives us a make-belief. But once I've heard, in a way I was laughing at it and say that “I believe! Of course I believe.

I have faith!" What, what is it? “I believe in God." “So, are you obliging God or yourself?" It's difficult for us to understand that by your believing or not believing God exists, whether you like it or not, He exists. But then the projections start moving in such a way that we start even moulding Him according to our conditionings.

For example to an Indian, God must have red... For an Englishman the God must have, I shouldn't say, but a cigar [loud laughter]. For a Buddhist this God must have long ears hanging from them, imagine! Or say to a Greek, God must have mustaches. [Loud laughter.] *[UNCLEAR* So it's like that], all the time.

So that God has to conform to all the ideas of human beings, alright? Now, He is to be born somewhere, poor thing He has to be born.

So how to be reborn then? I mean, it is too much to say about God like that. He's the One who has created this Universe. In that huge thing they are not even a speck! And we are deciding about Him everything. It's rather mysterious, isn't it? How can an ant decide about Caxton Hall saying that, “Oh, this hall should not have been there?" This is nothing relatively: it's much more, much, much, much more. But this is what happens to us because our attention is just splashing out.

This has also given us the freedom to be ourselves, in the sense ourselves, means I, `I'-ness, “I am such so and so” comes to us because the rising of ego and superego is there, cuts you out completely from the All-pervading Power and you become an egg-shell. You become an egg. And the shell, once side is the ego and another side is the superego.

Now pertaining to all our seeking also, we use the same method that “I think." First starts with “I think” you see. Whatever you think is not God, because if you could think then He is not God. This is the absolute logic. He is too great that you could think about Him. You can only become one with It. It would be like a little bird trying to fathom the ocean.

Now when we start our seeking, we come here with our conditionings. And the subconscious, today I'm talking about subconscious, not so much of ego but of subconscious because I started talking on subconscious, is still there. And the worst part of the subconscious is, the worst of all, you see, that if the personality is ego-oriented then for him the subconscious is the most important. Such a person becomes a very obstinate

seeker, very obstinate. He may start judging a person according to one subconscious. For example, “I don't like." And we become judgmental, you see. “I don't like such a person." Now, “Why?" “Oh, I just don't like." Then the ego comes in, to explain it saying, “Oh, must be something wrong with that person which I have felt through my Spirit." I mean, Spirit you have not reached as yet. No, not yet. We must accept. Sahaja Yoga is not a make-belief. It is absolutely down-to-earth Truth. You cannot believe that, “Oh, I am spiritually all right. Yes, yes, I've got it. I've felt very much better." “I felt very much better" is not the way to look at, at your seeking. And when the ego becomes in charge of that subconscious, then seeking is very difficult, because ego starts deciding everything, you start judging everything with ego and the subconscious is such a dubious thing, very dubious.

Now, I would say Freud did work on the subconscious area. He did work on the subconscious.

[Aside:] Yes, do you want something? Yes. It's all right? All right.

It is a very dubious thing within us. Say, somebody's mother has got green eyes: the boy will be fascinated by green eyes. Supposing the mother is modern and has got a bald head but uses, say, a wig, all right? And if she doesn't change her wig much, then he may like a particular type of a wig. But if she, say, changes too much he may like a bald-headed woman. Can't say.

So the subconscious works out with such transitory things that to get it fixed also is a difficult thing and, when it is fixed, to remove it is even more difficult.

Some people become routineous in their nature, absolutely routineous. They walk like blind. They get up early in the morning. They take their tea. The newspaper has to be there. If newspaper is not there they cannot do anything the whole day. Newspaper they must read. I mean, it's good that we don't read newspapers. But he can't live without it.

So he must have this newspaper before him. He takes his newspaper and the counted number of sips he'll take of the tea. Then he will go into the bathroom with counted number of steps, will take the bath, the same way, absolutely the nail cutter here, this there, there, there. He just walks like this, [moves] on. Absolutely joyless, lifeless life he leads. It's a routine. Another person is a topsy-turvy! Both the extremes come from our subconscious. If person is very routineous and meticulous he could be a very bad headache. He's a very unpopular person. He gives us a headache because he is used to a meticulous thing, he makes everybody meticulous, he wants everybody to be meticulous. If somebody is not meticulous then he gets after the life of that person. And I've seen some people if there's, say, such a person coming in the morning they run away and have a bath in India.

Miserliness also come from such habits. All such headaches come from subconscious. But to them, because they have their ego, they say, “No, I'm not miserly. I'm economical." Ego finds out words, you see, to make something ugly look very nice. And this is how we start of looking after our subconscious and nourishing it, nicely it's coming up.

We do not want to face ourselves. Even before realisation we can face ourselves: “Then why are we so abnormal? Why anyone would calls me a bore? No one likes my company. I have to assert myself too much to be in the company of others. There is no magnetism left in me. What's the matter? Why? Why that people do not want me? Why they want to get rid of me?" But ego is something, “Oh, very useless. They are good for nothing. I am such a higher personality. I am such and such. I am a person of taste, I'm this. I'm that." And such people can end up with dogs or maybe some cats, I don't know, they, some of them end up with even snakes. Not with human beings.

The subconscious has so many problems which Freud has brought forward and said that, “This is the subconscious, subconscious." But he was such a limited man and a half-baked person that he himself suffered from all the patients who came to him and he got all their diseases and really, he became a case of complete `Materia Medica'.

So whatever he has said has definitely helped us to see how many varieties of subconscious attacks we can have but, at the same time, he has given us no solutions and he has made us very one-sided, that is, “Do not allow yourself to be conditioned. Do not allow yourself to be conditioned." Now, when we say like that, our subconscious may not be very much powerful.

But the other side is even worse. The other side is a terrible, absolutely terrorizing thing called Mister Ego. If that develops then there is no end to our nonsense. Then

you become nothing but `I', like a stick, you know. Anybody comes there he knows, you are that.

So what to do, is the problem. The dilemma before people is: what to do? If you get rid of your subconscious then you will get your supraconscious in the sense that you start planning for the future.

Then, “What's wrong? What's wrong?" The family system breaks down, the sinfulness is accepted, there's no righteousness in life, nobody can talk of righteousness, there's no worry about what you are doing to the society or to yourself. “What's wrong? If I am doing like that, what's wrong?" It goes on like that.

So the other side develops.

Now the first side, subconscious, gives you the deadliest disease called cancer. Cancer comes from the subconscious area not from the supraconscious. But from supraconscious you develop diseases like heart, paralysis, diabetes. Cancer is developed because your subconscious is overloaded. It will work out through ego, doesn't matter. Means you create an emergency within yourself. If you create an emergency within you, physical, mental, emotional, any kind of an emergency, [this] means you are loading your subconscious. For example, I go on rubbing this finger all My life, you see there are people funny, funny type we have. There are some called Jains, you know. I don't know if you have heard about them. In their religion you are not supposed to use any razor. I don't know why. They are specially against razors, you know, absolutely.

So you have to pluck your hair, all from all over with your own hand. They go on plucking their hair because they

are not supposed to cut it, you see. You cannot use razor. Can you imagine? That extreme. Is, is the truth.

So they go on plucking like this, all the time. And even if [they] have lost all their hair, still they'll be going on like that. This can develop an emergency in the different muscles, into different hands. Anything can develop an emergency, like as you suggested last time, that if you put a metal in the body it develops an emergency, just if you introduce the metal. As soon as an emergency is created the subconscious starts wriggling, pumping, expanding. When the subconscious starts expanding then we move to the left hand side. The movement to the left hand side gives us a very dangerous position because in the left hand side is the collective subconscious. All that is dead since your creation, since your creation, I'm again saying that, is all there. All the kinds of vegetables that have gone out of circulation of evolution, all the kinds of matter that have gone out of circulation, all the kinds of, we can say, insects, animals and the last human beings. All that is dead exists in the... within ourselves, within our being. Everything exists within us. We don't have to go outside.

So we get exposed to that very dangerous area of subconscious, when it expands. You may not be consciously conditioning yourself. For example, people thought it's too much conditioning to wear the grey suits or, say, the tail coats. It may be too much.

So they said, “All right. Let us take to another style of life." So they said, “Oh, this is all junk. Let's dress up in such a way that we look like nothing on Earth." All right,

this is an emergency. Because you look so funny, you are to be attacked.

Simple thing is, say, London is a place where you must walk with an umbrella. Actually, you play your hockey and also football with an umbrella on. And the person who walks without an umbrella during rain in London, has to get cold. He may say, “Oh, I don't care. You see, I am not formal." That's how the dress develops. That's how the attitude develops. Now, he says, “I'm not going to be conditioned. No, I'm not going to carry an umbrella. If it is raining, doesn't matter. I'm not going to have raincoat or anything, any appendages like that, you see. I'll just walk in my same suit." He'll really swim through, I tell you. You just can't do that. You are a human being. You are not a hippopotamus! [Soft laughter.] But they want to be hippopotamus when they are human beings, because of ego. This is what it is. Either we want to be monkeys or we want to be tigers or we want to be lions, but we don't want to be human beings that we are, because of Mister Ego, which teaches you that you should be something different. These things create an emergency and these emergencies lead us into areas which are very dangerous.

Like, I would say, there's a fire, supposing, in the other room. All right, is an emergency created.

Alright. What happens that when the fire is there we get so frightened [that] we enter into another place.

And from fire to frying pan we may land up into something else.

So to be normal, to be in the center, as Buddha has said, to lead a normal life and not to be unique and abnormal.

Sometimes they do it just to create a nuisance value, that people should be able to see your faces. That's why some people walk with red hair. All sorts of things people do. Be normal, in the center.

And to do that you don't have to do anything. You are born a normal person, lead a normal life. I mean, if you are abnormally, handicapped or anything, that's a different point. But even normal people behave like that. Like this, your Grand Prix and all those things that you do. I mean, you have got hands, feet, everything, thank God for that. After some time you find a person without one leg. “What [happened]?" “I was in Grand Prix” begging on the street with a violin in the hand.

All these subconscious problems come to us and stick to us because of our ego. If we do not identify ourselves with this subconscious and say, “No, no, nothing this. This is not important." It comes from a very small areas. Like I can tell you about Indians very well because I have seen it very clearly. They are very particular about washing their hands, having their baths. They must have a bath every day, can you believe it? Even in England. I'm not guilty so I can tell you. And then take a bath in the morning and then go to their work. They don't feel all right without that. They don't feel all right, you see, this is the point is. And they die of lung cancer in this country. Day in and day out, day in and day out, for years together. “Oh, I never catch cold. Nothing happens to me. I'm very happy." And suddenly you find they get a very galloping type of a cancer.

So we have to know that we live in a nature, in a country, in a place; we have to adjust our body to that. We must

respect that. You must respect that nature and not to fight it. Like we are modern people, accept that we live with these machines and things like that. What's the use of growing your hair like a primitive man? You cannot go, you cannot exist [here] as you exist in dense forests of Amazon, can you? We create such emergencies for ourselves by doing these extra special things that, that tells upon our subconscious and we become very much prone to cancer. I mean, I would say that people can develop cancer from a small thing like you have got those people who announce, “His excellency, such and such [is] coming." He may find after some times he becomes “his excellency" in the throat. It is possible. Overdoing it, all the time doing the same thing. Shaking hands now: I mean sometimes really we shake hands with six hundred and seventy, eighty people. I, I, I do that. I think, “Now, what's going to happen?" Just going on shaking hands with people. But change it a little bit. Now it has been on from I don't know, George the Third or whatever it was. It's still on. It's on in our country, same way, in England and all these, you see, habit formations like that, that everybody must conform to that subconscious. I mean, sometimes for a change, let us say like this, sometimes shake hands, sometimes walk about. No! It's the same form on and on and on. But I am not against tradition by any chance. For that I must say that traditions which are real traditions are always helpful. But traditions which are just mechanical...

For example, paying respect to elders, paying respect to a saint. Now these days, of course, you can get saints by the dozens.

So if you pay five pounds you can get a `saint', standing there to take some more money from you.

So, you can get saints and saints and saints. But still, all such traditions which makes you sublime, a higher personality, they are helpful to life.

When I say that subconscious is not to be nourished and is to be looked after that I do not mean by any chance that you give up your good traditions.

So there are some bad things and there are some good things that we need. And the good things we need are susamaskaras, are called as good conditionings. There is no word in English like `su' but `su' means the one which is good for your Spirit, so the samaskaras or the conditionings that are good for you. Outright rejection of the complete subconscious is as stupid as outright cancelation of your supraconscious. You have to balance it. You have to keep a balanced life between the two.

Now when they break traditions they break it so much, so hard, that the whole set society must crack down completely. Can't you do it little bit? Must you crack down everything? And that is how another kind of emergency settles in, in society.

Now, today which is the emergency which is the worst of all, for which you are not aware of? I think you people are not aware in the West which is the worst of all emergency that is settling in, in every human being, is a sense of insecurity. Your medias, they blast you every morning. You start feeling, “What's happening?" Shocks. Anywhere you go you find, “Oh, God, this disaster, that disaster." They never talk of anything that will give you peace, tranquility, that will console you, make you happy.

You go home, your wife quarrels with you with such an emergency, what happen? “Oh, the tap is out of gear and you never did this. You didn't do that. You don't do that." It could be vice versa; I mean, `wife' means `husband', `husband' means `wife'. But the emergencies we create for others, do we understand that we are creating cancer for others? Do we? A man marries a woman, just see, this is very subtle one has to understand. And then he says, “Oh, what's wrong? I'm just friendly with someone." Like that. He flirts with other women, he has a keep or something. The woman develops insecurity within herself and she develops a horrible disease called as breast cancer.

The insecurities that develop within us, if they are carried too far by us, you see, by people who think, “Oh, God, how insecure I am." And to overcome that they end up their lives in the pubs and things like that and think that they can get rid of their problems are even worse, much more vulnerable, those who try to escape the truth and go into subconscious more. Like you see here, [if] there's an emergency.

If somebody runs into this room, there's safety, but supposing you run into Scotland Yard! What will happen? It's like that. Then emergency develops if you try to run. You might land up into very, very serious trouble. Face it. If your husband, husband is misbehaving you get after him. Tell him, “This won't work out. You have to be a faithful man. Nothing doing." And you see to that woman that she gets out. Give her two, three slaps, doesn't matter. She deserves it. She has no business to meddle

with your married life. If the wife behaves like that, slap her nicely. She has no business to be infidel to you.

Solve the problem. But do not be a person, “Oh, I don't want to say anything. Let it be. Now he is in love." Blow off such loves and things which creates problems for you. Just go and finish off all these nonsensical things. This creates horrible emergencies for men and women, the worst of all for children.

We need peace. Human beings have to live in peace. They are beautifully made. They are made with such care. They are delicate beings. They are not to be hurt, they are not to be tortured, they are not to be troubled. Try to be kind to them. If the parents are not kind to the children, if a person does not have his parents in childhood, he is a volcanic personality. You have to be very, very kind to other people and nice to them. Do not create emergencies in their lives. If you create emergencies in their lives you are responsible for their troubles and their diseases. One must realise that human being is the most delicate thing that God has created so far. When you really love human beings as a whole you will realise this. And you will be amazed how we handle each other: the way we shout, the way we scream at others.

There's no delicacy of handling of other people. And that's why, as I said, that if you are unpopular for your meticulous nature or for your overasserting or for your ego, you must know that you are creating an emergency for others. Ego might give you a satisfaction: “Oh, I've done her right, that's what. I've done him right. It's good

for him. Let him have it." But there is God above us who will judge us.

But when we talk of the subconscious, you see, we suddenly go into extremes of that also. It's something, human beings are always to be said, “Don't go too much this side." Supposing you fall, this side you fall or you go that side and fall, you fall, isn't it? Is it that when you come this side you do not fall and that side you fall? So both the sides if you move, go to extremes, you fall.

So both the sides must be saved and that's why I must warn you, before I stop this lecture, that when we go too much to the subconscious and we worry too much about the subconscious, then, what happens? “Oh, don't say anything. Let him do what he likes. He is doing anything. I shouldn't say anything. Why should we be harsh to them? And we should not hurt after all. Whatever he's doing, he's all right. Do not hurt him." Even [if] a murderer comes before you, [if you say] “Oh, please, please, don't say anything to him. Now he's not a murderer." This, this is going to another side. This is called as kaivalya in Sanskrit, in which people give up their weapons, like Arjuna did.

Arjuna was a disciple of Śhrī Kṛiṣhṇa, just like My disciples here, you know. He was also there. And when the war came, I mean he was a great warrior till the war started. When the war started he said, “Oh, Kṛiṣhṇa, what's the use of killing these? They are my brothers and my sisters, my teacher, my revered elders. How can I kill them? Just for a piece of land. I cannot kill them." He gets into that subconscious mood. And on this base was based Kṛiṣhṇa's philosophy. Those who can read through the

lines can see that he tried to establish that this kind of a non-violence of a poor person, of a weak, is no non-violence. It is cowardice. It's kaivalya. Even the non-violence of Arjuna is cowardice. For He said, “Who is killed? Your Spirit is never killed." But for the religious establishment, religion doesn't mean, I mean the Wars of Roses and all that, I mean the religion within yourself, for standing up for the truth of any cause is the war of Dharma, is the war of sustenance, that sustains the society.

So you have to rise against all such things. You have to fight it, because if you fight for that, you get your moksha. And if you live, people will call you victorious. It is a very balancing factor.

Like, many people tell Me, I mean they have told Me many times also that, “Mother, why do you criticise the fake Gurus?" What should I do? Should I garland them? These are horrible devils who were born before also and were killed by Goddess. And today I see them so clearly and should I go and say, “Oh, you great people?" What should I do? Kṛiṣhṇa has said that, “Whenever there is fall of sustenance" “Yadā yadā hi Dharmasya glānih bhavati Bhārata” [meaning] when it goes down, the righteousness falls off, then “vināshāya cha dushkr.tām” to kill, to destroy these horrible negative forces, “Praritrāṇāya Sādhūnām” “to save and to sustain the saints” “Sambhavāmi yuge yuge" “I come in every age in human form." [Bhagavad Gītā 4.7-8].

It was Christ who on the cross said that, “Forgive them, oh Father, for they do not know what they are doing." And the same One took a hunter and hit these people

hard when they were making money in the name of God! We never see the balancing factor in life, that's typical of human beings. If they go on to one side they'll go on to one side. If they go on to another, either they become Hitlers or they'll become some sort of, I don't know what to call them, some sort of people who are, who have no backbone, nothing, cabbages. You are human beings and the human being has to be in the center. And this is what always I try to tell you that when I talk about subconscious, I want you to have the balancing thing and this comes to you through wisdom of Sahaja Yoga. Because when you get your realisation you get the vibrations flowing in the hand. And you can find out when you lose your vibrations, because that's the time you are losing your balance. This cool, this Cool Breeze that's flowing through you, it's manifesting the Holy Ghost within you. This is the Brahma Shakti and that suggests, “Oh, you are going into imbalance." But Sahaja Yogis, specially in England, are very intelligent people. Specially in London they are even extra intelligent. They make a politics out of Sahaja Yoga also. It's nice to be in politics.

So that they claim, “Oh, we are communists. We are this. We are that." They say, “All right, we are Sahaja Yogis and we have to fight all such forces which are against us, against our Self-realisation, against our emancipation." But we carry on with all these weaknesses. We go on living with them. We do not work out simple methods of Sahaja Yoga to get rid of them. We are quite satisfied with ourselves as we are.

We do not grow, because we have an ego which says, “Oh, you are all right. Oh, Mātājī was very kind to you.

She smiled at you." God knows what it meant! Or “the vibrations are all right. Yes, yes, perfect. I am very good. I am nothing. I am not doing anything wrong." That is how they live. Either one has to change or one has to spare God forever! You cannot stand on two stools.

It has been My experience now because I worked in London itself for so many years that even now the Sahaja Yogis of London every time require a reminder that you have to cleanse yourself, keep your mind clean, your heart clean. Because Mātājī, perhaps, is a good speaker you just come here, listen to Her and forget about it. It's not going to help! My lectures are just useless, absolutely useless if you cannot rise up to the point where you feel you are really clean. You all have to work it out. Do not justify it.

For human beings it is important to know that, after realisation, you are attacked, much more than you are attacked before, temptations are much more. The Satan himself came to tempt Christ, because he knew that Christ was so powerful. In the same way when you are saints the temptations come to you.

If you yield to them, then it can be very dangerous. We have to know that as we are delicate, we have to be careful. But as we have the power to overgrow these things as Sahaja Yogis we have to take arms into our hands and fight ourselves out.

We have to create such Sahaja Yogis in London that they themselves become the advertisement.

As today we were discussing what to do about Sahaja Yoga, how to advertise, how to do this, nothing works out. What works out really is a pure Sahaja Yogi, a good

Sahaja Yogi. Example is of one Mister Dhumal [from Rahuri]. He went to the Commissioner's Office in Pune and while dealing with the thing, maybe Indians are more sensitive to saints, they recognized that he was a saint. They said, “Sir, will you please tell us who is your Guru?" He said that, “I have a Mother." And all that office of that commissioner is today [in] Sahaja Yoga, Sahaja Yogis. One person just changed the whole thing, transformed it.

When we think of organizing things for Sahaja Yoga and all that, we must know: are we ourselves organized to that extent? Alright, Mother works very hard, She cleanses you, She works for three, four hours, She'll cleanse your subconscious, She'll do this. But how are you yourself? What is your own picture about you, yourself? And this is important, very important for all of us. It's a very important time we are in. There are so many seekers who are getting just drowned. For no fault of theirs they can be lost.

Every Sahaja Yogi has a duty towards his Spirit and towards God Almighty that he must try his level best to keep himself beautifully shining and shining others with joy, happiness and bliss.

May God bless you all.

We have to make one thing very clear to all the people, new people who come to Sahaja Yoga. Supposing somebody has a background of a terrible black magic training and all that, or somebody is a teacher, say, of say TM or a teacher, or a Gururaj business or sort of a person, you see, if you have all this kind of background you have to be extra careful about yourself! You have to be extra careful because after realisations of people,

even here in the hall, they are terrified within yourself [themselves] and they would like to run away. But when you are alone they will try to tempt you, in the beginning.

So after realisation you have to establish yourself with very great care. Otherwise, you can be lost, you can be in trouble. And then don't blame Sahaja Yoga for that.

Whatever is Sahaja Yoga, it is. You cannot mould it. It is the way it is.

Whatever background you have, your subconscious, wherever have you been, you please remember that, that you have to be very careful. At least for a month, you must be very, very careful and see to it that you do not expose yourself to these old environments. I would suggest that you better keep more to yourself at least for seven to ten days. Do not go out too much. Keep to yourself. You are precious things for God. He looks after you, no doubt. But as you have been through so many horrible things it's possible that you might be attacked. And then don't blame Sahaja Yoga for that. That can happen, has happen to so many people I know of.

So be careful after getting realisation. Like the seedling, when it's sprouted, how we are careful with the seedling for some time till it becomes a tree. We [are] not so careful with the seed, we are not, but with the seedling, it's so delicate. That's how you must look after your realisation. That's how you must work it out.

Can I have questions from you? [Shri Mataji's small granddaughter has a question, a complaint about another child!] [Hindi to Her niece.] So this is a question coming. [Hindi with Her niece.] Now, is there any

question? Little loudly. [Hindi with Her granddaughter.] Say it a little loudly for Me.

Sahaja Yogi: *[UNCLEAR]*.

Shri Mataji: Gavin, you come here and just tell Me. I'm just... Today My ears are blown inside out, you see. I've been working on someone which has really killed Me in action! Just ask, what he's saying. Now, just whatever he says, repeat it. Ha. Just ask the question please.

Ha.

Seeker: Your Holiness, you spoke of being attacked and picking things up from others. May I ask if one should try to avoid that or whether one should just accept it?

Shri Mataji: Alright. Sit. Good question. He says if you are attacked whether one should avoid it or one should accept it. It's a very simple answer. Now, any Sahaja Yogi who can answer it? Let's see.

Now, testing point! [Nobody offers an answer.] Ah, such simple things, I tell you. What happens to the intellectuals? [Laughing.] Come along. No answer? Hā...

Sahaja Yogi: Just stay in thoughtless awareness.

Shri Mataji: That's true, but you know, this question is very, very straight. If you are attacked should you run away from that or should you face it?

Sahaja Yogi: Face it.

Shri Mataji: Ah?

Sahaja Yogi: Face it. Endeavour to face it.

Shri Mataji: No, no, not necessarily.

Sahaj Yogini: Compassion.

Shri Mataji: It's very simple, I tell you. It's very simple. It's this: that if you can face it, face it.

Otherwise, you run away. [Laughter.] There's no need to face. Forget it! We are not responsible for all these mad people. No. With the speed of the five hundred miles per hour if it is coming to you. It's very simple. Again the wisdom. This is the balancing part. You need not. If I say `face', doesn't mean anybody coming you face. Measure it up. Alright? If you can, manage it otherwise, take the other course, makes no difference. In Sahaja Yoga you are not branded as anything like a man with a sword. You are a man with a sword and also a shield. If it comes to the shield, alright, have the shield on. [Laughing:] And you can place the shield into his hands and run away, it's all right. [Laughter.] We must learn; this is known as Kṛiṣhṇanithi. For this I will tell you a very simple example of Kṛiṣhṇa's style. He's called as Ranchordas, the one who ran away from the fields. Imagine, Kṛiṣhṇa's name is Ranchordas, the one who ran away from the fields. You know, it's such a shameful thing to run away.

There was a horrible devil who was given certain boons by Brahmadeva. And he could not be killed by normal methods, you see. And Kṛiṣhṇa knew that He won't be able to kill him with His sudarshan Chakra.

He didn't want His sudarshan Chakra to be spoiled, you see, the thing, that discus [that] He used.

So He knew about a big sage who was meditating in his sleep, in a cave, very near that battlefield. And this sage had a boon that “As soon as you will open your eyes from this meditation, the first person you will see will become into ashes." So Kṛiṣhṇa started running away from the field, you see. People said, “Oh, look at Him! Like a

coward He's running." But this devil would not give in, he started running after Him.

Kṛiṣhṇa ran very fast you see, played all the tricks, illusions and He ran. And He was covering Himself with a shawl, like this. And this sage was sleeping there. He went and very delicately He put His shawl on top of that sage. And he was still fast asleep. When this fellow followed Him into the cave, Kṛiṣhṇa had hidden Himself. He went into the cave, you see. And he thought that was Kṛiṣhṇa who was sleeping there. He started saying, “Hey, you Kṛiṣhṇa, now You are sleeping here, You are tired, You ran out of the field, but I'm going to kill You." And as soon as he said that, this fellow got up and looked at him and the fellow became into ashes. [Laughter.] It is tomfoolery to fight someone who is going to trouble us. Why should we? But if you can face up to someone you should. Then you become so very strong, like Me I should say, that you don't run away.

But sometimes I also run away, I must tell you! [Soft laughter.] As I get fed up sometimes, the way things are. Not from demonic forces so much as from some of the Sahaja Yogis. I see to it that they don't see Me anymore. Because they never improve. They always become tools, instruments in the hands of Satanic forces and bring horrible things to Me. Then I don't want to have mosquitoes around, isn't it? Then you want to put a mosquito net around you, in the same way. If you don't ask mosquitoes, `You come and bite and I'll bite you.' So it could be on any level. We have to judge with our wisdom.

One must know that Sahaja Yogis are the most important thing in the whole creation today. One should not become egoistical, of course, I must give the balance, but they are, no doubt.

So we should know how to preserve ourselves and preserve for what? Not for pickling out yourself but for fighting.

But first, preservation is important. If you are not there, what are you fighting with? So it's question of wisdom. It's very simple. Sahaja Yoga is so simple, no complication. Like this, you judge everything.

I mean, these norms of human acceptance is like, you see, you are a big hero, even if you cut your nose.

That's not in Sahaja Yoga. You are not going to cut your nose but you'll be a hero. That's how. I would not like any one of My children to be hurt even this much. And there are so many ways of avoiding it.

Now, any other question? This lady is there. For her I have to tell her one thing, that you must understand what you have to have as a seeker. That's very important. Otherwise one would never see who is alright, who is not alright.

Like TM, [the] less said the better. People may say, “What's wrong?" What's good? First of all, let's go on to that point. The minimum of minimum: what's good it has done? It has polished off your money? Are you flying? Anyone of you are flying? Face it! Everybody has become a poor person, has got epilepsy.

So many of them have got epilepsy. Are you cured of your troubles? Are you physically helped? No, so it's

nothing good. Why should you pay? Only good it has got is one that it takes money from you.

You see, makes you little lighter if you have too much. No? No income tax problem, bank problem. It's already gone! If that is the thing you want to have, then it's alright. Then go ahead of it. Has your life been helped in any other way? Are you a recluse? Or are you a person who, who can articulate with others very normal? The highest of highest one should know that you are the Spirit. Are you manifesting your Spirit anywhere? Are you collectively conscious? Are you actually collectively conscious or just it's a make-belief? Are you that awareness which is described? Just face it.

Sahaja Yoga is just the other way around, you know. You cannot please it by giving money to it, no! It doesn't consider anything about that. Also it cannot bother about how many efforts you have put in, how many times you have been in and all that, no! It doesn't bother about this thing. On the contrary, if you are still attached to all such things it just recedes. It recedes. It's recession, all the time. It's very difficult. I go on pushing it; it recedes, you see. Either you have to change your attitude or it has to change. But it does not because it is eternal thing. It does not change, it's changeless.

So you better change your attitude and accept it. Otherwise the Spirit is changeless. It recedes back. It recedes to such an extent that one may get a heart attack and die, because of this recession.

So you have to really come with an attitude of reception otherwise it recedes.

Sahaja Yoga is such a beautiful thing but its qualities are not changeable. There's no compromise, no compromise. It does not compromise. It stands in its own authority, in its own glory, in its own nature. It doesn't change. You can pay any amount of money or need not pay, you may put in effort, nothing, you bring to any colour, creed, anything, makes no difference to Sahaja Yoga, nothing. It's the acceptance.

It's the readily acceptance of your Spirit and not of your ego.

While in other places they might pamper your ego, they might give you a mesmerism hurting your superego. Here it is your Spirit, absolutely your Spirit which you have to achieve, which, to which you have to surrender, to recognize that you are the Spirit. Alright? No flying, no jumping, nothing. It's the Spirit, the manifestation of the Spirit. It's as simple as that.

One has to have a humble attitude towards it otherwise the Spirit doesn't come. One has to be humble.

It's a grace, it's a gift. It's a gift of God. It's your own, I agree, it's your own, but it's a gift. And for that we have to accept it with a humble heart otherwise it doesn't work out. It won't work out, My child. It won't work out. I'm your Mother, alright, but Sahaja Yoga it's not. Mother means many things. Sahaja Yoga is not, it judges you very much. I do not, but it does.

So be careful. Mother is much larger than Sahaja Yoga. And so She forgives and She knows and She tells you and She says, “No, no, no, no." It's alright. But I must warn you that Sahaja Yoga recedes. That's why we have few

Sahaja Yogis. You have to accept it, for your own good, with understanding.

Sahaja Yogi: *[UNCLEAR* May I ask you one question].

Shri Mataji: Aāa? Can I? If you just come forward.

Sahaja Yogi: As one grows, one becomes more connected and more connected with other people and one wonders what happens in this cleansing process when one may lose the desire or one becomes cleansed in some way.

Shri Mataji: Desire for?

Sahaja Yogi: No, but one wonders what happens to the desires that one loses and whether the people one is connected with have to bear that burden. Could You say anything about...?

Shri Mataji: Have to bear what?

Sahaja Yogi: Any burden that it's shed from us in the cleansing process.

Shri Mataji: All right. Please be seated. You see, now if you, say, are a person who is a married man. Say, [for] example I am saying. You do not give up your marriage in Sahaja Yoga. On the contrary, you become a tougher person to bear it up if there's a problem. You become a sweeter person to enjoy it.

And you become a master how to solve the problems of married life.

So actually what happens is that the situations that are created or the things that looks so impossible, start become absolutely like a myth to you and you know how to solve them.

So you do not have to succeed from people but gradually you will start changing your priorities. You will start yourself automatically.

Because you won't enjoy their company but you will have another company, the company of people with whom you should be identified. They are your type, your style, who think for the betterment of one's own Spirit and the Spirit of this Universe, such people.

Now all such people have to gather together, when they start clinging together, all of them. Alright? Maybe in the beginning you might find some of them may not join you. They may think, “Oh, he's gone.

He's finished. He's no good." But we are normal people, we live like normal people, there's no dress, special dress, nothing. I mean you just behave like absolutely normal people. You do not sever your relations with anyone. There's no need to sever. With whom to sever relations if you are not connected with anyone? It's a question of inner detachment.

Only thing you get concerned about people that they are not in Sahaja Yoga. Also you get concerned about people who try to go against God. And when you realise what is the truth with your family, with everyone.

Now we have in Sahaja Yoga, one person comes in, the family comes in. Now, Ray [Harris] is here, his parents are now Sahaja Yogis in Sheffield. *[UNCLEAR* And when] I'm going to see them there, I'll be very happy to meet them.

So many people who gave up their parents, Kay is here, or so many like that have gone back to their parents.

So it's a different thing altogether. It's a living process of the manifestation of Divine Love. The whole thing changes. But one thing is sure: you cannot force Sahaja Yoga on anyone. My own daughters are not yet realised Souls. What can I do? It's alright. When the time will come they will get it. I've never forced that on them. They may not be even knowing what is Kuṇḍalinī perhaps, maybe.

So My daughters, how many daughters I must have had and I have, how many wives you must have had in previous lives and how many husbands, God alone knows.

So why worry? That way you are so lonely, isn't it? Only in collective consciousness you have common feeling, commonness. “Who are My brothers and who are My sisters?" asked Christ. Just have a very balanced attitude, neither of joy nor of, I mean, expression of some sort of a thing like that, or of any unhappiness. Just be, just be watching, just be watching.

Mmmm, getting in? It's very subtle. It's very subtle. But when it happens you start feeling it very much.

Put your hands straight, straight like this.

[MISSING.]

***Contents: 1981-07-03*, Public Program, The Search for Truth, Cambridge, UK**

All the seekers of truth, I am very much thankful to you for giving Me this opportunity to meet you all over here. You are here because you are seeking and the seeking is so innately expressing itself that you cannot get over this feeling of seeking even if you want to. But perhaps I do

not know if you know what you are seeking; why you are not happy; what is the expectation you have about your seeking. All of you must have had some background of seeking. Because seekers are a special category; every person on the street is not a seeker. Every person we come across is not a seeker. It's a special category. I have seen there are seekers who are real seekers and there are also fake as we have in everything, because it's a fashion to seek, because nice to talk of seeking.

In everything I can understand the fakeness but in seeking I cannot, because you are the gainer, you are the one who has to gain.

So you should not fake it. Better try to awaken your sincerity and to get that which is real because human beings have reached such a stage of evolution that they cannot exist any more now, unless and until they find out the truth about themselves, unless and until they face the reality, unless and until they know why are they here for; they cannot go on like this, is an impossibility. All the shocks and all the horrible ideas people are giving you about the destruction of human race is because of this void that they feel, this distance they feel from reality. They feel that, “We haven't yet seen anything that is real. Everything we venture into, any enterprise, any movement towards progress, ends up into a nonsense." And the whole absurdity of this kind of a progress, when it comes face to face, you start feeling, “Now where are we? Are we on the right lines? Where are we moving?" This seeking that has come to you is of course the outcome of this confusion, no doubt, that you can see intelligently, this confusion around you. One of the things

is that with your rationality or with your logic I should say, rationality's rather... can be very funny. With your logic you must have reached a point where you see this confusion and you must be wanting to find out after all what is the solution? You work very hard, create an atom bomb, then it becomes like a devil on your head, you cannot go further with it.

Any such movement of human beings towards understanding the meaning of their existence leads into a chaos. Then it is definite that we are in a cocoon and whatever we do it comes back to us. There must be way out, there must be a method by which we get out of it and see for ourselves, “What are we here for?" You cannot solve this problem through your intelligence or through your rationality, because human mind is limited and the limited mind cannot go to something that is unlimited. Like when I came to this hall, I had to leave My car behind. But it's very difficult to understand that with rationality you cannot reach some place and you reach that place spontaneously.

But we can derive at that conclusion, by seeing that we evolved spontaneously, we evolved automatically.

We did not think about it. Say, from animal stage to this stage we have come; from amoeba stage to this stage we have come, without doing anything about it. Spontaneously it has happened. People, perhaps do not understand the word `spontaneous'. Spontaneous means it's a happening through some living force and the living force acts on its own. It drives you up to a point, like a flower becomes a fruit. Now the flower cannot do anything about becoming a fruit. In the same way we

cannot do anything about our evolution we should accept most humbly, because we have done nothing so far to become human beings.

We have taken for granted our human life. But how we got it, we do not know. We did not pay any money for it. That way anything very vital to life you get it spontaneously. Like our breathing, nobody taught us breathing. We did not have to join Cambridge University to learn our breathing, did we? It comes so spontaneously as soon as we are born we start breathing. All that is vital for the progress of life comes to us spontaneously.

So if evolution is the most vital climax of our existence then it has to come to us spontaneously, we cannot do anything about it.

So first of all let us relax. It's going to work spontaneously, so why put our self up into a tension? Now, we have to see like a scientist with a very open mind, that we are not yet aware of ourselves. We do not know what are we. We know we are human beings, but are we really human beings alone? Or are we something more than that? And if we are, are we aware of that. Now we are moving only logically at this stage. Once we accept that still we are not that reality by which we can know every dimension of ourselves. If there is light we should be able to see everything in this room, isn't it? If we have light within ourselves we should be able to see ourselves within and without. The confusion is there because this light is not yet enlightened.

But now think that, you are made a human being, but why? Why? What was the need? Why so much trouble

was taken by nature to make a human being? No scientist goes into the `whys,' you see. They'll say, “It is so." It's a scientific way of looking at things. Now they say, “It's *[UNCLEAR]* parqueted." All right, it is *[UNCLEAR]* parqueted. They write down “This is *[UNCLEAR]* parqueted." Finished.

Whatever they see and know they write it down, “This is so." But they cannot say why? Why there is gravity in the Mother Earth? They cannot say that. But let us ask this question, `Why?' Why are we human beings? This is the beginning of your seeking.

Now when I put forward some sort of a hypothesis for you, some sort of a idea or a theory before you, you need not get disturbed by it. Keep yourself open and see for yourself if it works or not. But for this we really need people who are ardent seekers. Like we come into any university, I would say we keep ourselves open we just don't go and challenge every knowledge to begin with. But we try to find out for ourselves whether, whatever is said is true or not. In the same way we should keep ourselves very open about this method of the nature, which is spontaneous and the Power that is placed within us, which is called as Kuṇḍalinī, this is the name given by human beings; God has not given names to anything, that resides within us in the triangular bone.

Now it is too fantastic to believe those, “We have never heard about it." But even in the Bible it's said that, “I will appear before you like tongues of flames." Can they explain what are these “tongues of flames" are? As it is, they gave no chance for Christ to speak much and there were not any university students to understand about

Kuṇḍalinī, about this beautiful instrument that God has placed within us; they were ordinary fisherman.

So whatever they saw, according to their own understanding they have put it down.

If they could have understood Christ, they would never have crucified Him. But they never understood Him and didn't want to understand Him. In the same way it should not happen today. We should try to understand. It's very important, imminent and crucial. If this point is missed, big danger I can see, for a complete disaster. We are already seeing the signs of that destruction taking place within ourselves.

I'm sure somebody must have told you about this chart, the Kuṇḍalinī and the way it rises. Before doubting about its existence, I would request you to know that nature has taken all beautiful care to create you. And all these centers are placed within you, they exist. When the Kuṇḍalinī rises, in so many people who have obstructions, you can see the pulsation in your triangular bone. In some people we have seen very violent movement. You can seen the rising of the Kuṇḍalinī also, you can see the breaking of the Kuṇḍalinī here, the real baptism that John Baptist talked about. You can feel the `Cool Breeze of the Holy Ghost' emitting of your head, which is not possible. All kinds of things are floating now in the market. Of course Sahaj Yoga is not in the market. This you must have known, because you cannot pay for Sahaj Yoga. It's an insult even to think of money. This is your own right, you are made for it. Just like this instrument is made, you are made, specially and you are to be put to the mains.

Now for an intellectual mind, the question comes in, the first, “Why You? Why Me?" Is very common.

I said “Please have it My seat sir. A good idea." `Cause I have to work twenty-four hours. I mean I am very happily married and quite all right. I have no problems of My own. But if you could do My work, I'll be very happy to retire. You are a professor, for example, that you are, one has to accept. In the same way if I am doing something then one should not feel so hurt about it. Gradually you will know that you can also do the same thing. As I am enlightened you will get enlightenment and you can do the same thing yourself. If one candle is enlightened first, do other candles object to that? Will they object to that sort of a thing? In the same way we should not have reservations in our mind. People have been very intelligent and have been asking Me such stupid questions, that I didn't know how their intelligence is going so blunt in My presence. Like, they will say that, “... then why You are an Indian?" Or say, “Why are You wearing a white sarī?" It has nothing to do with all these outside things. It is something innate, inside you. It is eternal, it is not destructive. It resides in your heart, which is just to be brought into your conscious mind.

You have to be just conscious of it, that's all. I can see that in you and you will start seeing too. It's your own. Only thing is that there has to be actualisation, not a lecture or a brainwashing or some sort of a circus, but an actual thing that should happen within you, is the awakening of the Kuṇḍalinī. This is very important, if you understand a simple thing, that if you are paying attention to Me, something falls down, something

happens, your attention goes there. But if I say take your attention inside, you cannot. How can you push your attention inside, you cannot.

So some happening has to take place and this Kuṇḍalinī rises.

Now what is this Kuṇḍalinī? Again I say it's an hypothesis for you so far. Kuṇḍalinī is the power of desire within us, which is not yet manifested, which is not yet awakened. That's why It creates the whole aura of a man, It creates the complete human form, complete human personality and still it has not yet manifested itself. It is still lying in a dormant state because It is still residual, It has not expressed Itself.

When It is awakened, that desire is completed, then only this power of desire has manifested. Now within us there is a power of desire on the left hand side, as shown here.

[Aside:] I'm sorry I'm standing before this, but they must have told you. Can you put it there. Let us please show them now.

The left side, power of desire, is this one which we know as psyche, which Freud has described as psyche. But I must say Freud knew half the truth, not the full. He only knew about psyche. He didn't know about the other power that existed within us, is the second power, is the power of action. Perhaps Sartre knew about it, but he didn't know about psyche.

So when you say that “What's wrong?" When you say, “There should be no conditioning. We should not accept any conditioning." What you are doing is you are developing the other side. The first side of conditioning gives you a super ego and the other side, on the right

hand side, gives you the ego. Both grow and form a calcified closure here in the head, in the fontanelle bone area and that's how you develop your own personality: This gentleman is different; you are different; you are different. And this `I'-ness develops because you are cut off. Just like an egg we can say. Now the egg starts developing itself. Till it reaches a certain maturity and just a piercing of the top of the head, knocking off the ready egg, you get the bird coming out. The bird has nothing to do, I mean it is nowhere near the egg it's a very different thing and that is your second birth, that is how you are born again; this has to happen to you.

This happens only by Kuṇḍalinī awakening, by nothing other, suggestions people give: by... say...

they say you can stand on your head, Kuṇḍalinī doesn't rise.

Some people will say, “You pay so much money, come for a course." It won't rise. It's like a primule in a seed that has to sprout. Now what do you do to sprout a seed, do you stand on your heads? Just you have to put to the Mother Earth; with Her warmth it comes out by itself. In the same way this Kuṇḍalinī rises. We have to understand that you cannot pay for it. If you pay some money will the seed sprout? Or to the egg, will it become, will it become the bird? Nature's principles are so simple, so logical, so sensible that you don't have to read much to understand it. Actually with reading too much also we got complicated. Everybody else is in our head, we are nowhere, we are lost.

And the complexities of life become even worse when we start sorting out through this. The nature takes its own

course and this Kuṇḍalinī happening has to be today en masse. Thousands of people have to get Realisation. That's why you are so many born on this earth as seekers because you know the time has come that you should get your Realisation because you were seekers in many lives. And this life is to be bestowed with that blessing which you have been asking for.

This has to happen. If you do not accept, makes no difference to your Spirit. Because it is satisfied by itself; it is not bothered as to how you want to have it. But it is you who should be bothered about it.

You have to get it into your attention. Just like a light is there, it is not bothered whether you put it off or put on. It has nothing to do with your liking it or not liking it, it is there.

But if you desire, if you really want it, there is a mechanism within us placed in this way that we have all together seven centers, the main seven centers which demarcate our evolutionary stages. For example the lowest one, which is called as Mūlādhāra Chakra is the center of Mūlādhāra. It manifests in the, this is the subtle center, manifests in the gross our pelvic plexus. This is the center of our innocence. This innocence was created first of all, before the universe was created and this exists with in us, of course we might have lost it, that's a different point, but that is the first thing that was created within us also, is our innocence. Now if you have to talk to a doctor he won't understand that “what is this innocence." But you know there is something like innocence in you.

This first center is a very important center in Sahaj Yoga. Because, the deity of innocence expresses itself, manifests itself later on, at this point where you see the red mark in the center of the brain, where the Optic Chiasma is, where the pituitary and pineal are placed on both the sides, a very subtle center is there called as Āgñyā. You can see it crossing there. And this one, the deity incarnated on this earth as Jesus Christ, our Lord, Jesus Christ. Now, no one knows about His incarnations, I think. They only understand what He said about Himself that “I have a Father” and that “I am the only Son." Beyond that, people do not know what was the purpose of Christ' coming, what was the meaning of crucifixion? I think. We say that He came on this earth to forgive us our sins, you see, He takes up our sins. But how does it happen? How does it happen within us that He forgives our sins? It's only possible when He is awakened. He's still asleep within us. Then how can He forgive our sins? He is to be awakened first of all. If somebody can awaken Jesus within you, all these theories of Karmas and all those things will be nothing but useless, old fashioned, old-dated things which has no meaning. But nobody understood this great importance of Christ' life. I mean people came to India. There was no proper rapport between the people of England; say for example they came down to India, as far as Christ was concerned. I wish they could tell them about Christ that He was the one who has come on this earth to take all our sins and to take all our Karmas. Instead of that, the kind of Christianity they spread in India could not create any

rapport between the people who were seers, who were sages, to get this great message of Christ' coming.

Of course they respect Him very much, but still they do not know, they do not know. That's all right, but the people who are supposed to be following Him, also do not know that He is to be awakened within us.

Now, we know through Sahaj Yoga that He's the one who was called as Mahāviṣhṇu in the old ancient books of India. He's described so well how He will come, how He will be born; what will be His position; what is His relation with other deities like Śhrī Kṛiṣhṇa and all that. It's so clear-cut. And why His name was Jesus. And why His name was Christ and everything can be clearly understood if there were some sages from this country had gone or from any country who knew Christ and had given the message to the sages in India; only the sages can talk to each other and not these people, like one pundit from India and one pastor from here; both of them are ignorant. They do not know. Christ has said that, “You do not know; you are blind. I am talking to blind people." Now what does that mean? That means you are not yet awakened, that you have to be born again, that there has to be a happening, in every religion. Moses has said that. Mohammed Sahib has said that. He said “You have to become a Pīr, without becoming a Pīr you'll not understand Me." All His namaz is nothing but Kuṇḍalinī awakening. But will the Muslims accept this? If you want to understand fanaticism, if there is fanaticism within us or not. I was talking to a Muslim and I said, “You better go to Jews and ask them what they have to say about Muslims." That's the best way one can understand. I

mean, fanatically they will prove that the other person is wrong.

So is better to go and see them and know that what they think about us. Fanaticism is such a blind stuff that it can never give you any idea as to what is reality. Because whatever you believe into, you build up your own ideas and everything onto it and it's like a fake palace built on a fake idea. And then you go on fighting.

If God is one, if His love is one, then how can people who believe in God fight? I mean I, to My reasoning it does not. You cannot fight. If He is the primordial being, if you are the part and parcel of that, will this hand fight with this hand? Who is the other? But this should happen to us. When it happens then you jump into collective consciousness. You become, again I say it's actualisation, it is not just telling, `We are all brothers and sisters, let us form a U.N. system.' And it's only used for filling up some posts, that's all.

Actually it happens, that you start feeling others on your fingers, their centers on your fingers, it happens; your awareness gets that. It's not that one has to say, `Oh, I think I'm very happy, he is a nice man.' What is the meaning, it's very vague. Maybe his eyes are like your mother's eyes, maybe, that's why you like him. Can be very superficial reason for which you like a person. But innately, what is his nature is to be found out and how will you find out? There's no way, but to make your awareness, your instrument of awareness much sharper, much deeper, much subtler and it just happens. When it happens you jump into another dimension of collective

consciousness. Again I'll say you jump into it. It is an actualisation.

It is not a mental process by which you decide. You judge people on what? On their clothes? On their races? On their nationalities? On their education? On their labor? That's all superficial. You have to judge them on their centers, how the centers are.

When the Kuṇḍalinī rises, actually She's such a blissful thing, She is your mother. Everyone has an individual mother, every one of you. And when she rises, She blesses you so much that you get your physical being corrected. We have, we have cured cancer with this. Cancer cannot be cured by anything else but Sahaj Yog. I've been saying this for ten years, but the doctors come to Me, get cured, they tell others, they say, “Oh, we can't believe it." People don't want to believe into it. But cancer can only be cured through Sahaj Yog, there's no other way out. And if you can come to some other lectures of Mine, you will know that cancer is caused by over activity of these two powers which manifest your sympathetic nervous system. The sympathetic nervous system, the over activity of the sympathetic nervous system due to any emergency whatsoever. You put a metal in the body, you'll get it. Any emergency that arises because of the over activity of the sympathetic nervous system, which... which actually attacks the emergency, you develop cancer. And it can only be cured really by Sahaj Yog. There are so many diseases like diabetes, heart, innumerable innumerable, they can be cured by Sahaj Yog, physically. Paralysis, I mean I don't

know, so many varieties, except for where, I mean some dead things have been put inside or then you cannot.

Because your physical being achieves that stage in which it is bathed all the time in the vital forces.

This Kuṇḍalinī opens you to the Divine Love of God, which is all-pervading and this Divine Love is the energy of God which has all the energies of the world: Electromagnetic energies, all the energies that have created the elements, the emotional energy, the mental energies, of all the things is the spiritual energy.

So mentally also you get all right. Now we have had people who were addicts, absolutely gone cases. They just got rid of their addiction, because if you somehow or other discover yourself, your reality, you just become a different person. You become so relaxed; you are not bored anymore; you enjoy yourself so much, because you are beautiful, the beauty resides within you. And that beauty when you discover, you find, “Oh God, I've been so superficial in my life. This beauty is there hidden within me." And you just give up automatically. I never tell people, `Don't do this, don't do that.' No don'ts in Sahaj Yoga.

You just come, get your Realisation you may become mentally so, so relaxed that all these problems drop out. There's nothing fantastic for Me, but maybe for you it is too much to believe. But it is better to see for yourself how it works, how it has worked out and how it can work out with you. You yourself can work it out, it will become your own knowledge, your own property, your own manoeuvreing and you will be able to handle it. In this short time, it's not difficult to say broad lines of Sahaj

Yoga, but to talk in details is going to be very difficult. Now I don't know how many lectures I must have given; only in Caxton Hall must be at least three hundred or four hundred lectures and otherwise I don't know how many.

So, this is just a broad line idea about Sahaj Yoga.

This must give you assurance in life first of all, that if somebody is saying so, let's try, worth trying.

But it's very amazing, last time we had about hundred and fifty people in Cambridge and I think only one person stuck on to Sahaj Yoga. Everybody felt the vibrations no doubt, everybody felt the Cool Breeze.

But what happened with them is that when they went out they started thinking about it, they lost it. It is like sprouting of the seed as I said, that the small gentle seeds, seedlings are to be looked after. When it sprouts, if you just throw them, they can be destroyed.

So, one has to be careful for at least a month to preserve this sprouting. Once you have managed this one month then I am sure it will settle down.

You don't require anything much to be done; few methods of cleansing yourself, sustaining yourself and keeping yourself aoat. If you could dedicate only a month to yourself you will definitely come up, no doubt and people have done it I mean in places like Brighton now I would say in France it has worked out, but Cambridge has been little disappointing. I hope this time you people will take it up little seriously.

Because it's the most important thing that you have to have and this is the most vital thing.

If you do not get it and if you are not there, only thing I have to tell you that the last judgment has started and you are going to be judged by your Kuṇḍalinī. You yourself you are going to judge your Kuṇḍalinī and you are going to judge your own Chakras; there's a big rope given and you yourself will know that “This is my defect and this is my defect” and you will also know the defects of others in the words of Sahaj Yoga.

For example, while coming here only, one gentleman said, “I have got an Āgñyā." This means ego. But he said it to Me; for him it does not matter because it's paining a little bit there. Apart from that, that the ego is paining, that he is away from ego, he can see his ego he doesn't want to have it.

So he said, “Mother, my ego, my Āgñyā is catching” not ego, he says Āgñyā. But that's how you cleanse yourself.

If you have to even repair your car, you have to get out of it. In the same way you get out of this shell and then you correct yourself.

I don't know what to say further but I would request you to ask Me some questions, that would be a better idea to explain certain things to you and then we'll have our Realisation. But please note that question answering is not going to give you Realisation, it's a happening. The other day I had a lady from a newspaper, she's a very well known writer this that and I found her to be a very difficult person to give Realisation and she said, “Am I a hopeless case?" I asked her, “What's the matter with you?" She says, “I don't know, I, I am... I, I, I am a gone case." And she writes so well she's a very well known successful woman. Of course she got her Realisation, but

it took so much time for her to get her Realisation. While some of you might get it just like that and lose it also just like that, so one has to understand the value of it. I do not know at what pace it is retained, but once you have achieved it, you have to pay attention to it. It is your own, it's your own property, that's the only thing you really possess.

The other possessions are just myths. That's the only thing you carry with you; that's the only thing that is going to adore you an to give you that joy of belonging and happiness, belonging to the whole, to the primordial being, not to a small self, selfish, self-centred mind, but to the Self, which is the part and parcel of the whole. That you are already, but you are not aware of it. What Sahaj Yoga does is that it brings into your consciousness the manifestation of the spirit which you can do consciously, means through your central nervous system you can feel it. When the Kuṇḍalinī pierces through, you can feel the Cool Breeze flowing from your hand, “The Cool Breeze of the Holy Ghost” as they say.

I wish you could ask Me some questions and that's how I can explain certain things which might be hovering in your mind.

May God bless you all. Thank you.

Seeker: What is the meaning of nirvāṇa, which is the essential point of Buddhist thought. Is it a kind of more a Buddhist mortal, I mean Indian *[UNCLEAR* mortality/moderatorality], as a Mohammed Iqbal, one of the Muslims...

Shri Mataji: Just come here, I just can't follow you. Come here, please. Yes. Again.

Seeker:... ask you about a meaning of nirvāṇa, which is the essential point in the Buddhist thought and because we could not find it in books in the Iraq saints and you know, as you know the, Mohammad Iqbal, one of the Muslims... a philosopher,

Shri Mataji: Of course! Mohammad plays a big part in Sahaj Yoga I mean, for us He's absolutely the primordial master. For us He's so great. I mean, for us He's not just a Muslim or anything, He, for us He is a universal being. For us He's very great, you see? So Mohammad is, where is Mohammad in you, just tell Me? Where is He? Where does He exist? You do not know. Where is Christ? No, that's the problem. You must know where is Mohammad, which part of ours that Mohammad has enshrined, which part of ours He has enlightened. Is very necessary for you young people to know it. Now see what's happening. Look at these Jews, look at these Christians, look at these Muslims and look at these Hindus.

What are they doing about God? They are butchering Him every moment don't you think so? We have to understand all these great people in their right sense through Sahaj Yoga. How? Because once you get these vibrations in your hand now, see here like this, then you can ask a question about Mohammad Sahib. Ask a question, `Was Mohammad Sahib was born on this earth as the primordial master?' Ask the question and immediately you'll start getting Cool Breeze, tremendous Cool Breeze. Yes He was. A person, you will be surprised, a person who worships, say, Guru Nanak and denounces Mohammad Sahib, if he gets a cancer, he will definitely get, if you denounce anybody you will get cancer. Then I

have to ask that person that “You have to worship Mohammad Sahib in the same way. If you do not I cannot cure your cancer." Christ has said very clearly, “Those who are not against Me, are with Me." Mohammed Sahib has clearly said that He was any, He... [MISSING].

Any other questions please. Please ask Me questions because when I go away they will just come out and bother you.

[Aside:] Can you come forward please.

Gentleman [remarks]: *[UNCLEAR]*.

Shri Mataji: Yes please.

Gentleman: You mentioned the path Mohammed and Christ and Buddha and so forth, is the lineage of prophets *[UNCLEAR* write in stone], but most of these religions are expecting.

Shri Mataji: Just... just come here. You see, English is not My mother tongue so, you see, any, Gentleman: Well you've mentioned lineage of religions, of Buddha and Mohammed, `cause Janak was not in the other *[UNCLEAR* lineage]... and quite rightly so involved as a very strong competition to *[UNCLEAR* myth]. But in the case of Christianity, which of course obviously You speak with great fervor, there is the second coming, a spiritual second coming of course, involved. How do You think what you're teaching will fit into that ultimate conception, when that absolute reality,

Shri Mataji: Not immaculate conce, Absolutely. Absolute reality, no doubt, absolute.

Gentleman: I mean what contribution have You got to make,

Shri Mataji: For that...

Gentleman:... to that when it comes along. How does what You teach fit in?

Shri Mataji: I will tell you, please be seated.

Now say, one simple thing that when Christ come before you how will you recognize? Will you recognize Him? You cannot. Any second coming comes. Actually when He comes He's not going to talk to anyone.

He's just coming with the lashing thing in His hand. He's just going to sort out, all right? How will you recognize Him? The first contribution will be that you will recognize Him through vibrations. Second contribution, about Me also there is already mentioned: I have to give you the counsel. And other things also there; I do not want to say something that will really make you unhappy or maybe some of you may be shocked, but lots of things are written about Me also in the Bible. But the people were so gross, so very gross, that Christ could not say many things which He could have said openly, but He did say in a way. The whole Bible is like that, especially Christ's life. There's a book about Me, Advent. Please go through that. In that there is a mention. But unless and until you are realised you can't get the book, see it's a secret. I do not want to get crucified this time again, all right? But He is going to come, no doubt, no doubt. But before He comes, better get to the Kingdom of God. Only Mother can do this work, isn't it? That's important, to know that Christ is there. How will you know? Gentleman: Am I right in thinking, if I may just finalise what I have in mind, that Mohammed of course, looked upon Christ as the major Prophet and Islamic religion looks forward to the time

when Christ returns to spread Islam throughout the world as the universal religion. But the definition of Islam is the total dedication, devotion to God, surren, total surrender to God. And do You still look upon Christianity as the, even though it's malpracticed, obviously, do You still look upon Christ as being the major prophet of the lineage, indeed the final prophet.

Shri Mataji: No it is not so.

Gentleman: He's not a final prophet?

Shri Mataji: If it was, why is He, why is the second coming needed? Gentleman: Well yes, You're a quite, Yes, no, no You missed my point,

Shri Mataji: You see this is how they do it, you see. Supposing I say, with disgust I'll say, “I am the last time coming to Cambridge." But maybe I may again feel like coming.

Another gentleman: But does what You mean in fact imply, does, does it imply that He's coming back to fulfil all the prophets, to finish the,

Shri Mataji: You see, we see some, we see Christ as a separate entity, that's why you think like that.

For example when you enter in the room you enter the whole body, with your eyes, with nose, with ears, with all the aspects that you are. Supposing you are a professor or a lawyer, whatever is, all that is within you isn't it? All the aspects you enter in, so whatever you do you do the whole, that moment, that part.

Now I don't know how can you say that Christ, I cannot put Him as separate. Supposing this hand is eating the food all right and this is wiping the thing, now which is

the ultimate? Like the whole evolution has to come up to this stage where you become human beings; you have to enter into the kingdom of God and those who deny it are to be destroyed by Christ. Will you call Him the last, the, you see it's... it's the whole play is like that. Nobody is more important or less important in this body. Even a pin pricks you, you feel the hurt, the whole body, it's the question of the whole, it's not the question of one person, you see.

[Aside:] You understand what's this? Thank you very much.

So, whether it is Mohammad or whether it is Christ, all of them are important to us, very important, you will be surprised how much important they are to us. We cannot neglect any one of them.

Any one of these centers if they are neglected we are in trouble. All the centers are to be corrected, are to be perfect and they also help. Like, will you say that this roof is more important or the foundation is more important? You see, the whole is important and every part of the whole is important and I cannot conceive of anything like a separate *[UNCLEAR* thing]. When Christ came He came with all His powers, when Mohammad Sahib came He came with all His powers, but that was the time when they had to come a particular type of work. For example today I have come, if I have come like them, I have come to give you awakening, that's My job. And that's what I'm doing. I am not going to tell `don't,' like Moses came out with Ten Commandments; of course I will establish that within you later on. But I am not going to tell you that. That's why some people don't

understand why Christ didn't talk against alcoholism, because He came at this point, at the ego point, Mohammad Sahib came at that point. All the primordial masters have denounced alcoholism because it goes against your awareness, which is sustained by your liver and the liver gets spoilt and that's why they were against it.

You see, at what place, at what position they arrive, what is there job: that's what they do. For example, see a train is moving, all right? Then it stops at a point. And whatever is the problem at that point is done by the person in charge. If the train doesn't move from there, how will it reach the station? Now will you say that the reaching the station is the last *[UNCLEAR* word]? Every step is important for the station, for the train to move.

So everybody has played a very important role, equally important, there is nothing like one person being important, that... we don't think like that. Or why human beings think like that? There's a reason for that, you see because by thinking like that they can form a cult, they can form a `ism', as you said, some sort of thing and then they can become important. But to be very frank none of them who have formed such cults have any idea as to what God is, even those who talk of Kuṇḍalinī, you'll be amazed.

I am Myself amazed, people have written such big books; such big books they have written without knowing where the Kuṇḍalinī is. Can you imagine such ignorance and such audacity? Hitler used to talk about God. I mean, anybody can talk about God, this is what it is.

So we have to see the whole thing in entirety, not to prove anything higher, lower or anything, first of all let us get to our Self, let us get to our Spirit through which you are going to know all the truth about them. And then you will see their glory one after another.

What a beauty it is to see them in one unity, in one unison, in complete concord. We cannot understand how they are united, because human beings, even husband wife are not united among human beings, I mean, the nearest relationship they say, even there they are not united, so human beings can't understand how they are completely united, absolutely in unison. There's no discord at all, even not this much. They are perfect beings, they are ideals. We are imperfect that's why we see it that way. They are absolutely coordinated. They are not human beings.

But the beauty of human beings is that they can become Divine. You see for a Divine personality it's impossible to change, you cannot just change, you are changed forever a permanently fixed position. But they can change. You are human beings not Divine people and that's your beauty.

So understand them in such a way that they are all one. There's nothing like higher, lower, this is not existing. This is all right for academic career or sort of a, we can have a theology or something like that. But it is not theology, it is no philosophy or anything, it is absolutely the reality, which exists; you can see for yourself. Why not get Realisation and see for yourself it is true or not? Why not see for yourself, that's the best isn't it, to

become that and see for yourself if they are all one or not, because you can feel it.

What's *[UNCLEAR* “Arr"] doing? Lady: When You say that all the religions say that you have to die, we can't even do that.

Shri Mataji: Nobody says that, who says that? Lady: Well you have to die before you die to be born again.

Shri Mataji: Yes, very true. But that, that I agree. But that death doesn't mean that you die the way you are supposed to die, no. You see every flower has to die before it becomes a fruit, every egg has to die before it becomes the bird, isn't it? In the same way what dies within us is our Mister Ego and superego; they are sucked in.

So nothing to be frightened of.

Gentleman: You die to live.

Shri Mataji: Die to live, that's the point is. Die to live, live a higher life. Yes. Is there any...? Gentleman: Mother, we read about *[UNCLEAR* You with an...]. Have You made *[UNCLEAR]*? Is there any relationship between the ability to transform the easy Yoga with which You are *[UNCLEAR* fittex] and our diet?

Shri Mataji: The? Gentleman: Our diet, what we eat.

Shri Mataji: No it has nothing to do, much. Is not so important. Is not very important. You see diet and all that we have paid too much importance to it, there's no need to bother about. It is even, I tell you, you'll be surprised, that I have seen people, Sahaja Yoga is such a grace these days, it's such a gracious thing, that a person came to Me, he got his Realisation. Now he was the man who

was really a very bad man from every angle, you see? He got Realisation. I was amazed at the grace; it's so forgiving. Diet and all these things you just forget just now, because there's nothing important, it's nothing important. We pay too much attention to these things, you see. Now for example, vegetarianism, what's the use of such extreme vegetarianism, I just can't understand; are we going to give Realisation to chickens, or to bugs.

We are more worried about animals then about human beings, isn't it? Gentleman: But isn't human being an animal too.

Shri Mataji: Ah? Gentleman: Is an human being an animal, as well though?

Shri Mataji: What is it he said? Another gentleman: Is not a human being also an animal?

Shri Mataji: That's what you have to become Divine now. The animal stage will be over very soon.

Human being is at that stage where he is going to become Divine, you see he's the most important thing.

I cannot give Realisation to any other animal, but if you call human beings them, that's all, they only the ones who are going to get Realisation. But is nothing important, these things are not important, we should not divert attention from the main thing, like some people believe that if they do this thing they will achieve God. No it's not that. But later on, all your priorities change, all your ideas about these things change and you start understanding what is, what is the thing needed to sustain yourself.

[Aside:] All right.

Nobody has achieved anything by doing all these things so far, this we must accept; that we have not achieved anything by doing these things, so far. Have we felt the Cool Breeze which is described in all the scriptures? Of course I must say that Ādi Shañkarāchārya described it in a very big book `Chaitanya Lahari'. Have we felt that? No, we have not.

So accept it.

So what's the use of doing the same things again, better get it in within yourself.

Among Hindus also, I would say that they denounced Kṛiṣhṇa at the time when Jainism came in because they thought that He killed many demons and killing according to them was Samhara, was a violent thing. Well what do you do to the demons, you don't kill them? Are you to garland the demons? And the Goddess destroyed so many demons, what does She do? She has to worship them? This kind of kindness doesn't exist with the wrathful God.

In the car you have got an accelerator and also a brake. You have to have that, otherwise how are you going to control these horrible people? Passivity is to be denounced absolutely; neither aggression is to be accepted. Both things are just the same. Hitler started his work very slowly, that time the Jews if they were not so passive, this poison would not have accumulated and this horrible shame that came on humanity would not have occurred.

And the whole basis of Kṛiṣhṇa's teachings are this; in the Gītā He says that, “What's the use, a weak man having non-violence? Is a cowardice." He's telling Arjuna that,

“Raise your weapons against these horrible people." And he got into kaivalya, he said, “I don't want to do it. I don't want to kill my own relations." He said, “Who dies. You have to punish them." So all these ideas also are very much with in us, specially now I find, in the West that, “We feel very guilty, we should not do this we should not do that." Of course one should not aggress. Aggression comes also through inferiority I think, through insecurities also, can be cruel, can be very much egoistical. Both things are just the same. As you see here the ego and the superego; the ego is in yellow colour and the deep blue colour is the super ego. Both of them are to be given up. It's not only one side that is to be given, both the sides. When a person is realised, he doesn't aggress nor does he take aggression. Like Christ we can say, now look at Christ, who took a hunter in his hand and started beating all the people who were making money near the church. We still have fetes and all that in the churches you see that goes on. He stood by a prostitute; what a prostitute had to do with Christ? He stood by her and He said, “Come along now, who wants to put the stone has to say that he has not committed any sin” such valor and such glory.

There's no place for cowardice. Mostly the aggression is due to cowardice. It's a very balanced personality you develop in which you are love, but love can punish, it punishes. It gives a very long rope and a very long rope and a very long rope, but it punishes.

Lady: Mother, would You please, would... that is, this Yoga is an actual revolution and it typically says, I think,

that's that one has to, to actually jump. I think You said something like that

Shri Mataji: Yes.

Lady: You have to make that jump. Do You say that? *[UNCLEAR]*...

Shri Mataji: It is a breakthrough. You see, there's no word, proper word to express it, but I would say it's a breakthrough; your attention becomes that. In simple analogy you can understand: this room, if you put the lights it gets enlightened. In a simple way to understand it, it happens to you, you don't have to jump in a way that you don't have to push your awareness, nothing, it just happens to you. It just happens to you, you just get it. All right? You don't have to do anything.

Lady: I'm probably going to *[UNCLEAR]*.

Another lady [comments]: *[UNCLEAR]*.

Shri Mataji: What is it, in particular? Lady:... try the meditation.

Other lady: *[UNCLEAR]* so you'll first get it from Her...

Shri Mataji: Now, you see you have to be in meditation, you cannot do meditation.

Lady: OK.

Shri Mataji: All right? Lady:... do meditation...

Shri Mataji: You have to be in meditation and that's a stage you arrive at.

Lady: Yes. Yes...

Shri Mataji: Another analogy if I tell you: supposing you are standing in the water and you are afraid of the waves that are coming, this thought is coming then another thought is coming. But supposing by any chance you get

into a boat. Then a state comes in, in which you see this, you become a witness. It's a state, it's a state of your awareness where you just become a witness; the whole becomes a drama, you are no more involved into it. But you become dynamic because you can see it, because dynamic powers start flowing through you. You are dynamic power. Only thing, you have to allow it to flow and the dynamic power of love. It is rather inconceivable with intelligence, you have to achieve it. Then you will start saying, “Oh God, what is this?" Lady: During that, one has to make an effort.

Shri Mataji: No effort at all. [Laughs.] Lady: I'm good at it...

Shri Mataji: No effort of any kind.

American lady [with southern drawl]: Can You explain the fasting, prayer chanting, mind expanding drugs being used to activate the Kuṇḍalinī, the state of awareness You talking about?

Shri Mataji: I didn't follow her at all. Just come.

American lady: Can such things as prayer, fasting, chanting...

Shri Mataji: Nothing.

American lady: Can they be used?

Shri Mataji: No nothing, nothing.

American lady: Just like that?

Shri Mataji: Nothing that's all. Nothing. I'll tell you about each one of them, is very interesting. Now say prayer, prayer is like telephoning without the connection being made. Chanting is really pestering.

Because say, we have to now meet the queen of England, for example and we go there and start shouting, “Elizabeth, Elizabeth." I shouldn't say that also, because you'll be arrested. There should be some protocol, some arrangement by which you are connected and then only you can go to her. Even the queen of England, while I am talking of the queens of queens of queens, you see? So this is second: chanting.

And which is the third thing you said, prayer, chanting...

American lady: Fasting.

Shri Mataji: Fasting. Now for heaven's sake don't fast. In Sahaj Yoga it's sinful to fast. I mean you should eat something, because God has made this beautiful earth, beautiful everything for you to fast...

is it? I'll give you an example we had one gentleman who was a great worshiper of this deity of innocence, Gaṇeśha and he got a prostate gland trouble. He came to Me and he said, “Mother, how is it because this is the one which protects prostate gland and I have got prostate gland trouble and I worship this Gaṇeśha and I'm a Sahaj Yogi, I'm a realised Soul and I understand its significance. How is it still it happens, this problem?" So, this is the thing we give as My, what you call, prasad, to people, called as channa. And in fasting, Indian fasting they don't take any carbohydrates, you see these are all things they have devised.

So I said, “All right, you have My prasad” I told him, “You'll be all right." So he looked at it, he said, “Today I am fasting." I said, “Fasting for what?" He said, “Today is the birthday of Gaṇeśha, that's why I'm fasting." I said, “Supposing a child is born in your house, do you fast that

day? If somebody dies you may fast? Why should you fast? What is there to feel so miserable that He's born in your family, born in this world and you are celebrating his birthday with a fast?" You will be amazed. With that giving up fast he got all right. You have to please the deities isn't it? No fasting is allowed in Sahaj Yoga. Of course, if you want, for your health's sake is all right, but not for God; for God's sake do not fast. You can fast for yourself, if you want to, that nobody has any objection to. But for God, I mean why bring bad name to Him? And to a mother, the best way to punish mother is to fast. You see supposing the child is angry with mother he will not eat the food, finished, the mother is finished then, that's the last weapon.

So you want to punish your mother then you can fast. It is all a way of regulating your diet and all that, is different. But it has nothing to do with God or divinity or anything.

And why suffer? Another thing is suffering, “We must suffer." Why? Christ has suffered for you, isn't it? Now you don't have to suffer any more. Again, for Gods sake, do not suffer. The way they show Christ sometimes I'm amazed, you see, just bones and hanging like that, how can he be like that? Because they are miserable they want to make Christ look like that. How can He be a miserable, just a bone skeleton? Any one of you cannot carry the cross that He had carried; with those bones like that, will He be able to carry? In the Sistine Chapel, if you see the frescoes made by... who's done that? Who's the one? Lady: Michelangelo.

Shri Mataji: Michelangelo, Michelangelo has done it. He has shown Christ just like a hefty person.

And that's the right style, because he was a realised Soul. While down below, you see they have placed a bony structure there... This is Christ. I mean if you see the difference between the two you'll be amazed.

How can these people be miserable first of all. But we want to believe we are miserable, like French: `Les miserables', they are. I've made lot of fun out of their `les miserables' condition.

Do not delve in all this nonsensical ideas. If you have read Lord Byron, then you don't get Realisation for the same reason; all these miserable creatures trying to make others miserable. If you have read Blake, that's the person. Blake has talked of Sahaj Yoga, if you read Blake, `Milton' is the book, He has talked of Sahaj Yoga completely entirely about it, He's just also said where the ashram will be: Lambeth's Vale, there is the ashram we have got. You must read William Blake. What a poetry. What a prophet you've got and here you are reading this horrible, nonsensical man, this Lord Byron. He had no character and no morality, hopeless fellow, making everybody cry. I don't know how you call him a poet, by what chance.

And there's a statue of his put there. Nobody has seen the statue of Blake, they don't like him I think. Oh you have lots of things you have inherited, Stonehenge, so many things you have got, you'll know about them, how great you are.

England is the heart of the universe. Do you know that? It is the heart of the universe and it is lethargic. It can be

proved. You can ask the question, `Is London, is England heart of the universe?' You will get vibrations on this point. You'll start getting the Cool Breeze.

Any other question? There are some very good people today, I can feel it.

Gentleman: *[UNCLEAR]*. How does Sahaj Yoga influence a man's, or a woman's, personal destiny, how would man or a woman who's got a question in his mind, sort of, as he goes through life, you know, this was going to be in the bar, but who's going to... when you beating a headache. *[UNCLEAR]*. He's *[UNCLEAR* disconnected],

Shri Mataji: You see the thoughts, Gentleman:... *[UNCLEAR]* next life and if so, so where I'm going to be, what am I going to do for...?

Shri Mataji: What am I going to do? Yes, these questions. These questions come to you either from the future or from the past. You think of the past or of the future, but not of the present. One thought comes and goes into the past. Another thought comes, goes into the past.

Sometimes you get your thoughts even from your past and in between these thoughts there's a little space. Your attention cannot stay there, but after the Realisation your attention is there in the present. When the Kuṇḍalinī rises above this point, you become thoughtlessly aware, Nirvichar Samādhi, thoughtlessly aware. Aware but thoughtlessly, which is called as Nirvichar, means thoughtless Samādhi, `dhi' means awareness, Samādhi: when it is balanced.

And when it pierces through your fontanelle bone area, then you become completely relaxed; the drama is over and we start feeling the Cool Breeze. Just now many of

you are in thoughtless awareness, try to see if you are thinking, watch My thing here and see if you are thinking.

Many would have liked to ask Me questions but because of that they are not asking, because no thought is coming. You are listening to Me, you are very aware, but no thought is coming. It's a very difficult state normally it's not possible, but your Kuṇḍalinī does that.

Lady: Is it not possible to arouse the Kuṇḍalinī prematurely. I've understood about the Kuṇḍalinī all my life and have been taught that if the person is not spiritually advanced sufficiently, then the power when it is aroused prematurely, can burn up, sort of, the other Chakras and insanity can even happen,

Shri Mataji: Yes.

Lady:, if the person's not spiritually advanced enough when it is aroused.

Shri Mataji: All right, I'll tell you all about it.

Lady: Yes?

Shri Mataji: Please be seated. You see most of these people who talk of Kuṇḍalinī, have no authority to raise Kuṇḍalinī.

Lady: I'm talking about Madam Blavatsky Have You heard about,

Shri Mataji: Do you think she had authority? Lady: Yes, I do.

Shri Mataji: I don't think so, I'm sorry. Because none of these things will happen to you if you're authorized by God. On the contrary, on the contrary, it is such a blissful experience. She wrote it many have written, I have already told you, but what they have done is

unauthorized behaviour. Like a villager supposing comes to city, who has never seen the lights, all right? And puts his fingers direct into the plugs and says, `Oh! I got a fright.' It's like that only; they have no knowledge of Kuṇḍalinī, nothing and no authority, you cannot put the authority upon yourself, it's something that is with you, you are born with it. They just say... you believe it, I don't know why you believe it, if she has, Lady: Was something dangerous.

Shri Mataji: But what has she done? Has she given to anybody Realisation? Lady: I think so, yes.

Shri Mataji: Whom? Lady: Quite a few people.

Shri Mataji: Whom? Lady: I wouldn't like to name *[UNCLEAR]*,

Shri Mataji: Nobody! Not one person not a single soul. Realisation is a very different thing: then you talk like Kabīr, you talk like an authority. Not a single soul has been given Realisation. I don't want to bring in people because no use having controversies. For Me she's also another seeker. But those who appropriate these properties within themselves, but show if they have given Realisation to anyone. What do you expect out of Realisation is collective consciousness, Jung has said it.

None of her disciples... I've yet to come across any disciple who has got collective consciousness. For example a gentleman came to Me he said, “My Kuṇḍalinī's awakened." I said, “How do you know?" He said, “I know I have got it." So, “But how?" I said, “Can you tell Me about this gentleman if he has got his Realisation or not? What is the center catching in him, can you tell Me?" He said, “No how can I tell?" Then you

haven't got Realisation. As soon as you get your Realisation immediately you can start feeling your centers and others' centers; even children can tell you. That's the sign of a realised Soul; it's not self certification. All right? It should happen within you by which you can feel it. You can say by feeling that, “Yes, this gentleman is catching on this..." One gentleman came and asked Me, “Mother, why everybody is asking about my father? Anybody who comes to me who are Sahaja Yogis, they come and ask me, `What about your father?' What's the matter?" I said, “Because there's a center for a father, which is catching." You put ten children, if they are realised and bind them and ask them to put hands towards one person. Ask them, `What's wrong with him?' He'll [They'll] say this. That means the person feels guilty for nothing at all, this finger, means this left Viśhuddhi, this. Every one will say the same, because truth is same. If you have reached the absolute, there should be no difference of opinion whatsoever, how can there be? Relativity comes only when there is no absolute.

I don't want to criticise anyone nor to bring any controversies, all right? You are all dear to Me, but I am just telling you that don't believe into things. Today I am before you. Forget all that. Have it. After Realisation you will know who was realised and who was not realised, before that no use talking. I praise here William Blake and there I denounced Lord Byron: there must be some reason for it. But you can see in the language into everything, what an authority William Blake had. And this

crying baby, crying for God, shows that they are in separation.

It is as simple as that. A lady who has met her husband, who is in love with him, you can see from her face. And the one whose husband is away, who is pining for him, you can see on her face. Very apparent.

But for a realised Soul it is very easy to know. I'll tell you Lord Mount Batten was a realised Soul. You won't believe that.

Gentleman: I would.

Shri Mataji: But his Lady Plevesky was not. Lord Mountbatten was a realised Soul, I told some people about it, just by the way. And one day we were watching the TV and some of the Sahaj Yogis were sitting. Suddenly they got vibrations they said, “What?" I said, “This is it." I mean they may look to be very simple, ordinary people, mundane type, they might be realised Souls.

How will you know? That's what I'm saying. The gentleman who asked Me question has disappeared now, he must have come from some church, he doesn't want to give that up.

I said, “How will you know Christ? How will you know?" Forget about all that, makes no difference.

Mister Phillip who's sitting here, when I asked him, “How many Gurus you have been and what books you have read” he gave me such a big, you see, papers, bundle of papers, which I didn't know how am I to read that, no! Thank God he read so many, so he was not identified with any one, thank God.

So it can be anything, but so far we have not found it, so why accept anyone whatsoever. You have to just accept yourself that's all; Sahaj Yoga is as simple as that. You ask a simple question before Me, `Mother, am I the Spirit? Or am I the... my own teacher?' You are your own teacher, but you have to get Realisation for that. Before that the Mother is your teacher, but once you get your Realisation you are your own teacher.

Now let's see. Put your hands towards Me please. Just like this. Both the feet are to be on the ground.

Just like this. And close also. Because when Kuṇḍalinī rises above this Christ *[UNCLEAR]*, this dilation of the pupils takes place and if the eyes are not closed... [Microphone is bumped.] Don't push your attention anywhere, do not force yourself into anything, just keep your attention loose, don't think about anything, it will just work out, the Kuṇḍalinī has to rise. Firstly you'll find you are thoughtlessly aware and then you will find a Cool Breeze flowing in your hand. It's very simple as that. Now what I do is to conceive you in My heart and give you immaculate birth through your Sahasrāra, through your fontanelle bone area.

Do not feel guilty; one thing please do not do is to feel guilty. Actually all of you should say, `I am not guilty.' Is a very common disease of the West. What are you guilty about? I mean what sins can you commit compared to the Ocean of Love of God. I am talking of the Ocean of Love.

So be kind to yourself.

If the light has to come in you, be kind to yourself. You are the shrine of the Spirit. Now please do not blame yourself for anything.

[Shri Mataji rubs Her hands together and blows on them while giving Realisation.]

***Contents: 1981-07-04*, Public Program, Finding the Truth, Norwich, UK**

Shri Mataji: I have come to Norwich before also once and always I had a desire to come to Norwich though the response last time was rather disappointing for all the Sahaja Yogis and they were not very anxious to come down here. But I know for definite that there are lots of seekers in this place. And they are involved into things which they will realise very soon are of no benefit.

There are seekers and seekers in this world. My experience I have seen that some seekers are true seekers and ultimately they come to the truth. They discard everything that is artificial, that is not the truth. They go on working it out as in Sanskrit it is said, “Neti, Neti” go on saying, “Not this, not this” rejecting and then you come to the truth. It happens.

But there could be some who are fake in the sense that as you have got fake Gurus, you have got also fake seekers. They just start seeking out of fashion. But in this Norwich of yours, I must say, whether people like it or not you have really very good seekers. And they have to come to the truth. It is rather difficult to make them understand that seeking is not a shopping. We cannot go on shopping. You see you have one Guru, you go and see another one, you go and see another from Christianity to

Islam, this and that. You go on moving and then ultimately you form a habit of seeking. You go on seeking. Like a momentum it goes on working. And the seeking goes on and on and on. And you reach a point where you find that you cannot change your habit of seeking.

Even when you have found the truth, it's like a rat race. Is a seeking race, I have seen in this world has set in. Now the seeking has started because the time has come. The time has come for fulfilment of that seeking. That's why the seeking has started. But we must logically understand what are we to seek and what are the ways and methods of discriminating between the real and the unreal. Even logically you can understand that.

We have had great prophets and great incarnations like that of Christ on this earth and all their Advents have left us with great understanding of what to expect of a real person. The first thing is that you cannot pay for Divine Love. You cannot pay. Just you cannot pay for it. It has got nothing to do with money business nothing at all.

You cannot do any courses. Imagine people doing courses in spiritual life. I mean, you mean to say that those who cannot afford, those who are poor, they cannot get their realisation? It is very simple as that. Money is your problem. You have created money, not God. God doesn't understand money. It is impossible. How to understand money? It is very difficult. God doesn't know what money is and what does he care for your money? And this is one of the things which some of the Gurus have tried. It is to take money from you. Once you start paying the money, it's a human nature; you see

if you have paid for something, you continue with it. Like you go to a show. The other day we went to see one drama, some play and both of us didn't like it at all. I mean My husband, Me, we didn't like the thing. But he said, “Now we've paid for it and the driver will be coming later.

So, what's the use of getting out now?" So, we just continued with it till it finished.

It is like that. We've paid for it; so better go through it. But it is not so simple as seeing a play. It could be very, very dangerous.

So, first of all this payment, which is a negative thing, has been used with a double wedge. First of all you pay them and secondly they use you for them. It's a double wedge.

The second thing is that you cannot put in any effort for it. Because if it is a living force, it's an evolutionary force and it has to happen to you, then you cannot pay for it. How much did you pay for Christ? Christ coming, did you pay anything? Now, of course, people are paying for everything, but that time? Payment is one thing and effort should be another thing one should be away from. You pay nothing, you put in no effort for becoming a human being. No effort at all. But it is difficult to understand that you can put in. You cannot put in any effort for God. It is spontaneous. It is a living force like a flower becoming a fruit without any effort putting into it. Just it becomes. It is built in. It is spontaneous, Sahaja.

Effort is also double-edged thing. Supposing I tell you that you stand on your heads and you'll get God, you'll do it. I know you'll do it and you'll do it day in and day

out. You can. I have seen people chanting certain mantras which has no meaning, which is all nonsense, which is absolute nonsense, paying three thousand pound for it. And chanting that mantra day in and day out, becoming mad with that, without even thinking about it because you can do it. Whatever you can do, it is human, isn't it? God does something, which you cannot.

If somebody says you have to jump, take out your clothes, jump in the air, go on saying something, all that's it. That's sufficient. They can do it. Taking out your clothes or colour them into something, make it into a uniform, people like it that way. The other day only a suggestion came to Me that better make some uniforms for Sahaja Yogis and I was amazed at that.

But people get very much impressed by uniforms, by the outside, by the gross. And this effort is such a ego pampering stuff that people do it. They just do it because they like it you see. They'll say also very proudly, “Oh, I am doing Haṭha Yoga” without even understanding that this, these asanas or these physical exercises is a wee bit, a very little wee bit of the whole of Patanjali Yoga Shāstra. And that this little bit that you do is, also must relate to your Kuṇḍalinī, to your Chakras, to your state at which you are. You are taking the whole medicine box into your stomach, very indiscriminate.

So this is also used by these people. You cannot put in any effort you. You cannot pay for it.

Then the third one is even subtle. That is, people think that they can intellectualise it, they can rationally reach it.

So they listen to lectures. Oh, very good lectures. They think by reading something, reading books, you are going to get it. I mean, there are books and books and books.

So far none of these great people have written, Christ has written no book. It is very difficult to write also. They wanted Me to write. I said, “It's impossible. I just don't know how to start and how to end it. The truth and the knowledge is so great." So they use this to satisfy your intellectual feats, you see. They will go on saying that you jump on to this and then jump onto that and jump onto that and jump onto that, jump into that and, you'll see, find you are back in the seat.

I have seen there are funny organizations also which teach like, let us imagine that we are in that new awareness, now imagine. Can you imagine? Now supposing that you imagine even that you are monkeys.

Can you jump like that? I mean how can you imagine like that? It's like a very nice story I read in My childhood. It impressed Me very much. It is known as Punishment of *[UNCLEAR* Shahapez]. There was one gentleman called Shahapage and he was supposed to be an architect. He came, a hypocrite and an imposter. He came to a King and said, “I want to build a huge big palace for you and I am such and such." He had all fake certificates with him. And the King believed him and he gave him lot of land to him and said, “Now go ahead. You spend this money, whatever you want you can have it and make a big huge palace for me." And he, after six months he said, “Now, the palace is ready". When the King went there, it was just the same. There was nothing done. He said, “Oh, you

cannot see because you have gross eyes. It is there” he said. Really, he befooled him. First the King was wondering, “What's the matter with this man?" but he was a clever intelligent man. He could understand that. He said, “Now see, this is a big palace. This is your darba. This is your big Court where you enter in and this is the place where you sit. This is the throne made of gold where you sit very comfortably and here are the people who will be sitting there and receiving you and all that." The King smiled and he took him around a little bit and said, “Now I am very much satisfied with your work. You have done tremendously well. I could not imagine anyone working it out that good." He said, “Now may I request you that you sit on the throne as I would like to award you this special gift that you can sit on the throne not the King." Poor man, he had to go on sitting like that. He said, “You go on sitting. It's very comfortable. Enjoy yourself." He was tired, absolutely tired. He said, “Better be seated” and then he fell at the feet of the King and said that, “I am sorry for all that I have done." So to imagine that you are this and imagine that and to be identified, to be befooled like that, is not the way seeking is going to be. We have to get it. We have to actualise it. It has to happen to us. Do we understand that we are going in a circle all the time? Any Guru comes; you are with them. Another Guru comes and you are with them. It's a shopping, as I said, going on and it is very difficult to make them stop.

There is a fellow who has written a book about Me and a big book and he came to Me. He said, “Mother, I know now I have found the truth. This is the truth I have found

myself, no doubt. I have got that vibrations. I have got collective consciousness. I have seen the Kuṇḍalinī rising. I have seen with my own eyes the pulsation of the Kuṇḍalinī. You can see it yourself. Everything I have seen and I am giving realisations to others but still I think I have to still seek." I said, “Why?" “Because it has become a second nature with me to seek." I said, “Now will you stop that rat race of seeking?" And now he is all right. This is what it is. You cannot play games with yourselves. You cannot go on like this. We have to stop it at a point.

One has to know that Divine has nothing to gain from you. Truth has nothing to gain from you. Truth stands on its own glory, in its dignity. It doesn't need anything from you, does it? What can you do to adorn? What can you put on that? What can you give to that? How can you add to that? It's only you are adorned. It is only you gain it. If you get the truth it is you who has been enlightened. It's not the truth that is going to receive anything from you, is it? If that is your idea then you are sadly mistaken.

You cannot pay for truth. Truth is there. It is there. Reality is there. How can you pay for it? Just think of it that we are paying for something that exists, that is there. How can you pay for it? And what effort can we put in? Say this room is very beautiful; it is very beautifully done. To see this, it is there. You just see it. I mean someday somebody may put a ticket for it, that's a different point, but to see it you don't have to put any effort. If you have eyes you can see, but if you have no eyes, then? Then something has to be done.

But not you; you cannot do it. Like, as I last time told you, these candles who are not enlightened cannot do anything about their enlightenment.

Some enlightened light has to enlighten them.

So this is the fourth point, which they use. That you have to have a Guru. Without a Guru, how will you be saved? Even your evolution took place through some leader coming in.

So somebody has to be there.

So, they jump in. The market is created and they are imported here very nicely through Norwich. It's easier, perhaps, because of the port being there, perhaps. And because we do not know what to seek, we fall a prey to it.

I have told you already that whatever you can do is yours, is human, but whatever God can do, is His own. You cannot transform one flower into fruit, leave alone the billions and billions of them and that is His job. He has to do it. And that power has to flow through someone to do it.

So this is the fourth point they arrive at. “Oh, He is a Guru. You should be absolutely obedient to that person. You should not ask any questions. If you ask questions, you cannot get your realisation." Today's subject is like that. That's why I am moving in that line, you see. They said, “You talk on this, Mother." Like we had one lady coming from Norway. She stayed with Me and she argued morning till evening; she just argued with Me. I asked her, “Where have you been?" She said, “I have been to many Gurus." I said, “Did you argue with them?" She said, “No." “Which one was your last?" She said the last

one was the Lama who came from Tibet. All right, everybody come from Tibet is a Lama now! And whether those Lamas have anything to do with God, nobody knows, but as long as they come in those tattered clothes, oh, they are great.

If they come like so-called detached people, people accept them. It's a circus. But the worst was when he came, this special gentleman. He told the people who called that, “If you want to have me there you'll have to make a house with marble floor." Imagine! In Norway to have marble! In India, it is all right; it's cheaper there." So poor things starved themselves for one year, lived on potatoes perhaps, after all young people don't have so much money even in Norway. I don't know how they must have managed and they made one floor of marble for these parasites to come in.

And this fellow came down and he would sit on a thing like that and she said, “We had to enter from a door and bow to that fellow one thousand and one times." One boy finished. “What about arguments?" I said. She said, “Arguments? We were so fagged out and tired, we walked off." One thousand and one time to bow. They had to take to very loose clothing because with tight clothes they couldn't do it. “Oh, terrible it was!" she said. “What did he teach?" She said, “Oh, if you cannot do it, you cannot reach even one step forward." Yesterday I heard of another organization, where they have some steps. You have to go up the steps and stand there and bang your head with some thing, coconut or something. Then you drop down, make some circus there and then you have reached the fifth step. All this is nonsense.

Don't believe in all these nonsensical things. This is absolute nonsense.

You have got Christ before you to understand. Did he do all this nonsensical things? He lived a very normal life and a person who is a realised Soul is the most normal person. He doesn't have any eccentricities. He doesn't go into Tantrums. He doesn't bother about comfort. He doesn't bother about food or anything. He is Lord of himself.

You cannot capture that person. You cannot. And such a personality you can develop because you are a seeker. This is one point which they have caught up is that you do not achieve anything with these people, nothing at all. Like, they'll say, “Oh, I have raised your Kuṇḍalinī." “How?" “Because you are jumping like a frog." Can you imagine? Jumping like a frog! Is that you are seeking? It is so superficial.

You see, people are so superficially built up. They are so superficial that they believe in such nonsensical things. They are not seekers. They just go to a lecture, just to hear some lecture and they'll think, “Oh, I am jumping like a frog." Now, are we going to become frogs or worms? We are going to become higher personalities, higher people. Then it comes to us what higher things we have achieved from these people.

Have we achieved anything? Nothing whatsoever. Nothing whatsoever.

What are we to achieve? As Christ has said, you are to be born again.

Something very important, you are to be born again. Now what is that? That means some sort of an artificial baptism done by somebody.

Putting some water on your head, do you get born again? Do you get? Like an egg you put in and you just put in some water. Now you are a bird. Does it become a bird? Imagine it is a bird, can you, will it become? Even if you give a nice dress to a child and the child goes in before the thing and you have a nice champagne party but will the egg become the bird? Put yourself to that then. It's time now for us to face it. Like the other day we had somebody in Cambridge. He came forward with a great gusto. He said, “I can understand all other people like Buddha", according to him they are all wasted, “Buddha, Mohammed. But Christ” he said. I said, “What do you think of Christ?" He said, “Christ is something special." I said, “Yes, it is so. Then what? What have you done about him?" He said, “I believe in Christ." I said, “Really? And what have you achieved out of that?" You believe as if you see it is like adorning Christ by saying, “I believe in Christ." What have we achieved? Have you awakened Him within yourself? Has He given you any powers of your spirit? This is the last thing one should know that we have to achieve the powers of our spirit.

Everything that is said into all the scriptures has to be proved. Everything must have a meaning.

Otherwise we are living in a fool's paradise. You must accept it. You have to see that it is *[UNCLEAR]* you have to see that, not rationally but by experiencing it.

So, just now as he must have told you, how the Kuṇḍalinī rises and it pierces through the fontanelle bone area and

you get the Cool Breeze in your hand. This is what is described as the Cool Breeze of the Holy Ghost.

Everywhere, I mean Mohammed Sāhab has described it as Rūh, R-u-h, Rūh. It's Cool Breeze, in every scripture. Of course, I mean in Indian scriptures, because you see that country didn't have problems as you have here. Our nature is very good and kind to us. People could live in the forests and could manage. They had time to concentrate on their spirits and to find out the truths about life and they have found out. In the sixth century we had a great saint born in that country called as Ādi Shañkarāchārya who has very elaborately talked about Kuṇḍalinī, about realisation, what to expect, what are the centers, how it works.

After that we had Kabīr, very lately about 200 years back. Then we had Nanak. Nanaka compiled all the great works of all the realised Souls and put them in a book called as Granth Sāhab, which these horrible Sikhs are reading morning till evening. You see, it called as Akhanda Path. They do it for two and a half days. Can you imagine? Madness. They go on reading. And the last point they reach, one person reads say for about two hours. He puts his finger there. Then another one joins in. There should be no gap left, go on reading like mad. By reading are you going to reach to God? And they are reading that, written there, that by reading that you don't go to God.

[UNCLEAR..., they are saying] why don't you look into your self? You have to find it within yourself.

They are reading, singing also. Who is going to look into? Like if I say that you have to take this medicine, say a

particular medicine Anacin for your headache, you go on reading the prescription, “You have to take Anacin. You have to take Anacin." You'll have a greater headache. You can never get cured.

I mean, anything they try to do, human beings know how to make a mess out of it. Now at least you realise that I am here to tell you that don't make a confusion of everything. This is a very confused times.

This is all described also. This is a time of confusion. But keep yourselves alert and try to understand that if it is the truth, you have to actualise it. It cannot be brain-washing. You have to really actualise; you have to feel it within yourself.

Like anybody who comes and says, “I have got realisation." “Really?" “My Kuṇḍalinī is up there, Mother. I am all right. My Guru has done it." He jumps like a frog, actually.

So, asked him, “How do you know that you are realised? Why do you believe your Guru?" He said, “Why I am jumping like a frog?" I don't know what to say! I feel quite peaceful. If you go to a pub also you might feel peaceful for the time being. Is that the way to look at it? Your awareness has to get to some new dimension. What is the new dimension you have reached in your awareness? You have to become collectively conscious. You have to become, again I'll say become, become is the point. While you see, do you feel your centers on your fingers? Do your feel the centers of other people? Do you feel? If not, you have not achieved anything. You are just the same what you were, perhaps worst if not better.

And this is what I feel that this place, Norwich, is really invaded by such people. Last time a lady was there who told Me about somebody who is now found out to be hoax. I told her, “What have you got from him?" “Oh! I am in love with him." I mean, how many women in love with one man? I don't understand this nonsense. Such a confusion, such a confusion." And the negative forces, the Satanic forces are taking advantage of it because you are seekers. They are going to attack you; they are going to attack this Norwich again and again because there are seekers here. They always attack. They know. Moreover, we do not know that even when a child is born of a very high quality, in the childhood only they work out something.

But what impresses us most is the way they act. They create an act. Actually they study it very well and the second is the way they mesmerize, the way they hypnotize you completely. You don't know where you are going.

We have here somebody who has been a head of a TM in Scotland. And he ended up with the epilepsy of his wife, his own epilepsy and the child getting epilepsy. It's a fact.

In the beginning of Sahaja Yoga in India we would not allow any TM person to come in because we could not handle it. They are so badly hypnotized, we could not. But now in England I have managed it.

But with the experiences that these people have now, we find that after getting realisation also, if you are not careful, you'll be attacked. You'll be attacked. It's a very difficult thing to do Sahaja Yoga in a way for Me, not so

much for you. Because I have to really look after all of you. Because you do not know, it's like a small little chicks coming out of the eggs. And then anything can jump.

One has to do with great patience, understanding and love. Because you do not know what you are facing, because Mister Ego is there or superego is there, something is there. You are not there all the time.

Even with realisation the Kuṇḍalinī drops down.

Like a small seedling, I am told that people are farmers here. They will understand. It's very essential to look after them to give them water again and again. With the heat they may dry off, with too much water they may become rotten. With anything trampling on that they can be ruined. It's a very risky game. And one has to work out with Me today.

Now in London I must say that we have lots of Sahaja Yogis. They are Sahaja Yogis because they are realised Souls. They are and you will be too. But just getting the realisation one feels also great. “Oh, I felt very fine Mother." “All right, then?" “I felt extremely relaxed. I am enjoying it” and after one year they come back. “Oh, Mother, I have lost everything." Because this is a very crucial time of a month, which must be looked after, at least a month. And you get it so easily that you do not recognize it and you do not know how to maintain it. That is the problem.

Even if you recognize it, you get so drenched with it that you forget that you have to maintain it.

In Indian villages it's a different story. They are not touched by this. They are not interested. They are all

interested in the West where the money is. You see, it's like, where the sugar is, all the flies will fly.

Luckily My husband got elected to this job by so many countries and I came to England. Actually I just came by chance, I should say all by Divine plan. That's how I am here. Of course, I mean, there are many coming to India but somehow the Indian Sahaja Yogis found it very difficult to adjust the Western people. For many reasons because people who are Indians in India are very different from Indians who come here. They are not so materialistic, simple people in the villages. They are simple and they are not attacked. Main thing they think they are not attacked. Nobody is interested, these Gurus and all that, not interested in the villages. I work in the villages of India.

And this is what we have to know that we are attacked more because of our affluence. And one more point because you are saints. You are seekers. Seekers are born in these Western countries. Perhaps I feel that they are to be comfortable. That was the design that they should have no problem financially. That's why you get doles here; nowhere in the world you people can get doles. They don't understand. This was providence, for you now to meditate, to achieve that, for you were born for this purpose only. This time is the judgment time. The Last judgment has started. The first important people are the saints are the seekers. I am not interested in non-seekers at all. I am not interested. I am not bothered about them.

At the time being, I'd say now I am not bothered. Maybe later on. Just now I am only bothered about giving

realisation to people who are seeking and establishing that. That's all is My problem.

And that's what you must face. You must know that you are seekers. You have to get it and establish within yourselves. This is the truth that you are made as an instrument of God's power and now you'll be connected to the mains by His powers only, by his Divine Love and that the power will start flowing through you. You'll be manifesting that power through your spirit and you'll see for yourself and enjoy that.

Thank God, in Cambridge now we have many Sahaja Yogis. But My first experience in Cambridge was horrifying, second was even worse. Then the, I think the fourth attempt, one great Sahaja Yogi from London went down. He is not here today. He has gone to Spain now to work it out there, to Cambridge.

And he got lots of people there and the center has started and a good center has started, people are working it out very well. It is so enjoyable, you see their faces, you can make out, so relaxed just like flowers. They are not abnormal people.

That's how you have to also have it because you are seekers. Today whatever they are, you are going to be the same. You deserve it. It's your own. This is what you are seeking. This is what you should have.

But we couldn't find even one person in Norwich last time who was up to the mark to run a center.

The reason, I would not say that there are not people of quality here, they are, but the reason is they are very much attacked, very much attacked of which they are not aware. And this time again when I said, “Why not

Norwich?" Everybody said, “Oh, Mother!" I said, “No I am going to go." And I hope this time you'll do some justice to yourself and your place. It has a special significance which I will tell later on, not now.

Sometime I'll tell you why Norwich.

May God bless you.

Have any questions please? One may say, “Why Me?" This one question could be, “Why Me?" I mean, I'd say that you better be in My place. I'll be very happy. I don't need anything in life except that I see that reaching you, I want you to give your own, that's all.

This light is there. It is giving you light. Do we say, “Why do you give the light? Why not these walls?" I mean, that's the purpose. What is there to feel hurt about it? Even I don't know many things that you know, really I tell you I'm so *[UNCLEAR* backdated] in so many things that you can't imagine, I can't even sign a cheque. Till today I have to ask somebody, “Where do I sign?" I'm so hopeless. I mean, I have so many defects you can't imagine, as far as the human norms are concerned. But I mean, if I know something I know that.

So what is there to feel bad? And I want you to know. I want you to get it.

People can't understand that if somebody really loves, really, then we can't help it. And She can't help it. She has to love. It emits, just flows. You can't help it.

Any other questions? Oh! he didn't tell you? All right. Sahaja, Saha means with you, ja means born. It's born with you.

Yoga means union with God. The right you get to God, right to know your spirit is born with you, is spontaneous. It is spontaneous like a seed; it sprouts spontaneously, automatically. You cannot explain the mystery of spontaneity, can you? That is what Sahaja is. Sahaja means born with you. Also another derivated meaning means simple.

Sahaja means simple, easy. But Sahaja, saha means `with' and `ja' is born with you, spontaneous, innate.

Like we breathe spontaneously. You don't have to read books or pay for it, do we? In the same way your realisation is a evolutionary process. And it has to be; it has to work out. The Divine has to work it out. Otherwise God, will lose his name. He'll lose his reputation. He'll lose the meaning for which he has created this Earth. He has to do it. It is He who is gracious.

You'll be amazed, people who are getting realisation. I'm Myself amazed at Myself or I should say I'm amazed at this graciousness of Divine. Even people who are punished by all laws of the world get realisation. Even in the jail, in the lunatic asylum. Can you believe it? A lady came to see Me from lunatic asylum. She got her realisation and they wouldn't take her back. They said, “You are normal now." It's tremendous, the way the grace has come on this Earth. *[UNCLEAR* really] it has descended.

No, no, no. I must tell you about this one. It's very important. In India, you see, every married woman has to wear it. It's a sign of a married lady, you see. It's something like your ring or something outwardly, but inwardly it's very deep. It is placed at a point where this

is the window of the center of Christ. And you can say this is the symbol of his blood. Looking at this point you can get thoughtlessly aware.

Looking at this point you can get thoughtlessly aware because Christ in you can be awakened. When you look at this point, Christ is awakened in you. And Christ came on this Earth to suck in our ego and super ego, means the sin, so-called sin. He is the one who has sucked, who has the power to suck our sins, if He is awakened. But He has to be awakened. Just not by saying that we're Christians. He said, “You will be calling Me Christ and Christ I won't recognize." He is to be awakened within us. Now if I say that you watch here, there has to be a mark, isn't it? And when you watch that, you'll see, as Christ is awakened within Me, he'll be awakened within you also and you'll become thoughtlessly aware. There won't be any thought. It's very helpful. This is not a caste mark or anything which people think. It's written in the Bible that those who will be saved will be known in John's Gospel revelation that a mark they wear. This is that mark. I don't want Sahaja Yogis to wear that mark, you know, because in England they'll start some sort of a ruling against it. It is not necessary.

It is there. It exists.

But Indians who have come from India, they don't wear it. I was amazed. I mean, every married woman, see, for her this is a very big thing. She has to wear it. I asked them, “Why don't you wear?" They said, “Everybody laughs so we don't want to wear it." I said, “Why do they laugh?" They said, “They never appreciate anything, never appreciate. They'll just laugh at you." I said, “But

you can say we can laugh at your lipstick. Why should they laugh at you?" They said, “That's why we stopped it." But it's a sign of a widow. Just imagine! I mean, they said, “If you have to survive you have to remove it." I said, “Let them laugh. Why to worry? When you understand the significance, you don't want to declare that you are a widow, so why, this is also another sign of a married life." In India a married life and a married woman is the most respected thing, is the most respected and she has to wear nine marks because she is so respected. She is like a Goddess. I mean, she is regarded as the Goddess of the family. That is how we maintain our family system. It is so important. Now you realise it that the house wife is a deity. There is a center for it within us. That doesn't mean that men are in any way less. I mean, the men are the kinetic energy and the women are the potential energy. I mean we have no fight with them.

It's question of understanding our rules in life. It's completely equal but not similar. It gives you more peace and happiness and joy, isn't it? Now supposing my nose is placed here and my eyes are placed here.

Will I be able to manage life? In the same way everybody has a rule and a place.

And these things help. In no ways you can see that our Prime Minister is a woman. And so many ministers are women in India. We have to maintain certain decency and decorum and the dignity of a lady.

It's there but there are many bad things in it.

So many that I can't count.

So it's better not to accept everything that is Indian as something great. Now they are becoming, they are developing, you see, so they are acquiring lots of plastics and acrylics. I have to carry nylons to India, can you imagine? When we have silks, they don't like it. They want nylons as presents and a nylon sarī is regarded as the greatest present for an Indian lady who must be having 150 silk sarīs.

We have to learn from you quite a lot. What to do? They came here to make money. They have become materialistic, absolutely materialistic. They go on counting pennies just like you do. I mean, absolutely it's horrible thing. And to make up for them all the Gurus have also come here. That's what you are importing. And I am ashamed of them.

But they cannot befool Indians that much as they can befool you because you are naive. A fellow whom I knew very well went to Germany and he made a lot of money. When he came back, I asked him, “How did you manage?" And he was a vagabond, absolutely a horrible fellow. And he said, “It's very easy.

I wore a saffron clothes and things like that and I took another fellow with me and we sat in one of the big squares. And he said that this is a Guru, has come from Himālayas and this and that. All the money started coming in." They don't know any mantras. They don't know any Sanskrit.

They don't know anything and the whole thing worked out. Now this is a realised Soul. Now do you know that *[UNCLEAR* he/she] is a realised Soul? How will you know if she is a realised Soul? Unless and until you are realised

you won't know, she is a born realised. There are many born realised in this country. How are we to know? You have no knowledge.

And all that is unknown is not Divine. You must try to understand through logic and then it will work out. Rationally, you cannot understand because rationality can go anywhere. I have seen people who have robbed banks, taken away other people's money, can also rationally explain it but logic is very different.

Logic is based on wisdom and on sustaining.

Any other question? Question: *[UNCLEAR]*.

Shri Mataji: It's correct. What you say is correct that Indian music has come through the seers.

Indian music has not come through experimentation. It has come through the sages and they have used this Om You see the Kuṇḍalinī rising. When she rises, you see these seven Chakras. She creates the seven notes and they, whatever they have been keeping up, is the melodies which are pleasing to your spirit.

And that's why if you are spiritually endowed, I mean we had now a very big program of one realised Soul who came, is Pandit Jasraj in London. You will be amazed there was not a single Indian who attended it, not a single Indian. All were Westerners. Can you believe it? Indian people and India are two different things, I think, sometimes especially those who are here.

Not one person attended his programs, while he was fantastic. You see, the whole thing, even the Natya Shāstras what you call the Drama, is based, the whole science is based on Spirit. If you read the Natya Shāstra,

it's completely what words to be used, what is to be said to create a certain mood. Even the romance is based on Dharma, is based on sustenance.

I agree with you there, absolutely true, but everything we have lost. That heritage we have lost! We are all English now. Artificially English, not really. I mean if you meet an English man, maybe he may speak little cockneyed but you might find an Indian speaking perfect Cambridge English you see. Super! And you won't be able to make it out whether he is an Indian or an English man but for his colour. With the tailcoats the same. They have copied you very well, no doubt. But it's a copy, in aesthetics, in understanding. Now the other day we had a very good program in that Mermaid thing. I was the only single Indian there enjoying that, only single Indian.

They don't grow with *[UNCLEAR* it and you have]. You are the people who are going to appreciate them more than they can appreciate their own heritage now. Here, these boys, they go to buy Indian music and there are Indian boys who are buying jazz or some cheap music. And when they are asked, “Why do you buy them?" they say, “There's lot of speed in it, you see. We want speed now because we are very lethargic.

So, we want some speed." Indian music builds up, you see. Slowly, slowly it rises and then it gets *[UNCLEAR* raised]. It can be very speedy. It doesn't start from the very beginning like a shock, `Dha-dha-dha-dha.' But they don't understand.

It's very surprising that Indian Music is now surviving because of you people, not because of Indians, because you are spiritually endowed. I am very happy to know

that you have seen that beauty. It is because of your spiritual advancement, that's all. But Indian people in the villages are still very Indian.

You see, we are westernized, westernized, are copying, aren't they? Many people in India believe that Christ was born in England. Do you know that? Especially the converted Christians. For them an English man is at least a second cousin of Christ. What to do? This is the situation. And the other day I addressed a conference of Asian Women, the way they were fighting, our rights and this and that. I was amazed. I was amazed at them. I mean any Indian Conference like that I cannot imagine Indian women fighting like hooligans. “Oh God!" I just said, “What has happened to them? How could they behave like that? They have forgotten all the decency, the decorum, the grace that an Indian woman has to represent." I was amazed. Then I told them, very frankly, that, “You are becoming horribly materialist and you'll even have the culture which is worst than the labour class, even worst and worst of that, the way you are moving!" You'll be amazed, to earn money people have come from India who belong to very good families and they working in Heathrow cleaning, sweeping. They have become sweepers. They wear gold bangles up to this much. They are not ashamed. In India let them go and even clean their own bathrooms, they won't do. It's shameful. It's a fact. I feel ashamed of them. No wonder you people don't like them. I mean, I can see that because they are not really Indian.

And when I told them, “No, don't copy them. You should know about your own culture." Do they know anything?

They won't even know the names of ragas and the melodies. They won't even know the names of great artists we have in our country. Nothing! Such shallow people. I don't know what has impressed them so much but you will find it out.

Especially the English have done some good to us. I must say that they are very scholarly people.

They have done some good to bring forth the beauty of our architecture, beauty of our creativity all those things. They are connoisseurs. We are artists, no doubt.

You won't believe how we have deteriorated. We are developed, you see. We are getting plastics in our families. For a very elite family where they have silver in the house, all right, it's more important to have stainless steel. If you give them a glass, say of crystal, they won't like it, but this glass is the best. If it is plastic, it's even better.

Went to somebody's house, a very rich maṇ”Oh” he said, “I have a wonderful thing. Would like to see that? Oh, wonderful! You'll be amazed. It's such a beautiful thing I have got." I said, “What is it?" Took Me to his room. You won’t believe that he showed Me one of these bloated plastics, you see, which makes a sofa-like thing. He said, “See now, you can fold it. You can again blow in." He had removed all his *[UNCLEAR* cart] furniture. “This is so beautiful and it has colours." He was in America for at least eleven years and this is what he picked up! To admire plastics. But this is what is happening.

You see when people contaminate others they just leave whatever is wrong. You should never copy anyone. We should be what we are. Why should we copy? What is the

need? God has created this Universe with different varieties, so beautiful to see, isn't it? All these cultures, different things, are so beautiful. Imagine, every tree looking alike like a military system standing there, all uniformed. How would you feel? So there is goodness about both the things but the best thing is that we understand the values that are Divine.

For example, Stone Hedge in this country, it's a temple. But how will you know? How will you know what it is? Unless and until you have vibrations how will you know? As you have been so scholarly, you should be deeper into I and achieve that awareness within you by which you can feel it. Unless and until you have that awareness, it's all blindness, isn't it? How are we to know? I don't see world as different.

I don't see India and England because England is the Heart according to Me of the Universe. And India has the Kuṇḍalinī. Now the whole body of the Universe is one to Me then how can I see it separate? I cannot see eyes separate and nose separate. I can't see Christ and Mohammed separate. I cannot see.

I cannot understand, you see, in my concept. I cannot understand. They are in complete unison with each other. Absolute melody. Because they are absolute, they are ideal. We cannot think of something so perfect.

England has to improve because it is the heart and India has to awaken. The heart is lethargic and they are sleeping. What am I to do? And Europe is the liver. Imagine, they are all drinking. God save the liver of the Universe. This is how I look at it. Because it is. Everything circulates through here. Laws, everything. You do not

understand your importance; that's the main point. Everything circulates from here. If you could understand, you would reach some ideal conditions. It's the shape of a heart, too. Such a little thing compared to the Universe.

They went up to China in a different way. That way they should not have gone, you see. But they did. Everything can circulate through here. But you must have proper blood, isn't it? Purified blood you must have.

But India is the Kuṇḍalinī. That's also very important. But I don't know if the seekers in England realise that. They are wiser than Americans. Americans are very shifty people. I am going to America.

Keep your fingers crossed. I hope I'll come back in one. But I must say Americans are great seekers. Very great seekers, they are. But the Guru shopping is too much there, too much Guru shopping. You ask any American, he'll give you a list of at least thirty to forty people he has been to.

I have been to Russia. I have been all over.

Somehow I have been. And I know the problems that exist everywhere. And there are many who are going to get realisation. The young especially, they are going to get.

Like Algeria. Algeria had a problem. Fundamentalists were taking over absolutely. The Government is still afraid of the fundamentalists. But when this Iran thing came up, of course, the Divine is also working it out. And when the Iran thing came up they started seeing the young people. Oh, God! This is fundamentalism. All this brutality.

So they thought what to do now. They said, “If this is God, better run away from such a God." So, they were about to jump into communism, when one of them came. I mean, they had formed an organization. One of them came to London, got his realisation. He gave realisation to five hundred people, all engineers, doctors, young.

The way we have found out because it's not a democratic country, but in Paris we have lots of them.

That's how it is going to work out. It's a very subtle plan of the Divine. But let's see what all Norwich has to do in this big plan. All right. And to understand India, you must go to villages, not in the cities.

Mostly take you to these horrible tourist places which are no more.

You must see everything in its proper way. Whatever it is I am not here to make you Indians, nor am I there to make them English. I am criticised in England that, “She is trying to make them Hindus” and in India I am criticised that I am going to make them Christians. Can you believe it? To understand fanaticism, it is better to see all of them together and you are amazed how they are fighting for what there isn't any truth in it. It's very funny, like I said that Christ's Mother was the Holy Ghost and the fifteen percent of the Sahaja Yogis at that time resigned from Sahaja Yoga. They couldn't believe that that could be so. They said, “She is the woman who was just crying all the time. How can she be a Holy Ghost? You see, the Holy Ghost in India is known as Ādi Shakti.

So, how can She be?" And Christ did not say She was the Holy Ghost because he didn't want people to attack Her; otherwise he would never have forgiven them. He said

that whatever is done against him is all right but anything against the Holy Ghost will not be forgiven. And they just resigned. They said, “Oh, this lady is preaching Christianity. Beware of her." Now I have to wear a sarī because I was born in India. I had to be born somewhere. If I had been born in Norwich I would be wearing dresses like you. But I was born in India, all right. It won't look nice for Me to wear your dresses, isn't it? It will be copying.

So you have to be born somewhere.

This is very difficult thing for any Universal being to be born on this Earth and make people understand that you are Universal too. Only your Universality has not been awakened. Once you become, you forget all, you transcend all and you just see the variety and enjoy it.

Now should we have our realisation? At the very outset I have to say that most of you will get realisation, I am sure. But after that you have to keep the contact. And you have to continue with it; otherwise, you will lose it. I am sorry, that's the only thing one has to remember. You don't have to pay nothing, but you have to pay attention to yourself and respect your realisation. That is the most important. That you are as a seeker and that if you have found it, you have to work it out and maintain it. Only connection is given but you have to maintain the connection, you see, because sometimes it could be loose.

So we have to establish.

With love and understanding and respect, put your hands like this. Both the feet on the ground and just hands like this. Here are the centers. These are the centers of the

sympathetic right and left. If you can find out from the book that these are the ones which are seven centers, 1, 2, 3, 4, 5, 6, 7 and this is the center. Here is the fontanelle bone area.

So when it opens out, you start getting the Cool Breeze in the hand but before that when it crosses this center of Christ, then you get thoughtlessly aware. Nirvichar Samādhi. And when it crosses that you get your Self-realisation. It's that simple as that.

It has to happen to you. It will happen to you but if it does not, you should not feel bad about it.

We'll work it out again and it can happen. Like a person who knows swimming can save another person and then you learn swimming so you can save others.

So those who are realised Soul know how to raise your Kuṇḍalinī. And if they have to raise your Kuṇḍalinī, you should not mind. Now put your hands like this, just like this and close your eyes. Just close you eyes.

Keep your eyes shut. The only thing is you have to ask for it. If you have no desire, nobody is going to force it. As Christ has said, you have to knock. You have to ask, ask for your realisation. It's a very big thing you are asking. Just you have to ask that, `Mother, give me my realisation.' Just ask thrice you have to ask.

Are you feeling the Cool Breeze in the hand? Are you feeling? Good. Are you? Not yet? Keep your eyes shut. It's better. Put your hands straight, straight like that. You have to forgive, forgive people. It's a big load. Just say, `I forgive. I forgive everyone.' Just say that. It's a very big load because after all, if you do not forgive, who is suffering? You, not others.

Just you have to say, `I forgive.' Thrice you have to say, `I forgive. Mother I forgive everyone.' Just say that; just say. You'll feel very much better. Much lighter. It's all right? All right. When you say, `I forgive,' then only you can say, `Forgive me also if I have not paid full attention to my Spirit.' You can say that. That also to be said thrice.

You can ask a question saying that, `Mother, am I the Spirit?' Ask a question. Very simple. You ask a question, `Mother am I the Spirit?' See, it's working, answer coming. These are all the answers, you see, now your computer starts working. You ask the answers to the truth. `Am I the spirit, Mother?' You Are.

You are the spirit. You'll feel very much lighter and blissful. Put your right hand on your heart and ask the question, `Mother, am I the Spirit?' The spirit resides in the heart. Put the right hand on the heart.

Just ask the question, `Mother, am I the Spirit?' All right? You have to make a statement that you are the seekers of truth. You are. You don't want anything else but truth, isn't it? I'll come down and see.

Contents: 1981-07-05 **Pūjā, Detachment and Sharing, Cambridge, UK**

Many now, many of us are there and we are increasing in number and we are going to increase more and more, no doubt about it. You have to realise that you have become something. [It's] not that an organization is developing, but every person inside this has got something, something very great that has a transformation power. And hence it is necessary for us to know that we have

entered into the Kingdom of God and the laws of Kingdom of God are very different from what we know of, they operate in a different way. Unless and until you really understand the operation of these laws, you cannot grow properly. You have to grow, all of you have to grow, if you cannot grow in Sahaja Yoga you will be wasted.

So it is very important that we should try to understand the Divine laws, how they operate. And whatever we have been doing so far has been responsible for our non-growth, so we have to give up so many things which have been detrimental to our progress. A small thing like comfort and sharing: in Sahaja Yoga I have found people, they worry too much about comfort, even after realisation. They want to find their own comforts, they want to have their own individualities and they want to show that they are different, [that] they are not the same as others are.

If comfort becomes more important for some people you can never grow, never grow in Sahaja Yoga.

On the contrary, you may become a medium of all the negativity and will torture Sahaja Yoga by your lethargy.

So try to understand that comfort actually is something that matter gives you. Comfort is the slavery of the matter. You have seen your Mother, She can sleep anywhere, She can eat anything, She can live the way you all live. I have no problems, I have no demands and you can do the same, because this matter is all the time trying to overpower you, all the time trying to overpower you through comfort giving. If you get used to sitting on a chair then you have to carry chair along with you, you cannot sit on the ground, a simple example I am saying,

it's a certain thing that your body gets used to. And then you want to maintain your own, “I must have my own separate at or my own this thing because I must have comfort." This is one of the things that we have to understand that we have to live without comfort, so-called. To Me comfort has no meaning at all, it creeps on Me.

Try to teach your body how to live with uncomfortable things: Sometimes, sleep on the ground, see how it works out. Try to sit on the ground. Try to use minimum of material things because they have overpowered you and you can't live without them. I have known people who have to carry folded chair at least to the seashore because they can't sit. They will get attached to a chair I think after some time and, like a tail, the chair will be moving with them, the way the things are, you see.

So one thing we must understand that materialism adds to comfort, that's why we should try to keep these dead things at our own command. If you want we can have a chair, if you don't want we will have no chair. They are not our masters, we are their masters, we have made them.

Then the second thing is about time: that maintenance of time, that we should be very punctual, we should be this and that. And that we should abuse others for that, I mean. That doesn't mean that you should never be punctual, it doesn't mean that! But what we do, we are slaves of the watch, that should not be so. We have to get to certain timing because the whole world is moving with that timing. But you should not scold anybody for being late or for being not in time, of course for Pūjā it's

alright because that's Divine work, [but also] for other things. And whenever it comes to that we should think of others.

You see, how to overcome time is to think of others. For example, that we should be in time in a place where others are not troubled by that, but we should not ask others, “Why are you not in time?" In everything, for example even in comfort, we should see to the comforts of others [then] you will overcome your idea of comfort. Because it will be such a headache looking after other's comforts that you will overcome. In the same way you should try to share. People don't know how to share their things with others, share their house with others. They always want to have their privacy, they want to have their own life, they want to have their own style: it's very, very wrong and these things can act really against Sahaja Yoga. Sharing, sharing everything that you have. Try to share. All such people who try to preserve themselves are not going to grow. They have to get lost, completely lost. Because what you are preserving is nothing but your ego, your material being, your material things. It doesn't mean that you break all your things that you have, it does not mean that, but you preserve it for others. You decorate your house for others to enjoy. You create comfort for others and not for yourself. This is how, if you work it out, you will be amazed, the joy will be maximum and you will really rise and you will grow.

Now, when we think of others the joy is so much so much greater that it is surpassing all the other joys of comfort and possession. Possession is a headache, absolute headache. If you do not possess anything you will be not

depriving yourself of anything, you will never feel a feeling that, “I am deprived of this” because you don't possess anything. You are the monarch of the whole world and how can anybody deprive anything out of your name? So we must understand the laws that govern us.

Now after realisation the more you try to be comfortable, the more you try to be exclusive, you get out of the grace of God. The more you try to have your own plans, the worse it is. You have to act according to the plans of God Almighty and then you will be blessed, you will be blessed so much but you will not know how to use your blessings [because] it will be so much. But do not have anything exclusive to yourself: your comfort, your material things, your time. Whatever gives you feeling of your `my, my,' just get over it! For example, even the subtlest of subtle is `my mother,' `my father,' `my brother,' `my sister,' `my children,' `my.' Who are the others? Everything is your own, then you will realise the joy of collectivity.

Now people talk of socialism, communism this that, it's all artificial. They can never enjoy that sharing because it is forced. And these things can be of great joy to you if they are shared. The same things can be headaches. I will give you a simple example. We had a lady from England, she married an Indian and the Indian people in that area were [of a] very funny type, very narrow minded. They wouldn't accept her.

She was not given any love. She came back to London. Now she came back to Bombay [Mumbai] first to see Me and naturally I was very nice to her and I didn't know what to give her.

So I had a pearl necklace.

Most of the things are in the bank so I had only one pearl necklace left with Me, so I said, “Alright, you have this one?" Just as a symbol of My love, gave it to her. Years passed, many years passed, you see and after about ten years or so I met her in London and she told Me that she would like to come and see Me and she brought that necklace with her. She swears that, “This had sustained me throughout to believe that there is love." This necklace, I have so many of them in My house, when I would, could have some more also, but this has given sustenance to someone for years together to believe that there is somebody who loves you. And that necklace is so precious to her. To Me it was not so precious. It was a headache.

The value of that is the subtle value of that material thing. It is beyond aesthetics, it is love, which is expressed through material thing.

You know that whatever I touch vibrates. This love is only enjoyed if it is given. If I love My children only, if I love My grandchildren only, I would not be here. And gradually they also understand that this sharing is so important.

So the laws of Divine are such that they operate in a very blissful way on the people who obey them, is one, as I said of sharing, one of giving your comfort to others. You should be a comfortable person to another, not an uncomfortable person.

You should not be a difficult person to others. Your tongue should be such that should give great solace to others. Your eyes should be such that should give a very great benediction to others. When you look at people,

people should feel that, `Here is my security.' Not to enjoy others but give enjoy out of you, enjoyment out of you, is the way you should act and then the laws of the Divine work better. It is easy to criticise others, in Sahaja Yoga also people do it. It's a habit of people to criticise others, but if you can love others then the criticism won't be there. You won't see all these points.

Now some people may take advantage of your love I know they do. But in Sahaja Yoga they go out.

Such people go out very fast. Those who try to take advantage of Sahaja Yoga, they go out of it.

So you don't have to worry. There the Divine laws will work it out that such people will get out. But you try to love, you try to love. You bring down your ego. You try to love others. And try to be one with God and His blessings. As He loves you, you have to love the whole world. And those who try to trouble you will be punished, I tell you, they will be punished. But you have to be one with the Divine laws. And this, once you realise your own problems, will neutralise completely. Like your family problem, house problem, property problem, this problem, they will all neutralise.

Only sometimes I find a conflict between family people. Your priority should be Sahaja Yoga, Sahaja Yoga, Sahaja Yoga. Say a husband may not be equally interested in Sahaja Yoga and the wife is pulled down. She should show that her interest is Sahaja Yoga nothing else and he will come. She should not give way to him. And if he is so that he wants to get into Sahaja Yoga and she objects. She has no business to do that under any Divine law she has no business to do that. If she tries that, husband

need not listen to her at all he should go full ahead. Because ultimately he is an important part of Sahaja Yoga. And he should not in any way make the importance less.

So she should go ahead with what she wants. If he is a Sahaja Yogi he should not bother about anything. His family will be blessed, everybody will be blessed, if he is there.

So any excuses, that takes you away from Sahaja Yoga are not helpful to the family. Because if the deities are angry your family will be harmed. If say, a woman is a Sahaja Yogini and her family people object to it they will be harmed and she will be harmed as well. But if she is in Sahaja Yoga all the family will be saved.

So, you are doing a greater, you are doing a greater service to your family by becoming a Sahaja Yogi and a true Sahaja Yogi and a dedicated and devoted Sahaja Yogi.

But no individualistic efforts, no individualistic attitude is helpful to Me or to Sahaja Yoga, is very detrimental under any name under any banner under any excuse. Try to find out ways and methods of becoming one with others. If you want to find out faults with others there can be any, I mean I should not be here. I can say that. Then I should not be on this earth. I could have said that. But I see that spirit in you and I see that beauty in you. I don't see other things. If I had not seen that spirit I would not have worked like this.

So, all such people who try to take any on their own thing will land up into difficulties. It's malignancy of Sahaja Yoga, is the cancer. People are so much used to see

certain ways of doing things like you see we take a bath everyday. It's true with us. I mean one example I am giving. Like English are very particular about say, may be, say, using a napkin at the time of food. Take a small thing like that. I mean they are very, that's for them is religion. Same way the Indians are. Now, I didn't take My bath yesterday because there were so many people. I shouldn't take. If I use all the water what will happen? And any time I am with you people I don't take bath till I have to have a Pūjā. I mean it's difficult for Indians to do that. But you can get over your habits when you say you are sharing that with others. But those who are inconsiderate will not understand this.

It is not necessary to come to Pūjā also so much cleaned up by sharing every body's things yourself, by having everything yourself. It's more important that you should come here with a heart which has shared the joy with everyone. Even if you have not cleaned yourself, doesn't matter. You are alright for God. But sharing is very important and that is what I find is lacking. People will take interest in their own children, not interest in other children. They will take interest in their own family, their homes, houses but not in another person's houses.

Try to share your labour with others also. And you will be surprised how rewarding it is, how rewarding.

And little children don't understand the difference sometimes, they don't understand who is the other.

Like we went to Delhi once and we shifted and I cleaned the house. It was very dirty and all that cleaned it and decorated it and all that.

So My daughter said that why don't You go and decorate the other houses also and clean them. They are very dirty houses. They didn't understand that it is too much for their Mother. You better do it, they can't do it alright, you better do it. It's that simple for them. And this materialistic attitude, you know what's happening to us with that.

I mean thank God you are not like the Indians who have come here. They are very materialistic. You have got out of it. But still in a very subtle way it sticks on to your comfort, your idea of taking a holiday and going out for a holiday alone, you see, with your family. This is your family. Your family is large.

Your Mother has so many children, what to do. She has so many sons and daughters. Everything is to be shared. You will never enjoy your holiday alone. You can only enjoy with Sahaja Yogis. This is what it is. Once you start enjoying that you'll be amazed how beautiful it is.

This is what I want to tell you today in Cambridge, because from Cambridge people have gone all over the world. They were educated here. They went round the whole world. They are everywhere. It has circulated so much and, but Cambridge people are very snooty, as they say. They don't want to share with anyone. Just imagine! Cambridge is a place which is meant for sharing. That's the place where they don't want to share. Knowledge is one thing is to be only enjoyed after sharing. Otherwise you cannot enjoy your knowledge.

So share your joys and share your happiness. And you will be amazed that all your pathos and all your

unhappiness will vanish, completely vanish. These are all the old things of the past life, forget it.

You have to all forget that you belong to this community or that community. Just learn to share. The highest thing, the highest material thing that is created in this world, even above flowers and everything are human beings. Just share them, just enjoy them. They are the best thing God has produced. Just enjoy them. This is what is necessary if you really want to obey the laws of God.

Today, I hope with this Pūjā, your heart will enlarge. And that you will learn to share with that big heart. Just try to share your things. Share your time. Share your comforts. Share every moment of your life with others. Think of good things of other people, you'll enjoy them. If you start thinking of the thorns instead of the roses, will you enjoy roses? If you have to enjoy the roses you have to forget the thorns and enjoy the roses. Those who are wise are like that. But stupid can take the thorns and just go on pricking themselves and saying that “Oh! There are thorns." The sign of wisdom is to enjoy the beauty of roses, they are the most beautiful things. They are all roses. I see you all roses here. And I forget the thorns and the day will come they will not need even the thorns because they will be so powerful. And there should be no groupism of any kind, of Intellectuals coming together, non-intellectuals coming together, alcoholics on one side. In Sahaja Yoga also we have caste system, just imagine. Then some Indians are separate, then English are separate. Then Cambridge people are separate. There should be no separation. We are all one. We are all born through our Sahasrāra.

We are a different community and different thing. We cannot form into groups, cannot form into cults and cannot form into any caste. We are all twice born people. We are the people who are born again. We are different. We have lost all that. Everything is lost, you see. They say there is no caste for a Sannyāsī, for an ascetic, means the one who is a realised Soul, there is no caste. Don't belong to any caste. Forget your problems of your country, of your nation, of your, so-called your people. Forget it, you are different and try to pull them up to that where they also become one with Whole. The whole world has to unite like this. Give up your small, small differences and angularities.

My God Bless You All.

Now who are the people who have not come from London?

***Contents: 1981-07-06*, Public Program, Where Does the Truth Lie, Caxton Hall, London, UK**

How many are new today? I am sure somebody must have spoken before, no? You all have been seeking and seeking the truth about yourself. Where does the truth lie? When are we the most truthful people, where at what point we cannot deceive whatever we may try, when it is heartfelt, when it is our heart's desire then we always try to go ahead with it but it has to be heart's desire; not the rationality, not the brain's desire because you can make your brain understand. Your intelligence can be compromised.

Whatever is heart felt you want to do it? You cannot be satisfied without doing it.

So in the heart lies the truth. That is the spirit that lies in your heart. But that is not in our conscious mind. We do not know how it manifests, we have heard that it is eternal, indestructible, is the source of joy and is the attention of God, that's what we have heard. All such things which are preached may be regarded as here says. People might say, what's the proof that there is a spirit in our heart. Thank God, people have discovered the heart at least if not the spirit. How are we to believe, that there is spirit that we have a dimension which is beyond this human dimension which is the dimension of the spirit, the spiritual dimension, by which we can feel the All-pervading Power of Divine Love; is all being told to us, by all the priests of all the religions.

Now where is that spirit, whether it resides in the heart or where, how are we to know? How are we to believe? Or are we to deny all those people? Did they tell us lies about it? They may say you imagine, now your awareness is that of the spirit. By imagination you are not there, it's just an imagination. Suddenly you find it was just a bubble and whole thing has burst off.

So today the questioning mind comes to a point, to inquire, is there something called spirit that we have to identify with. This inquiry itself is a seeking because you also do not know what is the meaning of your life? You also do not know why you were made a human being? What was the need for the nature to create human beings on this earth? Why they took so much time to create it, evolve us to this stage where we are called as human beings. Nobody asked the question why, the scientist do not. Also the people who are so-called

religious, do not ask the question why. They just believed in it, have faith, have faith, faith is the only way you can go to God.

Blind faith, that's a good consolation, just a consolation for the heart, oh, I have faith in this and this.

But tomorrow our children will ask, though they are already asking. What is all this going about? Why you are wasting your time and our time in all this useless things. And they are going to ask is there any truth in, what you are saying, is there God? So long time back people decided, forget God, turn your back, that question is a mystery, forget it.

Let's start something else, so they started science, this that. Science is nothing but whatever is there you just say, with these gross eyes human eyes you see, now a hall like this and a carpet and all that you see whatever you see you just say this is it, this is it. The laws of science are also, whatever they see, experimented, whatever is discovered because it exists.

So whatever they have discovered it is the science.

But there may be something they have not been able to discover something beyond and could be always, because every theory they put up is challenged, every new thought they put in is challenged, even whatever are accepted as Newton laws and all that are challenged today.

So every thing is challenged and human beings are just confused, they can't understand, whether there is some truth in it or not. In this *[UNCLEAR* question] era of confusion seekers are born these are the seekers of the truth. It's a rare category. It used to be very rare before,

not in this age of course. In this age there are many, they are really seekers. Of course, some could be, just out of the fashion, are seekers because everybody is a seeker all right, everybody is a hippy I become hippy. They are all going on those skates; let me also buy some skates, just like that you see. But some are really seekers, they may do some Guru shopping they may go round. They may have little fun here and there. They may try to go to places where their ego is pampered and they may like to spend some money if they have some extra money inherited or something like putting it on a horse they may put it for their spiritual life. Anything is possible.

But one has to understand why are we seeking? I don't know why, of course, because we do not know the meaning of our life. But may be that we have evolved to this state and we have to evolve to some higher state. Like the fishes who were in the sea but quite happy. But one or two of them started seeking something else so they came out of the sea and started seeking. And they become turtles or reptiles and the evolution started moving further. We have not yet reached the epitome or we say the climax of our evolution because we do not know our meaning. For example now this instrument as it is you see. To a lay person like Me it will be difficult to guess what it is for and even to a person who knows what it is, will be difficult to play if he does not know and a person, who also knows how to play, will be difficult to play if it is not connected to the mains.

So we can say there are people of four types in this world, out of them the seekers are the one who are just ready to be connected to the mains. They are a type. As

soon as they are connected to the mains, they start manifesting very well. Immediately they start understanding Sahaja Yoga. Sahaja, saha means `with', ja means `born', is born with you. This right to be in union with God, that is Yoga, is born with you and this Sahaja, this spontaneous happening takes place more in a seeker than in a non-seeker. The one who knows how to play this instrument is the one who can connect, the second one is the one who wants to know how to play it, will be the first to know how to play it. But those who do not want who are not interested, those who just come to show off, those who are not seekers, they may be some big people, may be kings and queens and may be anything. They might be priest, they might be anything but those who do not want to know about their spirit are difficult, are extremely difficult, it's a headache.

Sometimes they feel they are going to oblige Sahaja Yoga, by coming to Sahaja Yoga. It is just the other way round Sahaja Yoga is a very receding force, it judges you very much. This evolution takes place in people who want to know, who want to get into it. Imagine of the fishes who came out of the water, they can't live without water. To come out of water and to find new ways of life, new understanding of the soil, was very difficult. Though Sahaja Yoga is not difficult at all.

Once you get your realisation, once the Kuṇḍalinī rises, when she pierces your fontanelle bone, when you get your baptism, when it passes through various Chakras and enlightens your different centers you get all the blessings of this power within you which is resting, sleeping, which you can awaken and use it.

When this power rises, She cools you down completely, She is so blissful. She is compassion, She forgives.

There are people who think oh Mother, we have committed so many sins. It's nothing. She just forgives.

Forgiving is her nature. She has to forgive. She finds her own way. She enlightens all the Chakras by itself, it's your own mother sleeping for days together, years together, ages together, lives together and She rises, She rises and She pierces this area and you become a different person all together, like an egg becoming a bird you become a bird your awareness is different. Bird has a different awareness from an egg's awareness and that is the real second birth, is not that you just certify yourself oh, I am born again there are people who are going around, we are born again. I said who says so, yes we are but how? What is the proof that you are born again? If you are going to live with myths, if you are going to live with untruth, you can go ahead. Nobody can stop you, your freedom and your freedom to do what you like whatever things you want to do you can do it and learn from your mistakes, errors. Nobody can stop. That's your freedom, once granted is granted forever. I mean if somebody wants to take two running jump and go to hell, how can you stop.

You cannot stop it. It's only you, when you get your realisation, then you know that where is the spirit.

You know that you are the spirit, you know it within yourself and not just the rational mind tells you, oh I am the spirit just to believe I am the spirit. It's not that, but you start manifesting your spirit and manifestation of the spirit gives you complete enlightenment within because

you can feel your centers on your fingers. Normally you don't feel, you don't know what centers you have. Even a child can feel the centers on the fingers. Even the person who cannot speak who is deaf can feel these centers. All these seven felt centers, you can feel not only of your own but of others. As you grow in your knowledge how to use this new power then you can cure others of their various problems of the Chakras and you can give them realisation too. You can do it.

It's your own spirit that is going to work. It is the manifestation of your own spirit. Then you know the knowledge, you know the truth embodying all the truths is one truth is that you are instrument of God and the power of Divine Love start flowing through you and you can know what is that power through feeling it, in your conscious mind, not only that but you can manoeuvre it, you can master it. This is what one has to expect of Self-realisation not a certificate, not just a book, not just a receipt that I have paid so many pounds to someone. It is the certificate that you have to give yourself very truthfully. Your own truthfulness is challenging Sahaja Yoga. You cannot lie.

When you get your realisation you do feel and if you do not get it you just do not get it. Nobody can force realisation on you, one can help. For example now there are so many Sahaja Yogis today here sitting, they are beautiful people, they are just, outwardly just like you. But from their hand this power is flowing and they know how to manoeuvre, how to give power to your aura, to your Kuṇḍalinī to invite Her because they are enlightened ones and the enlighten ones can enlighten the

unenlightened ones. And once the unenlightened are also enlightened they can do the same thing to others after learning the method how to do. But before that, you are naive; you do not know anything of God.

So far whatever you have known, if it was of any value you would have been there. But you do not know and one should not feel bad about it. Because we are born like that, we are to be born again. There is nothing wrong in being born as human being and then to be born again. Only human beings can be born again, not animals.

So there is nothing to feel bad about it.

Some people get hurt when they find others Sahaja Yogis are working on *[UNCLEAR* you]. But tomorrow the same Sahaja Yogis, you will be amazed, will be helping you very much to sustain your realisation and then you will become a Sahaja Yogi and you will start doing it. And then the whole priorities will change because the joy of your spirit is so great, is so tremendous that you would not like to lose it and it flows through your fingers like Cool Breeze and that's the indication that you are all right and spirit is manifesting. But when you displease the spirit you will immediately know that your vibrations have stopped. Any question, any fundamental question like is there God if you ask immediately the vibrations will start coming with great power, showing that yes, there is God.

Your computer start working, it is so amazing, it is so amazing because you do not know that you are a computer. It would be like a say television set, suddenly brought to some villagers and you start it. They say what, it looks like a box, ordinary box. What is starting there? Is

some pictures have started coming into it? In the same way you are made that way specially, by God almighty if you want I will call it nature and now you have become that.

So becoming is the main point in the Sahaja Yoga, not just lecturing, talking about it. You may hear all My lectures there are, I don't know how many, hundred's. You may do anything you like, nothing will go into your head or into your heart unless and until you have realisation.

It can only mean to you that, yes there is way of doing it and all that. But unless and until you have actualised it, it is useless. Everything is useless for Me.

So it is the actualisation it is the real happening one should ask Me and if it happens to you, you should know that God has blessed you specially.

There are very few people in this world I found when I was born who were realised Souls and today there are so many. They speak the same language, they talk the same language and they understand what it is because now they are exposed to the new laws of divinity the Divine laws of God's kingdom. They are very different from what we know. Unless and until you evolve into that new state, you cannot understand God. You have to know yourself to know the God. It's like the eyes that have to open, to see the colours.

In the same way your spirit has to come into your conscious mind so that you know God, in your conscious mind.

I would like you people to ask Me some questions, the new people who have come and old people. If there are

some questions I would like to answer. But you see it's such a big subject and every time I have to go with the introduction. I thought somebody must have given you introduction. But it doesn't matter there is book which you can read and find out yourself. But is best to know is to have it. What can one do? [Some conversation behind.] Good idea. You got realisation last time. The problem is, it's a collective happening. Many people have to get realisation and it's not individualistic, see we are all part and parcel of the whole, see so if one finger is enlightened, that finger should try to enlighten others. That is the best way, best way because once this finger tries that, it gets its power more. Why should God give power to any one who just wants to keep it to himself, the power increases as you start giving it to others. Like when you open one door no air will come in, but if you open the other door the circulation starts. In the same way when you start giving it to others, start raising the Kuṇḍalinī, right now you can start. Just don't be afraid, you can do it. You will find immediately inside you will be coming up. Those who try to be exclusive and try to be something great by doing everything at home and especially for Myself they are nowhere. I find such people have horrible drawbacks, mix up with the other people, share it, share it all the time and give realisation to others.

Those who have given realisation to others have come up very much. Those who think of others being realised, come up much faster than the people who sit at home and meditate for five hours. There is no need to meditate

like that. At the most just to cleanse your self you can spend about ten fifteen minutes.

But there are many people whose attention is only on themselves I must cleanse, I must cleanse I must do this, such people do not get very far in Sahaja Yoga. Those people who try to do it for others, talk to other people, work out much better.

I would say Australians have done much better than English have done. It may be because of their temperaments, may be they are not such closed people you see. For example they have their friends and there is no taboo on discussing religion with friends as it is in England. I think in England nobody discusses religion. They will discuss the pub and all nonsense and all filth, but not the religion. They are not suppose to, in etiquettes you see, it is prohibited I think.

So naturally there is taboo and it leads you no where because you can't talk to, Sahaja Yoga to your friends, so who are there who are your friends. If they come to your house, you can ask them what is the new wines, there are in the market or something such an important thing, you know, about they will talk. But you can't talk about religion or your experiences of Sahaja Yoga that's the problem, it's regarded as bad manners.

And now the question is that, these things are to be shared. That's why the Sahaja Yoga you can only talk among Sahaja Yogis, it circulates among Sahaja Yogis. Nobody wants to hear about it. Even if you try to tell them they say oh don't tell us that we are not interested. It's a very funny thing, the other day I met the gentleman who has divorced his wife and she got her realisation

some where and he got realisation somewhere and both of them met in a group. She said how are you here and he said how are you here, see we both got realisation. She said but you never told me about this. He said I didn't want to discuss the religion.

So she said I also got realisation I didn't want to discuss religion and ultimately they discussed their divorce and had a divorced. You see if they had just told them that both of them are realised and they would have never divorced, because he thought this lady is not a seeker so he divorced her, she thought he was not. Even if they had felt each others vibrations they would be all right to know but she got her realisation in another place and he got realisation in another place and they never knew that both are realised people on the same *[UNCLEAR* plate/date]. He thought she was very materialistic and she thought that he was very materialistic. And then there was misunderstanding about it and they are not to discuss, one should not say these things. Naturally everything ended up in a divorce and now they want to marry again.

This is the one of the reason why in this country I think Sahaja Yoga doesn't work out because you are not supposed to tell anyone. At the most you may tell it to your children, may be I don't know your mother father sometimes. And all such people who have tried have been able to bring their relations here.

But it's only relations, not in friends. With friends you are not suppose to say anything. This is funny thing, isn't it? This is the society what to do now I hope gradually it will change, when people will know about these things. And

in Australia what they do is to, they have program for seven days. It is very interesting I have got this from there. In the ashram they have seven days program and out of this one day they have a Public Program on this day every Sahaja Yogi suppose to bring four more. He is not allowed to come unless and until brings four more that day and you have to bring four more you cannot just come to Mothers program and they can't listen to My tapes or anything unless and until they bring four more.

But it is possible in Australia because I found the people much more open you see and they are. I mean here because of the climate may be or we are frightened of others whatever it is. There are certain taboos like etiquettes I think they don't believe much in etiquettes perhaps. Like here there was a announcement that now you need not to do courtesy because of tight clothes so you can just bow. See something like that may turn up now that you can discuss about seeking, if not about religion I hope so. And this may be one of the reason people just can't talk about it. But still who so ever whom you know, you should try to tell them that I have an experience. I met such and such person and this and that, immediately he will surprise your vibrations will go on, which is like this, that bigger the room the bigger is the light provided for. If it is smaller room than we don't put the big light, isn't it? In the same way if you have a wider thing, there is a one gentleman in India I told you that he gave realisation to ten thousand people. I must say that in Cambridge, Hillary and James have given realisation to so many people, so many people. It's interesting because there are Chileans people you see

and the Chileans they don't believe in such etiquettes you see.

So it has worked with them. May be one day its work out here then we will talk to others.

So this is the only way you can really grow.

[UNCLEAR] oh of course it is very important. No that's true you have to cleanse yourself also. There is a way and method you see this. I must circulate that, it's a beautiful thing they have written down these Australian how they cleanse themselves, how they clear out there Chakras. That it is very important.

Of course you have to clean. Say supposing you clean your car everyday and you don't move out. After sometime it will become a junk. It's like that. See you are cleaning yourself for what, what is the problem.

Everyday we are cleaning, say the house and everything and not even a rat comes in and what's the use of such a house. If he clean all the lamps it should give light otherwise what's the use of cleaning. It must have a purpose.

You must have a purpose. Otherwise some people are just meditating, meditating for what I just don't understand, why are they meditating for what. In all these Gurus, they just say oh you go home and meditate. But do what. Next time bring all the money to me and again you go home and meditate. Then if money is finished, now sell your house bring all the money to me and meditate. Then that is done sell your car sell everything, you stand on the streets and meditate. This is not the way. It has become a sort of a pass time for people instead of going to pubs, may be it is expensive

better meditate. It's something like that you know. It has no meaning to this meditation. Meditation is that you have to be in meditation when you see that these centers are in problem, you cleanse them understandingly, purify them and then use it for a purpose of giving it to others. And once you start doing it, it works better. Your instrument works much, much better. It's a dual way of doing things. All right? *[UNCLEAR]* of course. Minimum of minimum. [Pause]. No I wouldn't say that, you see realisation is that it's a first is a linear movement of the Kuṇḍalinī all right? So it depends on the what Chakras are catching. Supposing somebody has a Nābhī problem.

So you can't say it's a different stage but he has a Nābhī problem, a particular problem.

Somebody has a some other problem, like that. But the other stage comes in when we would say that once the first stage is called as Nirvichar Samādhi that you achieve even before realisation. I mean you achieve but you do not retain it, means when the Kuṇḍalinī crosses over this center, then this Nirvichar Samādhi means, thoughtless awareness, this one settles. But with this you can cure people but cannot raise Kuṇḍalinī. But when It pierces through then you can raise the Kuṇḍalinī of other people. But when It is settled down nicely and when you are absolutely without any doubts it's a state, it's a state of mind that comes into you where you are absolutely, doubtlessly prepared. When that happens then only we expose you to new experiences. Before that we do not. That's the thing we have a little, we should say a little group of people where you have to go up to Nirvikalp Samādhi.

Unless and until you go to that stage you cannot be exposed to new experiences because you may shun it. Because the truth can be quite difficult.

So that's the second stage we can say where you are exposed to those new experiences. But first stage is to become thoughtlessly aware with the vibrations, but you can give realisation to others, you can give. But Nirvikalpa is a different thing that whatever may happen you know that this is the truth, whatever may happen. That stage is to be achieved, it's a stage, it's a very high stage I would say where you are so sensitive to things that immediately you know what is negativity, from where it is coming, how the attack is coming, how others are affected. We have a quite a lot of them among here also people and then you are exposed to new experiences better. And then you rise in there, that's the Nirvikalpa Samādhi. Then the Self-realisation complete comes in, in a person where he is not bothered about catching from anyone or getting any catches or anything and he goes on with a very confident attitude towards Sahaja Yoga. I mean he is not bothered whether I am catching or something is happening. I will not see that person. That sort of stage and we have some people on that stage who are I can say Self-realised fully, they can control even elements. There are people, we have got such people.

Beyond that is the stage of God's realisation. That's again in three stages works out. But just now let's start from the very beginning and it will work out I am sure now. Now I have been working here for seven years and

actually some of these people who are at Nirvikalpa have not been here even for a year.

So it can work very fast. As the people grow in number, these stages also grow in sort of, in maturity very fast. You mature very fast as the people are more, as when there were few people you should know that I had six people I was struggling with them for four years in England. Even in India the first disciples who got realisation, were with Me for two years continuously and then they got realisation, the first twelve. It's like that. Now you know everybody. All of you are giving realisation. [Pause.] Oh dynamic, absolutely dynamic. Eficiency is too simple a word you just become dynamic. Because a dynamic start going through, we don't know how things work out amazing, amazing, how things work out. Then all the forces which are dynamic, Divine start their play. In every way, material way also, I must say like London Sahaja Yogis wanted to have some houses. I said all right now they have so many houses they don't know what to do. But this is the condition. They don't know what to do, from where to get people to a house there. This is the condition. While nobody can get a house like that for one year absolutely free or two years absolutely free, a house is just to be painted or something and many houses like that. They are getting one after so many houses they don't know what to do with. I mean a person will have to live in three houses if we have to divide them.

And a lady came to Me she said I am told that houses are only given to Sahaja Yogis so I want to join Sahaja Yoga. I said very good idea, but first you must get your

realisation. Otherwise these Sahaja Yogis won't have you any where near. They don't want people with bad vibrations.

So you have to get your realisation. I mean it's just a one of the small instances but there are thousands and one. This becomes dynamic. Your desires get enlightened. First of all your desires becomes sensible. You have wise desires and they get enlightened, means you desire you will get. You are amazed. It is fantastic.

[Aside:] Can you stand up please? I can't hear you. You please stand up. *[UNCLEAR]*.

I don't think that was Holy Ghost. You have apostles where also *[UNCLEAR]* you will know about them. They were not realised, they never believed in Christ till He got His resurrection which they saw with there eyes they never believed in Christ. You will know more about them. I don't want to go into any controversies but that's not the way. You see, there are many people you have seen now. The other day I saw in BBC a man whose painting like Van Gogh. He can say that I have got Holy Ghost or what. That's not the way, it's a spirit. Why God should make him paint like them. If God has to give you something, He has to give you something that you cannot do.

If you start speaking many languages, may be so many dead spirits must have entered into people.

There are many people who do that way. They just start talking so many languages, there are spirits in them. What is there to speak many languages? What is so great? We have in India one gentleman who can speak twenty eight languages, so what he is not a realised Soul by any chance. How to talk, they were just ordinary

fishermen and they would not listen. You see, they were thinking they are obliging Christ.

Everyday there were list of relations who were sick, were brought to Christ and big problem, very tragic thing, horrible. People are much wiser now. It's very different now and I mean how could you talk to these people about Kuṇḍalinī, could you? This is what happen with everyone who came on this earth.

Even Mohammad Sahib, they know how to butcher, you see these people are not seekers and they came to Christ. They were not seekers if they were, I must say John who was the best among, even Mathews he argued so much about the immaculate conception. You see, you don't know what was all that, forget it.

You will know about them later on. It is better you see now, to yourself. Now I am before you, all right, forget about them. Let's have it out, it's not that same thing. You won't be speaking many languages I can assure you.

But cold wind is a faith, that's a faith that's very [pause]. We have one experience of that. One gentleman who was doing black magic, when, you say, he was a arch bishop of black magic, he came to Sahaja Yoga, you see and he got his realisation he got the cold wind. And after that all this cups and saucers in his house started flying around and everything happening you see. I mean it has happen very recently, about I think fifteen-twenty days back and about 12 o'clock in the night, from people from Brighton rang Me up at 12 o'clock in the night, Mother horrible things happening. I said what happened, we gave realisation to one man and the whole house is in whirl wind. Everything is moving around and we don't

know what to do and everything cracking. Oh god, I said, who is this gentleman whom you gave realisation. He said he is very great in black magic this and that. I said why did you give him realisation? It's a thing you know, they try to tempt. Because the spirits were around and they wanted to tempt him.

They want to frighten also because he has been so much with them, they don't want to give them up.

And this thing happened. But that's not the thing that we should expect. There was a lady whom I gave realisation I told her that because you are been indulging into nonsensical things, your Guru was a very great Tantrik and he used to do all such tricks, you may start doing that after realisation also.

So she said no, no, no mother I don't want all that, I want param, I want the reality, I don't want that. I said but still it will happen.

Somebody may try to tempt you so. Because they do not want you to be realised and it happened to her. Rice started falling from her hand and then she took another turn, ultimately she became a mad woman.

So it is so. It can happen, but rarely, not so much if you have not been a professional black magician or something. It will not happen.

We have misunderstood many things and that's why it is necessary to know it and then understand.

Because if I tell you something there would be blockade and barrier in your mind. As it is people are brain washed by so many things. Like those who are Muslims don't want to look at Christ, they don't want to hear. Those

who are Christians don't want to hear about anybody else. Those who are, say Hindus, they don't want to know about anybody else, you see. But Sahaja Yoga gives meaning to all of them, to all them, are important, all of them. Everyone is important for Sahaja Yoga and they reside within us in those different Chakras. It is a very different thing one has to first see and then judge. Not to judge about anything without seeing it. Without seeing whatever we judge may not be correct, all right.

Should we have the vibrations now? Let's, please put your hand like this. Just be relaxed. You have to ask for your realisation, otherwise it doesn't work out. I must tell you.

[Some conversation not related to talk.] Put your hands like this and close your eyes. [Long pause.] Please keep the eyes closed, don't keep them open, because the Kuṇḍalinī won't rise above the Āgñyā if you keep your eyes open. Please keep them closed. [Long pause.] You will start feeling Cool Breeze in the hand that's the only thing that happens.

But nobody can certify it is you who has to feel. Also from your Fontanelle bone area, if you put your left hand you can see Cool Breeze coming in. [Pause.] Who are the new people? I would like to see them.

Contents: 1981-07-10 **Radio Interview, Brighton, UK**

Broadcaster: Now, a little while ago with John Gribbin, we were being conducted on a whistle-stop tour of the external universe, but now we hope to probe a little deeper. A spiritual leader, who believes that every country in the world is linked to a particular part of the

body, but who scorns religious Gurus, who preaches that the essence of life lies within the *[UNCLEAR* evidual/Ovidual/individual] *[UNCLEAR* awakening, yet/awakening yet,] is extremely rich and married to a United Nations official. Well, I dare say I am about to be told that these apparent contradictions are of my own making, but I am very pleased to welcome to the sounding studio The Mātājī Nirmalā Devī, together with a local practitioner of Sahaja Yoga She espouses, Ray Harris. Now, he's a Brighton geologist so we've got both sides of the spectrum and we're very pleased to welcome you both to the studio.

Now, perhaps I could start with You, Mother Mātājī. You're an Indian, now what kind of following do You have at home?

Shri Mataji: There are lots of people in the villages of India. I work in the villages of India, not so much in the cities and the villages are not yet touched by the superficialities and the pretensions of life so much. People are very simple and it's easy to get them realised. I mean, the Self-realisation, the Spirit.

They can feel it much faster than others can; it works much faster there and it has improved their lives to a very great extent, because of this happening within yourself. You get cured and there was a possibility of starting even a national health scheme on those grounds, because you don't have to pay anything for it and also you give up all your bad habits like drinking, smoking and there are other blessings that also follow with it.

So it's a very great thing, because you don't have to pay anything for the countries which are developing now.

Broadcaster: I think a lot of people can understand that, within the context of your own country. It seems to make sense in a very simple world where people don't have the problems of the developed world that we have. But Ray Harris, does this have a lot of meaning in life over here, because things are so different, aren't they? Ray Harris: Yes, but you see, nowadays we've got so many people who are really trying to return to the simpler, more natural values. I mean, we spend most of our time trying to compete with each other and see who's going to be better and all sorts of things like bad results in families. You know, we see this and we feel that things are not going right, in spite of our affluence, in spite of our intelligence, in spite of our facility in the scientific world. We see all around us emotional despair, rioting as of late, even in Britain, which is traditionally a good country for people generally, even here things are starting to get very strange. And those who have any awareness or intelligence can't fail to notice something's wrong and people are seeking. They're looking for the return to calmness and peace of mind and serenity.

Broadcaster: Well of course there are many fringe religions in Britain and indeed, in these troubled times, they're growing. There are more people who are turning to religious experiences of one kind or another, but what is so special about Yours? Is it another established church?

Shri Mataji: No, it is not. It is not an established one, it is neither an organized one. It is something very natural within us; spontaneous. It is the breakthrough of our evolutionary process, the last one.

We have a meaning. We human beings are created for a meaning, for a certain purpose. We are not purposeless and the evolution has taken place, has brought us to this level of human awareness and we have to break through; to become the awareness of the Spirit. It has been said by all the Scriptures. I am not here to deny any Scripture or any religion that was established, but by this you understand that they all are belonging to one Universal Power. While we are fighting because of our ignorance, it is the very integrating thing it transcends all the races, all the nations and all these barriers which human beings in their ignorance have created.

Broadcaster: Now, You're the Spiritual head of this movement, now how can You spread the word and the Gospel of Your Message when You have no organized Church? It must be rather difficult.

Shri Mataji: Not at all, because there are seekers, as you said that the people here are very compli cated and sometimes this confusion gives them a greater seeking than that is in India, because people in the developing countries are seeking now material wealth. But the people, where they are affluent, they are seeking the spiritual wealth, so lots of seekers are born in these places and it's easy, very easy to talk to them and this can work out.

Broadcaster: So how do you actually practice this, Ray? What do you actually have to do to try and bring in some of these ideas into your lives? Ray Harris: Well, it's not really a case of practicing anything in particular. You see, once you've met Mātājī, something happens inside you. Normally speaking, if you've led a life which isn't too, I

don't know, messed up in some way, emotionally or perhaps with drugs and things, you can feel this process inside you.

Perhaps many people have felt shivers up their backs or tingling or blissful feelings when they're listening to good music or seeing something, a beautiful scene or something, or even a beautiful lady. And this kind of joy that you feel, it's the only way that we have to feel joy, you can recognize. I mean, this is the only way I recognized Mātājī, is when She raised my Kuṇḍalinī and I suddenly felt this tingling up my back and this joy and peace. I thought, “Ha, that's it!" It's simple. There's no church or organization so the only thing we have to actually do is to keep ourselves cleansed. The Kuṇḍalinī does it Herself inside you and essentially, all you have to do is lead a normal life, without excesses, balanced ideas, confidence, responsibility to yourself and to your Kuṇḍalinī and also to other people, to your brothers and sisters and other people who have also had Kuṇḍalinī raised, you have a common language.

Broadcaster: I think a lot of people would agree with a lot that you say, but nevertheless, you're really pinning it on to one person, the lady we have here. Now, I mean, how can you say that it comes from just this one person? Ray Harris: The vibrations come from this one person. If you put your hands out towards Her, you may be able to feel a sensation in the palms of your hands, you may feel yourself getting slightly more relaxed. You may feel yourself just feeling a little more joy inside, I don't know. I mean, when I put my hands towards Her, I mean if people are listening, even people who are listening to the

radio can put their hands out towards the radio and some people will feel a tingling or some sensation in the palms of their hands, or even on their heads. And this is the judge of it; it's something which happens internally.

It's to do with the parasympathetic nervous system.

Broadcaster: See, Mother Mātājī, You're said to have these gifts; I mean how do You react to that? Don't You think it's a little dangerous, that a lot of people should just look to You, as an individual? It's quite a responsibility, isn't it?

Shri Mataji: It's like the Sun. The Sun doesn't feel anything is dangerous, you see. And it just emits, what can I do about it? I mean, if you could do it, I would be very happy, but it's not so, I have to do it, what to do? Broadcaster: So, are You saying that it is something special with You or could any of us, could I develop these gifts?

Shri Mataji: No, you can get it also.

Broadcaster: I could pass this on to other people?

Shri Mataji: Yes, of course, of course, of course.

Ray Harris: This is what we're doing, it's all we do.

Shri Mataji: You see, one light can enlighten another person. Nowadays, these boys are curing others and they are doing all this work. I can't go everywhere. It's done like that. You see, you become that, you become collectively conscious yourself.

Broadcaster: Well, I'm not sure what everybody's going to make of this. I think there's something in it but, well I don't know! Ray Harris: Come and see.

Shri Mataji: Why not try? Why not try? Broadcaster: Well, thanks, I think perhaps we will.

Ray Harris: We're having programs tonight at the Sallis Benney Hall which is at the Art College on Grand Parade, Brighton where Mother Herself will be appearing and proving to you that this has validity.

Tonight at 7:30 and tomorrow at 7:30 also.

Broadcaster: Well, there you are, you've got the invitation, why not try it?

***Contents: 1981-07-10*, Public Program, Day 2, The System Within, Sallis Benney Theatre, College of Arts and Humanities (on Gran Parade), University, Brighton, UK**

[Introduction by Kingsley Flint.]

I must thank Kingsley for giving such a nice introduction.

When I went to Australia people asked Me “Are your disciples all... all scholars?" I said, they come from all walks of life, there are very few who could really be called scholars but I think after getting realisation, you being the complete knowledge, new venues open within you. You start knowing so many things, like when you enter in this room and it is absolutely dark, you can't see anything.

You don't know much about it, you don't know how to walk, where to walk, you may just stumble down, but if there is light, you know so many things suddenly and you are amazed at yourself that you have come to know so many things.

Now this knowledge that you have, is not the knowledge that we read in the books. If I put my finger to this flame

here, it will burn. Anybody who puts the finger to the flame, it will burn. Now this knowledge that the finger has to burn has come to us through our experience and is built within us. Everybody gets it without paying for it, without making any effort for it, it is built in within us.

In the same way, we are so organized within ourselves, we are made within ourselves so well that if this happening which he told you about, the awakening of the Kuṇḍalinī, if it takes place, it is just like this instrument being connected to the mains and it starts working. I mean you are wonderfully made, no doubt about it and thousands of years, thousands and thousands and thousands of years have passed till you become a human being.

This human being, the body, the mind is all made this way, organized this way for one purpose and the one purpose is to become one with your spirit.

Now, why? why should we become one with our spirit? Because the spirit is the universal being within us, is the reflection of God Almighty, is God reflected within us, in our heart. That spirit is eternal, it is not destructible, it is unattached and it is the witness of our lives. It witnesses what we are doing, it knows all the fields in which we move but it is not in our conscious mind. We cannot feel it, we cannot manoeuvre it, we cannot understand it's powers.

So the whole being is created, through a power of desire. The desire which is very strong, that you have to become the spirit is still unmanifested. It is residual and resides in the triangular bone called sacrum. Sacrum means sacred. Today on the radio, they asked Me a question,

that here the people are so complicated, do you find it easy to convince people about God? About Kundalini? They are very skeptical, is it easy for you to do that? It's a very nice question because she could see My problem. Now I have to tell you one thing, that this power that resides within us has been there and many people have talked about it. It has been there, no doubt about it, but in modern times we want to know whether it is there or not. Now there are many people here who have seen the pulsation of this power in the triangular bone. They have seen it and you can also see it, for your conviction, to see for yourself. But I would suggest that there is no shop, nothing is selling here. This kind of skeptical attitude is alright for people who are going to buy something. That they want to know whether it is right or not. Suppose you are entering into a university and you are there to discover some scientific knowledge, then do you go with a skeptical mind? You go with an open mind.

You need not be skeptical and you need not be closed. You need not be also following anything blindly that I say. There is no need to have blind faith in Sahaja Yoga, no need at all. It is for you to see for yourself if it works out or not. One should not come with an attitude that if it does not work out then there is something wrong about it, maybe there is something wrong with you, because there is nothing selling here, it is a gift. It's a gift of God, it's the grace of God because he is anxious to save this creation.

That's why he is giving it to you, to masses, it has never happened before.

This is something so unique that is happening, I Myself am surprised at the way it is working out.

So when all this is happening, why not benefit by that? It is you who is going to benefit not Me, not at all.

When you understand this, your attitude will be much more positive towards taking realisation here.

Now human beings are not going to be happy without their self being discovered, whatever you may try. You give them money, they become affluent then they will become hippies as they become fed up of it. You give them power, they will fight among themselves or they give up politics. They will never be satisfied with all these things because they know it is not satisfying, why? Because satisfaction can only be enjoyed by the spirit. Only the spirit can enjoy. Rest of the enjoyments are temporary, transitory and they vanish into thin air.

All complexities of life, all problems of life that faces you, is because without knowing the absolute you have gone into relative dimensions. If you do not know where Brighton is and you have to go to Brighton, you move about all over the places and never reach the point. You will be complicated, no doubt.

First of all you must discover that absolute and that has to be, if you don't do it, you are going to fail, in life, in satisfaction, in happiness. But, it's not only that, it's much more because the spirit has all the dynamism of God's Divine power which is all pervading, which is everywhere, you cannot feel it, it is everywhere. I'll say it is everywhere, there is music, drama, you won't believe me until I put a television down here. In the same way unless and until you become one with yourself, you are

not going to feel that all pervading power, that blissful power of God because you are not yet there.

You have to enter into the kingdom of God. Now there is another objection that always comes in because people are very much Christian minded and they want to ask Me one question which I have been wanting to answer many a time. They said that we can only reach God through Christ. Yes, that's true but how? Where is Christ? Where is he? Do they know where does he exist? Are we going to pierce through his body? Where is his body? Where do you find him? He was crucified a long time back, he is no more. He is not in the churches, of this be assured and he is not with the priests at all, then where is he? He is within us, now where is he within us? No one knows about it, he exists within us. I say he exists where? You see this red mark? Behind that is a centre called Āgñyā Chakra, he resides there. You have to enter through that door of Christ, you have to awaken them. Unless and until you awaken Christ, you cannot enter the kingdom of God.

[Shri Mataji asks a Sahaja Yogi if they have the chart so she could have shown the exact location of the kingdom of God.] The kingdom of God is the limbic area and to enter into it, you have to pass through this very subtle centre which is placed in the centre of the Optic Chiasma, the centre governs the pituitary and the pineal body.

You have to cross through that. What is it to cross? What are you? You are your attention. Your attention has to pass through that and awaken that centre. When you awaken that centre, Christ is awakened within you and

your ego and superego, your Karmas, so called, your sins, so called, all are sucked.

You come into that area called the limbic area, your attention goes there by which you become collectively conscious, or you can say first you become just thoughtlessly aware. You are aware and you are thoughtlessly aware. There is no thought because both the ego and superego are sucked in.

When the Kuṇḍalinī pierces through this area, the Fontanelle bone area, I mean it's a happening. It's actualisation, it is not just talking, giving your brain a washing, that you are all born realised and carry a banner on your head `born again, born again' as you see many people. I'm quite amazed at them, the way they talk. It's surprising they go around saying, oh we are already realised Souls. I said how? How do you know? The Kuṇḍalinī is frozen down there, you can see it so clearly. They say we are born again... self certified..

You cannot get this certificate in any of these colleges, you cannot have a course in this. It's like sprouting of the seed, now what course does sprouting of the seed have to do, poor thing. You just put it in the Mother Earth and it sprouts, Mother Earth knows how to do it.

Now this has to happen within us. Another hurdle in all these Western countries I've seen is this `why Me?' It's a very common question they ask, why you Mother, I say why not you? Better have it [sweet laugh].

Better do it yourself, it would be a good idea, you see I would like to retire, it's a very good idea that you do it for Me and you take My seat. As it is, I'm working very hard and sometimes My husband also gets very upset with it.

He said it's too much you have to work very hard and one day he put a question to some of the Sahaj Yogis, he said, now I don't understand that when She has given you realisation, why are you troubling her again and again? What's the matter with you? He is a man who has to deal with shipping and this girl said, Sir if there are second hand ships you have to repair them again and again, but we are fifth hand ships, so what to do? So, what I said was that this kind of foolish attitude and stupid attitude is not going to help us. For example, this flame is burning, do we ask the flame why do you burn and not these flowers? I mean, it's somebody's quality, somebody's nature, somebody's gift or somebody's speciality you can call it.

You could be doing this, I would be very happy if you were doing this, really I tell you, I would have been very happy, but it is not so. Now you know so many things, for example, you know driving. I don't know, I don't even know how to sign a cheque, I'm so hopelessly bad in banks. I don't know how to manage money, I'm hopelessly bad in so many things, but I don't feel bad about it in any way because supposing I don't know that, I know this. I can't open the switch of an ordinary tape recorder, but I can open the Kuṇḍalinī, it's alright. It's a different thing altogether so why should you feel hurt? You cannot do each and every thing in the world can you? This kind of an attitude will make you unnecessarily put a barrier for yourself, because this is your own, this is within you. I'm a gardener, I'm doing nothing. I'm just like any enlightened light which is going to enlighten you so

you should quieten on this point. Please tell your mind to keep quiet on this point.

[Some communication from the hall related to false prophets.] Nobody talks about them, I'm the only one talking about them. Beware of them. False prophets are there but false prophets can be known, can be understood but people don't you see people go head long towards false prophets. For example if somebody says that you are going to fly in the air and pay $3000 for that. Are you going to become birds? You use no brains and you just go straight forward into it. There are people sitting here who have become insolvent because they tried to fly with this Guru, but the Guru never ew.

Now, how to make out a false prophet? The thing is, you cannot pay for God I'm a happily married woman, quite well off, I mean I'm really very happily married, but if I'm doing this work, I'm not taking any money from you, nothing, you can't pay for it. It's something heavenly, this is the second point.

Thirdly... the third sign of a false prophet is, what has he given you? Have you got your own powers? Can you feel your own powers? That's one of the greatest tests. If somebody says that oh my Guru is great, he's really halfway to the lunatic asylum. A recluse and abnormal person. My Guru has given me this lunacy and I've paid so much money for that.

So you ask a question to him, what has he given you really? Can you feel the Kuṇḍalinī of this lady or this gentleman? Can you give them realisation? Can you cure them? Can you understand where the problem is? Do you understand where the problem is within you? Minimum of

minimum! Supposing somebody says I've got my eyes and he bumps into everything, will you call that person a person with eyes? You will definitely say that he doesn't want to believe that he is blind. It is exactly like this, you must know that if it's a true person, he will give you your own powers.

Seeker: *[UNCLEAR]*.

Shri Mataji: I wish you could meet somebody who is here from Scotland, Peter... is he here? You must meet him and you will know, it's not only money, it's much worse. I mean, you have to decide. The other day, I had from Norwich, three people who came to see Me and they could not put their hands towards Me, they kept going like this and like that [possibly shaking]. I was amazed and asked them, where have you been? They said we are coming from a lunatic asylum. I said really? We are certified mad people and where have they been? To your great Mahāshrī! There is a lady in London...

[Shri Mataji asks yogis if she has come... she was not there so Shri Mataji mentions all can meet.

There is further sound from the public to which Shri Mataji says:] Do not put Me into controversy, better not discuss these horrible people, that's all I will say, forget them.

[Further comments from public.] There are people who are suffering from epilepsy and they come to Me. They are falling, they have lost all their wealth, their children are on the street, they come to Me and they want to be saved. I wish before talking about this, you better talk to those people who have come to Me and I have saved them. Not only saved them, but made something out of

them. On the contrary, this man has made them horrible. Many people who have been there have become mad. This Mr Ben is suffering from a mysterious disease, from where did he get it? There is one Doctor Frenwick, you better go and meet him, he is finding out about this fellow, the way he is giving epilepsy to many and I've cured the epilepsy of so many patients that he is coming to Me to know how I've cured them.

Do you know what dangers you stand with these people? You have no idea, you are so naive. Did you ask him any questions? Please listen, you have not come here to give lectures, please sit down, listen now.

You have not come here to ask questions, you are here to listen to Me. Nobody asks questions to this dirty man, never, they just pay him straight forward. Did they ask any questions to him? Ask this gentleman or anyone. You just pray in silence, you are not even supposed to see this horrible fellow, he is sitting in a dias somewhere. The way he has led his life, how dare you compare Me with him? You better go and stay with him. No! I'm just saying you have no business to take advantage. You see, this is not proper, this is taking advantage of My goodness, you dare not do these things. I don't like it. It's alright once in a while, but not all the time. I have to talk something, you have come here to listen to something, alright? Be sensible.

[More noise from public.] No, no you are not everything, you are just thinking about yourself not others. You are not the only person sitting down here, if you want to see Me, come and see Me privately alright? You have to be fair to others isn't it? They have come all the way to see

Me, some people have come from Torquay, you should be more just and fair, I think you have not been fair to them. It's alright once in a while one question I answer but you are on and on and on, you must forget it. Listen to Me, it's not you who is talking, I know who is talking behind it, it's alright.

Now the people do not say there are false prophets, they never say and when Christ was asked, why do you criticise them? He said, Satan is not going to speak against itself. They are not going to tell, they help each other. They are the people who help each other and you are so mesmerized by them that you cannot see what wrong they are doing to you, until you reach that point where it's all finished.

Now we have here, he has not come but will be coming, you should meet him, a gentleman who has been with this man for the last sixteen years. He has lost all his money, he has nothing, he was a diamond merchant his wife is a granddaughter of a Duke, they are on the street. The wife used to get such horrible epilepsy, I cured her. The child was screaming, you were not there, it's easy to take a stand for somebody who is Satanic, at least don't do that. You don't know how people are harmed, everyday I'm facing it, everyday I'm curing people. There are three people I know of who got cancer out of this and tomorrow if anybody gets out of you, I'll have to cure. He has taken all the money, that's all. I have every right to criticise them and say they are wrong, because I'm the one who's curing people, who are harmed by them, tortured by them. I'm not saying just for fun sake, people have no courage to say also. How many have courage to

say that they are wrong and they have harmed? Very few people, they are cowards, I would like to know how many people can say that openly that they are wrong, they have harmed? There are some people sitting here, who have been harmed who came to Me and I have cured them.

You need a lot of courage and understanding, not only that but I am really angry with them because these are seekers of truth. These are people seeking the truth and these people are not to be harmed by anyone.

They are to be given their realisation, they have to enter into the kingdom of God.

God is anxiously waiting to give them what they deserve. They are such great people, while these people [false Gurus] wanted to make money! They could have smuggled, they could have done other things, money is not the only point but the way they have ruined the possibilities of their realisation! I know of three others who are still in the lunatic asylum and I cannot save them. They are all lost and the government doesn't want to know anything about it. They went and saw the police and the police said, what are we to do if you are fool and stupid people who go ahead and spend your money and get these devils upon yourself? You must open your eyes and see for yourself and see what is happening to your brothers and sisters.

Where are they going? I'm sorry I have to use strong words but I really strongly feel about all these things.

Actually I had no idea that they have really done all these things to you. The more I see, the more I'm surprised. One by one, they are all getting exposed. They are all

getting exposed because whatever is false will come to the light, no doubt, I'm sure of it, it will have to come to light but one more thing is there which makes Me unhappy, sad and sometimes really restless that these are good innocent people that are harmed so much, beyond repair. I cannot repair them, they are finished, lost and gone.

You are not in this business, I am and I know what it is, how bad it is, how dangerous it is and so unfair to human beings who have been created so beautifully from the amoeba stage to this stage and these people should come and hit them because they are seekers?! Because they are simple? All ego oriented.

Most of these organizations are ego oriented. They pamper your ego, like having a world organization.

They believe in it! Can you imagine, they believe in it.

A person is asked to wear special clothes and are given chairs gilded with gold and they feel they have become ministers and prime ministers. If you want to go on believing myths, go ahead.

I'm here to tell you the truth, whether you like it or not, I have to tell you the truth and the truth is the thing. Why should I criticise anyone? That's not My job, but I see the way people are being harmed and tortured, you want Me to garland them and say they are very nice people? Should I? Would you do the same if you were in my place? If you were a Mother who feels for her children, would you do that? Any Mother who says that she can do it, I would like to know such a person.

I know how to be charitable and how to be generous, but not to those who deliberately try to hamper your

progress in life. They do not criticise anybody, naturally, why will they? No thief will criticise another thief, do they? They are all in one line and work it out.

One has to understand, that a true prophet or a true person, will give you the truth and nothing else.

And the truth is that you are the spirit. You have to become that, nothing else. You have to become the spirit. Unless and until you become the spirit, all these other ideas of giving you relaxation or giving you some sort of a patchy thing is not going to happen.

Now the trouble is, in the west, people are extremely naive, absolutely naive. They have no knowledge of the internal life, they know about science as we are naive about science you can say. We are naive about the lights and things in the banks maybe, but for the internal life you are absolutely naive and you do not know how many stratas there are within you. The first thing you must know is that you live in the past and the future, not in the present.

The past is the subconscious and the future is the supraconscious. These two areas exist within us, within our body, one on the left hand side and the other on the right hand side. When somebody contracts a disease like say cancer, the attacks are from these areas. These areas are built within us from our creation.

They are within us since we were created. These attacks come to us, for example even a virus infection, even a possession that comes upon us, cancer, all these attacks come to us, not because of our present, but because of our past. From somewhere, it attacks us.

If you have to understand yourself, then you must understand yourself in full perspective, not that somebody gives you a mantra and you take the mantra for $300 and the meaning of the mantra is `I'm coming' or some sort of nonsense, which is not even Sanskrit. You don't know any Sanskrit.

So these things are put through in your subconscious and they work on you and you feel a little bit relieved, like with alcohol you may feel relieved for the time being. For the time being, you may feel very elated and your ego will come up and you become a great person demanding this. Like a man who was walking on the street, was drunk and the king was going on a horse. He asked the king, I want to but this horse now get down from there.

So the king said, now you really want it? Alright, tomorrow. He went away. The king was a wise man. The next day he called the fellow and said now do you want to buy the horse? He said “Sir, the one who was going to buy, is finished, he's no more." It's like that.

Suddenly, you see these subconscious spirits or things that they possess you with, give you a very heightened ego and the whole thing puzzles out, but you do not know from where they come and where they go, you cannot understand them and you cannot manoeuvre them. When you become yourself, you know each and every thing. For example, this gentleman who was asking Me questions, he does not know anything about himself, neither about others. You ask any Sahaja Yogi who is here, even a little child will say what Chakras are catching in him and what Chakras are catching in you. It has to be your own knowledge, in your own awareness,

understand you are intelligent people, you are not fools. I'm not talking to fools, I'm talking to intelligent people, who understand things. If something has to happen to you, it has to happen in your awareness, like a dog has a different awareness and you have a different awareness.

You take any dog, even if it is a pedigree dog, through any dirt or filth, it doesn't smell, it doesn't feel bad, it doesn't understand beauty, while you do.

In the same way, something has to happen in your awareness and that's how you have to make it out.

Unless and until that happens, what's the use? What's the use of coming here? Just arguing with Me, no use, you have to get it. You have to get that within yourself. If that can happen within you, then only you will be entitled as a Self-realised person, otherwise you will not.

There is no organization for them outside because you are already organized by God. It's all in there.

Once it works out, you start feeling it within you.

Now, why people are false Gurus? Let's see that point, then you will understand. First you must see the background of these people. For example, the gentleman about whom he is saying, he was a clerk, railway clerk. There are many other things about him which Indians know. They don't mind because he brings lots of foreign exchange. Then there could be any thug or anybody in jail in India, who comes out of the jail and has no place in society and comes to London and sits down with funny dresses, with little horns around and all the British will be at his feet. Very good idea! There should be no pretensions, if you are true, there should be no pretensions about anything whatsoever.

You should be straightforward and normal, because you don't want anything from anyone. I would say if I asked you to stay with me without paying any amount or any money, you would not accept such a situation. You would feel hurt. But these people are parasites, of the worst type. They live on your money.

Christ was the son of a carpenter, he didn't ask for money from anyone, did he? He did the carpenters job. You can't understand it because it's the ego, it's a very subtle ego that you have purchased your Guru. You cannot purchase Me. You cannot purchase your realisation, God doesn't understand money, he doesn't understand banks, that's your headache.

So to understand a real Guru, one should know what you have to expect yourself. Now we have got so many people like you, I mean you are so well read, I see all of you reading all the time, even in the bathrooms when you go, you read. On the trains, you are reading, all the time you are reading and I think nothing is registered there. Otherwise, it is written very clearly, by a very great scientist like... that there is a collective consciousness within us. That there is some sort of power within us which gives us symbols which are universal in our dreams. He has proved it.

If so, then that collective unconscious within us has to become conscious within us.

This is what any true Prophet will tell you. He will not give you a thing that you have to jump all the time or that you have to take out your clothes or stand on your head, because it is very simple to understand that by doing any effort you are not going to go to God. By doing anything

you are not going to do. What did you do to become human beings? If it is evolutionary, what did you do? Did you cut your tails as monkeys? You got it without doing anything. In the same way, if evolution has to take place, it will be done without any effort, because it is so vital, it is so important. You do not understand the importance of that, you want to play about with all nonsensical things. The most vital thing today is to evolve and this evolution must take place and this takes place within us because a system has been built within us already, it exists within us and you can see with your naked eyes the rising of the Kuṇḍalinī, the breaking of the Sahasrāra, the breaking of the Fontanelle bone area which is the real actual Baptism. It's not artificially done, you can feel the Cool Breeze of the Holy Ghost coming out of you and the Holy Ghost is the power of God which is reflected within us as Kundalini. She rises and She gives you this realisation, though the heart has the spirit in itself, the seat of the spirit, she is here [Shri Mataji must be pointing at the area] and that's how first the Kundalini rises and you get enlightenment in your brain. First the enlightenment comes to your brain in England. In India it comes to the heart.

Here we analyze, we think too much, we try to analyze everything, what can you analyze? This flower becomes a fruit tomorrow, can you analyze it? Can you do it? Thousands and thousands, billions and billions are being transformed, how can you analyze your transformation? You cannot. With this little brain of yours, with this little rationality, you try to analyze, you cannot. It has to be logical and if it is not logical then it has no meaning, but

it will become logical when it happens, let it happen to you. If it does not happen to you, it's not going to work out.

These are typical type of people that come and disturb always My programs, I've seen it, for nothing at all, but these are the people who pay lots of money without asking any questions, do not get anything, get horrible diseases into themselves and then they come to Me for realisation. I can't understand what's happening to you, I don't know how to make you understand that you have no value of your own, you have no esteem of your own. How can you appreciate such people who are openly befooling you? Who are stupefying you? They do not criticise others according to you, they are very nice people, you mean to say I should not even criticise Hitler? This is not the best way of looking at things. You have to face things as they are, you should know bad is bad and good is good.

Tomorrow you will say, don't even criticise if people get cancers, don't even look after it, let them die... praise cancer should I? praise epilepsy should I? We must understand, God has given us discrimination. We must have our discrimination and understand, what are we doing? What is our life for? Why have we come on this earth? Because I open your eyes to these things, you have to know that I am not false. That's one thing, I want you to face the truth.

I do not want you to live with myths. I could have said that I'll make you fly, I'll make something out of this, why should I? That's not my job, that's not the way I am. I'm a different type, absolutely different and this is the type

always has been denied, not today, always. Why Christ was denied? For what? All of them were denied and all the false were accepted. They even forgave a robber and crucified Christ. Same type of people are again on this earth I find, they do not want to accept the truth.

Now, the society is such, no one can crucify Me. They could not have crucified Christ if he did not want to be crucified, he was such a powerful man. He is going to come back with his powers again and he is going to neutralise all these horrible powers in them to cut them out. No doubt about it, but before that time, you have to be counseled, you have to be told how to enter into the kingdom of God. You have to become what you are because the last judgement has started, this is the last judgement. How God is going to judge you? Just think of it, is He going to judge you the way you are educated? The way you are dressed? No. Through your inner happening, through your inner understanding and light that is within you. That's how he is going to judge you. I'm here to give you light that is your own, just an enlightened light enlightens you. I don't want to pamper your ego or to run you down but I want to tell you that you should become yourself. I see the beauty within you, I see that diamond within you, that's why I'm doing all this work. You do not see it, I just want you to feel it and have it, it's a very simple thing. What is there to be so much worried about? To talk about other people who have done nothing, there are 90,000 people doing TM and what are they? They are recluses, you show them garlic and they will faint. There was a gentleman, I don't know if he has come, who just on the phone he talked to

a Sahaj Yogi, Douglas, who is sitting here and he was shaking. He said “I am shaking, what's the matter with me?" Douglas told him that you are very hot? He said yes I'm perspiring, I don't know what's happening to me. He knew what was happening, he accepted it. Then Douglas asked him, are you doing some meditation? He said yes how do you know? Douglas said, we know, we know all that. He is saved today and he is a big man in Brighton. He is working as Managing Director, otherwise he would have ended up in a lunatic asylum and this is what it is. People do not question such people, they have got their circuses, they have got big... all things to announce themselves and people think they must be great people.

Christ was a simple man, wasn't he? He was so simple. He didn't have any advertisement and all that. He didn't have all these things to impress you. What should impress you is your own transformation and nothing else. That should impress you. You should ask for your own transformation, for your own happiness, for what you are going to gain. If you even go to a shop, don't you see how much you get out of it? In the same way, in spirit also you should not see what you give but what you get. It's not material that you get, you get something so substantial that it transcends all material and all sorts of problems.

We have one gentleman sitting here who you can talk to later, who came last time. He was a drunkard, an alcoholic, he couldn't talk to Me and he was horrid, he behaved about the same way as this gentleman has behaved, because he was so drunk. I forgave him, alright. He went away. He was so lost to life, there was

no hope for him. About a month back, again he came to know about My coming, so he came to the centre. These people worked on him. He is a first class man now, he has joined a college, studying there.

I couldn't recognize him, he was so changed, he was looking so much younger, so much better. You must know that the task is so great, the task of saving this humanity. It's not a simple task and you all should get it for your good, for your meditation, it's your own. I have not seen anyone, any animal, if you do good to him he barks at you, he does not, but only among human beings who try to deprive you, who try to deceive you, you are happy with them because they have a camouflage. They say things which are very sweet and nice, don't depend on them, you have to face the fact as it is. These are horrid people, not only horrid, they are Satanic, they are extremely evil and they are doing all kinds of evil and I'm not afraid of them.

I've said it openly in 1970, against them, each one of them by taking their names. They have not taken Me to courts because they know I know about them. They have never taken Me to anything, why don't they file a suit against Me? Because, they are cowards, they know what wrong they are doing to you. I can prove it to them.

One should understand that there is somebody who is talking so bravely, that's a lady also. There must be something about Me that I'm concerned, that My concern is so deep that I'm not worried about them, I'm not afraid of them. When I first spoke in 1970, so many people were My disciples, well placed in life, they came and told Me, don't do these things, don't talk against them, they may

come and murder you. I said, “Let Me see who's going to murder Me, none of them." On the contrary, I was amazed the other day, a girl told Me that one of them was saying I was his sister. I was amazed. Imagine and another was saying that I was his disciple, this was another news to Me. I said, really? I've been criticising him right from 1970 and he is saying that I'm his sister.

You will know all about them, first of all get your realisation. Get your eyes, get your spirit get yourself into that which is the glorious, the beauty and the knowledge. Then you will know what I'm talking about.

You will yourself know about it. I don't have to tell you, I don't really start such a topic except when somebody stands up, he must have come to represent this man, no doubt, but he doesn't know that he's representing a Satan. He is innocent, simple and naive, one has to forgive, you all should forgive him.

May God bless you all.

I would like you to ask Me questions but sensible questions not pleading someone because if you want I can say that also. I'm not afraid, I can say but why? Why discuss these horrible people here? I've already headaches from them, lots of them, really. For example, these TM people in India, I could never give realisation. We never wanted them near, I could never give them realisation, only after coming to London I started doing it. Amazingly. I could not give them realisation, the Sahaj Yogis never wanted them, they said that whenever anybody came from TM they used to ask, are you from TM? There is no program. They used to turn them away. They were so difficult, so heavy, impossible. It's a fact. I

mean, we don't like people to come and trouble us, but what to do? The door is open, anybody can come, you don't have to pay any money, just walk in. Do what you like. It's alright, but still, I must say Sahaja Yoga has done tremendous work even in England, where I found it was very difficult. In the beginning, I was working only with six people for four years, you won't believe it. My husband has been elected to this job and we have been here for seven years and four years I was struggling with six of them, can you imagine. Only last three years we have been able to do something. I've seen it's rather difficult to break people here, but once they understand, they go very deep down, they are very scholarly and wonderful people, no doubt and it has worked out.

You can ask Me some questions if you want to, but ask sensible questions and not unnecessarily wasting everybody's time and it's not only you who is listening to Me, others are also listening, so you should not take all My time, isn't it? There are many children who are born realised, many children in this country who are born realised and there are very young people I met about three of them today, who are realised Souls. Great people, but you would never understand them and they would never understand you, there would be a conflict. I don't know what's going to happen if you don't listen to Me. You have to be realised to understand them, because even after realisation there are problems and you start seeing your problems and you have to cure them. You have to get well.

Ask some questions now.

Question: UNCLEAR.

Shri Mataji: [joyous laughter while saying that's the best question].

[They have asked for realisation and Shri Mataji proceeds to ask everybody to take off their shoes and sit with hands on laps facing up.] Close your eyes, just close your eyes.

Now what do you feel actually, you see first you feel thoughtlessly aware, means there is no thought within your mind.

If you see your mind, there is no thought, you feel like that, first thing that should happen to you. It's your own, you shouldn't believe Me, you shouldn't believe anybody else but see for yourself if there is no thought, but don't deny anything. If it not so, it goes further. When the Kuṇḍalinī rises about Āgñyā, it shoots off, in many people it shoots off. First experiences have been very great with many people and then when it passes through the last centre or pierces through this Fontanelle area then you start feeling the Cool Breeze in your hands.

Some people who smoke too much do not feel it in the hands so much as they feel it in their heads because this centre is spoilt.

Now close your eyes, you have to close your eyes because when the Kuṇḍalinī rises, if your eyes are not closed, it won't rise above Āgñyā. It's just the opposite of mesmerism. Close your eyes... place both your hands straight like this because these are the centers of the sympathetic within us, these are seven centers... five, six and seven [Shri Mataji must be referring to Chakra Chart]. Just close your eyes. Let it go, don't force your attention to be fixed anywhere, just let it go. Now the

first problem I feel that is collectively within you is that you have to forgive others. You better forgive, forgive everyone, just say I forgive, that's very important, it will unload your mind. Say it thrice, Mother I forgive, it's very good for you to say that I forgive. Please forgive.

Now after saying that, you have to also say that if I've not paid full attention to my spirit or if I've been negligent about it, forgive me. But don't build guilt at all, just say forgive me and it is finished.

Don't build guilt because this is another fashion to feel guilty for nothing at all. There's nothing to feel guilty.

Say thrice please forgive me if I've not paid attention to my spirit. Immediately I think you should say I'm not guilty, thrice, because this may build a kind of guilt.

Immediately after saying please forgive me, say that I'm not guilty, thrice, please say.

Now you can ask a question, `Mother am I the spirit?' Thrice. Put your right hand on your heart and ask the question, with all sincerity and truthfulness, because Sahaja Yoga judges your truthfulness. Just ask `Mother am I the spirit?' Just ask a simple question and you will get vibrations in your hands as proof of it. Ask it, most of you will get it, Cool Breeze in the hand, Cool Breeze of the holy ghost. Don't think about it, it's a happening.

If you think about it, it will never work out. It is beyond thinking. It will just work out. If you start thinking about it, it's going to be another useless wandering that's all. You will be wasting your time as you have wasted so far, you will be wasting more. Don't think about it.

Now if you're feeling on the left hand then put your right hand towards Me, both hands. If it is not working on the right hand, then put left hand on your stomach, maybe something wrong with your stomach. If it's not working on the right hand, put it on the stomach asking a question, `Mother am I my own Guru?' `Am I my own teacher?' Ask a question to Me.

If you are getting in both hands, don't think about it, it's there. You got it. Ask the question, if it works then you will find a Cool Breeze coming out of your head. It's a mass happening, it's happening to thousands, so it should happen just see if it is coming out of your head.

Now put both your hands towards Me and close your eyes and don't think, just don't think, please close your eyes. Don't watch others, just close your eyes.

[Shri Mataji blows into the microphone.] Those who are feeling the Cool Breeze, please raise your hands. Those who are not feeling the Cool Breeze raise your hands because we will have to just work it out, alright. I'll have to ask some of the Sahaj yogis to come and see what's the problem, you shouldn't mind because tomorrow when you get it, you will be able to do it yourself. I will also come and see, because it means there is some sort of obstruction and we have to remove it. Now it's flowing from the hands of these Sahaj yogis and they are giving thing to their aura because they don't want to be caught up with your auras, but then when they raise your Kuṇḍalinī, you will see yourself how they work it out. They are just like you people, they have learnt and you are going to learn from them, then you are going to do the same, alright.

***Contents: 1981-07-11*, Public Program, Day 3, The Four Dimensions Within, Brighton, UK**

Yesterday I told you about the organized way we are inside ourselves. How God has it organized within us our system by which we get our realisation spontaneously, automatically. Today I'm going to describe the mechanism that lies within us. As I told you before, you should not have blind faith about it, but you should not also be people with closed minds. That's not being scientific. If you're scientific people, then you must keep your mind open. Because whatever is known to human being, is all limited, because their brain is limited, intelligence is limited. And I'm talking of something unlimited. And that is why one has to understand that there must be something lacking in human awareness that we have not been able to feel, to understand, to be. To be is the main point, that awareness by which we could know something of beyond.

Now, as I told you, whatever is of beyond is not Divine. We have within us at least four clear-cut dimensions. On the left hand side of the human being is the subconscious and beyond it is the collective subconscious. On the right hand side we have our supra conscious, is our future. And beyond it, is collective supraconscious. Below us is the dead, we can say, or the hell as they call it. Above it is the super-consciousness which is boundless, unlimited.

So when you get any experience from anyone of these dimensions, you do not know which one is the true one. This is the big problem. And that's why people are mislead very much. For example, a person who is a very,

very sad person, who has had very sad experiences within his own being, who has suffered a lot, works through his subconscious. He lives in his past. And then he may get affectation from his past. In Sahaja Yoga, we have cured many cancer patients. And in My experience I have seen that the disease of cancer comes from this collective subconscious. It's most surprising that it comes from collective subconscious. All that is dead since our creation is also within us. And we get attacked by those subconscious areas and we develop this cancer. That's why Buddha has said that we should not go to any extreme behaviour. We being limited, we either move to the left or to the right and slotted down below to the hell. If you are a extremely sad person and believe in suffering and all kinds of such things, you develop an institution within yourself. It's a superego which comes to people who are very mild, passive, who bear the brunt, who always think that they have to suffer a lot, who cry, weep, emotionally always disturbed.

Another one is the type, which is aggressive, which thinks of the future, very aggressive, who aggresses others, who dominates. When they also go to the extremes, they enter into another area called as collective supra conscious. And when you enter into that, you suffer from the agony of that in the sense that you may get possessed by someone who is more aggressive than you are. That's what happened in Germany.

Then you forget who you are, start behaving in a very funny manner.

Sometimes you think that you have become dynamic, but you have not because you have lost your sense of proportion.

The experiences you get from both these areas can be very, very misleading. For example, a person is sitting and suddenly he starts jumping in his seat. This can come from both the sides. Maybe people might think that this is something special he has got. But it is not. Because we must understand what is the interest of God or Divine? To make us jump? Supposing a person comes and shows you a trick that you see this flowerpot moves from here to there, you get impressed by that, because for you it's something new. But it's not Divine. What is the interest of the Divine in removing this pot from there to this side? God has no interest in showing all such tricks. He has no interest in making you dance like mad or get into any sort of extreme behaviour. He wants you to be normal people, first of all. You have to be normalised.

People have experiences. Suddenly they say, “Oh, I felt very happy one day and I felt my body went up and started looking at the people." This experience is also that of spirits, is not of your Spirit, of your Ātmā, of your Divine. Because these spirits, about which we do not know at all, we are naive. We do not know how they act upon us; can take away your interest. And we can go with them and can feel that everything is left behind. You may also feel little better with that, because the responsibility you feel is no more.

I was amazed how people are seeking such horrible experiences without knowing what it is. For example,

there were three scientists from America came to see Me specially, to learn how to do that, to leave the body and go somewhere. I was amazed. I asked them, “Why do you want to know? You are such great scientists. You are already going to moon, everywhere. Why do you want to do that?" They said, “Because Russians are doing these ESP experiments, so we want to do." I said, “If Russians are cutting their throats, do you want to cut your throats also?" They said, “No, we want to do it because we want to know when people go to the moon." I said, “Don't try to befool Me. You are doing it only because you think it gives you more power. It does not. After some time you'll find you'll be enslaved by the spirits who are helping you to do all these things." Christ has very clearly said that we have nothing to do with the dead nor with the spirits. He took out the spirits and put them in the pig. The pigs ran into the sea. But perhaps Christians never realised that we have nothing to do with the dead and Christ has forbidden us. When the people live, we are not bothered. When the parents are sick, we are not bothered. When they die, we have a big huge thing.

We pay for a funeral. We go there, wear a proper dress. And if it's a black dress, we want to have black diamonds and all that properly done. We pay for it and we will make big social event out of it. We go to the cemetreies. Even in the churches, we have all the dead put there. We little realise that there these people are lying and some of them are still there. They are not dead. He has talked of spirits very clearly. Many people who came to Him were possessed. But somehow we don't want to think of Christ now, perhaps because we think He was too

mysterious. I don't know why. In India, people perhaps know about the dead. That much at least is there, that they try to keep away all that.

A simple thing if you start an experience, you can do it. It's very simple. If you want to go into the dead and finish off yourself, is just to start jumping, every day, hundred times. You'll get possessed. Now when you get possessed, you get certain so-called powers because you get in contact with the dead. When you get in contact with the dead, they start helping you and you feel that you have got these powers and that powers. One example I would like to give because it's very important. I find in Brighton it is very, very prevalent. Even the children are suffering. I see many people who have these problems because they do not know how to behave towards the dead. There was one Doctor Lang in England who died. And his spirit attacked a soldier in Vietnam or something. This soldier ran away from there and hid himself.

And the spirit told that I am such and such. You better go and see my son and you start a clinic there.

Imagine. And this ordinary man, he was an ordinary soldier, he didn't have any education about medical or anything, he did not know what it was, nothing, just an ordinary soldier, he came to England, saw the son.

And the son said, “I can't believe the story." But then he started telling him about certain very secret things that he had talked to his son and then believed him. And they started that clinic. And this Doctor Lang, Late Doctor Lang's International Curative Center and this curative center started sending letters to people who wanted to

get cured. And they would say that at such and such time we'll come into you and work it out. But there was some honesty about it that they said it, “These are the spirits we are working with." But the people who were so-called cured by this late Doctor Lang, came to Me and I found they were absolutely finished. They had gone bananas as they say. Their nerves were completely finished and they didn't know what to do with themselves, absolutely finished. They did feel cured of one particular disease, but they had so many other possessions within them that they didn't know what they were doing. Now it's a fact to be explored after Realisation.

Now what is the experience of the super-consciousness? The experience of the super-consciousness is that that your consciousness, your awareness becomes more aware, gets enlightened. It becomes. It's not just lecturing that you have to become something superior or anything, but it becomes. Means you become collectively conscious, you become, again. If that happens to you, then you start feeling another person and you start feeling yourself. If you are a truthful seeker, absolutely a truthful seeker, then I have to request you as a Mother to be kind to yourself because you have been seeking for ages now, many lives.

And today you have again come to seek. Do not get into any camouflage or any falsehood but ask for the real. And the real is when your attention becomes enlightened, when your awareness becomes enlightened.

For example, yesterday you saw a gentleman who had come here. He has never seen this Maharishi Yogi or whosoever it is. He must have paid lots of money to this

man. I know the kind of people they could become. I've seen them. He has no collective consciousness, he cannot raise the Kuṇḍalinī of anyone, he has no powers of himself to express and he is just fighting for a Guru who has been done nothing for him whatsoever? “I feel very nice with him" and all these are mental, just mental satisfactions because you want to satisfy yourself. Because you do not want to feel that you have been befooled. All those people who want to have the real thing, really real thing, should face it up absolutely in complete truthfulness to yourself. Why do you want to cheat yourself? Because you are seekers. All such false people will go down into hell, no doubt and they'll carry you also with them.

So be careful when I say that. I have openly told about them in 1970 by names, what these people are doing and how they are attacking you. But nobody is willing to listen to Me. They want to be attacked, they want to be hypnotized, they want to do absurd things, which has no meaning.

Everything that Divine does is absolutely logical but maybe not rational. For example, you will see a flower becomes a fruit. You see it with your own eyes. Then you know that the flower has become a fruit, isn't it? It's a living process, which has done this. But you cannot explain how it has happened. Neither you rationalise it that because of this, it has happened, because of this, this has happened. But it's logical that you see it yourself. If you are really truthful, then you have to give certificate to yourself. Nobody is going to give you certificate nor somebody is going to say, `Oh, you are

the epitome of everything,' nor somebody is going to say that you are condemned forever because as I said yesterday, the last judgment has started. Believe Me, it has started.

And the judgment is going to take through the Kuṇḍalinī awakening, through this residual force which exists within the triangular bone there. You can see with your naked eyes in some people, pulsating. It rises and it pierces through the fontanelle bone area where you can feel the Cool Breeze coming out. You can feel it, again I say, the Cool Breeze coming out of your being. You can feel the Cool Breeze coming towards you if I'm sitting here, or you can see it flowing out. Not only that, but after that, you can feel the different centers on your hands, on your fingers. You can feel the another person's centers and you can feel your own centers. You can raise the Kuṇḍalinī. You can see the Kuṇḍalinī raising under your hand. You can give realisation to people. You can cure them physically and emotionally.

One may say, “Mother, how is it so easy? We have read about Kuṇḍalinī. It's a very difficult thing." Or there are people who say like that. “And it's not possible. We know so much about Kuṇḍalinī.

How can that be so simple?" But supposing it is, then? There is some mystery about Me. Take it that way. Supposing you see a flower blooming into a, say fruit. Then it has happened. Then you are not going to deny that there is no living force? There must be something about Me that it is happening. I'm not willing to tell you now maybe that it is postponed for the time being.

But one must understand that there is something that has happened. It has happened to so many. It must happen to me also. And if it happens, there is something about it. We have to squarely face this fact and not to be deluded by what I say, what I talk, what anybody has talked so far. As I said, you need not have blind faith for Me. But you should not also put a barrier for yourself. If this has to happen to you, let it happen. This is what is your second birth. It is like `born again' as they say, as Christ has said.

Human beings know how to make mess of things very well. They have messed up with everything, Christ, Mohammed, everyone. With Me also they tried.

I went to America in 1970 [1972]. Of course, you know that for truthful things there are very few people. At least they have not crucified Me so far, or they have not yet sort of come out of it, their all filth. But you know they like such places where there is a circus on.

So there were some horrible Gurus who were there and they were doing all kinds of tricks. And people were running to them and this and that. And I was also there.

And the gentlemen who arranged My program he said that, “Mother, people are coming with tape recorders, this, that. They are taping your speech and you should really be careful about it." I said, “Why? It's all right. If they play My tape recorder, then message will be round that the time has started, the blossoming time has come. What is there to be afraid of?" They said, “No, but they will misuse. They'll write books." I said, “Let them write books. Let them do what they like. But the Kuṇḍalinī has to be awakened according to Me.

So that will come after all to reality. You may write anything. Ultimately you have to face the facts." And they said, “No, Mother, it's more than that." I said, “What is it?" They said, “They might use it for some other purposes. They'll make money out of it." I said, “Let them make money. Let them do what they like. I'm not bothered." But you know what happened? I went to Australia and I met some people who called themselves “born again." I was surprised. And the one who is their leader has been attending My program, I know him too well. They have certified themselves `we are born again,' finished. And this one becomes the leader.

There's another one I met in Japan who got his realisation. He started another organization of his own.

It's all right. I don't mind as long as you give realisation. But his daughter never gave realisation and so many people got trapped into that. I asked these people, If you are born again, what is so special about you? If you are born again, why do you not treat other people? Let me see. Do you raise the Kuṇḍalinī? Can you give them Self-realisation? Can you give them another birth? An egg cannot say he's a bird, can he say? Like eggs saying `I'm the bird, I'm the bird,' they are saying “born again, born again." The proof of the pudding is that they are not born again at all.

All such false certificates are for whom? For whose conviction? You are your own judge. You have to judge yourself. And you have to be fair to yourself and to nobody else. You have to be kind to yourself that you are born on this earth to be born again and that you should get it. There is nothing else I ask you. Because within us

all these things have been nicely planted without your awareness. All these seven centers you see are very nicely planted. They are there. And all the Deities of different characters, like innocence is the first deity, are there. When the Kuṇḍalinī is awakened, She awakens the different deities.

By awakening those deities, you get the reward of those deities. As I told you yesterday when It crosses this, you get Christ awakened. Of course, not this, it is inside on the crossroads of Optic Chiasma, you can say, which there is a center called as Āgñyā Chakra. And this center looks after your pituitary and pineal body. When the Kuṇḍalinī rises, She enlightens all these centers. Christ is enlightened. And the ego and superego which create the idea of sin and the idea of Karmas is sucked in, through Christ. It is said that He died for us, for our sins. It's a fact.

But there was another gentleman yesterday here. He told Me that, “My Guru says that I'm suffering because of my Karmas." I said: “Then why do you have this Guru? Why do you pay him? Better pickle him out. Let him suffer for his Karmas also." He's suffering.

Then I said, “Your Guru has had three attacks. I know very well. And all his disciples get heart attacks.

Or the children are crippled. I'm treating them, I know. I'm treating them." And he says, “We are suffering our own Karmas, but he takes a little. That's why he gets heart attack." I said, “How much?" He said, “One twentieth." I said, “Really very measured quantity?" Now his own child, I did not know, the wife was crying.

She said, “Mother, give me realisation." And she said, “Mother can You come to my house for a short time?" I didn't understand why she was saying so.

Then she said, “Because my child is suffering. She is crippled. And if You come to my house, You can cure." I said, “I have to go to somewhere now." She said, “All right. I'll come tomorrow." But I knew her husband won't bring her. He is so possessed.

She said, “You promise you'll cure my child?" I said, “I promise. You bring." “Will You take her Karmas upon yourself?" I said, “I'll take the Karmas of all the world upon Myself. Come along." With all these assurances she was sure, I will do it. He did not allow her to come. She never came.

How would you get possessed? Now why are you identified with anyone so much? You have to identify yourself with yourself. And with no one else who has not done anything from you, only he has taken from you, asked from you to do this and do that and do this and do that. They are forming cults and groups and things. By this you cannot get Realisation. You cannot organize God. There cannot be an organization of God. Is there an organization of trees and leaves? Anything living is to be organized by God and not by human beings. Let us face it. Our ego does not allow us to understand that. And this is a living process. This is the evolutionary process within us, which works it out. And when it happens, the last, the epitome or your evolution you achieve.

I would give you an analogy to understand it, which is a gross analogy.

So don't take it too far as the thing is. You just try to understand. Like in a car, you have got a brake and you have got an accelerator. In the same way within us say there are two powers. One is the left-sided one, the brake and the right-sided one, which is the accelerator. He'll show you there., And the other one. Now these two manifest outside, the sympathetic nervous system, the left and the right sympathetic nervous system within us. Now the third power is the power that evolves us. Like we can see that we are trying to learn driving. And there is a master sitting behind who is guiding us and teaching us how to drive the car, so by using these two powers, balancing it, understanding it, keeping the car in the center. We don't drive car on one wheel, do we? We sit on four legs of a chair. Do we sit on two legs? We ourselves don't stand on one leg. We have two legs. We always go in a way that our gravity is in the center. But in our lifestyle we are extremist. If we start drinking, we'll become alcoholic. If you start anything what so ever, if you are a working person who is working, you become workaholic. Any sort of thing one starts, they go into extremes.

So, one has to learn the handling of these two powers. Now the master is sitting and guiding you, up to a point, till you become human beings. The evolution comes up to that. Then the master gives you freedom to handle the car. He sits at the back, in the heart as the Spirit. All right, you drive the car. You start again, left and right, start using it, making mistakes, whatever it is. There is nothing important as long as you learn how to drive.

Then you master your driving. Then you become the master. You become the Spirit. This is how it works out.

Now somebody will say, “How much time will it take for me to learn the car?" The answer is, “As much as it will take." Can you say that exactly after three hours, three minutes, two seconds you'll become expert in car driving? Much more than that is the living process. You cannot say how much time it will take for a flower to become a fruit. And you cannot say how much time will it take for you to get your Realisation. But the action is only of split of a second's duration, believe Me, not more than that. But there are obstructions on the way. And because of these obstructions it takes time. One has to guide it.

Once you get it and settle down with it, when you become the master of the car, you can handle other cars also very well. And you know how to do it. That's how a realised Soul can give Realisations to others.

One enlightened light can enlighten other people. It is as simple, straight forward, matter of fact, down to earth.

In Sahaja Yoga, we deny nothing but untruth. All the saints and all the prophets and all the great advents are within us, placed on different centers. Not only that we have to respect them, but we have to know where are they placed, we have to know how to enlighten them. They are the milestones of our evolution. And whatever I say can be seen. For example as I told you Christ is placed here. And if this center is caught up, you raise the Kuṇḍalinī, you bring up to that point and it won't rise. Then you have to say Lord's Prayer in the presence of a Sahaja Yogi, in the presence of a realised Soul. Kuṇḍalinī will rise. You will see that. We have done that. But Lord's

Prayer is an expanded, I should say, is the statement of the bīja mantra, is the seed mantra. The seed mantra of this Chakra is ham ksham, is the seed mantra in Sanskrit language. Because this whole system of Kuṇḍalinī, which was a secret till the sixth century till Ādi Shaṅkarāchārya came in, was told to people and people know about it. Even Kabīra has clearly written about the Iḍā, Piṅgalā, Suṣhumnā. Nanaka has written, all these people have written about it. In the Bible also it is described that, “I will appear before you like tongues of flames” what are these `tongues of flames', are nothing but centers.

Then Christ has said, “Those who are not against Me are with Me." Who are those? He was born in such a horrible place that He had only four years of preach, hardly. Otherwise, there was struggle, struggle, struggle. And twelve fishermen who did not know how to write, you can imagine. I had six very well educated Englishmen for four years and I was breaking My neck and theirs too to get their Kuṇḍalinī up there.

So you can imagine [laughing] the plight of Christ struggling with these twelve people for four years.

Now, when He is no more, then everybody has become a Christian. To Me it's a surprise to see this, really. When He lived, when He was crucified, it's a different story altogether. You denied Him. Everybody denied Him. But the false are always accepted. But no more now. If you try to accept false people, you will suffer. You will even suffer physically. Mentally you'll suffer no doubt. You feel very restless. But also physically you will suffer and you'll have to come to the truth because God is anxious that you should get your Realisation. You should enter into

the Kingdom of God because you are the greatest creation of God. And if you don't enter into the Kingdom of God, He's not going to be happy. His creation will lose its meaning. You have to find your meaning which you will find. But be open-minded and get it within yourself.

As you will know the subject matter of Sahaja Yoga is very vast. And I must have given at least 400 lectures by now in Caxton Hall alone apart from everywhere that I have been travelling. And in this short time I can only cover few points here and there. There is a French man who has written a book about Sahaja Yog, but we do not release it to people who are not yet realised because the first state is of thoughtless awareness where you become thoughtlessly aware, but you can cure with that condition.

Kuṇḍalinī has to pierce. Of course, you start feeling it, nicely, but still you have to reach the state of doubtless awareness, which is called as Nirvikalpa Samādhi. Unless and until you reach that state, it's dangerous.

So there are certain secrets of your own being are not to be divulged.

Like Christ said, “I'm the path, I'm the light” or something, people crucified him. They could not bear that a human being could be like that. They could not bear it, too much for them, a carpenter's son? Till He got resurrected, His own disciples would not believe Him.

So certain things are told to you when you really master this art of Kuṇḍalinī awakening and then you will know much more. Still there are many lectures, which are taped and are there. But listening to them is not going to

help you. By reading, it's not going to help you. You have to become, you have to become realised.

There is no organization of Sahaja Yoga. You cannot pay for it. You cannot become members and think I'm a Sahaja Yogi. You cannot certify yourself. You cannot wear a particular dress and say that I belong to Mātājī, nothing of the kind. I do not recognize anyone of them. Neither God will recognize those who just say that “I'm this and that." God does not recognize your clothes. He recognizes your being.

And that's what is to be recognized by you also that you become that. Rise in your own glory, rise in your own reality and enjoy it. That's the most enjoyable thing for which God has made us an instrument. And let this instrument be put in connection with the mains. That's what has to happen. Is the easiest thing can happen and has happened to so many and should happen to you in this beautiful place Brighton.

May God bless you! Yesterday I saw some people asked questions and they're quite good and sensible but one was a foolish man, doesn't matter, forgive him. But if you have any questions you can ask Me. But not too many but sensible questions that will help others. And you must know that you are not the only person who has come here. There are so many who have come here from all over the places and if you have any questions, you should know that it should help others and not to disturb them and trouble them. Just ask the question if you have any.

Question: *[UNCLEAR]*.

Shri Mataji: How do you proceed with...?

Seeker: [says something].

Shri Mataji: What did he say? Eternal hell? Now, why you are interested in hell, Mister? You said “hell" or what?

Seeker: [says something].

Shri Mataji: Ah...

Seeker: [says something].

Shri Mataji: Why do you want to talk of ugly things My child? You read William Blake. He is the best. Ah, So great. He has described complete Sahaja Yoga in His book Milton, complete. Even up to a point where we'll have our ashram Lambeth way, up to a point where I will come first and live Surrey Hills.

Such details He has described. He's also described hell and the future of the people who are supposed to be very clever. It's tremendous. You read Him. In us it is there. It exists. But you are seekers. You should think of eternal life and not of hell. That you can get very easily. You can take two running jumps and go there. [Laughing.]

Seeker: [says something].

Shri Mataji: Who are...?

Seeker: [says something].

Shri Mataji: No. You cannot force. You have been given your own freedom.

So far in evolution there was no freedom given to you. If you do not want, nobody can force it *[UNCLEAR]*, very difficult.

Even if there is a subtle denial, it's very difficult. Today I had a bad time with someone like that, I was trying to push someone up and the thing was falling on Me back again [laughing]. Oh. Of course, I'm your Mother. And as

a Mother, I have tremendous patience and love and understanding, too much. In that love, I try to convince. I'm trying to persuade, to counsel in every way possible.

Sometimes I go to a very great extent to make people understand. But ultimately you have to ask for it. They will all come.

These are mediocres. Once they see you have crossed the ocean, they'll come. They want others to have it first. They are not the ones who will jump first to do it. They are mediocres. Don't you worry, lot's of them will be coming. Like one fish came out of the ocean then maybe about twelve followed, then many but later on shoals and shoals of them. In the same way it will happen.

First of all you establish yourself within yourself. You become a good Sahaja Yogini. Your own life will transform others. Now we have somebody here who is a Jew. His life was completely transformed.

He was a rebellion, he was this, that. He would not talk to people, sort of thing, a very nice honest man, very dynamic. And when he got transformed, his sisters and his mother and father who was very well versed in all Jew, this thing, literature, got Realisation. They came to Sahaja Yoga and this gentleman is now willing to write, I mean he wants to write something about Kabala, the relationship between Kabala and Kuṇḍalinī and we were discussing it. There is a gentleman from Algeria here whose story I told you yesterday and there are so many Muslims. His own family, his father came to see Me, mother came to see Me. Actually his mother wanted to go to Mecca.

So he said, “Why do you go to Mecca? Now Mecca is in London. Mātājī is not in Mecca." England will be a Jerusalem. Remember that. I've come all the way from India to do that. Let's see how the English are going to behave towards it. The river Thames has to become the Ganges. This is the heart of the universe. England is the heart. But the English, very difficult. Six people, can you imagine, for four years? Once they get it, they are beautiful. They are the best young people in the whole world, no doubt, rather difficult to begin with. They're very sweet. Beautiful they are. Actually they are overgrown, I think. But when they find somebody much overgrown than them, then they are all right, over-read, scholarly, nice people. Takes time for intellectuals to understand this. This doesn't matter, it works out.

They asked Me a question in your radio, “Which country you find the most difficult?" I didn't want what to say it. [Laughing.] But the difficult ones are the best. Like I would say the diamond is the hardest stone, isn't it? But it's the most valuable. It's like that. Believe Me. I mean, since the last seven years, I've spent most of My time in England. Of course, I go to India, I've been to Australia. Australia has been very fast, very fast. They are simpler people. Americans are shifty. I'm going to America also. But it will circulate through you people, I can tell you, because still people think, British are wise, wise people. Let's see how it works out. But still I cannot force. Again, I will tell you whether you are British or anything. I cannot force you to get Realisation [laughing]. That's one thing cannot be forced. Actually, you have to ask for it. This doesn't break. Sahasrāra doesn't break, if you have not

asked. This goes down, it doesn't break. You have to ask for it in all humility. That's very true.

You don't have to pay anything, but you have to ask for it. You have to knock at the door. Door is the Christ. You have to pass through Him. But you have to knock at His door. He won't open the door unless until you knock. This is the door of entrance.

Is all right? Is there any question? One more, if somebody have, please. Yes My child?

Seeker: [says something].

Shri Mataji [aside]: What does he say?

Sahaja Yogi: [repeats the question of the seeker].

Shri Mataji: Is a very good question because you are a seeker. There are no practices as I said. It's spontaneous. You see, now see this light is not enlightened, all right, but is ready. What practice do you do to enlighten this, nothing. Bring that light near and it gets enlightened. It's like that. You'll get your Realisation here just now. I tell you how to do it. Because these fingers that you have, have all these centers left and right, seven of them, five, six and seven. I mean you place your hands towards Me now because I'm here. Just like this. And close your eyes just close your eyes. And the Kuṇḍalinī spontaneously rises. You don't have to do anything. But when you become realised, when this power start flowing through you, then you have to know how to manoeuvre it, how to raise it, how to keep it there.

Like this one, we buy from the shop, all right? And then you put it to the mains, it starts working. But you have to know how to maintain it, how to manage it. That's the

knowledge you have to know later on which is called as Kuṇḍalinī Yoga, is a knowledge about Kuṇḍalinī. But otherwise it is spontaneous, `Sahaja', means `born with you'.

It's just like sprouting a seed when you put it into the Mother Earth. It is absolutely spontaneous.

Everything that is living is spontaneous.

So there are no practices as such before Realisation. After Realisation, you have to know how to maintain it. And we have a nice center here. You can find out. It is 31 College Road.

[Aside:] Is it she staying there? And also they have now started a little shop for people because that was a very good way of contacting people. I don't know the address of the shop or any of these places. There are many places here in Brighton.

We have got Sahaja Yogis who are very good. They know all about Kuṇḍalinī they are just like you to look at. They are very normal people. But they know about your Chakras, they know about themselves and they can tell you how to preserve this Realisation. All the knowledge will be yours. Because now the light is within you, you can see also for yourself. And by practicing it, you'll get it, you don't have to pay for it, nothing.

So just know you have to just put your hands like this. But later on you must know that it is to be maintained and that's a very, very important thing which people miss. Now put your hands like this, just like this., And close your eyes., As I said, you have to ask for it. You have to ask for your Realisation.

You have to ask for your Spirit. Let your Spirit come into your conscious mind. `Mother, give me my Self-realisation.' You have to ask for it. You have to humble down. You should not be obstinate. One thing in Sahaja Yoga, those people who are obstinate or identified with something that is obstinate, it won't work out. The Kuṇḍalinī will not stay there. You are obstinate with yourself. It's not going to help you. Don't be obstinate. After all you want your Self-realisation, isn't it. That's the most important thing.

So don't be obstinate about anything. Just let it happen within you. Just let it happen within you.

If you have been obstinate, how can the Kuṇḍalinī rise? Put both the feet on the ground properly and sit absolutely relaxed.

Now the first thing you feel is a thoughtless awareness within yourself. If you have anything in your neck, please take it out. I think it stops here. Anything in your neck, please take it out, doesn't help.

These material things always catch, better take it out. It's better. It's better take it out, because your Self-realisation is more important than anything else, isn't it? Better take out anything that you have in your necks. Any jewelry or anything you have, please put it in your pockets. You see it has attachments, it has problem. Put it in your purse or put it somewhere. It helps you. If there is any girdle or anything round your neck, some people have girdles here? Make it loose a little. Because that way, Kuṇḍalinī rises by itself no doubt, but if there is pressure on the spinal cord, physical pressure then it *[UNCLEAR]* sometimes. Hah, now see, much better, much

lighter on the Viśhuddhi. It's very relaxing. First thing that will happen is relaxation.

Now you have to ask for your Realisation. It has reached the point, but it's not breaking through. Just ask for your Realisation. Can you take the baby out? You see, people get diverted. Better now. Let your attention be loose. Don't put it concentrated on to any particular point, please. Keep it absolutely loose, please. Put both the hands like this, like this. You have to forgive, forgive others. Say it thrice from your heart, `I forgive anyone.' Don't say it is difficult. Just say. `Mother, I forgive everyone.' Even your horrible Gurus just forgive them. It's all right. Forgive yourself first of all. Don't feel guilty. Forgive yourself. And forgive everyone, please. Say, `I forgive.' Then, without feeling guilty, again I say without feeling guilty say that, `If I have done any mistakes, please forgive me.' You have to... This is Lord's Prayer. Imagine Christian nations will catch the center of Āgñyā much more than anywhere else. Just imagine. Ask for forgiveness rise. That immediately say that, `Mother, I'm not guilty.' Because this builds up. It's a very big fashion in the West to feel guilty for nothing at all. Say Mother, `I'm not guilty.' Please say it again.

Say it thrice.

Just go on saying `I'm not guilty.' Heat is coming out of you.

So much guilt you have built. That's why the gentlemen was talking about eternal hell I believe. You are here to enjoy the heavens and not to go to hell.

So don't feel guilty. Now you can put your right hand on your heart and left hand towards Me and ask a question,

please, `Mother, am I the Spirit?' Ask the question, `Mother, am I the Spirit?' Ask the question. Again, ask the question. Ask thrice, `Mother, am I the Spirit?' Going on asking you'll find the Cool Breeze will flow into you, left hand, when you ask the question. Now put your right hand towards Me and left hand on your stomach and ask a question, `Mother, am I my own Guru? Am I my own master?' This is to neutralise all Gurus. Just say, `Am I my own master, Mother?' Ultimately, you are your own master. You are your own Guru. Now put both the hands towards Me. Close your eyes and ask for realisation, `Mother, give me my realisation and establish it.' Say it thrice.

Aham sākṣhāt Moksha Dāyinī, Aham sākṣhāt Moksha Dāyinī, Aham sākṣhāt Moksha Dāyinī.

Aham sākṣhāt Nirmalām, sākṣhāt Nirmalām, Sākṣhāt Nirmalām.

Aham sākṣhāt Ādi Shakti, Aham sākṣhāt Ādi Shakti, Aham sākṣhāt Ādi Shakti, Aham sākṣhāt Ādi Shakti.

Aham sākṣhāt Kalki, Aham sākṣhāt Kalki, Aham sākṣhāt Kalki, Aham sākṣhāt Kalki.

Aham sākṣhāt Mahākālī, Mahālakṣhmī, Mahāsaraswatī. sākṣhāt Mahākālī, Mahāsaraswatī, Mahālakṣhmī, sākṣhāt Mahākālī, Mahāsaraswatī, Mahālakṣhmī.

Aham sākṣhāt Moksha Dāyinī, Aham sākṣhāt Moksha Dāyinī, Aham Sakshakt Moksha Dāyinī, Aham sākṣhāt Moksha Dāyinī, Aham sākṣhāt Moksha Dāyinī, Aham sākṣhāt Moksha Dāyinī, Aham sākṣhāt Moksha Dāyinī, Aham sākṣhāt Moksha Dāyinī, Aham sākṣhāt Moksha Dāyinī.

Aham sākṣhāt Virāta, Aham sākṣhāt Virāta, Aham sākṣhāt Virāta, Aham sākṣhāt Virāta, Aham sākṣhāt Virāta, Aham sākṣhāt Virāta, Aham sākṣhāt Virāta, Aham sākṣhāt Virāta, Aham sākṣhāt Virāta, Aham sākṣhāt Ātmā, Aham sākṣhāt Param'ātmā, Aham sākṣhāt Ātmā, Aham sākṣhāt Param'ātmā, Aham sākṣhāt Ātmā, Om sākṣhāt Param'ātmā, Aham sākṣhāt Ātmā, Aham sākṣhāt Param'ātmā.

Aham sākṣhāt Brahma Shakti, Aham sākṣhāt Brahma Shakti, Aham sākṣhāt Brahma Shakti, Aham sākṣhāt Brahma Shakti, Aham sākṣhāt Brahma Shakti, Aham sākṣhāt Brahma Shakti.

Ask any absolute question if you have not *[UNCLEAR* felt] vibrations. Like you can ask question, `Is there God?' Ask thrice. Hmm, it's there. Are you feeling? Good. Those who are feeling the Cool Breeze please raise your hands, those who are feeling it. Those who are not feeling need not. Those who are really feeling please raise your, now, those who are feeling, Sahaja Yogis also, please raise your hands.

All of you. Good. All the Sahaja Yogis should raise. Yeah.

Who is she? Are you a Sahaja Yogini? Are you taping Me there? You can't. I'm sorry. No, please.

They are not allowed. Is she with you? Ah? Audience: *[UNCLEAR]*.

Shri Mataji: Ah? It's all right. Is it? You see because these people now in the, in India have started a new thing that nobody else but a Sahaja Yogi can tape, all right? Audience: *[UNCLEAR]*.

Shri Mataji: It's...

So she can't. You can have the tape. You have taped it? Audience: *[UNCLEAR]*.

Shri Mataji: All right. I'm sorry you'll have to give the tape because under law we cannot. You see there is a sort of a thing they have passed and they have told Me, “Mother we'll not allow anybody to tape." So, I have agreed. I'm sorry. Because there is a certain protocol about these tapes and if it is not used with tapes, people suffer.

So we would like only Sahaja Yogis to tape it. We found out such things happening and we don't want people to suffer for nothing at all. There is a protocol.

Those who are not feeling Cool Breeze raise your hands. Raise your hands. Please.

Contents: 1981-07-12 **Śhrī Kṛiṣhṇa Pūjā, Increasing Collectivity, Gillian's House, 11 Vallance Road, Hove, Brighton, UK**

For attention, two centers, which is very important for Sahaja Yogis and also as the situation is, one is of left Viśhuddhi and one of heart itself. Just now when I was coming, I knew there were lots of left Viśhuddhis everywhere and in the car also I felt the same thing. I did not know what to do. Because there were people who were thinking, “I wish we had done this and that” and I was just waiting for a chance to break it, you see. And then suddenly I got a chance and I made a fun of the whole thing.

The combination between left Viśhuddhi and joy is quite a lot. Left Viśhuddhi is also of two types.

One is where people do not feel guilty. Indians will never feel guilty. Seldom will you find an Indian feeling guilty.

Seldom, that's not in their character. I mean they are adamantly not feeling guilty. Can you believe it! Even if they have done wrong, they will go on shamelessly. You'll tell them, then they will take another course. Then you tell them something, they will go in another course, but they will never change. They are very adamant, extremely adamant people. Only thing is if, somehow or other, you manage to break their adamant nature, then they will come around. Otherwise they go on.

The another thing is the Western left Viśhuddhi. Whatever you may try, they will get into guilt. You make them laugh, you tickle them, you joke with them, make them feel nice, [but still] for small, small things they will start feeling guilty. I mean that's also another adamance! That, try to understand that what guilt can we have.

Firstly as Indians are, they never commit mistakes. I mean, if you tell them anything, they would say, “Why do you blame me?" I mean, they'll never take a blame of anything upon themselves.

Somehow or the other it is, maybe, because they have been slaves for three hundred years, this kind of a thing they have developed within themselves that, if you take the blame, you are punished.

So best thing is never take the blame and never fall into that trap you see. It is a kind of a egotistical left Viśhuddhi you can say, a type of. But the another one is incurable, because the first one cures itself.

Anybody who is like that you say, now supposing you say that “you should not do this!" then the person will say, “All right I'll do something else." Then I will recede. I will

do this. I will go away. I will do this. But they will never give up their habits. That's one type.

Some of you have that kind. Very few but have. Now as we are here to improve ourselves and grow more, we have to understand how we do it.

Not to find excuses. It's very easy to say, to say, “Oh my health is not good, I am not good for this, I am a bad person” all sorts of things. It's just finding faults with yourself. For what, I mean, the second type of left Viśhuddhis are, just because that's only the way you can escape yourself. I mean, the net results of both the Viśhuddhis is that you do not achieve anything. Isn't it? One person can say that “No I have done nothing wrong, you see I will go on like this” and that person will keep quiet, reserved, won't say anything, but will be fast there. Will not smile, laugh you see, lose collectivity. But what is the gain? I mean, you are not going to carry on with these frivolous things all your lives, are you? You have to go further and where have you to go in the witness state? You must go to the witness state. Unless and until you witness the whole thing, you do not gain and how do you witness? By seeing the futility of these kinds of angularities you have got. Just witness the drama. Just witness yourself just as an actor. Just see these things are happening. All right.

So, why should you worry about these things? You should love the other person. You should be in a loving mood and a happy and joyous mood. You should not worry as to what is going to happen to yourself or to others. Witness the whole play as a detached person. You go on witnessing it and the way it develops, you will be a very

lovable person having collectively. Of course this witness state can be also hampered by some people who are egoistical. We have in Sahaja Yoga some 3-4 people who will remain egoistical whatever I may try, I think now. See, they are very difficult people. They are unpopular. No one likes them, sort of people. They don't understand that collectivity is important. They'll find faults with everybody but not with themselves. They go on like that.

Sometimes they improve a little, again they go down. But, we have to witness all of them. It never justifies your behaviour. Supposing somebody is like that, take an X Y Z is like that, is difficult, he doesn't have collectivity. Say, the position is like that, you see.

So now what should be your attitude? Should you get affected by that. Not at all. If you are a witness. Should you get enamoured by that or caught by that or become like that? Not at all, because you are a collective being. What is the third thing you can do? Can you tell Me? With such a difficult person, what will you do with such a person? What should we do with such a person? If there is a difficult person with us, there are some people who hate. They hate such a person if he is there, we cannot perfect, we are not supposed to perfect. Are we perfect? Then what should we do?

Sahaja Yogi: We should love him even more.

Shri Mataji: Yes, that's true we should love, but sometimes he may misunderstand your love. Not only that but he might become more sort of aggressive because he takes your love for granted. What should the Sahaja Yogis do? Sahaja Yogis: Shoe beat.

Shri Mataji: Yes that's one of them. It's very simple, very close to you, which you forget.

Sahaja Yogis: Work on him.

Shri Mataji: What... Alright. But still simpler. What is it?

Sahaja Yogi: Put him in bandhan.

Shri Mataji: That's it, but even simpler than that.

Sahaja Yogi: Ignore him.

Shri Mataji: That's your human style, not Sahaja Yogi style...

Ray Harris: Tell him your not going to stand for his nonsense.

Shri Mataji: That's again human, everybody does that... What is the speciality of Sahaja Yogis? Now, Gavin is using his brain.

Shri Mataji [laughs and says]:... Use your heart.

Linda: Pray to You that everything will be all right.

Shri Mataji: “That's it, that's it” she said it. “Leave it to Me” she said it. That's how Linda has achieved, so much. Leave it to Me. If you believe in Me, then don't worry, leave it to Me what ever I say, whatever I say, how to treat that person, just listen to Me. Leave to Me. If I am available you can tell Me, but leave to Me. I know everything, just leave it to Me and it can be worked out. As simple as that.

Sahaja Yoga is very simple made easy, absolutely made easy, but still we trust ourselves more, isn't it, than the Divine. That's what everybody else does, but for Sahaja Yogis it is important that [they] leave it to Me. I know how to manage. I know how to punish and also I know how to save and I know how to love.

So leave it to Me. You may write a letter to Me also which I may never read. Doesn't matter, you may pray, that's the best way. Things work out better. Where is Peter [Pearce]? Has he come? Linda Pearce: I am afraid, Mother, I forgot betel leaves; he has gone to get them from Pam's house.

Shri Mataji: He's gone to Pam's house [Pamela Bromley], alright, it's alright. Forget it! If there are no betel leaves it doesn't matter. There are so many other leaves here which can be used. In India it's all right, betel leaves. Why in England? Maple are the best. I love the Maple. You have Maple here? This here. You get these are beautiful ones. Aren't they? I love them. Your Maple trees are beautiful.

So, now, how do we make ourselves all right with this guilt business? Feeling guilt. First of all, let us see the people that's the main problem, I think is of feeling guilty. When you start witnessing yourself, you'll start seeing how your mind becomes subtler and subtler, as far as the guilt is concerned. First it will start guilt. “Oh I should have not said this to someone” or all that starts. By that actually the another person does not know also, that you have said something harsh. But you just think that, “Oh, I should not have said this or said that” and you create a barrier.

So if you witness that this is my mind which is playing a trick on me and just trying to cut me off from that person. Many relations break only because of feeling guilty about things. If you could get over this understanding that never keep anything in the mind

about a person, no reservations then you will be surprised there won't be any guilt in your mind.

All the time your mind is pouring these ideas into your head. You [should] go on denying them. They'll become subtler and subtler. It will work to this limit like, “Oh I should not have done this to Mother." It comes to that point. The other way of the thing, you see, praying to Mother and feeling guilty about it.

“Ah I should not have put my feet towards Her. Oh God! I have taken Her shawl, I should not have done this, I should have done that” these things are not child like. You have to be child like, innocent. Nothing is important. Nothing is [more] important than your love. I mean, you are not doing it deliberately. If something is done by mistake, you should not feel bad.

For example, I told Pamela [Bromley] at a very subtler level, that she can use My bed after three days.

I mean, she had been using the next day. All these years, nothing happened. But I am supposed to tell her this because there are Ganas who are waiting there and they may harm you. But Indians, if they do this, then they are really harmed immediately. Like Mrs. Pradhan she was thrown out of her bed thrice.

She did not know what was happening. She was fast asleep she was thrown out. Then she got up and got onto the bed. Again she was thrown out. Then third time she was again on the ground. I said, “What is happening here?" She said, “I don't know.

Somebody is throwing me out." I said, “Oh God, that was My bed, you slept in My bed. I am sorry." I said, “Now you come and sleep here." Then she said “now I am not going

to sleep on that bed Mother, because you have slept on that so I am going to sleep on the ground." But they know. Indians know these things. They understand the auspiciousness and when they cross it, they are more punished than you people are. Very badly punished. Because you are innocent.

You do not know about it. But I have to tell you that you do it like this.

Now if something has happened, then If I say, `Oh you should have done it,' then immediately the guilt falls on you.

So normally I take proper care to tell you before it starts.

So that at least it doesn't have the after effects because I don't want that you should unnecessarily bother about useless things. These things become important when you have the knowledge of it. This is what is so great about Divine. You see supposing you put hand in the flame, you will burn, isn't it? But after getting realisation it's just the other way round. If you commit mistakes and you do not know about it, then you are not harmed. But knowingly if you do something, if you know and you forget then you may be harmed. Thus you will realise that there is a Divine hand which is guiding you and looking after you. Unless and until you learn how to witness the thing, you can never enjoy life.

So your witness state must be improved.

Now what goes against witness state, in the west? We'll see the Western point of view. The first of them is that we have not heard of Kṛiṣhṇa very much before. I mean many people never must have known about Him.

So we are more identified with Christ. There cannot be like that. In Sahaja Yoga you have to be identified equally with everything. You cannot be identified with your eyes more than your nose. Can we? I mean we need both of them, we can't do away with any one of them. It's like that.

So, everybody is equally important and harmonizing and they are just one. They are a unity. We cannot understand that unity because we are not perfect ourselves and we have never seen such unity in life. I mean no two persons in this world, that I have seen so far, who are that united as all these persons are united within themselves.

So, if such a unity is existing between them, if you try to dis-unite them, they themselves get angry. They don't like it. It's like if you try to pull your hair the head doesn't like it, the body doesn't like it, no one likes it. In the same way they don't like it at all and both of them get angry. You must understand them in their right perspective.

In the West people have not realised much about Kṛiṣhṇa, nor do they respect Him as much as they respect Christ. But Christ doesn't like it. That's why you catch on Āgñyā. The combination fits in and also Viśhuddhi is catching Viśhuddhi,Āgñyā catch is the worse thing I feel sometimes, because in between these two lies the Heart. You can imagine what a granthi it would be in the heart.

So you have to develop that love for Kṛiṣhṇa and understanding about Him. Anybody, anything says against Kṛiṣhṇa, they are saying against Me. I know for definite, it is Me only. But anything anybody says

anything against Mohammad, I will stand up and I will really be angry and furious. If they say against me, as I am today I may not so much because they don't know about the other person.

So you have to understand that you have to be united. Now those who have been Hare Kṛiṣhṇa people, they don't want to hear about Christ.

Their Guru has told them, “Don't worry about Christ." So they don't want to hear about Christ.

There's another type who do not want to hear about Mohammad, but Sahaja Yogis must know that we must develop the proper understanding of Kṛiṣhṇa, if you have to have this. Now you must know that He is the Primordial being. He's the one who is the whole. You have to become one with Him. He is the complete awareness, the Chitta, complete. Now we have to become one with Him.

So first of all collectivity has to be developed. Another reason why Christian nations are ego-oriented, is because they have no sense of collectivity within themselves. They are very individualistic, you see.

They must have their own bathrooms, their rooms painted. I am told that the Warwick road people are very busy painting their rooms and things. I mean, “This is my daughter, this is my sister, this is my wife, this is my husband, my my my my my my” goes on morning till evening. There's no sharing at all.

Collectivity is very poor. They can't understand that we can share everything with each other. And when it comes to sharing with such people it happens that they spoil. For example, you call people or you give them something

that belongs to another person, they will spoil it. On the contrary those who are people who are collective, when they go to somebody's house, or if they have somebody else's things, they'll be more careful about them than their own.

Like Patricia has been asking that, “Mother, you come and stay in my house because you want to shift from Your house, will be a good idea." When My grandchildren were here, we didn't want to go there, because they may spoil her house. Then I will now, you see, sort of, there's a hesitation, thinking that we should not spoil her house. I mean if we are living in this house, we are spoiling it already. But we don't want to spoil that house. You see this kind of a feeling should be with you that, by going to somebody's house you should not spoil [it]. But if you go there, for example, now we are in say Pamela's house. Do we understand how should we live in that house? I've already seen 3-4 things broken there. Why? Because you have no collectivity, the understanding that we should not look after our things. You see, we look after our things more and then we don't look after other's things. I tell you if you start giving up looking after your own things, you will start looking after other's things.

If you have to grow in, grow in Sahaja Yoga, first thing is we must grow in collectivity. We are worried more about our feelings. If somebody says something to us, we will go and beat that person, but we don't mind about the feelings of others, then collectivity is less. And this is one of the drawbacks. I think the ego developed in this country more, much more because there was no existence of Kṛiṣhṇa felt at that time. If people had felt

his existence, they would never have gone that far, because they should know that we are part and parcel of the whole and we have our own limitations. We cannot go beyond that. He is there, we have to achieve that. Why because Indians were not conscious of Christ. They went on with their Karma theories, that those who are suffering have to suffer and those who have to do this like that, they said that, “Yes, those who are born Brahmins” they thought that “Oh we are higher people and these people have to suffer." In any way both are monster ego.

So we have to understand we are Sahaja Yogis. We are people responsible for changing the whole world, transforming the whole world into a beautiful place.

So we have to change ourselves. We should not find any excuses. We should decide that whatever may happen, we are going to change ourselves, ourselves and not others. Even if that person is your brother, sister, wife, husband, you should change, not the other person. If you start changing, you will set in motion this thing. While many people just don't want to change, just don't want to change, they go about with it. Every time you talk to them, they are like that. What are you doing about it? You have to work it out.

So for Viśhuddhi, I would say that you should see the collectivity of Śhrī Kṛiṣhṇa. He married 16,000 women. Now people might say “Oh God that's too much!" And He had five queens, you see. Actually these 16,000 women are nothing but his 16,000 powers. Now he could not have Sahaja Yogis as His children you see. He was very young, so He thought of this trick that let His powers be

born as women and He will have them as wives and it was all a big drama. And the five queens are the five elements who incarnated. Just to use these five elements, He had them as His queens. It's a story, a very secretive story and one has to understand in that line.

So His collectivity was so great. Nārada was the one who used to create problems you see. He went and he told, he went and told, one of the wives that, “Oh this Kṛiṣhṇa, He does not love you, He only loves Rādhā. You are under wrong ideas, that He loves you. He just loves Rādhā. He does not love anyone.

She's the one He really cares for." So they got jealous and they went and told Śhrī Kṛiṣhṇa that see we think that you only love Rādhā and your just be befooling us. And we are not going to be your wives anymore the way You are. In your heart of hearts You love Rādhā." So He said, “Who told you that?" They said “Nārada." He said “Alright. I know this Nārada!" So Nārada came to see Śhrī Kṛiṣhṇa and Nārada, then heard a great scream from Śhrī Kṛiṣhṇa. Nārada said, “What has happened." He said, “Oh a terrible pain in my stomach, oh no terrible pain. I just can't get over it." So Nārada got a fright and he said, “Now what should we do? You better tell us the medicine." He said if you can give the dust of your feet for Me to drink, I'll be all right. See the tricks of the witness.

So he said, “Oh God!" Nārada said, “I can't give because I know He's the Primordial being. I can't give the dust of my feet for Him to drink, that would be such a bad thing to do and I will have all the sins of the world upon myself. I am not going to do." He said, “I am not doing!" He said

“anybody, anybody who thinks is my bhakta can do it and you can ask My wives, that's a better idea." So Nārada went round. He said “Oh He is in terrible pain, why don't you give the dust of your feet?" She said, “No, Nothing doing. You see as it is He doesn't love us, in His heart is only Rādhā and He wants us to give the dust of our feet, we are not mad. We will have no Puṇyas, we will have no good deeds for us and what's going to happen?" So, Śhrī Kṛiṣhṇa said, “If you cannot give me, then what am I to do now? I have got terrible pain. And somebody has to do it." So Nārada said, “What do you suggest yourself?" He said “You go and ask Rādhā, she's the only person left now." So he went to Gokul and Vrindavan, that area has got the dust of yellow colour like pollen, the colour of a pollen. And he went and told that “He's got a pain in the stomach and now what to do?" She said “What did he say?" He said “If give the dust of your feet, He will all right." She said “Take it, take it, take it. Just now you take it!" He said “Aren't you worried?" She said “About what? He's the Primordial being!" “You give Him your dust. What will happen?" She didn't feel guilty. She just said “It's all right take it out." And he scraped some of the dust. He said, “Aren't you worried, you'll be losing completely in your Puṇyas and all that?" She said, “Oh, don't you worry." And she said, “He is the One who makes Me do all the sins and He's the One who makes Me love others and He does everything. I'm not bothered it is his lookout. If He has asked for it, better take it." So he went to Kṛiṣhṇa. The beauty of the story is here. He went to Śhrī Kṛiṣhṇa and told him that she has given the thing. He said “Bring it bring it!" and He drank. And he

said But I was surprised at her answer that it is You who do all kinds of sins and this and that. And you are the One who makes her to love others and what ever He does is *[UNCLEAR]*, She's not bothered about it. She's not worried about Pāpas and Puṇyas, she's not worried about sin and good deeds. She said it's He who does everything, I have nothing to bother, let Him do what He likes. If He wants it I'll give. I'm surprised she is not bothered.

So Śhrī Kṛiṣhṇa said, “All right, you just watch just now. Watch my heart." And Śhrī Kṛiṣhṇa opened His heart and in the heart was Rādhā sitting. It was a lotus and the lotus had the pollen and Her feet were touching that pollen. If Her feet are touching that pollen there then what is the Puṇyas and what are the apuṇyas? If Her feet are in His heart then what is to decide. See the beauty. The poetry of the Divine is so beautiful, it's so beautiful, if you understand the poetry, then you will never feel guilty. You are unnecessarily taking out thorns out of flowers. The beauty is so much, it's so beautiful it is, the whole thing is so poetic that, to understand that poetry, you have to cut down all these ideas of cursing yourself and saying bad things to yourself. Leave everything to the Divine, in full understanding and in full love.

You don't need much imagination for that. It's just when you go to your heart and see for yourself how much you have got. Just think.

When you think of your guilt, you should think: where were you? What was you condition? Did you ever expect that you will get Self-realisation sitting down in London watching Thames Television? And you got it, just think of

the blessing and the grace and forget about feeling guilty, just be joyous and happy and smile at yourself. There should be a giggle all the time behind the lips. When these things will happen to you, then you start feeling the joy within you. And that joy should be felt, it's just a play of the Divine which is to be seen as a play and not as something serious and a horrible thing which makes you guilty.

Now, no more you are going to feel guilty, but if you are doing something wrong, against Sahaja Yoga, by which you are bringing bad name to Sahaja Yoga, then you must immediately correct. Such people will be definitely punished whether they feel guilty or not. There's not doubt about it. But if you are loosing in collectivity, you better improve. There are many people like that. First thing they'll say, “I was never told, I did not know. He should tell me." Some people will never tell, you see this is the same style of people. Why not be open? Just open. You see flowers, they are only always on top of the tree. Do they hide themselves under the some roots and things? Only the creepers, horrible ones, like snakes and worms and all these things, they hide. Why do they hide? Because they can't face the beauty of sun. They can't face the beauty of collectivity.

So they hide and these scorpions they hide. Why should you hide anything from each other? Be open. Talk to each other openly, without any reservations.

I mean small things like people used to first grudge, “Mother she has taken away my soap!" And I would used to say, “Oh God look at these people!" “Oh I can't use that soap!" You see. Perhaps you have not noticed, I

have been using your common soap there throughout. I deliberately did not use My soap.

I left My soap down there so that you can use it for a different purpose. I play like this all the time with you. But you have to also start playing with Me, otherwise you will not be in the game. You will be left out, you will never enjoy and not only that you'll be misfits, but like the way the other fellow has asked Me that “How do you go to eternal hell?" I answered him very simply, I said “You can take two running jumps and go there!" Imagine the fellow doing that! It's like that.

So this is how we create our heavens and our hell.

Sahaja Yoga is not for people who want to go to hell. It's very easy. But to deny Sahaja Yoga and to defy it after coming to it and not to accept the verdict of Sahaja Yoga and to displease the deities is the worst thing one can do. Either you don't come, if you come, you have to obey and understand that these are the laws which are eternal and you cannot surpass them. You accept them, then you enjoy. What's the use of denying them? If you do not accept them you cannot enjoy yourself and you will create a hell for yourself and for others.

So today I say that let us open our heart. Just like the flowers, we have to come up the tree. Let us compete in giving more, being nice to others instead of criticising. And sometimes people come and tell Me, “Oh he did like this." I don't like it much. Unless and until it's fundamentally something wrong, you should not and I know how many people can carry on with others. That's very important.

So the collectivity must be brought in but your character itself should be such that people should say “oh she is very sweet" or “He's very nice and is nice to everyone." Then also they should say not only that but “They are ideal, the way they behave." Especially husband and wives, I have seen that some of them are very much appreciated, some of them are neutral type and some of them are condemned.

When you are married before Me, it's your moral responsibility to see that you really create a good relationship and do not hate each other. One should not judge by other norms like you see, “He didn't bring me a sarī" or “He didn't bring me a frock" or something like that. But we have to be ideals. I have seen either they are dominated or they do not want to get dominated or they dominate. There are only three categories. Wise are those who get over this category and make a beautiful thing out of it. That's a challenging point. And all such people who can take up the challenge have been married. If they fail, I don't think anybody will marry again, most of them may remain bachelors or spinsters or what you call them.

So it's not good. Those who are married have a great responsibility to be sensible, not dominating at all by any chance. Nobody has business to say `Don't do that!' Nobody! After Sahaja Yoga. Before Sahaja Yoga it's all right, after you're not to say, `Don't.' And you don't have to be also off-handed by doing everything that you want to do yourself. Both things are wrong. There should be combination and understanding. I think the married people have much greater responsibility than the

unmarried in Sahaja Yoga. Then the mothers and the parents are also very responsible people. They have to guide others how they have to live with each other. The norms have to change; it's not how much you are educated and what you know and efficiency. That's not important in Sahaja Yoga at all. How much you earn, all this is not important.

What is important is how you deal with each other and enjoy each other. How much capacity you have got to enjoy each other. And that's the way you really transform yourself into a beautiful joyous personality and others too. I hope the rain would stop and we'll have our Pūjā now.

So May God bless you, enjoy every bit of it, enjoy every bit of it.

[While leaving down the stairs, Gilly Grimshaw goes in front to make it sure that the carpet on the stairs is secure. Shri Mataji laughs and asks him what was he doing.] Gilly Grimshaw: [says that he is concerned that She might fall].

Shri Mataji: There's nothing you can do about it. If I'm meant to fall, I'll fall.

***Contents: 1981-07-16*, Public Program, A Great Chance, Meeting House, Hampstead, London, UK [Introduction by Dr. Spiro.]**

From amoeba to this stage and today the time has come to become aware of Him, of His powers with your spirit flowing in. You have to become your spirit now at this juncture. You must first decide and as soon as you

become that you are going to give up caterpillar state. That has to be decided.

So many have been realised, in this country and in so many other countries.

I wonder how many of them have understood that you are the flowers and how the flower has to be fragrant. Are you that fragrant towards others? Unless and until such a decision is been made, of course I must say the Grace of God is so great that despite everything people are getting their realisation. Imagine the Arch Bishop of black magic, who must have heard thousands of people is also getting realisation. Can you imagine! Tremendous things are happening I am amazed. How these things are working out, The Grace is working so quickly.

So many people are getting realisation. But I don't know really if it is going to give you the wisdom or not, but you should mature into the beauty of your realisation. You are still the same, then what's the use of getting realisation if you don't want to change. After all you wanted your realisation, just because you wanted to change. And it is the change of transmutation so that some of you has to die so that the beauty comes up. And if that is not achieved, that we have not achieved, the goal of Self-realisation. I feel that for all these years whatever I have seen is such a tremendous Grace flowing.

Thousands of people getting realisation in Indian villages. It's amazing, how things are working. It's fantastic, I could not believe My own self, when I saw all these things happening, but it's happening, believe Me it's happening. First we had horrible skeptical people all right, they were

questioning, doubting, this that, that subsided. But now this a new race of this egoistical people is coming up which has become so subtle that they also don't realise that still that caterpillar is hanging on to them.

To grow in Sahaj Yoga you have to understand that the age has come. About this star, when I read I was surprised, that it appeared the time when I was born, really surprising and it is a star that gives you this power of transmutation.

So maybe through this star, the Grace is working it out that you can achieve the transmutation, your evolution, your breakthrough and become that beautiful being which can adorn the kingdom of God.

May God bless you.

Should we have a experience with the determination, all the Sahaj Yogis also must determine. That for anything on the world we are not going to hurt other people. Nothing is more important than human beings. What Christ has said that you turn your another cheek if somebody slaps you in the one, it is for the Sahaj Yogis. All these things, He has said for the Sahaj Yogis and not for other people.

So we have to remember that we have to show others by our real transmutation and a quick one. It is so slow that the movement of the earth may be seen, but not, sometimes the movement of the Sahaj Yogis. It is that slow.

The pace is so slow.

You haven't got any place, you come down here, come here, there is a place here for you to sit down, come

along, here there is place. Of course those who can sit on the ground, come sit down. Mark, come along come here. You can sit here. Mark, you come here, I mean in the door you see, they are coming in here and sitting, you better sit here, be comfortable. Hari you come this side. Where is Regis? Ask him also to come down, come along, come here. Regis, just come forward. Gavin, would you like to come, there is a lot of room. It's all right. Now anybody can give Gavin a seat because the lady won't allow you to sit here. That's cool.

I am sorry there is no chart, otherwise I would have explained to you how this works out within us, how God has made us absolutely ready for our evolution, how it works spontaneously, I am sorry for that but I hope next time we will be able to put the chart and I will be able to explain to you. In any case you should get from these people, there are charts and things to read and to understand, how we are made, so beautifully and delicately within ourselves and how we jump into a new awareness. It's so simple, so spontaneous and so beautiful.

Will you please put your hands like this towards Me, close your eyes, its Cool Breeze is coming, no window is open. It is all right so that's from Me. Still on the...

It's going to work out with everyone. Just the hands like this. Now again I would request you to say that, `I forgive everyone who might have hurt me.' Just say because even when I was saying this, most of you have been thinking about how people have hurt you and not about how I have hurt others.

Now just say that I forgive all those who have hurt me. Thrice. Now without feeling guilty, without feeling guilty, this is very important, thrice I say, because guilty, feeling guilty, feeling guilty is an escape just you have to say ask God, to forgive you if you have hurt others.

Sahaj Yoga works on the power of love and all angularities and all the thorns that make this force, weak, has to be discarded. Unless and until you have got this force flowing fully within you, you cannot achieve any heights in your evolution.

So please ask for forgiveness, say thrice at least. If it is said about ten times it will be better but at least thrice. Sahaj Yogis should say twelve times, I think.

Now you ask for your Self-realisation with humility, paying attention to your heart, ask for your realisation. You are entitled to it. But humility is important because you are asking for something so great, that there should be some emptiness within you in which you receive it. If one is filled with vanity, nothing is going to help.

You should not feel guilty as I have said, or you can say thrice that, `I am not guilty,' it's better not to feel guilty about anything. Don't count all the so-called guilts. Please don't do that because after all you are made the temple of God.

You become first thoughtlessly aware. Means if you watch yourself there is no thought. Just watch within yourself there is no thought. You feel you have become blank and when the Kuṇḍalinī pierces through your fontanelle bone area, when you get your realisation, then you feel the Cool Breeze in the hand.

[Long pause.] How are you feeling? Good. Enjoy yourself. She's got it already. How are you feeling? In the hand, a little Cool Breeze? All right *[UNCLEAR]* just watch Me here, just watch Me a little, without thinking, just watch Me, put your hands straight, little bit straight like this, you see all these centers must be exposed, like this. Close your eyes, stretch your hands a little. You got it, Cool Breeze in your hands, have you? Very subtle. It is very subtle. Keep your eyes shut.

Start working out, it's a happening. It has to. It's good [laughs]. All those who have got Cool Breeze raise your hands. Yes great! It's all right. You are feeling guilty is it? Or just say, `Mother I am not guilty.' That's all. Just say that. What is there to feel guilty, you see? God is so great. He is ocean of forgiveness. What guilt can we have, what mistakes can we commit, we are nothing compared to Him, His love is so great. Better close your eyes. It will work out. Just say `I am not guilty.' It helps many people if they say. Will you say that too, `I am not guilty.' It helps many people.

People next to you... what about you? Are you feeling hot? And what about you? And she's got it.

Are you feeling anything in the hand? How do you feel? This lady. No? Watch Me. You have to forgive yourself completely. Now little bit close your eyes. Raise your Kuṇḍalinī. Now, we didn't have... watch Me *[UNCLEAR]*. Don't feel guilty, got it? Not yet.

Have you been to some spiritualist, some spiritualist? Horrible people, you know. They don't know what they are playing with. They are playing with fire, they have no idea. Horrible, it is very dangerous.

It works for seven generations if they try these tricks. You will be all right. Don't you worry? Put your right hand on the heart and ask for forgiveness that you went to these spiritualists, it will work out, keep your eyes open. Left hand like that, left hand like that, right here.

She has got it, Shinwah? Hmm, what about you? Are your all right? Still! Somebody can go and see.

These people now, you are all right? Good. Just here. Are you all right? Anna please work on this lady.

Are you all right, are you feeling any Cool Breeze? Little bit, just put her right to the left. What's the matter, put the right hand, it is all beautiful. She is enjoying. She is a born realised child. Rosy, how are you? You must always come and see Me, all right, see Me, I have so many children like you. Have you seen them? Have you seen all of them playing that side. Must go and talk to them. She is the only child you have? You came to Me before also sometime? Yes last week. Yes I saw you, I remember. Is there some new person at the back? There is lady there. Where? Let her come. Jamal, have you brought that Pluto thing with you? I wanted Gavin to publish it, it's interesting to see.

The caterpillars, all the caterpillars will have to go through metamorphosis and how do you do that you know? You have to hang them by their legs and pull it out. Mother laughs. Try, will be good idea.

Come for the first time? You've been before? Got your realisation? Great, then come down, sit down.

What's your name? Kasturi sit down, sit down there. Are you an Indian? Is it? You all look so alike to Me I don't know.

From the name is a beautiful Kasturi you know. The meaning of the word is ah There is a deer in the Himālayas, which has got a navel, which has got an incense in it, the most precious incense is that kasturi and the deer is not aware of the thing, that it is in the navel of Mine and it gets the fragrance, it runs all over the places to find out where the fragrances is coming from, where is it coming from and it is the navel. The same way we do run all over the places, it is in our heart, the spirit is there, the fragrant instead of seeing within ourselves we run all over. Yes, all right good raise it, raise her, raise her.

Good Malcolm, raise it, raise it, go on doing it, put it down and raise it. You see sympathetic, you put it down then you will work on, that's it. Hmm, What about you, how do you find? We must meet one day quietly before I go to *[UNCLEAR* Brisk] and discuss about this project because there is one Doctor Mutalique in WHO, who has admit to look into the thing, to see, how the things are. I don't know how to experiment with this things and what to do so. Let us work it out. He is the Head of the WHO in India. I gave him realisation in the plane and went back and some Sahaja Yogis met him. He is quiet is *[UNCLEAR]* because he has got the reports, *[UNCLEAR]*. He was quiet anxious to do research in this *[UNCLEAR]* but now I am here... *[UNCLEAR]*. We have to find out a way and a method to bring it on the experimental level so that we can talk to these intellectuals and these great scientists.

Contents: 1981-07-19 **Guru Pūjā, Guru Pūrnimā, Chelsham Road, London, UK**

Put your heart into it [Sahaja Yogis singing Jerusalem] and then you must say amen after that.

You see, it shows how William Blake thought of you people; and he represents that hope for England in this poem that I had about you people. As I had told you that: England is the heart; and the heart has to be first of all established, otherwise Sahaja Yoga is not going to be established.

Now the people who live in this country are least believing, I think, in William Blake as you all do.

[UNCLEAR]. [This poem shows] Very clearly what hopes William Blake had. He could see the vision very clearly and he said that England has to become the Jerusalem. In Sanskrit language it's called as teevtha. Teevtha means a pilgrimage place, a place where pilgrims come in. And this indication here, of this poem, which is so beautifully written by William Blake, shows that he saw the vision of Sahaja Yoga prospering in England in this beautiful manner.

But, as it is, this heart is so materially bound. There's so much of materialism that has come into our veins even. And we have to realise that we have to get it out of our mind, out of our body. It has gone into us so much, the materialistic approach towards life, that we have to really take a strong action against it. It's so much that anybody who comes to this country also becomes materialistic. Imagine [the] heart becoming a matter. Think of [the] heart becoming a stone. And today on a day when you are here to worship Me as a Guru. My desire is only one and that is that you all should become Gurus yourself. Now I have struggled for seven years here to build you

up and all the struggle that is described has been done single-handed to begin with and then so many of you joined.

But when you join Me you have to realise that you have to really transform yourself. You have to know that you are, first of all, realised Souls. Which, also, very few people really realise and are aware, I think, that they are realised Souls. They are not the other, mundane, type of people, ordinary people. They are realised Souls.

So as it is they have to get out off this shell in which they have been living. The ideas of securities, that you have had so far, come to you all from materialism if you study yourself correctly.

Everything is trickling down to you that is materialism. How many people read William Blake? How many understand him and how many believe in him? And then how many follow him? He is a lost poet of this country. After getting realisation, unless and until the people of England understand that they have to completely transform themselves into a new awareness of understanding that: you are now realised Souls, you are part and parcel of the whole and you are aware of it.

Firstly, materialism crawls into you in so many ways. Because there has been industrial revolution.

People have created many things. Matter has been comforting you and you got used to matter. You just can't do without it. A small thing say for example, you must have a paper napkin, or you must have a glove. This is the minimum of minimum. But see, how many countries use these things? How many people in the world use these things? It is not needed for the body. By

this over preservation of yourself and by this domination of matter upon yourself, you have really become delicate darlings, absolutely delicate darlings. Like if you go to Himālayas take it. I went to Bhowali and other places like Nainita. They are, all the time, colder than London and there are peaks which are, all the time, covered with snow and the people there never use shoes or socks, never. They take their baths everyday with cold water, every day! You'll be amazed every one of them, they have rosy cheeks, they are not pale, they are healthy people.

Their women folk carry all the wood, all the way up the hill. God has made your body in such a way that it can bear up lots of things. Of course now, suddenly, an Englishman cannot become a Pahadi, means a man living on the hills, that I understand. You cannot suddenly become that. But gradually try to give up certain things that you think so important in life. Try! One day it may pain, second day it may pain.

Because unless and until you make really great effort to get rid of materialistic body and mind, you cannot be alright. And this is the biggest stumbling block for the Western seekers.

You have to get out of that cocoon, as I said. The whole transmutation has to take place. Every time you ask anyone, he's catching still. How can you become Gurus? I mean your Guru can live in whatever conditions, as I told you the other day. Now there are some Indians here, ask them if they can wash their hands in washbasins with the water in it. Ask any Indian. They just can't do it. They

can't use paper only, they just can't live with the paper only. They just can't live like that. Impossible.

I can't think of one Indian who can do that. Even in the poorest conditions in England they cannot do it. They might have lived here for twenty-five years I can assure you, they just can't do it. They can't live without baths. You may tell them a hundred times that “you take your bath once a week” it's impossible.

Two weeks is out of question, they will die. Even if they have got lung cancer they will take.

But you have seen Me, how much I can adjust. Though all My life I've lived in India. I can live under any circumstances, I can live in Indian villages. In any circumstances I can live.

So the other day also I told you and again I tell you, first of all get out you this mala, this filth of materialism. Indians also become materialistic when they come to England. For them money is important, nothing else. They have no time for anything else but for money. It's a fact. Anybody who touches this land becomes money possessed. If you tell them that money's not everything they can't understand, they go mad. Morning till evening they are also running in the rat race.

Now you have to change, you have to come out of it. You have to stand out and see for yourself that you are no more one of these mad people who run after matter. And you leave each and every thing, every particle of it here and die; again you are born, again you are doing the same thing. You have to run away from comfort. You must learn how to overcome your comforts. You must train your body. Little noise here and there. Englishman, I

am saying Englishman because we are in England. Americans are much worse.

Any noise fifty percent would die with any blasting they hear. Just by hearing. They are so sensitive. I mean they have made their bodies, their everything, so sensitive that they are really dainty darlings.

And can you imagine, read the second part of it loudly. Second part of it you just read it. Where is the second part now? Gavin, just read it. Read it out loudly and see for yourself with these dainty darlings how am I going to do this.

Gavin: “Bring me my Bow of burning gold. Bring me my arrows of desire."

Shri Mataji: What is going to happen? You have no answer.

Gavin: “Bring me my spear Oh, clouds unfold. Bring me my chariot of fire."

Shri Mataji: Of fire? You can't sit even on a chariot. [Laughter.] Really! Because it shakes and you have to hold it tight and you have to stand erect with it.

Gavin: “I will not cease from mental fight nor shall my sword sleep in my hand. Till we have built Jerusalem in England's green and pleasant land."

Shri Mataji: I think better give swords into everybody's hand. Let's see how many can hold it straight. You see Sahaja Yoga is not a simple thing like dish washing. It's a very serious thing and on certain things you are very well equipped, but on certain things where you are not equipped, that must be sustained. Your strong points are your strong points so forget about them. Whatever are

your weak points, hit them there. I mean mentally you are very well equipped. If I have to argue with you I will give up. I really can't because you are very knowledgeable people. You have read all the books of the world, you are over read. You are too great. But, as far as your body is concerned, your body is a slave of matter.

In a way your mind is also a slave of matter.

So to understand that we have to be great Gurus, first of all a Guru has to go through a great discipline of self-emancipation, self-emancipation. Great discipline is needed. And the great discipline of self-emancipation is, first of all, we must get rid of the idea of comfort. You can't sit on the chair? Alright.

You can't sit on a particular chair? Sit on that chair everyday till that chair breaks completely. You cannot sit on the ground? Sit on the ground, everyday. You can't live without one thing? Try to do that.

That's how you make your body alright. Make your body your slave and not you the slave of the body.

Because if you have to become the Guru your body should be such that it should just adjust to everything that you want to do, otherwise what's the use? Imagine you have a car which you cannot handle, will you sit in such a car? You will bash yourself and bash others also and that's what you are doing.

One has to realise that: to overcome this material drag upon yourself, you have to work it out on yourself. Then, once you have controlled this, minimum of minimum, that you can sleep anywhere you feel like. Try to sleep on the ground for a while. That you may do for sun tanning

and people cannot resist all this nonsense because these are ideas put into you. They have exploited you. They have told you that: this should be done, that should be done, this is necessary, that is necessary. They have to sell their goods.

Try to sometimes fast. I have prohibited Indians from fasting, because what they do is to fast. At the slightest pretext they fast. I mean, as it is, there is a dearth of food in India, so they fast. What is the need for them to fast? But here it is necessary that people should learn to fast and should not get attracted towards food so much. I mean the attraction towards food, also, is a sign that your senses are just driving you mad, isn't it? Think of it. Now separate yourself from your senses and see how it drives you mad. First of all the body, then the senses we should attack.

The biggest enemy we have is our own tongue. It acts in two ways. One is the taste. The food, taste.

And the second way it attacks is the way we talk. Either we don't talk or when we talk we just hit. We cannot be kind. We cannot be compassionate. We cannot communicate our heart to anyone. Control your tongue. First of all try to control your tongue on those two things. You want to eat a cake then don't eat cake for a year. This is the only way you can train your tongue, I really tell you. Now if you say something harsh all the time, say you have a way of speaking some sort of an abuse, [then] try to change it. Try to change. Try to make your speech a sweet one. Make it a beautiful one, attractive.

You cannot be a Guru in Sahaja Yoga, I can tell you, with a sharp tongue. Those Gurus are finished.

We had Gurus before, they used to just sit with a big stick in the hand. To anybody coming, first they would give twenty-five nice ones. Still if the fellow would stick on, then they would say, “Alright now come closer to me." Then they may slap him twice. If he could bear that, I mean they could go to any limit of torturing their disciples, they would put the disciple upside down, in a well and pull him up and again dip him down, pull him and dip him down, eleven times. And still if he survived then he would help.

They used to take physical test. I mean their disciples had to be really wrestlers, very healthy people, having a lot of resistance and stamina, otherwise they would not take. And they said “Erya gabaliyatze Karma no ahe", “it's not the job for any Dick, Tom and Harry." Thus they would only select one person.

They would make him sit on the thorns or on the nails. Actually there were seats of nails. These people were made to sit on the seats like that. I mean I'm not telling you lies, you can find out. And they used to treat them as if they are on a suicide squad, absolutely like that. The determination had to be like that. Then they would accept them as a disciple, not as a Guru still. Then beating them nicely morning till evening.

You have heard of Mister Ravi Shankar, a great sitarist. I remember My father was a political adviser to the king where his Guru, Allaudin Khan Sahib, used to live. And I remember that day when I was in college and he was also young, might be slightly younger to Me in age, or maybe, I don't know what was his age that time. But he

was studying with this fellow, this Guru of his and we went there.

So My father was a great connoisseur of music and his Guru used to respect My father.

So he asked, that, “Why don't you play?" My father asked, to Ravi Shankar. He said, “Sir please” his eyes came out, he pleaded. He was so frightened! Then his Guru played. You see, he used to play on Mridangam [actually Pakhawaj] that's a kind of double tabla, a double percussion. He was a great genius, then he went away for something.

So Ravi Shankar crawled up to My father. He said, “Sir never ask me, before my Guru, to play. You see?" Then he lifted his hair and showed a big bulge was there. “You see, this I got yesterday for playing one note [wrong]. My sitar was broken and this [bump] I've got instead of the sitar! This is my Guru's Prasad.

So please for heaven's sake." Still he stuck on to him. And you can see the results today he's Ravi Shankar.

But you have a Guru who is a mother. I never hit you, I don't think I have hit anyone of you. You got your realisation. In all My compassion I looked after you. I have given you compassion. I've never asked for anything nor have I complained for anything or grudged for anything. I have been extremely, extremely, extremely patient with you.

So you have to be My prototype. You are a Guru in Sahaja Yoga in this Mahā Yoga, you are not a Guru of this type who can only create one disciple in twenty one thousand years, sort of a thing. You have got the knowledge of Kuṇḍalinī much more than any one of these

Gurus have got. You have the powers much more than any one of these Gurus have. Indiscriminately this power has been given to you.

Now only those who will come up and grow as proper trees will be called as Gurus. And that is why one has to know how to grow properly as a Guru. First of all you must give up all materialistic attitude towards Sahaja Yoga. Many Sahaja Yogis even have an idea that it should be used for certain purposes.

You see, that it should house us, it should give us some place to live in.

Some people have an absurd idea that it should also provide us food, free. That it should not touch, at all, our married life. We can have our plans with our married life the way we like. You can lead absolutely, a very selfish, self-centered married life.

Also some people have an idea that we are not to spend a single pie for Sahaja Yoga but take all the advantages out of it. Such people should never hope to become Gurus. They may try to show off but they'll go down.

You have to learn humility. First of all you have to be humble people. Unless and until you have a large heart you can never humble down. You have to be an extremely humble person. Humility doesn't mean that you bow to a person who is dominating, it never means that. But it means a strength within you. The person who is weak can never be humble. He can never bear the load like this Mother Earth bears our load so well, because she's so great.

You have to be strong enough within yourself to bear the load of your disciples, of people who try to follow you.

Humility should be that: `I was like them, absolutely like them. I was nothing. Without Sahaja Yoga what was I?' I mean you may be the governor of some place; alright, so what? Before God's eyes what are you? Nothing, nobody knows who you are. You may be having cars and anything. You might be a very educated anything. What does it matter in the name [realm] of God? You have known that saints have not been so educated. Christ never went to any university, did he? All these ideas that we have got of our greatness must be absolutely made zero. The greatness is in humility and sweetness.

Speak something that will be dear to others, that would be appealing to them in a proper discriminating diplomatic manner.

Some people in the name of honesty just are sadistic, or useless. You can talk to people nicely, say something, in such a way that they feel attracted towards you. That they feel that there is complete humility, that you accept them as they are because you want to give them.

All kinds of subtler arrogance also develops in people, I have seen. I can't understand how people develop this kind of arrogance. Like, supposing somebody knows how to do the Pūjā, take an XYZ. He becomes so arrogant. If somebody knows some Sanskrit he becomes arrogant. If, say, somebody comes to see Me more often than others, she becomes arrogant.

Somebody manages a hall, he becomes arrogant.

Or somebody programs something, he becomes arrogant. Anything you do, first thing that happens is, in your tongue, you develop a big ego like that. You become a sharp tongued person.

Cut your tongue many a times. Punish it. It has no business to be like that because it is not going to serve the purpose for which it is there. A Guru's vāṇi is so great that every word he speaks is a mantra.

Every sentence he says opens a complete universe. It should be that powerful and that beautiful not to close down anybody's heart. You speak to someone, the other person says, “Oh God never see his face." Sahaja Yoga depends on you more than it depends on Me. You have to change. You have to change yourself very much more. Just by taking up some sort of a role or assuming something great you are not going to progress at all.

Supposing a little bush says, `I am a tree.' Will it become a tree? Supposing it behaves like a tree will it become a tree? It has to become the tree then there is no need to behave, you are a tree. A woman walks like a woman and a man walks like a man. If you behave like a woman will you become a woman? It has to be innate. It has to be within us. If you are a Guru you are a Guru anybody can see and say, “Ah that's a Guru." Then you can do lots of things. We are not willing to give up these things, that's why we go on catching on the same point, catching on the same point. At least those who are here should decide today that we are going to change ourselves completely. Let us start on the changing.

We meet others, we greet others, talk to them. We should be able to talk. There are some people who just don't know how to talk. They just don't talk, they are all the time, never heard their voice. If they telephone I can't even recognize because I've never heard their voices before. You must talk. Open out.

What is there to have fear? Humility doesn't mean fear, it means complete love. You must talk, open out, be interesting.

Try to do something for others. I have been saying this again and again. You have to all become Gurus.

I am just a Mother. And Mother is the first and the last Guru for everyone. That's how I'm your Guru and I'm the Guru of all the Gurus. But you have to become your own Guru. And for that you have to think that you have to hold swords in your hand. Not only to hold swords in your hand, you have teach others to hold the swords. What should be the character of that man who has to guide others? He himself cannot hold the sword in his hand. What is he going to teach to others? You just tell Me that, a simple question. At least you should have that personality that can hold the sword in the hand.

So the first thing one has to know is to absolutely enslave your body and enslave your senses. You can give justification. I know people know how to give justification. “I said this because he said that." It's not that. It is you who do not know that you are harming yourself. Try to get out of it. You are asking but now you have to face, you have to give. This asking is over now, finished. You've got everything. You are not aware you have got everything now within yourself. Just reverse the position and you can give to others. But if you're hankering still, worried about these nonsensical things then nobody is going to respect you.

I would suggest one thing, that: take to detachment. In a way a Sannyāsa absolutely a Sannyāsa. You know I am a Sannyāsī. Though I live in a household and all that, I am

not bothered about things. I am a Sannyāsī, but the day I will announce that I have taken a Sannyāsa people will be much more impressed by Me than they are today.

If a person is over attached to things, attached to money, attached to this, that and all those things, such a person is not going to impress others in spiritual matters. You can be a nice prime minister of England, but you have no place in Sahaja Yoga if you do not have a way of detachment. That doesn't mean that you become hippies by any chance, not at all. But it means that you become detached. Specially it is very important for you to develop that, a detachment. Detach yourself from things that you are supposed to be possessing. I can tell you, you cannot take anything with you. Can you? We know that we are not going to take. Now you are aware of it, that you're not going to take, also. It's not that you are not aware. Then why are you attached? All kinds of disgraceful behaviour ensues when you are attached.

Become a Sannyāsī. It doesn't mean you wear that yellow or red and all kinds of horrible dresses. But from inside you become a Sannyāsī. That's the best way you conquer your void.

The void question first comes because of wrong Guru. Of course, no doubt about it. If you have been to a wrong Guru then the void will be very, very bad no doubt. Because you have followed a wrong Guru you will always have to remember that you have to follow the right Guru, out and out. Absolute full surrendering otherwise it will never go down. And if you start sort of `Yes I know, Mother is alright,' this kind of thing will not work out. You

have to go all out to accept the right Guru if you have a void problem.

And this void problem is so deep, is so deep that, first of all, it indicates Ekādaśha Rudra. Ekādaśha Rudra is a very dangerous thing because it can give you from left to right all kinds of funny things, even cancer, epilepsy, all kinds of diseases.

So those who have been to other Gurus have to go all out to neutralise it on the void part. And for them it is necessary to really decide to become a Sannyāsī. In the sense that, don't get attached to material things too much. Because from these Gurus all kinds of things have come to you.

Some people might have picked up bad things like telling lies. You see, even I've seen people who go to these Gurus can pick up some sort of a horrible intrigue; intriguing nature. Anything they can pick up.

I have seen people who have been to Gurus. They have such horrible spirits in them that, when they come to Sahaja Yoga also, they intrigue with Sahaja Yogis. They intrigue! You see [whether] their bhoots intrigue or they intrigue, God alone knows, but go on intriguing against Sahaja Yoga. They talk to people against Sahaja Yoga they do this, they are not aware. And their void goes out again and again.

So for anyone who has followed any such things, any practices of this kind or even self-meditation or anything like, must get to it and see to it that you really surrender fully to the right Guru. Fully, hundred percent. Complete obedience. Not to judge or not to even ask questions. That would help very much in the void. But I can tell you

spirituality is such great thing that, if you accept that kind of obedience, it fills you up with such powers, tremendous powers. Obedience is the key of becoming the best Guru. If you do not know how to respect, nobody is going to respect you. If you have not been under any command you cannot command anyone.

Surrendering is the best way for void people especially. First of all you must surrender completely, blindly you can say. Just jump into it. Do not reason it out. Complete surrendering. Once you have done that you will be surprised how you'll be so blessed with the powers of a Guru that you'll rise to heights and you will do all that William Blake has said. Because it is like a drop submerging into the ocean and becoming the ocean. And you know the ocean is the Guru, not a drop. It's the ocean and the ocean has everything in it.

So we have to learn from the ocean to be the ocean by becoming the ocean yourself.

I have told you in many ways how it is important that we have to have many Gurus of Sahaja Yoga.

But if Sahaja fails it fails because of Sahaja Yogis not because of Me, always. What I hear, “Mother we went there, there were two Sahaja Yogis they were very rude to us so we would like to talk to you and not to them." It's very common. Or a fight between the two Sahaja Yogis or a misunderstanding or all sorts of things between Sahaja Yogis. You are the reflection of Sahaja Yoga. You are the mirrors, not Me. You have to reflect Sahaja Yoga.

So first of all you have to become good reflectors, the good Gurus.

Now look at these Gurus who move about. They have millions and millions of disciples except that they are crooks of the first order. They have no other qualifications to be Gurus. They have no idea of Kuṇḍalinī they cannot raise Kuṇḍalinī. They are not even holy people leave alone anything else. They don't deserve to enter into any temple of God leave alone His Kingdom. They are from hell and they have mesmerized people and they have got their disciples.

You can also [raise the Kuṇḍalinī], just through your character and through your abilities as Sahaja Yogis, which are tremendous. Even those who are great Gurus in India cannot raise the Kuṇḍalinī the way you can raise. Under their finger? They can't believe it. It's Śhrī Gaṇeśha's powers you have got. Look at the surrendering of Śhrī Gaṇeśha. Look at His surrendering. Completely surrendered to his Mother.

Who is wiser than Him? And in His wisdom He has chosen complete surrender to His Mother. To Him His Mother is Guru, She is Brahmā, Viṣhṇu, Maheśha everything, even Sadāśhiva is Her, His Mother; nothing else. And his power of Kuṇḍalinī raising is within you. You've got it. You are made after his power. He is holiness, he's auspicious, he's innocence. A Guru has to be innocent, has to be an innocent person. His innocence can be crafty. But innocence should be crafty, he should not be crafty. Innocence is the power which works the craftiness. It's the Kṛiṣhṇa Shakti. It does. It works out. Suddenly you face it. You try anything it will be there. And he depends on his powers and not on his own methods of manoeuvreing things.

But how many of you are religiously working it out morning, evening, every moment of life? How many of you are thinking that we are on the path of becoming full edged Gurus of Sahaja Yoga and nothing else. You are nothing else but that. How many of you decide like that? Every moment.

It's very easy just to say, “Oh it's alright I don't believe in it." Then what are you going to do? What are you without Sahaja Yoga? Think of it. You can say, `I don't want to do it.' You'll have to do it. You are in it now. You better do it. You have to do it fast. For heavens sake better do it fast. Achieve it! You have all the powers believe Me, you have all the powers. Believe Me, you are better than all these Gurus put together.

But be humble, do not talk big. And do not become silent bores also. I mean some of them are real silent bores. They cannot be Gurus I can tell you this much. That's another quality. They're absolutely boring people. Nobody wants to stay with them. I mean, you have to have people around to be a Guru, you can't be a Guru of yourself! [Laughter.] If everybody says, “Oh, he's such a boring person” nobody will be there. You have to be interesting.

You have to be interesting. You have to be dynamic. You should know some stories here and there. You have to make them laugh. They should enjoy you. This is Sahaja Yoga Guru-ship. You see for such boring Gurus one or two would stick on if they are equally boring or more boring. But such Gurus are not going to help us in Sahaja Yoga. They are not. You have to be joyous, cheerful, helpful, understanding, concerned.

You have to be concerned about others. You have to behave in a way that they feel that you are the security for them. But that doesn't mean that you get after one person. You see, everything you tell them goes into some sort of a mad mould, I don't know how it happens, whatever I say.

For example, I say you should be concerned. Here I find that people start then, “Alright I am concerned." So they start working on a person. And then they'll come, “Mother my left hand is finished.

Why? I was working on such a person." Why? What was the need? You need not. That's not your job.

Let them also work. You must know how to make them work also. Otherwise, you see these lazy lumps will use you all the time.

Let them also, tell them to get up and work, arise. Why can't they work it out? They can work it out themselves. But then don't tell them, `Now you work it out.' Not like that. Then another extreme can start. You should say, `Now see, you have a left side problem and I don't think that you should make me work it out. I think you can work it out, let's see. I too had the same time type, let's work it out. You better put your left hand towards the photograph, put right hand outside. Do this way that way. Beat yourself. Left side is Ādi Shakti's this thing. You can ask for Mahākālī's powers it can be worked out.' Give him all the knowledge say, `Now try, try yourself.' Because if you're obliging too much also, then you make them dwarfs, you see.

You have to be a tree which makes others grow into trees and not to make them dwarfs under it. You see, no grass

can even grow under such trees, leave alone trees. Even the grass can't grow if the trees are of this type.

So you should be actually the tree of brilliance, of sun, sun's rays. From you the sun's rays should flow and they should grow. Not to obstruct every growth of your disciples. What sort of a Guru could he be, whose disciples are all toddlers or still sucking their thumbs? So you should be a Guru of a calibre that makes others grow too.

I have hopes that My disciples will grow more than I am. I have hopes we'll see that. That's My desire, that's what I want, that My disciples should grow. I mean, that will be My pride. Like Gaṇeśha grew more than His own Mother, who created Him. That's what is My desire. And that's what I want you to realise that you are the hope of the world.

Either you should not have taken birth in England. If you have taken, you have more responsibility not to be English and to be universal, because you have taken birth in the heart of the universe. You cannot be small-minded. You cannot be chicken hearted. Either you are frightened or you are aggressive, this is an impossible situation. You have to be so strong that nothing should make you frightened and such a person is the most benevolent personality. He's not frightened of anyone, why should he harm anyone? Today I hope you people really don't listen to My lecture but put it in your heart and understand that you have to become very dignified majestic Gurus of this universe. I would like to ask William Blake what is he doing. When is he going to take his birth on this earth? When people of his calibre are

going to be born in this country, or they are all running away again to some other place to be born? Marriage system of England is wretched. You cannot adopt those methods that these people are having.

You want to have the great people to be born to you and every time you are running towards the divorce cases. How can they be born in this country? You have to give up all these wretched systems of this country. The good of this country should be taken, whatever is good in it and transform this country into a beautiful thing. I mean if you really love this country then create it into a lovable place, isn't it? You must try to destroy all that is retarding the progress, the spiritual progress of this country if you are a real Englishman. Real is the word. You should not be proud of all the weaknesses that have crawled up in all these hills and dales. All unholy thoughts, all inauspicious behaviours, all must be discarded. We are not that.

***Contents: 1981-07-20*, Public Program, Spreading Sahaja Yoga, Caxton Hall, London, UK**

There are some guests from Hong Kong now let them sit down.

Sahaja Yoga is such a fantastic thing that when people get their realisation, they can't even believe that they have got it, first of all. The other day I had a Minister from one of the countries and his wife and he's suffering from some mental trouble. And when we raised his Kuṇḍalinī he started feeling a tremendous Cool Breeze in the hand and Cool Breeze coming out of his head. He just couldn't believe his eyes! He couldn't believe it. He said,

“What's all this?" I said, “How are you feeling?" He said, “I am so relaxed that I can't think of anything. Just I can't think. I have never been like this. This is a new thing that has happened to me!" Now we have to understand also logically, certain things about Sahaja Yog. This I am explaining for people, those who will be now going out and speaking about Sahaja Yoga to other people and how to deal with people who are intellectuals, is important to understand: what are the hurdles they have by which they do not want to receive the message of Sahaja Yoga and what are the barriers that really create a problem for them before and after.

Now we'll deal with people who are Western people, we can say. They can be also Indians, they can be Asians, they can be anybody but who are more of a Western mind than of the Eastern mind.

So the first thing that we'll confront is that we'll have a mixture of people who will come to you. There'll be people who will be seekers, ardent seekers and there will be people who have been hurt and mesmerized by some Gurus or something, some sort of a spiritualist and this and that. We will get fanatics also, who might be seekers themselves. And there could be some people who could be absolutely fake also, because it's a fashion these days.

In a party you go, I mean, I live with people who are supposed to be very elite and mix up with them and whenever they talk, I find they talk of seeking. Surprising! You see, they'll be taking wines and alcohols, this and that and [when] it comes to politics then they will say, “Oh, but there has to be some sort of a Self-

realisation about it." Or they will say, “We have to understand it rather deeply from a Divine point of view." Or some sort of a thing they will hint at.

So they are thinking of some breakthrough that has to take place. I mean, it is coming to them, maybe through their unconscious, maybe through their logic, they are arriving at a conclusion that something has to happen and we are still confused because we haven't found the absolute.

But despite that, among them I find, as it is the topic of the day, sort of a thing among people, luckily it is the topic. Any, I mean even if they talk of economics it comes to that. Then, among them, how many of them are really the seekers or they are just doing it because everybody is talking of fashions and things. Like, you see, I have never been to a racecourse, for example and then everybody is talking about racecourse, so you feel so out of place and backward. You look so backward in that society, so you just go and read something about it and discuss with others and say, “Oh alright, this I know. I know one jockey.

I know this, that” just to impress others. That also kind of people are existing.

Of course these people live day to day, they are not going to come to Sahaja Yoga so easily. They live on day to day basis, you see, “Today we had this party, went to that party, came out and enjoyed this, met this gentleman, I know this man, that man..." all sorts of things goes on. And I think they finish their lives in this day to day basis, wages that they get out of life, they finish. They don't think of the beyond, they don't think

that there's something else more to their lives and that thinking is not there. But just as a fashion they may talk about these things.

Of course among them there are seekers no doubt, [among] them also there are seekers. But seekers are mostly not very successful people, because they do not find success so alluring, so tempting, so magnetic.

To them it's quite vivid and quite clear-cut that those who are supposed to be very successful in life, in any field, say in money matters or say in politics or anywhere, they find that they are rather eccentric, if not eccentric, they are a bit dominating, or sometimes they find that they are very ambitious and that they little bit try to put down others by their eminence or whatever success they have got.

So all these things come into the mind of a seeker who doesn't try much for his material success or doesn't talk much for his also intellectual success. He may read a lot just to find out what is the Truth.

That's a different sort of a seeking. That's not material seeking. But that's what so many Sahaja Yogis who have been here have done also, that they have read too much.

So you confront such people, a mixture of such people together. But you have to be prepared for every type. Because God has made this World with very care. But lots of variations, permutations and combinations are there. As I told you last time, there are three permutations and combinations.

The first is the power of desire which is on the left hand side. Second is the power of Action or willpower you can

say, which is on the right hand side. And the central one is the evolutionary one, third one.

So we have these powers and these three create three moods. The first one is called as Tamo Guṇa, right one is Rajo Gun.

a and the middle one as the Sattva Guṇa.

So the combinations and permutations of these three Guṇas create different human beings. And accordingly their styles are and their seekings are. And accordingly they fall a trap to people who try to seduce them.

Now the people on the left hand side are more addicted to habits. Like if they take to alcohol, they'll become alcoholics. If they take to smoking, they'll become chimneys, or [that] sort of thing. And they go to the extremes of the left and their willpower which is a right side [power], goes on, the will, you see, starts going down very much and they cannot overpower their desires, their, these habits. The habits become desires, you see. Then to add to that also when they see that, by doing action people have brought forth wars. This is superintellectual way of looking at life, you see, that, what have we done? We have created atom bomb by thinking. We have killed so many people. We have done this, we have done that.

All wrong things we have done by taking action.

So it's better to go into inaction, absolutely inaction.

So when they think of these things and why this materialist world and all this creation and all that we have done. Because of that we have aggressed other countries.

So better go into inaction.

Such people become prone to the left hand side more. Then they take to drugs and things. And also alcohol goes hand in hand with too much use of willpower because if you use too much of willpower, you get so frightened of your ego and your action that you want to relax on to the left hand side. Now the habit formation takes place, maybe, from very childhood and then the willpower is diminishing gradually when that habit becomes sort of a part and parcel of your being.

Like you see in the Western modern society, to flirt is a habit. Flirting is definitely a habit. It's not a question of, it's not an innate need of a person. It is just a habit that is formed. And in a society when it is accepted that, “Oh, it's nice to impress men and nice to impress women” you see it becomes a sort of a pastime for many people and even when they are grown up, they cannot get rid of it. Even if they are old, up to the grave time, they go about with it, you see. They just can't get out of it because it becomes such a habit and obsession and the society also supports it, you see.

So the whole thing starts becoming a habit and you become so weak with it that you just cannot do it with your willpower even if you try, you justify it, “Oh, I enjoy it!" Like a lady who had cancer. I was treating her and I said, “You may have to give up your alcohol." She said, “But I like my sherry, at least." I said, “Now what to do?" She likes means everything is justified. “I enjoy my whisky” she said.

So I said, “Now what am I to do?" I mean, she'll have to enjoy her cancer also.

But we enjoy the thing that brings you disease, but not the disease. And if we understand it clearly that these habits give us problems which are most agonizing, most troublesome, they give you such bad effects in later lives that you rather have no habits and enjoy your life than to have these so-called enjoyable habits.

Now people might say, “What happens with flirting?" You might say. It's a very simple question you see. You'll be surprised those people who flirt too much lose their memory very fast, their memory will be lost. Because your attention is moving all the time, your eyes are moving, you know the Swādhiṣhṭhāna Chakra works so much. Your memory will be very weak. Apart from that, your attention will be very weak, too, your concentration will be very weak and you will age very fast because when you are using your eyes for a habit, your eyes for the habit, imagine! I mean, nobody could think of that but Christ must have seen it. That's why He said, “Thou shall not have adulterous eyes." He must have seen that part.

So when you start using your eyes, you see, for something that is desire, to that extent, I mean, I don't know if any desire is fulfilled or not, because I don't know what it gives you, or gives anyone. It's not easy to understand. But whatever it is, if it is used for a purpose which is not going to fail. For example, supposing I use this glass for something like making a light out of it or something, it will break. It is not supposed to do that.

So if you start using something for a purpose for which it is not meant, your attention can become very weak. Because your eyes are meant to see. And after your

realisation, your eyes are to witness. They give you the witness state. After realisation, with your eyes you just witness, the complete witnessing. Like now I witness you people. Just I am witnessing you, nothing [else]. I don't want anything from you, only I am witnessing as you are, all of you. And what I am witnessing, is the beauty that you have, is what you are created as, I am just seeing that. And the complete joy that is you, which the Creator had in creating you, is absolutely one with Me. I'm just witnessing that, seeing you. Nothing more or nothing less.

Now when, supposing, I use My eyes for looking at a person with the idea of possessing it, possessing a person, which I cannot. I cannot possess anything, you know. I mean for all, for all rational people must understand you cannot possess anything. Now I want to possess a person and you look at a person with the idea of possessing. By looking at a person I don't know how you can possess when even binding a person, you cannot possess, when you die you have to leave everyone here.

So this kind of a game when it goes on, your attention becomes very, very low. And I have seen people have such horrible memories that one person rang Me up, talked to Me for half an hour and asked Me, “What should I do for the memory?" So I said, “Alright, you put your right side on the left hand side, try to control it, do this and do that." He lost his memory not because of that but because of Haṭha Yoga that he did [laughing]. I mean there are so many ways by which you can really lose your memory but one of them is definitely this.

So I told him, “You put your right to the left all the time and try to balance it." When we put right to the left what we do? We put our willpower on our habits.

So again he rang Me up.

So I asked, somebody was there, I said now, “Please, I talked to him for half an hour and I am really tired now, can you ask him what is it, what does he want." So he said, “No I, because I forgot everything whatever Mātājī told me." I said, “Again half an hour more?" [Laughing.] I said, “Next time you put a tape recorder when I talk to you, will be a better idea." So this is what happens.

And at a very early age also people can start. One of the reasons I am saying. It doesn't mean that everybody who loses memory, loses because of this. But one of the most important things is that, to keep yourself normal, try to avoid any habits that are forming, by denying something, it's the best way. There is a very good poet, very well known poet in India who has written a nice couplet which I liked. He says that, “Whatever this heart wants to see, you better not see." You see, better deny it. Because if it does again and again that means there is some sort of a spirit or some sort of a nonsense that is pulling you out.

So, any habit, any habit or any addiction, say you are addicted to anything. Supposing you are addicted, say, to a piece of jewelry you have, never wear it. Still you feel like wearing it too much, donate it, give it to somebody. Because there is nothing so important than your Self. But you will be surprised when you start denying it, playing with your mind, playing with your desires, whatever you want to have, you say, “Alright, we'll have it” and just don't have it. For example you are going to a restaurant.

You want to eat something. I don't know what you people like. But say you want to eat something special, anything, I don't know the names so much, there you go and you just end up with a bread, finished! You have to play with yourself after realisation. And it breaks then the link of that addiction that is one of the very subtle conditions we have within ourselves.

So today, as I am talking to you about the seekers who come to you, they have habits. They have habits. Say, we had six people who were drug addicts. I used to call them druggists and chemists, you see.

First they could not even see Me, they said they just see light coming out of Me because their Āgñyā was spoiled so they couldn't see anything and all sorts of things happened with them. Then some of them felt that their body is going out of... their soul is coming out and the body is left there, they are seeing Me from there. And all sorts of things, all experiences they have had with all kinds of drugs they had taken, you see. They had taken the left-sided, the right-sided, oh, everything they had tried, you see. Now to talk about drug was really blasphemous! I just couldn't talk to them in the beginning. If I had said anything they would have really shut Me out.

So you never, the person who has to tell to them, should never directly come on that point that, “Don't take drugs!" That's one thing one has to remember that, when such people approach you, you should never start talking against that. I mean you'll be boxed for nothing at all and all Sahaja Yoga will go down.

So for a druggist, supposing he comes to you, what should we do? What should we do to help, you see? So we should start talking like this, that, `I was also a druggist,' even if you are not, you may say that. There is no harm in telling them, because if you do that way you smooth the way. There is no harm in telling little lies just to bring them up to the Truth, you see. You have to stoop down, is to say that, `I was a druggist.' Or you can say, `My father was a druggist,' or somebody nearest to you, whom you know, so that they do not get angry with you, you see. Because they are seekers, the trouble is, they are seekers.

These habits have come to them because they were seeking and they went deep down into that seeking.

In that seeking they took to drugs and that's how they have become drug addicts.

So now they are not normal people and if you just talk to them in a normal way, as you would talk to a normal person, you can never save them. Now you are here out to save them.

So the best thing is to talk to them in such a manner, that they try to understand you. First you identify yourself with them, you stoop down to their style of life and then talk to them. That's a very good way of really bringing them nearer you and a very compassionate way of approaching. Or you can say a Mother has to give the castor oil then she gives it in a chocolate.

So approach that way. You'll be amazed, you can overcome their habits. Because Kuṇḍalinī when She rises, She herself corrects them. They start feeling terrible pain and left side and then they feel completely their left side,

no vibrations coming out and all sorts of things they feel. And they start understanding it also and Kuṇḍalinī herself goes and clears them out, makes them happy, so that they do not take to these things. Because a person when he's bored, when he has more time to think about other things, he takes to these things.

So there is no time because you become timeless, you go beyond time with realisation.

That's how you can overcome the left side. Also you can raise your right side and put it to the left side.

By raising the right side is, you are raising your willpower and give it to them. But if you tell somebody, who is a drunkard, “You must have your willpower. You must have your willpower." He said, “Yes, yes, I promise, I promise, I promise." Next day he comes there. “Eāah” “How are you?" then again finished! All promises are broken in five minutes as soon as he sees a bottle. That means all these promises are not supported by his willpower.

So no use taking promises from him. Instead of that, try to raise his right side. If you raise his right side and put it to the left side, so the willpower takes over and can help that person to overpower his desire. Because he is a seeker and he deserves all that attention, all that care, all that minute method of helping him out, even if he does not get realisation.

You know so many people who have been alcoholics have been completely cured by Sahaja Yoga.

So for all such people you have to have patience and no anger for them at all because they themselves are in a pitiable state. Imagine of a person, who is alcoholic on the street. Just think of such a person who is just on the

street thrown by all his people outside. With these people, if you try to be harsh with them, they'll never give up. But do not sympathize with them that, `Whatever you are doing, alright, alright, go ahead with it.' But in your own Sahaja Yoga method, if you can raise the right to the left, the superego goes down and the ego comes up. When it comes to the center, raise the Kuṇḍalinī and the Kuṇḍalinī will come up and I am sure he can overcome that.

But for this you have to have patience, you have to do it again and again. Now this we have been confronting many a times. But the whole approach should be of tremendous patience, as I said, of tremendous concern about them. These people have gone to that extreme also because nobody has any concern. After a certain limit, people just give them up. That's how they are lost.

Now the people who are from lunatic asylum, say: for example we get people directly from lunatic asylum, certified mad. Imagine! To our programs we get. And what do we do with these mad people? We can get angry and ask them to get out, but they are seekers. This is your duty to see that they get realisation. It's very important that they should get realisation, they should not be lost. It's very simple to cure them, is to put their willpower over their desires or over their left side. It's the left side drag that has taken them to this lunatic state.

Maybe a person who is emotionally very disturbed from childhood, he has a left side problem. Like he had no mother, or the mother was very severe or a stepmother. And all the left side problems as you understand are there. Or he has had a very bad time with his wife. Or he

had an emotional problems, he suffered a lot. All such people you see, sort of, resign in life and they become that kind and they become mad. When they cannot bear it more, they become mad, because it's an escape, it's an arrangement made by nature itself, so that you do not face it. When you are mad, you don't know what's happening, you are not aware of it. Imagine to be mad and to be aware, what a problem it will be. That's why nature does for them. And our only duty is to raise their right side and put it to the left side and raise their Kuṇḍalinī, which gives them the realisation by which the vital energy start flowing into him and he can feel alright.

This is a very, very important thing which can be done.

Now a person who is more ego-oriented, we should find out what sort we are, you can help such people much more than a person who himself is a left handed, because two crying babies will sit down and cry. But an ego-oriented person has a system built in within himself that he dominates.

So he has to learn how to put his right [side] down and his left up.

So the left side should be raised of a person who is ego-oriented.

Now let us see the ego-oriented person, what happens to an ego-oriented man. Ego-oriented man develops this habit, supposing from the childhood he is intelligent, he's sharp, born like that. Then the people put them up, “You have to run the race. You have to run the race. You have to compete in the race. Stand up, stand first, stand first. You must out-beat that. You must out-beat that." All this competitive life starts. Then he gets into that mad rat

race, as you call it. Then he becomes successful, so-called successful. Because of his action also ego develops. Action itself gives a by-product that, “I have done this. I have done this. I have decorated this. I have built this Caxton Hall." All sorts of things can come into his head.

Once it starts building up, `I, I, I, I,' this `I' becomes a big balloon on the head and it covers the whole head. I don't mind if it covers only the head part of it. But it also covers the heart. And it makes a person absolutely, can make, absolutely emotionless, the example is Hitler. Absolutely emotionless. There's no feeling left in such a person, if he goes too far with it. Then he can kill, he can say... he can live by hurting others all the time. Such people all the time hurt. They cannot enjoy other people. They cannot be fond of them. They cannot love, in short.

This ego business makes you extremely dry. And everything becomes either money, power, this, that, I mean it's so dry, everything is dry, you see. `I'll marry a girl who is a Princess” supposing somebody says, then you know that ego orientation is there. With this kind of ego orientation, we have had all kinds of wars and all kinds of problems. And ego is added up in a society which is very competitive. I mean there is competition about how you look, how you appear. There are advertisements that, if you smoke a cigar, you see, then you can impress others. Imagine! Madness! I don't know if you smoke a cigar how it impresses. But this is all built in, you know, the whole society has put this into your heads that if you have a cigar in the mouth, you are going in a Mercedes car or you are going in a big this

thing, Rolls-Royce, then there is prestige. But rationally, let's see, logically, supposing somebody has a Rolls-Royce. What does it matter? He is not going to give us. Why should we be impressed? If he is going to give us then naturally we'll be impressed, alright. But nobody shares anything, you see. They try to impress us by what, for what. Why should we be impressed? After all we are not going to get anything out of it. I mean, he is nicely going Rolls-Royce, you are walking down, so why should we feel impressed by it? I just don't understand. But an ego-oriented person always gets impressed by such things. Because they have that slight ego in them and sort of, they see themselves sitting in the same place or whatever it is. I don't know how it works out. I have not experienced that kind of a thing. But it impresses people.

Like I remember once, you see, we had a governor in a place where we were living, when I was a small child, you see.

So we were going to see the governor because he was a great friend of My father and all that and he always used to walk across and they used to go for a walk. Otherwise also I know him very well. But some people said to My father, some friends of Mine, “We want to see the Governor." He said, “Alright." He said, “We want to invite him” “So alright", he said, “we'll take them." My father was describing, you know My father was a great realised Soul and he described them, he said, “They were so self-conscious that I couldn't help laughing, you see. They were young people and they were so self-conscious. They were going to the Governor. All the time they were

putting their ties alright, their coats alright and all the time they were walking like something. They were never like that, you see." And he said, “I was, I didn't know what to do and I was just feeling that I should tell them that there is nothing, it is to be very much relaxed." And all of them actually started stammering before and they were such hooligans, I tell you, normally and it was surprising that they just, for nothing at all and he was such a simple man.

This Governor was such a simple man and they all started stammering and shaking and all sorts of things happened.

So My father came and described it to Me and we both laughed a lot. And he said, “I don't know what made them think about because he was in a simple dress, he was meet... he met them very informally and he wanted to be friendly but they were so nervous that he didn't know what to do with them. Except that they were conscious that they were meeting such and such person, there was nothing to remind them of that." So it happens if you are ego-oriented, if you see somebody who is ego-oriented, you get impressed, is a character.

As the person who is superego-oriented [when] he meets another superego, they just combine and they cry together, “Oh, the world is miserable. And we are the two most miserable people crucified by this world” you see. And the others, they get impressed by each other, you see. This one will praise that and that one will like these people, because he can impress, you see. And there is some mutual admiration society there, they start a mutual admiration society. And that's how the ego starts

bloating more and more and more and more. These are all the thing's attributes which are extremely artificial, I tell you, they are all man created. Human beings created, so artificial just like plastic we can say.

A dog, if he wins a race, he doesn't walk with a special snooty nose, does he? If he wins the race, he is not even aware why he is made such ado. He just walks like a simple doggy as he is. If he sees another dog, he'll bark at the dog. [Laughter.] He doesn't have all this special etiquette at that time that, “I have won the race. I am first class first” or something. He doesn't feel [like that]. It's very unnatural but we have made it, because you see, it has come to us because of these three permutations and combinations within us which makes us like that.

But the people who are in the center are not so much impressed also by these things, not to that extent.

Neither they are very much impressed by this, nor they are, they are little indifferent type. Neither they go into people who are crying too much. They just don't understand what is there so much to cry for a small thing like that. Like a gentleman was transferred once. And I went to his house [which was] very unlucky [for me], that day. I mean, I didn't know how I went there, for I didn't know that he was transferred and his wife was telling Me about the transfer, as if her hundred relations must have died, the way she was crying about her transfer! I got such a fright! And by that time, I was much younger to her at that time, but by that time My husband and I must have had at least fourteen transfers and they had, at the end of their life, one transfer and they were so much

crying! I was amazed at that woman! That, what is there? Changing your house? I mean you meet somebody before changing the house, you'll die, they'll bore you stiff about the changing of the house. You'll feel like changing yourself completely the way they will talk about it. Because, you see, little things, they make such an ado and a drama out of it and you feel, “Oh God! What is it?" And what do you find out? Nothing.

These people are very fussy, they show off. It's very embarrassing to take them to any doctor also. If you take them to a doctor, be careful, keep out! Because they can do anything I mean. I had a very funny, embarrassing experience. I took once, one of My relations to a doctor. And she was this type. And he was just taking her blood pressure, you see and she started screaming at the top of her voice, you know, so much that I didn't know, I told her that it doesn't pain, I know it's [not]. “Oh, you don't know what's happening to me!" she was screaming at the top [of her voice], with fear you know, they live with fear all the time. The slightest thing upsets them.

So both the things are unnatural. There are many people nowadays are talking of insecurities, which is very common with the psychologists coming in with their new vocabularies and new ideas that they are putting on us. As it is we are unnatural. Now with these people coming on us, I don't know what we're going to become! Like she should have this security, she should have that security, she should have mental security. That's why she does it. For example, I asked why people, women, are not looking after their chastity, that's very important. That is the security of a woman. Why the men are not looking after

their virtues? Because that is the security of man. I mean that's the natural security you have. “Oh, maybe she has a mental insecurity, so she is going into unchaste life” I mean, who told you that? What is the mental insecurity? You have got financial security. Even poor people, who are morally advanced, they would not give up their chastity for anything. Never! At any cost. They'll kill themselves but never give up their, they'll never give up their virtues at any cost. They may be poor. And this is what happens to us. That the ideas come to us, we start compromising and having new values and new things. The innate and absolute values will remain the same, remain the same. And we have to achieve that and attain to that. We have to re-establish ourselves to that.

After coming to Sahaja Yoga, people tell Me, “Mother, if you want money we'll give you. Take two thousands pounds from us." Many Indians told Me that, “But we have no time, we are busy working” you see. Alright, they have no time. They'll give Me two thousand pounds. What will I do with two thousand pounds? What am I to do? You go to another class of people, they'll say, “See, we can join Sahaja Yoga alright, but we cannot give up women, we cannot give up drinking. We cannot give up anything. If you want to have us in Sahaja Yoga, then we are willing to join." What do I do with them? It's very common.

You have to transform. It's a transmutation that has to take place. Sahaja Yoga is not for sale, nor for having people just come along, come along, come along, come along, to have a big grand people here, all drunkards and all addicts and this and that? We have to create beautiful

people, something so special that who can enter into the Kingdom of God. There's no compromise with God! There is no compromise with Divine! You cannot compromise! How can I say that you can do this? You cannot compromise! At the most, He forgives us. Because we have been ignorant, we have been innocent, we did not know that, this was sinful, we did something, He forgives us. He forgives our sins, alright. Christ had died for us. When He is awakened, he sucks our sins. But we go on with it, we want to continue with it, despite the fact God has given us strength now. His Spirit is emitting through us. Despite the fact we are realised Souls, we are giving realisation to others. How can we continue? We have to fight it! Like William Blake has said that, “You have to do this and you have to do that." I mean, he must have thought of such people, but he does not know how much people have gone down either to the left or to the right.

So this is what Sahaja Yoga is and that's why to come to Sahaja Yoga is a simple thing. To get realisation is even simpler because Mother loves you very much but to maintain it and to progress in it is rather difficult. Because I am not asking you to go to Himālayas after realisation, settle down there, don't meet anybody, don't talk to anyone. You have to live in this world, with all its defects and with all its problems and to pull it out, out of its Satanic forces, out of its doOm You are not to run away from it.

So, you have to equip yourself with that wisdom, with that courage. Without courage, you cannot do Sahaja Yoga. Those who have no courage, cannot do Sahaja Yoga. It's a waste of time, sometimes I feel. It's a very big

aw with Me, that I really want to give realisation to everyone and they falter after some time.

So many people have been helped in Sahaja Yoga, alright, it is for your help. First you are enlightened.

A light is created. But light is not created to put under the table. You have to show light to others. A day will come when you will be the lighthouses, saving ships after ships and loads and loads of people.

That should happen to you. Why should it not? Because innately you are that beautiful store of energy.

Innately you are that great creation of God, which is above all the creations.

So it should happen to all of us. And this is the hope I have and I hope I will have this hope all through and you are not going to fail Me in this.

The Nature is working it out, your Kuṇḍalinī is working it out but you have to also work it out. Have patience with yourself, work it out, put yourself in proper places. Adorn your seats, we can say, or as they say, the throne of your Spirit, adorn it. And that would definitely help you so that you can help the Divine and fulfil whatever is required of you.

May God bless you.

Have you got that poem of William Blake? I think we all should remember it by heart. Have you got, anyone of you? Anyone who knows by heart, can recite it. Have you got Gavin? Come here. They know by heart? Alright, let's do that. But all of you should know. Come along.

[Sahaja Yogis sing `Jerusalem' by William Blake.] And this we have to do in that time, time is very short. Now put your hands towards Me and close your eyes.

So, today I have said three words, if you remember, is patience, or you can say compassion. That I said that you must have patience with yourself and patience with others. Then the courage. Courage is very important, without courage, you cannot do Sahaja Yoga. And the third is wisdom, which gives you discrimination, discreet behaviour. These three things. You have to ask for these three things from the Divine so that you are helped.

Put your both the hands straight towards Me, straight like this, just like this. And loose, little loose, no pressure. Put both the feet like this. That's good.

Yes and open the windows that side. It's alright. Good.

Now those who have come for the first time, you have to see if you feel any Cool Breeze in the hand.

Just see, if you are feeling any Cool Breeze in the hand. Now you cannot think about it. You cannot make it come. It has to work out.

So if you start feeling any Cool Breeze in the hand, just watch. It is a happening. It's an actualisation of your baptism. You cannot just say it is so, it has to work out. It will suddenly shoot off.

First, you will feel there is no thought in the mind. She's got it. Give her into bandhan. Can you just see this.

Sahaja Yogis who are sitting next to behind a new person, put your hands and see if they are, there's vibrations or not. All of you should take a bandhan, will

help, first of all. All of you should religiously take a bandhan.

Contents: 1981-07-26 **Quotes from a Media Interview with Graeme Johnson published on this date in a newspaper, UK**

Kuṇḍalinī is a pure desire within us which manifests when the desire to be united with the Spirit is established.

..... the subject feels pervaded by total silence and exquisitely well.

He is absolutely aware but without thoughts and he feels in his hands a kind of wind of vibrations.

The experience can be very weak or very powerful, depending on the conditions of the inner mechanism of the subject at the time of the experience.

Christ had to go through crucifixion to achieve a State by which human beings achieve their blessings.

Christ at his time was everything.

In My time I am everything, but My achievements are different.

Mass awakening was not his job.

Australia, for example, has never invaded anybody.

Contents: 1981-08-02 **Pūjā, Open your Heart, `Keeping Your Heart Open' Seminar, House of Felicity, Mill Farm, Sherbourne, Dorset, UK**

What a beautiful place we are all in.

It's a real blessing of Sahaja Yoga for all of you to relax, relax well. Because in relaxation only you realise that, we are now realised Souls. That we have entered into the

kingdom of heaven. That we can see the beauty what God has created around us. That we have become sensitive to His grace and to His kindness and to His love. It's a seminar that you have arranged and I'm very happy. I always wanted you to arrange seminars and that you all should meet together and live together and understand each other.

The seminars on the gross level they work out many things no doubt. But on subtler levels, seminars of the Sahaja Yogis means a lot. It means that a strong nucleus is being consolidated in various places in a country. And these strongholds or we can say the strong nucleus which is created like this, can form a mechanism by which beams of strong vibrations could flow or could be thrown all over the places. It's a very great task to build up these mechanisms, these Divine mechanisms in different parts of your country.

For example Mother Earth has done Her job. Wherever it was possible for Her, She has created living deities to show that God exists. That you can now test their vibrations and see for yourself how She has worked very hard. She has created all this beautiful universe. She has created you also. She has created the Kuṇḍalinī within you. She represents the beautiful nature we can say. In Her company, in Her bounties when you are drenched and you all meet each other, you see for yourself that how She blesses all of you just the same. There is no difference between you and any other person for Her. But those who are sensitive, are subtler people, enjoy Her much more than you people do.

Now the problem that exists in every country has its own style I have seen. And as in this country also we have a style of problems which comes. Gradually it's changing its form. In the beginning I found that people were overaggressive, skeptical and also could be rude also sometimes. It's all right. Makes no difference to Me. Now gradually they started changing over. Now they are becoming aware of what they have got, what role they are playing, how important it is to be an Englishman. And when I say English I mean all the English people, not Wales or anything different and how they have to become part and parcel of the heart of the universe. I wondered how many of you really realise how important it is to be an Englishman. That everything that happens in this country circulates. For example if this royal wedding [of the Prince of Wales with Lady Diana, who was a realised Soul] had taken place in any other royal family it would not have circulated so much. Everything circulates from this country. Maybe you may not think much of yourself. You may think that what is so great after all is England is like any other country. But you see why people accept so many things from you? Like even a monarchy, I mean most of the countries have thrown away their monarchies. And in this country it exists and it has a respectable position. And the symbol of a monarchy is still lingering here in a very proud way.

Then the marriage itself. The marriages of royal families are always detested and protested and nobody is interested. And such a auspicious thing should take place here and that everybody should see it.

So many countries should watch it and appreciate it and enjoy it of all the things. It's something surprising.

It transcends all rationality, all understanding of even logic we can say that what is the logic behind it? But if you are enjoying it you just enjoy. You don't want to think about it why you are enjoying.

So one has to understand that you are part and parcel of the heart of the universe. One thing is essential that you have to be very flexible people. You have to have the flexibility of the heart sense we can say. Now heart has to pump. It has to be strong. And surprisingly lion is your emblem.

So you have to have a lion's heart. And lion's heart means he is not afraid. He is the king. He knows he's the king and he lives like a king. Like a lion and Leo as in astrology or if you say is a man who is extremely generous, lion hearted, not afraid of anyone. There should be no fear. But English language if you read anyone or if you listen to anyone, every third sentence he'll come with the word, “I'm afraid. I'm afraid to say, I'm afraid this is so.".. This word must be dropped out from the vocabulary of Sahaja Yogis. What is there to be afraid of? Some people say that this is said because we do not want to hurt other people. There are so many other ways of saying things without hurting others. But what is there to be afraid of? A man who is weak cannot love. Only a strong person can love. If you talk of love first of all see whether you are strong enough to love or not. Loving is not a easy thing, even carnal love, even loving your beloved of in the ordinary sense. It's not a easy thing. You have to have a very strong moral

concept, otherwise every third minute people start changing their loves. That kind of a love has no meaning. You have to have a very firm ideas. Not only ideas in your brain but built within you. Very few people can really have a love as Romeo had, I can tell you this. It's easy to think that you are a Romeo, it's different.

You can think you are you are the King of England, it's all right. But you don't become that way.

So to be Romeo itself you have to have a tremendous character. A tremendous sense of sacrifice and love and understanding of what you want. You want to love, that's all nothing beyond or before. I mean a man when he falls in love he falls in love forever and ever and ever. If he falls in love many a times it cannot be love.

So that experience also is sort of is a forbidden fruit for most of them.

So to love God is even more difficult, without seeing Him, without knowing Him, without knowing His bounties, without getting realisation. It is very difficult. But today that is not the case. But still you have to have no fear in your mind, trust, you trust yourself and trust others. First of all try to trust yourself. If you have made mistakes, you have to say, `Yes, I have made mistakes, all right.

So what?' Trust yourself that you can correct yourself also. Trusting doesn't mean blind ego trip. It does not mean that. Trust means that `Yes I can correct myself. I can improve. I can do better.' Some people think that if you trust yourself then you should never confess anything that you have done wrong. That you should never say that it was wrong and I can correct. This is a wrong idea. You have to trust yourself by saying that,

`Yes I have done mistakes. I have been doing wrong. I have been faltering but I can correct. I have that strength within me. I can rise above all these things. I have that thing within me which I can use to my advantage.' Trust yourself. Trust that you are realised Souls. Trust that God loves you. That He has chosen you to be His instrument. Love yourself.

You are unique no doubt. As it is human beings, every individual is a unique person. But after realisation you are definitely unique person. It never means ego trip. One has to use discretion about understanding. It never means ego trip. If you cannot correct yourself, you are not master of yourself. Yes you are not perfect. You are unique but you are not perfect. You have to perfect yourself. These words can be very confusing. When I say you are unique immediately, you think you are perfect. These are two words, unique and perfect.

Somebody can be unique but he can have imperfections.

So you have to perfect yourself. And trust in yourself that you can perfect yourself, through your Kuṇḍalinī awakening, clearing your Chakras. By understanding yourself, you can perfect yourself. You have to perfect. I have so many ways I tell you; directly, sometimes indirectly, through friends, somehow point out that this is the problem with you. You should think that I am within you. I am that part within you which is discretion.

When you do not understand your own discretion, I try to give you the direction by this way or that way.

But people feel hurt. People feel bad or, some of them accept it.

If you are seekers and if you are ascending, you are definitely unique, specially blessed. And you have to pay special attention to yourself. You can't afford to play with yourself.

So you have to discriminate between ego or ego trips as they call it and ascent. Ego trips bring you back with the worst hurting. It would be something like throwing you in the air and again you come back with a bump and break one of your legs or something like that. That's what ego trip is. But ascent is where you really rise above. Not only that you rise but with you, you make others rise. In your ascent, you develop tremendous powers.

The higher you ascend the better it is. But not by understanding that I am perfect you can ascend, never so.

There's a story of a teacher and his student. The teacher was very kind to the student and he would come and show him his creations. He was very kind to him.

And every time he would say that, “I have done this good and this is the thing that I have not been able to do so will you please tell me how to correct it?" And the teacher would say, “Yes, good, you better correct this part, then do this." And one day the student came and said, “Now this is perfect." He said, “You are no more student now." So he said, “No more. You are not to come to me anymore." There was another student who was coming everyday and correcting himself.

And he told to his teacher that, “Today I think I can teach others but not yet perfect." He said, “All right you go and teach." The third one was a student who came and he was always trying to see what was the mistake and how

he has to correct and how he worked very hard, very assiduous, very hard working and he came to his teacher one day and he said, “Sir, I will not trouble you anymore now." He said, “True. Now you take my seat." That is what one has to understand. You ascend. You will become humbler. It is just the other way around people understand. You see when they ascend they think we have achieved some special powers.

I don't know. Suddenly self-certification starts you see. I am very good in spirituality. I am very high up and all that, this self-certificate time. And then it can reach such a point that suddenly you found you are on the earth again. This kind of thing is not the way it works out. Actually the people who ascend there are certain qualities that show on them. The first thing is your collectivity. How collective you are. With how many people you can carry on. At how many things you can laugh. That is one of the biggest qualities. The second quality is that how much you accept another's domination who cuts down your collectivity. You must have your personality separate from everyone. If you allow others to cut your personality, say for example, there is a boss and you are the, you are the employee. And the boss is not realised Soul and you are a realised Soul. Or maybe both are realised Souls. Take it like that. And one of them is ascending. Then he becomes humbler, he becomes better, there are congenial relationship. But to a point. He will never compromise with his boss when it comes to his ascent, to his collectivity, to his giving, to his doing things for others.

On that point he'll never have any domination because how much you feel responsible about yourself is the second point. How much you are responsible to be there, to be a cell in the heart. Any cell that fails, fails the heart. Every cell in the heart has to be extremely sensitive and extremely obedient to the Self, to the Spirit. It has to activate, work harder when there is need there emergency. That it enjoys the most. And no impurity should be allowed, the third point now. As I told you first is collectivity, secondly your responsibility and third point is purity. Purity of your own heart first of all, of your own heart, about sincerity, cunningness. As I am saying this you will be realizing that all Englishmen believe in the contrary, nowadays, not olden times, but nowadays. Clean heart, transparent, open heart. Trust others. Talk to everyone with an open heart. Trust others. Why do you doubt? If you do not doubt yourself, you'll not doubt others. What are they going to take away from you? What have you got? Nobody can take away your nose, eyes, nothing. It's all quite intact. It's all nicely glued down.

So nothing is going to disappear. What are they going to hurt to a person who is a realised Soul? If your heart is clean, you can see the other person clearly through and through. Innocence is such a powerful thing, such a powerful thing that even a glance is sufficient to kill a Satan. Purity of heart, actually when the heart becomes impure the impurity flows down to other places. It is not the other way round, is from the heart. Many people believe that it's the body that becomes impure. I think it is the heart, which becomes really impure and then it

starts to cling down to the body and then it is residual there. It settles down there.

So have a clean open heart like a child's heart. Open heart.

What is there to be afraid of anyone? What is there not to trust anyone? What is there to be angry with anyone? Talk to everyone, shake hands with everyone, be nice to everyone. On the way you find somebody's difficulty, give him a hand. If somebody cannot sit properly or has a problem you try to remove the problem. If the person cannot stand, give the place. Try to give from your clean heart. If your heart is not clean, it can never give.

Now how do you clean the heart is the subject which Felicity wanted Me to discuss, how to clean the heart. There is no broom available for that in the supermarket. There are no Fairy liquids or anything to wash it down. But there is a way. Allow your heart to be drenched in your Mother's love. Just allow.

See how much She loves you. I trust you. People laugh at Me sometimes.

Some of these saints who are suppose to be very great people, they can't understand how I trust you. They say that oh these are all lost races. These are horrible people how do you trust them. They are not Sannyāsīs, they are not Sādhus, they are nothing. They are ordinary people.

For them I mean your value is nothing. They'll if you go to them they will make you stand on your head for three months. For three years, they may hang you on a well. I don't know what they will do to test you. But I trusted you the day I saw you. The day you came to Me I trusted you. And I worked on you from the very first day,

knowing what you are but I trust your Spirit that it would shine. In the same way, trust. We laugh at others. I have seen Sahaja Yogis laugh at others; make fun of them when they come to Me. Trust them. When you will trust them, you will respect them also.

So you have to believe in yourself and enjoy the way gently you are sweeping into the current of your Mother's love. Just enjoy that. Like a flower that falls into the current and flows and enjoys all the beauties of that current. In the same way, you should enjoy. When that enjoyment comes into you, you will start trusting. And trust your Mother.

I try many things to correct you. But trust in one thing, that whatever I try for you or do anything, anything I may do for you it is just to clean you. That's My job. May sometimes you might feel I am publicly saying things for you. May be your images are being ruined by that or whatever you may think.

That's not the way, is for your hitha, is for the well-being of your Spirit. And that is the most difficult job.

With all this, trust in your heart. First trust yourself, trust others, other Sahaja Yogis. Love thy neighbour as thyself. Who is your neighbour? He is a Sahaja Yogi. Stand by him. And trust your Mother. As I have trusted you, you have to trust Me and it will work out. Open your heart to this trust. You should not worry whether it would be protocolish all right or not, whether it would be absolutely respectable or not, because heart knows. Whatever your heart will do in its genuine form will be respectable, because there resides your Spirit, which manifests. That will look after you. By outer forms,

whatever you try is not going to work out. It is that trust in your loving heart that is going to work. It doesn't matter.

You see today she brought some flowers. There were some supposed to be weeds according to her. She went to the station and there she was taking some flowers out. And the station master and his wife were very sweet and they said, “Oh go ahead. They are only weeds you can have them." And they are so fragrant. One of the most fragrant flowers I have ever seen. They are just weeds. They do not conform to any formal flowers, but just few flowers attached to other flowers were most fragrant.

Love gives all the sophistication and the fragrance and all the breeding that is required. Not talking of love but really loving is the way, is most enjoyable.

Today I wanted to tell you something good about Greece before we start off with the Pūjā for about ten minutes. Very interesting things have happened. When I went to Greece, I knew that I had to go to Greece. And they told Me that they believed in the beginning in one Mother, in one Primordial Mother.

But after sometime there were some Indo-Aryan people, Indo-Aryan who came down to them.

And they said, “Yes there is one Mother but She has many aspects and these aspects are expressed as different Gods." And then they told about all the Gods, which you know of. But they, they later on made them absolutely human type of Gods and they spoilt it. But still there are certain things so amazing it was.

Like Athena is the name of the Goddess, the Primordial Mother. But Athena Atha, Atha in Sanskrit means the

primordial. And they got the word from Athena. And to the water they call Neeru, Nero. And in Sanskrit it is Nira. My name is at home is I am called as Nira, means from water. It's very surprising how many words there are. Like I said... told them about the centers.

They said, “Kendro” in Sanskrit it is Kendra.

But the best was in Delphi when I went, we were surprised at something they said, “That it is the navel of the universe." I said, “Europe is the liver and Greece is the navel." They showed a point that is the navel it was vibrating. And not only that but they showed the most remarkable thing was that this is the mound, which is actually the expression of the navel is the mound which is actually has come out the Mother Earth is the one this one. And this is actually Athena according to them. This is that has come out of the Mother Earth. I saw the vibrations were tremendous. And next to that there were lot of vibrations coming so I turned round and what I find? Is a Gaṇeśha, absolute Gaṇeśha there sitting down with a beautiful trunk, the face and the ears and the eyes and the stomach! Can you believe it? Sitting next to Her and absolutely the vibrations coming. I mean I didn't have a photograph I mean camera or anything otherwise I would have taken a photograph but now if you go and you can see.

Another thing is they showed the egg, just imagine and the eternal egg from where the other eggs come out! And the eggs are shown divided the same way into spindles as they do which doctors know they have seen under microscope. But how did they see, those Greeks? God only knows. But there's another side to it. First they

use to get Amṛuta. Is the one that was meant for the Gods by which they were given eternal life in the sense they were appointed as permanent features. But then the same thing they wanted everybody to have so they started using some that was called as ambrosia. They converted into something else and they started calling it Ambrosia and some sort of a LSD business.

So also, they went into trance so the rest of it is all supraconscious. And that supraconscious also side by side exists. Now discretion has to be used how around reality always supraconscious or collective subconscious works out, one way or the other. And you have to go to the point where the reality exists. But what happens you get lost into the supraconscious or you get lost into the superego or we can say the, the collective subconscious.

So you see both things are to be found out.

Like in Indian temple, you go, you'll find all surrounded by collective subconscious. Too much ritualism, ritualistic ritualism takes them to the left side. With that they go to the problem of getting all these women who get spirits, they go on, “hoohooooh" before the deities and then they tell the name of the horse and all those things. In Mahālakṣhmī's temple, which is a real temple, where all the three deities have come out in Bombay [Mumbai] where I used to live very close to that place, just imagine and this is very common.

So to understand how human beings reacted to that is very well shown in Delphi. It's a beautiful thing is so done. But I was amazed at the Temple of Athena when we went there. It's so much so near to the thing that the Mūlādhāra is shown there where the Kuṇḍalinī exists.

Now She is the one who has snakes around Her, see? And She has little, little snakes as Her children. Can you imagine? And She is one and She has a daughter, which is the Kuṇḍalinī in you and a God who is a child God. And when She stands She has a Kuṇḍalinī in her hand, the snake coming out of Her hand. With all the Chakras, she is made.

It's so beautifully shown. The best was Her Sanctum Sanctorum where nobody is allowed to go inside where She resides, is the Ādi Kuṇḍalinī.

But they say that She came out of the head of Zeus, the Primordial Kuṇḍalinī. And Her place nobody can go inside, nobody can reach except for Her son, the child. But Her steps are very large also are roundish. She curved. Can you imagine? They're curved as if part of the Kundalas they are. And they are 3½ in height you can see that, in height and in width also. Like every place are made of big, I mean the three are made of big stones and the last one is made of the small, three and a half and they go in a curve.

And that is Sanctum Sanctorum nobody can go inside. Now what an expression it was. This was the early Expression and Athens is after Her name Athena. If you see the face also you will find your Mother very much there. I've got the photographs and all that which I will show you later on. But what I'm saying the Mother Earth has done Her job. People have done their job. Christ or we can say Mohammed or Buddha, Kabīra, anyone of them; they have done their jobs. All right. They have worked for you. They have created places within you.

They have done their job. Now it is you who are on the stage, not Me.

Sahasrāra has to work it out. And Sahasrāra always surrounds the heart. You are enlightened by your Spirit, which resides in your heart. And the whole Sahasrāra's Maṇḍalas are around the heart.

So as you are now the temple of that Spirit, you are the heart. You have to be very very assiduous.

This is the fourth point, which is again against all Englishmen. They are holidaying permanently. The whole attention is in holiday. At the slightest pretext, they are on a holiday. The word holiday comes from the word holy day, is to do something holy on that day. God took his leave from the whole world for one day to cleanse Himself and to be in a holy condition. Because you see when you clear other people, when you create something, then you want to have some time to yourself and to enjoy yourself. That's why He got this holiday. Here it is permanent holiday not holy day, holly means hollow. It's hollow day. And this madness of holiday is of course I am working out on My level to cut it down.

This is the time one has to really get into Sahaja Yoga, to work hard. Is the time to give up all your [UNCLEAR... lethargy]. You have to get out of your sleep. I have seen people... I told she asked Me that “Mother we would like to have your Pūjā." I said, “I know why you want to have Pūjā is good because Pūjā means flooding." The floods come in, ah everybody feels fine.

Some feel fine for a month, some for a week, some for a day, some for an hour. Again, as it is. Because with flooding you feel the water has come inside. But it should

be retained, there should be some depth. That is not done. Every Sahaja Yogi must do it every day. Is a part of his life. Cleansing is a part of his life.

Is just like brushing his teeth. Even if he does not brush his teeth does not matter. I do not brush My teeth every night. You might have noticed it. I need not brush. My teeth are still solid and I was asking My husband, “When do the human beings lose their teeth?" He said, “You have already passed that age." I said, “That means I will never lose My teeth?" He said, “May not." But I never brush My teeth in the night before sleeping as you people religiously do.

The most important thing is cleansing yourself every night. Whether you cleanse it with water or rub it yourself with salt or with butter or you do the tratrika with the flame, do what you like but you have to pay attention to your cleansing every night. And morning time you have to surrender before doing anything else. You have to get up early all right get up early. Do what you like but you have to work hard. And you have to think everyday what have I done for Sahaja Yoga today? It's not the same cycle we are going to start you see. Once you have denied materialism you became hippies, now after coming out of that we are not going to start the same cycle of materialism.

This is a new way where we have to go, where we understand our detachments from things. It's all right. We are not going to run away from matter but we are going to master it. If we get it well and good if we don't get it well and good, it's just the same, makes no difference. And hard work is needed now, real hard work I

tell you because now I'm going to America. When I am there, there is so much of lethargy.

When I don't allow you to sleep after 6 o'clock even if you try. I've done that if you notice, rather difficult for people to sleep after six. But, still, when I go away you have to really work very hard and keep yourself clean everyday and write it down on a piece of paper. By the time I come back again I find all My horses.

That's not going to be this time. Today you have to promise Me that, that all of you are going to work very hard, cleanse yourself completely. Go all out.

After all this country is not so big to travel. It makes a big impressive. You have seen Australian Times. I had only one Sahaja Yogi with Me thank God, that was Mister Regis. I was only controlling him. Only one horse I had to control and he was all right. He behaved very well, otherwise he could have gone off you know. Anything is possible under the sun. But he behaved very well. He was quite under control and they were impressed by his presence there and they called him serene. Imagine Regis very serene. And he was very sweet I must say and he explained to them very well because he is well educated, he is a doctor. Today I played a trick on him though, I'm sorry for that. It was too much, whatever it is, but he, it worked out and he is direct man. In the same way it is you people I have said it again and again, that you are the people who are going to bring Sahaja Yoga. You are the people who are going to do it. I am nothing.

You see now when there is waterfall, what energy do you see? Nothing, it's just a waterfall. But when you put it to turbines and take out that electricity from the turbines

and then you see them here then you say yes there is electricity. Whatever is potential has no meaning. Whatever is kinetic, whatever is showing has a meaning. And so it is for you to be the showpiece of Sahaja Yoga, not Me.

Because some will say that, “Oh you may be, so what, you are a different clan altogether." Some may say that, “Oh we can't believe you." But they will believe you much more they will believe Me. They will not believe Me at all. They'll say I'm fantastic. I, I cannot be understood, you see? So they won't believe Me, they will believe you. They will not trust Me, but they will trust you. They would not trust Christ but they will trust you because you are one of them. That is why it is important that you should improve in all sincerity, in all truthfulness to yourself. Become a perfect mechanism of God. No reservations, should be no reservation.

If you're thinking, `All right, if I do this much then it's all right, then I come back.' This is not all out effort. It seems to be very common you see, `cutting corners' as they say. “Oh this much all right.

Should I do this much or should I do this much?" I've seen very much discretion is used for all these things. It's typical you see. “How many people so how many sandwiches? They will eat at the most two or three what's the use of making more? So but everybody will not eat three so make it say two is all right, somebody will eat one." These calculations, see? Who will eat one? The one who is calculating should not eat at all, then that's the best way. But it's all this calculations starts in the mind you see and these calculations ruin you. It's a

very tricky path. I know it's very tricky. But you have beacons before you. Really I tell you, `lit'. Nobody had that. And you have got the torches. And you have a balancing way automatically in built. Just trust in all those things and if you walk straightforward, straight forward, forget all that is past, all that is nonsensical. Forget it, you are a different person. I'm sure you'll rise very fast. And you will be really a living, organized being. All of you put together. Living, organized. These two are not complimentary ever. Because living is always disorganized, according to human concept like they will say that this flower comes out this way that should come out that way. That human being's thinking but God thinks that this is the way it is organized.

So, living organized means organized in the will of God. That's how Sahaja Yogi are going to form that nucleus, that great nucleus, that powerful nucleus, that tremendous source which is going to overthrow all that is nonsensical. It is tremendous, believe Me.

May God bless you.

So now, you want to have My Pūjā? Mm, come along.

Contents: 1981-08-03 **Conversation with Sahaja Yogis, the day after the `Keeping Your Heart Open' Seminar, Abbey, Sherbourne, Dorset, UK**

[We were standing with Shri Mataji in the nave of a beautiful 13th century abbey in Sherbourne, Dorset, England. We had just had a weekend seminar the day before at Felicia's house, Mill Farm in Dorset, England and as was Her custom, Shri Mataji was visiting the area

to spread vibrations everywhere. She looked way up at the limestone ceiling full of vaulted buttresses.]

Shri Mataji: How do you think they made those arches? [She said, gesturing with Her hand, as if wondering to Herself. Felicia was clutching a guidebook.] Felicia: Maybe it will tell us in here...

[But before she could find anything, Shri Mataji launched into a complete architectural explanation, as if She knew the answer all along.]

Contents: 1981-08-09 **Talk to Sahaja Yogis, Establishing your Marriage, Marriages, Garden, Chelsham Road, London, UK**

God is so kind, Who is bliss, Who is joy, Who has created this whole universe so beautifully. They miss completely because they do not know what is auspiciousness is. Auspiciousness comes from pure heart.

With your pure heart, then it works faster that's why I asked for these children forward. You can sit with them along. Then auspiciousness also comes from surrendering, who are surrendered. Those who are surrendered to the power of Sahaja Yoga, Sahaja Yoga is a system by which you really suck in God's grace. That you know for definite.

So for the people who are surrendered absolutely, through their body, their mind and their intellect, they are the people who bring in the auspiciousness, those who try to stand out with their illusions, the so-called, are *[UNCLEAR* obstructed/obstructing].

If you realise the importance of auspiciousness in married life, in Sahaja Yoga, you would have respect for

that married life, praise for that married life, in relation to Sahaja Yoga, of course, no doubt.

So after marriage one has to know that you have been married in My place. It's something so rare, very rare, I mean, out of question for you anyone who has done no Puṇyas [good deeds], a special place, I think so that it could happen that such a marriage could happen. All right.

But with all that understanding, we have to understand our background. Unless and until you understand your background, you can never build a real Sahaja Yoga marriage. This is your only other job. Background must be understood, both backgrounds *[UNCLEAR* must come in] and get married.

You are all Western, all of you are mostly Western. And the Western people have, I don't know what sort of ideas, but surrounding the atmosphere I am sure there are entities, bhoots [dead spirits] who are anti-marriage. Of that I am very sure *[UNCLEAR* so to say]. I mean, anybody who comes to this place can break his marriage; I mean anybody can come from anywhere, even from Timbuktu.

So, it is the bhoots that give ideas about marriage. There are anti-marriage bhoots here, so you have to be careful.

Absolutely anti marriage. And under these circumstances marriages cannot work out. Unless and until you have your own opinion about it, you have your own personality about it and the way you want to work it out.

So, Sahaja Yogis, who are getting married have a special responsibility to behave in such a way that they stabilize marriages in this country. Where it is absolutely taken out of its roots, I told you. For example you tell anybody

here that I'm arranging your marriage, immediately the brain goes like, just like *[UNCLEAR]*, go mad. It is really, I tell you, it's so bizarre, they go mad. I don't know, for them marriage is some sort of a *[UNCLEAR* ritual] or I don't know what sort of an idea they have... And they do not understand that they are getting married now. I must tell myself that I have to behave myself to make the marriage successful. And some of them get possessed. And sensible people get possessed and they start behaving in such a manner that marriage can never come.

I'll give you a case of someone whose marriage was this year. As soon as the marriage was declared, the person became so possessed that in this person lost all his sweetness, everything, all the beauty and started misbehaving. He got possessed. And it's seen, the person sees also, that, “I'm possessed." It can happen.

Because of this horrible atmosphere in which we live we have to understand that you must learn to be sweet before marriage. If you are not sweet in the beginning if the marriage is spoiled, is very difficult to establish it. It's like the *[UNCLEAR* mood] getting stopped. In the beginning only you have to be very careful, to be *[UNCLEAR* experts to do that] that's the conclusion. But in the beginning only the brains becomes absolutely like a type of mad person.

Now a simple example is that when I fix the marriage I have to fix one *[UNCLEAR* wing] because I am not a church. Which is a dead thing you can go any time, the priest is there, that's a lamp post upon you. Priest is nothing but a lamp post. Say a lamp post can marry you whenever you

like, but not Me. There's a living God which has to marry you a living *[UNCLEAR* wing] and whatever time suits you that's the time you are going to get married, that's all. You are not going to marry according to your choice, but this ego is so subtle, that, “Oh! No choice was given." And marriages are living things in Sahaja Yoga.

So, they will take place within a second. Just now I can give a marriage, within a second. You could be happy about it, you could be unhappy about it, whatever you may be. That's your own choice. But you must know that this is Sahaja Yoga marriage, in a second the marriage has to be settled. “I was not given time, I should have had six months." What do you do six months? Only last day you run about. Six months you brood and last day you run about.

Just see yourself what do you do six months? You don't do anything; this must be a reality. I mean that's why Gregoire had to hurry the last minutes for a wedding, always. What do you do for six months, see? If you have no problem of security as the Queen had [laughter] nothing is to be done. It's only the last two three days you have to arrange everything, you see? It is something nearer, that the marriage party does not do anything, the husband and wife don't need much arranging. It's like the flower that grows. It doesn't prepare, it's ready.

So, one has to understand that marriage must take place in a living way in Sahaja Yoga and this match thing, as I told them must be brought right.

Now in selecting women you have to understand that, all men. You select the person, choice is the curse of ego. Ego plays because of choice. I mean, you can have

choice of everything otherwise, you can have another kind of a chandelier, you can have that, that, that. Material things you can have. Then you will say I will have a... I must have a nose of an *[UNCLEAR* Arab]. There's no choice. And that's why the choice part of a wife which you have too much, you see, where you do the choicing *[UNCLEAR* thing] out of thousands of experience say, this, that and then you will choose someone, very grateful.

And this style you get married and that style you go and divorce. In the countries where there is no choice people don't divorce, must be something different, *[UNCLEAR* futuristic].

The system is different, that's sure. And is more successful when there is no choice at all. I mean, you know in India people don't even see the brides before, at all. At all. They marry, they are married for ages, the photographs are there, their children see, their grand children see, their great grand children see, no divorce. And here all you made the choice, this thing, that thing and you're out for a divorce.

Divorce is the first thing that comes before marriage. [Laughter.] It is stupidity. Complete stupidity of the brain, you must understand and that's why you people have ruined your families, ruined your houses, ruined every relationship.

Is a thing to be enjoyed and understood. After marriage you must know that you must share other Sahaja Yogis in your marriage. It is not a marriage of the old times. That's why I would like all the old Johnnies, who are married, to marry again. It's better.

So they change their ideas. There is no sort of a life left for a Sahaja Yogi, because it's hardly four five years when you have to work hard on your own.

There isn't much time. Like we have our own private life, we go for a honey moon and this, nonsense.

Or we are sort of such, `Oh, we should have our private lives, this... We are husband and wife.' That's not allowed in Sahaja Yoga.

That I like the way Catherine says, I mean, it was really good for her to face in the way that she meets her husband. She said, “Mother, no, Gregoire is going with You to America, I mean, I take *[UNCLEAR* humans] different, but", [Laughter.] Her bravery and her generosity and understanding of the importance of Sahaja Yoga really made Me feel very happy.

So, this self-centeredness must be given up completely.

Today by those who were married before or are marrying today. That we are going to dedicate our lives in every way to Sahaja Yoga. You must learn to share everything of Sahaja Yoga. It's the greatest estate people have in Sahaja Yog is to say, now we are married so let's have some nice *[UNCLEAR* time].

I would say Cooley, when he got married, where is he? He's not here. It's just difficult. When he got married, he was very sensible and he said that, “What is after all honeymoon for me, Mother is going, so I am going with Her to *[UNCLEAR* accept Her plan for buying a school]." But the wife didn't understand that time and that's how the marriage... He is too much of a Sahaja Yogi and she didn't understand and he's just to think that way, it's correct, the way he moves was correct, I would say. What

can you do? But now, if the wife realises that Sahaja Yoga comes first and Sahaja Yogis come first, then only such marriages will be successful. This marriage is for Sahaja [Yoga], not for personal *[UNCLEAR* life/ends].

Anybody has such ideas should know it is not for personal life. It is for consolidating Sahaja Yoga, from the first day to the last. If you are not of that mind, you are just marrying here because it's cheaper than in the church, it's better you do it yourself. There's no different mission of such marriage. This is not to be used for Sahaja Yoga, *[UNCLEAR]*. Such people got *[UNCLEAR* a deeper decline]. Only you will enjoy your marriages in Sahaja Yoga when you will dedicate more for Sahaja Yoga. And absolutely.

Otherwise people do wrong, so clear out your ideas, absolutely. I would say Maureen and husband are *[UNCLEAR* self independent]. And Gregoire and his wife are sensible. And all of you who are being married in Sahaja Yoga, all of you should come to make a beautiful life. *[UNCLEAR* Regina] and Pat are beautiful. Beautiful. By working for Sahaja Yoga, otherwise you are not going to enjoy. I am telling you, you'll have problems, you'll have problems and I will never be able to solve.

And there's no divorce in Sahaja Yoga. If you don't want to live with your wife, you can get out.

There's nothing like divorce for us. It's nonsense. By divorcing you create orphanages of ten old men and ten old women who sit somewhere and the children somewhere else.

So, after Sahaja Yoga marriage there is no question of divorce. You go out of the *[UNCLEAR* subtle]. No question.

Try to improve, try to improve. As you improve your Kuṇḍalinī improves your marriage. Work on it. Give up your self-centred ideas also, keeping to your self, We must tell you, you cannot. Now you are in Sahaja Yoga, you have to dedicate yourself. I should have asked you to take Sannyāsa [give up everything]. Then what about marriage? Take Sannyāsa! Only eat once. Oh, one can do that job. But this normal life, you have to take to it and you should bow for it, otherwise you can never be useful.

Now, one must understand that you can be attacked. Both can be attacked or a wife can be attacked, or a husband can be attacked by negativity. And you will have these ideas: Oh, we must reserve ourselves.

Nothing like reservation any more now. You will be blessed very much. Even money-wise in every way, Gṛuhalakṣhmī [wife] will be there. But you should be a Gṛuhalakṣhmī also. As like in olden days in India women used to tell their husbands to go to war. And don't come back. If you have not won the war I don't want to see your face.

They used to cut their fingers and the blood of their fingers is there to give a mark on the tilak. Like that, the *[UNCLEAR* war] on and these cannot *[UNCLEAR* oppose] to have such people who have come here to enjoy only remarried life, they can go to Nagpur. [Laughter.] Stay forever. Lamp posts are they. These are all lamp posts you see, registration office, or we can call it the *[UNCLEAR* oriest].

So, only with this vow you should enjoy the special place that Mother has given us. It's special occasion.

That we are all *[UNCLEAR* expressing] these great marriage of serenity.

So we have now I think seventeen couples now. [Laughter.] This is the *[UNCLEAR* pang] of the *[UNCLEAR* pang]. *[UNCLEAR]*.

So first of all I want to give presents to the brides, who are here. I gave it to some brides the other day. Where are they? I gave it to some brides.

Sahaja Yogi: *[UNCLEAR]*.

Shri Mataji: All right.

So, you should give sarīs to her, is very personal now.

So, I would request the boys to go out or to better I give you the *[UNCLEAR* girls] and you go out and mix it up with water and you prepare it in a big glass. All right? And where are the bridegrooms? Let them be seated on different chairs. All the bridegrooms... ha, ha... the *[UNCLEAR]* is wearing ordinary dresses, something very ordinary and you can just have a towel or something round. No, no, no. Your face gets spoiled very badly, you see. You have *[UNCLEAR* redemptions]. [Laughter.] I would say that if you want to keep it as a mark of your marriage *[UNCLEAR]*. All right. It's all right.

So, now you all sit down outside and just meditate. Now it's better.

[Shri Mataji speaks and gives indications to Sahaja Yogis.] So, there is a... give us a sarī... white sarī.

I will prepare something to wear this much *[UNCLEAR]* you can *[UNCLEAR]*. [Laughter.] You can take this now. That.

You can take it. No, no, no. Any oil or... [UNCLEAR... in the hair...]. Or what oil?

Contents: **1981-08-1x Quote on Śhrī Rāma, Room, 56 Ashley Gardens, Ambrosden Avenue (near Victoria Station), London, UK**

[Linda Williams is glum as her husband left her the week after the `Keeping Your Heart Open' Seminar in Dorset. Shri Mataji asks her to come to Her room and puts a red sarī on her, fold by fold.] The sarī represents Śhrī Rāma. He is now going to look after your right Heart Chakra and you must never worry or be afraid. He is always there to protect you.

Contents: 1981-08-14**, Public Program, The Scientific Viewpoint, Friends Meeting House, Birmingham, UK**

Bala is a scientist and like him there are people who are charmed by science.

The whole modern world seems to be very much influenced by science. But a scientific attitude has to be a very, very open minded attitude as he has told you. We have to reach certain conclusions first of all within ourselves. Secondly you have to understand that if there is a hypothesis put before you it has to be fist seen, experimented with and then is to be accepted as a law.

Now from ancient times, weather in India, England, America, Jerusalem, anyplace we have been caring about the All-pervading Power, about getting a second birth or Self-realisation, Ātmā sākṣhātkar, baptism as they call it. All these things that we have heard are to be proved or they should be discarded as untruth.

We cannot go with truth and untruth together.

So either we have to find out weather it is the truth or not what these people taught us, or whether it was completely a falsehood and there is nothing like that, that existed.

It's a simple way some people have just discarded saying there is no God, there is no Divine Power.

It's all useless things; we are not going to waste, turning their back to it. That's very simple to do. The others have followed it blindly. Both are wrong to follow it blindly is as wrong as not to follow it. The best thing is to watch and see. To say that: so far we do not know weather it is true or not. This is the right attitude with which you should approach Sahaja Yoga.

Now we must realise that in this world there are people who are seekers. No doubt about it. They are not interested so much in money, so much in rituals of religions, so much in the power game ego trips but they think there must be something beyond. And there are many like that everywhere, thousands of them and thousands of them and thousands of them. No doubt about it. But those who are at the helm of affairs naturally because they are seeking to be at the helm of affairs they are not bothered about this and they think that these people who are seeking are mad either they are lost people or they are mad people or they don't know what to do with themselves. But one has to accept that there is a category of special people who are seekers. I must say William Blake has talked about it very clearly. He called them “the Men of God." In Simple sentence “Men of God." These are the people who are not satisfied with what they have but they think there

has to be something beyond. Of course they might have made mistakes in their seeking, they might have gone wrong in their ignorance, they might have lost their way. They have been naive to know what they should find out.

All said and done one has to accept the fact that in this world there are many, many seekers and people have to cater to that even the people at the helm of affairs, even the media people. All kinds of people have to cater to them and find out what's happening to that group of people, which are the most important people in the eyes of God. If He is at the helm of affairs for Him seekers are the most important. Now we have to realise scientifically that we have evolved to be human beings. All right; but why? Why did we evolve as human beings? What's the use of creating human beings which took billions of years? What did God achieve, or nature achieve by creating human beings who are running amuck actually? They have out of science produced things like atom bomb, hydrogen bomb, all destructive forces. I mean this was not expected. That means they have missed the point somewhere in using the powers of science.

There is a big confusion. If you have a way of going above the human level and seeing you can see that they are confused. They do not know what to do whatever they try to do it goes in the wrong way.

They try to plan something it ends up into atom bomb. They plan peaceful missions it ends up into war.

Anything they try say democracy or you say communism everything they try it ends up into fears.

So what's the thing? What's the matter? Why is it happening? We have to think about it. After all we as

human beings, who have taken so many years to be like this, must be something special. Must be some reason behind, must be some purpose to this life, which has been created so beautifully. But scientists are short sighted people. They just see the symptoms and not the disease. They just see what is available there and not beyond and never they ask a question why it is like that. That question they have never asked because they cannot answer it. They are honest because they have limitations. They do not expand anything beyond it because they think it is imaginary.

But I am here to tell you that God is the reality. All-pervading Power is the reality and its action and powers is the reality, the rest of it is a falsehood. Now this statement of Mine I have to prove it, under all scientific laws I must prove it, otherwise you may crucify Me. And it can be proved. It can be proved scientifically. God has created you in such a way that in you he has laid the milestones of your evolution.

You can see all these Chakras that are put there, the centers; there are seven centers within you, of which you are not aware. You do not know that there are seven subtle centers, which are the main centers. There are many more which are placed within you, which are the milestones of your growth in the evolution.

Now there is another thing one has to understand that if we have to become ourselves, if we have to know our purpose, there must be some arrangement within us for our germination. If the seed has to become a tree there is a primule in it, it's placed there. Just imagine in a little seed there is the map of all the trees it is going to

become. Can you think of that? In the same way within us, this human body, who we do not think much of, we take it for granted, there is a complete map of what we are going to become.

Within us is placed a power which is called as `Kuṇḍalinī' in Sanskrit language. If it is Sanskrit it doesn't mean that it is Indian or anything. In India the climate being very good people tried to find out about oneself. And they went very deep and they located this power within themselves. It has nothing to do with India. And if you ask an Indian man now anywhere on the street you'll be amazed they will say they have never herd the name `Kuṇḍalinī'. But you'll be amazed that this bone is called as sacrum bone where it is placed. And in Latin language sacrum means sacred that means people knew that this bone has something very sacred within us in Norway where this language started. And they must be also having a word for this Kuṇḍalinī because when I went to Greece I found that they had a great knowledge of Kuṇḍalinī. This Athena itself is the primordial Kuṇḍalinī. Athena, Athe means primordial they don't know Greeks don't know because they don't know sanskrit. But Athe means primal primordial and Athens comes from that Athena. And she has that snake in her hand she is the primordial Kuṇḍalinī and She came out of the head of Zia who is a Viṣhṇu.

So you can imagine how it was all connected in the ancient times and how the whole thing dislocated. But this also does not give us any scientific proof weather it is there or not. But I am just giving you the idea that it is not only in India people knew about it but all over the

places people knew about this power that existed within us.

And this power is the power that we can call is the power of desire to be one to be united with the self with the Divine. And this power is not yet manifested and that's why is called it is sleeping. Because this desire is not yet manifested that's why people say that this is a sleeping power within us. Now scientifically you can see. Scientifically you can see that this bone pulsates when the Kuṇḍalinī awakens. You can see with your naked eyes. Not in all people, in some people where the path is all right it just shoots up. But in people there's obstructions you can see very clearly, very clearly thousands of them we have seen and people have seen this Kuṇḍalinī pulsates. And if you have a stethoscope you can feel the throbbing in that bone. And if you follow it up how it rises, you can feel the throbbing coming up to the head. And when it comes to the head it breaks that bone in the sense that it becomes a soft bone and you get your baptism.

That is the real baptism. Whatever was unreal was accepted so much everywhere that naturally it is now challenged. I do not want to defend all that, people talked of baptism they used to have baptism, regular baptism. But that's all artificial you can see that the Kuṇḍalinī doesn't rise it doesn't break here.

In India we have a system of calling somebody a Brahmin and they are given a thread. And the same ceremony is done by a Brahmin who is not a Brahmin who is not a realised Soul. And that one was done once upon a time

was a realised Soul, now it is done by somebody who is not a realised Soul.

So when it is an unreal thing; supposing a son of a Brahmin comes and asks Me, that “Mother how do you say that this is how we become Brahmins?" I tell you no, you have to become Brahmin by real happening within you and is real seeking that is blessed by this happening. It happens so far I've seen thousands of people.

It's amass it has to happen in a mass way. If it does not happen in a mass way then it has no utility.

It happens to one person then people start crucifying, thinking of crucifixion of such a person, or giving poison to such a person, or torturing such a person. In India also in such a good country like India, where people are so spiritually I should say sensitive, there also many saints have been tortured. The reason is that people have not got the sensitivity to understand that they are really saints.

So a big gap was there and today I say the blossom time has come and many people have to have this realisation and they have to feel their own self and the All-pervading Power. The time has come it's a blossom time. And everybody has to feel it this is the power which is all-pervading it's the Divine Power of God's love. He created this universe because He loved us there is no other reason because He's complete He's perfect He's fully satisfied with himself. But He just created because He loved and He wants as a gracious father, as a father who is extremely generous and loving, to give His kingdom to us to invite us into His kingdom and give us all His powers, so that you know Him in your awareness. As a

result of this, what happens to you is that you become, again I say you become, not that what I say is just a brain wash, but you become collectively conscious, you become, you start feeling. Like he said you don't have to tell that you are brothers and sisters. What happens really that you start feeling the power flowing through and then you placed your hands towards somebody and immediately you know where he is catching.

These are the different centers within us these five, one, two, three, four, five, six and seven centers.

And you see them on the left and the right hand, these centers very clearly. The left side as shown here, which is the left-sided, which comes from the right side to the left side, is the power of desire, is the power that manifests our subconscious, is the power which looks after our past we can say conditioning and is our emotional power. When we work emotionally this starts emitting its own manifestation. And the right-sided one, the one we call right-sided, actually comes from the left side and goes down. Is the one, is the power of physical work and of mental work, of action. And when these two go into action the first one creates a pouch like thing called as superego and the another one creates another pouch or another balloon like ego. And that's how these two things develop. And at the age of say about twelve years we get separated and we develop our `I'-ness and we all become different personality. That's how we have received our freedom to grow.

Now we grow within that egg like structure of ours we develop in this structure till we are matured enough. Suddenly you find that this Kuṇḍalinī rises, breaks this

point just like the egg shells or you can say like a caterpillar, the transmutation and transformation will take place and you become a butterfly or a bird. You are a different person all together. This has to happen; we have to find our meaning, because this creation that God has created with such love will be all wasted. It will have no meaning. It is He who has become so gracious it is He who wants you to get these powers that it is all working. At this level how can you think of paying for it? Just think of it. How can you pay for Gods love? He doesn't understand money. How can you pay for it? It is impossible; it's absurd it is insulting. It shows you have no knowledge as to how God should be. He loves you. How much did you pay for getting your breathing mechanism? Or how can you read about it? What do we read when we have to breath? If by reading if you start breathing what would happen to us? Just think of it. It's so spontaneous.

God has given us so much but we take it all for granted. And we don't understand this value. In the same way this realisation which is the vital thing has to come to us absolutely free and spontaneously.

Spontaneously, because it's a living process and everything that is living is spontaneous. You cannot pay for it, you cannot say `at this time,' you cannot guide it. It works by itself. The only difference between the other evolution and this evolution is this; that in that evolution you did not know, you were not aware of your evolution, but in this one you will be. You will be know that you are transformed. You will know that it is flowing through you. In your conscious mind you will have the spirit

manifesting. The spirit about which you have heard will be manifesting in your conscious mind.

So far it was just a witness of all your doings, but now it is a part and parcel of your being in the sense that you become the spirit. Again I say you become. I cannot say, oh, now you are all realised Souls, no, it's not possible. One enlightened light can enlighten another light; it's so simple as that. You are all ready you are all say lights and just because I was enlightened when I was born I can enlighten you.

When Bala said about power I thought I must be some sort of a dynamite or something. It's the power of love. Can we understand power of love? It has all the powers in it and it is more powerful than any other power.

So far human beings have never used it, what they have used is the power of hatred. They've never used the power of love which is the most effective, beautiful, delicate power. It's so dynamic because it is all-pervading. You have to jump into that awareness to be that. But when the Kuṇḍalinī rises this way, the first thing that happens, the first thing that happens to you that physically you get cured. But I hope you don't collect all the sick people tomorrow. When Kuṇḍalinī is awakened then you get physically absolutely cleansed. It's a cleansing process and that's how you will be happy to know that cancer can be cured. Cancer can only be cured by Sahaja Yoga I've been saying that. Now people when they get cancer they come to Me even doctors and very highly placed people. But when they go and tell people that we got cured with Sahaja Yoga, nobody believes him; they think this man is mad.

So many diseases can be cured by Kuṇḍalinī awakening. Like I would say now supposing I have to come to this room you have got it decorated, clean. If God is to be established in your heart then the body has to be cleansed.

So as a grace this mother your Kuṇḍalinī, which is your individual Kuṇḍalinī, she just cleanses your body. In one shot, over night so many people got cured. Then your addictions and habits which come to you through your conditionings and domination of the matter on you drops out.

So many people overnight forgot to smoke they just forgot they had to smoke. They were surprised after three days they realised that they have to smoke. We have people who were really like druggists and chemists you see they had storehouses of drugs within them and this they did because they were seeking you see nothing wrong with them. They got completely cured. Because when you get the absolute all these relative things fall off. Then your mental problems also get corrected.

Here I would like to give a note on so many false Gurus who have come to this country.

So many false Gurus have come and there are many who are now prospering in England as well as America and everywhere. And people are so much enamoured by these false Gurus. And they have been really paying such a lot of money to these Gurus that I cannot understand that though they are mesmerized, how could they be so much befooled? And now after befooling they do not want to believe Me. They came and told Me; Mother our Guru doesn't talk ill of anyone. I said the Satan is not

going to talk against the Satans, is he? Now the after effects of these Gurus is so horrifying in this hall only last time I had about I think eight or ten people who were just jumping on the seat, in a horrible condition just like mad people. Today they are normal people, all suffering from epilepsy. They have become bankrupt, they have sold their houses, their children are on the streets, they are divorced, they are sick, they have got blood cancer. Still they are madly in love with their Gurus.

This kind of mass hypnosis was to work it has been already indicated that false Gurus will be coming.

Now how do you make out a false Guru? First of all anybody who takes money from you for his living can not be a real person. He must live with his own earnings. If he is a poor man like Christ was he lived like a carpenter's son. Why these Gurus take money from you they have never seen a even a motor bike they want to buy Rolls-Royces. Throw them in the sea. There is another one who has got five, six kids and has got three, four landing spaces. And you think he is a Guru. You are so impressed by their badly earned, illegally earned money. Then what can God do else about it? How can you be impressed by such people who lead such a horrible life? Immoral people are we also so much in the game Very immoral, extremely immoral. They teach you dirty things. Especially in the west, I can't understand when you had a person like Christ who is purity, nothing but purity. He said you talk of adultery I say that thou shalt not have adulterous eyes. From there to what are you going? They may be Indians or anything. They are a curse on this earth and such people are followed.

Now I can tell you any one of them those people who were jumping here were the teachers. And they told Me that when they held a meeting in Birmingham there were three thousand people. These people who were suffering from epilepsy. Why? Because all the media was after them they paid the medias. And that's how they were there. This is a very big problem you see. Money begets money but you cannot get God with money. It's a very funny vicious circle. Please understand. And is the greatest destruction for human beings. Because these are the most beautiful flowers of God which are not paid attention to.

And these people went to the police and told them about it nobody's willing to listen to them. You'll be amazed. There was a diamond merchant who is on the street begging. Can you imagine these things have happened and nobody is bothered about them. And they are saints; they are born to seek God. Have some understanding. And this is what is happening. I am so very sad to see that people who are so beautiful in the eyes of God are tortured by these.

And now even in England and France and everywhere I find people have taken a good hint from them and they have also floated big enterprises. In the name of God. In the name of God you cannot take a single pie. It's sin. You remember Christ had taken a hunter in his hand and started hitting all the people who were selling in front of the church. They were not even selling God but in front of the church they were having he could not bear that insult. And these are selling God and selling realisation and selling these precious things. My heart weeps

actually to see these beautiful people are being tortured from one Guru to another. They are seekers.

In Birmingham I met a man; I asked him how many Gurus you have been? All his money, all his earnings he gave to Gurus. And he gave Me a list of people which was written in three pages and all the sides covered. Can you imagine this gentleman? And he had all kinds of problems that you could think of.

Everything, everybody, every part of his body was paining, He had this trouble, that trouble, this problem, that problem. There was no problem on the earth that he did not have. Who is going to pay for all this? I feel that people do not want to accept the truth sometimes. There are seekers they get so fed up and so tired that they think Mother is another Guru. I'm not a Guru I'm a mother. Guru is a very difficult task.

I mean the real Guru is a very difficult is a very hard task master. I'm just a mother but Mother is the Guru of Gurus because She knows how to handle Her children. They are very difficult people. Any Guru if you want to meet who is a real Guru it's not easy. Half of your flesh will be finished before you see him.

But the time has come that all of you must get it. With all self respect, with all your glory, with all your freedom you have to get it. You are honoured by God, you are respected by God. And that's why whatever has happened has happened; now forget about it, better get to your realisation. And then all understand all the knowledge of your centers which are within you. Everything about yourself and about others and how you feel. Now if there are say two children who are realised

you call them out and tie their eyes, is a very simple test and ask them to feel the vibrations of another person. And immediately they'll say this finger is catching. Means this man has got throat trouble. All of them. There was a lady from observer. She came to see Me she got her realisation. She's very intellectual she was so surprised at her realisation. She said Mother I must jump to it and write it. I said no, no, please settle down you must establish yourself. She said no, no, I can't help it, I must tell because I am a seeker and I know how people have suffered.

So she went on, but afterwards I think she was a little surprised how could she get realisation. She has no faith in herself left poor thing perhaps.

So, one of the Sahaja Yogis said; all right call the children. And she called the children. And the children started feeling the wind even from My photograph. They said oh Mother wind, wind is coming, such a lot of wind is coming and that's how she was convinced.

You all are invited to it, believe Me, you are invited and have it with all grace and beauty you all should have it. You have suffered too much now it's time for all of you to get it, isn't it? Now believe in yourself. Why do you think that you cannot have it? And the greatest disease of the west is that they all think they are very guilty. This disease must get out. If you think you are guilty you cannot get your realisation. What are you guilty for? What have you done? What guilt do you have I just can't understand it's imaginary all the time you are guilty for this you are guilty for that, any small thing. If you have not said thank you hundred times in day one day you feel

guilty I mean there's no need to say so many thank you's also. And to think that you have done mistakes all your life this is mistake that you have done mistake. You should be like this, your face should be like this your hair should be like this, you should walk like this you must have a dress like this. If you put your knife this side to that side what does it matter in the eyes of God? It's not important.

And to think all the time that you are guilty creates a problem here. You must have many people saying that I've got pain in the neck. Know that he's feeling guilty for nothing at all. For such people there's a very simple mantra: to say Mother I am not guilty simple. Thrice you say and your neck will be all right. Is a very simple mantra to say Mother I am not guilty. I am talking about here the ocean of love the ocean of forgiveness. And what are these specks you have collected? imaginary ones? This I discovered after coming to England that people feel guilty and then others also I have seen. But in India there are very few people who really feel I tell you they never feel guilty I tell you. They have the other problem right side but not the left side. Feeling guilty I mean I don't think we have so much time to sit down and think that we are guilty we are so busy you see perhaps in that country. But this was My experience. And with that little thing you got your realisation. Can you imagine? So there should be no self pity, there should not be any unhappiness about it. But it's just a play, it's so simple, it is not frivolous it is very deep working. But just a play like; you come in the room you ask me how to put the light on, there's a switch you put it on. But behind

that is a big organization. In the same way the Kuṇḍalinī awakening though it's a play behind that is a big organization. And you need not take all the responsibility of it upon yourself. God is doing everything. Actually you are doing nothing. What do we do? Tell Me. At the most if a tree dies we make a chair out of it. That's all and the chair sits on our head we can't sit on the ground then once we make the chair. That's all we do. We cannot transform one flower into a fruit can we? Not even one. The one who does billions and billions of this every moment, where are we compared to Him? To think that we are doing something and that we are guilty for it is all absurd.

Now I have to say one thing that in one days lecture it's not possible to cover all the points, all the centers and everything. But we have got certain booklets something you can go through that. We have a big book also here available for those who want to read. But I would say don't read too much, already you are over read people.

So it's better not to read anymore. It's better to experience and develop the experience and grow more and then you start reading. And we have a center here in Birmingham which is doing very well now. You can meet those people, they some of them only got realisation about a year back and you will find they are scholars. When I went to America the journalist asked Me; Mother all your disciples are they scholars? I said no they are not. What makes you think that? They are all scholars they know such a lot.

So once you reach that sap of life through that you get the complete knowledge.

You become the knowledge. Knowledge is the first thing you get.

First you get the knowledge. That is also a knowledge that is also your own in the sense you feel hot cold. Now anybody who feels hot need not be an educated man or a scholar. He feels hot. Anybody who puts a finger to the thing feels hot. It's like that you feel, so first you get the knowledge about it and then you get the joy out of it.

So I have to tell you one thing that though it sounds very fantastic, it is not, it is absolutely simple. And this should happen. I would like to have some questions from you about it. And then we'll see how it works out. All right? And not to be afraid, there's nothing to have any fear about Kuṇḍalinī. Because you must have read such big, big books saying that Kuṇḍalinī burns you, Kuṇḍalinī does this. No she is your own mother. She doesn't do anything of the kind. These are the people who have never known what Kuṇḍalinī is. It's like somebody putting the fingers into the plug and saying electricity burns you. They are unauthorized people who have done all this and that's how they have suffered.

So any questions please? Can't think; if the Kuṇḍalinī rises above this you become thoughtless just can't think. And when she gets out from here you start feeling the Cool Breeze from your head. Really a Cool Breeze you feel it and from your fingers. As simple as that.

You are still doubting something. Ask a question. Can't hear. Loudly.

Come, come, come here. Come.

Lady: *[UNCLEAR]*.

Shri Mataji: All right All right May God bless you sit. She is saying that have you to pray to Kuṇḍalinī? No nothing you don't have to. You see prayer before realisation has no meaning it's like telephoning without connection. There's nothing to pray nothing to pray nothing to pray.

Lady: *[UNCLEAR]*.

Shri Mataji: Can you come here? Gentleman: I think everybody has got a question to ask but they don't know how to ask you.

Shri Mataji: They don't want to? What, What Questions? Ask now What is there? What is you don't know? I know English at least so ask Me any question in English.

Now what did you say? Lady: *[UNCLEAR]*.

Shri Mataji: Oh very good question. That's a good question. That's a good one. Yes sit down sit down sit down. She asked Me a question if it is awakened can it die out? It doesn't. Once it is awakened it goes up it opens out. But, but is there. At the first shot you see it goes really in a big way you get it in a really big way. You remember. But then it goes back and looks after other parts where there's a problem so the force is reduced. But then you have to learn how to keep the force there and how to raise it and this is called as Vidyā, called as the knowledge. How to raise the Kuṇḍalinī...

... What is all this about? So that part you have to know. I am here to decode it.

Somebody come and told Me, Mother I feel here tickling, all the time tickling, I said this center is not all right you have to open this center. Now how to open this center then I had to tell that person you have to do this very

simple method. You see certain movements, because it is flowing from your hands, certain movements how to do it, which are the deities on different centers if you come to know about it. For example this center is the center of Christ. Between the optic chiasm[a] is placed a very subtle center of Christ. In the Indian scriptures He is called as Mahāviṣhṇu. Now He was born on this earth to suck the ego and superego. His crucifixion was there to suck our sins means the ego and the superego. But He is to be awakened. Unless and until He's awakened it cannot happen you go to church or you pray to Him nothing will happen. But if Kuṇḍalinī goes and stops there and if you say Lord's Prayer, it will rise. Is the proof that it is Christ's center.

Now this very important point that He should be awakened that Christ was for this was never known to Christians. It's a living process. He said I'm a living God. And when they went to India the way they talked about Christianity was something absurd.

So Hindus still believe that this one who has to redeem us has to come. They don't know that He's already born and crucified and He's the one. He is Mahāviṣhṇu who is described in Devī Māhātmyam very, very clearly. He was specially made. Who was His father; who was His mother all described. But the people who know English have no repor with our ancient scriptures and those who went from here have no repor with Christ. That He's to be awakened within us. He said I am to be born. And how to awaken it nobody knew only through Kuṇḍalinī you can do it. He said, it's said in the bible I'll appear before you like tongues of flames. Now what are these tongues of

flames? Go and ask these people. These Jews do they know? Mohammed has very clearly said that you are to become a peer; you have to be born again. I mean namas is one of the very good ways of raising the Kuṇḍalinī, if you are using the Sahaja Yoga method.

Means you get your realisation and then you do namas. You'll be amazed. Everything has a meaning only when it is a living thing. Otherwise it's dummy. Everything is a dummy stuff you see like this is a dummy thing. I shout at it or do whatever you like it's not going to work. That's why everything is a dummy and that's why people say oh Christianity is wrong. If you go to the Muslims they will say the Jews are wrong.

The Jews will say the Muslims are wrong, the Hindus are wrong. I mean they are all blaming each other.

If you have to learn about yourself better go to the other party. But they are all dummies. Once you get realised you will know they are all connected with each other absolutely one there's complete harmony and concord.

Christ Himself has said those who are not against Me are with Me. Now go and ask these priests who are those who are not against Him; who are with Him. I mean, He was not even given sufficient time only for four years He could talk and He was killed. Everywhere they have done a nice pickling up of all these great people. But Sahaja Yoga completely exposes their advents, their purpose, their places within us and also establishes all the fundamental things that are described in all the scriptures and their core relationships. It's such a fantastic thing. How it establishes? By proving it.

I'll tell you one example, a simple example. There was a gentleman from Iran he was a doctor he came to see Me. I mean it is now we cannot contact him because he's in Iran. But he came to see Me he was a Muslim. And I told him that Mohammed Sahib was born as Nanak Sahib in India. He could not believe it.

He said how can it be? Though Nanak Sahib had said it in a way, because Nanak Sahib was sleeping and somebody told Him that you are placing your feet towards Mecca he said all right I'll turn my feet to other side and the Mecca came that side. He said I can't believe it' I can't believe it. I said but Mohammed Sahib Has said that He is the last. I said I'm not sure of that but maybe He must have decided to come back the way people are.

He could not believe it. And he had stomach cancer, which is caused by one of the reasons is fanaticism.

I told him you have to believe in Him. He was one of the incarnations of the Primordial Master and He was the same Abraham was the same Moses was the same Socrates was the same. And you have to believe it. He said I can't believe it. I said I can't cure you. Then he went back and he was very sick. His wife said now what is there after all, you see, we became Muslims because our parents were Muslims and they told us Mohammed Sahib was the last. After all you are to be saved. Then he came and said all right Mother whatever you say I'm going to say. I said now you pray to Nanak Sahib instead of Mohammed Sahib because it is Mohammed Sahib who's angry with you. He got cured; he's still living. He got cured.

It's so simple. We can't believe it; it is so fantastic. It is worth seeing yourself with your own eyes.

The other day only, in Scotland, there was a Gentleman was suffering from terrible, terrible arthritis.

He got completely cured and he came to see Me in Edinburgh. Arthritis absolutely curable; Diabetes is absolutely curable; paralysis is absolutely curable. These all come out of your imbalances. If you want to treat a tree and if you just treat a flower or a leaf you cannot treat the tree. You have to go through the sap. Sahaja Yoga is a system by which you go through the sap of a personality and treat the whole body as a whole. Because the whole is the one, which is to be looked after and not a part of it, because you are a part of the whole. And once you get connected with the whole that whole that primordial being looks after you. And this is what has exactly happened to us that we are all separated from the whole and we have to become one with that with all our awareness and understanding; so that that whole looks after us.

So coming back to your question about Kuṇḍalinī that it falls off is a true thing with some people it does go down. But all the forces that are Divine are looking after you. You have to little bit cooperate with your Kuṇḍalinī and she comes up she makes you beautiful, absolutely beautiful.

Now any more questions? Gentleman: Could you explain what exactly you have to do?

Shri Mataji: That's the exact point. You don't have to do anything. You see I have to do something about it not

you. In the beginning then you can do it. Like this light is here all right? This is enlightened.

Now there's another candle, which is not enlightened that candle has to sit straight just keep the wick out that's all. And this candle has to just go near that and that gets enlightened. I mean, I'm not doing anything about it that also I must say because sometimes the ego gets challenged; you know somebody says, why Mother you? I said you better do it. I'll be very happy to be replaced. If you can come and do it, nothing like it. You see it'll be such a change. But what can I do? I have to do it. Otherwise I'm a happily married woman; I have My children, grandchildren, everyone there, I have no problems. But I see your problems and I see that spirit in you and I just feel in all My love and compassion that you must know it; that's all. And once you know it you can do it yourself.

Like one light can enlighten many. Isn't it? It's as simple. You become that. You don't have to do anything about it; you have to just put your fingers like this and the power flows into you. It's that simple.

You won't believe but it is so because you are ready. You are just ready to be enlightened. Now this instrument is made, if it is not put to the mains what's the use? But how do you put to the mains? Just put to the mains, that's all. The mains are there and this is ready you just put to the mains. You are just there. Like a television set to a villager if you tell, he won't believe that it is so fantastic. That there are all things around you; he will say I can't see anything. How can he believe it? When you put to the mains and you start seeing the television

manifesting, which is so fantastic. In the same way, you are a special instrument created by God. You are just put to the mains. You don't have to do anything.

What did you do for your evolution? When we became human beings from a monkey what did we do? Nothing, we did not cut our tail or anything it just dropped off. In the same way, we don't do anything for this also; it's just there; you are just ready; you just get it like that. You don't know how fantastic you are. You don't know that, na? I know that. But you will also know very soon. When you know you will be amazed how fantastic you are within. It's said all ways, all the scriptures, all the great people have described you as very great. All of them have described. But you must have faith in yourself that you are great, no doubt. And that instrument is ready, just ready. It is to be applied to the mains and once you start manifesting you can give it to others. It's that simple. You can't believe it I know, but it is so, you will see that very soon. Do not doubt it too much all right? Otherwise this brain will be working khat khat khat. That's why I've said for a while you should stop thinking about it then it will work out.

Because I've seen people who go on doubting very much they take time.

Just open, open out yourself, you must open yourself fully and it will work out. After all you want to have your realisation isn't it? What else you want? You don't want to doubt for doubting sake. What's the use of doubting also? I mean if there is supposing I say there's a diamond here. You will all run not only you but people from Australia will come if I say it is free available. Don't you think so? They

will say worth going by plane, if there's such a big diamond available.

So no use doubting. Just have it. You have a diamond in your heart. No doubt it will spark. Do not doubt. This mind has been doubting all the time, what has it given you? Nothing it will give you problems and headaches. Don't be doubting Thomas's; be trusting.

Come here; come.

Lady: Do you find people's problems stop them getting realisation?

Shri Mataji: Problems it stops a little sometimes little bit. But I know all the permutations, combinations now.

So I can get over all the problems; I think so. All right? I know many permutations and combinations now of problems. In the beginning you'll be amazed in this England I came here when My husband got elected to this job. For four years I worked on six people, for four years, can you imagine? And now they just get it like that. Now I know all the permutations, combinations of English people and England and Western people. Now I'm going to America and I've been there before also; so keep your fingers crossed; I'm sure I'll work it out there also. Everybody's an interesting sample of some combination.

But I know all the keys somehow; I've studied it and I've put all attention to it. It has worked out and all these problems I know what you all have.

Somehow it works out so don't you worry about that. If there were no problems, there was no need to do this. I mean you would be just there. There has to be problems.

Any other problem? Gentleman: We've got seven Chakras over there; can you please tell us what part each one plays?

Shri Mataji: That's good. Now all that is so elaborate I may not be able to tell you today; but can you come and show? But I will be able to say in short, all right? Now he is coming; he will show you. Now the first Chakra which is below the Kuṇḍalinī the first one is the very important center, which is bestowed by a deity, which is the embodiment of innocence. Is the center of innocence, the first Chakra. To explain it more we can say when we were at the carbon stage, carbon stage. Now Carbon is a very important element, you know that. In the periodical laws it is placed in the center; it is tetravalent means it has four hands either it can give four hands or take four hands. And at that stage only the nature started producing life.

So that is the stage where we were at carbon level. And nature is innocent a chair doesn't get angry with you. It's only we can get angry.

So the nature that we are, is innocent our basis is innocence. We are surrounded first by innocence. We are basically innocent people.

So this is the first center, is of innocence.

Then the second center that you see. Actually the Nābhī we can take it. Is the second center and the third center are connected. From the second center arises the third center. The second center is the center of our seeking. This one manifests our solar plexus. And this caters to our seeking. As amoeba we were seeking our food through our stomach; it is in the stomach we can say.

Actually they are all placed in the medulla oblongata; they are placed in the spinal cord. But they manifest outside the plexuses. For example, the first one manifests the plexus called as pelvic plexus, which is responsible for our excretory functions. All right? Now the second one, which is the one I told you just now, manifests the solar plexus, is for our seeking. And now you are at a stage where you are seeking the ultimate the beyond. But there are people who are still seeking money, there are people who are still seeking other things. But I take if for granted that you are seeking Divine.

So the seeking reaches that state at that center.

The other center that comes out of it is the center of action. The seeking has to put into action.

Otherwise supposing you are hungry you have to go into action to get it.

So this is the center of action within us, which works within us all the activities for the future. It thinks and all the activities that we require for our mental or our physical needs.

So this is a center of the creator. The above center to that is the center which is the center of Heart as we call it. Is the center which represents your sense of security.

When the child is about twelve years of age this center creates antibodies in your sternum bone and these antibodies by the time the child is about twelve years of age go into the whole body and they are the ones who react to any invasion on the body. And these antibodies react; say for example, all our injection system works on that. We put a little virus, which is an outsider invader

inside the body and when you put that they get energetic to fight. And because of their energies they fight the disease and we get cured.

This is the principle of that is.

This is the center of our sense of security. When we are insecure then this center starts pulsating and emitting more antibodies and looking after us. And this is a very important center within us. But there are other two other centers on sides of it; one is of the mother, one of the father; on both sides. I mean they have sub centers also. Now this one can be called as the one which manifests cardiac plexus. Then above that is the center which is behind here, is the center of our collectivity. Is the center where we become one with the whole. Is the center which gives us the idea that we are one. By this center we become also the witness of the play of the Divine later on when it is enlightened. It is a very important center by which we talk to others, we communicate to others on the right hand side. On the left hand side emotionally we become attached to people.

Then above that is the center as I told you of Christ or we can say the center of ascent. There is the door, which goes into this area of limbic area, which is grossly known as limbic area, which is the kingdom of God. And above is the last one here where this point. The whole thing is one center the limbic area and this point. When the ego and superego are sucked in, the Kuṇḍalinī rushes through and this fontanelle bone area becomes very soft and you start getting the Cool Breeze from that part. Now in short I've told you but in details you can go through the book it's all written down about these centers. Which are the

basic seven centers but there are many other centers, which are sub plexuses of this. Amazingly there's one thing that all these centers are manifesting the plexuses outside and all these plexuses. For example here, the plexus is the one that looks after the pituitary and the pineal, these two things.

So it is related absolutely with the gross as well but we go from inside outward while the doctors go from outward inside. Which you cannot go you cannot enter into a tree through a leaf you can enter only through the sap into it. These are in short I have told you. But there are all these things are clearly written down in a book that they will give you. They have got it. Have you got that book? You can get.

It's a very small booklet. Do you charge any money for that? No? It's free? You charge a little. How much? Gentleman: Ten pie or something.

Shri Mataji: Ten pie or something they charge. You see because maybe, so far all these boys have been printing it and paying for it for the whole also. I mean this thing requires money no doubt, but these boys have been doing it. And it's all right not much you see. Birmingham is a cheep place that way I must say compared to some places I went to. Also everybody is trying to fund it so that, I mean there is no sort of any profit basis or anything. But like ashram we have got we have got say ten people they take a house they live there, look after it and that's an ashram. There's no sort of a profit making or any fees or anything. Because they live there, they have a house, they live there that's all. It's as simple as that.

We do not have any such organization; there is nobody who is organized in it. You cannot organize God.

So there's no organization they are there because of their free will, because of their freedom and because of their love and because they feel responsible that they should do it. There's no force on you; there's no compulsion; there's no money taking; there's no membership.

Gentleman: Is it also possible please for any of those centers to awaken without the knowledge of the individual?

Shri Mataji: You see, sometimes it happens, that a person can be attacked from the sides and then that center can go on emitting too much. Like in cancer it happens. That one of the centers you see, say for instance the stomach. If you are eating say something which is irritating the stomach center, then what happens that this center receives all the energies from everywhere, all the stored up energy and starts working very hard. When it starts working very hard, it gets dislocated. When it gets dislocated, what happens that there is no relationship left with the whole and the cells starts growing more than in relation to the whole. And we say malignancy has been set in. And like that can happen they can get over excited.

But the energy from other centers is brought in one and they get over excited with out any relationship to the whole. And that's a very dangerous situation.

Such a thing can happen and sometimes it can happen on certain centers where people just get possessed.

And they think they have got some sort of a great experience. Is not so. Like there was a lady who always

felt she's getting out of her body. Ultimately she got her cancer. Now, of course, she is cured; she's all right. But these all such experiences come from the left and the right side. Not from the superior. The one experience on the left hand side is of the collective subconscious because on the left hand side of this channel that you see is the collective subconscious. Now we do not know because these are unknown areas for us; the collective subconscious on this area and the collective supraconscious on this area. Now, for example, spiritualists they work from the collective subconscious; very dangerous thing to do. We have nothing to do with spirits, nothing to do with them. We are in the center and the present. If you indulge into spiritualism, you'll find you develop a very funny situation and I don't know how they end it up.

Apart from mental trouble, you'll be amazed, I'm amazed at it Myself, that all the cancer patients I've seen so far are all attacked from the left side not from the right side. Those who are attacked from the right side is the supraconscious the collective supraconscious are the people like Hitler. Who get possessed by very, you can say very, very dominating personalities who are dead or those who lived in the future great planners this that they get attacked. And once they get attacked there's an outlet. For example you can say Hitler was like a medium and he transformed other people into that kind of a frantic temperament.

I mean it took him eleven years to build up that kind of a domain of Satans you see but it took eleven years. And I would blame then the people who allowed this to grow

and once this grew up and suddenly it blew up them then they realised; oh God where are we? So these attacks can come from these two areas they are called as Adiboutic and Adidevic in Sanskrit language. But this is, is the spirit; is the Ātmā; is the superior; is the super most experience where you become the spirit itself, your spirit not somebody else's.

So all these experiences are not healthy; they should be avoided for all those who are seeking reality. I mean if you want to have some jugglery, then it's a different thing but it is a very dangerous thing to play with it. All these Gurus are using only this either left or the right side. They use the spirits and that's how they mesmerize. That's a very dangerous state. The other day Sahaja Yoga has become so powerful now that they these people gave realisation to an archbishop of black magic. Can you imagine? I was amazed. And this fellow was quite all right then he went home and he found everything was moving around. This all the things that were there were moving around. Now the spirits were tempting him back they thought if we show some sort of this jugglery he will be back again. And they telephoned to Me Mother now what to do. I said why did you give him realisation? There was no need to give him realisation. He said just he came and he got it. I said leave him alone I'll look after him you don't worry. It happens now. This Sahaja Yoga is so great imagine giving realisation to the archbishop of black magic. I mean this is too much. It's doing. It's happening.

Gentleman: May I say by the way that um I can see a white aura around your head for the last hour.

Shri Mataji: Yes it's true, but I would say don't see that. You'll see many things because I'm something more; there's no doubt. Quite a lot I am. That you have to discover later. You can see many things. But I would say don't say anything because this also seeing is not the thing experiencing is the thing and that's why you must experience your being. And people have seen Me in many forms many things. That's not important. That's not important. Important is that you must get your realisation. I must be something isn't it to do it? No doubt there must be something about Me. But I don't want to talk about it just now. I'm very tactful; you better find out.

Lady: Why is peace and tranquility adjusted on your face?

Shri Mataji: On My face? You are also going to get it. That's all I can say. It is there inside. It is all whatever is inside comes out isn't it? You are all peace, tranquility everything inside you are also the same not only Me. You have to just feel it. You will, you will no doubt, you will no doubt. I assure you. That's why I'm here; I want you to enjoy that what I am enjoying. That's all. You see it's like a drunkard who cannot enjoy his drink. That's why I say that I am a capitalist because I have all these powers and I am the greatest communist because I must share. I can't help it without sharing.

So this such a combination, all right? Lady: Thank you.

Shri Mataji: So should we have it now all of us? Because it is within us so why not have it? Will you please put your hands just like this straight, put both the feet straight on

the ground just like this. This is just to help your Mother Earth to take away the problems just like that.

And close your eyes; just close your eyes it will work out in no time. Just close your eyes. It's all right. Now you don't say anything; just close your eyes and put your hands like this. Now feeling the Cool Breeze? All ready? Now enjoy it. Just close your eyes.

Now few things I will tell you which you have to say in your heart. One of them as I told you, say in your heart thrice; Mother I am not guilty. Say it thrice please; believing what you are saying that you are really not guilty. In the eyes of God you are not at all guilty. You have no business to judge yourself. Just say Mother I am not guilty. That is to establish your love for yourself. That Mother I am not guilty; just say that. If there is any shaking in your hands or anything, then keep your eyes open. If there's a little shaking, maybe because there is some sort of pressure on your nerves. If there's a shaking or anything, doesn't matter after sometime it will go away. Just put your hands towards Me or you can throw away the shaking like this thrice. And it will be nice; you'll like it, if you feel the shaking.

Now first thing you say with your heart; Mother I am not guilty. The second thing thrice you have to say that. That you have to say is that Mother, I forgive everyone. Just say that. People might say that it is difficult; nothing difficult to say it. Just say Mother I forgive everyone. Just say that, because by not forgiving actually you are carrying an unnecessary load and harming yourself. You cannot harm others you are harming yourself.

So just say; Mother, I forgive everyone. Say it thrice; just say that. These are your main problems. First is feeling guilty secondly not forgiving others. Go on saying it; Mother, I forgive everyone. Now, you can put your right hand on your heart. Keep your eyes shut. And ask a question; Mother, am I the spirit? Ask thrice; Mother, am I the spirit. Ask thrice you will start getting the Cool Breeze at this point. If not you just say without feeling guilty, again I say without feeling guilty, you just say `Forgive me if I have done anything wrong out of my ignorance.' That also you say it thrice. Now ask the question; `Mother, am I the Spirit?' Ask thrice just ask the question; `Mother, am I the Spirit?' Now put both the hands and see if the Cool Breeze is coming in the hand. If it is not coming in the right hand, then put the right hand towards Me and left on the stomach. Now ask the question saying; Mother, am I my own teacher? Am I my own Guru? Those people who have been to wrong Gurus will get a problem. You have been to someone? All right doesn't matter, just see now, you can see the result just now. You can't even control it. They shake before you. See if you have been to a wrong person you can just see it happening to him. All right? Doesn't matter. Ask him to put his hand out side he'll tell you what is to be done. Just go to him. Just go to him he will tell you what is to be done. To whom you have been? Gentleman: Spiritualist church.

Shri Mataji: Shaking, they shake these spirits shake. How are you? Are you better? Have you got it? Have you got the Cool Breeze? Lady: Yes I have.

Shri Mataji: Good, good. Have you been to spiritualist church yourself? Lady: No.

Shri Mataji: Thank God.

Lady: This is my first time.

Shri Mataji: Great, you are really pure. You got it; yeah you got it. What about you? He's a born realised no? You didn't feel it? Now just see because he was sitting next to you now see. Put your hands towards Me. He just started shaking terrible shaking you should have seen that how he shook before Me.

It's terrible. Have you got it? Yes have you got it My child? Not yet? What about you? Just put your hands like this. You have got Cool Breeze? You should. You are doubting still? You have got sinus trouble have you? Man; I haven't no; I had.

Shri Mataji: Hm you had it; all right we'll work it out. Doesn't matter. It'll work out; just put your hands like that; it should work out.

Mrs. Joshi you got it? Your face is changed you know. You look at least ten years younger all of you.

Did your friend get it? Did you get it? Cool breeze? Nothing? All right we'll work it out. For journalist you must ask a question. Mother, Am I the witness of the whole play? Just ask the question. Am I the witness of the whole play? You are a witness; you are not involved in it; You see a journalist has to be a witness a Sākshī.

Lady: *[UNCLEAR]* not interested in it.

Yes just say that. Say in your heart; am I the witness of the whole play? In your heart you can say that. Ask the question. You have to first witness it, then you can report

it. What about you? Are you all right? Are you getting the Cool Breeze? Little bit. It should work out you watch Me without thinking let's see. Ah? Better? Working out, it works out. It's like you see how on a tree some fruits appear faster than others. It's like that. Gradually, everybody gets it. Don't you? Just sit down; comfortably have confidence. You got it; have you? Not yet. All right he's quite right-sided. You've been reading about something like that. That's it. Now you ask the question; Mother are you the knowledge? Just ask the question in your heart. The whole knowledge of this Avidyā will go away. Ha, now you got it little feeling.

It's very subtle.

Reading you know spoils it a little bit.

So just say that it will work out. See this lady journalist lady [likely Maureen Messent for Birmingham Evening Mail]. Who else hasn't got it? Raise your hands those who haven't got. There's nothing to fear. It must be worked out. It has to be worked out everybody has to get it you are right. All right? Now Sahaja Yogis should work on people who haven't got it. You haven't got?

Contents: 1981-08-14 **Quotes from the end of, Public Program, The Scientific Viewpoint, Friends Meeting House, Birmingham, UK**

from an article by Maureen Messent published in Birmingham Evening Mail on July 15, 1981 I cannot understand how you from the West can be taken in by false Gurus. Anyone who will take money from you in return for so-called knowledge is false. Throw him out

because he is trying to buy and sell God and God won't be bought and sold.

Maureen Messent [writes]: Mother's followers were willing to sell us lop pamphlets and there was a more expensive book (The Advent) but, smiling at us all, she shook her head at the latter.

Shri Mataji [quoted]: It could well confuse you. In any case, most of you. read and worry too much already.

Contents: 1981-08-15 **Śhrī Kṛiṣhṇa Pūjā, House of Bala Kanayson, Tamworth, Birmingham, UK**

... they dictate the information about their attack, how they're attacking about. Now, we have to know that there is a war on between the Satanic forces and the Divine forces. Now you are the people who have chosen to be Divine.

But, even if you have chosen that and God has accepted you and has given you your own powers, still you must know that you are still vulnerable, very much, to the attack of the negativity upon you.

Now always, one has to remember that Divine will win in any case: there is no doubt about it.

Supposing you fail the Divine, you will be the losers, not the Divine.

If you all fail the Divine then you will be destroyed as negatives so, in the ultimate destruction, Divine will finish off all that is Satanic, there is no doubt about it.

But how many people are going to be destroyed, is the point.

So you all have to be very much alert that you are to be saved and you are not going to be one of those who are destroyed.

The more we save, the better will be our enjoyment; the more people we save, there will be a greater power flowing and the effect of that impact will be such that we might ourselves able to be rid all that is Satanic and a very little will be left which will be destroyed.

So the responsibility on the Sahaja Yogis is to understand that there is a war going on.

Now, this war is within and without: first basic thing: within and without. First we must see the within war.

The within war is this that we are the Spirit, or not, very basically: we are the Spirit or we are not the Spirit.

If we are the Spirit, that means we are not Ego, we are not Superego and we are not this body, this mind or anything but we are the Spirit, which is perfect.

So all the imperfections that come within us are our own and we are responsible for the imperfections, because whatever God does is perfect.

And when we see that there are imperfections, I mean, that is also a very big `if': “if we see” because that seeing is also not possible for many people: they are so blinded by their ego, they cannot see it, they are not aware of it.

Or some are so blinded by their possessions and superego, they cannot see it. If you tell them that, “You have a superego” they get double ego-d; if you tell them “You have an ego” they get superego-d, because they are still identified with them.

So, to be able to see first of all is the first step but, if you see, if, absolutely a big `if', see that you are not perfect, that you are not to justify your imperfections, that you are not your imperfections, but you are your `perfect being'; you are actually, but just now you are not.

So the movement is very, very slippery, in the beginning.

So, one by one, you must put your foot steadily as a climber on a snowy mountain does: first step should be that, “Can we see our imperfections?" Not others'; first of all not to see others' is the first principle of Sahaja Yoga.

First principle of Sahaja Yoga is not to see others' imperfections. What is the gain? I mean, I just can't understand this, you know, because I am very differently made; I can't understand, what's the use of seeing imperfections of others? I mean, you cannot correct it, you cannot do anything about it; by seeing them, you do not improve, by seeing their... you cannot improve collectivity.

So there is no sense in seeing others' imperfections. Now, first of all see your own problems, your own angularity, your own misidentifications and imperfections.

When you start seeing them, then the first thing you will do, best way to avoid everything, I mean, avoidance is a very great character of human beings, but in a subtle way it is insincerity to yourself, to your ascent and to God.

So face it.

Now, you see your imperfections correctly, in the sense, you see, “Yes I am possessed no doubt. If I am

possessed, why should I be possessed? I must do everything that is under my control to get rid of it." Now, a possessed person is always an abnormal person; either he doesn't talk or if he talks, he talks too loudly. They are in dualities, always remain: either he's very hot-tempered or he is oversweet.

Any person who is extremely sweet, all the time, is very sweet, never gets angry, that's abnormal.

Should be able to sometimes show your anger; for example, somebody beats your Mother, won't you be angry at that point? You should be angry. You have to be, I mean, if you have a personality and a discreet, wise personality, you should be angry if somebody does anything to your Mother, you should be angry; that anger is given for that right correction of a person who tries to harm the source of wisdom, source of everything.

So, that anger is all right, justified.

And in that way one should again not to be deluded that if Mother has said that, “That time, anger is all right” then anger is justified.

This is the trouble with human beings is that, they generalise everything.

So one has to know one thing that you were human beings; now today, you are yogis but you were a human being. And that human beingness is still there in you, still lingering in you and all these things are like caterpillars, parts are still hanging round you that you still behave like human beings; you should not: you should behave like a yogi. And yogi is discreet by nature; he knows where to get angry, he knows where not to get angry.

But for a Sahaja Yogi, one has to learn it, by dropping out all those human beingness that is attacking, attached to you.

So the discretion and that wise discretion, is to be developed; like Kṛiṣhṇa has said that, “You have to go and fight. Take the swords in your hand and fight the enemies." Now, one would say “then Kṛiṣhṇa has said, `Take a sword in your hand,' now go on killing everyone!" Then even Hitler-ism can be justified. He said “your enemies", this is important, your enemies.

Now, who are your enemies? Who go against your ascent! They are six in number; one is lust.

Lust. Of course, perversions are out of question, but even too much of lust, like, you see too much attachment to husband, too much attachment to wife.

But the other side is also there; running away from sex is another nonsense you see. That's another sign that you are possessed; definitely, no doubt about it. If you are husband and wife, you must have sex life but a sensible one. And the relationship should be such that it should ultimately culminate into it and not the way people all the time think of sex; if you think normally of sex, then it's something wrong.

Only when you reach a point of that thing, then you should feel it, I mean, that's the normal way.

Like when, we don't think all the time of water, do we? When we are thirsty, only then we think isn't it? But those who think about water all the time, means we must be having lots of thirsty people within you, that they are asking for, “Water, water, water, water, water..." It's a

point where you reach, where you feel hungry about it and there is a sense, there is a way of taking water.

How much particular we are about taking ordinary thing like water? “It should be from a clean source; whether it is coming from the kitchen or not, we'll first find out. It should be in a clean glass, from a clean person..." Everything; we are very fussy on that point.

I wish you could be the same way fussy about our married lives that, this is something where we put your heart and mind: “Are we clean enough, are we sweet enough, are we all right?" So, this is one of the very important attacks I have seen: you marry a person and is finished, in this country. In India it's different.

Here, if you marry a person, suddenly you find, God knows what happens, they all end up into lunatic asylums.

I mean, that's a path for them to drop out; one of the big sieves is marriage in the West.

So, these sieves are there, so be careful not to drop out of the sieves. And keep your mind upon yourself, judging yourself how we work out.

So, the first one is kama, is the lust.

Second, very important, is krodha Jog.

Kṛiṣhṇa has put krodha above kama; you see, anger: heated personality, angry.

He thinks that krodha comes even before kama; He was so much against anger. Anger. If you are an angry person, take out anger upon yourself, beat yourself nicely; best thing is to beat your face, then you are hurt a little bit so you'll remember it, to begin with.

Then you beat yourself on the ground with shoes every morning. You get angry? All right, have it, have it, have it! Because this heated temperament is a big curse; is your enemy. That gives you a very great weakness against collectivity.

You see, a heated man never realises that he's an angry man and that's the base of Satanic forces, because they act on you because they're angry with you; they are jealous, may be any reason, they're angry with God.

The whole base is anger and hatred.

So the second point is, we should see: have we got anger within us? If you have anger, you cannot enjoy a sunshine, you cannot enjoy a flower; you cannot enjoy anything.

Ultimately, you can't even bear yourself; the best way to punish such a person is to put him in a jail, alone, then he faces himself, then he gets rid of it.

That's the best way, I think; there's no other way I can understand, that separate him.

Let him put into seclusions; when he goes through the seclusion, he'll have to face himself and then he looks at him, gets angry... hee, hee, hee, hee. And then that anger goes away.

If you keep with them with others, you see, then he has a chance to get more angry; maybe he might grow into his anger more.

So, the kam, krodha, madha, madha is the third thing. Kam, krodh, madha.

Madha is what you call, is the pride. Or pride is a decent word: vanity. It comes out of ignorance: if you are

supposed to be good-looking... I don't know, they call it, understanding of good-looking and beauty is also so different, that I used to think somebody is a very ugly man and it seems that he's supposed to be handsome, according to Western standards. I said, “Oh God, how can he be handsome?" “Yes, he's very handsome, Mother." And I was surprised that how, according to Indian standards, nobody would marry such a man, you see. But such a man here is a very handsome man. Is most surprising that how our ideas of beauty also change.

But I would say in this, fundamentally, one should understand that those people who normalise everything by their thinking... you see, “The beauty should be..." means this. “This thing, face should be such, the nose should be such and this and that", is all being sort of measured out you see: “This is beautiful." Then, all these ideas of beauty that are thought up, not spontaneous, not spontaneous, again I say, are not beauty.

So, people who have pride about these things like, “Oh, I have a very beautiful house." May be the ugliest house you could think of; could be the ugliest, I tell you, some of the houses I just couldn't enter in, I felt like vomiting.

And, for some people, it's the house one should go and visit, it seems: all bhoots sitting here and there.

If it was a beautiful house, no bhoot would enter in. Is a suchita, is the... beauty is in purity. Purity is the expression of beauty: if you have no purity, there cannot be beauty.

[Aside:] Now, will you please listen to Me and then take a photograph. We have been trying for one hour and you'll

try for three hours you cannot get it, so you'd better listen to Me.

Now, the purity of a person is very important and then, once you have purity, you have no pride: you become prideless, absolutely prideless. Because that is also a kind of a stigma.

When it is purity, everything drops out.

So, to be proud of something, or vain, I mean, all pride so-called, are vanity: nobody's rightly proud.

You have to be proud of your virtues because you enjoy them: you have to be proud of things of which you enjoy, enjoy, not happy but enjoy. Again, discrimination is needed.

Now, when you start judging yourself like that, you will be amazed, best is to judge by children's reaction; not by a bhooty child, but a good realised Soul child.

Some women, you see I've seen, dressed up with all that thing and everything like that, you see and when a child sees, he starts, “Heh, heh, heh, heh!" You see, he can't bear the woman; and men are running after her, you see, you can't understand: a child just can't bear.

I have known many such cases, you see, where the children would not look at them, they just start, “Ha, ha, ha!" like that. And best experience I had, when I was going...

Once, I went to Japan and we had a lady with us, very self-conscious American lady, dressed up like that and, I don't know, she had put some sort of a big thing on her head; God knows what was that. She took about three hours to get ready; she went to a beauty salon and this

thing, because we were going to see some big man there.

And, this fellow had a house which was approached by a long road where you had to climb up something: funny man.

So we went there. Now this, on the way, on the left hand side of that road there were some little houses from where little, little children, Japanese, very sweet children, came up to see. And they just rushed to Me and I was playing with them. Suddenly, one child looked up and this one was there and she started, “Aah, heh, heh, heh!" And all everybody, “Aah, heh, heh!", they all ran away! So we caught hold of the child, I said, “Why are you running away?" So he said something in Japanese, so I asked the interpreter what it is. She said, “I'll tell You later, but let the child go away." Then I asked, “What was the child saying?" “That she's a witch." And this lady had spent so much money, three hours dressing up herself, I don't know what she was looking like, but the child... “She's a witch!", you see, they all ran away. And this child was pulling himself saying that but I couldn't know what was that! So, this is it: so-called beauty of men and women is vanity. Their houses, their possessions, their positions, all this pride is nonsense. The one who owns something has no pride, because he really owns, you see.

When you really own, I mean, when you own everything, why should you be proud? But the way we are proud of our noses and eyes...

Sometimes I feel you don't own them. I mean, if they're a part and parcel of your being, what is there to be proud of? So, is madha: is madha.

Then the third [fourth, see below] one comes as matsara. Is the one, the way we are sort of impressed by others' things and we get jealous of other things.

You see, even the jealousy can be subtler: like if I pay attention more to someone or somebody is more allowed to come and see Me, supposing, by any chance, then people get jealous of that as well.

On the contrary, one should know mostly I am looking after the people who are more affected, so may be that there's something wrong with the person, nothing to feel jealous.

So, to be jealous of such a person...

So this is, the person who comes to Me feels madha, is the pride, that he comes to Me and the others feel jealous of him, but he is, poor thing, going down every day and the others are jealous of him.

So, this is the thing, is matsara.

So we have got, now how many I have told you? Sahaja Yogis: Four.

Shri Mataji: Four. Now, another is attachment and attractions to people; this is the worst of all because the bhoots are always combined with bhoots. You see, in a group you'll find this group goes together; all the bhoots of one place combine together: you can make it out.

In India, when there are people of different places, you see, Australia, England, say Switzerland...

and in that also Cambridge, Brighton... Then we can say in India also, you see, you have to come to one little... small, little... we can say, group from *[UNCLEAR* Tambarat], alright. All these, you see, you can suddenly find them combined together, suddenly; they all sit in groups. You can immediately make out; you can say, “Tambarat group-hood is there and this group-hood is there." You see, grouping, grouping is one of the ways people show the moha. Then it can go down: “My daughter, my son, my this thing..." I mean, our country is the worst in this you see: “My wife, my husband. My wife must have this." “Why? Why should your wife?" “My wife must have a bed. My wife must have a..." Why? Why? Why your wife is so special? I mean, she's a wife like anybody else... “My child must have this." Why? Or, “I must have this." Why? This is moha, moha, is to say that, “I must have this for mine. My, mine." First, `I, my, mine', you can put it; three. I, my, mine.

These words should not be pronounced: it should be `our'. You must have noticed I say so many times, `I', who is `Absolute I'; I am absolutely alone, single.

But so many said, “Our", I say “Our disciples, our disciples." Now, who are the `ours'? It's Me only.

Who else is there? But so many times, “Our disciples are there, our this thing, our..." When Gregoire wrote his book, I said, “Don't say `I', say `our', `we'." So, you should never talk in `I's but talk in `we' or at the most, if you have to talk about yourself, you should say, “This Bala": “This Bala wants to go." So, you are separated from Bala, in the third person.

So the `I' must be dropped out and off because you are finished with it now; that's finished. You are no more that `I' which was closed down.

So no more `I' exists; just try to open out yourself, to be one with the collective.

This is moha. Then it can be very subtler and subtler: “My country." Say, to be proud of India, now I am supposed to be born in India, sometimes I am so ashamed to be an Indian; so ashamed to be an Indian, you can't imagine. I mean, then I feel, if My hair were blond, I would be a happier person.

Sometimes, I'm ashamed to be British, when I think the way they behave towards other countries.

And sometimes I'm ashamed to be a developing country and sometimes I'm ashamed to be a developed country, because I can enter into any personality.

But I'd better try not to be any one of these where I feel ashamed [laughing].

There are good and bad points in everything, so why to get attached to anyone? Because everybody has 50/50 percent, so no use getting attached, you see, who is Indian and who is British: it's made by human beings only.

God has not made you like that. He just created one world; is crazy human beings they have done this nonsense, you see.

So what is there to get attached to someone? Or detached; everyone has got good points and bad points.

So, how are you to say, “I don't like this man, I don't like that man." What is there to say? I mean, if I was to say

like that, as I've said many a times, I would have been left high and dry! [Laughing:] I don't think I would have a single companion maybe.

So, whom to discard and whom to get attached? So this [is] moha.

And another is the desire to own something, of possessions: lobha. I see, say, a very nice... what is this set is? Television? No.

Sahaja Yogi: Stereo.

Shri Mataji: Ah?

Sahaja Yogi: Stereo.

Shri Mataji: Stereo, stereo, very good stereo with Bala, then I must have it! Bala: It's Yours, Mother, it's Yours! [All laugh.]

Shri Mataji: I don't know even how to operate, though I want to use it by all means [Shri Mataji and Sahaja Yogis laugh]. You see, it's like that. This is, is to try to have something which you have.

Say, I was coming in Tambar, I was looking out, what should I buy from Tambar? So, why? What is the purpose? I bought two things with, Philip, you remember? He might have forgotten. We went to that shop, because that place, these things has been looked by many people have seen this. It's a beautiful thing, has good vibrations.

So, through those things, I can put My attention onto the people who live there.

So I always go and purchase something from a shop there, somewhere, which was on the outside where people were seeing it, you see: they were coming, going, seeing and their attention has been there.

So through that I can work out My attention on these people who have put attention on a thing.

That's matter and that is how a matter is useful; without matter, God cannot manifest. He had to materialise Himself also in a form to talk to you. And there has to be a form through which He has to act and that's how I have to get something like that.

But when I find that this is all right, I've used it, then I'm not attached; I give up anything. You like it? All right, have it, just have it! When I have it with Me, I use it for a purpose and when I want to use it for someone, then I'm generous, then I say, “All right, have it." I use it for My generosity, in both ways.

So, if you want to possess something, to have an attraction for something that you want to have, it should not be for your self-indulgence, but for using it for your generosity. Buy it for somebody, best is; never buy anything for yourself, should be the principle to begin with.

And do not... now supposing you say, is of course, this is very nice, “I must buy this for X, Y, Z”, somebody else, another Sahaja Yogi, how many would come forward to buy? It's for yourself and who? Now let us see from our budget how much do we spend for buying things for others, apart from Mother; Mother you would, but apart from Mother.

All right? So, this is how we should get rid of our moha. Enjoy *[UNCLEAR]* neutralizing thing is there, enjoy what you give and do not enjoy what you possess: is the best way to enjoy your generosity and then you'll be amazed that you will rise.

Now, this is all for your own ascent; most selfish thing I'm teaching. This is the most selfish things, as you can say, Swārtha, Swārtha is called as, if translated directly, it means selfishness, but `swa arth'.

`Swa arth' means... meaning of your Swa is your Self; Sanskrit language very clever. Selfishness itself means a self-fish, see? Even there is Self, I don't know why fish. But, in English language I don't know, but in India fish is shubha, auspicious.

So selfish must be meaning that it should be auspicious for your Self: self-fish. But if the Self is all right and the fish is smelling or rotting, then it becomes self-fish, dirty one, isn't it? That's what it is, but it must be the meaning is auspiciousness for your Self.

So, this is the real selfishness, if you like the word. This is for your good, that we must be careful about, that we are always attacked on our weaknesses and not on our strong points.

We should never be identified with our weaknesses; never justify them. Never justify them; otherwise they will go deeper and deeper and deeper.

Otherwise, one man will say, “Oh, is I am so... I give up." It's all right, that's the thing Sahaja Yoga is doing all the time; you don't know if there's a circle going on. You are thrown out of Sahaja Yoga circle. And you'll be thrown out just like that, like a tangent you'll go away and you'll never return back and then where you will go, God alone knows.

As it is, who are you without Sahaja Yoga, just think of it. What is your identity? You are nothing.

So, one has to remember that not to praise your weaknesses, not to support them but to be looking after it.

Now, a person who has a particular weakness, for example, say of... we can say a very mild one, like is of keeping Mātājī's photographs; see, a simple thing. “After all, Mātājī's photographs are there, why not I keep to myself?" Even, such a subtle thing is a weakness: Mātājī's photographs are to be enjoyed by everyone. Your possessions are to be enjoyed by everyone.

There's nothing like private in Sahaja Yoga, that you enjoy, even your wife is to be enjoyed by everyone as a mother. Even your husband is to be enjoyed as a father by everyone.

Relationship may change, but we should allow our homes, houses, everything, to be enjoyed by everyone.

Now, if both are Sahaja Yogis, there should be no problem; if one is a Sahaja Yogi, then I can understand.

If one is a Sahaja Yogi and the other is not a Sahaja Yogi, then it's a big problem, all right; because the possessions belong to one person and another person is not a Sahaja Yogi, then it's very difficult. But, when both are Sahaja Yogis, then there should be no problem, is to be enjoyed by everyone; there's no objection on that point.

Once you realise this point, that you will be attacked on your weaknesses, you'll be very cautious and careful about your weaknesses; be careful about your weaknesses, because these Satanic forces are going to pull you down. All the possessions come to you on your weaknesses. Now we'll see the other side of it, the *[UNCLEAR* rhapani].

There is one more side.

[Aside:] They haven't come as yet. Who? They have come? Where are they? They sit outside, are they listening to Me? Alright, good idea. I just...

One more thing, one other side which I must tell you. Now the bhoots that come into us, they come from outside. Now this is another thing.

Despite our *[UNCLEAR]* they're outside. The bhoots that come from outside, how to save yourself; they also, if they have come through Gurus, then I have told you how to get rid of it, must go on saying, `Mother, You are my Guru, You are my Guru, I am my own Guru, I have nothing to do with that,' you know all that.

So try to work it out; certain Gurus have got their own names as Rākshasas, you should know to get rid of them and beat them out and that's how you can work it out.

They also work on your weaknesses of, say, somebody wants to be a great leader in Sahaja Yoga, they'll come: outside.

Somebody wants to be obstinate, they'll come.

Somebody wants to be showing off, they will come.

Now, they can become very subtler, you see, there's someone who's talking ill about Sahaja Yoga or even slightest doubt, never listen to that; never talk to that person: that person is possessed. What is there to doubt Sahaja Yoga? What is there to doubt? It's more than sunshine: there's nothing to doubt about Sahaja Yoga.

Anybody who doubts, you just say, `I have nothing to do, I don't want to talk to you,' because he is possessed;

anybody who is not surrendered to Sahaja Yoga or to Me, you are not to look at that person.

Have nothing to do with that person, just get out of it: `Nothing doing, we don't want this filth.' That person will improve and you'll improve also.

But, if you allow that person, you see, to come round and talk to you, be sweet to you, then don't talk against Sahaja Yogis, `We have seen the light, you have not seen the light, so shut up. We don't want to hear a single word of it.' It's like sunshine: we have seen it, it has worked with us. Those who are doubting people, have nothing to do with them and you will be amazed how you will be saved.

Anyone who says, “Now I will have nothing to do with Sahaja Yoga” you say, “Get out! Immediately you'd better not do it” is the best. “Leave us, spare us, get out." Anybody who tries to show we are... “Oh, I need all the sympathies of the world” and all that, some people are like that, “Oh, I was about to commit suicide..." Tell them to commit suicide immediately. Do not play into the sympathies of the people also, you see these are how the bhoots come in, “Oh, I am very sick you know, I deserve this, that..." “All right, go to Mother; use photograph, do this, but we are not going to cure you, nothing doing." Because if you start curing a person, you'll get sick yourself and you will have a problem for your Mother; it has happened with so many people.

Recently there was a case and a lady was trying to commit suicide. I told them, “You'd better tell to commit suicide” and she was shocked. Because, you see, this is a very subtle thing that we want to be compassionate. Are

you more compassionate than God is? Are you? You are not. Let it to happen through God; you just don't try to help a person to get cured; none of you should try. I will tell you when you have to do that, not now.

Just now, you people do not try to cure people; if somebody wants cure, all right, you can vibrate the lemons and give them, that much you can do, you have that much power. You can vibrate the water and give, because you are Yogis, no doubt. But you do not personally touch that person. Please do not do it.

You'll be affected and very badly affected: some of them are suffering from horrible diseases and, if these diseases grow into you, you would not know how to control it.

So please do not try to check them or do anything, give them a photograph if you want; they can use the photograph, ask them to sit in the water. After using the photograph, tell them to keep the photographs to themselves: do not take it back. Be careful on this point so that they do not attack you; this is one way they attack you.

Then, a person who is very hot-tempered, better recede from such a person because, if you try to argue with that person, you'll get the bhoots upon yourself. If somebody is angry, you say, `You are heated.' Finished; don't talk, just don't talk to that person, have nothing to do. Because you get the bhoots upon yourself, you see.

You are not to neutralise such a person, just get out of it.

Try to remember what I have said to you, that you are not to go on fighting or arguing with anyone whatsoever; if somebody is argumentative, let him be argumentative. Do not go and argue; you can tell Me about it, I'll treat

that person, all right. You should not take things into your hands: God is operating His own Laws, you should not take His Laws into your hands and start operating.

First of all, one should know either you are attacked from the left or the right, the right people are the ones who come and attack you by their operation; with such people you just `Shut up!' from them and they'll be all right.

If they're left alone, they will know what they are. They talk loudly, assertively and all that... just keep them out; don't have a relationship with them.

Obstinacy: some person is a very obstinate person, just give up, give up.

You have not to cure them, you have not to save them, you have not to achieve anything. If they are obstinate, you are obstinate, finished: you have nothing to do with them. You go ahead: what's the use of getting stuck with an obstinate man or an obstinate woman? This is what one has to realise and one has to go further with it.

Now, you think about it, you will get the inspiration and you will know how to manage these negative forces away from you.

Avoid all external attachments that you have: like somebody is very much used to TV, better not see.

Somebody used to so much cinemas: better not see.

Somebody used to this: better not do it.

Gradually, you will find you will be very discriminate.

For example, I don't normally like sopranos very much, the way they go on... “Hoh, hoh, hoh..." All sopranos are not good, but there's so many, like Elizabeth

Schwarzkopf, have you heard of her? Oh, she's a genius, she's a genius, I tell you. Oh, what a beauty she is.

So, then the thing, everyone who is a Sahaja Yogi is not good and you need not bother about every

Sahaja Yogi: keep company with the people who are good Sahaja Yogis, who are surrendered, who are humble, who are collective. Start forming a group of Mother; this is My group, which is absolutely surrendered to Me and those who are not bothered about other things. Such a group should be formed, gradually this group will gather and this surrendered group will come together and you'll be amazed, we'll create a beautiful world.

This is how it should work out; try to keep to people who talk good of Sahaja Yoga, who talk about Sahaja Yoga, who think about Sahaja Yoga, who work out Sahaja Yoga and a group can be formed. And forget all others; just forget. You have no duty to them, you flowe no relationship to them: you are here for Sahaja Yoga and you are not going to sacrifice it for anything whatsoever.

Because, you see, such a person will have something, for example, a man like this will have a car and you have a convenience to travel by car, so you stick onto that man. May have a house; they will give you a house to live in, all right, you'll stick onto that person.

Some sort of more material convenience such a person will have and you will just stick onto that person because you have that material convenience.

So be careful: though he talks ill about Sahaja Yoga, doesn't matter, “But you know he's little nice, he's generous." Supposing he lends you money, oh, then

“He's nice." No! Some sort of a thing, I'm saying: some snag is there.

So, be careful about it; some material advantage will be there. Doesn't matter, you can walk, you can take a bus, doesn't matter.

So, because of this material comfort, you might, you might fall for it, so be careful on that point, that all these bhoots are material and they attack on your material attachments. And see to it that you get rid of those material attachments.

In one word is that, see your material attachments and the things that, so-called, comfort you. You should only seek the comfort of your Self. And only the praise of your Mother is going to comfort your Self, take it from Me, which is told by Ādi Shañkarāchārya long time back. And I wish you would understand that, that there's nothing else that is going to comfort your soul. Forget all about these things, even if you have to walk, go on singing the praise, finished. You'll not feel anything, that's how it is going to work out.

Today is the day for Me to declare certain things, as Kṛiṣhṇa has said that, “Surrender your Self." “Sarva-dharmān parityajya mām ekam sharanam vraja." “Give up all other attachments and religions", religions means the temperaments that swabhava, the ones you have developed, “and surrender unto Me." Surrender unto Me, surrender unto Me. This is what you have to understand, otherwise it's not going to work out, haphazard ways, half ways, it's not going to work out. This, if you learn, you have solved the problem.

We should not do during the Pūjā, after the Pūjā we'll have the photographs so that you concentrate on the Pūjā, all right? Now today, because it is a Kṛiṣhṇa's Jayanti, I thought that we should have a Gītā for you and I've told him to read Gītā, so that when all these things are done, your attention should be on Gītā, what he reads. He has to read it loudly and...

Where is the water? No, not that, for washing the Feet. Now put the three leaves. You see, you put the three leaves. Big leaves, under that, under that, under the kumbha. No, no, under the coconut. Other way round, under the coconut. I think too big are alright, these ones are alright. Three ones, yes, these dark, dark ones are alright, three. Yes now, put it on top here.

Now, before he reads Gītā, I will tell you the basics of these two chapters which one should understand.

Is, first is Sankhya Yoga, Sankhya.

Sankhya means Sahaja Yoga, we can say, but Sahaja Yoga is a combination of Karma Yoga and Sankhya Yoga: is both. The first part of Sankhya Yoga... The first part of Sahaja Yoga is that you get your Realisation. That means your awareness is to be enlightened, you should have the knowledge to begin with: that is Sankhya Yoga, that you meditate and you achieve your Realisation is the first part, is Sankhya Yog.

That is the first thing Kṛiṣhṇa has said that you achieve.

Then the Karma Yoga is, actually should start after that. That is Karma Yoga. And whatever He said about Karma Yoga is actually after Sankhya Yoga has to be [there]. Sankhya Yoga is the first thing He preached and then He

said about Karma Yoga; that you cannot do Karma Yoga before Sankhy. Yog.

But this is a trick of Śhrī Kṛiṣhṇa.

So, those who try to do Karma Yoga before Sankhya Yoga are mistaken people.

Moreover, He has tried to show that there are no two things: they are one.

But they get two, become two because, if you put the Karma Yoga first and then the Sankhya Yoga, it would be like, say a telephone which is not connected: you go on telephoning. That telephoning is Karma Yoga and then you' do the connection, so this is wasted and that is wasted.

So what you do is to first of all connect and then you do the Karma Yoga, so both things become one. All right? Once you understand that without connection, you cannot see your Ego, you cannot see your Superego, you'll go on with your ego all the time and you're not aware of it at all.

I mean, with Sahaja Yoga also you do, but with Sahaja Yoga at least you get aware of your Ego, you get aware of your Superego.

So, first you do Sankhya Yog and then Karma Yog, is the thing that He's trying to say and, whatever He has said in Karma Yoga is after Realisation, after Sankhya Yoga.

So, first He talked of Sankhya Yoga then *[UNCLEAR]*.

Now, He says that those who talk of them separate are not wise, that's how He neutralises. But He has created this mystery 6,000 years back, because He wanted people to go around the world, you see? Because they

wouldn't understand; let them telephoning, go on telephoning, telephoning, telephoning.

If you tell them, “Don't do it” they'll be angry: their ego will come up.

So He said, “All right, go on telephoning, telephoning, telephoning, then when you'll be tired, you don't get any connection, then you'll come back and you'll say, `Mother, it has not worked out,' then the Mother will be here and She'll tell the Truth." That's why these six thousand years you have been telephoning, telephoning, telephoning. And that telephoning is Bhakti Yoga but that is, comes the third stage.

First you get your Realisation, secondly you work it out, perfect it and then indulge into Bhakti , into joy.

Now, these are in three stages: first you get your knowledge, means your intelligence on your brain and that part, the Virāta, *[UNCLEAR]*. Means you achieve the Sat; Sat part of it, the Truth.

Then second, you do the attention: Chitta, action. That's Karma Yoga. And third, you do Bhakti , is the joy. Enjoy: you sing and praise, that's all. Is combined like that.

So, He has put three things, actually they are one, stage by stage.

But for befooling people, He said, “You can do anything before", I don't know if He has said it, but He might have said it: He's very clever.

So what to do? People don't want to take by stages, you see. They want to do first of all; I have seen many people who would like to `do' Sahaja Yoga more than achieve it.

All right, so now in these two chapters, you will find out. Now, when He says “Yogi", it means Sahaja Yogi, all right? Now, can somebody, who is going to wash My feet today? Somebody from here. Now you need not, we have just now in My presence.

Now please don't pay attention to yourself. *[UNCLEAR]*. But surrender yourself. Alright? Now.

Now, who is from this place? Come along. Now, who else? Come forward, come along, come along.

Rachel and all these people. Come along. Where is your husband? Come, you should sit forward. Come along, come along, come along. All of you should be in front. Come forward, you come forward all of you, you all come forward. Specially those who have not yet washed My feet and all that should be forward.

Come along. I would suggest that let somebody else, let Warren read it. Alright and you do the washing and all. Come along. Use that. Come along Warren, come.

It is to be, it's in English language, it's alright. Do it loudly. You missed time there, or somewhere? Warren: Chapter four and five, ok? Chapter four and five.

Shri Mataji: You can stand there, on the top of that, I don't want to... yes, on the green one.

[UNCLEAR]. Now listen to him, that's very important.

Now, those people who are here... Chaya? It's here. Alright. No, where will you throw it?

Sahaja Yogi: We are going to wash it onto the tree.

Shri Mataji: Alright, come along. Little more. Now you read it, fourth chapter and fifth.

[Warren starts reading, Shri Mataji sometimes comments a few parts while Her feet are being washed.] Chapter 4: Warren: “Śhrī Bhagawan said: I taught this immortal Yoga to Vivaswan, the Sun God."

Shri Mataji: “Sun God." Now who is `Sun God'? You know Christ.

Warren: “Vivaswan conveyed it to Manu, his son and Manu imparted it to his son, Isvaku.

Thus handed down from father to son, Arjuna, this Yoga remained known to the Rāja Rishis.

By great lapse of time, however, it has more or less disappeared. The same ancient Yoga as this has been imparted to you by Me because you are My devotee and friend and also because this is a supreme secret."

Shri Mataji: Now see, He told it to only Arjuna, to nobody else. This is not a mass thing, it's only individualistic.

Warren: “Arjuna said: “You are of recent origin, while the birth of Vivaswan..." "

Shri Mataji: This is quite a, quite a common thought, `You are a recent origin.' Me too, they think so.

Warren: “... while the birth of Vivaswan they expect to remote antiquity. How then am I to understand that you taught at the beginning of creation?" “Śhrī Bhagawan said: “Arjuna, you and I have passed through many births. I know them all, while you do not, O chastiser of foes. Though unborn and immortal, also the Lord of all beings, I manifest Myself through My own YogaRāmāyaṇa, or Divine potency, keeping My nature..." "

Shri Mataji: Where `I' is, you should know this is Me, all right? Then you'll understand.

Warren: “... keeping My nature completely under control. Arjuna, whenever there is decline of righteousness and unrighteousness is in the ascendant, then I body Myself forth. For the protection of the virtuous, for the destruction of the evil-doers and for the establishment of Dharma on a firm footing I am born again from age to age. Arjuna, My birth and activities are Divine, he who knows this in reality does not take birth again on leaving his body but attains Me.

Completely rid of passion, fear and anger, wholly absorbed in Me, depending on Me and purified by the penance of wisdom, many have become one with Me..."

Shri Mataji: “Penance of wisdom” you see, see these words are; this is Kṛiṣhṇa's style, is very, very tricky words, “Penance of wisdom." Discretion.

Warren: “... purified by the penance of wisdom, many have become one with Me even in the past.

Arjuna, howsoever men approach Me, even so do I seek them, for all men follow My path from all sides.

In this mortal world, men seeking the fruition of their activities worship the Gods, so success born of action follows quickly.

The four orders of society, namely the Brahman, the Kṣhatriya, the Vaisyas and the Sudra were created classifying them according to their prenatal qualities..." Shri Mataji:, That's their aptitudes, aptitudes.

Warren: “... and apportioning corresponding duties to them."

Shri Mataji: Brahmanas are the ones who are seekers of God.

Warren: “Though the author of this creation, know Me, the immortal Lord, to be a non-doer.

Since I have no cravings for the fruits of actions, actions do not contaminate Me. Even he who does know Me, in reality is not bound by actions.

Having known thus, action was performed even by the ancient seekers of salvation.

Therefore, do you also perform such actions as were performed by the ancients in the former times.

Even the wise are at a loss to know what is action and what is inaction.

Therefore I shall expound to you the truth about action, knowing which you will be freed from its evil effects."

Shri Mataji: Now this is after Realisation, you try to understand.

So.

Warren: “The truth about action must be known and the truth of prohibited action must also be known. Even so the truth about inaction must be known.

So the mysterious are the ways of action. He who sees inaction in action and action in inaction is wise among men. He is a yogi who has accomplished all action. He whose undertakings are all free from desire and thoughts of the world and whose actions are burnt up by the fire of wisdom, him even the wise call a sage. He who having totally given up attachments to actions and their fruits..."

Shri Mataji: This is for you people.

Warren: “... has got over the dependence on the world and is ever satisfied, does nothing at all, though he may be ever engaged in action. He who has subdued his mind and his body, has given up all objects of enjoyment and has no cravings, performing sheer bodily action, such a person does not incur sin. He who is contented with whatever he has got and sought, is free from *[UNCLEAR* ealous/zealous/jealous] and has transcended all pairs of opposites, such as joy and grief and is balanced in success and failure. Such a Karma yogi, though acting, is not bound. He whose attachment has gone, whose mind is established in knowledge and who acts for the sake of sacrifice, all actions of that liberated man melt away."

Shri Mataji: “The liberated man": now you see, the fools who don't understand this, without liberation, they start doing all this action; you cannot do it.

Warren: “The sacrificing which they... in which the oblation is poured is Brahma, the oblation itself is Brahma, even so the act of pouring the same into the fire which is again Brahma, by the sacrificer who is himself Brahma, surely is the goal to be reached by him who is absorbed in such sacrifices Brahma is also Brahma..."

Shri Mataji: Brahma is All-pervading Power, you can say.

Warren: “... is the absolute."

Shri Mataji: Divine Love is Brahma.

Warren: “Other yogis offer sacrifice in the shape of worship to the Gods, others pour into the fire of Brahma, others sacrifice in the shape of the Self, through the sacrifice known as the perception of identity. Others offer as sacrifice..."

Shri Mataji: Now you understand? Warren: “... others offer as sacrifice their senses of hearing, into the fires of self-control. Other yogis again offer sound and other objects of perception into the fires of the senses. Others sacrifice all the functions of their senses and functions of the vital airs into the fire of Yoga, in the shape of the selfcontrol, which is kindled by wisdom.

Some perform sacrifice with material things, some offer sacrifice in the shape of penances, others sacrifice through the practice of Yoga, while striving souls observing austere vows perform the sacrifice of wisdom through the study of the sacred texts."

Shri Mataji: All these things you can do.

Warren: “Other yogis offer the Prāṇa, breath, into the Aprāṇa, even so others the Aprāṇa into the Prāṇa.

There are still others given to the practice of Prāṇāyāma, or breath control, who having regulated their diet and control the course both of the Prāṇa and the Aprāṇa airs, pour their life-breaths into life-breaths.

All these have their sins destroyed by sacrifice and know the truth about sacrifice.

Arjuna, yogis who partake of the nectar in the form of the remains of sacrifice attain the eternal Brahma. To the man who does not offer sacrifice even this world is not happy. How then can the other world be happy? Many such forms of sacrifice have been set forth in detail through the mouth of the Vedas.

Know them all has begotten the reactions of the body, the mind and the senses. Thus, knowing the truth about them you shall be freed from the bondage of Karma,

through their practice. Arjuna, sacrifice in the form of knowledge is superior to sacrifice performed with material things. For all actions without exception culminate in knowledge, O son of Kunthi. Attain this knowledge by all means, if you prostrate yourself at the feet of the wise, render them all forms of service and question them with a guiltless heart, again and again, those wise seers of truth will unfold that knowledge to you. Arjuna, acquiring that knowledge you will no more be subjected to delusion like this.

And through it you will see all beings first in your own Self and then in Me. Even if you are the most sinful of all sinners, you will cross over all the sin by the raft of knowledge.

For as the blazing fire reduces the fuel to ashes, Arjuna, even so the fire of knowledge reduces all actions to ashes.

In this world there is no purifier like knowledge.

He who has attained purity of heart through the practice of Karma Yoga, automatically realises it in the self in course of time. He who has fully controlled his senses, is exclusively devoted to spiritual practice and is full of faith, attains knowledge.

Having gained knowledge he immediately attains supreme peace in the form of God Realisation.

He who lacks discrimination, is devoid of faith and is possessed by doubt, is lost to the spiritual part."

Shri Mataji: Here He says possessed by what in the supraconscious.

Warren: “For the doubting soul in particular, there is neither this world nor the world beyond, nor even happiness.

Arjuna, he who has dedicated all his actions to God according to the spirit of Karma Yoga, whose doubts have been dispelled by wisdom and who is self-possessed, actions do not bind him."

Shri Mataji: “Self-possessed", possessed by Self.

Warren: “Therefore Arjuna, cutting asunder with the sword of knowledge this doubt in your heart born of ignorance, establish yourself in Karma Yoga, in the form of ever mindedness and stand up for the fight." Chapter 5: “Arjuna said: “Kṛiṣhṇa, You extol Sankhya Yoga, the Yoga of knowledge. And then the Yoga of action.

Pray, tell me which of the two is decidedly better." Śhrī Bhagawan said: “The Yoga of knowledge and the Yoga of action both lead to supreme bliss. Of the two however the Yoga of action, being easier to practice, is superior to the Yoga of knowledge. The Karma yogi, who neither hates nor desires, should be ever considered a Sannyāsī.

For, Arjuna, he who has transcended the pair of opposites, is easily freed from bondage. It is the ignorant, not the wise, who say that Sankhya Yoga and Karma Yoga are productive of divergent results.

The one who is firmly established in either gets the fruit of both, namely God Realisation." "

Shri Mataji: Means, supposing you are realised a little bit, not much. In the sense that you haven't touch[ed] suddenly the highest, which happens. Most of the people

that you are, it happens that your achievement, with your Kuṇḍalinī, is not of the ultimate.

So, when you do Karma Yoga, which is easier, through which you achieve.

Sankhya Yoga can be that you achieve your Realisation; you meditate in the jungles, go stay there, keep away from all the worldly things, meditate, meditate, meditate and try to rise. But such people are absolutely useless, I have seen.

My own experience is that such people are useless for all worldly things: they cannot be compassionate; they cannot come down from their levels. When they come down, they again get contaminated.

So, the second thing is very easy: that you get your Realisation and start on the Karma Yoga, cleansing yourself.

Once you have done your cleansing, you achieve it because it is immune, immune to everything.

Warren: “By the supreme state which is reached by the sankhya yogi, is attained also by the Karma yogi, therefore he who sees sankhya Yoga and Karma Yoga as one, so far as their result goes, really sees.

Without Karma Yoga, however, sankhya Yoga or renunciation of doer-ship in relation to all activities of the mind, senses and body, is difficult to attain. Whereas the Karma yogi, who keeps his mind fixed on God, reaches Brahma..."

Shri Mataji: Means, you don't become a Sannyāsī; now, it's for Bala! You don't become a Sannyāsī, you work here: is easier, definite, sure-shot.

Warren: “... he reaches the Brahma in no time, Arjuna. The Karma yogi who has fully conquered his mind and subdued his senses, whose heart is pure and who has identified his self with the self of all beings, remains unaffected even though he is performing action. The sankhya yogi, however, who knows the reality of things, even though seeing, hearing, touching, smelling, eating, going, sleeping, breathing, speaking, passing urine and stools, taking and opening or closing the eyes, must believe that he does nothing, holding that it is the senses that are acting on the sense objects.

He who acts offering all actions to God and shaking off attachment, remains untouched by sin as the lotus leaf by water.

The Karma yogis perform action only with their senses, mind, intellect and body as well, withdrawing the feeling of meum in respect to them and shaking off attachment simply for the sake of self-purification.

Offering the fruits of action to God the Karma yogi attains peace in the shape of God-realisation..."

Shri Mataji: This is only possible after Realisation; how can you offer action? Fruit of action, you cannot.

Warren: “Only then he attains peace in the shape of God-realisation. Whereas he who works for the selfish motive, being attached to the fruit of action through desire, gets tied down.

The self-controlled sankhya yogi, doing nothing himself and getting nothing done by others, rests happily in God, mentally relegating all actions to the city of nine gates, the body with nine holes.

The Lord determines not the doer-ship nor the doing of beings nor even their contact with the fruits of actions.

It is nature that functions deriving its motive power from God.

The Omnipresent Lord does not partake of the virtue or sin of anyone. Knowledge is enveloped in ignorance, hence it is that beings are constantly falling into a prey to delusion."

Shri Mataji: See, “Prey to a delusion" and delusion, if identified with yourself, then God save you.

Again, it comes to Me, but what to do? `God save you' means also I have to do it! [Laughs.] Warren: “In the case however of those whose said ignorance has been destroyed by the knowledge of God, that wisdom shining like the sun reveals the Supreme.

Those whose mind and intellect are wholly merged in Him, who are constantly established in identity with Him and are exclusively devoted to Him, their sins being wiped out by wisdom, go to whence there is no return.

The wise look with the same eye on a Brahman endowed with learning and culture, a cow, an elephant, a dog and a pariah.

Even here is the mortal plane conquered by those whose mind is established in equanimity, since the Absolute is free from blemish and equanimous, hence they are established in the eternal.

He who with reason firm and free from doubt rejoices not on obtaining what is agreeable and does not feel perturbed on meeting with the unpleasant, that knower of Brahma lives eternally in identity with It.

He whose mind remains unattached to external enjoyment, derives through meditation the unmixed joy which is inherent in the soul.

Then that yogi, having completely identified himself through meditation with Brahma, enjoys eternal bliss.

The pleasures which are born of sense contacts are verily sources of pain, though appearing as enjoyable to worldly-minded people. They have a beginning and an end, they come and they go. Arjuna, it is for this reason that wise man does not indulge in them.

He who is able to stand here on earth, before casting off his body, the urges of lust and anger, he is the yogi: a harmonized soul, he is the happy man.

He who is happy within himself, enjoys within himself the delight of the soul and even so is illumined by the inner light, or the light of the soul, such a yogi, or a sankhya yogi, identified with Brahma attains the Brahma who is all peace.

The seers whose sins have been washed away, whose doubts have been dispelled by knowledge, whose mind is firmly established in God and who are actively engaged in promoting the welfare of all beings, attain Brahma who is all peace.

To those wise men who are free from lust and anger, who have subdued their mind and have realised God, Brahma, the abode of the eternal peace, is present all around.

Shutting off the thoughts of external sense enjoyments, with the eyes fixed on the space between the eyebrows, having equalised the Prāṇa and apana breaths, outwardly and inwardly, flowing within the nostrils, he who has

brought his senses, mind and reason under control, such a contemplative soul, intent on liberation and free from desire, fear and anger, is ever liberated.

Having known Me in reality as the enjoyer of sacrifices and austerities..."

Shri Mataji: Now, this part of Haṭha Yoga we have not yet started in Sahaja Yoga, but I will start it gradually. Because the tendency, in the West specially, is to go to extremes, so I don't want to do it, you see.

Warren: “Having known Me in reality as the enjoyer of sacrifices and austerities, the supreme Lord of all the worlds and the disinterested friend of all beings, My devotee attains peace."

Shri Mataji: I hope you have followed it now, you see? So, Sankhya and these things you should clearly understand and is a very good way of understanding what is expected of you, to have the bliss.

And what is to be done is first of all to get your Realisation and then become Karma Yogi. Work it out on Karma Yoga: means you do not become a Sannyāsī, don't run away from this world, settle down somewhere else. Because it will be very difficult: you go out of this world, stay somewhere and when you come back again you become a bhoot.

So what's the use? Instead of that, work it out here and perfect it.

So, this is Karma Yoga.

That's why we don't like Sannyāsīs here, because Sannyāsīs are a different style; they are ascetics, so-

called. They are really not ascetics, but possessed ascetics.

So we have to first bring them in the center and to understand they are in center where they have given up the duality, extreme of this and that.

They have to check it all the time and, when I am here, you should check it.

For example, now some people are performing Pūjā in Scotland; they said so.

I mean, whose Pūjā are you perform[ing], My photograph? Can't you perform your Pūjā here for Scotland? But I delude. They were not to be here for such an important Pūjā: I delude, I do it. I have told you I am Mahāmāyā. That's how they were deluded with the idea that they will perform My Pūjā in Scotland for Scotland.

What is the need to go to Scotland? Can't you perform it here? I mean, I am here, why shouldn't you be here? But when they asked Me I said, “All right, if you want to do it, you can do it." Sometimes, for some people, My photograph is more important than Me. Imagine the delusions! Yes, so many are like that. And then they'll say, “Mother, we did the Pūjā and then this thing happened." The delusions must show themselves.

Now who else is coming after that? [People keep coming to wash Shri Mataji's Feet.] Now, somebody can read Devī's names? Eleven names, or, say, hundred and eight names? Who can read? Now read, anyone from your group.

You can do it. Hundred and eight names, yes. You do it while they are washing. Who are washing? Have you

done it? Come along. Rub it, rub it hard, rub it hard, is to pour water. Very good. Rub it hard, pour more water, take more water from there.

[To somebody:] The sarī's looking nice, Phyllis. But you must learn how to wear it, alright? Ask Chaya how to do it.

That's all, good. May God bless you.

Where is he gone? Good. Now, who else? Rub it hard, hard. Rub it hard, very hard. My feet are very strong. Yesterday there were two people, *[UNCLEAR]* ladies: they got exhausted while... [Laughs.] Rub it hard! Just see which ones are the twenty-one names of the Goddess?

Sahaja Yogi: Hundred and eight names?

Shri Mataji: But it is better to have it in English.

Somebody can do it in Sanskrit and somebody can... but very difficult. You've got two books, is it?

Sahaja Yogi: That's Devī Māhātmyam, this is Lalitā Sahasrānama...

Shri Mataji: Hundred and eight names we do it from here.

***Contents: 1981-08-17*, Public Program, Seeking the Light, Caxton Hall, London, UK**

I must thank Warren for such a nice speech that he has given and all the Australians the way they have taken to Sahaja Yoga. They are all westernized in every sense of the word. There's something about them where I feel that they are very quick at knowing the truth. I don't know how. They are not that adamant against the truth. This opening somehow I found.

Seeking is everywhere very strong I feel America, England, Europe, everywhere the seeking is very strong no doubt. There are seekers. Of course there is also a fashion of seeking apart from that. There are real seekers, no doubt about it. And as he has said that ego orientation is one of the characters in the West. That also one would say that it is more now in the developing countries because they are supposed to be developed. But the way these people have a special capacity to see the truth, see the truth is a very big thing. Even if you are a developing country or a developed country, if you cannot perceive the truth, you cannot assimilate it. That perception some how was surprising, I found in Australia, was surprising.

Now for example in England I worked very hard, no doubt, years together. People are hard nuts, you can say. Once they are cracked they are wonderful scholars. They know how to completely sort it out with their brains, everything is there. But there are very few people who do that.

At the time of Christ you can see how many could recognize Him? Not even one, not even one, believe Me. Except for John the Baptist, of course he was a realised Soul.

So, I mean he should not be in the question. The rest of them were just sticking on to Him somehow, as He said that you stick on to Me for some time. And till He got His resurrection, they could not see the truth at all. To perceive it itself is a very big blessing I think. And I do not know why people cannot perceive it because I cannot go to the other side and see Myself what's the problem

is? For example in this country or in the West, on the whole, the false people have come. They have minted money. They have palaces and they have huge big aircrafts and they have material things and I mean immense wealth they have collected out of the people who are supposed to be westernized. But Sahaja Yoga, you'll be amazed even to crack a journalist is a headache. A journalist doesn't have time for Me at all. It's impossible to go and talk to any newspaper person, leave alone any television or anything like that. Radio is an impossibility. Can you imagine, with all these facilities God has given you, for spreading the message fast for the wider world? But it is impossible you can't talk to them, but let some, say a fake person coming, he's there. He's on the televisions, he's on the radio, Pope will come and see him. Your Archbishop of Canterbury will go and touch his feet. And he is a fake, absolute fake. Why? Only thing is that we are very money oriented. They come out with their money. They provide lot of money for publication. They take money and they use it. I mean if Christ was to be here I tell you He would have no place even a mike would've been difficult for Him being a carpenter's Son.

Sometimes I find it an impossible situation to tell them that after all how are you impressed by these people who are taking such a lot of money out of you in the name of God? One has to think about it that it is so money oriented that any man who comes with money impresses people. Amazing in the country, which is so affluent, they are suffering from affluence, that's their disease. And there they are impressed by people who are using money

as a purpose of propaganda of God Almighty. Imagine the absurdity. I don't know what happens to their brains? This time I went to Edinburgh and people told Me that most of the young people are disciples of a person who will not even be liked by the servants of India, take it from Me. Even our servants will take money to go to him. He doesn't know good English, even up to that point you can say. He doesn't know anything, how to talk to people. He says he is fourteen year old which he is not. He's married an eight-year-old girl. I mean all kinds of things. He asked for Rolls-Royces, he has fifty-eight, he wanted a fifty ninth so they starved themselves and collected money and gave him the 59th. You the English have done it, take it from Me.

Can you believe this stupidity? They have starved themselves and have done it. They are seekers, seekers of what? Of giving Rolls-Royce to this man? I mean I just can't understand how can it go to that stupid level? That's what I feel that in Australia people have not accepted anyone like that. They have not accepted. They are still you see, they did this, they did that, He did everything, Warren, *[UNCLEAR* Bah Kari] this that. He did everything that is possible under the Sun. They know all the Gurus, all the Gurus have gone to Australia and they didn't accept anyone. That's the main point. All the time they are shaky like this and as soon as they saw the truth they jumped on to it. We have to understand that Spirit cannot be related to money by any chance. It has nothing to do.

Christ was a Son of a carpenter. Just think of that. He, the owner of all the properties of the world, was born as a

poor man. And how can you relate this to money? I just fail to understand and this little truth Australians knew and I wish the English, the Americans and the Europeans take out their attention from money and the comfort so-called that money gives you. I am sure, I am sure this country will rise.

It has to rise. It has to rise.

Unless and until England rises, the world cannot rise. This is a definite thing. Absolutely it is as definite as anything. England has to rise first because it is the heart of the Universe. And the English Sahaja Yogis have to also awaken to their responsibilities, which is very important. I will give all My blood, all My energies, all that is possible under the sun to awaken this country to its responsibility as a Spiritual nature, as the Spiritual being, as the Spiritual heart, as the donor of blood, all over. And this is what saddens Me to see how people are drowning themselves into some sort of a illusion and are not being able to see the truth.

Now as he has told you, that Sahaja Yoga is fantastic, no doubt about, it because you are fantastic yourself. You are the Spirit; you are The Spirit. You have to just become the Spirit is the point. Once you become the Spirit you are dynamic; not dynamic but you are the master of everything. You can control things, you can enjoy everything, you become blissful. You can do such a lot because you are the Spirit and you have become the Spirit. It is as simple as that. God Almighty has placed this Power within us at the triangular bone, it exits there.

It has to just rise and give you a real baptism by which you feel your Spirit first time where it flows like Cool Breeze in the hand. As simple as that.

Now this happening is a very very strong happening. For some people it's a very strong happening, first day, because you are seekers. You are seekers. Believe Me you are seekers of thousands of years. Born in this country to get what you have been seeking. But what do we expect? I wish he had not mentioned you the word Pūjā because it can again give you the thing that it is sort of a some one-person business. It's not that. Warren says Pūjā because all these centers have got Deities. Especially this center is the center of Christ. You have to make these Deities within you happy and awaken them. And that awakening must take place; you must understand where these Deities exist.

And these deities are nothing but are incarnations of God's aspect like you can say Christ incarnated, who is placed at this point where the Optic Chiasma is between the pituitary and pineal body. And when Christ is awakened, when He gets into action within you, then your two things that are shown there, the blue and the yellow, the blue is the superego and yellow is the ego, are sucked in. Means all your Karmas, all your doings, your ego and superego are sucked in.

That means He has crucified Himself in such a way that He has made within us a passage. When He is awakened, He sucks that and all our sins. Sins is nothing but conditionings you can say and other things that we have got within us. Everything is sucked in. When it is sucked in, then only the Kuṇḍalinī can rise above that.

Now Sahaja Yogis know that Christ is one of the aspects, is the Son aspect. And there are aspects where He is a creator, where He is a sustainer, where He is a Master you can say and where He is the witness. All these things, people never gave chance to Him to speak. Now I've been speaking for seven years in this country. But for four years I could've hardly spoken even twice or thrice because I was struggling with six of them.

So we can imagine you gave Him only three years or say at the most four years to speak about these things and how many things He has spoken and how many these people who were supposed to be his disciples have written down, God alone knows. And whatever they have communicated is so limited that it has created problems for you. But every sentence, every word that He has spoken is so deep and you can only understand it when you get your Realisation.

When there is no light what's the use of telling you there are these pictures; there are flowers there and this picture there and this is the colour of the paper that is put on these walls, what's the use? There is no light to see. When you get the light I don't have to tell you as He said, “The knowledge start *[UNCLEAR* tickling] within, automatically." You are that Spirit and unless and until that Spirit is manifested what else are you seeking? A Guru says, “I do this thing, I do that thing." All right so what? What about us? What do we have got it from this temple? What has he given us? You must find out. His disciples are there. For example they went to the Gaṇeśhpuri this thing and there everybody was jumping.

“Ha, ha, ha, hu, hu” taking out clothes and I don't know and then taking all kinds of drugs and this and that.

For jumping you don't pay. You can jump without paying. And drugs also they had to pay. Even without payment he could not produce any drugs.

So one should understand that this kind of a nonsense and down foolery is mockery of yourself. Is just mockery. You are that dignified, magnificent thing, which is the Spirit. And you are befooled by these people. You should see, this much at least, that anyone who has given any powers to another person should be accepted, isn't it? I mean supposing somebody says that a particular thing is very good. Say, `this kind of a lamp is very good.' Then you see at least how it works? If the one who says, `You see the lamp.' You must at least see the disciples of these Gurus and then decide. This is very much lacking. Like sheep they follow and they fall into horrible ditches. Doesn't matter as far as God is concerned He's bent upon saving His creation. He's bent upon it. He will do it whatever you may try to destroy. You try your level best to destroy yourself and destroy the world that He has created. But He is all-powerful. He is all forgiving. He is all compassion. He is going to save you whatever you may try. Try your level best. But for a change why not try to save yourself and save others? This is what one has to seek.

Now when listening to Me also you should doubt because you are in free condition. You are not mesmerized by Me. If I was a real mesmerizer, you could not have asked Me any questions. You all would've fallen straight at My feet. There would have been no questioning at all because

there are thousands who are doing that stupidly. But you are free, you are free to doubt, no doubt. But doubting what? One has to think, “What are we doubting?" As he said, “I am the most expensive person." *[UNCLEAR* It makes Me laugh]. Because you cannot pay for it. It's so expensive that all your banks drained out cannot pay for it. All your wealth that you have here so-called wealth that you have accumulated cannot purchase it. It's so expensive. It is invaluable. Is the richest thing in the world that cannot be purchased by any riches. It is, no doubt but is not exclusive. It's meant for everyone. The doors are open now for everyone.

Now don't you worry. Don't count your sins and your guilts and this and that, forget that. It's the grace that itself is anxious as I told you and you all ought to get your realisation and should grow into it.

You will enjoy the complete bliss of your being which is so beautiful. Like a diamond it is sparkling. Only thing, you have to just unveil it. And that is not difficult for you, not at all difficult.

Now the things that he has told about the physical side, that's the minimum that should happen.

That's the minimum of minimum that should happen to anyone who comes to Sahaja Yoga. Because if you are the temple of God then it has to be cleansed before God is established within you, before the Deity is sparkled in you, it has to be cleansed.

So the cleansing takes place automatically; don't have to worry about that, that's automatic. Even a thing like cancer can be cured in no time. A cancer can only be cured by Sahaja Yoga, by nothing else take it from Me. It

cannot be cured. It may be that you may loose your throat, sometimes nose, sometimes ears and you may continue with the doctors but with cancer you live in one body and get cured. And there are some cancer patients here, sitting down. They perhaps do not know and some of them know also; have been completely cured by Sahaja Yoga. The reason is that your body is just ready, is waiting for that moment when you get the light. As soon as you get the light immediately you know where is the problem and you start correcting it. Once you start correcting it, it's not you. But this Power corrects it. Imagine this light not only enlightens the room but also corrects it. Think of such a thing that is God's love. That it loves you, it coordinates everything, it makes you cooperate and it blesses you with the highest.

This All-pervading Power has been described in the scriptures. Everybody said, “There is All-pervading Power." Now you might say, “Where is it? We can't see. How are we to believe?" Now as I always give an example of a television, which I saw first time when it came to India. That in a village people were told that there is an ether around us and you can, there are lots of dramas and music and plays going on.

They said, “How can we believe it?" So they just put the television to the mains and it started working fantastically. And they were amazed, they had to believe that is coming, there's no other connection, is coming, through this.

That's what it is. You are an instrument. Exquisitely made, beautifully, delicately constructed. Just for this happening. Of course you've ruined it.

So many have ruined it no doubt; you have tried in your childishness. Doesn't matter; makes no difference. You will get your realisation. You should have no worry on that point. That's My worry. Once you get your realisation then you can give realisations to others.

Now about the lady that he told who got well and was very sick. I must tell you that first of all she was very very sick and she was about to die. I was not there at that time. Actually these people were there. Warren didn't want to say out of humility I think.

These people went there and put My photograph there and gave her vibrations. And she came to consciousness and they were surprised. The one, who was going to die, has been declared, going to die very soon, came to consciousness. And they then thought there's something great about it. Then they came away. Still the doctors couldn't believe it. And the relations also said, “How can that be? What is it?" She again went into coma, when I was there.

But a gentleman, who was related to her, was connected with newspapers.

Some how it worked out and he published a lot that we have proof to believe that Sahaja Yoga can cure people. And that's how it started and that's how worked out. But the first thing was done by Warren and company, not by Mother.

So they themselves had the powers to cure, to give realisation, to do all that I can do. And that's what it is that once you are enlightened you should manifest your own powers. Otherwise the rest of the thing is nothing but a joke. You jump or you stand on your heads. That

you can always do what is so great about it? If it is some God's grace has to come upon you then you must manifest something special. Not only curing but raising of the Kuṇḍalinī.

Now this triangular bone is called as sacrum, meaning sacred bone that means these people, who have given the name to it long time back, must have known that this is a sacred bone. Otherwise why did they call it sacrum? But I think that knowledge was lost in Latin, in Norway must have been, the knowledge was lost and that's how they do not know, they just call it the sacrum. Now you can see with your naked eyes, the pulsation of the Kuṇḍalinī and rising. You can feel the pulsation on your head when it comes there and afterwards you find complete it has become quiet. As soon as becomes quiet you start feeling in the hands. Of course this center should be all right. If this center is not all right you don't feel in the hands but you feel on the head. This center is to be corrected then, then you can feel in your hands.

Now this you can do yourself when you are realised. It's not only Me, you can do it also. I mean in, say in Australia say, we can say if there are two thousand people who have got Realisation, I could've given only to about five hundred, the rest are done by these people only.

You people can give Realisation. But difference in Australia and here is, now if an English Sahaja Yogi tries to talk to someone about Sahaja Yoga, the person says, “You are not supposed to discuss religion." I mean that's an etiquette, it is supposed to be. You can't discuss religion. This you can't discuss God.

So they run away. Hard to get even two people in, to talk about Sahaja Yoga. This is the problem otherwise all of them are capable of giving realisation.

Now Douglas is sitting here. Talk to David Frawl. I knew that he was doing TM and he told him also. And here talking to him, David Frawl feeling heated up, absolutely boiling. And he was perspiring, is a fact. And when he came to the thing, now he's got Realisation. He is giving Realisation to people when he got cured. I mean you don't need much brains for that. You don't need any accessories of the world, which are regarded as very practical. I would say that Douglas at that time was one of the most impractical person. He had taken drugs and he had taken all these things; there are many who were like this.

Some were, some had come from lunatic asylum and they started giving realisation.

The other day in Norwich there were three persons sitting in front row and were all shaking up before Me. I said, “Now from where these have come?" I asked them, “From where they have come." They said, “We have come from lunatic asylum and we are certified mad people." I said, “You are certified and you are here. How are you here? I mean if you are certified mad you are not supposed to be here." They said, “One person came to My program and got well.

So the authorities have sent us here for getting well, so we are here." And I won't be surprised that these three may start a Sahaja Yoga center in Norwich, very soon. But I said, “You better return the certificates to them." It is such a great thing you can imagine certified mad

people getting Realisation and starting a Sahaja Yoga center.

There are people who were cancer patients, who got realisation and have started a Sahaja Yoga center.

So you can imagine how tremendous are the Powers of God and how carefully He has made us to be that Spirit. We have no idea; we have no esteem of ourselves. We do not know what great thing we are and what we have to achieve and what we have to enjoy.

Actually He is such a gracious Father, He's so generous and He's so loving that He wants to share His joy. He wants you to enter into the kingdom of God. And to enjoy that bliss, that happiness, that freedom which has been promised to you in all the scriptures. It's as simple as that. It is so simple that I don't know how I've given four hundred lectures about such a simple thing like Self-realisation. And they say they are all wonderful and one is better than the other.

But today's lecture must be, has been a more of an introduction because according to them there are many new people today. Whatever it is I would like to allow you to ask Me some questions. And everybody should admit that new people should ask questions and Sahaja Yogis should not feel upset about it. Because sometimes you know questions can be very aggressive and they get upset. But there should be nothing to worry about it. It's all right your Mother knows how to handle everything.

So nothing to be upset about it because they have already passed *[UNCLEAR]* saying that no questions will be allowed to ask to Mother. See if I am a Mother, if I have patience, if I have love then you should not worry. You

should not worry about it at all. I have to manage all of them.

Sometimes in the beginning everybody is like that.

Just now Warren has told you how he was because he was made to sleep on the cement. I mean he was not made but he slipped out you see. And next day he was down with very great agitation, he was going back to Australia. But I caught hold of his shirt, I said, “Can you wait for sometime let's see it might work out?" So it is like that. It's a very sweet thing you know and I know that children have a right to get angry with Mother but not too much of it. Because after all you are here for a purpose and that purpose must be fulfilled. That's why I am here.

May God bless you all.

I would like to have really some questions because sometimes these questions also help a lot for Me to understand what's the problem is. Can I have some questions please? Yes please.

Question: *[UNCLEAR]*.

Shri Mataji: Yes, Yes. What Warren has told you is a caution but I have, I know so many people who have got Realisation without any return. *[UNCLEAR]* I know so many people *[UNCLEAR]*. Warren has given you a thing of caution because he has seen some people that they drop out because the Kuṇḍalinī comes down and they find little frustrating. But I have all the patience and you should have patience but I haven't met anybody who has been with us, doesn't feel it. You may not feel the vibrations but there are, Realisation is there. Because when you put your hand on your head you definitely get the Cool

Breeze coming out and you give Realisations to others, that's the proof of it.

There's someone who was always caught up on all the fingers, he feels the tingling all the time. But he gives Realisation to so many people. He has given himself, he's caught up.

Its something like this, you can say even if it's the fifth hand car it moves, once started. You go on repairing it, but it moves, no doubt it moves.

So nothing to be upset about it.

Question: *[UNCLEAR]*.

Shri Mataji: When do we? Right now? Me-Me? I don't know how many thousand years. I was born with it. Yes very much, very much, very much, very much realised. I was born as a real great great Grand Mother, I tell you. I knew everything about *[UNCLEAR* it/her] from My very childhood. I was very conscious, over alert.

Question: *[UNCLEAR]*.

Shri Mataji: Repeat! Question: *[UNCLEAR]*.

Rare thing beware, beware yes beware, beware, beware, yes true. Yes, it's correct, correct that's true.

[UNCLEAR]. Yes I must tell you about that. You see the people who have written about Kuṇḍalinī. I started knowing about them that there are people who have written about Kuṇḍalinī. And I was amazed because they are absolutely ignorant, not only ignorant but stupid people. I don't know from where did they get this knowledge because people do not know about this, they started printing it. Perhaps anything you can print and isn't it? I've seen such a big book where the fellow

doesn't know where the Kuṇḍalinī is; he says it is in the stomach. Then he says it is in the back, he doesn't know anything. Now the trouble is this knowledge was a very secret knowledge, thousands of years back and it started descending, this knowledge to people very slowly like on a tree there's only one flower or two flowers maybe.

Now in the sixth century, actually Christ talked about it quite a lot. And other people like Moses and all these people have talked about it. But the ones, who wrote, never got anything. *[UNCLEAR* They have?] Perhaps so they wrote it in a very mystical way like, “I'll appear before you like tongues of flames" or “the tree of fire" and all that, indicative of all that. But it so happened that in the sixth century somebody in India called as Ādi Shañkarāchārya, He was actually Buddha reborn, He started talking about it. Self-realisation, of course Buddha talked about it. Then He started telling about these, all these Nāḍīs and everything He described.

But there is a poet in India whose name is Mārkandeya who has written about this. They say he was living in India about say ten thousand years back, this poet, about that time.

So this knowledge was known to people but was not put down on the paper, was not circulated, was not for en masse.

Now these people who are writing about it have no knowledge, have no authority and they have tried these tricks. Actually this is the holiest of holy, the sanctum sanctorum within you. And a person who himself is authorized by God can only do it. Authorized by God not by any say theological college or all these things. It

cannot. God should authorize, like Christ, like you can say John the Baptist, like Moses, like that somebody authorized by God can only do it.

So these people tried the tricks, which are unauthorized and they got results because there's a deity sitting in the last Chakra called as Mūlādhāra Chakra, which is the root, support of the root. That Chakra, He tries to excite your sympathetic by that and when the sympathetic is excited you get all these heats and this and that and the boils and all.

So it is not meant for people who have no holiness in them. You have to be a holy person, who should be able to raise the Kuṇḍalinī, you should be cleansed otherwise you cannot do this work.

While there are people who are connecting Kuṇḍalinī, imagine, with sex. I mean it's an absurd thing; She's your Mother. She is your Mother and has been your Mother all these ages and it's like having a dirty feeling for your Mother I would say that. It's such a filth.

So God should punish them *[UNCLEAR]*.

That's how they have it as a punishment. It's not at all to be afraid of your own Mother. Will you be? I mean that's one thing you are not afraid of, is your own Mother. Should not be. I mean modern mothers I don't know. But that's what it is. It is they have no knowledge.

Now I must tell you that Sahaja Yoga must have given realisation I don't know how many thousands, tens of thousands of people. Of course you may feel little heated up or if you are possessed, you might feel little bit shaken up. People who have been to TM, one of them jumped about 20 ft., when they heard My name. All these

things may happen to few people. But I mean such extreme cases are very rare, that's all. But nothing goes wrong. I mean you are ultimately cured of that.

So you might get little effects of that. But nothing serious. I am here to look after. On the contrary it's very blissful, very blissful.

If one does not know about something, they should not get into it, isn't it? Any other question? Question: *[UNCLEAR]*.

Shri Mataji: But you must get it, that's the main point. You see, this if you don't get, you will never be happy person. You have to get it and it is your right. It is within you why not get it? It just doesn't cost you anything. You have to have it. But people refuse to have this, imagine refuse to be the Spirit.

Can you imagine? They are satisfied. The other day I met a lady who came and she said, “I am quite satisfied with the simple life I lead, Mother." I said, “Now what am I to do? If you are satisfied My child, I would only say that a day will come and you'll come back to Me, but I may not be here." You see all these things recoil upon. What question of sinfulness? Even a sort of a casual way towards your Spirit, if you are casually interested in your Spirit it tells upon you, because Spirit resides in your heart and it recedes, you have problems. And you all get into problems with that. When they get into problems, I mean a lady who came to Me, she said, “I am not interested, this that." And she said, “I don't want to do it." But ultimately she got cancer. When she came to Me and she had a galloping cancer. We tried to help her, we couldn't help much, she died. It happens with some

people that they come at a stage where we cannot help them at all.

So best thing is to get your own powers of your Spirit and be all right, enjoy yourself. You don't have to pay bills of doctors. You don't have to worry about so many things. And automatically the whole thing works out. And also the petrol bill, as he said.

Kṛiṣhṇa has said, “Yogakshemam vahāmyaham." Means when you have the union, Yoga, when you become united, with that Divine Power, the well being is looked after. I mean all the Sahaja Yogis who are here, have benefited even monetarily, because within us lies also the power, which gives us money. Which gives us well being. There is a center within us, which does that. And if that center is caught up then people have problems with money. Once it is cured, you don't have. Not money as such but material life, improves definitely.

Question: *[UNCLEAR]*.

Shri Mataji: Chakras are the essences, you see, which create our plexuses. And the plexuses are expressing the nerves.

So the Chakras in any case are the predecessors of the nerves, of the nervous system.

They are the predecessor. They are the ones who supply the energy to the nerves. They are the ones who guide the nerves, Chakras.

Question: *[UNCLEAR]*.

Shri Mataji: What say? Astral body, our body is made of various, various cocoons we can say. These Chakras are say we are material being or physical being, we are

emotional being, we are mental being, we are spiritual being and all these are like our body. Now the astral being that you know is actually the soul, we can say, which is this whole body without the element of Earth and Water, that's the astral body. Now this astral body you should not worry much because that we get in any case when we die. That you are going to get it. But when we have the body then only we can get our realisation, not in the astral sense.

But people are trying lots of tricks with these astral bodies, which is a very very dangerous thing and it has reached such dangerous limits, because people have interest in this, that I am really shocked the way it is working out.

For example: there was a couple in Switzerland and they had a relation, their mother in America.

And that lady was trying with one of these astral body persons, those who work on Spirits and she said that I would like to talk to my grandson. And the grandson is a living child and the child is in Switzerland.

It sounds very fantastic to people. That is something great you see, the child is in there without paying any airfare you can talk to your child, grand child. It's very dangerous.

And they used to try that on the child and the child when it would sleep in the night, it would be daytime in America. And she would talk to him through this and she would hear the voice of the child.

They recorded all that. One day this child was sleeping and he never got up, he died. And the recording said that it is too much strain for me, now let me go grandma, let

me go, let me go. She said, “No, no, wait for a while, wait for a while" and this spirit controlling woman would not allow the Spirit to go back and the child died, is a very common happening now that the children suddenly die in their beds.

So all these tricks we should not try. Whatever is unknown is not Divine. You have the left side and the right side. This is called as the Adibhautik and it's the Adidaivik, means the collective subconscious and collective supraconscious. There are all these dead Spirits. Don't play with them. Don't get into this nonsense of astral body and this and that. There are some people who say that we want to separate from our body and fly in the air. Why, why do you want to do that? You want to have your spirit or not? If you want to have these experiences, I am not for that. And I will ban it, if you ask Me. It's absolutely horrible. Of course people take money for it and people like it to talk to spirits and this and that but is very dangerous. You should never try this with the spirits. Is a very dangerous line when you do not know about it, one should not get to it.

I have known people who have practiced these things; their great grand children are suffering, seven generations they suffer, seven generations. Those even practice it.

So it's a very dangerous game, one should never play it. What is the need? You should live in the present not in the future or not in the past.

It's the present you have to achieve.

So you just don't worry about these things. You become your Spirit.

You have to be born again and that should happen to you, which should be an actualisation that should actually happen.

And what these Gurus are doing, are nothing but putting the Spirits in you and are mesmerizing.

That's how you behave like this. You are no more yourself, you are something else. This is the trick of the trade. They are all using you for their own purposes by just mesmerizing and mesmerism is manifested by using the Spirits, which they are controlling. Especially for Christians it is forbidden. I don't know; I don't know how they don't understand.

So let's have the experience now. It's just a split of a second needed for that, split of a second. It depends on, if he, if the landings are very good you won't feel anything else but the Cool Breeze suddenly but if it is not smooth landing take little time. As soon as the Kuṇḍalinī pierces this, you feel thoughtless.

There is no thought.

So you may try to see just now put your hands towards Me like this just because the centers are here expressed of the sympathetic. Just put your attention to Me and see if your thoughts have stopped. And then close your eyes. If that has happened that means Kuṇḍalinī has already gone above.

It moves very fast, very fast it moves.

Now few things you have to accept in Sahaja Yoga. First of all you have to accept that God is the ocean of forgiveness. That He's ocean of love, He is compassion and you are not guilty in His eyes at all.

And you should not feel guilty before the ocean.

So you have to just say before starting your meditation that `Mother', in your heart, `I am not guilty,' `Mother, I am not guilty,' `Mother, I am not guilty.' Thrice you have to say.

Now you have to forgive. You must forgive everyone. Just say that, `I forgive.' Those who say, “It is very difficult to forgive” actually, not to forgive, what to forgive is all mental activity. What do you do by that, just torture yourself? So please say that `I forgive' and close your eyes now. Say, `I forgive, Mother I forgive everyone.' Just say, `Mother I forgive everyone.' Keep your feet on the ground both the sides touching and don't move much. Just say `Mother I forgive everyone' say it thrice. Now put your right hand on your heart where the Spirit resides. And without feeling guilty, without feeling guilty, again I say, without feeling guilty say that `if we have done any mistakes, please forgive us, please forgive me.' Say this thrice from your heart, `if in my seeking, if I have done mistake, if I have neglected my Spirit or if I have neglected my duties towards my Spirit, please forgive me.' Just go on saying `please forgive me.' But don't feel guilty with it. You are not to feel guilty about it. Just say it that `please forgive me.' I think you should again say, `I am not guilty' because as soon as you say that, there's a catch on the left Viśhuddhi, so you say `please forgive me and also forgive me for being guilty.' That would be better.

Now you ask a question `Mother am I the Spirit?' Ask the question `Mother am I the Spirit?' Ask thrice, `Mother am I the Spirit?' You might feel Cool Breeze coming in. You

ask thrice. If not, now say `Mother please give me my realisation.' Say it thrice. Just say it thrice. Then it would work out. You will start feeling the Cool Breeze in the hand, left hand. Stretch it towards Me, little bit. Stretch it. Ask for realisation. Now don't feel guilty. Are you are getting it now? Don't feel guilty; you are not to feel guilty.

That's the biggest disease of the West.

Now you put your right hand on the head and you might feel the Cool Breeze coming out from your head. Just see if there's a Cool Breeze coming in. Raise it higher, see may be? Is it? Not feeling. In the hand? Not yet. Close your eyes and ask the question, `Mother am I the Spirit?' Thrice, `Mother am I the Spirit? Mother am I the Spirit?' Now ask for realisation, `Mother please give me my realisation,' thrice.

Now you can put your left hand on your head and right hand towards Me. Let's say some people have this problem you see. Right hand towards Me. Now, ask the question `Mother am I the Spirit?' OK thrice.

Now you forgive, you just forgive, forgive, forgive everyone. Say, `I forgive, I forgive' once again, `I forgive, I forgive, I forgive.' Again, `I forgive.' All right, getting it? Not yet? All right, if you won't, now, not yet? We'll see.

Are you? Little bit on the hands, just see, may be in the hand just see. It will work out, it will work out. It takes little time but it works out, works out, it works out. Don't you worry; don't get desperate with yourself. Keep your eyes shut. It will start coming slowly, slowly, slowly; it will start working. It is very subtle but it starts working. Now.

I think open those windows to pass out some of these heats. Lot of heat is coming out.

Now just see. Douglas, Douglas, see your neighbour, has he got it on his head? Just see, here him, just see him, not yet! He has got it, he has got. That's what I feel. Can you see all of you? You have got it. I knew, you got it long time back. Now see, what about you? Just ask for forgiveness, a little bit, all right, ask for forgiveness.

Kathy, can you see? Can you see the gentleman next to you? John! We'll work it out, somebody will work it out. Don't you be worried about what they are doing because the Power is flowing from them so they are just working it out.

Who are all the new people, please raise your hands so they'll come and help you. Just go, come along.

Ken, come along. Left Swādhiṣhṭhān, you have to say the mantra of Nirmalā Vidyā to get over the left Swādhiṣhṭhāna, is quite a lot.

[Marathi.] It's all right I think, a little liver, a little. How is the lady? She has left, left Nābhī. Ask her to put her right hand on the left Nābhī. She'll be all right.

[UNCLEAR].

Felicity, are you all right, better? Please do not feel guilty. If it has taken time, don't you feel guilty.

What's the matter? Djamel, right Heart. Please don't feel guilty, what are you guilty about, don't feel guilty, all right. There is nothing to feel guilty, what is there to feel guilty? I mean what crime have you committed? She has got it actually, enjoying. Now, how is this gentleman, right Viśhuddhi? Left? You are feeling guilty, Mister all

right. Yes, now put your left hand like this towards Me. And now put your right hand here and now say that you are not guilty at all. `I am not guilty,' just say it to yourself, say it thrice, again.

***Contents: 1981-08-22*, Public Program, Day 1, Lausanne, Switzerland**

[Shri Mataji arrives 1 hour late and while walking from the back to the stage, a couple of elegantly dressed Swiss people stood up showing their watches, indicating that Se is too late.] For God there is no time.

***Contents: 1981-08-22* Interview with Philipe Nicolet published on Aug 24 in `24 Heures' [24 Hours] in the article Mātājī ā Lausanne: INCROYABLE MAIS CRU “Je suis le Saint Esprit" [Mātājī in Lausanne: UNBELIEVABLE BUT BLUNT “I am the Holy Spirit"], Apartment, Lausanne, Switzerland** (other date 08-23,24)

[Philippe Nicolet]: Quand avez-vous décidé d'annoncer que vous étiez Divine?

[Shrī] Mātājī: C'était le 5 mai 1970. J'avais fini d'élever mes enfants, et je pouvais donc me consacrer ā mon ministfiere. Ce jour-lā, j'ai décidé d'ouvrir la voie de la “realisation" ā qui la désire réellement.

Etre “réalisé", c'est avoir la pleine connaissance de soi-m^eme et ^etre reliffe a l'Etre universel. Ce stade de l'évolution spirituelle est le dernier. L'avant-dernier était ceiui laissé par le Christ, du pardon et des péches lavfies par la croix. Jé-sus avait annoncé un réconfort pour les hommes. Me voici. Je suis le Saint-Esprit.

[Philippe Nicolet]: Le savez-vous depuis longtemps? [Shrī] Mātājī: Naturellement. Je suis née “réalisée" ā Chindawara, au centre de I'Inde, dans une famille chrétienne. J'ai étudiffe I'anglais, puis la mfiedecine, dans l'intention d'enseigner aux docteurs, aux gens instruits, autant qu'aux autres. J'avais ā apprendre sur le plan humain, mais je connaissais tout sur le plan spirituel. Un prophfrm[o],ete du nom de William Blake avait annoncé ma venue.

Leger courant d'ai 24 [Philippe Nicolet]: Qu'enseignez-vous? [Shrī] Mātājī: J enseigne le Sahaja Yoga. Sahaja signiffe inné. On peut facilement suivre ma méthode sans effort, ni tension, bien que le mécanisme a l'intfierieur de l'^etre humain soit trfies compliquffe. Gr^ace ā elle, l'individu peut ^etre “realisé". Les mille pétales du lotus qui entourent sa Fontanelle vont s'ouvrir, et it obtiendra une conscience collective, reliffee ā l'univers. C'est lā le seul bonheur vfieritable et total de l'homme. La premiffere manifestation de la “réalisation" est la sensation de vibrations silencieuses qui font un trfies léger courant d'air prfies des doigts. Ces vibrations sont l'émanation de l'énergie Divine et donnent la pleine connaissance.

[Philippe Nicolet]: Avez-vous “réalisé" beaucoup de gens jusqu'ici? [Shrī] Mātājī: De 1970 ā 1972, une douzaine de personnes environ. Et depuis, des dizaines de milliers.

J'ai “realisé" Jean-Paul II a Cracovie, avant qu'il soit pape.

[Philippe Nicolet]: Jean-Paul II est done “realisé" selon vous? [Shrī] Mātājī: Non, plus maintenant. Il a perdu ce que je lui avais offert.

[Philippe Nicolet]: Ainsi, la “réalisation" n'est pas definitive? [Shrī] Mātājī: Pas forcement. Le lotus pout se refermef.

Photo gufferisseuse 24 [Philippe Nicolet]: Comment “réalisez-vous" quelqu'un? [Shrī] Mātājī: Je lui transmets mon énergie nécessaire a l'ouverture de la Fontanelle. Il n'y a pas besoin que je sois lā physiquement. Ma photo, qui émet tout comme moi des vibrations, peut sufire ā une “réalisation", ā condition d'^etre pr^et spirituellement. On peut gufferir de toutes les maladies gr^ace ā ma photographic.

[Philippe Nicolet]: Vous donnez done aussi dans le miracle? [Shrī] Mātājī: J'ai gufferi des cancers et de nombreuses autres maladies graves. Mais ce n'est pas le but de mon message. J'ofire la santé spirituelle, la plénitude de l'Etre intfierieur, ce qui est infiniment plus fondamental que la santé physique.

[Philippe Nicolet]: Etes-vous parfois embarrassée que l'on prie autour de votre image, en allumant des b^atons d'encens? [Shīi] Mātājī: Non, car ceux qui le font en refficoivent beaucoup de bien et go^utent au bonheur réel. Its le font d'ailleurs spontanément, sans contrainte et sans conditionnement, contrairement ā ce qui se passe autour de nombreux faux prophétes et de charlatans. Mon message est celui de l'espoir, de l'amour et de la paix.

Et la finance? 24 [Philippe Nicolet]: Ne craignez-vous pas que se créent des empires financiers autour de votre nom? [Shrī] Mātājī: C'est impossible. La gr^ace Divine n'est pas monnayable. Tous ceux qui tenteraient de se

faire de l'argent avec mon message perdraient aussit^ot la “réalisation".

[Philippe Nicolet]: Vous arrive-t-il de vous sentir ridicule et de douter de ce que vous racontez [Shrī] Mātājī: Non, je ne doute jamais, puisque je connais toutes choses.

Contents: 1981-08-24 **Quotes from an article by Anne Cendre titled `Aujourd'hui et demain ā Genéve,Mātājī veut promouvoir une revolution spirituelle' (`Today and tomorrow in Geneva, Mātājī will promote a spiritual revolution'), Geneva, Switzerland**

L'Inde venait d'accfieder ā l'independance, it etait important de rester et de travailler dans le pays, plut^ot que de representer l'Inde ā l'etranger.

Vous ^etes comme une lampe que je branche sur le reseau.

Je suis comme une mfiere qui soufire en m^eme temps que ses enfants.

Il faut changer le monde si on veut eviter la catastrophe. Les gens sont agites, ne pensent qu'ā l'argent, its ont peur, its veulent se defendre ou attaquer au lieu de laisser agir leurs forces spirituelles pour to bien-^etre de tous.

Contents: 1981-09-04 **Talk to Sahaja Yogis, Advice on Ekādaśha Rudra, Ashram, former Hotel, Bramham Gardens, Earl's Court, Kensington, London, UK**

Now if you have left Āgñyā, that means there's possession on it. That means all of you have got something of that kind, already you're caught up, you're

not clean. What is the mantra for this, Gavin? For the back Āgñyā, Mahāganesh. Mahāganesh, Mahābhairava, correct. Now see, in the brain you've got all these seeds of the Gods and they are the seeds because they're the causal of these.

So the first, the causal is created and then the deities are created.

So, for example, causal of the Mother Earth is fragrance, all right.

So from fragrance comes the Mother Earth. In the same way the causal of Brahmadeva is Hiranyagarbha, all right? He's called as Hiranyagarbha. He's the causal of Brahmadeva.

Where does he stay in the brain? In the brain of the Virāta whatever deities leave are the causal and Manas also, because they're reflected.

So the causal ones are here in our brain, in our brain, in our brain. At the back here, around the Āgñyā, now I give you the name, no, around the Āgñyā. Āgñyā is Mahāgaṇeśha and Mahābhairava, Āgñyā, at the back. And in front...

At the back is actually Mahāgaṇeśha, just in the center. Just in the central point is Mahāgaṇesha.

This is the minutest point. Around him moves Mahābhairava, all right? And around this, the rest of it that moves is Hiranyagarbha, all right? Now did you follow that? So when you think, or whatever thinking you do, through this superego, through this superego, you get the development of this Hiranyagarbha. Did you follow that? And also otherwise, is also, who acts when

you think? Is Hiranyagarbha. This is Swādhiṣhṭhāna, we call it, this is Swādhiṣhṭhāna Chakra around it, all right? Now, so Swādhiṣhṭhāna is divided into left and right. Left Swādhiṣhṭhāna is Hiranyagarbha and right Swādhiṣhṭhāna is also Hiranyagarbha, at the back here.

So now to point out first of all, at the back, if you move, is Mahāgaṇeśha. Around him moves Bhairava, who protects Mahāgaṇeśha. Around it moves, now moves Hiranyagarbha, at the back. But Hiranyagarbha has left and right side while Bhairava and Gaṇeśha, they move on each other. Did you follow that point? Now in front, in the center here, is who? Kārttikeya, in the center; Christ is in the center, in the center itself where the Optic Chiasma is. Here outside is Kārttikeya. What is Kārttikeya? Kārttikeya is the protector of Christ. Around Kārttikeya, they're all protectors of Christ, moves who? Now who is Mahābhairava's counterpart? Mahāhanumāna, Mahāhanumāna, all right? And around that, what does move? Ekādaśha Rudra.

The movement of Ekādaśha Rudra is not circular, doesn't move like that. It moves like that. Or you can say, move like that. Now what is Ekādaśha Rudra? Let us see. Can you give the names? Of Ekādaśha.

Take one by one. Buddha, right? Mahāvīra. Then Christ, then Mahābhairava. How many of them, four.

Then Mahāgaṇeśha, five. Did I say Bhairava? Again, again say it one by one, Buddha, Mahāvīra, Christ, Mahāgaṇeśha, Mahābhairava. All right, this is very clear-cut for you because just now I've told all of them. Buddha, Mahāvīra, Christ. Then, what else, four are left, four are still left. Mahāhanumāna, you didn't tell?

Mahāhanumāna, how much it is now? Three left, no four are left, four, now what are these four? Say, it's very simple.

Just now I discussed with you Mahāhanumāna, Mahābhairava, two, Buddha, Mahāvīra. Four, now, Kārttikeya. Kārttikeya, Gaṇeśha, sixth. Christ, seventh. Now four more are left, now who are the four more, let's see, can I have it? Pat, come along. You've done lot of reading. They have written it down into something, eleven of these. Brahmadeva, Hiranyagarbha, correct. Viṣhṇu, Nārāyaṇa, Lakṣhmī Nārāyaṇa, how much it is. Shiva, Pārvatī, everyone. Shiva and Shakti, all right? Eleven of them. Lakṣhmī Nārāyaṇa is one, Brahmadeva Saraswatī is back, Shiva Pārvatī has... All eleven are there. Why Shiva and Pārvatī? Two have to be taken because Shiva is the Guru, Pārvatī is the Shakti.

So if you catch on void, the beginning of the trouble starts because Shiva is the central path. There Shiva is to be taken as Guru, Shiva is Guru, Shiva is the one who is our Guru. He is our spirit. But he's not the spirit that protects because spirit needs no protection. Whom do you protect then, also.

So when you protect, you protect the spirit but what protects it is the Guru personality which is Shiva, which is Shiva actually. Did you get that? Now you might say how is Shiva is “Gurur Brahmā, Gurur Viṣhṇu, Gurur Devom Maheśhwara, Gurur sākṣhāt Parabrahma, Tasmai Śhrī Guruveh namaḥ." Because Guru means a person who is full of Gurutwakashan, is weight, is the gravity. Person who is with gravity, which has some sense, which is density, which is our spirit. Otherwise we have no

density, we're useless. Our spirit goes away, we float in the air.

So the Guru is everything.

Today I've called you here to tell you how to become a Guru.

So that's why I've given you this introduction. Is it clear to you? All right let Me know now...

[GAP] See that, just laugh at yourself; see that, just laugh at yourself. With all your knowledge of how many years I've been talking to you, look at this, this is the point. How Mother raising... just given just like that, do I tell you something. You all have gone to the wrong Gurus, you have done, because..., nothing of the kind. Just because you're all kept here, it's the Ekādaśha Rudra on your forehead, it's to bow before any wrong Guru. With that your Ekādaśha Rudra... Sahaja Yoga is very simple you know. If you put your glass upside down, if you put it like this. Sahaja Yoga is so simple, do you follow that point? So we reach one conclusion, by mental understanding you cannot understand Sahaja Yoga.

So as a Guru what could you have? I've made a promise. That's different. You are telling like this, if I say that, “What is the sense of, say, Guru?" Do you say that it should not become artificial? Now let's see again quite straight forward, what is the question? No, no, what is the question? Now try to remember. What should we have? What is the question, let's see exactly. Exactly. How do you... This is another question but the question I asked is: then what must a Guru do? The thing I said, by discussion Sahaja Yoga doesn't work out then what should we do? I asked the question what should we do?

Make it simple always related to your Mother, you'll get the answer. Hah! All right? To neutralise the old Guru who has been a bad Guru you have to surrender to the real Guru. If your Guru is the real Guru then you surrender to the Mother of your real Guru. Because your real Guru is also surrendered to Me.

So all Gurus are to be surrendered at the lotus feet of your Mother. Then if it is Brahmā, Viṣhṇu, Maheśha, Shiva, Kṛiṣhṇa, Christ, anyone of them also, Ekādaśha still is more than your Mother's.

It is very difficult because we want to stick on to something, even the real Guru. Christ is a real Guru but the Christ you know of is to be also surrendered at the lotus feet of your Mother because we also know that.

Brahmā, Viṣhṇu, Maheśha, all of them are My servants. Ādi Shakti is the Mother. She's the Mother of all the Gurus, of all the prophets, of all the incarnations, of all the. After Her, only Parabrahma is created, after that only Parabrahma.

So when you have got someone like that to surrender, is a Rāmāyaṇa. That is the biggest problem because you've got somebody so easily. Arjuna was a great warrior till the war started and somebody was a great swimmer when he came to the ocean. Allow your mind to do the work, allow your mind.

So to be the highest Guru we've to be completely surrendered. Now when you're surrendered, you don't doubt. For Me this finger is completely surrendered, say, to My body, it doesn't doubt My body.

Supposing I'm pressing and it receives the information that you're doing that he informs the brain and informs

the body that I'm doing that. It says some thing must be done to remove it, the whole body acts, all the fingers act and all the power flows there, the energy flows there where the finger is hurt.

So when you are surrendered there is no question of individualism. Those people who think of any kind of individualism are going to go out of the circulation of. From the beginning, I've told you many a time if we take out all those people who want to assert their individualism of any kind. You see, this is a branch, all right, you can see here. In the last stage, I use the same analogy better and better. Outside is the same, all right? If inside and outside is the same and the rest is. If this has to become this, what has to. This myth has to go, all right? This myth has to vanish.

So this myth is made from what, our ego and superego only. These are actually the end result of all the nonsense we have been. In a sense, all this has to go, vanish, it doesn't exist at all, that is.

In a way you cannot be a Guru unless and until, you are open to it, that's coming and going, but supposing you're like this. To be like the story I heard in India that there was a, three of them. They went inside the to have something. They sat down on a table and they saw a ask put like this. They said, “What sort of a ask is this, it has no mouth." So they called the bearer and said, “See we can't have food unless and until it has a mouth, take it back." They said, “What sort of a glass is this, it has no water?" Because. But when you're surrendered the mouth and bottom is, luckily it's... That surrendering is to be achieved if you're going to be.

This is all mental, how do you. Have a bandhan. How many times you give yourself bandhan? Before sleeping, after getting up, then namas-kār to your Mother, touching My feet, very important, not to come on to the Āgñyā, supposed to correct. Even sitting down there I'm catching. Then again put on both the feet, again you try. First right and then left. Ah! See now. It's not mental, this is the point I'm bringing you. It is not mental, now this is.

***Contents: 1981-09-10*, Public Program, Orleans, France.....**

So any questions please? Question: She would like to know exactly what the Sahaja Yoga means because she said I was explaining.

She thinks it would apply to any Yoga.

Shri Mataji: There are four types of Yoga described so far, by Śhrī Kṛiṣhṇa, because he was a diplomat and He was very aware that people are stupid. He tried to befool them. Because they won't accept anything straightforward.

So the first one He said that is Gñyāna Yoga, means you achieve it and you become the knowledge. The second one, He says, is Karma Yoga, which means that whatever you do you leave it at the Lotus Feet of God. But that is not possible, is an absurd condition. You can't just do it. Because as long as you have ego, you are just mentally thinking like that, but you are not really doing it. You have to do something; then you know you are doing it. Only when you get your Realisation, then only you say it is going, is coming the energy. Then you don't say, `I do.' See, for example you have a brother. You will say, “All

right, I will try if I can give him realisation." Then he doesn't get the realisation, supposing. Then I can't help it. He doesn't need. It doesn't work out. You talk the third case. That means you are not identified with `I'. You don't say, `I did not do.' So without realisation if you say that whatever work I do is to serve the Lord, is a myth, is a myth. Because you are still with your ego. You are just doing it to please your ego. And you expect something to happen.

You expect, you always expect something to happen. If it does not happen you feel that you have not achieved.

For example, today we have so few people here. I'm not bothered. What can I do? If people don't have sense, wisdom, thinking, you cannot force them. Today I saw three people sitting on the bench of the road. Perhaps they were seriously discussing there is a catastrophe expected in 1983. He was quite excited. It's quite enchanting, you see, that there is a catastrophe. And they were saying that: “In any case we are going to be destroyed.

So why not talk about this?" But if you tell them that you can be saved, they don't want to do it.

So, those who believe that whatever they do it is at the Lotus Feet of God is all wrong, is all mythical. They are all wrong. They really live in fool's paradise.

Now, the another thing He told is about Bhakt Yoga, is worshipping God.

So He says, in Bhakti Yoga He has used a very interesting word called Ananya.

So He said that if you do Ananya Bhakti , then that is perfect. But Ananya means when you are connected with it, when you are one with it.

So those who go on praying to God without connection are like people who are telephoning without connection. He said it but in a very clever way. Because people who are ego, full of ego, are idiotic, you see. And He said that if you cannot *[UNCLEAR* take/make] out the butter in a straight way, you have to bend the finger like this. That's what He did.

The fourth thing He has described is the Rāja Yoga. There is described that something should happen something within us and there's a tree of life and that when it happens then only you get connected.

Now we have another thing which is described, [that] is Haṭha Yoga. That was at Patanjali, is about, say, much before Kṛiṣhṇa. About, say, seven thousand years back. That time the people lived in a different way. For twenty-five years they led absolute celibate life in a university. And the university was governed by a very highly realised Soul with other teachers who were also realised Souls. But the pupils there were not made celibate. They were innocent, kept innocent by innocence around, with the atmosphere. Till today even you can't marry among the same university people. That's called as Gotra.

So Haṭha Yoga was the Yoga of these two Kuṇḍalinīs, the two channels, Ha and Tha, means the Sūrya Nāḍī and Chandra Nāḍī, means sun channel and moon channel. You have told them about it. All right, these Nāḍīs you see there, too, one for your desire, one for your action.

So they tried first of all to cleanse these Nāḍīs by doing things which were auspicious, like not going to extremes, leading a good life, keeping your attention on God. And then the main thing was Īshwara pranidhan, means the establishment of God in your heart, means realisation. After realisation they would go into other things.

But this modern Western Haṭha Yoga is one sixteenth of what it is really the whole. It has to be done when you are absolutely celibate, before marriage. You should not even have adulterous eyes, so innocent you should be. And these people are just doing physical exercises without even understanding which one is needed for which center, which Chakra, nothing. They have no knowledge. It is like drinking all the pharmacy in your stomach without understanding. Moreover, if you pay so much attention to your body, you become emotionally very, very bad. You may develop a stone-like heart. You could be very hot-tempered. Because you don't pay any attention to your Spirit, you might get a heart attack. In the West people are naive about it. In India nobody does this kind of extreme things; nobody does, except for people who are westernized. The westernized people try to behave like you people do. They see hippies; so they become hippies. They don't know why. If you take drugs, they take drugs. If you drink, they drink.

They will pay any amount to get scotch, say, for example. You see, they have become stupid.

So, in the villages people are very, very sensible and wise.

Imagine, if I go to any village in India, there would nothing short six to eight thousand people, coming from

miles together on bullock carts. They don't have radios, they don't have any newspaper, but how the news spreads. Just like the bees know about the flowers, they come from miles. Here people are so ego-oriented. They haven't got anything so far. I don't know what's going to happen. I've been many a times in France, also. In India I only hardly go for two years. One year I was in America, useless people.

They liked to do Guru shopping. They go to a supermarket of Gurus, paying everywhere money.

So much foolish! How are we to talk to them? Then I came to London because My husband got elected. I go to India hardly for two months every year. We have thousands in India. These have seen them. All of them have seen them. But here, whatever you may do, nobody is bothered. They are only depending on the catastrophe to call all the problems.

So there is only one thing that has to happen, is the germination of your Kuṇḍalinī. But you have to have somebody from the Divine to do it. It is all prophesized in Indian scriptures. Even William Blake has prophesized about Me. Of course, England is better than anywhere else. But in India people know Me.

They know what it is. About Christ people knew before [Me], it was all prophesized. But these horrible Jews and Arabian, all these people crucified Him. They wouldn't accept Him. But this time you better have it. Because God is not going to forgive. You get your realisation first, develop yourself and see with *[UNCLEAR* humility/serenity/splendidly], become your Self and then you can give it to others also.

So get out of this ego business.

First of all you cannot give Me anything. I've not come here to take anything from you. You are more impressed by people who take money because you think you have bought something. Give up this attitude of shopping. There is nothing selling here. You have to have something which is your own, that is in your heart. People mesmerize you and take away all your money, everything and you go after such people.

There was a Guru called Rajneesh. He said he is God. And thousand and thousand were looted in India.

He could not smell a flower, as he used to get asthma. It is said that God is fond of flowers. He could not bear this scent. And it is said that God is fond of this scent. He could not see the light, fire. Look at him! And there were thousand going from France. Lots of French men were there, mostly French and Japanese.

Because he was anti-Christ. He told them that he can have mass sex, so they were very happy. And all these dirty things he taught them. Now he got paralysis; he couldn't speak. He has to run away. God has fled now. He went to, he went to, what place God knows, he is lost. But yesterday there was a girl wearing his *[UNCLEAR* pink silk, thing still]. I told her, “What has happened? Take it out." She said, “What is to do with this? This, after all, if it means nothing, so why to worry?" That's a plastic thing.

But she must have paid about hundred pounds, I'm sure.

So she doesn't want to give up. It is poison.

But she has paid so she must wear it, whether it is poison.

Ego makes your intelligence also very blind. It cannot see. Your heart becomes also very, very, this thing, like a stone. Heart becomes like a stone. You can't love. You can't trust other. It's a very bad curse, because you cannot know that you are wrong. The ideal ego was Hitler. It is like that.

So let us try to get realisation, get connected with God, so that you get the knowledge. Not rationally, but on your sensitivity, about collective living, about collective life, to become a super human being. Now whatever you will do, it goes at the Lotus Feet of the Lord. Now you sing the praise and He hears you. A rapport is established. You ask God, `Is there God?' and you will get the Cool Breeze. That is how He shows. You must ask for reality and don't live with falsehood. I've told last time to the Orleans people that Last Judgment has started. Your Kuṇḍalinī when she rises, she teaches you how to judge yourself and then She teaches you. She teaches you. You should know how to correct. And if you do not do it, you will be at a loss. The first thing is cancer. Second thing is lunacy. All kind of things can happen on both the sides. This is the problem people should know. The catastrophe is not going to come from outside; it is going to come from within. I told them, but see today how many people have come. This is the problem.

All right? May God bless you.

So this is the spontaneous happening of the living God. This is a happening, actual happening. And if I'm doing that to masses, then there must be something about Me. But I'm not going to say I'm God or anything. You better

find out who I am. That's a better thing. If I say anything, your ego will come out.

That's what happened when Christ said that, “I'm the Son of God." So I'm not going to say anything.

It's a mystery. But you'll discover later on. All right? Now, any other question? Then we can start.

Don't bring in other people, because if I say you won't like. He got into France through this woman.

When she died, she had such big, big diamonds. But from where did she get it? She had a huge, big villa here in Paris. And her son has now sued the ashram to get all the jewelries back. Horrible things have happened. There is one big officer who was put in jail because of her, because he has lot of *[UNCLEAR]*.

She used to say that if you have to come to her ashram you must give all her assets, all your assets to her.

Why should you live on other people's money? You are a parasite if you do that. She has given lots of physical problems to all these people. And in the ashram now people have found out this is horrible.

So don't bring in people.

There are real people also. They don't take any money. They live in the forest. But if they come out, people try to kill them. People are always against real people. They like false people because false people are good at pampering ego.

So forget it.

Now any confusion? What's the matter? How are you? How are you feeling? How are you? Better, ha? Now put your left arm towards Me and right hand up.

[Conversation with the audience MISSING]

***Contents: 1981-09-11*, Public Program, Paris, France.....**

Because the tree of life has reached a stage where it has created a human being who is a seeker, not all but many of them are in a special category of seeking. Say, about a hundred years back people were busy seeking power, overpowering other countries, mobilizing all their energies in enjoying their overpowering and the rest of the world was under slavery. Then the power game shifted to more, we can say, the material or possession game. The industrial revolution took place and people started converting matter into different forms. And then came a time when people thought of playing emotional games and I told you how there was a rise of Hitler who was anti-God and how he made the Jews suffer because Jews believed in suffering. They did not believe in God or Christ and they did not believe in Christ because Christ had already suffered.

So they thought that, “If we accept Christ then we cannot say we are suffering” and so they said, “We have to suffer." That we call as a collective superego activity in which a person wants suffering. That's masochism.

So a sadist like Hitler came into power and they suffered. Now we have to know that Christ came on this Earth to suffer for us once for all. Now we don't have to suffer any more. Those intellectuals who talk of this nonsense of sufferings themselves make others suffer by their nonsense. After the Advent of Christ only thing you have to do was to awaken Christ within you, Who would suck

all your past and all your future, all your Karmas and conditionings and all your desires.

Christ came on this Earth at this point of our awareness, at this point. In the Optic Chiasma there is a very small center where Christ is existing. This center is very important. Is the door, is the door to the Kingdom of, here in between is the Kingdom of God, the limbic area. You have to just enter into that Kingdom of Heaven by entering through the narrow door or a gate which was held by Christ. The method, the technique of awakening Christ was living technique. It is spontaneous. It is evolutionary. It is not that you can think about it and rationalise it. It is not that you can say that we can activate it, or manipulate it, or organize it. It is not in your hands. It is not your area; is the area of the Divine. Like a flower becoming a fruit, is not your area.

You becoming a human being is not your area. What effort did you put in to become a human being? If you can realise that point that it is beyond human control, that God's grace can only work it out, you would not indulge into any techniques which are dead. Like, it would be like offering a one franc to this flower to become the fruit.

So we should not live in absurd ideas. We should come logically to the point that if the Divine Power is living, it has to be spontaneous. With your mental activity you can create atom bombs, neutron bombs and all kinds of problems, but you cannot create evolution. And the mass evolution you can never achieve by organizing in the name of God. You cannot organize God. He organizes you. He does everything. Very difficult for the modern

ego to accept such a situation. They prefer to go round the shopping to find out something by which they can pay money and satisfy their egos that they are seeking. I verily say to you, these are all false prophets and anti-Christ. Be very careful about them.

You cannot make money in the name of God. And those who believe who can pay for God should know they can never enter into the Kingdom of God. Second thing is that you cannot use your physical power to achieve God. Within us lies the power of our germination, here. We have that power within us. Every seed has the *[UNCLEAR* primula/primule]. You put the seed in the Mother Earth. With her warmth the seed germinates spontaneously. You don't have to go and stand on the head for the seed to germinate.

Is the easiest thing to germinate a seed. But, say, about of thousand of years back when people did not know how to do germination, it might have been very difficult to them. When they found out that the Mother Earth can germinate they started doing all kinds of agriculture.

And Kṛiṣhṇa came on this center of yours. He talked of collectivity. He is called Kṛiṣhṇa, means the One who is come to do the soil. “Kṛiṣhi" means soil.

So He sowed the seed of seeking within us, seed of Kuṇḍalinī within us, in the sense that the seeking was sown within us at this point when the man raised his head above. And He said in His Gītā that, “The one that is never dying, eternal, is your Spirit." That Spirit resides in your heart. And one has to achieve that Spirit. And to achieve that Spirit, in the very outset He said, “You have to become." He was not a shopkeeper who says first the

useless things and then the real things. He absolutely, straightforward, He said that, “You have to become." But Arjuna was an intellectual and a mediocre, His disciple. He couldn't understand that, “If I have to become something, then why He is saying that I should to go to war?" He also believed, like all intellectuals do, that everybody is Christ. Even Christ has said that it is not so. He always talked about the evil, about the Satan. He talked about the fake Gurus. He said that, “Don't throw your pearls before the swines” and He took a hunter in His hand to hit the people who were selling God in the church.

So Arjuna was dodged by Kṛiṣhṇa because he would not come straightforward. He asked a question, “Here You are saying you have to become that and there you are saying you have to fight these evil doers." So Kṛiṣhṇa said, “All right." He gave a very tricky thing. To a complicated man you must give a complicated thing to confuse him. He was an Incarnation. He was the Incarnation of diplomacy. That was also six thousand years back.

So He said, “All right, you go to war and whatever you do, put at the Lotus Feet of God." This is the best way to befool a complicated person.

So the complicated one believes that, “I'm doing this work and serving the Lord." He believes in his ignorance because intelligence cheats itself.

So he very nicely believes that, “Whatever I do, I do it at the Lotus Feet of God. I offer it there." But it's not true. One is deceiving oneself. As long as there's ego in your brain, whatever you may do, you will know that, you will

feel, you will identify that you are doing it. Only when this ego is sucked in, then you say, “It is happening. It is flowing." Like the sun shines. It is just shining because that is its nature. It is emitting because that is its nature. When you will become your nature, the Spirit, everything will emit. You will not know that you are doing it. You have to become a hollow personality. But Kṛiṣhṇa wanted to complicate it.

Second point He said that, “There is another way you can worship. Worship Me and everything will be all right” He said. But He did not say that, “You directly worship Me." He said, “Ananya Bhakti ." Again a twist. Ananya means when there is not the other, when there is a connection established. That means you have to become. Without becoming there is no use telephoning. No connection with God.

The connection has to be established. I've heard people, I've seen people writing so many Bhakti songs.

They are saying `Hare Rāma, hare Kṛiṣhṇa', everywhere, like mad, like abnormal. In that London, on a street they stand like foolish people and beg and sing the praise of Śhrī Kṛiṣhṇa, completely defacing Him.

They live on beggary. Now are you going to become beggars after this? Are going to become mad people dancing on the street, getting throat cancers? What do you expect yourself to be when you become? The fourth thing He said that, “There is an arrangement within you, Rāja Yoga, which goes into play." This is that arrangement within you. He says, “The tree is upside down." That is what it is within you all, the tree of life. This is the tree of life which is described in the Bible.

So all these four things that He said are one. That is, within us is placed this great mechanism which spontaneously works out our Selfrealisation becoming, by which your Karmas or your actions become spontaneous and you get connected with God.

So you are, your Bhakti has some meaning. Your devotion has some meaning.

Kṛiṣhṇa was all right. Six thousand years back He only talked to one Arjuna. And since then people have been writing criticisms and criticisms and books after books on Gītā and there are at least five hundred books written recently only, recently. This is the complication we are facing all the time. And we should get out of it.

Christ came on this Earth, as I told you, to fulfil what Kṛiṣhṇa has said, that it cannot be killed, it cannot be crucified, it cannot be blown away with wind, it is eternal. That's why He came and Resurrection is the sign of His proving what Kṛiṣhṇa said, because He was Divine Love. Then Christianity came. They made a nice jam out of Christ also. They can never understand. To understand the tom-foolery of Christianity you should go and talk to a Jew. And if you want to know about the stupidity of Jews, go and talk to a Muslim. And if you want to know the stupidity of the Muslims, go and ask a Hindu. They all think they are the wisest going round, the fanatics.

How could there be fanaticism in God? This is the madness in which today we are. One side we have the fanatics; the other side we have who do not believe in God. A boy from Algeria came to see Me, very well educated and he told Me that fundamentalists are

coming in Algeria and the young people are now taking to communism.

So imagine all the old fanatics on one side and all the reactionaries young on the other side. And truth is lost somewhere there. This boy got his Realisation. He went and told them that, “There is God. We have to first see the blessings of our Spirit. Unless and until you have enlightenment you cannot know anything about God." At the time of Buddha, when He came about 2,000 years back, when He searched all over the places and He got tired *[UNCLEAR]*. He exists here, near this *[UNCLEAR]*. He got His Realisation and He didn't talk of God. Because He thought that, “Why talk of the further step? And people are so ego-oriented that if you tell them `You have to surrender to God,' they said, `No,' so better not talk of God at all. Just talk of the Spirit." And He said that, “Everything is a thought for the time being." When you are below this center, there are thoughts in your mind. Beyond this when you go there is no thought.

So just to bring down the ego-oriented to the point of Realisation, to bring them to logical conclusion that you must have Self-realisation, He very cleverly avoided God.

You have to do it. What to do? The only concern of all these people is that you should find yourself in the Kingdom of God. But how the small children are to be bought into it? First they talked of all these Chakras and their Deities in there and they said, “Worship the Deity." So they started rituals. They created Gods, reproduced them and started worshipping them.

So as a reaction to that, they started talking of an abstract God. Whether you talk of the material God or

about the abstract God, whether you talk about the flower or the honey, you just talk. You have to become the bee to get the honey. You cannot get the honey just by saying or talking about honey.

So everything becomes a talk.

People very religiously sit down and discuss God. It's most surprising for Me. You have to become.

It's an actualisation. It's a real baptism you must have. It is your right to have it. You are seeking that alone and nothing else. You have to get it within yourself. If you cannot get it, then you are not going to be a happy person. Don't run after falsehood. Ask for the Reality and the Reality is that the Spirit resides within your heart. You don't have to travel for that. Guru Nanaka has said, “O, mad man, where are you travelling? It is in your heart. You just wait. It will work out. Balance yourself. Lead a balanced life. Don't go to extremes." Same Moses said, same Abraham said, same Lao Tze said, same Mohamed said. Everybody has said the same thing.

In the early days of human history there were only very, very few people and it was prophesized many times that in these modern times, the Kali Yuga, many seekers will be born, many men of God will be born and they will become prophets and not mad and lunatics or bankrupts, but prophets and they will have a special quality by which they will make others the prophets. This has to happen. The time has come. It is your own birth right to have it. There is nothing else that you will ask for.

So have patience with yourself, for it is very easy to raise the Kuṇḍalinī in you, firstly because there is a bank balance. I have to cash it. Secondly you deserve it. Is

very important to understand, there is nothing selling here.

Without the light, without the eyes you cannot see anything. This has to happen.

This is spontaneous, Sahaja. Saha means with; ja means born. It's born with you. All this is born with you. These centers are the step[ping] stones or, you can say, the milestones of your evolution. This is where you became carbon. The first one, is the matter which is innocent.

So this is the innocence. This center controls four sub-plexuses. It is innocent and it is for your excretion. Now be careful to see that this is placed under the Kuṇḍalinī, not above. Now this power, when it rises it doesn't pierce through this.

So the one that controls the sex has nothing to do with your evolution. Those who believe that God can be achieved by sex perversion are anti-Christ. Christ has said that, “Thou shalt not have adulterous eyes." But He never said that you have nunneries and a absurd, abnormal life, but a normal, majestic life of married life, of majesty and dignity.

This type of people who try to put sex on Kuṇḍalinī get into terrible troubles in themselves, because the Deity of this center reacts violently with anger. This Deity is sitting here to look after the chastity of your Holy Mother, that is, Kuṇḍalinī. You cannot touch the Kuṇḍalinī. Unholy people, who are not authorized by God, when they try all such dirty tricks they get into trouble and those on whom they try, they also get into trouble. Such people suffer. You know that what's happening to such people already.

There is one big Guru has been hit on his neck and he can't speak and he has run away.

Now the second center that we have here is for our seeking, when we became living things. And Deity here is for our sustenance, means our evolutionary quality. Like gold has an untarnishable quality, human beings have certain higher qualities than animals. Animals can bear filth, but human beings cannot.

So when they start seeking, they start developing their different qualities.

Now these different qualities develop in a human being in ten ways. We can say these are the ten commandments in every God, religion, any scripture. Now these are looked after by a Deity called the Primordial Master. He incarnates again and again and tries to give us a balance and tries to keep us in the center.

The third center that comes out of the second one is of action. When we seek, we start putting it into our action. It moves like this: this side is our physical seeking; and this side is our mental seeking; and this side is emotional seeking. Now when we start using it only for our physical and mental thing, we neglect our emotional side, or we worry too much about emotions; then we neglect our right side.

So there is an imbalance. For example, a person who is very busy, supposed to be, running a rat race, I would say, he eats, he takes his breakfast standing and runs fast. Immediately he works on this side and there is a very important organ called as spleen which goes into action. When he eats, it is already in action. Then it moves into another activity. Then it goes into another

action. Such a person makes this spleen crazy. And such a crazy spleen creates a very, very serious disease called as blood cancer. Cancer is a disease for the people who are... who are crazy.

***Contents: 1981-09-14*, Public Program, The Heart of the Universe, Caxton Hall, London, UK**

It is so heartening to see so many of Sahaj Yogis seated before My eyes which are really covered with tears of joy and tremendous happiness.

You have been blessed by the grace of God to become the real baptized, the real Muslim, the real Jew, the real Christian, the real Hindu.

It was to be that, in England, you had to establish Jerusalem. I need not tell you again and again how important is England in the play of Divine. Those who are realised and have experienced know it that this is the place, this is the country, which has to circulate the Spiritual powers all over the world.

Even when I have travelled in Europe and other places and I've seen so many seekers all over. In India we have thousandfold more. Despite that [a] very special category of people are born in England, the Heart of Universe, where the heart has to love, has to radiate, has to circulate, carry all the dirt and filth to be cleared out again.

It's nice to see how you all love Me and how you have accepted My love. But I would like you to see that you have to love yourself, you have to respect yourself, you have to have self-esteem and not to be driven into crazy ideas of self-pity and guilt.

The lethargy, what we call the `left-sidedness', has to be thrown away just like a shell is thrown away by a bird when it comes out of its shell of an egg. The transformation has taken place no doubt but transmutation is the problem today. We have to change dramatically. All our misidentifications have to be dropped. We have to become what we have been aspiring for which we have become. We have to assume.

The assumption has to be not only mental but is from the heart.

The day it will be in England accepted from the Heart, the assumption which they have achieved, assumption of the powers, assumption of the state which they have achieved, that is the day I would say is the real beginning of a new era for the whole humanity. The responsibility is so great, so very great that to realise it you have to start loving yourself, having your self-esteem, understanding yourself.

Now the basic problem that the Sahaj Yogis face in England is this: they blame everything to their ego that, “This is my ego which makes me do this. This is my ego which makes me think like that. This is my ego that does this wrong." This is just the opposite [of what should be done]. Because you want to blame your ego for everything and that's how you do not want to go further with your progress. You think that you have been very much in the center. It's not true. To be in the center means you must understand whether you have ego or superego which is giving you this lethargy, this dullness, this kind of *[UNCLEAR* fake/vague] approach to things. The

whole country is suffering from that. You can see it clearly.

I was surprised when I went to Portugal that it's like a dead, desolate place, as if people have left that place. They are not willing to rise, they are not going to come up and this kind of desolate place which is just decaying and dying in the huge, big buildings that were built there, is a reaction to the ego of the Portuguese.

So there should be no reaction at all. There should be no reaction to what your forefathers have done or the way they have been very ego-oriented. On the contrary, to be on the center is to have self-esteem. To understand that you have got your realisation now, that you have been blessed specially, to accept it with love towards yourself. If you are bent upon harming yourself, nobody can stop it, you have every right to do that. You have all freedom, but freedom and license are two things. Freedom has to be based on wisdom and license is nonsense as you understand.

So, all the Sahaj Yogis who are here, I have to just say one thing: that you have to change dramatically.

Everything you change. We have certain habits we have developed.

Some of the things are the blessings of the enterprises that have been floating which are against a proper society. These enterprises have brought in funny ideas which have ruined people, basically. You know those things very well.

So, no more to play into these people who just want to make money out of you, first of all the `spiritual', so-

called, people, who are coming in this country to exploit you, to float some enterprises.

You have to understand that God has no enterprise. The whole world is His own enterprise and His own thing. All such people who are indulging into enterprises and are harming your brothers and sisters, you have to be specially careful about them and dynamic so that you save them before they fall too low and is impossible to get them out of the clutches of these horrible people who have come.

You invaded the East in a aggressive, open manner, once upon a time. Now the East is invading you in a very subtle manner. It's not [as] if they are invading you in your marketing or in your jobs, they are invading you in your brains. This has to be understood that when these Gurus and these fake people come here they are just like the people who went from here to invade India and they have better weapons than these people had. They are enslaving you and they'll enslave you in such a way that you can never rise from your slavery. India could rise but you cannot rise out of that negativity which they'll be pouring on you.

So be careful as to believe into anybody who says, that “I am your guide and I'm your Guru and you better give me so much money." Actually a man who lives on your money is a parasite, in simple English language.

Nowadays I have to warn you there are many lamas who have been driven out of Tibet.

Some of them were lamas some of them have become lamas, it has become a big craze. And they have come in this country also and have started very big enterprises

by giving you courses in spiritual life. Ask them how much spiritual life they have! This is very impressive to people to understand, because it pampers your ego very much. Buddhism was spread by Buddha, not the `ism' but Buddha's way of life and He is the one who is the killer of your ego. The people who go to Buddha must know that your ego should not be pampered. On the contrary He is all the time laughing, the way people are ego-oriented.

Now these people who are coming in the disguise of `taking out your ego,' are putting horrible spirits into you, I have to tell you very-very frankly and making you feel very low as if spiritually you are much lower than them, which you are not. You should not accept their dictates, none of you. Neither you should allow anybody to accept. Go around the whole place, the whole country and tell them the message that these thugs have come from Tibet, where they were parasites on Tibetans, made that country a very-very poor country and now they have come in this country to bring all kinds of curses upon you.

So be careful. They call themselves Rāma, lama and all those things, I don't understand what sort of spiritual life they lead, what sort of nonsense they teach? First is Self-realisation. Anything that happens to you, which is beyond your control, like any vision, like anything happening to you which is your beyond your control, is not your own. Supposing a person is driving a car and he just... car goes into a slide and falls into a khadd [pit]. And he says, “I had an experience." What will you say to such a thing: that the car is not in his control. But the

person believes that he had a big experience because he had a big hit on his head.

The things that are beyond your control are not your own. Self-realisation is your own. Everything has to be in your own control. Like somebody start jumping on the chair, he starts thinking, `I'm flying.' Do you fly that way? Do the birds fly that way? They know where to, when to start and when to stop.

Those who fall into these traps just start doing it by some force and what is that force is the negative force, one must understand.

You should be completely in control of yourself. Whatever happens to you, is it completely under your control or not? Of course if you are driving your car and you go to a particular beautiful place, it's a beautiful experience because you have gone there. But not the way people are thinking that if you start jumping or if you start shouting or screaming and making noises is something very great.

Ninety-nine percent of things that are happening in this country, you had called them occults, spiritualists, Pentecostalist and all sorts of nonsense they call it by, is nothing but the spirits. You are not there. And then the reaction of it starts and one of the first reactions, I must tell you and warn you, is cancer. Be careful of these people! Don't go near them! Tomorrow you'll develop cancer and come to Me, “Mother, cure me." I will not! Today you stop it. I am warning you because I'm your Mother. And I know these things look very charming and very interesting and something sensational. Whatever is the experience outside is not all God's experience. God's

experience is only one of Self-realisation where you become completely in control of yourself and you feel the energy of God flowing through you.

Now the energy of God also some people say has to be hot. “You have to feel hot." Some people feel that if you go to someone and you feel very hot energy coming from that person, is vibrations. Now any machine which goes out of order, gives hot vibration. Any friction gives hot vibrations. But to judge it, best is for you to see what happens in Sahaj Yoga. Supposing there's a cancer patient sitting and there's a mad person sitting and a one Sahaj Yogi sitting or a born-realised is sitting. The person who has a cancer will give such heat that you'll have to put off your heaters. The mad person also may give such heat that you will be amazed at the way the heat is coming or maybe sometimes such frozen hands it will have. He'll have such weaknesses, his hands will be shaking, he'll become absolutely frozen, his... he will go into a trance, his eyes will become transfixed. But a realised Soul, if he's a born realised, he'll get a Cool Breeze in a Sahaj Yoga *[UNCLEAR* thing/way].

And you should find out what sort of sources they have come. That's how, relatively, you can find out the absolute. The one who is suffering from cancer has got hot. The one who he has been to a spiritualist and is suffering from possession has got hot.

So, the one who has got the Cool Breeze is the one who is really realised.

On this point, many people have very funny ideas and I want to tell you clearly today, that realisation means Cool Breeze of the Holy Ghost. It is nothing else but that. Now

to maintain this, as our habits are, that we think mental activity can maintain it. It cannot.

Now this lady [in the audience] is wonderful! She came late and now she's going away. Why don't you sit down? Why do you want to disturb everyone? This is not the way, you see.

Lady [remarks]: *[UNCLEAR* I am not going.]

Shri Mataji: No, you must have civic sense, this is not proper. Either you don't come, sit at the back.

You must sit in front and disturb anybody, this is no sense of civility. You sit at the back and you can go away. You see, this is not proper. You must have some civic sense. That is just showing off I think, to come in front in the end and then to walk off.

Lady [indignantly]: I am not doing that!

Shri Mataji: Yes, please will you go out? I am sorry; this is not the way to behave. Is not the way to behave. You have no respect, for anyone. Please go out.

So I have to tell you one thing that, when you come to Sahaj Yog, you have to know that you have to find the reality. You have come here to find reality and not falsehood and whatever is falsehood whether you like it or not I'm going to say it. I have to say it. Because I'm here for truth, I'm not for getting your votes, or for any money or anything. And whatever is the true, is to be for your good. The truth is going to adorn you, the truth is going to give you joy, it is going to make you grow, it is going to make you something different, it is going to make you absolute, it is going to give you your purpose. And in this respect, if you understand Sahaj Yog, then

you will know that Sahaj Yoga is not a mental activity by any chance, it is not through mental activity we can do it.

For example somebody might say that, “How are we to do it, Mother? I'm now possessed, I don't know how to get rid of it." By thinking, “I'm possessed, I must get rid of it” you cannot. It is beyond your mind. If you think by saying that, “I'm possessed, I should not be possessed” you'll be cleared out, you will not. For that you have to learn the technique of Sahaj Yog, after realisation not before. For example this is the machine and you put it to the mains. You must know how to handle it after putting it to the mains, the technique, the technique that is Divine. Unless and until you master the technique that is Divine, you will not be able to keep yourself in balance and you will not grow.

So that technique one has to learn. That's why I say that transformation is very easy. To putting, put this [microphone] into the mains is very easy, anybody can do it. But to make it work and make it work well and to utilize it fully, you have to know the technique.

First part of it is very simple I think, can happen to thousands very easily. But the second part you have to love yourself. You have to understand your value. You must know you are not here only for your sake. Not for your sake alone, not at all. You are a cell which has to be connected to the whole so that the whole should be substantiated, that the whole is to be helped, the whole of humanity is to be helped.

You have a very, very important role to be played.

So you better have your self-esteem and responsibility and understand what you have to do.

After getting realisation many people who get realisation just disappear because they feel very happy.

That's not good. That means you have not paid full attention to yourself. You have not loved yourself; you have not understood yourself. If you have understood yourself then you should try to go deeper into it and grow, because every seed can grow into a great tree.

We have to establish proper values of family life where the family life gives that nourishment to the children to grow into spirituality. No forbidden things are there but through vibrations you can control.

When people have these cool vibrations they feel so happy about it; they don't want to lose it. And for that sake they work it out and the family systems improve.

You are going to give the model to the whole world, specially the Western world. You have to give them a new model of life which gives them a proper, happy society and an enlightened society which knows so much more, so much more, which has eyes, which is no more blind, blinded by false ideas. All this science and all these things will drop out just like that once you know Sahaj Yoga, because all this knowledge is just a wee part of it.

In Australia many people asked Me, who came to interview Me that, “Are your disciples all scholars?" I said, “No, they come from very ordinary lives. None of them are scholars." Specially in Amer... Australia people are not also so well educated [as] they are here, because they don't have Cambridge and Oxford I believe. And despite that, they can beat any Cambridge and Oxford fellow here in their knowledge. The knowledge is there because of the Light. Say I describe this room or England

to anyone who is not here, who cannot see, how much his knowledge would be? But the one who has lived here, who knows it, who knows each and every part of it, knows it much more than a person who might have done his M.A. in India about England. It's only bookish knowledge but here the real knowledge comes into you.

The third thing is of experiencing, which is very important. What have you to experience? Many people say, “Mother what should we experience?" To begin with: the thoughtless awareness that you get when the Kuṇḍalinī rises about cross, about this point called as Āgñyā Chakra. As I have told you that Āgñyā Chakra is one of the most important Chakras we have got where resides our Lord Jesus Christ. And why it is so important is this: because He is put there, or we can say the grace had adorned this Chakra with His being that when the Kuṇḍalinī rises He's awakened and when He's awakened He can suck your ego and superego, all your conditionings, all your past Karmas and all your future problems, He sucks.

But that is not possible if you just ask somebody who is from a theological college to baptize, that's all artificial, that's not real. [With] real baptism you see the Kuṇḍalinī rising in you; it's a living process by... of a living God. Just like a seed sprouts your Kuṇḍalinī sprouts and you feel it on your head. Actually feel it on your head, the Cool Breeze coming out. And this should happen to you otherwise it is not a realisation.

Now the experience, the second one you get is the Cool Breeze coming out here and Cool Breeze in the hands.

Those people [who] have a weak center here, do not get this Cool Breeze.

Some people got it after two months, three months, makes no difference. But you get the Cool Breeze here and after that when your hands are sensitive enough you start feeling them in the hand also and also you can feel your centers.

But those who do not feel in the hand are amazingly, are also very developed people because they can feel all these centers of other people and their own within themselves. This is the physical experience: means in your central nervous system.

This you feel in your conscious mind. This is the first experience. No other experience like seeing a aura around Me, or a light around Me or something else, like Buddha, Christ or anything, this is no experience. This is going out to the left or to the right. In the center you feel the Cool Breeze and a Cool Breeze from your head. This is the physical experience you get.

Now what happens to the eyes? Eyes become sparkling. They sparkle. A Sahaja Yogi has a sparkling eyes. This is a physical expression of that. It cannot be anything else. If somebody you find his eyes are very dull then you should know that his realisation has gone down or he's not yet realised. Eyes are sparkling and joyous. This is only on the physical level, I would say.

But in the beginning, the first experience that one starts getting is so physical and so innate, so built-in, that you are amazed at it. Then you start working on other people. Say you start working on a particular person and you say, “Oh, it's moving, it's coming, it's done, it's there." Then

you start seeing how the person is imbalanced, how his one side is more, one side is less, how he has problems on his centers, the knowledge about the people, knowledge about everything. Like say this flower arrangement, is it all right or not? Is this alright or not? If it is alright, you'll start getting vibrations from that person. Anything that is... you think is beautiful may not be, might be very ugly. Through vibrations you will know that it is beautiful. Like, say Mona Lisa. Mona Lisa is a thing... I mean she's not one of these modern beauties or anything. But why she's appreciated so much, if you see the vibrations of Mona Lisa's paintings are very great.

So your knowledge about things starts, means discrimination increases and you start understanding things. And this is the first experience for your brain. You start understanding people, you start understanding problems, you start understanding the problems of the whole world in a way as a spectator, as a witness. You start seeing the whole thing as a witness and then, when you start seeing that, I mean you become, again you become; it's actualisation, then you start enjoying the joke, understanding the whole thing. You sometimes are amused, “Oh, I was the same and now they are the same." This rat race, this madness and these emotional plays and these ego trips and everything you start seeing it so clearly because you have been through it and you start seeing and it amuses you. It's full of amusement and mirth and joy.

Then you start seeing it also as a tragedy, that's on people is, the compassion starts flowing. You start feeling what are they doing, where are they going to crash

themselves? Sometimes I am very happy when people try to tell Me about others, that “Mother, have compassion for him because he is doing it in ignorance." You see, I know that. I am compassion, no doubt. But when somebody says, it makes Me very happy.

You become generous, absolutely generous. You do not bother about counting your perils but you think, “What can I give? What can I give to this person? What should I give?" You are sitting down, you see a person thirsty, immediately you'll rush for a water and bring it. Or else, otherwise normally people shout and scream and abuse. No, you become very kind, gentle and you feel the another person's needs.

Immediately you run to it, you work on it.

This starts working on your emotional level then, gradually, when you start working on others. You start feeling for the whole world: “Oh God! What's going to happen? Thousands are getting lost. How are we to save them?" You start thinking about them and how to work it out. Then you start praying to God that, `Oh God! Save them. Make them also enlightened so that they enter into the Kingdom of God.' And a new type of emotional flowering comes in and the fragrance of your virtues, which become so much vibrant when you are realised. Your virtues, you see, you enjoy them. You enjoy to be truthful, you enjoy to be moral, you enjoy to respect others, you enjoy it. When virtue becomes the enjoyment, then the joy is complete. Then everything is such a joy, the whole thing is such a joy, the whole meeting is such a joy and you become collectively joyous.

Then you do not have very individualistic idea, `my house, my room, my holiday,' `my.' Then it becomes `ours.' You start talking, `Ours.' You don't mind any inconveniences. You see, I travel in India into villages, you know that. And we have to live in all conditions there and you people are used to so many comforts, [but] you just forget because this love, this compassion and this joy is too great to be sacrificed for any comfort of the world. And that joy, once it dawns upon you, you become so generous that you want to enjoy with others. This is the dream of Jerusalem that I see in this England and I hope that the people who are wise, who are understanding, will come down to Sahaj Yoga and see for themselves how they can transform this country into a new world.

Now I am on My way to America. I'm again amused at it because the people in America have different ideas. I mean English are difficult to crack, no doubt, that's true [laughter and laughs]. But they are a bit too steady people, you see, they have very fixed ideas, they are people of fixed attention. For example, a person is not wearing a proper tie, for them it upsets them, you see. They are very formal people and that's how they are different type of people: they won't accept anything readily. That's a good thing in a way, not to accept any, because mostly you accept all nonsense very readily. But Americans are the different type, they accept everything readily and give up readily. They have a Guru shopping on. All the time they are shopping for Guru from one to another and just like, as I told you, they are fixing-up their screws and even when the machine stops they are

fixing up their screws [reference to Charlie Chaplin's `Modern Times'], they are that type of people.

So it's a very shifty sand that I'm going into and you have to use your now solidarity, I would say your fixations that you have in the faith, true faith, enlightened faith that this world is going to change, that we are achieving it for the whole world. This will substantiate My work then very much, I know. And then their changing and their transformation will be very great.

Because wherever you go whatever you do, your attention should be fixed onto your absolute, that is your Spirit: which is unchangeable, which cannot be destroyed, which is eternal. And that's why the English have to do something about it, to fix their attentions properly onto their Spirit, to say that, `I am the Spirit,' `I am the Spirit' and `I am the Spirit.' This will help a lot. You know you are the channels for this work for which I'm going to America. And I'm sure we'll be able to fix them in their proper places.

They know how to fix everything. You see they talk like this, “I'll fix your breakfast, I'll fix your lunch..." [laughter]. They fix you up everywhere and it's like a machine they are fixing you up. Like, you are going to the airport they'll say, “Now, all set." “Now, you all said `all set,' what more?" “Have you given the keys?" “Yes, all done. Everything done." “All set, all set." You start wondering where are they setting you to? To moon or what? So they are like that. But they are simple people in some ways because they have not yet learnt lots of cunning things because they never invaded any country. I think you [Englishmen] picked up lots of things from

other countries also when you invaded them and they are simpler people.

But simple people can be simpleton also and that's why you have to see that wisdom must be brought to them. They are all the children of God, every one different, differently made, but so beautiful. All of them have this possibility and the Spirit resides in them, the star shines and I'm going with very great hope.

I'm sure we'll be able to do something there and with all your good wishes and love, I'm sure, definitely, you will get very good news from American people.

May God bless you.

Today is the day I am leaving and, I'm very grateful to you, all of you, for taking it up so seriously and working it out. And arise and awake to your responsibilities. And try to love others and also love yourself and be drenched in the Divine Love.

May God bless you.

Now, if you have any questions, you may ask Me about it and I'll try to answer them. But the whole Kuṇḍalinī and all that you know is a very big subject on which, I don't know, I must have now, by now given about five hundred and one lectures, because if you include today's. And there are all the tapes with you. In any case, it's better to get the book Advent to understand for new people and also some of the tapes to see about the details of Sahaj Yoga.

May God bless you.

May I have some questions? A few things for the new, new people I would like to say. Few things.

Sahaj Yoga is a method, which is born with you, is within you, the Kuṇḍalinī is within you, is placed in the triangular bone and is your Holy Mother, who is anxious to give you the second birth. And She rises because there must be something about Me that She rises and She gives you realisation. Now, that is a mystery in the beginning, so forget it, doesn't matter. Once you get your realisation, then you discover the mystery, is much better. I must be something definitely, otherwise how can it be that thousands of people get realisation in My presence? That's the only conclusion you can come to. But nothing to be afraid of: I am just like you to look at and there's nothing to be worried about. But that's a mystery.

So for that, you have to rise little higher. When you establish yourself first, it is only thoughtless awareness you receive. We call it as Nirvichar Samādhi, when you have got thoughtless, enlightened consciousness.

By that you can raise the Kuṇḍalinī of others, give them realisation, cure people, do lots of things.

But then, another state of being comes up, which is called as doubtless awareness, which is called in Sanskrit language as Nirvikalpa Samādhi. When that matures, when, you can't say `when,' it's not timing, it's the way you mature. You see, when does the fruit come in? when it matures.

So, when you mature up to that then you are given the clues to the mysteries of Sahaja Yoga which are to be given only after doubtless awareness.

So, first you have to rise from thoughtless awareness to doubtless awareness, which is a state of your being,

which is a state, which is not your mind or anything. It is a state by which you start expressing dynamic powers and when that happens only the higher knowledge of Sahaj Yoga, which is a mystery, is to be given to you. Then you become a Guru, yourself. You become the Guru, you become the master and then you start doing it.

You may say that before you start driving a car and understanding it you play with the brake and the accelerator. Gradually you work it out these two powers. Then you become sort of, a little bit balanced.

Then you are appointed as a learning driver. Then you have [been] given a certificate that, “All right, now you are a driver." But you are still a driver. But then when the Master sees that you are such a good driver, he is such a loving Father, that he gives you the mastery and that's how you become a Guru.

All of you can become Guru and there are many Gurus sitting behind which are very great and that's how you all can become Gurus. You don't have to grow any horns for that and no funny dresses, you have to be absolutely normal people, but inside you are the Guru.

`Guru' means `the one who has the magnet'. And the magnet is that where the iron, the ordinary one, is touched with a spark of the magnet and that spark is the Spirit. Once you become that, then you become the Guru.

Now, the question please.

Question: *[UNCLEAR]*.

Shri Mataji: What did she say? Can you...? Somebody come and tell Me.

Lady: May I ask, how do I address You, Your name?

Shri Mataji: Dress? Lady: Yes, address.

Shri Mataji: You are beautifully dressed. [Laughter.] Lady: No, anyway. I was wondering first, are You going to New York? Are You going to New York?

Shri Mataji: Yes, please.

Lady: Yes, because in New York is a very lovely `yogini', a lady yogi, very highly evolved. And she's working at Carnegie Hall, for many years, I wondered if *[UNCLEAR* You go see, You should know who her and her family...]

Shri Mataji: Will be good idea. You wanted My address, I heard only “dress” so I said... [Chuckles at Her `error'.] No, no, you can take My address from these people. But you see the...

Lady: Can she have your address? *[UNCLEAR]* yours, I could sent to her *[UNCLEAR]*.

Shri Mataji: Yes, please.

Lady from the audience: Because she's very highly evolved. She's very perfect. She's been there twenty five years and,

Shri Mataji: It's not the years that matter...

Lady: No, I know, I know.

Shri Mataji: You see, but tell her that... you see...

Lady: And she could help I think *[UNCLEAR]*.

Shri Mataji: Yes, if she is truthful, she's honest, she will.

Lady:... *[UNCLEAR]* with You?

Shri Mataji: Definitely, I am sure she will. Because there are so many saints in India, even in Rangoon who know about Me and they are very much helpful to Me. But one

has to be really a saint and not just a so-called saint, you see, that's the point is.

So I would like to meet her. You can take My address from them. I thought you were saying, “How should I dress for the program." [Laughter.] Alright. What else? You can get it from Mister Gavin Brown and we are also putting there.

Any other question please? Are you feeling the Cool Breeze in the hand? Good. Just see, sitting down.

Please put your hands like this. Why waste time? Just have it. If you take out your shoes it will help a little more to get it faster because the Mother Earth takes your problems much more. It's started already, it's started. It will work out in no time. Just take out your shoes, will help you. You must help yourself, you see? Just take out your shoes, will be good.

Put your hands like this and put both the feet on the ground. That's very important. It helps faster, I have seen it.

Close your eyes please.

Gentleman: [asks something indistinctly.]

Shri Mataji: Now, just now we have started the meditation, alright? You can later on ask Me, alright? Please close your eyes. Put your hands like this.

You see, the questioning is alright but I would say that it's not a mental activity, aright? So even if I answer all your questions you may not get realisation. Best is to get realisation once for all. Then we'll answer all your questions. Please put your hands like this. Let's see. Let it work out. It's better to work it out first. It's very simple.

It cannot do it with mental activity. It has to work out. It is within you, it jumps like a spring and works out. Now see this gentleman he's sitting here, he [snaps Her fingers] just got it like that. He didn't ask any questions or anything. Just like that. You see is alright, because I know the mind is such a funny thing it goes on asking questions. But just have it. Ask him to keep quiet for a while, `Your mind,' say that, `For the time being can you keep quiet?' Better have the experience first of all, then we'll talk about it. By talking it won't work out, alright? So be kind to yourself. Please put your hands like this and tell your mind to be kind to you, because it thinks all the time.

Close your eyes now please. Let it work out; it will work out in no time. I'm sure it will. Just allow it. Tell your mind that, `For the time being, can you keep quiet for the time being?' You have to help yourself. You have to tell your mind.

There is nothing to doubt because I have nothing to take from you. If I was to take anything from you, then you can doubt, there's nothing selling here, you see? So we should give up the attitude of a shopper, but you have come to receive here something.

Now, put your right hand on your heart and ask the question, `Mother, am I the Spirit?' in your heart.

Close your eyes and ask the question, `Mother, am I the Spirit?' Believe Me you are. But you ask the question for your verification, whether you are the Spirit or not.

Just say, `Am I the Spirit?' Better.

One thing is there is not to feel guilty at all because that is how we don't love ourselves. Just say, `Mother, I am

not guilty.' Thrice you have to say, `Mother, I am not guilty.' Don't worry.

I am here to do all the jobs so you shouldn't worry about these things. Just leave it. Say that, `Mother, I am not guilty, not at all. I'm not at all guilty.' Now ask the question, `Mother, am I the Spirit?' You have to forgive, forgive others. Just say, `Mother, I forgive everyone.' `I forgive', it's a big load.

`I forgive everyone.' It's a very big load on the Spirit. `I forgive everyone.' You have to forgive, forgive everyone. Forgive yourself, first of all. Do not get angry with yourself, say, `I forgive myself and I forgive everyone,' because you are the Spirit. Spirit is not guilty and Spirit is forgiveness. Spirit is ocean of love.

Spirit is ocean of compassion. You have to become that. Once you become that, then all these minor things, trivial things will drop out.

Now you put your right hand on your head and see if there's a Cool Breeze coming out. Left hand towards Me and right hand little above your fontanelle bone area. Just see if there's a Cool Breeze coming here.

Just put it like this, I'm giving you all the balance, that's how.

Just see, is there a Cool Breeze coming in? Move your hand a little bit and see [if] there's a Cool Breeze coming in. Further and backwards.

Coming? Good. See now, is it there? Some people might get a little heat, doesn't matter, the heat has to go out. See for yourself. Getting it? Good. Good. One by one all of you will get.

If there is heat you take it out like that, if there is heat, may be heat, some people might have some heat coming out. If there's a heat you just take it out. Heat is due to friction in life, tensions in life, problems, physical, mental, emotional. Is it coming out? Ha, she's got it.

Those who have got it can put down their hands. Those who have got it can put down their hands.

Good. In both the hands? Good. Now see, is it there? It's there. It's there.

How many are new people today? Pplease raise your hands so the Sahaja Yogis can come and look after you. Raise your hands those who are absolutely new, who have come today. Absolutely new who have come first [time]. Please raise your hands who have come for the first time today.

She's got it. She's got it.

Lady from the audience says: But not, not new to Yoga, not new to Yoga, I'm new to this.

Shri Mataji: What is it? Lady from the audience: I'm new to You, but I have been in twenty five with Yoga.

Shri Mataji: Haṭha Yoga you mean? Lady from the audience: I... to Your experience. I'm new. I... This is the first time I've managed to...

Shri Mataji: Did you, Lady from the audience:, but I have studied books for twenty-five years.

Shri Mataji: You mean... the Haṭha Yoga that we study here is very physical.

Lady from the audience: It's not Haṭha Yoga, it's *[UNCLEAR* `aparthana'].

Shri Mataji: Which one? Ah? Lady from the audience: I have studied all of the spiritual Gurus' books.

Shri Mataji: Which book have you read? Lady from the audience: I mean I've only got my hand up to as a novice to Sahaja Yoga.

Shri Mataji: Alright. No, but I just wanted to see if you have got the realisation, you see? For that sake. They all will have to see whether you have got realisation or not. They are just like you to look at but they have got their vibrations and they are in it deft, so they are seeing just. Imagine, these 75% people sitting here are realised Souls, can you believe it? Maybe 80% people.

Lady from the audience: Oh I see.

Shri Mataji: Oh, you are all here? Happy to know. Hello! Roxana has come? Roxana has she come? Where is she? Answer: *[UNCLEAR]*.

Shri Mataji: Spain was great I must say. We did a good job in Spain.

You give them an understanding of the thing; you see, what is the problem, what they are facing and all that.

So talk to them and let them know.

How are you? All right? How is Roxana? Lady: Very well.

Shri Mataji: Where is she? Lady: She's down there.

Shri Mataji: I'm very happy.

Lady: I wanted to thank You.

Shri Mataji: For what? The lady: Because I have no arthritis in my knees.

Shri Mataji: No Arthritis? Lady: Thank You. You *[UNCLEAR]*. Thank You very much.

Shri Mataji: Oh, not...

So you are all right now. Perfectly alright? Lady: Yes. I'm very, very happy.

Shri Mataji: I am very happy. May God bless you! Arthritis is nothing, simple. It's a very simple disease. Can be cured very easily, you know that.

Lady: It has and I have nothing *[UNCLEAR* you have done that!]

Shri Mataji: Yes. Yes.

Lady: Thank You very much. I didn't want to take your time.

Shri Mataji: May God bless you! She had arthritis you see, she's cured of that. Is nothing.

Roxana come here. Come. How do you find them? Are they good? Ha. Aah... Good. Aā, good.

Alright? Ah Roxana, you see, I went down to Spain. You've done a good job there and Dom is there. I would like some of you to go down, if you can. Can you at least to Spain for two weeks? One of your brothers can they go down to help him? Because he has a problem with the language.

I wish you had come with us. We can pay for the travelling or something. Who would like to go? Lady: I can go on Monday.

Shri Mataji: Who else? Lady: *[UNCLEAR]*.

Shri Mataji: You go alone? Ah? Lady: I was on my way to *[UNCLEAR]*.

Shri Mataji: I have to give you a good news also, that he would like to marry you.

Lady: *[UNCLEAR* What], Mother?

Shri Mataji: Donny would like to marry you.

Hello.

Lady: *[UNCLEAR* He's bringing Audrey to me].

Shri Mataji: May God bless you! What's your name? Boy: Jeet Singh.

Shri Mataji: Jeet Sing? Ha, very good.

Lady [softly]: Somebody's happy, Mother. I'm very happy, Mother.

Shri Mataji [laughing]: And that's why I wanted to see you.

Lady: We love you very much, Mother...

Shri Mataji: May God bless you! Lady: He's very... he's handsome. Thank you very much.

Shri Mataji: He's very happy to do that.

Lady: Thank you, Mother.

Shri Mataji: All right? May God bless you! Ha-ha-ha-ha..., So great. Hey? Are you? All right.

May God bless you! May God bless you! Little boy: There's a light.

Shri Mataji: I'm so very happy. I am *[UNCLEAR]*, very. All right? May God bless you! So, how are you? [Hindi conversation.]

***Contents: 1981-09-19*, Public Program, Day 1, Manhattan, New York, USA**

It's nice to come back to America. I know there are lots of seekers in this country; lost. They are frantically seeking, no doubt. The are genuine seekers, I have no doubt about it. I came back after nine years; it was unfortunate because I was busy with other parts of the world and I knew I'd find them again when I came back.

It is for us to know first of all that if you are seeking reality, if you are seeking the truth, we have to be very honest about it; extremely honest. You have to know that unless and until you find it, you should not believe anyone. You should not accept any surface anything. People may say anything. I may tell you that you have to have your realisation. That doesn't mean that you have to believe Me, it doesn't mean that at all. But you should not also deny Me.

Now, first of all we should know what we are seeking. There has been never on this earth such an urge to seek.

So many seekers! I don't know if you understand that a really different type of category of people, I call them men of God, are born who are seekers. And they will go on seeking until they find the truth.

But one has to know what we are seeking. What are we to seek? It is said you have to become. You have to be. What do we have to be? We have to be our Spirit. Now we do not know what our Spirit is. The Spirit exists, no doubt. It watches us. We know there is a Spirit. But how to bring that Spirit into our conscious mind, into our central nervous system, is the point. And when people know that there are such demands, the market also gets filled with enterprise... is very common. Americans have the worst hit because you have worse... you have money. That is the worst part of it. And that's how all of them are different down here and they have exploited you.

I'm sorry for all that. But I must tell you that you cannot pay for your realisation. It's an insult of God. How can you pay? How can you play for His love? Do you pay to a tree when it gives you fruit? You do not. Maybe a

merchant might take a fruit and settle. It's much more than that. “How can we pay for it?" Is a simple question we should ask ourselves; honestly.

Then second point is, you cannot have courses in God realisation. What university did Christ go? He was a simple man. Did he go to any university? There is no understanding for us. That God is for everyone, whether you are rich people or not. Whether you understand this language or that language, God's language is of love and it's for everyone... every person... for every case. It cannot be for one person or one type of people or of one category. But one category is there and they are the seekers. Seekers is a special category; but only trouble is they do not know what they are seeking.

For this we have to divert to some authentic people. For example, we should see now Christ. Christ said that you are to be born again. Last time, when I came to America, they were taping My speeches and all that in Los Angeles. And I was amazed, you see, that people objected to it; felt they should not tape. I said, “Let them tape. What does it matter?" They said, “No Mother, they will publish it." I said, “Let them publish it. It's a fact. They should get it. They should get their realisation. They are to be born again." But I was amazed! Then, they write books as if that was their knowledge. I don't mind that either.

But saying that you are to be born again and they got a certificate, a sales certificate, that we are born again. How can you certify yourself you are born again? You have to be honest about it. If you are born again something special has to happen to us. Like Jung has said

that you have to become, become collectively conscious. Not that I say we are all brothers and sisters and we are all one. No, you have to become that part and parcel of the whole, as you say the microcosm. You have to become this microcosm... has to become that. That means in evolution, your awareness has to become something more. As an animal you see, for example, for an animal. He doesn't see any colours. He doesn't see whether is filthy or good. But you do. I'm the same way, if you have to rise higher, the change has to come in your awareness.

That is one thing one should know... that the transformation has to take place in your awareness. And that is what one should see. Is there any transformation in awareness? For example, there is some lady who starts jumping on the seat. I've seen some people who come to Me. They just start jumping and they think they have got realisation. How can that be? You are not in possession of yourself. You have to be your own master. Here somebody is making you jump. Maybe you are possessed. You have not have authority over yourself. You do not know how to control yourself. And how do you say that you have got realisation? If you become Self-realised, you are not going to be enslaved. You are going to get over all kinds of slavery. You have to be a master. This should be the test of anything that you are seeking. What have you got, you say? Are you emitting your own powers? I may say, as he has said it, I mean, I don't know why Warren said this because I seldom start with this kind of a thing,; but if you wanted to see who said it. Now

to say that I am such and such and such and such is nonsense. I may be anything.

So what? What did you get is the point! Did you feel yourself any more than before? Did you get anything more than you have had before? Not that you become crazy people or recluses. That's not the way. You are going to become most normal person... has to be extremely normal. And above all, you have to have complete control of yourself. That is the minimum of minimums one should know. But our idea about Self-realisation is so much spoiled and so many pseudo people have written, even about Kuṇḍalinī. I was amazed when I found out that such big, big books are written about Kuṇḍalinī... saying it is in the stomach, some say it is in the nose... it is here and there. It is not there! It is in the sacrum bone. You can see it yourself with your own eyes. When the Kuṇḍalinī rises you can see the pulsation just like a heart... not in everyone, of course. But in some people who have had an obstruction, you can see with your naked eyes. You should be able to see it, happily and you can also feel the pulsation coming to the head. I mean so many people have said it.

There are people now, I am told, who are converting people into Sikhism and this and that. And what is Sikhism? If you need, read Kabīr who is the basis of Sikhism. He has said that you have to feel the Cool Breeze coming out of your head. He says... "*[UNCLEAR]*." This means, on the head first of all, there is the sound of Anahada, is this thub-dub of the heart and then you feel the Cool Breeze coming out.

Is so clearly said, but who reads those people? Those people who talk even of Hinduism and all that, do they read Ādi Shañkarāchārya? What Ādi Shañkarāchārya has said? He has written books after books on Kuṇḍalinī; and not only, but on this Chaintanyita he has written a complete book. But people don't read that. You get these, I don't know, extracts and some sort of a, I don't know how they are not afraid of God? They are not afraid, just to make some money, I don't know. Are they going to carry this money with them? It's very, very wrong! It's very sinful. I don't mind what ever they do. It's alright if they want to be smugglers and all. There are many like that. But they spoil your Kuṇḍalinī. You are damaged. And this is the thing which I am concerned about. It's a very sad thing.

Coming to America is a real venture for Me because I did send some of the people who were really realised Souls and they came here. They ran away within three days. They said they will never recognize us... that's a barrier... that's is a barrier. They will never recognize us Mother. They went back. They rushed back. They stayed in New York, one of them stayed. In three days he ran away. He couldn't stand it. He said, “They just want something else. They don't want God. They don't want their Spirit." Of course, I don't believe that. These barriers are created to us because we read about it. We try to understand through reading. It's good, but you must come to a right conclusion through logical, logical understanding; not rationality. Rationality is something which can take you anywhere. Rationality can give you... [you can] rationalise even a murder... anything! But, logically, you

must understand. Where should we reach? What should happen to us? As seekers, what are we expecting? This is a very, very precarious and important time... is more to say. The Last Judgement has started. That has started.

That's how you are all here and you are seeking. The way it will judge, is the Kuṇḍalinī has to rise. Your have to become Self-realised. Then you start feeling your centers on your fingers.

Tomorrow I will give you all the information about the centers and all that and I will tell you how He will judge you. What are your centers that are catching? And then you will judge that and you will know what is the problem... how to get it done... how to get it alright. There is no technique for *[UNCLEAR]*.

Like if you sow a seed it becomes a tree. There is no technique. If you have flowers, they become a fruit.

It's a living thing. And living things don't have any technique. But once you get connected, then you must know the Divine laws and you must know the Divine technique. But first you must be realised. Unless and until you are put to the Mains, how can you use this machine You are not yet put to the Mains. How can you do anything? It's like telephoning somewhere without having connection. You must be connected, first of all to the Divine, but this is not a difficult thing. In modern times is very easy. Formerly, it was, like you can say, a tree. In the beginning you get only one or two flowers. But the time has come. The blossom time has come.

Already today, I went to see William Blake's drawing exhibition. And he said, “All your sins and blasphemy and

everything will be forgiven. All your sins will be forgiven." He has said about these days.

He said that the God of *[UNCLEAR]* will become prophets and they will have power to convert and transform others into prophets. He has clearly prophesized about Sahaja Yoga. Every word he has said about it. But people don't read Blake. If you go and see his exhibition, you'll be surprised how in the `Pilgrim's Progress' only he has given clearly how you face life. And there are some Sahaja Yogis here sitting down at your back here. And they have come from London and some of them from Australia. And they could see. This is how you face it. But to get realisation is the easiest thing; to maintain it... rather difficult. But also that is possible.

Now we have in London, you will be surprised, a hall at least one and one-half times bigger than this. And the hall was completely filled. And they rose up to sing a song of Jerusalem which was a great experience for Me to see that. But you won't believe, I started the work in England because My husband got elected to a post there. That's how we were there. And in the beginning, I was working with seven people, seven hippies, I should say... seven people for four years. And now of course, in the whole of England we have many centers and lots of people have got realisation and they are working it out. It's working out very well.

We have some people here from there who have come. Doctor David is here and Hesta is a barrister.

Then we have these two from Australia, DoctorWarren, who was a diplomat. And these two are American girls, both of them, ah Christine, has been with Me since long

and Marcia who got her realisation only two months back, but she was so upright and so straight forward. And you should know that it is you who should decide. If you say I am your Guru, alright I accept it for the time being. But a Mother is always a Guru. If you say that your mother had to teach you so many things, also I have to teach you some things. But actually, it is you who is your own Guru. You have to become it. Unless and until you are connected, how will you judge? Once you get connected, you will be able to check. But you don't think it is a mental activity that is going to bring you your realisation. No, God has placed everything beautifully within us; everything. You have got your Kuṇḍalinī very nicely placed in the sacrum bone. Now, see this bone. Sacrum is a triangular bone called `sacrum' so that Greeks know about this bone. They knew it was a sacred bone. Sacrum means sacred in Greek. When I went to Greece, I was surprised. They have the complete idea of Kuṇḍalinī; complete idea. And they have this Athena also... means the Primordial Mother. In Sanskrit language, Athena, Athens comes from that and the way She was holding a serpent in her hand and everything, absolutely She is the Primordial Kuṇḍalinī. And the whole concept was there and when I went into the study of that I tried to find out what it was... how did they know? They said we had some Indo-Aryan groups coming down here and they told us these things and that's how they know about it. But, that was all lost because they brought all the Gods to the level of human beings and made a lot of mess out of it.

Now we have to know that how Christ was such an important incarnation on this earth. We have really made a mess of the whole thing. He said that you are to be born again. Actually, he came on this center where you see this red mark. You see, it is placed in the Optic Chiasma. In the center is a subtle center called as Āgñyā Chakra. In the Hindu scriptures, He is called as Mahāviṣhṇu. But I will tell about His advent when He came on this earth. We say, He is the gate; he is the door. He is the door below the limbic area. And the limbic area is the Kingdom of God. Where one has to center, the attention has to enter.

How you enter into it? Not bodily, but your attention has to enter it. Your attention is a spread out in this area. But not there, it has to enter through that area into the limbic area and ultimately, is the fontanelle area. It becomes soft and the Kuṇḍalinī has to come out and with the Cool Breeze, this is your actual baptism. Is not the baptism you go to some theological college to learn and say alright, I baptize, it's all artificial. It's absolutely artificial. That's not the way you can baptize. You have to be a realised Soul to do that. John the Baptist was a realised Soul. He was the one who knew how to do it. And he did it for all of them. And that's how it should happen to you. The Kuṇḍalinī has to rise and give you realisation.

Now the Christ advent came at this point. It's a very important one because today we have brought the charts and all that but tomorrow we'll be giving you, in a full way, how the ego and superego are sucked.

They create a barrier here. Our ego and superego gives us our `I'-ness. We get separated. When He's awakened,

this portion gets opened out and then the Kuṇḍalinī can rise. That's why it is said, Christ is to be awakened within you. But it can be only done by a person with Divine authority. And such a person cannot live on your money. He cannot be a parasite. Such a person has nothing to do with money. How can you purchase such a person? Such a person is beyond... beyond your purchase... beyond your money.

You cannot do anything for such a person. Such a person just gives. He just gives. He emits. It cannot take anything. It cannot receive. It cannot! You may try, but doesn't. One day I was walking a little bit, My foot was a little twisted and one of the doctors she said, “Alright Mother, I'll try to massage it." Yet she was relaxing that side and I was saying, “What's happening to you?" She said, “Mother, what is this? Lots of vibrations are coming and I am just massaging yourself and I am massaging myself... the way it is cooling down and soothing." So, such a person cannot take anything from you.

Now, the most important point which I would like to reach you is this: that we don't realise how precariously we are placed otherwise, also. There are equal and opposite forces working on us. For example, a disease like cancer. I was surprised to hear at this country, there are patients... one among four... of cancer disease. I have told this ten years back, that cancer can only be cured through Sahaja Yoga. There's no other way out. I have cured many cancer patients and you can also cure once you get realised. How it happens... how you cure cancer... all this knowledge you can have... free of charge.

Free of this thing. Actually, first you must get your realisation. Without that, there is no use telling you because you come into this room; it is all dark; you are blind; you cannot see anything. What's the use telling you the size of the room and colour of the chairs and colour of all this? No use telling you. Best thing is to open the lights and open your eyes so that you can see for yourself. And the complete knowledge becomes your own. Then is better to talk. Otherwise supposing even though when you can't see, I go on giving you the complete history about electricity and about everything. You'll be bored and stiff. And it's of no use. First thing is you must get your realisation. That is the first thing. Cancer can easily be cured by Sahaja Yoga. Absolutely there is no doubt. And there cannot be another doubt that it cannot be cured by anything else.

In our body, we have a particular system called as a sympathetic nervous system. How this sympathetic nervous system goes into a terrible tension when we go to extremes of any kind. Say smoking, for example.

Now smoking is a very interesting thing. According to Me, this America is the Viśhuddhi Chakra... is the center of this center. This center gets spoiled when we smoke and the smoking is the maximum here.

Like the Europe is the liver and there people drink. And they are so much in it and their lives are the worst of all in Europe. England is the heart. It [England] is lethargic. I mean the whole thing is in such a mess that I don't know what I have to face. But I was happy to know that now the smoking is going down. But with realisation, smoking just disappears. You don't have to work at it. Marsha

herself used to smoke a lot. She told Me. I was amazed. But she has given up completely. Drugs and all those things drop out just like something unnecessary because a transformation takes place. And the transmutation starts... when the transmutation starts, all these things drop out. You enjoy the best of health... best of your heart... best of your mind... and your emotions come out. The best part of it is that this is what one has to achieve... the whole humanity has to achieve. But the few who are the seekers have to do it first. They have to do it first; they are the foundation. Like in every evolution, only a few fishes had to come out; then many came out. In the same way, few people have to do it. I'm happy there are a few today. Though others are disappointed, I am not. I am happy because I'll have to work harder. If there are too many, maybe difficult. As he said, it's true that I gave realisation to six thousand people in a village in India. But they are not complicated. See, they aren't so complicated. They don't live with the *[UNCLEAR* sorrows/word] you have here or the tensions you have... or the litigations you have... the problems you have. I have seen Indians who have come here to earn money. They have all gone off their heads. I mean really, they have become half crazy.

The gentleman with whom I am now putting up, he told Me already so many Indians have been under litigation. This happened, that happened and all kinds of tensions are building up. Here, despite all our modern *[UNCLEAR* vest...] we also have landed ourselves into terrible tensions of this machinery; this machinate and all that. The villagers in India are extremely simple people. They

lead an extremely simple life. They have no complications. I won't say that it would be so easy here as the way they have got realisation. Of course, one has to work hard. Like we had about seven people. I had all of them. It took about three hours to get realisation.

So, it could be that way also. It cannot be guaranteed; it cannot be promised. It cannot be certified. It has to happen... is the main point... is the happening... is the happening. You have to become. It has to be actualised. It is not to be believed. That's what you should know. If you are honest, you are to prove. And, you want to have it, you'll get it. I'll work very hard. It's you who has to have patience with yourself. I have all the patience and love. No doubt about it. But you all have to have patience. I told you seven people I was working for four years. Suppose it's not going to be that bad, because with them I worked out many permutations and combinations. Now, I know all the permutations and combinations that are really harmful to people and how they are eradicated. But still I would say I would still have to study some American complications which I do not know.

Nine years back, people were simpler people here and they are all mostly have gone away or also at that time the same thing is that I could not contact and everything works on money. You see you have to give them money so they publicize you. Then they publicize you, then you get more money. Here there is no question of money, you see. You see My whole basic thing is you have to get real people so the real thing, without money. And then, you cannot have a big circus; you cannot have a big

thing and it has to be started in a genuine way… in a real way. They asked Me that there is, there are agencies who work out all these things. I said to begin with I don't think that this is important. We should work it out. Let's see. There will be some people who feel attracted and come. And let's work it out this way. Still, I would like your advice as to where we can go, when and in a decent manner whenever we can advertise. Just now a lady told us that if you go to these shops it will be good idea.

We would like to invite people for this experience. This is your right. You are seekers and just like a bank, you have got your bank accounts and you just cash it. And these are lots of places also. And whatever mistakes are done, don't worry about it. One of the big problems I faced in England is that they all suffer from a center or left Viśhuddhi which comes out of guilt. You see, they are guilty all the time.

Maybe Catholicism that makes them feel guilty, but it's a very, very common trouble with them. They all the time feel guilty. Now, what are you feeling guilty for? We must suffer. Why? Why should you suffer? Christ has suffered for you. Did he leave anything for you to suffer? We would be guilty about what? Why are you guilty? I'm talking of ocean of compassion... ocean of love. Now what guilt can you have? And is a very big mistake to think that we have done little mistake here and little mistake there. God has to save this creation. It is He who has to come in compassion and has to do something about it. If He doesn't save you, his creation is lost. You shouldn't feel like that in a small way. It's all very childish, I would say, like a child to feel `Oow' after this

mistake. But no... your Father is so great, is so full of love you have to just look at Him and He'll work it out. You should forgive yourself; that is one of the things I would request of you. First of all, before forgiving anybody else, you must forgive yourself. That is the first thing you have to do before realisation. Of course, in one lecture, I cannot tell you much about it.

This is just an introductory lecture. And we haven't got our charts and all that because first day, if you start seeing the charts, you *[UNCLEAR]* mechanical and you think it's some sort of a computer. You work it out. Actually, you are a computer, you become a Divine computer. But that's a different system and so it's better that we talk about it just now. And you get your realisation; work it out. We are going to be here for some time and I hope you'll be able to follow My lectures and follow the whole thing. It's such a tremendous thing. I must tell you about this in five hundred [500] lectures in London... at least...

minimum. I say that every time I speak. They say, “Mother, you are speaking something now." So, you can imagine how much knowledge there is there. But you are knowledge; you become knowledge yourself.

In Australia, the newspaper people were very good to Me because there was some happening. A lady was very seriously ill and she had some sort of a very serious stroke and a friend of hers was a big man at the newspapers and one of the Sahaja Yoginis there gave My photograph to her. And she did get well from that... from the photograph only.

So, this man started thinking about it and then they did a big publicity for Me.

So, it was lucky, I should say, for Australians and I was there for about one month or so... three weeks. And we got thousands there now... thousands. There are seven cities where we have seven centers.

It has worked. I must say, Australians are very good for realisation. It was surprising because certain people got realisation and settled down and they knew it was the truth. That was the thing. You have to be intelligent enough to see what i8s the truth. Don't allow your intelligence to cheat you. Be careful about your intelligence... also, it can cheat you. But you should be really sharp about it to see what is the truth. And wise. And that is what you are going to have.

Now, I would request you to ask Me questions because you see you all must be having lots of questions.

You have your mind and you should better ask because I don't want while we are giving you realisation that you should feel that, “Oh, I didn't ask this question to Mother",..., though this makes no difference whether you ask Me questions or not. It is a very different thing. It is beyond your mind. You go beyond your mind. You go beyond your mind; beyond your ego; beyond your superego. You become something else.

So if you have any questions, you can ask.

Question: There are many people who come offering realisation. You come offering realisation. I would like to know something about this. In other words, you have something unique to offer, is that right?

Shri Mataji: Yes, of course I would say I don't know how many have come here and how many have been thugs and how many have been real. But, actually most of

them have been thugs only because what they offer you... I don't know... I have had people from other Gurus... all kinds of Gurus you see. And there are one or two sitting here. All of them have been to someone or something like that. Now as I told you, the uniqueness of Sahaja Yoga is this: Sahaja means... `Saha' is with; `ja' is born... is born with you... is your own... within you. Now the uniqueness about it is this: that it is what you are seeking. That's what you are going to get... is your spirit... is that you become that... is the uniqueness. It's not that I can say there is a course of ten days... you go through the course or you pay for say a jumping course or a so-called flying course or something like that. It is what you are. You become that. The uniqueness of it is that it's a happening which is a living happening. You see, we don't do anything that is a living work. What we do is a dead work. Like a tree died; we make chairs; we think we have achieved a lot. You see this wall is all made of dead things, isn't it? We have just changed the form. And these forms actually try to dominate us. This chair becomes a sort of an obsession for us because we can't sit on the ground...

this... we have to use a chair like that.

Now, anything that we do is all dead. Supposing somebody has to jump. Anybody can jump. What is there to be jumping? People pay money to jump. Can you imagine?... to take off clothes?... people pay money. How can that be? What is so great about it? We must understand: what do we become? What powers do we become? You see, there's a Guru. He says, “Alright, I give you some knowledge." Now, what knowledge has he got?

One gentleman came. He said, “I've already got knowledge." I said, “What knowledge do you have?" For example, Warren can tell you where is your Chakra catching. Where is your Kuṇḍalinī; where it is obstructed; how to raise it; how to bring it us; how to take it down. The he can cure patients. He must have cured... I don't know how many. You all can cure patients and knowingly... what it is. What Chakra is catching... what is happening... what is the mental process. Everything, you know in your awareness.

You become a different person... is a transformation that takes place. You become master of yourself.

To explain, I will tell you a very simple analogy. Say we are travelling by... we are trying to learn how to drive. Now you have got an accelerator and you have got a brake. You're working it out. You see one, then another.

We have two centers... two channels within us which I show tomorrow... one for our actions.

So we start working both of these and start managing. We go to extremes... this way... that way...

and make all kinds of mistakes... whatever it is... but we try to balance ourselves. When do we learn the car driving? When we learn it. Once you have done that there the Master is... sitting at the back. And once He sees you have balanced it, He gives you your place. You become the master of your being. This is what has to happen... the breakthrough! The breakthrough has to take place. Is not just a make believe that, “Oh, we have become like this." I mean there are people who believe they are Self-realised. There are many like that, you see, that believe that they are that. They are not. Because

they should be able to tell. They should become collectively conscious. They should be able to tell where is the Kuṇḍalinī; where is the problem. Now, for example, you are sitting... alright, now you do not know about the gentleman next to you... where is the problem? Where is his Kuṇḍalinī? You cannot give him realisation. But the people who are realised Souls, even the small children, can do it... very small children. They will immediately say, “This is the center catching. Here... the finger"... little children will show the same finger. For example, if you have a problem, say on this center. Alright. All the children you put some sort of a thing to close their eyes. And ask them, “Which center is catching?" They'll all say this. All will say the same thing. And they also know how to correct this. Little, little children know how to correct this.

They are born realised and born realised children are dynamic. And they know...

So many born-realised children are born these days. How will you know whether they are born realised children? You do not know who is a false Guru and who is a real Guru. You don't know anything! There's no discrimination power. But, if you want to know also about that, you can just put the hands towards them and they can find out. Your vibrations will vanish completely. You'll have heat coming from horrible Gurus. If you see any horrible Guru, you'll find very bad vibrations coming in that... all burning and some of them just stop the vibrations. You just don't get any vibrations from them. You can make it out from everyone what sort of a person he is.

Contents: 1981-09-20 **Visit to Kristine Kirby's Dormitory, Center, Boston, MA, U.S.A.**

[Shri Mataji and seven accompanying Sahaja Yogis from New York City climb three flights of stairs. Seating in the room, Shri Mataji says:] Oh, how nice.

[After working on Steve Kirby:] Now, let's see Kristine.

If you are in the present, you will remember everything. [Picking up a mug from the table:] You see, the colours of this cup, I will remember them for eternity.

[Shri Mataji rests for a while. When the nine Sahaja Yogis return from Boston Commons, Shri Mataji is reading The Advent:] Oh, I've never read it. It's not bad.

Contents: 1981-09-20**, Public Program, Basement of a Church, Center, Boston, MA, U.S.A.**

It's such a joyous moment to come to Boston. We had Steve [Kirby] in Bristol who was representative of that category of people who are very honest seekers. And he really impressed Me. He got his realisation and he was lost. I didn't know where he had gone. And when I came back from Paris, I received a very nice telegram from him saying that Boston would like to have a program. I knew there were lots of universities and many young seekers and many people who are thinking of the beyond.

It's a new category of human beings that are born, absolutely a new category. Such a category never existed before, which is seeking. They are not satisfied with what they have. Is not only the aftereffects of affluence.

Some people feel because affluence came to America, as a result of that people are sort of dissatisfied with all

material value, material things and they are seeking. It is not today. This is the time, the special time, where people are to be born, this has to be done. You are not seekers of today, you are seekers of many lives. And you're been seeking. Is mentioned in one of the very old Purānas, called *[UNCLEAR]* Purāna, that Kali Yuga is the time when thousands of seekers will be born and they will get their realisation.

It has been announced by many, many poets also. In England we had one William Blake, I was amazed the way He described Sahaja Yoga. He says, men of God will be born in these special times and they will become Prophets and they will have a capacity to make others Prophets. Apart from that, He has mentioned precisely where the center will be located, where I will be living first. It's amazing, how He has prophesized all these things.

We have to think very scientifically also about certain things, which can not be answered otherwise.

Why have we become human beings from amoeba stage to this stage? Is there any purpose of our life?……

[After the program, while walking back to the dormitory with Kristine and Steve:] Get married, because you both have left Nābhī.

Contents: **1981-09-2x Advices, New York, USA**

Don't waste.

What your country wastes you must retrieve and restore.

Husbands, take care of your wives.

Wives, take care of your children.

Serve the men folk first; Western women don't know how to handle their men.

Do not become fanatics, I eat meat, sometimes.

Respect your children and listen to their stories. They are love. Remember they are My children first and everyone else's children are yours as well, yelling at them defeats you. Teach them how to self-correct by putting down their egos in front of My picture and their Spirit will spontaneously rise.

Say: pay attention to your Spirit. You are the Spirit and that is the most important thing.

God created man in His image and I created you in Mine.

You are in My body. I love you all. You are all special, no favourites.

Love each other because it troubles Me when you don't.

[Shri Mataji told us, first thing when She came in 1981, both in New York and Los Angeles, that:] Śhrī Kṛiṣhṇa must stop playing His tricks! [We collectively quivered because even though we had no clue about what She meant we knew She had meant it. She reminded us that we were lucky to have a Mother as a Guru and many of us humbled down in our desire to please Her. She explained Her Divine politics by stating that sometimes She has to:] appease the deities.

[Judy Gaddy proudly shows Her the artistic rendering of her astral body and Shri Mataji firmly says:] I want you in your [normal, physical] body.

[When Judy Gaddy asks Her why She wars a red dot on Her forehead:] In remembrance of the blood of our Lord and Savior Jesus Christ.

***Contents: 1981-09-21*, Public Program, Day 2, Manhattan, New York, USA**

It's really unbelievable isn't it? It sounds so fantastic. I have been here about nine years past and I told them that, “It's within you, there's a simplest thing, is a living process; it works out, for nothing at all. It's your own." But what I found, that Americans were still busy Guru shopping; they wanted to go through that, they wanted to do all that. What could I do? I told them, “You don't have to do all this. Why do you want to waste your energy? Why do you want waste your money? Nothing, you just have it!" But they wouldn't. They wanted to spend their money, they had the money that time, they thought they can buy some Bhagwans and gods and things like that. All sorts of things were on when I came here and they wouldn't listen to Me.

They wouldn't listen to Me. I said, “You cannot purchase it, you cannot buy it. They are misleading you." So I thought, better to retire for some time from America. But in India now, in the villages, we have thousands of people who have got Realisation, it's so simple. You are seekers, you are seekers because the time has come that you have to be here and that you have to get your Realisation. It's very simple.

After all, God has created this great world; this creation is His own and He has to save it, jolly well! He has to do it. But it is so incredible, they can't believe it, it's impossible. They think, “How can that be? We must stand on our heads, or we have to pay lot of money; we have to become brookes, we have to give up this, give up that.

Do all sorts of nonsensical things and then, what we find? We are left high and dry." It's true, I know, it's true. But you could have avoided it; when I came here, I told people very, very clearly and plainly.

But I was amazed, also apart from this: they did all kinds of funny things about what I announced then. Like, I said that you are to be born again. All right, they taped Me, they did everything and they started organizations with this name that “We are born again", they certified them! And they started another organization with some vibrations, something *[UNCLEAR]*, I don't know. I mean, instead of being honest to yourself and getting the *[UNCLEAR* tree/thing] down to earth, I didn't know why they were getting into these hallucinations with these imaginary things; we have to be just honest to ourselves, that's all. It's so simple, it's extremely simple, but when you go to these places and do *[UNCLEAR* drugs/that], you get damaged; you really get damaged.

Of course the task is very difficult now for Me, I find, comparatively. It would have been much better no doubt, I tell you it would have been much better. But they wouldn't listen to Me, even up to the point that they said, “You must charge some money. People are doing it for so much, so much. At least charge some money, that people will have no value for it." I said, “If they start valuing it in money, they'll never value it." It should not be done; whatever is wrong should not be done. And they just wouldn't accept it; you see, it's such a funny situation. And that's how I went back; nine years I waited. But Americans are great seekers, you know, I must say, they are. Despite all these damages and all that, we had a

very good experience the other day, with all these people were there. Especially, we went to Boston where there were about fifty four people or so and fifty of them got Realisation, just like that. Fifty of them, can you believe it? I was amazed. It's expanding; consolidation may be a problem, but that should be consolidated. I did give Realisation to some here and they were quite funny, they started charging people for their vibrations. Just imagine? They got it without any payment or anything, but they started charging people for it and when they came to India, we found out: they had lost their vibrations, they were very heated up people and we told them, “You cannot charge for it. How do you charge?" He said, “How are we to live?" I said, “How did you live before? Live like that." “We were schoolteachers, we were..." So I said, “Do that!" You cannot charge for these vibrations; these are Divine, this is love, you cannot charge, how can you sell that? Can you? Can you sell your love? Is a simple thing Americans have to understand, that you cannot sell it. It's too simple for them to understand, that there could be someone who really loves. Just loves for love's sake. There could be one, at least, like that, in this whole world. If they understand this, then it will be easy for them to understand that all these things are built in you; they are already made like that. It's not at all difficult, like a candle, which is made properly and there's a wick and it's very easy to enlighten that, if you are enlightened.

What do you do? What goes out of this candle? Is nothing: you'll just enlighten the another light without any difficulties. Is nothing special, nothing great; it's

very, very simple. But we want to make everything complicated and what am I to do? If you have to eat your food, you eat like this, isn't it? Do you put your hand down like that? If you have to breathe, which is so vital, it is the simplest. Do you go to libraries to read how to breathe? Is all so simple, you won't believe, like sprouting a seed: it's a living process has to be simple, spontaneous. Has to be simple. How can it be complicated? Then, another problem is that here, people read a lot about God; read. You can't read about Him, you have to know it. You see, they just read, “This is the God, that is the God” and we meet somebody, today we met somebody who said that, “I believe in a man who calls himself Jesus." I said, “Very good, put him on the water. Can he walk on the water? If he can walk on the water, all right, he's Jesus. But does he walk? Put him on the water." I mean it's very simple. If I say if I am something, I must do it, isn't it? Now if somebody says, “I can make you fly." You start paying him money, such a lot of money goes to this fellow, make him fly. Does he y? If he flies, then he can teach you. If he does not know himself how to fly, how will he teach you? It's a very logical thing: we have to know that we are not going to fly anymore now: we have own as birds, so we are not going to fly or hop, we have been that. We are going to become something more in our awareness. We see the simple thing we should know that we have to become that.

Something in our own awareness, something has to happen that should make us something that we are; that we should become the Absolute. We are not what we are,

we are something else, we are like our, say, mind, we are our rationality which can go anywhere: it's not absolute. Supposing somebody comes here, Mister X Y Z and says “This is a very nice car." Another one will come and say, “Oh, it's not so good." Another one say, “Maybe good, maybe." Three human beings, all of them are human beings; they are not animals, they are human beings, three of them from the same place, from the same village, you can take it, put them together, they will have three opinions. If they continue to have criteria, we shall say, see they can have even thousand, if they change.

So why? Because they have not got their absolute values; there must be something absolute within us, when you start... *[UNCLEAR]* you start feeling the absolute. As is said, really it happens to you; you become that in no time and you can feel it, on your hands, on your fingers, the reality. You ask a simple question, `Is there God?' Somebody told Me, “I don't believe in Christ." I said, “All right, why? Have you seen Him? Why don't you believe?" “I don't believe." “But why? What is the reason?" “I believe in this and I don't believe in that." “Well why? Is there any absolute by which you have judged whether there was Christ or not? Whether it was true or not? Whether it's just a myth?" “No, I have not." “Then how can you say `I believe'? You keep yourself open!" First, you become your Self, that's like Buddha. He said, “Don't talk of God or anything. First of all, let them become the Self. If they become the Self, then talk of other things. Because if they do not, if you talk of something else, they will come out with their own ideas, that, `I don't believe in God, I don't believe in this, I don't

believe in that.' " So He said, “All right, you become your Self, that's the first thing. Once you become your Self, then you will start seeing other things through your awareness, which is something special." And that's what should happen to you; is to first become your Self, then you start judging other things because now you have that awareness by which you can judge.

Now, how are we to know that, supposing these vibrations come to us, whether they are also absolute or not? After all, we should find out whether they are absolute or not. For that, we can use a method which is I call as *[UNCLEAR]* method. Today I told them that, you get two boys who are from lunatic asylum, certified mad people, absolutely certified. All right? Then get two people who have got cancer and then get two people, one realised Soul and one unrealised Soul, according to Me, one is realised and one is unrealised. All right. Now you put all of them to Me and ask them to see their vibrations. You will find the person who is mad, he will start doing all kinds of actions maybe, or he may feel shaking all over the body, his whole body might shake like this, the whole thing might *[UNCLEAR]*. The person with the cancer will feel terrible heat getting out of his body and terrible heat coming out of his body, so much so, it happens sometimes, that the room does not need a heater, in London even during wintertime.

Now, you have another one who is not a realised Soul; such a person may little bit feel hot, or something and after some time he starts feeling the Cool Breeze, gradually, for a little bit. Then you have a realised Soul and a little child *[UNCLEAR* sitting/still]. He said, “I was

getting it when I entered here. Yes it is there, I know it is there." It's so simple *[UNCLEAR* for us] it is vital, is important; evolution is the most important thing. That's how we have become human beings and you have to become something higher. Is all placed within *[UNCLEAR* you/us] very nicely, very safe, very protected. But, of course we go headlong into every sort of thing and naturally we get damaged. With all these beautiful things within us, I see people doing all kinds of nonsensical things, going into all kinds of extremes; there's no need to be *[UNCLEAR* in extreme/anything].

Somebody comes and tells them, “You stand on your head, you'll get to God." They'll go on doing it. I mean, how can you get to God, use your logic, use your brain, how can you get to God by standing on your head? If it is a living process, if it's absolutely living, then you cannot do anything about it, because human beings cannot do anything that is living.

Now, at this time, I had told these people who got their Realisation last time that, I will tell them about the Kuṇḍalinī and the centers and about what they mean. In any case, we have got now books for you also, to go through them and see what it is and you can read them and you can find out about it.

But in any case, I will tell you little bit.

Here is the chart, this is the Kuṇḍalinī here, in the triangular bone called as sacrum.

[Aside:] [Shri Mataji tells the new people to come forward so they can see.] Now, this is not important to know, but I am just telling you, because you'll have curiosity later on, `Where is this Kuṇḍalinī?' This Kuṇḍalinī is placed in the

triangular bone here, called as sacrum. Now sacrum means `sacred', so the people knew about this, that it is a sacred bone. Now, this bone is placed very securely at the base of the spinal cord. This is kept there as the residual force, but it is the energy of your desire, of your desire of becoming one with the Divine. It is not yet manifested, that's why it is called as the sleeping, `sleeping' Kuṇḍalinī; means it has not yet manifested, that power is not yet manifested. Now, on the left hand side, this power that is within us is the power of Desire. On the right hand side, there's another power which is the power of our Action. Now, this is the one [left] which gives us our emotional life, emotional side. This gives rise to the left sympathetic nervous system and is also looking after the psyche, which the psychologists talk about. But most of them, as I said the other day, are half-baked, so they just know about this part of the Kuṇḍalinī, which they call as the `psyche'. They know very little and when they try to do anything about it, they are so unauthorized that they create problems for others and create problems for themselves. They are unauthorized; they have no idea as to what we are and they just try to meddle with your psyche, creating great problems for you.

Now, this is the power of Action which is responsible for our mental and physical efforts, because, when we go into action, we put in effort.

So, this is the area where our future lies [right side] and this is the area where our past lies [left side]. Past *[UNCLEAR* about/of our] this life and beyond that is the collective Subconscious which is beyond that. Beyond

this line is the supraconscious, is the future and beyond that is the collective supraconscious. These are the areas that are within us. Now, these areas exist within us and the material side is below and the health is below that. Now, when we start getting any experience in life, say, a person is sitting and suddenly he starts jumping: he thinks, “I have got Kuṇḍalinī awakening." How can that be? If there is Kuṇḍalinī awakening, you are in charge of that: you know you are the Master. If you do not know what is happening to you, it is somebody else is doing the tricks. Maybe you have moved too much onto the left hand side and some spirit has possessed you and he is making you jump. That cannot be any spiritual experience; spiritual experience is only one and that is, that, when you get it, you become master of your Self. Unless and until that happens, one should not accept anything as a spiritual experience. For example, a master, so-called, who lives in Tibet or something, who has died and who is giving experiences, all this is all absurd things. You are your own master, no doubt, but you are to be made into it. Unless and until you are connected to the mains through this, unless and until you are baptized, you are not your Spirit. You are to be actually baptized, in the sense it's a living process, just like a seed sprouts, a seed's primule comes out, the same way, this Kuṇḍalinī has to pass through all these Chakras and enter through your fontanelle bone area, awakening this center; it sucks these Ego and Superego, which is created by these two powers here, superego and ego and just creating a portion of the head here, which is called as the fontanelle bone area, very soft and the

thing gets out. You can feel the Cool Breeze of the Kuṇḍalinī.

Now, the Spirit resides in your heart. Nobody knows, you see; they said, “God is in me." Where is He? Where is He placed? He resides in your heart but you are not aware of it: it is not in your conscious mind, it is not *[UNCLEAR* here in/your in] central nervous system. It knows about you, but you are not conscious of it. When the Kuṇḍalinī passes through these various centers and pierces through this one, then the seat of the Spirit is here, the seat of the Spirit. And that's how, when the Kuṇḍalinī touches there, the seat is informed, like the seat of your government is Washington: wherever may be the President, if the information goes to Washington, he is informed, like that, this is the seat. And when it informs, the Spirit knows about it and then you start feeling the Cool Breeze, the emitting of the Cool Breeze in the hands, which is called as the, as he told you, that the Cool Breeze of the Holy Spirit. Now, some people asked Me that, “Is it Cool Breeze or hot breeze?" You know that when there is any friction, any friction, even in the matter, it creates heat.

So, it has to be cooled, but not very cooled; it is not very cool, if you become extremely cold, that also means that your left side is all blocked.

Now, if there are imbalances in you, like you are too much emotional, too much emotional, then you'll go more towards this side and this side is very, very vulnerable. And once you start going too much on that side there are areas built within you which are called as Collective Subconscious. The other day, as I told you,

that cancer is caused by the attack of proteins, which are called as Protein 58 and all that; because the scientists, you see, they don't know what they are, they come from this area. They say it comes from the areas, I mean, the doctors are honest, because whatever they know, *[UNCLEAR* that's what they say], it comes from the areas which are built within us since our creation. We call it as Collective Subconscious. We know all about it because, you will yourself see when you get your Realisation that, all these things are there and they attack. This left-sided attack gives you a thing like cancer and many other troubles, like, you can say, mental problems and schizophrenia and all *[UNCLEAR* such/those] things.

Right side movement too much, this right side, where, you see, these are all the psyche people like Mister Freud, who was really half-baked and a funny person, who said that you should not worry about your, about any conditioning; you should not allow any conditioning upon yourself and do as you like.

He didn't know that there is another power within us; if you try to do as you like, then what happens? You start living a life of an Ego, ego-orientated; the whole life becomes an ego-orientated life. You do not accept any conditioning, nothing, “I'll do as I like, I'll live as I like; I'm a free person. Free doesn't mean license, so I have a license to do what I like, I am a free person, I can do what I like with myself." And then you start leading a life of ego.

Now, if you have this left side problem, then the problems attack you in the sense that you feel depressed, you feel very unhappy, you feel as if the

whole world is going to be collapsing on you and you are extremely receded from life, you become recluses with this left side. But with the right side, you are riding a very fast horse, we have to say in a way that the people who are, say, very dominating type, extremely dominating who, Hitler is the extreme of that, you can say. But now, Mister Hitler, if you went and told that, `You suffer from ego,' he would have killed you; he can't bear that. And this kind of a thing, when it comes in you, this ego-orientation, is more dangerous, because you harm others and you are not aware of it.

So both the things are harmful to you; you have to lead a life of a balance in the center.

Now, this balance, if you achieve, by using these two powers, like the brake and the accelerator, brake and the accelerator within you, you develop that balance and that balance is achieved, then you lead a very simple, balanced life. But, as I said, if somebody comes and tells you, “You have to stand on your head” you'll go on standing on your head. If they say, “You must have so much of waistline, so much of this thing..." they will be jogging throughout. If anything you tell them, they will go to such an extreme end that either they'll jump onto the right side or to the left side. Now, when you go to the left side, the experience can be like, you might feel that you are seeing things from somewhere, or you might feel that you are jumping in your bed. The other day, I met a man who said that, in his dream, he saw somebody coming and piercing into his forehead and since then he's sort of immobilized... All sorts of experiences you can get if you go to the left hand side.

Some of the drugs that you take, take you to the left and some take to the right; like say, LSD, we can say, takes you to the right, by which you start seeing things like an eye you see and you see colours and things, you go to the supraconscious area.

Now, the supraconscious area is more dangerous, in a way, to the seekers than the other side, because, like you get supraconscious people, you see, who start seeing something written on the wall, they start getting things in their hand, they start prophesizing and all sorts of things they do. All such people think they have become God. This is a very dangerous situation, they all think that because they are actually, they are held by some busybodies who are making them *[UNCLEAR]*. You see, because these are actually the busybodies, like we have one very good example of Doctor, late doctor, Lak in England; he died, but very ambitious man. And he could not, sort of, complete his thesis what he wanted to do about surgery.

So his spirit, he'd been very ambitious, he entered into a soldier who was fighting in Vietnam, can you believe it? And this soldier, he didn't enter into his own son, he told this man that, “You go and see my son in England and you start a curative center of this late Mister Lang” I mean, he's dead, “and I will help there; you better go and see my son." Now, this fellow in that possessed state, he went to the son and the son said, “All right, how am I to believe that you are my father, that my father is haunting you?" He said, “I will tell you so many things that we did together secretly." And he was amazed. He said, “All right, let's start the thing." And they have got

this kind of an institute where, if you are suffering from some disease or something, you have to write to that institute. Now what they do, they will tell you, “At 5 o'clock, on such and such date”, they are honest, I should say, “we'll enter into your body and cure you." They will cure one disease but, because of this extreme push this side, you are again pushed back on the other side, rebounded and you may develop a horrible nervous system. You might become lunatic, you may become mad; I mean, people who have been his patients are worse patients now and I have been treating them in India, many of them.

So, such organizations exist and they start telling you about many things like, “Oh, you, if you go this side, this will happen." I mean, it's a very subtle behaviour of these horrible people, these busybodies and they try really, really to spoil you.

Now, many of the Gurus who come here, the so-called, these Gurus, either work on this side or that side, or sometimes both sides. They use the spirits to mesmerize you, first of all; you are just mesmerized.

They will use any spirit to introduce in this center, for example [indicates Āgñyā Chakra], an Antichrist will touch this one. And I know of somebody who is here, an Antichrist, absolute Antichrist; he touches this center and creates problems in you and produces within you a symptom just like blood cancer. There's another one who wants to teach you how to fly, he gives you epilepsy, simple thing like epilepsy. There is another one who gives you cancer; there's third one who gives you heart attack, they are experts on giving you diseases; all one

better than the other and, in the long run, you find all your money is lost, you are lost, there's nothing left with you, you are a recluse. There's somebody who has made his disciples so funny that, they are even afraid of the vegetable, like a garlic, you show them the garlic, they'll run away. If you show them a lemon, they'll run away.

So, these people have worked on you because you are naive; first of all, you have money, they have no interest in the poor people of India, they have no interest in looking after people who understand them, they have only interest in you who are naive, who are simple people, who have money and, best of all, you are that category which is the seekers. You are born specially to seek your Self; you are a special category. Everybody's not like that. In, say for example, I would say, in this place, New York, there may be many seekers, I agree, there could be many seekers, but this category is not with everyone. There are few human beings who are really, relatively to its population, are seekers and these special categories have to become prophets. And they have to make others prophets; is prophesized by a great poet like William Blake. We should read all these things and understand that, this is all, even Sahaja Yoga, is all been prophesized into *[UNCLEAR* in the/in to] Bible. In all the Purānas, in all the books, it is prophesized that, in these modern times, this is going to happen: that thousands of people, who have been searching God in their previous lives, are going to receive their blessings and they are going to become that. Under these promises you start going to these people, but they cannot cure you because they are not of the highest.

They are not here to give you Realisation, they are here to make their money; they are parasites, they're absolute parasites.

Say, now today as he said, My husband is based here, maybe he might come from a rich family or whatever it is, I don't have to depend on you or anyone, but, supposing I was like Christ, a carpenter's daughter.

So, I would have lived like that; it makes no difference whether you are rich or poor, it makes no difference. To Me, comfort has no meaning, has no meaning: I can sleep here, I can sleep anywhere.

Yesterday, we went to Boston and it was a small little room of a student... we were six, seven people, we all slept together; no problem for *[UNCLEAR* it/us]. In My house, I have bedrooms, I have everything, too much of a comfort and it *[UNCLEAR* thralls/falls] upon Me; I don't like it.

So a person who is a holy person doesn't seek others' money and doesn't live like a parasite. For example, you see yourself, if I tell you, “I give you money for your living” will you accept, any one of you? And these people are doing nothing for their living; they are living on your money, they are having Rolls-Royces and this and that. A saint has no interest in these *[UNCLEAR* points]. Like, one of them who is nowadays here, who has now become a Yankee, they say, he told to English people, he wrote to them that, “If you want me to come there", they're all mad after him! They said they have got knowledge. What sort of a knowledge, *[UNCLEAR* God alone/one only] knows. That, “If I am coming to England, you have to give me a Rolls-Royce." The poor boys, you see in England I mean,

as it is people are not so rich and young people don't have so much money and they starved themselves, ate potatoes, did this and that and they created a fifty ninth Rolls-Royce, I mean, he has already fifty eight, this fifty ninth was created and this fellow very nicely came to receive the Rolls-Royce. And you ask them, “What has he given you?" “He has given us knowledge, we are in knowledge." Just like possessed people they are looking and they are going down, those people who come from that area, have mostly blood cancer, they have blood cancer.

And they just live as if they are not living. It's such a horrible thing; what knowledge have they got? If you have knowledge, you should know what's happening in the another person; you should get collectively conscious: you should become its actualisation; it should happen to you. You should feel that, as you have shown here [indicates chart], that all these centers you can feel on your fingers. You should feel your own centers and you should feel the centers of others. You should become that: if you are satisfied with what you have done and what wrongs you have done, we cannot cure you. You have to know that you have not found it and you have to get to it, in all honesty and sincerity. And throw away all that is nonsensical; then only it works out and this has to happen to you, that you start feeling all these centers here.

Now see, you can see the colours that are given separately onto this. Now, for example, this is the left hand and left hand means the left side; left side of this one. Now this one, if it is catching, if you feel heat, if you

feel any catching, if you feel that there's burning in this finger, in this thumb of left hand, this is all left side, is the psyche; means somebody has tried to disturb your psyche in an unauthorized way. Most of the Gurus have this. All the left side can be caught up by them, but specially this one is the sign that you have been to somebody who has been unauthorized, anyone. You can go to a spiritualist; is a most dangerous game to have spiritualist. I was surprised, somebody told Me, “Mother, You are going to America, now they have started witchcraft also." I mean *[UNCLEAR* the idea, it's magic]. They told Me it's much worse now, it was better ten years back, now it's witchcraft. You'll be facing people who have been witchcraft, they have been *[UNCLEAR]*. And, I mean they warned Me that, “Maybe You may not be able to do anything there” but I don't think so; it's much better than I expected and I'm very happy about it.

So, this is what happens to you, is that, when you start doing something like that, you start showing here.

Now, this one is this side, left side of this, this very important center [indicates Viśhuddhi]. This shows, this one shows, that you are guilty, you feel guilty; you are diffident. When the Spirit approaches this point, it makes you all the time feel guilty; you feel guilty for everything. What is there to feel guilty? I mean, you have not murdered anyone; real murderer will never feel guilty, but the one who has done nothing all the time starts saying, “Oh, I should not have said this, I should not have done this, I should not have gone there..." All these feelings come to you from left Viśhuddhi. It can be from the kind of training you have had, for example, mostly I

have seen Catholics, because they have to go and confess. Even if they have done no sins, they have to go and confess because the priest must have his existence, somehow.

So, this kind of a thing, if you arrive that, “You have to go and confess some sort of a sin." You may even coin [one] of your own, because you don't know what to talk to him, if you have not committed any sins.

So all these things are settled down; you must know, all the sins and all the blasphemy, everything that you have done is going to be forgiven. Has to be forgiven. If it is going to be en masse Realisation, all these things have to be forgiven. Is written; I was reading the other day Pilgrim's Progress and he has said that all these things will be forgiven. Is promised. And what sin can you commit? What guilt can you have? If God is ocean of forgiveness and love, what can you do? He is going to cleanse you; He is going to bless you; He has to do.

So what's the use of feeling guilty all the time? But that doesn't mean you should feel arrogant on the other side; this side you'll feel guilty and the right side, if you have on the right side the catch, that means you have been very much aggressive. Or you may be suffering from *[UNCLEAR]* or all these things; these are suggestive of physical side. The right side is for physical and mental side.

All these things you can verify gradually. I would suggest that you should get your Realisation first; first thing first. Let's open your eyes; let's you have the light within yourself and see for yourself how it works, all right?

Should we have that? And also we'll have some questions.

They're already feeling it. [Laughs.] You are feeling guilty now! Yes, that's true, you are already feeling it. This is a very common disease in the West, to feel guilty, it's a very common disease. We Indians never feel, you know? [Laughs again.] Indians really never feel guilty; they have other things but not this, thank God. They have many other problems, terrible ones. Unbelievable. All right? Is it all right? Coming up, is all right? He got his Realisation already? Are you all right? How are you feeling? Good! But see, I was telling you, we don't know how to advertise, I mean, we've done our level best but people don't come to reality. You have one mesmerizer here, all of them stayed for this *[UNCLEAR]*. We tried everything, I don't know how to reach to the seekers, I mean, I don't know what they are seeking; they want all the circus, I don't know what they want. Hmm.

So, any questions? Yesterday I told you of, that day I told you about Christ, isn't He, when He is awakened, I told you that? You were there for the lecture? When He's awakened here [indicates Āgñyā Chakra], that the Ego and Superego are sucked in; that is what is promised, that He is the one who sucks Ego and Superego, but He's to be awakened.

[Aside:] Better, Āgñyā again.

First thing that happens, when Kuṇḍalinī rises, that you find there is no thought in your mind; there's no thought; you have become blank, first thing. Then when it pierces through, you start feeling the Cool Breeze. It's so simple, he can't believe it. [Laughs.] You don't know, there was a

gentleman who came to Me, he's an actor in London, he came in a program and when he got it, he laughed and he couldn't bear it. He said, “Mother, I will go out and laugh now aloud." He went around and laughed. I said, “But why did you laugh so much?" He said, “I did all kinds of acrobats, that's why I was laughing; it's so simple!" Imagine? People have written books after books and so much of nonsense they have done, I tell you, you can't imagine. All trash.

[Shri Mataji is working on a lady.] Are you all right now? Better? Better? Still? All right, now you go on saying, `I'm not guilty' in your heart. Put your right hand on your heart. Yes, now... again, say it thrice. All right? We'll work it out, but you just say, `I'm not guilty.' This is, you have put your own load here. Better now, see. Removed.

Seeker: Ah, I'm not guilty, in my heart. I try and it hurts, but I feel a heat here.

Shri Mataji: It is little there, but it's better now, gradually. How many years you have been feeling guilty?

Seeker: About a year.

Shri Mataji [laughing]: It will work out.

Another lady: You say, the Realisation, is it a connection that You want us to achieve or to understand, between the Spiritual... in other words, the connection of the Spirit?

Shri Mataji: Of course, of course, is the breaking through; you become that. *[UNCLEAR* It's the connection you have established/If the connection will be established]. Like, every instrument has a connecting line, isn't it? You have

to connect it to the mains, you are just to be connected to the mains.

That is fantastic, see. For example, now you have a camera or say, you have a television or something like that, if you connect it to the mains, it starts showing its fantastic things; you are like that. Nothing so fantastic: you are fantastic, I mean, but you have no self-esteem. I don't understand, human beings have no self-esteem. I mean, they are top of all the evolution, they are higher than all the animals; now they are learning the behaviour from animals. We have nothing to learn from them. Have we to learn anything from them? God has placed us so much above. Yes, My child? Third Lady: Why are we separated from the Spirit and are we at birth?

Shri Mataji: We are separated because of ignorance, you see. We started becoming from amoebic stage to human stage, you see, developing our awareness better and better and better; like a reflector we are, you see, so the reflector is improving gradually and the reflection of that spiritual life shows better and better, till we reach a human stage. Now, here, we come at this stage in the process, of the living process, you see and then, this... we become connected and that ignorance is finished. We are not separated as such: we are looked after. Like, there is darkness in this room, but you are not separated from light, only you have to switch on. There is no punishment or anything done to you, no, because you have come from that; your awareness has started improving.

Lady: Does this happen, You keep talking about the living process, does this happen... this can happen while you're alive, it doesn't happen when you die? Or not necessarily.

Shri Mataji: No, not. You have to live, you have to have a body; if you don't have a body, this Realisation doesn't take place.

So some people talk of the dead wombs and all that, is not possible, you have to get it when you are living; you have to have the body. Body is the temple as, you can say that, if there is no bulb, you cannot get light, there may be light but you have to have a bulb. It has to come in the form of a human being, not in the animals.

Gentleman: May I ask, You mentioned here that You are the link of Self-realisation, so are we, or the people who get Self-realisation here, getting their Self-realisation through You or...

Shri Mataji: No, no, no, your Self. Did they say I am the link? He should not have said that. It means that, you see I am the one who enlightens, that's all. I am, as one light... you can enlighten also. It should not have said that, it's dangerous to say such a thing. You see, because if it says, everybody's ego comes up like that, “Oh, what She is, who is She?" You see everywhere, mostly I have seen in Europe, specially, they said, “Why You?" I said, “You do it, I'll be very happy. I am a happily married woman; I have a very good husband, My children and grandchildren, all right? I have to do it, day in and day out.

If you can do it, nothing like it, I will retire." If you can do it, nothing like it, you see, to travel like this, work it out, spend your own money, do it. It's not *[UNCLEAR]*, must be I

must be something special, no doubt, but that you find out later on, not just now, all right? I have to be something special to do it, but that you'll find out later on, you should not have put it in there, because half of the Americans would not come, if they say there is somebody who is a link; because they all think they are already realised Souls, great people dropping from Heaven. This is also another kind of a self-esteem.

Lady: Well, do you just have to want it or... how do you get it? Gentleman: Do You give... do You...

Shri Mataji: I think we'll discover it later on, because I never got it; I had it, that's the problem.

Warren: No, she's asking, does she just have to want it, herself? Lady: Does one have to want it or does one just all of a sudden... be it?

Shri Mataji: There is one thing that it cannot be forced. You see, your freedom is respected; now you are free. Now, if the egg wants to be bird or not, you don't ask the egg; you don't ask, because it's the animal stage. But in human stage, you have to ask for it; if you do not ask, you do not get it. No-one's going to force on you. Neither the Divine is going to fall at your feet that you ask, no. On the contrary, you have to humble down to ask for it. It cannot go to arrogant; you have to ask for it, in a way. If it works, thank your stars. If it doesn't work, we'll work it out later on, but you have to ask for it, no doubt.

It's such a great thing; only that much you have to do, not pay for it but ask for it, in a humble way. Yes? Lady: Something disturbs me about the movement, not Yours, I'm just saying that You mentioned before that there are so many seekers in the United States and *[UNCLEAR*

England and stuff like that], I find it very disturbing to find these people are seeking divinity or spirituality and yet they themselves are not in a state of purification or do not live in a pure state. And it's... I don't see how the two can reconcile each other. I mean, I think before you realise this Realisation, this connection...

Shri Mataji: you must go into a cleaning process, you mean.

Lady: Yes exactly and really to have these desires that are vulgar and so forth, fall away from you...

and yet they...

Shri Mataji: No, you see this was done before, see and it's a very slow process which was worked out, that you try to cleanse yourself, but not possible. Unless and until there's a realised Guru who looks after you, each individual and all that. Now, the Grace has decided that, first of all, let us start all the machinery, all the cars you can say, secondhand, third-hand, fifth-hand, let us start; see how far they can go, then try to correct. Unless and until you get out of your car, also you do not know what's wrong with it.

So, unless and until you get your Realisation, really you cannot know. Say, for example now, I'm an old, ancient Guru of olden times, take it like that. Now, you come to Me: first of all, these Gurus used to test you, they would break you, stand on your head, sit on your legs and do all kinds of things, because they would take only one person. One person among millions and see that if they could work it out. And they would really work on him and make him do all those things and everything. Now the trouble is, in modern times, if you tell anybody to do

something, they'll do just the opposite; it's a very difficult situation. Now think for a moment this point of view: I want you to have your Realisation because I can't enjoy it Myself, you have to have your... I can see that diamond in you; I want you to have it.

So what would Mother do? If She has to do something, She'll go round and say, “All right, let's have it." First you have it and see if you like it or not. Supposing I have cooked the food and you say, “No, I don't want to have it." What will I... “All right, taste a little bit, see how it is." Once you jump into it, for these people have got; now he's got Realisation, he knows the taste of it. Not only that, but without Realisation, you can't judge yourself. If I judge you, I can now... supposing I say, “Warren, you have lots of ego." When he came to Me, he was ego like a balloon, like this, you see, you won't believe. But if I tell him that, he would have punched Me immediately, isn't it? You agree there, isn't it? But this fellow, I didn't say to him, “You have ego” or anything; “All right” I said, “We give him Realisation” then he came down on it. Then, you see, I put him into proper state, raised his Kuṇḍalinī. Then he started seeing his ego. He said, “Oh God, such an ego I have, Mother!" Now what to do with it? I said, “I'll tell you how to reduce it." So, unless and until you have the eyes, you can't see and if you tell them, “Don't do it” he will do it.

So, best thing is to give the eyes first to you; may not see it so clearly but you'll start seeing it, all right? Then you'll start improving yourself; you'll judge yourself. You better judge yourself, it's much better than I judge you, then you correct yourself because you can't just bear it.

Yesterday there was a lady, she was suffering from liver, she has not come today. And she told Me, “Mother, after Realisation I got a headache." I said, “You have a liver? Otherwise you would not attend to it, but now you have got a headache, you'd better attend to it." So I told her how to look after it; within two days, she's all right, she's cured. People become mad and they don't know they are possessed, till they absolutely land up in the lunatic asylum.

So, to give them judgment power is very important. And how will you make out when he's a real Guru or not a real Guru? Even logically you can, but otherwise, how will you make out? Very simple, you just *[UNCLEAR* seek Realisation].

So, you must get your discrimination power, but actually while getting it, you really become the Master; that's the simple thing. Now, he has been with Me only for eighteen weeks or maybe eighteen months? Eighteen months only; now he is a Master: he has established seven centers in seven cities in Australia and he's come to America, I mean, imported him for you people. But now, you'd better go and look after other people. What's the question? Lady: You were talking about the Spirit being in the Heart Chakra there, over on the left side. I'd like to know why it's on the left instead of in the middle, because if the Spirit, it has to do with Realisation, why isn't it in the middle in the central Kuṇḍalinī, instead of on the other side like that and why is it... and why in... the heart, yeah.

Shri Mataji: The heart. Heart is the main thing within us, you see; that's the last. Once heart stops, we don't exist:

sheer existence. That's the most important organ that God has given us. Once the Spirit is angry, in any way strained, any way despaired, we just *[UNCLEAR* exist] and then we die; there's nothing left. Heart is very important, that's why *[UNCLEAR* He's] placed there, in human beings, but it comes out, comes out also. It can come out and see, go around and see. But the seat is there: when you will start growing into Sahaja Yoga, you will start seeing how this Spirit manifests and how it grows, it sits on the seat also.

Lady: What does it look like?

Shri Mataji: It is now in the heart, but then it comes on the seat, at a point, that's much different, that's much later.

Lady: I see.

Shri Mataji: All right? So it has to be brought there; first a seat has to be created properly. Just now, heart is the one *[UNCLEAR]*, you see, it doesn't... it is not according to our will, it is His will that is important. We have to please His whims also.

Another lady: Would You say conscience and soul is... resides in the heart area?

Shri Mataji: What is it? Another lady: Conscience; in other words, people, their guilt feelings or their Realisation of what's right and wrong, resides in the heart feeling, it comes from the heart area? This knowledge...?

Shri Mataji: It's not that, it doesn't come; it comes from the left side, as I showed you. But heart area is the one where resides the Spirit, actually.

Another lady: So the soul would be...?

Shri Mataji: soul... and the soul is a wider thing than Spirit is, because when one dies, only the element that is the Mother element, or the Earth element, dies. And the water element also starts oozing out, but whatever remains are the other three elements, you see, which are the three auras, plus the Spirit is the source. And the Kuṇḍalinī also resides on that; after Realisation, you can see that, you can see it in the... you can see so many Kuṇḍalinīs floating, they have all seen it. You'll see it, it's fantastic. Yes, it's fantastic! You are all fantastic people.

Another lady: That's not the aura necessarily?

Shri Mataji: No, no, no, auras are right side; supraconscious. But you actually see these Kuṇḍalinīs floating around, I'll show you. All right? [Short pause.] So what do you say, now? Gentleman: How do we do this for ourselves? I mean, `how does we do this for our Self?'

Shri Mataji: Now, that's the point; we are coming to that point now, all right? We should not have put `missing link' *[UNCLEAR* post up/poster]. Did you put `missing link' or what? Warren: No, no, no...

Shri Mataji [laughing]: No, no, no, no, no, don't say all that.

Warren: Not the missing link.

Shri Mataji: A bit too much.

Warren: If it offends, if it offends you, get your Realisation first...

Shri Mataji: Not offends, but it *[UNCLEAR]*. You see, because... we should learn from our experiences; Christ said nothing except that. He said, “I am the Son of God” and they crucified Him.

One has to be careful. If you say anything like that, people don't like it; better not say. Tell them I am just like you, blind, little of My eyes are open, then they'll be happy. It was very wrong to say that: I didn't see that, I would have told them. I am anxious not to say.

Gentleman: It seems to imply that we're getting Your Realisation, the Realisation through You, that You are the link to the Eternal.

Shri Mataji: But why will you have objection to that? Gentleman: I beg your pardon?

Shri Mataji: Will you have objection if it is so? Gentleman: Well, it would be Your Realisation that we are tasting, because You would be the link if...

Shri Mataji: But supposing... if supposing I am the link. Supposing I am the link, supposing, supposing. *[UNCLEAR* I mean], take a supposition, then what's happening? What is the harm? Gentleman: What do You mean, “No harm"? But there's a price for everything.

Shri Mataji: No, no, should not; because you must know that Unconscious can't talk to you.

Somebody has to come and talk to you; somebody has to decode, somebody had to tell you. It's not easy to become human being; you know it's very difficult for the Divine to become *[UNCLEAR* this].

Absolutely I tell you, it's such a hazardous thing to become a human being, because they are so absurd, so stupid and you don't know what to do with them. It's a very difficult task; I'm shocked sometimes, how can they do it? I mean, I just can't understand.

Gentleman: What's that, that end part of it? Warren: For the Divine to become a human being, She's saying; for the Divine to become...

Shri Mataji: Is a very difficult thing. You see, Divine to be Divine is the easiest thing, but to become a human being, to talk to them, to look after them... You see, for supposing if I am Divine, all right? If you insult Me, you'll be hurt and that I wouldn't like because I am compassion: like Christ said, “Forgive them, for they do not know what they are doing”, for the Jews, you see, He said so, for the Jews. “For they do not know what they are doing” because He was frightened; they are crucifying Him and He was frightened for the people because He was compassion.

So, it's a very difficult situation, very sensitive. But you should not have put that, I tell you, it was a mistake. I never saw that; it's a good pointing out, you see. I know it, people won't like it; they won't like it. I think our second one is a better one. Who did that? Warren: It was done for the Australian tour, Mother.

Shri Mataji: Ah, Australians are very different from Americans, ah! Aah. You should never have done for Americans, no, no, no, no. Australians are very different people, you see, because they were punished once upon a time, their forefathers, so they do not have ego trips much, they do not have.

They want a Redeemer, they are a very different type of people. Here, people think they are redeemers of the whole world; the Americans think they are the redeemers of the whole world, you know, they are responsible for everything. This is a very different land, you should have

never done that. Yes, its' a very common thing. I mean, Americans really think they are going to redeem the whole world. And all the Antichrists are coming and settling down with them: all the Antichrists are, as a result and it's such a dangerous situation that I just pray that they would have more sense to understand these are Antichrists, throw them away! Lady: Could You explain what You mean by the manifestation; how do you see an Antichrist? What does he manifest as?

Shri Mataji: He's a devil, he's a Satan.

Lady: You know why... I'm very, I mean, as a person it wouldn't affect me, it wouldn't bother me; if I see something as, what You call evil, I don't consider it being evil, per se but...

Shri Mataji: For this I would just say you get your Realisation, then you will know how much it bothers you, because you don't see, that's the thing. If you don't see a snake, how will you know how it attacks you? Lady: Yeah, I know but I mean, as a person that doesn't like whatever is unrealised? and stuff, you reject it. Why is it so effective as a… harmful…

Shri Mataji: Because it kills all your chances of Realisation, first and foremost. I don't mind if they are thugs, they take away money from you, make you poor, do what they like; I don't mind all that. Let them be parasites, do anything, I mean, there are so many people like that, isn't it? There are so many beggars, there are so many parasites in this world, there are so many thugs and there are so many thieves and there are murderers; every sort, I don't mind anything of that kind. But because they spoil your Kuṇḍalinī, that's why I have all

the objection. You have to have your Realisation, that's your right.

Lady: And then do you shrug it off, I mean does it affect you if you are... if you have...

Shri Mataji: No, no, not like that, that's not true.

Warren: No, you shrug off, she's asking do you shrug off your... all the negativity? Lady: Yeah, the negativity, that's what I mean.

Shri Mataji: Who shrugs? Warren: She's asking does one, when they get their Realisation, shrug off the negativity?

Shri Mataji: After Realisation? Oh, they just run away.

Lady: So I'm saying that, when you see this, you just... that's why I... I mean people... even before they have Realisation...

Shri Mataji: That a person who is not a realised Soul, according to Me, is not yet really a person, you see? That's what I'm trying to tell you: that you are not yet fully that; you have to become that.

Now the gentleman is getting very, very...

Lady: Impatient?

Shri Mataji: And that should be so because, now, let us not too much go into mental activity, you see? Because what will happen, you may not get your Realisation if mental activities, because this center goes little bit.

So, but let us stop at this point, let's have it, all right? Let's have it now. Now, you have to take out your shoes, I'm sorry, because that helps the Mother Earth to take *[UNCLEAR* all/on] our problems. We must get our Realisation at any cost; that's the main thing. It's, My only thing is that you must get your Realisation.

[Referring to a strabge sound:] What's that? Warren: Just a tape recorder.

Shri Mataji: He's taping it? Could be dangerous [laughing]. We don't allow them to tape; it was the taping that started a lot of organizations this time.

Warren [to seeker]: Would you mind if it...

Gentleman: No, it's turned off. OK.

Shri Mataji: All right? If you want to have tapes, you can have from these people; they have got some tapes of My speeches, but normally we don't allow people to tape. Because last time, this experience was so horrifying that this time we have decided not to allow people who are not Sahaja Yogis to tape.

But if you want to have tapes, you can have from these people. Now, it's all on the left hand, it's working out, it's all right. Now, let's have your hands towards Me and close your eyes, all right? Put both the feet on the ground. Both the hands towards Me and close your eyes; don't open your eyes, because when the Kuṇḍalinī rushes through your, this center of Āgñyā, then there is dilatation of the pupil and, if you keep your eyes open, it won't come up. Close your eyes. This happening takes place and your attention is drawn inside.

[Long pause.] Now you put your right hand on your heart, please again. Right, close your eyes. Now ask a question to Me, `Mother, am I the Spirit?' Seekers: Mother, am I the Spirit? Warren: Three times.

Seekers: Mother, am I the Spirit?

Shri Mataji: Again.

Seekers: Mother, am I the Spirit?

Shri Mataji: Now say, `Mother, I am not guilty.' Seekers: [repeat three times].

Shri Mataji: Now, you have to ask for Realisation. Say, `Mother, please give me my Realisation.' Seekers: [repeat three times].

[Long pause.] Warren [to Shri Mataji]: Still a little bit left.

[Somebody in the background is whistling the song `It's almost like being in Love' which goes: “What a day this has been, what a rare mood I'm in, why it's almost like being in Love!"] Shri Mataji [aside]: That's better, much better.

Now please say, `Mother, I forgive everyone.' Got it? Good.

Seekers: [repeat three times].

Shri Mataji: Now you have to say, `Mother, if I have neglected my Spirit, please forgive me.' Seekers: [repeat three times].

Shri Mataji: All right? *[UNCLEAR* Pricking?] That's it, it will work out. Keep your eyes shut.

The Sahaja Yogis can see now. Got it? Warren: Just put your right hand... yes, he has Mother. Just put your right hand above your head.

Shri Mataji: You got it. You can feel it on your head if you have got it; all the Sahaja Yogis can come and see.

Warren: Feel ok? It's coming out of the top of your head? You feeling it there?

Shri Mataji: Those who have been to other Gurus should say, `Mother, I am my own Guru.' Lady: I can feel his, the same, he's got it, he's got it!

Shri Mataji: Yes, yes you can feel. He's got it, she knows.

Lady: I don't even have to feel it...

Warren: Are you feeling it on your hands? Lady: It's coming all out of you.

Shri Mataji [laughing]: Yes! Yes, he's got it, yes.

[Everyone discussing between each other.]

Shri Mataji: All right? Have you got it? You didn't say anything; you were keeping quiet, you should have said it: you are catching on the Viśhuddhi and if you had said it, it would have opened up. All right, we'll work it out; you should get it, all right? We can work it out.

[Others still discussing.]

Shri Mataji: Now are you feeling it? Slowly, slowly, it's a very subtle thing, you see, it's very subtle.

But in the second *[UNCLEAR]* it is better, isn't it? It's more clear. It's very clear. Oh, it's hot, all right. You're all right now, are you? Warren: It's a pity they can't turn the air conditioning, the air conditioning's causing a lot of disturbance.

Shri Mataji: No, no, no, its' all right. You see, you believe it, it is there, yesterday, somebody who got it and he went... he thought that the window was open, you see and then he went into the cellar to see and still it was there. Are you all right now? Good! I'm very happy the second sitting you got it, you see? It's good.

So changed, so changed; look at this gentleman, are you all right now? See, you have got it; second sitting, you have got it. Now, what about this gentleman, you got it? [To a Sahaja Yogi:] Yes, go and see, go and see.

Did you feel, My child? No? All right, I'll work it out.

Warren: She's feeling it in her left, but not in her right. She thinks too much.

Shri Mataji: Āgñyā was too... that's why I said we stop it there! That should work it out; here, keep your eyes shut. Now, you have to forgive; go on forgiving, `I forgive,' say. How easy is that? Lady: I forgive.

Shri Mataji: Again.

Seeker: [repeats twice].

Shri Mataji: I forgive everyone.

Lady: [repeats].

Shri Mataji [working on her]: Forgive, forgive, forgive.

Ah, forgiving's not there, now forgive.

[Shri Mataji and the Sahaja Yogis continue to work on all the seekers.]

***Contents: 1981-09-26*, Public Program, Day 3, East West Center, 141 5th Avenue, Manhattan, New York, USA**

Warren:.....

So *[UNCLEAR* without] further talking, again I would like to introduce to you our Mother, Mātājī Nirmalā Devī. May I suggest that before you start listening, you can slip your shoes off because that will help you connect yourself to Mother Earth. And simply hold your hands out in a special resting on your lap because the vibrations flow in through your hands and the connection with the Earth will help you feel the vibrations. For those people who've already got it, you know what I mean. For those who are new, be open minded, be like a scientist and just verify the experience for yourself, after it happens.

Shri Mataji: It's nice to see so many people who have got their realisation and who are in New York.

New York is a very pivotal thing in the history of spirituality. It is absolutely the centermost point of a very important Chakra which is Viśhuddhi Chakra [turns around and points out closely to the Viśhuddhi Chakra on the Chakra Chart].

You are stationed at this point. That's why Americans talk about very big things, of universal things, of universal consciousness, they talk of solving the problems of the world, may talk of the liberty of the whole Universe and their attention is all very widespread, because you stand at that point. New York is really placed at a very pivotal point, no doubt and that's why you are attacked the most. The attack comes because they know that here is the place one has to attack. The negativity is a cunning.

It is very difficult for you people who are seekers, who are earnestly seeking, who are a special category, who are the men of God, to understand the cunning of the negative. There is no way that you can find it out.

Like in India it's easy. Because Indian scriptures have described, described them at length, into all details, what is the hell, how the people who are negative act, how they affect you by their mesmerism, how they take advantage of you, how they come in a garb or wearing the, as they say sheep skins by the boots.

Though we have read about it in the Bible and we have heard about it, but still, as Christ's life was only for three or four years, we should say, it has not been made so clear-cut to us. And... naturally, I don't blame you if you were misled.

Actually I came to New York, for [was] nine years back and Warren must have told you. But I found that people still need more maturity here, because they are busy with their own ideas about things and they were given more to circuses and elaborate presentations. They would not accept a simple thing of very-very simple thing that is Sahaja Yog.

One must know whatever God does, is the simplest of all but is also very difficult because it's a mystery.

Like a flower becomes a fruit: they've never bothered even to find out how it happen. You cannot explain, can you explain? Can you explain how a seed sprouts? We can't explain anything on that level of how, with all our scientific things we have done, with all our great enterprises, the big things we talk about, we can not explain, that is *[UNCLEAR* a/the] mystery. That is the mystery.

And this is what we should know, that these people who come to us, create a mystery out of them and try to impress us.

As I said before, I don't mind. Let them earn money, they are people without any background, they are people...

Some of them have been in literally like beggars some of them, came out of the jail, such things like that.

For them money might be very important, I don't know why they do it. It's really, they don't perhaps know also what they are doing, it's absolutely dangerous for them and for others. But some of them are real devils. They are quite aware as to what they are doing.

Some of them are anti-Christ. Absolutely born on 666 *[UNCLEAR]*. They can be proved as anti-Christ, once you become a realised Soul.

But this mystery of a living process, is to be understood even logically, not rationally but logically.

Logically we can approach at a proper conclusion to understand what is good and what is bad. What are we to expect, what should be the seeking.

As I have told also before, that if you become something else, if you become master of yourself, if you know how to handle this power you have got, then you have achieved what was said to be born again.

Not when you play into the hands of others, like stupid people just moving without any understanding into what direction we are moving like, just herds of sheep driven into sea or into any ditch God only knows.

With our own ideas if we are identified also there could be a danger, so we should keep ourself absolutely open and logically come to the conclusion to find out: what are we seeking? Are we seeking slavery? America always talked about the liberty and fraternity and all those things. What is fraternity? Is collective consciousness.

They are talking of all these big, big things, without realizing that a day will come when they will all have to become.

And because you talk so big they have attacked you also. Because they know that the Unconscious has revealed the great truths to you, great things to you, that's why they attack you. This attack is so subtle, that it is impossible for anybody to find out where you are being

attacked. After coming to New York this time, I found out some new methods of these people that are trying to betray the truth. But truth will be established, truth has to be established. It takes time. It will have to be established. But those who do not accept it will be destroyed. No doubt about it. You have to accept the truth: it's for you, for your good, for your evolution. And those who do not want to accept, they'll have to accept the falsehood. And falsehood leads you nowhere but to destruction.

It is not realised it, still, that, in a country like America, we are not going to be destroyed by Russia or by any external force, but by the building internal force of insecurity and also of ignorance.

We'll be gradually destroyed to such a state that nothing will be left out of us and people will just see some bubbles on the shores talking of big things.

It is we who have to save ourselves first, we have to build up ourselves first, we have to become ourselves inside so that we become strong, so that we know we become the masters. It is not the mastery of the world, but the mastery of your Self, which you should have.

A person of Christ's calibre came on this earth. And was accepted by Americans, legally accepted. He cannot be arrested I think now if He comes to America.

But how will you recognize Him? Is there any method by which you recognize? I can tell you this much, that if He comes here, even if He is not arrested, He won't stay here for one day more than I can stay.

The reason is, when you are talking to the media here, you think you are talking to the walls! If you go and see

in other places, the media is sensitive! Because they have received so many shocks I believe, that now they are so stunned that they don't want to have anymore! But take the other way. Supposing you have lost a diamond and somebody tells you there is a diamond here. Why not see? I can tell you, if somebody says there is a diamond freely available, people will start coming all the way from Australia and all *[UNCLEAR* secluded/sort of] places, from Japan, to get that.

But when I say that it is free, I mean, today the Sahaja Yogis here were telling Me that if you say it is free, Americans won't understand.

They think whatever is free cannot be alright [laughs], it cannot be alright, something wrong there, something snag. Just imagine.

How can you sell, it Self? It's an insult, it's an insult of God. It's an insult of Divinity.

Remember Christ took a hunter in His hand to beat all the people who were selling things.

And you believe that you can purchase God, it's another nonsense. God doesn't understand money, He never knew what money is. Neither He'll know what money is. It is you who have created money and all the problems that have come with it.

Now God's message, His laws, His kingdom is very different. He has got communications, which are very subtle. His ways and methods are so great that unless and until you come into His domain you won't understand how great He is.

And His creation's this. He has to save this creation of His, it is He who is more anxious, it is He who wants to do it. It is His own method of bringing forth this special evolution by which you enter into His kingdom, because He is the loving Father, the Father who is the most loving of all and wants to bestow the highest upon His own beloved children.

He has made you so beautifully, so beautifully He has made you, here you can see that [shows the Chakra chart]. Again, artists have tried to make it beautiful but it is not that beautiful as you are. You are really beautifully styled. I can see that beauty and you will also start seeing and enjoying the beauty of others once you get your realisation.

This is your Kuṇḍalinī [points to sacrum bone]. I'm sure Warren must have told you about all the seven Chakras you have. I have heard people are doing here called, something called `Chakra therapy' and I laughed at that.

And a lady asked Me, “They take such a lot of money, Mother, for this Chakra therapy." Now just ask the one who does that, that how much money did you pay to create these Chakras within you? How much money did you pay to become a human being? What did we do to get this beautiful body of ours? How much did we pay to be just breathing? Imagine, for your breathing if you have to pay money, dollars, first of all you can't get more than two hundred exchange here and how will you exist with that two hundred if you have to pay a dollar every breathing? This is a thing we forget, that we are living human beings and that living process has been always a

mystery for human beings and will remain a mystery till you get realisation.

So far we have done nothing living, nothing living.

All this is dead, can you find anything that is living here, is done by you? For example, the growth of these beautiful things, can you achieve it? Nothing. At the most, if there is mud, you can create a pot.

Look around: can you do anything living? And the One who does billions and billions of such things every moment, cannot be forgotten.

You may not face it, but that's a fact, He exists. There is a power that exists which brings forth all these things.

Now within us is a power, is the Kuṇḍalinī. And this Kuṇḍalinī is a living power. This is a power which is residual, we call that, because it has manifested the whole, the whole universe and everything and still it has not manifested itself because it is the residual power of your desire to be one with the Divine.

Unless and until that has happened, unless and until you are baptized in the real sense, the way John the Baptist did, not just somebody coming: “Alright, I baptize you." It's all artificial, it's all a drama.

I'm Myself born a Christian, I used to laugh aloud as a child, I used to laugh aloud: “What's this drama going on? No Kuṇḍalinī rising, nothing and they are baptizing!" Baptism, John the Baptist could do, because he was a realised Soul. Those who are not realised cannot give realisation, they have no authority.

Alright, even say, in ignorance you believe that you can do it. But now, when it has come to reality, must you not

accept it? Must you not get it? Why this obstinacy not to get it, I can't understand.

And this is what is wrong with our rationality, that we can justify everything that we know, like: “I believe." Now if you believe that Kuṇḍalinī is here, what can I do about it? It is not, it is not, it is here.

But because you have read a book which was nine hundred pages, naturally you have paid so much effort, you have every reason to believe in that book [laughs] because you have put it so much of effort that you can't get over it: “Now I've done Mother, what am I to do now? I believe in it." Like the other day one fellow said, there's one anti-Christ and he said that: “I'm taking his name for the last ten years, now how can I forget it?" If you have lost something and you are searching it and truly, even for ten years and if you know that that is not the way you find it, you will give up. Is common sense, is absolute common sense one should have to understand that within us God must have placed something beautifully to work it out and? The Chakras and all that they have started talking quite alright, some borrowed feathers from somewhere I don't know how; I don't know if they know about the Chakras also besides see what they are like, how many centers they have got and how many they control and they how they work out. I have no idea as to how much they know and how much they have learnt, because you can read any book, some Tāntrikas or somebody unauthorized might have told them something and here comes the book. In America I think it is easiest to publish any book. Nobody says no to

anything that no sense *[UNCLEAR* and that], so all kinds of *[UNCLEAR* books] they may have *[UNCLEAR* wrote].

And people are very fond of reading, I was coming by plane and one gentleman finished three books, sitting next to Me.

I was amazed at his speed, the way he was reading. This kind of reading gives us a blurred idea, a confusion, about God.

One has to know that if you become the reality, you should be able to reason the reality, you should be able to discriminate, you should be able to see reality.

For example somebody says: “Oh, I am a person who is born again” or say “I am a realised Soul." Alright, if you are a realised Soul, can you tell Me what is the problem with this gentleman, can you tell Me what are the centers catching in this gentleman, or can you tell Me what are your problems? At least minimum that much you should know.

They said: “No, no, that we don't know, but we are born [again]." This is self-certification, I mean, if you give a certificate to yourself, I am the President, President of America, you don't become.

Like some people say: “I'm Omkāra." By saying “I'm Omkāra” do you become? You have to really become. Actually become. It has to happen within us, that's why becoming is the crackdown point. We should ask ourselves: what did we become? Are we master of ourselves? Now one may say that, “What is the authority of Mātājī?" I have heard a thing like that [laughs]. It's correct! I don't say you should not challenge the

authority. But whose authority will you accept? Best authority is yourself.

If I say My authority is Christ, if I say My authority is Rāma, is Śhrī Kṛiṣhṇa and all the ancient scriptures and all the scriptures and all the great poets who have sung the song of the truth are My authority, you won't be able to relate.

But the best thing is you yourself should be the authority to judge Me. You yourself should know and see for yourself.

It's like you bring ten people in the room who are blind, there are no lights and there you say that the colour of these flowers it is red. Then you will say: “What is the authority of yours that these flowers are red?" Now, because I can see! “But we cannot see, so how are we to believe?" So best thing is that I open your eyes and put on the lights and you see for yourself.

You can also relatively see. For example a person who first time has never seen a red colour, or a blue or a black, then how are you to tell him? You have to take something as an absolute, you can say: “Alright, if this is red then that is red, that is called as red." In the same way we can relatively also judge this.

The other day I told you an example, you take two people who are suffering from cancer, two people who are suffering from say lunacy and two people who are suffering from fake Gurus [laughter, laughs] and two people who are realised Souls. Or and take two people who are not realised. Let's take like that, a group.

Now, the person who is sitting before us, you can see yourself, not because of Myself, the one who is from

lunatic asylum or who has got problems, mental problems, will be shaking, like that.

Some will shake little, some will really rackle with it, absolutely rackle.

Then, if you want to see the person who has got cancer, he'll be emitting heat so much, so much, that the whole room will be filled with hot air.

Now, the third person, who is realised, will feel Cool Breeze. Tremendous Cool Breeze, peace and bliss.

And the one who is not realised may little bit feel the Cool Breeze, may feel hot, you see, the mixture of everything, so he'll feel all the mixtures.

Now you ask the lunatic “From where do you come?", they'll say: “We are certified mad coming from lunatic asylum." You ask the patient, he'll say that “I'm from such and such place." But people do not want to see this fact. Is very simple to verify.

Now moreover, the credibility of a person who is taking money from you, taking everything from you, is putting you on the street, who is making other people mad, has to be challenged. Instead of that they will challenge My credibility, but not of those people, the reason is you are no more there, you are hypnotized, you will not.

But here you are free and you should challenge. I appreciate it because of freedom, is an expression, you are free to challenge. But that doesn't mean freedom is a license to again drift into nonsense.

You keep your mind open, receive your realisation. I do not know in what words to say that you are the ones who have been seeking truth for ages now. In the mountains,

in the hills, in the dales, in the Himālayas and all over you have been seeking for thousands and thousands of years.

You are seekers, you are a special category of people and you must seek it, you must find it, instead of it you seek your hell.

What can a person like Me feel about it? Is such a tragic thing, that the one who is really seeking the reality is lost.

I wish you could understand My concern and My anguish, that: look at these people, they have been seeking, seeking God, they are such nice people, such good people, are being harmed, have been tortured, are now on their way to hell.

It's a very, very sad situation and that I am trying My level best to convince you that you seek the truth. You ask for the truth. And you get it, establish it and save others who are being ruined. Because they will be seeking in any case whatever you may try, till the end they will be seeking, till they are drowned completely. They are seekers.

Today we were coming and one of the Sahaja Yogini was sitting at the back in the airplane. And there was a fellow sitting next to her who was reading some book on meditation. And she, she asked him, “Are you a seeker?" He said: “Yes, I am." And he got his realisation in the airplane. She herself has come to Me I think, about few months back. And she gave him realisation and he got his realisation. You could see from his eyes, absolutely sparkling eyes he had. You could see he could feel the vibrations and the Cool Breeze.

And then you learn further steps how to organize it, how to manoeuvre it, how to manage it.

So you have to be connected with the mains. You have to become Divine. Not that you are not, you are; but you are not aware of it. It is not in your conscious awareness, it is not in your central nervous system.

Whatever is in our central nervous system is our achievement in our evolution.

And you have to attain a little more step and you become that. Like a triggering into the space has to take place. This has to happen and this will happen, that thousands of you are to be saved. In some countries it has worked wonders, especially in a country like Australia, imagine. You had banished them, sent them away as criminals or whatever they *[UNCLEAR* were] they had children, their grandchildren and their great-grandchildren are great Sahaja Yogis. It's spreading like fire, the media is so sensitive, so sensible. While here I find there is no *[UNCLEAR* esmovement] in a country where I accepted and expected that it could be a tremendous thing. Let's see, let's see, still I leave it to you people to find out ways and methods of cracking the brains here.

Of course England was very difficult too, for four years I was struggling with seven people, no doubt.

But English, once they are cracked, they are very wise.

And somehow or other these seven people proved it so well and they found the change because they were drug addicts, they had lots of troubles and they were about to collapse, some of them were absolutely in a coma when they came to Me, so the change, the tremendous change in them convinced other people.

And today we have very good thousand Sahaja Yogis at least, very good thousand Sahaja Yogis who are experts, who are masters in Kuṇḍalinī Yoga in England.

Now, as they have told you about all these centers and all these things, today I would like to give a little introduction about it, but later on I will tell you how the key developments in the human awareness started and how later on the whole thing was revealed.

And today is the time when one can talk about it so openly.

I think you have given them the names and everything of the Chakras and everything.

But even knowing all about it, is of no help. You must get your realisation, only knowing about them in a bookish way is of no use.

You must get your realisation, that is very important.

In India very few people really bother about these things, because they know Kuṇḍalinī awakening is the only way, like sprouting of a seed.

They know that Mother is the one who is going to do it, second point, because Adī Shañkarāchārya *[UNCLEAR* has seen] and this and that. Third point they know that once you get your realisation you become the Brahmin or the one who knows the Brahma.

So in a village I have no problem. Thousands of people, if they come to know that Mother is coming, there could be six thousand people in a village. All will gather from all over and they will get their realisation so quick, I mean, so fast, just like an American fast jet. Real fast they do it.

In such an American way, that you can't imagine that it's like a jet. And all of them getting and such a wave of beautiful Chaitanya Lahari, these vibrations, Cool Breeze blowing, just like the waves of the sea or an ocean, it's beautiful to see that many.

I mean, coming to America some Indians were criticising: “Why should You go to America? Why not do it here? In one day You give realisation to six thousand people. There one day You might get one and he'll also slip out." And they were criticising My coming to America. That not in a bad way, but in a good way, that “It's better that You spend Your time in India." But here are the real seekers. They get it in India because they are too simple; they are so innocent.

They have no problems.

Here are the real seekers who are like, we can say, the people in a war front, who do espionage, or something like that, a very serious type of work, get complicated, get involved, caught up by the enemies and tortured by the enemies, which are so dearer. Those are the heroes and they must be saved.

That's how I am here. And I know that once Americans take it up we can save the whole world. It's very simple to understand.

But the way so far you have been taking up to people is so amazingly foolish that people think that you would never take to Me, because I am too sane, I am too sensible and they still are very diffident about My work in New York especially.

But to see you all here today, I am overjoyed. I have great faith in you, you have no idea how much faith I have.

You are born in that special Chakra, which is the Chakra of Śhrī Kṛiṣhṇa. Is the Chakra of the Primordial Being, is the Chakra from where the collectivity is *[UNCLEAR* first]. But we have tried everything to ruin it.

First of all it is ruined by smoking. Smoke, Christ may tolerate a little bit at that point [Āgñyā], but not Śhrī Kṛiṣhṇa, He can't tolerate smoke. He just can't bear it. And we have been smoking; thank God I have heard that smoking is going down, that spoils this center.

Then, on the right side, when we talk big, egoistical, when we try to push down people, specially when we try to dominate, say within husband and wife, which we see all the time if there's a quarrel going on, your Chakra will be ruined completely on the right side.

Left side is another problem that comes from feeling guilty. And which is also very common.

So these three centers [left, center, right Viśhuddhi] that are the most important thing and the most powerful in you people here, [see] how this is attacked.

Moreover the mantras and all that which are not awakened by a realised Soul, by a holy person, can also ruin your left [touches left Viśhuddhi]. Is very common with the people who have done mantras and Chakra and all of those things without any authority.

Because the whole thing comes up here [touches throat], just and when you take the responsibility of such things on your back, say you take on your shoulders the

responsibility of wrong type of people, you can imagine, what would be the shape and condition of that wonderful center [Viśhuddhi] which was created in a human being when he raised his head from animal stage to look forward.

Is a special thing that happened to us when we raised our head like that, that within us these two centers, these two things like, ego and superego, started developing.

We had superego alright, but the ego started developing when we just raised our head from animal stage to this stage.

But we do not know that if you raise your head too much backwards like this also, it can be spoilt.

That means the ego goes too much, then your head goes down like that. Such people never put down their heads you see.

If you see somebody walking like this, find out: he must be something big somewhere, or aware that he is a very big man.

So the center that is the Viśhuddhi Chakra is this America. And you are the people who are the cells of that Chakra which can be awakened. You are the cells and you are to be awakened.

Once you are awakened you can cure this center and the whole universe will be benefited by that. That's why I request you to understand your position in the whole cosmos, of the universe and the important and the pivotal part? position that you have and the wider role that you have to play, so that you pay attention to

yourself, your development, your growth and you achieve your full maturity in Sahaja Yoga.

May God bless you all.

I would like to have some questions today and then after that we can have the realisation. Can you open the window? Warren [to Shri Mataji]: *[UNCLEAR]*.

Shri Mataji: Yes. Tomorrow, as he is saying that many of them have had no idea about the Chakras and all that, because they have come for the first time today, but tomorrow I am going to tell you all about Chakras and all that.

Everything I'll go gradually one by one. Now I'll be here for five lectures and I will see that in every lecture I'll try to do step by step, across the thing. And I will explain you.

Warren [tells people about leaflets]: If you don't have one of these, please take one on the way out.

Shri Mataji: And also put them somewhere for advertising. And moreover there is a book, you can read that, but do not try to remember everything by heart. It will be all your own, the whole knowledge will be your own, it won't be difficult.

So it's not to be studied, but it's to be felt. I will definitely tell you all about Chakras and I'll make you masters. I'm going to make you Gurus, everyone of them. Real Gurus.

There's one fellow in India, who's got his realisation and he's given realisation to, as far as I know, ten thousand, but some people, twenty thousand, they say they are twenty thousand people he has given realisation.

So it's possible.

Yes, please?

Seeker: Mother, I do not mean to be funny, but I felt a Cool Breeze for quite some time.

Shri Mataji: You are not funny! You are very good, you have got it!

Seeker: But I cannot tell that whether it was the wind! [Laughter.]

Shri Mataji: It happens with everyone, because we've opened it just now [the window], alright? There is no wind here, you can see that nothing is moving, you see? Otherwise these things will be moving, you see? Yes, it's alright, you got it very well, very well.

That is a thing I knew you are going to get it. Alright? So nothing to be funny, is the absolute truth.

There was a scientist we had, he was from Orissa. And he got his realisation. Then he looked at all the windows and I was just smiling.

Then he looked at his? he turned like this and then he had more from Me, he couldn't believe it.

Then he went home, he shut himself in a cellar, there he put, what you call, a candle. And then [he] put his hands to the candle and the candle started giving him Cool Breeze! He couldn't believe it, he thought there's something gone wrong with him. And now today he is a very great Sahaja Yogi. Alright? So the first step has started, that proves one thing beyond doubt, that you are a great seeker. Alright? My congratulations.

Seeker: [says that he has feelings for his family and friends, but he has been seeking for a love relationship

with a woman without any success, which is causing him a lot of pain and he does not know what to do].

Shri Mataji: See, I'll tell you what happens. You have got a center here is of the Nābhī, alright? Now out of this, is the left Nābhī here. If it is in a problem, left Nābhī is the center of Gṛuhalakṣhmī. Is the center of the Goddess in the household, or your wife, see. Of course these days you don't find Goddesses as wives, but still! [Laughter.] So, if that goes out, you see, then lots of problems also can come up, but one of them is that you get such a situation.

But all such situations can be overcome, all kinds of situations: people who have had perverted relationships also get sorted out, those who have had, what you call, the problems of divorce and sort of a relationship with a woman and they are frightened of women, or the women who are dominating or they don't know how to stop their domination, they don't want to dominate but they somehow dominate, all these things will be sorted out. No problem. Next year you will be married very nicely. Alright? We had sixteen marriages [laughter, laughs] recently in England.

One of them was Warren, who was married. And he is a divorcee and he had given up hopes of marriage. We had sixteen marriages the day of Kṛiṣhṇa's birthday.

So don't you worry.

But you have to follow certain understanding of maintaining yourself in a position, see and I'll tell you all about it, how to do it.

And you will have very good marriages, lasting marriages, not only that; but you'll have realised Souls as

your children. There are many who want to be born. And all the Sahaja Yogis who are married now have got realised Souls as children. Because they want to be born, they want parents who understand them, who can bear them, who can look after them and love them.

So you will have everything fine, don't you worry. And a very nice wife too. Alright? Yes?

Seeker: [says something about subconscious impurities].

Shri Mataji: I am happy that you have reached the right conclusion. Don't you worry, I know how to look after them. That's all I'll say. And I will teach you how to do it for others also. You will become Saint Michael in this respect. Alright? And we'll have to drive them out, all the subconscious impurities.

I think we have got our book here, of the Advent.

Warren: It's coming up Monday.

Shri Mataji: Alright. In that it is, see, Gregoire, the one who has written the book, has called them as UPI, I don't know what it means [laughs] but he calls them as UPI and there are so many methods by which we can drive them out. Eh? What is it? Warren: Units of Psychic Interference.

Shri Mataji: Ah OK! [Laughs.] That's *[UNCLEAR]* all the invention. Don't worry. You just don't worry. Not only yours, but others, you know. When you will go on the road, if they know that you are passing that way, they'll all disappear. You become so powerful.

Warren: [says something about the sins of the past].

Shri Mataji: Now will you forget them? Forget it, forget your past. Forget it, that is subconscious, just forget it.

Do you know that all the sins and blasphemy is to be forgiven and it's been already promised? Because you are saints! So don't count them at all, forget it.

You see, when you wash the clothes, say in a washing machine, will you count all the stains? It's like that. Kuṇḍalinī washes you up and cleanses you completely. It's your own Kuṇḍalinī, it is pure, holy, your own Mother. She'll wash it up, don't you worry. Alright?

Seeker: Yes.

Shri Mataji: It's too much to believe, is it? [Laughs, laughter.] It is so. Because you don't know what you are, you are fantastic.

[To a lady:] What worries you? What is worrying you? Lady: *[UNCLEAR]*.

Warren [repeats]: She thinks she has taken somebody into her house who is not good and she thinks she is becoming not good as a result of that.

Shri Mataji: See, there are solutions for that kind of thing. If he is really a sinister fellow, he'll run away. Alright. Or in case he is capable of improvement, he'll improve.

So you become more powerful than them. You see? Is what is more powerful is the point. If the light is more powerful, the darkness has to run away. Alright? So because you still do not know your powers and to manoeuvre it, that's why you are worrying. But once you know it's very simple. Once you are realised I will tell you how to use it and you'll be amazed.

Like yesterday I was coming and suddenly I had to go and there was no seat available in the plane and so My husband told Me, “I'm sorry, there's not seat available for

you” and suddenly he said: “Oh, it's a miraculous thing, they have said there's some seat." I said: “Alright, book Me there." And two others were coming with Me., See, this is absolutely a material life, absolutely a material level, isn't it?, And two others were coming, there was no seat at any cost. And two people who had booked for one month before, ahead, dropped out and these two were with Me in the airport.

So even *[UNCLEAR]* at a very, very material level they help you. And spiritual level I need not tell you. Even at the very baser material level they help you, because this Lakṣhmī Tattwa is here [points at Nābhī on Chakra Chart] which helps you for the well-being.

Kṛiṣhṇa has said: “Yogakshemam vahāmyaham” I'll look after your Yoga first, Yoga means the union, first you must get your union and then the well-being, kshema, is well-being. In America we have got the kshema first, the well-being, the Yoga is missing still. [Smiles, laughter.]

Seeker: I wanted to ask a question to Mother.

Shri Mataji: Yes, please.

Seeker: First I would like to say that You were an inspiration?

Shri Mataji: What is it? Warren: You are an inspiration to him, Mother.

Shri Mataji: Ah? Warren: You are an inspiration to him.

Shri Mataji: Oh, I see. May God bless you.

Seeker: I am sure all of us have hundreds of questions that would keep You here the whole night, but I would like to say that I would like to become a realised being and give the answers from within.

So my question is: after the five lectures and You leave us, where do we go from there?

Shri Mataji: I know, everybody feels sad [laughter]. Because you are like small children, you know.

But you grow so fast. That you are amazed, you see. You grow. You grow very fast. You'll all grow. I'm not going to leave you. I'm going to come back again and again and you are going all to come to India and we are all going to have a very nice time [laughter]. We all belong to each other: how can we leave you? Now. Is it alright, or any other question? Even if you have any personal questions or anything you can write to Me, alright? If you don't want to discuss it here. And tomorrow morning if they can come to the hotel...

Warren: [says they will have a workshop at the hotel at eleven o'clock].

Shri Mataji: Here? Warren: No, at the hotel.

Shri Mataji: The hotel, you can come, I can work it out for you if you have any personal problems or anything, we'll work it out, alright? I'm here for a complete 24 hours in the hotel.

Lady: [says that the day before it had been said that you can ask a question and you get the answer].

Shri Mataji: Yes.

Lady: And how do you read that, how do you know?

Shri Mataji: See, what happens, now say for example you are connected to a mains. Alright? Now the mains is an unconsciousness was so far, it has become a consciousness within you.

You are like a computer I would say, to make things easy. It's a mystery again.

So you put your hands and ask a question: `Mother, is there God?' Just see vibrations. Right? `Mother, is there God?' And three times if you ask, you get tremendous [vibrations], already must have started.

You see, so, that's how you will know. But if you ask about somebody who is not a real Guru, who is not a real person, then you might even get burning.

Sometimes you might even get blisters. You may lose your vibrations. The more you grow the more you become sensitive and you start understanding where you are.

Lady: Can you also ask practical questions about your life?

Shri Mataji: Yes, yes, you will. In the beginning everybody asks: should I buy this? Or that? [Laughter, laughs.] Then the questions start becoming subtler and subtler, because your priorities change, you know? Whatever level you are, you start asking questions. Then no questions, at a stage which we call... first you get thoughtless awareness, as your... first you get thoughtless awareness.

In Sanskrit it is called as Nirvichār Samādhi. Sama-dhi: Dhi means your consciousness and sama-dhi is the one which is enlightened.

So the thoughtless enlightened awareness first.

Then the second state is, between these *[UNCLEAR* is a little these two things] which you have to establish, is

called as Nirvikalpa Samādhi, meaning doubtless awareness.

It is a state; it is not: “I have no doubts about Mother, I have no doubts about Sahaja Yoga” is not that. And that state is achieved and at both the states when you are say thoughtlessly aware state, you can give awakening, you can give realisation, you can cure cancer, you can cure all kinds of diseases, so many things you can do with the first shot. But much do not indulge in that too much. You can give realisation at the most and then you should jump onto the second stage where you become Nirvikalpa.

Means where you are doubtlessly aware. Doubtlessly enlightened awareness. Then you become that.

At that stage you don't start catching from others, such sort of thing; you see, you may feel `this is the finger catching there,' but you don't get involved with it. It's a state, it's a state, in which you mature, which happens to you. Many people and will happen to all of you, there's no problem about it. But some people do it faster, some take time, but it happens to all of you. It's a happening again, maturity. Alright? Lady: [asks if a person who has never been interested and has never come, if this person may be influenced to do this thing].

Shri Mataji: Who is not interested? Lady: Yes.

Shri Mataji: Forget it. Let them get lost, that's what they are, they are not interested in their own Spirit, now what am I to do, should I break My head? You have to ask for it. You see, God has given you freedom, this is the problem. You have the freedom, if you want to go to hell you can go directly. Take two running jumps and go. But

if you want to have realisation, you can get it. Alright? But if you don't want it, don't force them, please don't, you cannot force it. You cannot force it.

They... I can cook food for you, alright? I can put it in your mouth. But the enjoyment of eating it, has to come within yourself; you don't want to enjoy anything, what are we to do? You can't force it.

In the beginning only the seekers are important. They need not be your brothers, sisters, mothers, fathers, they need not be anything. Seekers are important, pay attention to seekers. They are to be saved, alright? Once the seekers come up, then these second class citizens will start coming up, you see? Let us see to the first class citizens in the Kingdom of God, then we'll bother about the second and the third and the fourth.

But don't waste your energy on somebody who is not convinced. You cannot convince him by your brain, you cannot. You see, they are very obstinate people. I've told many a times, but still you see we are involved with the other people and we try to convince and...

Today only I received a letter saying: “Please, give realisation to [my] mother, she's very adamant, give realisation to my father, he doesn't want to listen to me, give realisation to my sister, she doesn't believe in it” all sorts of things, you see. I said: “Alright, alright" [smiles].

So don't be concerned, have no sympathies of this kind.

Sympathy: `sym' means to share and `pathy' is the pathos.

So don't try to share the pathos, alright? Have no such sympathies. Only seekers look after the seekers. And:

“sorry, you are not a seeker." I also tell them you go away [does Namaste].

You see there are people who will come and say: “Mother, I once have gone to the races and I lost." I say: “Now you get lost, you go away." You see, you can't give anything to such people, who are on that gross level.

Let them be. But first of all let us enlighten those who are capable of enlightenment *[UNCLEAR]*.

They are more important. And not those who are just with very great difficulty are pushed into it and go back as if pushed by a piston, you see, better not have them. Alright? So don't you worry on such people.

Of course you feel concerned, no doubt, but forget it, that's not... the seekers are too many and we have to look after them.

Yes, My child? Lady: [asks if people who are really seeking can attain it].

Shri Mataji: No, if they want to have it you can do it, you see? Even people who are declared as greatest *[UNCLEAR]* you see, got realisation.

Imagine, the other day, imagine, archbishop of black magic got realisation. Can you believe it? Archbishop of black magic. He got realisation. Of course I told people, “Now don't try all these tricks with such people because see, they will try to tempt even you” so we are treating him separately. But the person who is supposed to be the archbishop of black magic. I mean, witchcraft. He got realisation.

So anybody can get it.

But if they do not ask it, you cannot force them, you cannot argue it out, you cannot tell them: “You must get your realisation” nothing [of the kind]. If they think they are very wise let them be alone, don't waste your energy.

Instead you can give to ten people who are wanting it. Alright? So just find out who is a seeker, also from vibrations you can find out. Those who are seekers will get their awakening very fast, you see.

Warren: She says this man is a smoker?

Shri Mataji: Who is a smoker? Warren: This man she is speaking of.

Shri Mataji: But he would like to have a realisation? Oh, smoking is nothing, even if he is a chimney [laughter] he can get that. If he is a seeker: he has to be seeker, the first primary consideration is that he should be a seeker. It's nothing, I mean, smoking, everybody smokes, we find [nothing] but this smoke in this world, what to do. But doesn't matter, I mean, it's not such a sin. Nothing is a sin in the presence of the Ocean of love. Is it? What is a sin? Nothing.

So it's not so important. Smoking at least.

Gentleman: Fixation, is that a sin? Warren: He is saying, is fixation a sin?

Shri Mataji: It's not a sin, according to Me nothing is sin now. Forget it. I mean, fixation, I would say, will only drop out through Kuṇḍalinī awakening and awareness and alertness. All fixations can be dropped out, misidentifications can be dropped out, because you become a different person.

Like, say, a caterpillar becomes a butterfly, alright? Now, there must be the part of that cocoon sticking on to the butterfly, must be.

So you don't like it, you want to throw it away, just falls off, because it's all broken out.

Like an egg-shell becoming, egg becoming a, say a bird. And the shell is still sticking on somewhere, so the bird doesn't like it, he throws around. It's like that. It's transformation and transmutation. Both things take place. First the transformation which is very easier, you got it just now; but the transmutation you have to work it out a little bit and they drop out.

Little bit power helps you. And you want to do it, you don't want to have them. Because supposing I have a fixation with, say, a spirit. We'll catch on this [left Āgñyā finger], we'll catch on this [left Swādhiṣhṭhāna finger], we'll get a headache [touches back Āgñyā]. Normally you won't get a headache till you become mad, you see? But after realisation you start getting.

Like a lady who had liver trouble. She came to Me, she said: “Mother, my head has gone absolutely heavy now, what am I to do?" I said: “You have a liver, you get it cured. If you don't get your liver cured, you'll have this trouble." So she tried her best to get it and you can get it cured just like that [snaps Her fingers] with Sahaja Yoga.

It's very simple. And she got alright.

So fixations also drop out. It's all ignorance: we will not call it sin but it's ignorance.

Lady: [says something to the effect that she was warned by someone that Kuṇḍalinī caused people problems and one can end up in hospital].

Shri Mataji: Very true, very true, you see. Now what she says is true and I know that. Because it's not Kuṇḍalinī that takes place.

See, Kuṇḍalinī is your holy Mother. And not only holy Mother, but she's the only Mother you have and you are the only child She has. And she's not going to give you this trouble, but these people who do not know the job at all, who are not authorized, they are extremely unholy people, they are people who should be in hell and are trying to do these things and they make you suffer.

For example, when you try to excite the Kuṇḍalinī by any method like that, actually you either move to the left or to the right. They push you to the left or to the right. And if you move to the left you can become mad and if you push to the right you become stupid.

So accept one or the other [laughs, laughter]. You can't take them up there, you see? [Points to Sahasrāra on the Chakra Chart.] It cannot be reached.

Even they say Brahmā, Viṣhṇu, Maheśha cannot reach Gaṇeśha, who informs the Kuṇḍalinī to rise.

So you can imagine. These horrible people, just to make money, are telling you stories and they put you in the lunatic asylum. Not only, I have seen people coming, who went for flying.

They paid three thousand pounds to fly. I mean, they must have some brains to understand: why are you flying? Are you going to become birds now? Make your

Guru y! I said, why not put them, put him from this Leaning Tower of Pisa and see where does he fly, upward or downward? [Laughter.] You see, when he'll go down, then you will see that this is the thing he's doing and then you are paying three thousand pounds. On top of that what you get is an epilepsy. They are all suffering from epilepsy, you know? It's true, it happens, I know. But this is your Mother. She just gives you your realisation, that's all. I have never seen one person getting mad, on the contrary mad get well with it.

How can it be? You are going to become a Spirit, on your way to that how can you become mad? I mean, supposing you are going to Heaven and on the way you meet there at station some lunatic asylums? How can you become mad? We should use our brains to see these are horrid people, I agree with you.

They are using all kinds of dirty methods, I know.

Specially sex: how can you use sex for your Kuṇḍalinī? Because that's your Mother. How can you do it? All absurd ideas, I don't understand. If sex is so important all animals should be realised Souls by now [laughter].

Not that you have to abhor sex, you have to lead a sane married life and lead a very decent life and all that, that's the key to it; but not this kind of a thing that you can raise Kuṇḍalinī through sex, it's all filthy, all bathroom culture I think, the way these people talk about.

Absurd! So filthy you can't imagine. It's filth. I mean, there should be something... our sex's private, isn't it? We call it as private. But how do we handle them, with these horrible Gurus and one of them has come down

and settled here in your country. His Viśhuddhi's gone off now. I'm happy about it.

Warren [repeats a question by a seeker]: He feels a very nice presence. He's asking You if there is any initiation that You do.

Shri Mataji: I've already done it, I think [laughter]. I really don't do anything to be very frank. If you ask the sun: `Do you take the colour of the leaves?' He'll say: `No.' Because that is his nature. This is just the case. It just flows. I really don't do anything. Am I doing anything? I'm just talking, that's all. But it works, it works, it works by itself. Because you are a deserving case.

That's why it is acting. I don't have to do anything. Alright? Now. You said it was the last question now.

Warren: He asked twenty the other time, so?

Seeker: Yesterday I told the nice Australian doctor that I was a traditional minister in a traditional...

Shri Mataji: Tradition? Warren: He is a traditional minister. He's a Baptist minister.

Shri Mataji: Ah! Then you should really become a Baptist, I'll make you a real Baptist.

Gentleman: [asks how he can relate Self-realisation to the scriptures].

Shri Mataji: I mean, what am I telling you, everything that is scriptured but in the real sense.

Gentleman: [says something that for him it will be more difficult than for others].

Shri Mataji: You see, they will see your powers. Alright? It's better to tell them and save them than to allow them to be drowned. Under the name of Christ and God, one

cannot do like that. We cannot do like that anymore, it's all done, I'm so happy you could come here and you could achieve it, you'll save so many of them. You face the truth, it is so.

But I will tell you some questions when you'll ask, then you be sure you are doing that. Alright now, any more questions? Or are you all enjoying the Cool Breeze? Lady: *[UNCLEAR]*.

Shri Mataji [to Warren]: Why did you open? Warren [to the lady]: What do you say, sorry, I didn't talk about it.

Lady: Yes, you did, when you were talking about the Christian gnostics.

Warren: Oh, I mentioned... Mother, I said that the wind of the Holy Spirit is often referred to by the gnostics as the Holy Breath. That's all I mentioned.

Shri Mataji: Ruh, yes, Ruh, means Ruh.

Warren: Ruh. And I gave its different names in different scriptures, that's all.

Shri Mataji: But what happened to the disciples of Christ, you see, is a problem I don't want to raise controversy, alright? What happened to them is a little controversial subject which I will tell you later on.

Alright? Just now you get your realisation, mature. Because, you see, today you are learning Christianity.

Alright? So you have problems of Christianity. Those who are studying, say, Hindu religion, they have problems from Hindu religion. Because it is misinterpreted also many a times, isn't it? The one who has misinterpreted does not know that he's misinterpreted.

And only through your vibratory awareness you should find out the absolute truth.

Like when I told people that Christ's Mother was the Holy Spirit, they would not accept it. In India they said: “What did She do? She just used to cry and weep, but the Holy Spirit is supposed to give Realisation to people, She didn't give realisation to anyone." But She was.

So how do you find out? You put your hands towards Me and ask the question: `Mother, was She the Holy Spirit?' Then why didn't Christ say that She was the Holy Spirit? The question comes in. It's with Him, absolutely one can understand that She was the Mother of Christ. And Christ has got eleven destructive powers, with which He's going to come back. Eleven destructive powers He's got. About which Bible says nothing, because you see, Christ could not talk to His disciples who were just fishermen. And they never believed Him. Till they saw His resurrection they never believed Him.

So His eleven powers that He had, He could have destroyed the whole world at that time of His crucifixion, but crucifixion had to be done with a special purpose, which I'll tell you later on, why He was crucified.

And He didn't want to say that, because if anybody would have tortured Her, He would have used all His eleven powers and the whole game would have been over. Alright? So it is a very subtle subject, which you should understand but first you must become subtler. Then you will understand each and everything very nicely on the Kuṇḍalinī. For example I say the Christ is placed here, on this point. That He is to be awakened here. When He is

awakened, then only the ego and superego both are sucked in.

That's how your sins and your sufferings He takes over.

Now, if I say so, why should you believe in it? Isn't it? But what can happen that when we raise the Kuṇḍalinī, yourself when you will be a realised Soul you'll see, the Kuṇḍalinī may stop here. Then you have to take Christ's name. You have to awaken Him. If you are a realised Soul only, otherwise you cannot.

Then you'll find the Kuṇḍalinī will rise. Or you have to say Lord's Prayer, then only the Kuṇḍalinī will rise. But only a realised Soul can do it.

Anybody says Lord's Prayer is a waste. Is a waste. Is not connected. Alright? So it's a very subtle subject, you be honest about itself, you become that and then you'll start seeing everything clearly. As I said that this room is dark, you can't see anything, so best thing is to open your eyes properly, get the lights on and see for yourself. Alright? Because if I say something, it may create the situation of a doubting Thomas, which I don't want to have. First mature yourself, alright? You must mature all of you. Is a good question you asked, but that's little further.

One need not hang on to anything.

Just see for yourself what it is, you must see for yourself. Keep yourself open.

Is true, what he said is true, it's called as Ruh. Is a, is the cool wind of the Holy Spirit and I don't know if his book is published or not, of Ādi Shañkarāchārya, he's written a big book about it, Chaitanya Lahari and all that, he's written it. But I, most of their books are not translated,

what to do? I mean, it's such a big book on this Cool Breeze. Of course this knowledge of how to use it and how, what fingers are there, is not yet there, because that was not the time to be given perhaps.

But all the teachings I'll be giving you and you can verify. You can verify everything.

So you must verify. But don't waste too much time in these things, first of all you mature. And gradually you will start seeing yourself.

First thing should be that you mature. That is first thing and important. [Points to a Sahaja Yogini.] See, she got realisation two days back, I mean, how many days? Four, five days back. And she can feel everybody's Chakras, she can raise the Kuṇḍalinī, she can do it.

So just do that, first start doing it, alright? First become that.

Then you will start understanding this is not important. Is not important. What is important is to understand Christ where He is, how we can awaken Him, all these things are more important.

Warren: We should have it?

Shri Mataji: Alright. Āgñyā is there.

Now, those who think, please, this center of Christ itself is catching. Put your hands towards Me and say that: `Mother, I forgive everyone.' [People repeat.] Again [people repeat]. Again [people repeat]. Still there. Should we say Lord's Prayer. [People recite Lord's Prayer three times.]

Shri Mataji: Now see is it coming? Put your hands straight. Here, this side. You are alright? Are you feeling?

It's there? Keep yourself steady. No body movement is needed. Just keep your[self] steady, the Kuṇḍalinī is inside, She rises by herself, don't do any body movements because that will spoil it. Just be steady, just keep your eyes shut, [because] if you don't shut your eyes also the Kuṇḍalinī won't rise above Āgñyā.

You have to keep your eyes shut, that's important. Because you have to get it after all, what is it? You have to get it, you are here to get it, that's all. Please close your eyes. You are here to get it, that's the main point, to receive it. Now put your right hand on your heart. Right hand on your heart. And say: `Mother, I am not guilty.' Thrice, three times say: `Mother, I'm not guilty.' [People repeat.] Now ask a question: `Mother, am I my own Guru?' [People repeat twice]. Again [people repeat]. Now ask a question: `Mother, am I the Spirit?' [People repeat twice.] Again [people repeat.] Now say: `Mother, please give me realisation.' [People repeat twice.] Again [people repeat].

Ah. [Puts Her hand above Sahasrāra.] It's there. Now put your right hand on top of your head and you see a Cool Breeze coming out of your fontanelle bone area.

On the head, on top of your, on top. Just on top, see. There will be a Cool Breeze. Just move your hand and see that if there's... little higher you keep your hand and see if there is a Cool Breeze coming in. Maybe some people might get little hot [makes gesture as if taking heat coming from Sahasrāra and taking it out]; some people will feel it in the hand, some in the head, coming out.

Specially those who smoke do not feel it in the hand in the beginning, doesn't matter. Put down your hands

please again. Those who did not feel any Cool Breeze raise your hand.

You have to be honest about it, you have to get it, alright? Out of these who have not felt: have you been to a Guru? Those who have not been to any Guru and have not felt it. Those who have not been to any Guru and have not felt it. Not at all to any Guru? You are not reading any books? Alright.

Lady: *[UNCLEAR]*.

Shri Mataji: That spiritually stands even worse. Alright, doesn't matter. Alright, it's alright.

Now put your hands like this. Now those who haven't felt it please keep your hands again. And Sahaja Yogis you can go and look after them. Tracy, you need not. You give realisation, it's alright. Now, you haven't felt Cool Breeze? Alright. Good. Yes.

Those who haven't felt any Cool Breeze raise your hands. You haven't.

Something. Alright, now put your hands like this, don't be upset. Everything is going to be alright, eh? Got it, you've got it. Got it. Now see this gentleman, the other one, just see. Are you? Feeling it? Alright.

So you are a branded seeker and you are sorted now. See that gentleman, you should ask the one? yes. Did you feel, My child? Did you? Good, good.

Dan, you also go and help now, see, you just start practicing, all of you, from New York. She's got it.

Alright, you've got it now, don't doubt it. Don't think about it, she's got it, you got it very well, face has changed.

What's the matter, Steve? Left Nābhī? Drugs. Alright, put your hand down here, on the left side, left side. Alright. [Pause. Shri Mataji enters into meditation.] Ah, alright? Warren: He has been to a Guru in the past.

Shri Mataji: Really? Warren: In the past.

Shri Mataji: Of course in the future he's not going to go. He'll run away [laughs.] These people leave him, those see the book they don't even touch it. You see? Oh God! See this lady here, she's left-sided I think. Just see. Let this gentleman work it out, come along. Now you give realisation. Alright, alright, come along, no, it's for you, no, no, come here, come here.

Now Gavin, let him see the wind coming out of others. Let him see from the head, let him see. This gentleman. Now come along, you help him. This is Mr. Gavin Brown, from London. Alright? Now we have imported them, next time you have to come to London.

Now show him, how the Cool Breeze is coming, raising the Kuṇḍalinī, ask him to raise it. Raise it also.

Now we are baptizing, really you are a real baptist.

Now ask him to raise it, how to raise it also. You people can learn it also, both of you, come along, you are very strong, come along.

Both of you come along, get up and get your... raise it.

Christine, just teach these two boys, they are very good and strong.

Now forget about your sins, so-called. She's there, go, she'll tell them... ah, alright? [To a seeker who is feeling the Cool Breeze on the head of another seeker:] One hand towards Me! Now there is no window there, just

have a look! Show there's no window in the head! It's there! Take them, let them test everyone. How are you now, are you better now? Today? Are you better? This is the Cool Breeze. You help him. Forget about the past and just help him. You are better now but the Ekādaśha is there. You are very hot still. Ekādaśha Rudra? How are you? Fine. You also got it? You haven't got it? Now, come along. Who is there? Hema? If you can come here. Gavin? You just come and look at this. You feel? True! *[UNCLEAR]*. Now. Come along, put your hand. Put one hand? Alright? This is the Cool Breeze. Yes, yes, you can feel it, all of you, all of you can. You have to forgive! You have to forgive, you have not forgiven really. Have you? No you haven't. Say now `Mother I forgive.' Again. `I must forgive, I have to forgive.' Again. Ah, alright? Now better? Alright? See now, you've taken two, you have not forgiven also! Have you forgiven? No!

***Contents: 1981-09-27*,, Public Program, Day 4, East West Center, 141 5th Avenue, Manhattan, New York, USA**

[Beginning of the original tape is MISSING.] Warren:... as I said. Again, ladies and gentlemen let me introduce to you our Mother, Mātājī Nirmalā Devī.

Shri Mataji: Yesterday as I told you, that we are going to have a series one after another. And yesterday I've explained to you the introductory part of Sahaja Yoga. And I said `saha' means with, `ja' means born. Is born with you. It is inborn, is spontaneous, is living. Whatever is born with you is living.

For, your fingers, hands, everything is living. And this system is born with you.

Yoga means the union with your Spirit. Simple, it's very simple meaning. Yo-ga means to join. To join you with your Spirit, with the Divine. This is born with you. This right to be one with the Divine is born with you. It's your birthright. That is Sahaja Yoga.

Now, to say that it is My method or it is today's method, could not be correct. Because this is the method of anything that is spontaneous.

Like, you see a seed sprouting, a flower becoming a fruit, an egg becoming a bird, or you see a caterpillar becoming a butterfly. All this is Sahaja, is inborn with you. And this is existing within us, of which people were aware thousands and thousands of years back. Not only in India, you'll be surprised.

They were aware in England, they were definitely aware in Egypt, they were aware in Greece. Recently I went to Greece, to Athens and I was surprised. Athens *[UNCLEAR* was/word] comes from the word Athena. Athena is their Goddess. Actually, they don't know much about Her but Atha in Sanskrit means Primordial. She is the Primordial Kuṇḍalinī. Athena is the Primordial Kuṇḍalinī, the Mother of the *[UNCLEAR* pri] expressed as the Primordial Kuṇḍalinī or the Primordial Mother. And She has in Her hand a snake which goes around into circles creating Chakras. It's so clearly shown, but they are not aware of it. And they even have, you'll be amazed, the daughter of that Athena which is placed among all of us and they call this bone as sacrum, means the sacred bone. The word sacrum has come from the Greek language, is the

sacrum. Means the sacred bone that they were aware that in this bone lies something that is very sacred.

And I asked them “How did you get this idea, was that Alexander the Great who brought these ideas to you?" They said “No, this is, this is thousands of years back we had a rapport with people who were Indians, Indo-Aryan groups and that's how we know about it." Is most amazing. And so many other things I discovered which was so surprising and so enlightening, that these people were very much aware of it.

Now, in England there is a place called Stonehenge. I went to see that place, Stonehenge: has tremendous vibrations. Tremendous vibrations, the whole working of it is nothing but the three and a half coils it is placed and it has come out of the Mother Earth.

But people did not understand, they started covering it up and all they made into some sort of a pattern. But actually the main thing must have just come out of the Mother Earth; and it has tremendous vibrations and people don't understand what it was.

That means people did practice this Kuṇḍalinī business there.

I went to Colombia, I was surprised in Colombia: they told Me that the emblem of the Navy is a...

what you call that? Condor, condor. Condor is called as a Garuḍa in Indian language, I don't know if you know. It's a very big eagle-like thing, condor. And they said condor is the emblem; I said: “Why condor? I mean, what has condor to do with the navy, I can't understand." So they said: “It is because our old people tell us that from India, that is Bharat, from India a God called Viṣhṇu came on a

condor." Thousands of years back these people said about Viṣhṇu who came on a condor.

I mean, I was amazed at their description and how did they know, I said: “How do you know?" They said “It is said and that's why we put it as condor." We said it's all right, we'll have condor, because condor is very much respected. There is no condor available there, nobody sees them there, nobody knows much about it, but why they talk about condor is because their Indians say that Viṣhṇu came on a condor to their country; now, where is Colombia, where is India.

If you see the patterns of their ornaments is absolutely what we do in India, is to use the wire on top of the gold.

I don't know if you have seen their gold, gold ornaments, they had taken an exhibition round. But all of that, all Indian patterns, they said “the Indians came down to teach us." Oh, I don't know how Indians went in those days to teach them. It's most surprising how they had a rapport in those days. And they lost the links.

Like in, say, from Iceland I met a lady. And I just asked her, “What do you say for sugar in your language?" And she said that it's called as sharkara. Now, sharkara is the pure Sanskrit word for sugar. Pure Sanskrit word. Now then we discovered that the Sanskrit must have started somewhere near Norway, because it is said that it started at the place where that Rohini Nakshatra, is one of the constellations, is at right angle.

Now that's the place where it is at right angle, is Norway's the place where it is at right angle.

So maybe that the pre-Latin language got purified into Sanskrit, there was a big rapport in this time and one

became the Latin and another became the Sanskrit. And there are so many common words and common concepts that it's remarkable how we have lost contacts and how we are separated now, even as nations.

I went to Australia and I was surprised the language that they use has mostly Sanskrit words. Like the river on which we were, on the bank of which we were living, was called as Parramatta, means the Primordial Mother. I was surprised how this name was given to that river, Parramatta. Ask any Indian, he will know about it. And it's something that we had an all-pervading knowledge of this, even in England and must be in America also, I should find out some places where I'll be able to locate these things.

Especially the old Indians who lived in America, I saw them in Chile and Argentina and in Colombia.

And they knew so many Sanskrit words in their ritualism and all that, I was amazed how this Sanskrit was with them, from where did it spread and how did they have this knowledge of Kuṇḍalinī. But this knowledge was a secret knowledge for many years. Thousands of years.

There, there was a poet called as Mārkandeya, who lived I think they say about ten thousand years back. He has described about the Kuṇḍalinī. But he has just described that She resides here and She is awakened and She passes those Chakras and all that; but not in details and not very clearly: in a very mystic language.

Now what happened in the beginning when people started their civilization, say in India, they first were faced with the nature.

Though in India nature is very kind, you can live under a tree or you can live under any shade that you can get, even in a cave; and you can be quite happy and you can eat some fruits and the climate is so good, it's not so cold and so hot and all that; so one can live very happily.

And they had solved their problems like this, some people; and they were living in the forest and they started thinking about their own existence, why are we here. And when they started thinking about it, they meditated. And in meditation they discovered lots of things.

And the thing they discovered that we have within ourselves a residual power called as Kuṇḍalinī.

And this residual power is the power which is not manifested, which is sleeping, which has created the whole of the universe that we are and yet not manifested, because it has to manifest giving you your Self-realisation. This is the power of desire within us, the desire to become one with the Spirit. And that's how they believed that there is this power that existed in all human beings and that it should be awakened.

Today I'm trying to give you the little history of this, because one by one we'll be going to the whole thing.

Now there is another group of people, who just felt that “first of all we must try to master the elements." And from these seers, they got information “to do that, you must use the fire element, worship the fire element." And they started worshipping the fire element and started doing the homa and havanas and the Vedas were written, for exciting the fire element and other elements, all the five elements.

So all the Vedas were written how to master these elements by pleasing the Deities that rule us. Even in Greece they believed that everything has a deity, like they called the Varun, we call it as the Neptune, the one who is the Lord of the sea. He is called as Poseidon, they call it Poseidon to that special Deity like that. And they believed in it that that is so.

The trouble is that that time they did not start rationalizing or sort of deducting it on this: they believed in their seers and whatever their seers told them they believed it and they started working on that; and they wanted to excite these elements.

The result of that is today's modern science. The modern science that we have got is because we have been able to master these five elements.

Now these five elements also that we have mastered, in our own freedom we might have created lots of problems for ourselves, for example we have created an atom bomb.

One can say that by mastering this, what we have done is to create an atom bomb and a neutron bomb and this bomb and that bomb. But also for your good: because once you have created it, it's sitting like a devil there.

Now you are all frightened of it and `no more wars.' Because if any more wars start, you are all going to be finished like that.

So even this devil that you have created is frightening you from there and grinning at you: “Alright, you have created me, now you'd better behave yourself." All such enterprises move in one linear direction and they recoil back.

Anything you try. Now you try to create plastic, now plastic is sitting on your head.

You don't know what to do with your plastics. You do anything like that, it comes back on you and it challenges you.

For example now we can say that when we have got everything around, I mean, in New York, you see, you have got cars, you've got... you can move about, you have got food, you have got affluence, as it is you are affluent people.

But people are running away from affluence, they have taken to countercultures, they're fed up with this, all these plastics, nylons, finished with it and now they are seeking something else, they are taking drugs and running away, they don't want to carry the junks of their parents.

They're different type of people that are born. The same thing for which they were striving so much has now bothered them so much that they are trying to run away from it.

So the reflection is built in on all these endeavours that we do with the elements, because elements cannot give you joy. No matter can give us joy.

We think it can. For example if you want to build a house, “Alright, I must build a house, I must have mortgage, I must have this, that” and you build the house. Still you are sitting miserable as if there is mourning on. What's the matter? “Now I must have a car!" Alright, you have a car. You have a car, you have a house and everything and then you want to wear torn clothes. Why? “Because now I belong to counterculture." Why did you strive so

much to have a house and a car and all that pomp and show and style and now you are going for a counterculture? Because you are not satisfied with it.

And basically economics says this very clearly, that one want is satiable and in general, in general, it is not satiable.

The wants are not satiable in general: you want to have one thing, then you want to have another thing, want to have another thing. And then you get so fed up with these monkey tricks that you want to give up.

You don't want to be monkeys anymore, had enough of it.

Like in England when I went, most of the people who came to Me, I asked them: “What are you doing?" “Mother, I'm successfully unemployed" [laughs, laughter].

There's a big cry against unemployment, Mrs. Thatcher is so much worried, that you see people are unemployed, but they are successfully unemployed! [Laughter.] They want to be unemployed! That perhaps she does not know, that they don't want to work, had enough of it, this madness, we don't want anything.

So they started running across, finding out and the time has come now for many seekers to be born, now seekers who are beyond the seeking of material life, they are fed up, they want to seek something.

At this juncture, the market started sending the news to people that “Ah, this is the place where you can make money." So the thing got flooded, specially your America,

with all the great thugs of the world to come down here and settle down nicely exploiting you. That's what it is.

So the history of these people works out this way that now they are here and we do not know what to do with ourselves and with them. But one should know that the nature has made us a human being. He has created us from amoeba to this stage for some purpose.

And if God has created this creation with such care and asked with *[UNCLEAR]* some creation, there must be some purpose.

He's not going to allow His creation to be destroyed. These days in France if you find anybody sitting on the street they are discussing that there is going to be a catastrophe; in '82, they say. And then if everything is going to be destroyed, so why worry? Better drink before that as much as you can.

So they're sitting on the streets with the bottles in their hands till they get absolutely drunk; they said “After all we are going to be destroyed in any case, so waiting for that." And they are discus... they are just worried about that.

So, they told Me that in New York they are discussing only two things. I said, “Which two things are they discussing?" One is the dollar [pronounced with o], in the American way dollar [pronounced with a] you can say and the another is the miseries and the sufferings. I said, “Really?" That's the only thing they are talking about is, one is the dollar and the subsequence *[UNCLEAR* of the evil/suffering] one has to go through [laughs].

It's most surprising how we reach a point of the proper conclusion of everything but still we do not hit the right

point. We reach a right conclusion, understanding that matter is not the thing that is going to give us joy, we have to go beyond, there's something beyond we have to achieve.

Whether you are a communist, or whether you are a capitalist, or anything, everybody knows that this is not satisfying. I've been to Russia Myself and the Russians I met they said: “But there must be something beyond this, isn't it, is not everything." Everyone of them said so, everyone of them.

So, same here; and that, when it comes to that point, then only a mass evolution has to take place. And many people have to get realisation, no doubt about it.

So on the right hand side they tried to discover all the elements and all that and they put that.

First the desire came into people that “we should do something about it." And when they found that this one [right side] is, feels little funny to work it out all the time running after matter, so they took to another style of emotional, that is devotion.

Is to surrender yourself. Surrender anything to anything, like anybody comes in and says: “Now this is what I am” alright: surrender.

Surrender your brain, surrender your understanding, surrender your logic, surrender your wisdom, everything to that and just you'll be alright.

And that's how then we found that all these incarnations who came on this Earth, a great Incarnation like Christ, great incarnation like Mohammed, great incarnation like so many other people who came in India like Rāma,

Kṛiṣhṇa and all these, they made a nice pickle out of them. They started big, huge organizations, then big huge places and... Though they were every time challenged, like I would say that papal authority was challenged by Martin Luther, who was a realised Soul, all the people who followed Martin Luther went into another extreme of licentiousness and permissiveness.

So from this end to that end and from that end to this end.

When they came on this side they became very, very, sort of ascetic and they said “Oh, we all should become nuns and we should lead a life of absolute celibacy." I don't know where Christ has said that, I don't think He could have said it that you become nuns, it is nonsensical. It is unnatural to be nuns and all that. And I mean, they look so horrid and so hot-tempered, I mean, they have no sweetness about them I mean, I don't know if you have been to convents, look at the children: they just shake when they see a nun, supposed to be a sister! [Laughter.] And they just shake and they just don't want to look at them! And these are the people in charge of God? And “going to marry Christ” of all the things that's the worst thing that you can do, is to say that you are going to marry Christ. It's something I don't know from where it came into their heads that they are marrying Christ. What right have they got to marry Christ? How are they connected with Him; I just don't understand. But all sorts of nonsense, this is the greatest nonsense that they established on this Earth. And they started huge big nunneries and huge big what you call these churches and all that.

The worst thing they did, was, to in the church to put all the dead bodies. I don't know from where did they get this idea also, I just don't understand.

In the Bible, where is it written that you build all your churches on the dead people, walk on top of them, bring all your children to those cemetreies? But all sorts of nonsense they did, in Christianity, worse and worst in Hinduism. I need not tell you about Hindus, the amount of nonsense they have done.

The person like Ādi Shañkarāchārya who came in the sixth century, in the sixth century, he's talked of nothing else but what I'm telling you.

If you read his book, any book, I don't know if they are translated; if they are translated, nothing else but what I'm telling you, that you have to become the Spirit; that you have to get realisation. Once you get realisation you get over all your jati. Jati means your aptitudes.

All this caste system were based on the aptitudes of a person, not on the prenatal system that you are born to a Brahmin you are a Brahmin; you could be a shudra born to a Brahmin.

Is an aptitude, a one who is a seeker is a Brahmin. The one who know... wants to know about the Brahma, wants to know about God is a Brahmin. Is an aptitude. It's really an aptitude, because if it was not so...

Gītā was written by Vyāsa.

Vyāsa he was a great sage and he wrote Gītā. And do you know his... I must tell you about his birth.

He was born to a lady, illegitimate child, who was just a fisherwoman. And who married another man later on.

This was Vyāsa who wrote Gītā and how can you say, in Gītā it is written, can you imagine, that your caste, your aptitude, is determined by your birth? Can you believe it? The one who is a illegitimate child, will he write like this? Luckily he was illegitimate, so today we can say that it is nonsense you have put in there. And this is, all such things have been done to all the scriptures. All the scriptures they have tried to spoil, for their own purpose.

Now, like Mohammed: Mohammed, you can't imagine how He lived. His life was misery. And people tortured Him, these mad people there. I don't know why did He take His birth there. It would have been better if He had taken birth in India, people would have respected Him. He did later on. But the way they tortured Him these nomadic people, they had no idea of God, nothing. He wanted them to know about God. He went there, they poisoned Him, they tortured Him, they've never listened to Him. And ultimately when He died, then they said that He said that “I'm the last Prophet." He might have said it also, might have said, doesn't matter; but He saw the way they were behaving and He again He incarnated. He has to, any sensible man would be a...

You see, a Mother may say, “This is the last time I'm coming to you." Last time [in 1972] I did say to Americans, “This is the last time I'm coming to you." But I had to come back, what to do? They had no sense at that time, I said, “Alright, this is the last time, I'm not coming to you." But after nine years I just couldn't help it, I said: “Alright, I must go back." Now you would say, “You are the other Mother, this cannot be the same, She had said

that She will not come back." Really, I did say. But that doesn't mean *[UNCLEAR* that I will not/I don't] come back.

In compassion and love I have to come back. Because all My children are here, lost, what am I to do? I have to come back. And that's exactly what happened about Mohammed.

And now Mr. Khomeini thinks that he is the topmost man in the kingdom of God, I mean, he's just next to God.

God knows why he doesn't say he's also Bhagawan. He could say that he is Bhagawan.

I mean, the way he is behaving you can see now clearly how fanaticism can be dangerous.

And this is what has happened in the human awareness also that people accepted whatever was told to them.

All these great incarnations are fruits or the flowers of the same living tree. But you take out the flowers from the tree and say `this is mine, this is mine,' fight *[UNCLEAR* a warry], they become ugly and die and then you say that: “Oh, this is the religion I follow, I believe." Now, what is that `I' in you that believes? We should challenge ourselves.

Now, which one is this I, Mister I, within me that believes? Everybody says, even politicians, “I believe." Now, who is this I? This I is Mister E-g-o is not your Spirit. You are not your Spirit. When you say “I believe" it is your Spirit, then it is an absolute, is the truth.

All those who are realised Souls, believe in one thing. Because they become, all of them, collectively conscious and they feel one truth.

For example if you have ten children and they are realised Souls, you ask them to put hands towards one person and say: “Now, where is wrong with this person?" They will all show the same finger [raises Her finger of left Viśhuddhi].

Same finger they will show, “It is here." Even the child, may be a six-month old, he'll put his finger in the mouth.

So Mr. Freud said this is sex, now what to do with this half-baked fellow who doesn't know anything, this Freud? Who has taken you over completely, I don't know how you got into his mess! In all kinds of messes you have been into and all sorts of cobwebs there have been.

So now the best is first get over your ego, that's the main part one has to play and you have to become your Spirit.

Now, to become your Spirit, you are beautifully made.

There is the Kuṇḍalinī, there is the Spirit in your heart. Though the seat of the Spirit is here [touches top of the head], but it resides in human beings in the heart.

Now, when the Kuṇḍalinī rises, She passes through these centers and opens the Sahasrāra.

When this was going on and the other side, the one where we were trying to sort of master the elements and on the other side we were having these devotions and surrenderings and all that, the third side, which is very important, which is the evolutionary side, was also worked out. The third side is the evolutionary side. And the third side was working out where people were working on this Kuṇḍalinī and were using it for giving realisation to others.

Now as it is you know, people are doing Haṭha Yoga very much in America. That's also another jumble.

Because Haṭha Yoga was practiced thousands of years back in India by Patanjali. Patanjali wrote about Haṭha Yoga. When we had four type of ashramas, or four periods of our lives, in which the beginning of our lives was a Brahmacharia, when you had to lead a celibate life, live with a realised Guru, there was a university which you had to join and this university was called as Gotra. Now for example My Gotra is Shandiliya. Now this was thousands of years back, My fore-fore-fore-forefathers must have studied with Shandilya Muni and even today I am Go[tra]... shandiliya.

Now, I cannot marry anybody in Shandiliya Gotra. Even today.

So can you imagine what was the celibacy.

You were not only brothers and sisters, but the descendants of that even today cannot marry. This was the condition of the university, that in a university, when the boys went after five years of age and the girls, they lived there till the age of twenty-five years and they led a life of brothers and sisters like a family, in complete celibacy.

At that time Patanjali Shāstra was useful *[UNCLEAR]*. Are these the circumstances today? It is meant for people who are not at all exposed to sex, to begin with.

Secondly, it has got ashtangas, there are eight parts. Not one, eight parts. Out of that is Yama Niyama, is one of them.

Out of Yama, one third is the exercise, one third.

So I don't know, you calculate how much part it is.

And that n-th part of this thing has become now Haṭha Yoga.

Now you start doing that exercise because for you Marylin Monroe is your heroine, or maybe Mrs Kennedy, I don't know who she is, some sort of a person; so you must develop your legs like this and hands like this and all the men are trying to reduce their waistline and doing all kinds of nonsensical things. I mean, this physical body should not be that important; on the contrary one should try to keep it clean.

Cleansing of the body is much more important; cleansing in the way that you don't do anything wrong, with your hands. You mother people and here you are trying to reduce: what's the use? There is no hole to enter into the God's kingdom where you have to have certain amount of these caricatures which can pass through.

What you have to have is a holy hand, holy feet, holy eyes, holy appearances.

It has to be holiness.

Nobody pays attention to holiness.

They all pay attention to this physical appearances. By this they have lost a lot. And that's how what happens you move too much on the right hand side, looking after your physical being which is only up to this part [right side] and what you neglect is your Spirit.

So, all such people get heart attacks. Before getting heart attacks, they get emotionally drained out.

They mostly have divorces, they see somebody, you see, they are like, we can say like fireballs; you don't touch

them. Don't go near them, even if you talk to them they may come on you like dogs and just start howling at you, you'll not know how to do it, they'll bark at you, you don't know why, why they did it; just because they are like that. They are so hot-tempered, so ego-oriented and they think no end of themselves.

And such people exist here [right side] and so-called Haṭha Yoga. There is no Yoga at all, on the contrary you run away from your Spirit. You run away from your Spirit, only you develop your ego there.

Now, here as you see clearly, there are two lines shown. One is the left side and the right side. Now this left line climbs and creates that blue thing there.

Now what is this left line is the power of desire within us.

This power of desire manifests outside the left sympathetic nervous system on the gross, but we are showing here the subtler side of our gross.

Now on the right side you have this another power which shows yellow of the bile colour, is the power of action.

So we act by our physical being and our mental being.

So is the physical and the mental, but you see English language is little funny, because when you say a mental patient, it means that something wrong on the left side.

So what I mean is that the people who work out with planning and with rationality and all that, they use this part. And the people who use this part are the people who are doing physical labor, or physical attention, or Haṭha yogi and all those people who have thinned down, be on redumption all such people are on this side.

On the other side, on the left hand side, is the power of desire. Here the people who are emotional, like who go on singing praises of Śhrī Rāma and Śhrī Kṛiṣhṇa on the street, up our Oxford Street, you see, with a thing hanging down and singing songs and shouting and spoiling their Viśhuddhi Chakra and getting cancer in the throat. They are on the left hand side.

Or the women who are extremely romantic, are emotional and always crying and weeping and troubling others and this type of people are on the left hand side.

Now this side, the left hand side, this side, is the subconscious and beyond this is the collective subconscious. And this side, is the right hand side, is our supraconscious and beyond it is collective supraconscious. Now this is in Sanskrit is called Ādi Dhaiwik [right side] and this is called as Ādi Bhautik [left side]. All these things are there but nobody has told you. Now, when you go to these fake Gurus, what they do is to push you on the left or to the right. Simple thing they do is to push you to the left or to the right. They can only do that, they cannot bring you up there, because here is the super-consciousness.

They cannot awaken your Kuṇḍalinī, they cannot raise it, so they either push you on to the left or to the right.

Now beyond a certain area, the whole of the collective consciousness... collective subconsciousness, the whole, means from the creation. Now I was surprised that doctors have found out, thank God, that the cancer is caused by some proteins, called 58 Protein, 58 and 56, they have even photographed it, who come into the system and trigger the cancer and they come from the

area which was built within us since the time of our creation, but they don't know what it is.

I mean, I have told about this ten years back that the cancer is caused by the left side movement. Now if these Gurus put you onto the left hand side, what happens? You get possessed by those proteins, we call them bhoots, are the dead spirits.

You just get possessed, that's all. You just get possessed, you see, that's why you see if a false Guru is there, there are fifty thousand people just mad, going like this, foolish, stupid people, don't understand anything what they are doing, or what they have to achieve, if they know, or there is nothing like finding out anything, no discrimination, like silly useless lunatics they move.

And they think: “Oh, we've got the knowledge." Now, what knowledge have you got? If you ask them, “What's the knowledge? Can you say what's wrong with this gentleman? Can you say what's wrong with you? You know where are you, where is your Kuṇḍalinī?" “Oh, we don't believe in anything, we just believe in our Guru." Now what do you believe in Guru, he's going to go to hell direct and you are going to follow him, that's what it is. They are becoming mad, absolutely mad people, recluses.

There is one group of people who paid three thousand pound for flying in the air. Alright? Three thousand pound, to fly in the air, I mean, I, yesterday I said that put your Guru on the Leaning Tower of Pisa, it was built for that only; and throw him down and see if he can fly [laughs]. If he can fly then alright, you can pay three thousand pounds to him.

And then ultimately they end up as recluses.

So much so that if you show them a garlic, a little bagged up garlic, they are frightened. Can you imagine, you get frightened of the vegetables? [Laughter.] I mean, not even of animals but of vegetables and you think you are achieving a flying trick! Such stupidity exists, that they go on falling into it and falling into it.

And you are saints! You are chosen ones! You are great people, you have to achieve your Self. You don't understand, you have no self-esteem, that you give away to these horrible people who are nothing but devils! You can see it so clearly writ large on their faces. They are not going to talk against them. Many people tell Me, “Mother, why do You criticise them?" I said: “I will hundred times criticise them." Let them come and face Me. None of them have put, filed a suit against Me, I've talked about them with names, nobody has filed a suit against Me, they dare not. Because I'll expose them very nicely. And these people have not only ruined your Kuṇḍalinī, all chances of your realisation, but they have made you mad! So many people are epileptic.

So many people are going to lunatic asylum. They are getting mad. And these people are supposed to be in charge of your spiritual evolution! One must understand that when you become something higher, you'll have a higher level-headedness.

You have to be master of yourself. Like if somebody starts jumping on the seat that means he's not in his own control, I mean, somebody is making him jump.

You should be able to guide the whole thing, like I would say in a car we have a brake and an accelerator.

Two powers.

So this is the brake and this is the accelerator, you are trying to use it, you are balancing it.

You are balancing it, you are trying to learn.

Now you go to the left and right and you do all kinds of mistakes, alright. Then you learn it, you become a driver.

Once you become the driver, the master who is sitting behind you, gives you the seat of a master. You become the master.

And that's what one should do, is to become the master. But supposing you are sitting in the car and your car takes you wherever it feels like; then are you the master of the car, or the car is master of you? These people are so authoritarian, they put authority on you, they make you feel that you are nothing.

Now you ask them: “What is your authority?" But how can you ask, because they have taken away your authority.

In Sahaja Yoga you become your authority. You become your absolute, you become your Spirit. And then you judge others. And this is what it is, that you have to become masters yourself.

I mean, these people are not equal to the dust of your feet. This is what it is. In the eyes of God.

They take money from you and live on that, parasites, of the worst type, are these Lamas! They were parasites of these Tibetan people, poor people; they used to get money from them and live in Lhasa very nicely. Very `great' people and having now in what, Gobi desert that Skambhala or Shambhala nonsense of that; let them all

go to Gobi! [Laughter.] Let them live there, that is the place meant for such people.

They have taken money from the poor people, exploited them and here like parasites living on them.

What work are they doing? They are doing no work and they are the people who can show you how parasites are.

Now supposing if I tell you that you come and live with Me free of cost: will you accept? Anyone of you? They take money from you, there's another fellow who has got fifty-eight Rolls-Royces, one who has fifty-nine Rolls-Royces. And you don't understand! That you cannot give metal and get the Spirit. You have to achieve your own Spirit. It has to happen to you. You have to become the Spirit. And the third force [central channel] is your evolutionary force. Is the evolutionary force within us which is the sustaining force, by which we are sustained.

Like carbon has four valences. Carbon is here [shows Mūlādhāra on Chakra Chart]. At this time the carbon was created with four valences, you see here. It's a tetravalent. But in the gross it is carbon, but in the subtle it is innocence.

In the subtle it is the innocence. Matter is innocent; if you hit it, it will hit you back. If you don't hit it, it will not hit you.

So the innocence, the embodiment of innocence, is here. And this Chakra is the embodiment of innocence and the Deity of that is called as Śhrī Gaṇeśh, who incarnated later on as the Embodiment of innocence, was Christ our Lord, at that center where is the Āgñyā Chakra.

Now imagine, the One who is the embodiment of innocence, these horrible nuns are trying to marry Him! Will an innocent man marry? He doesn't know marriage, He doesn't know sex, He's beyond these things! He's not a human being, He is Omkāra! He's Praṇava! He is the Divine power. How can He marry these women? These women, with their baser things, they want to sublimate it and say that “We want to marry Him." If they want to marry they should marry human beings, they cannot marry God! And that is what He is, Christ. And the Christ's Advent is very important in the history of our evolution.

If I talk about Christ to Indians they say “You are trying to make us Christians." If I talk to you about Śhrī Kṛiṣhṇa you will say I am trying to make you Hindus. It's a very funny world, I must say.

Christ has said: “Those who are not against Me, are with Me." Who are those? You didn't allow Him to speak! Hardly you allowed Him to live for three years and you crucified Him! He rode the donkeys and I think all these donkeys have become now Christians. That was the symbol, that they crucified Him; and today again they are crucifying Him by not accepting that they must have their Spirit. They are to be born again.

Now, they are to be born again means what? You certify “I am born again"? I mean, how can you certify yourself “I'm born again"? Is artificial! Like this, we have made a mess of all of these great Incarnations.

Still Christ has said: “Everything can be forgiven." And it's true. Everything can be forgiven, all your sins can be

forgiven, everything can be forgiven, but become the Spirit.

If you don't become the Spirit, then the dead will go to dead. Spirit is the only living thing and Spirit is the only thing you should achieve and that you should become, the rest of it is all mithya, is all falsehood, is all fake.

Spirit emits the Brahma, the power, the Cool Breeze of the Holy Ghost as they call it. That is the Spirit within you that emits and that's what you should achieve, which organizes, which thinks, which acts, which works out everything that has to be done and also with love. The whole thing put together is nothing but love. But love that only emits, which doesn't receive anything. It doesn't receive anything, I mean, if you want to hit Me also I'll not receive it. I will not receive anything whatsoever you want to do to Me, that's what it is.

And that should happen to all of you, that you should not become anymore recipient of all these nonsensical things, but just manifesting your love to others. That should happen to every seeker.

And once that happens, you reach that state which I described yesterday as Nirvikalpa Samādhi. That Samādhi must come, that awareness, enlightened awareness you must have, you must achieve that.

In Sahaja Yoga one has to understand that it is your own progress which is important and the progress of the whole that is important. It's not only your own progress, but the whole, the collectivity, specially, as he has said, that at Viśhuddhi Chakra, here is the point of our evolution where we raised our head.

Yesterday I told you that when we raised our head from animal kingdom we took up the responsibility upon ourselves and that Chakra is nothing else but your great country, America.

You have been talking big, no doubt, you think you are going to solve the problem of the whole world, everywhere you go and meddle with. Like Vietnam, here, there and that. And then you receive the bad things, you've done a mistake. If you had achieved your Spirit, then you don't have to go anywhere, sitting here you can solve the problems. The All-pervading power with which you are connected, you'll be amazed, works out instantaneously. Sitting down here you can work it out. Only one thing it cannot do: there it is helpless. And that's a point I come before you with a folded hands.

That is you have got your freedom to choose. If you are egoistical, if you are superego means you are possessed, you will not choose it.

So with your own freedom, with your free will, you have to choose it.

And if you have chosen it with your free will, it can happen to you, otherwise it will not. Because your freedom has to be respected, you have to enter into the kingdom of God, you have to become absolutely free citizens of that great freedom [kingdom]. And if your freedom is not respected you cannot enter in.

So first thing your freedom has to be respected, if you don't want it you cannot get it.

I cannot force on you, nobody can force it on you, nobody would like to do it. It is you you have to ask for it.

That's why He said: “Seek." Christ has said: “You have to seek." If you seek, if you ask for it, you'll get it. You have to knock. If you do not knock, the door won't open. Door should open for us, everybody thinks `While sitting down here we should get it', no. You have to ask for it. Then only you can enter into the kingdom of God.

Imagine a person who is a slave: will you make him the king? We have to free from our ego and from our superego, that's why Christ is sitting down there at that point, where you enter into the kingdom of God which is the limbic area, on top there.

When you awaken Christ, He sucks your ego and superego, all your Karmas and your ego, all your conditionings and all your ambitions.

Everything sucked in, by sucking that only you get this portion opened out which is called as the fontanelle bone area and you get the Cool Breeze coming out and many people have felt it yesterday.

This is what it was said, that Christ should be awakened within us, He should be born within us, by which He sucks in.

I wish Christians had carried this message properly to Indians. They did not.

They gave such a funny idea about Christ that they put a loaf, imagine, loaf in the well and said, “This is the meat of a cow." And they can't eat the cow's meat, so you all have become Christians.

Like that villages after villages became Christians, imagine what a message of Christ they gave to people.

If they had told about this, then people would have known that the One who is promised as Mahāviṣhṇu, who is going to come on this earth to take away all our Karmas and all that, people would have taken to another course. But it never came.

So still they are, poor things, are plodding with their Karmas and here the Gurus are coming and telling you that you have to get over your Karmas. Imagine.

Now what are these Gurus paid for, then? If you have to do... Anything happens, they say: “It is your Karmas!" Then why are you paid for? You are taking all our money, everything from here and having big huge places for yourself and where we are suffering here under pressures and all kinds of things. And you are telling us that this is because of “your Karmas." If it is so, what is the need you to be there? So this is what one has to understand, the general history of these three things I told you: one is the power of desire, we call it as the Mahākālī power. Mahākālī power.

This is the another power, is the power of action which is Kriya Shakti, actually this is called as Icchā Shakti and Kriya Shakti but in our language, in Sahaja Yoga language, called as Mahākālī, this is called as Mahāsaraswatī.

And this as Mahālakṣhmī. Mahālakṣhmī is the power of evolution. And Christ's Mother was the Incarnation of Mahālakṣhmī power.

And how and why, that I will tell you later on, when I'll come to this by Chakras and Chakras. I hope they have been able to follow My lecture and I've been able to

explain, but if there is no explanation and if you want to know about something, you can ask Me.

May God bless you.

Lady: [asks an inaudible question and mentions about Freud].

Shri Mataji: I know. Where's this Freud, you see, your great Mr. Freud. Must be another devil, I must say, to put this idea. He didn't know anything, he had no business to talk about it, he was most unauthorized person. What did he know? He didn't know anything, you read his book and... Find Jung thousand time better. Jung something knew about it, you see, he got his realisation also.

This fellow, Freud, he died of cancer.

When you see his dying of cancer at least don't follow him. But you all have become Freudians. In London there are only twelve Jungians. You see? And all of them are Jews, so they don't believe in Christ.

So how can you talk to them? Jews don't believe in Christ. Why? And that's why they wanted to suffer.

Alright, so you had suffering, had it. Now will you believe in Christ or not? They want to suffer, alright, have it. They asked for it. For eleven years this thing was growing up, this racialism in Germany, if you read the history of Germany, it's most surprising.

And these Germans used to kill the Jews, do this, “Oh, we have to suffer” among themselves they used to say. If somebody's killed they would never protest, for eleven years. Then, then Hitler came into power, afterwards. And then he started doing all these things, for eleven years they were trying to suffer.

Now they had a real, right, `royal' suffering. That's what they had. Still if you meet a Jew he'll still say “I don't believe in Christ." Who are you not to believe in him? Warren: Many children suck their thumbs now?

Shri Mataji: Ah, that, this thumb [left thumb] they suck because you are catching on the left Swādhiṣhṭhāna. If you go to some horrible Guru, they will start, poor things, sucking this thumb.

Means left Swādhiṣhṭhāna. You are going to some unauthorized person, the child may be a realised Soul and he'll start sucking his thumb.

We give so much trouble to our children, we have no idea. And now so many realised Souls are going to be born. There are, so many and to our Sahaja Yogis... now Gavin has a daughter, her name is?

Sahaja Yogi: Olympia.

Shri Mataji: Olympia, because I went to Olympics before that, you see. And so when I came back I gave her the name Olympia. And if you see her, she's a tremendous child. Tremendous child. If she was here, she would not allow Me to speak, I have to take her in My lap and speak to you. Have you got a photograph? The green? Eh? Alright. My purse is not there...

So many children are born. There's another one, when I went to Greece there was another child was born, Athena. And so many; there's another one who is called as Dattātreya. We have so many now in England, born realised. And they know. They get after people, you see, they work. We have lots of people, about ten or twelve children sitting down and lots of people and they help Me, they are around Me and they tell Me: “Here it is."

They go on hitting and they start improving the Chakras and giving bandhans and all that and they work it out so well, they know so much.

My own grandchildren, four of them, are first class realised Souls. First class. Absolutely top class people.

Some very great souls. Very great souls and they are so simple and they understand things so well.

Like the younger one, she's the youngest was about three years of age and she was going to some nursery school and she brought a paper, imagine, in a little children's school, they sent a paper, saying that there's a course on for youth, for your transformation.

So she brought the thing and she said: “What is written in this thing?" I said: “You can change if you join this course for hundred rupees, you have to go to a hotel." So this little one says: “How can that be possible? By paying hundred rupees you cannot just do it! The Kuṇḍalinī must be awakened, otherwise how can you? Kuṇḍalinī doesn't understand money!" The little one says, three-year-old. The elder one says: “But by doing a course, if you can do it, My father has done fourteen courses, his Kuṇḍalinī's not yet risen." Just see, how simple it is for them to see. But you cannot see. Is your ego, you have over-developed ego, you think you can study. You mean to say people who are not educated are not going to get realisation? Is a living, living thing. Do we study for our breathing? Imagine we have to go to library to understand how to breathe: what will happen to all of us? We'll never reach the library! [Laughter, laughs.] Yes?

Seeker: Mother, I think, you know, yesterday something very, I can't understand, but was very nice, very good

happened and I would like to do it, what to do? I didn't come today to the workshop, but how can I find out? Shri Mataji [laughs]: I mean, if you don't come to the workshop.

Seeker: I will come.

Shri Mataji: What should I do?

Seeker: Can I try again? I'm coming here? Shri Mataji [laughs]: Now, I would say. Put your willpower. What I'm saying, put your willpower.

I'm here only for five days, not more than that; now only four days.

Now, make best use of Me, what else can I say? Alright? I am staying in that hotel because of you, alright, that you could come and see Me in the morning time.

Those who came, ask Herman *[UNCLEAR]*: how much he was helped, how much he learnt. How will you learn unless and until you come to Me? Alright? You must come; put little willpower. You see, supposing I had taken hundred dollars from you: you would have come. Definitely, I know American temperament. [Laughter.] You see, I asked them why they do it. You see they said it's like this: you buy a ticket for a picture, or say for a play, alright? And the play is horrible, but you say “we paid, so let us sit down." You paid for it, you see, everything is paid for, is paid for: that's why. But you cannot pay Me and you cannot buy Me.

But you must tell yourself, that `If I am a realised Soul, I should know all about it.' Alright? Put in your willpower. Put in your willpower. Because I cannot mesmerize you and I cannot force you.

Here all those who came to Me this morning were very much helped and you are much better now.

Ask anyone of them, how much happier they are.

Some people who had a very bad back and all that, I cured them and somebody had a pain here [touches neck], I cured him; everybody was helped, no doubt. Everybody was helped very much. Those who didn't come would be lagging in their progress, definitely, no doubt about it.

Seeker: *[UNCLEAR]*.

Warren: Yes. We'll make an announcement at the end of the program precisely where you should come.

Shri Mataji: Yes, yes of course. I'm sticking onto that place. I'm not getting out at all. Actually they lock Me in. [Laughter.] And they keep somebody to watch Me, I may disappear you see, in the thin air, so I'm just there for you, waiting for you. I've come all the way for you only, isn't it. What have I got to do in this New York the great? Yes?

Seeker: *[UNCLEAR]*.

Warren [repeats it to Shri Mataji]: He's saying that “I said I had problems with my Chakras, other people who have trouble with can you help them?"

Shri Mataji: Of course; you can also help yourself and I can help you also and you will know everything about it; everything you will know.

You see, if I know what's there? If I have all the powers what's there? Why should you believe in Me? You should have your own powers. This is simple. Alright? Any other questions? They are very positive people, I must say.

Seeker: [asks a question about people doing Prāṇāyāma to raise Kuṇḍalinī.]

Shri Mataji: You cannot do it by effort.

It's not, is not correct. On the contrary Prāṇāyāma gives you sinus problems. And so many other problems. Then this Haṁsa Chakra gets caught with the Prāṇāyāma. This is a very bad Chakra which once caught it's very difficult to correct.

Seeker: How about meditation? Do you feel it's good to meditate?

Shri Mataji: You cannot `do' meditation, you have to be in meditation.

Once it happens, you are there, you are in thoughtless awareness, you are watching everything like a witness. The whole thing looks like a drama.

Seeker: It seems to come and go, sometimes meditation comes and then it's not there and it varies *[UNCLEAR]*.

Shri Mataji: It cannot be; if you know everything about Kuṇḍalinī and if your Kuṇḍalinī is really done, then it does its workout, in the beginning you have to be carefully for a month only. For a month you have to give little intensive care; and then it's all right. It's like a patient coming out of intensive care.

But you have to treat yourself first of all like a patient. Look after yourself, put full effort to understand everything, cure yourself and you are all right. But put some willpower, you see.

You should have come. I asked them, what about the boy who wanted to get married? I could have got you a bride today [laughs loud, general laughter].

Alright, but now you might miss the point! [Laughs loud.] Yes My child? Lady: [says that she felt very angry about the comment about the Jews].

Shri Mataji: About whom? Lady: About the Jews.

Shri Mataji: You should not be angry with Me.

Lady: No, I want to tell you what happened. I am not angry with You...

Shri Mataji: Alright.

Lady: [tells about her ancestors who were poor, had no money and didn't know what was going on.]

Shri Mataji: I know, I know.

Lady: Anyway and I believed in the Christ's Spirit, that I must believe in Jesus Christ.

Shri Mataji: How can you treat that? Alright we'll see, alright we'll see.

Lady: *[UNCLEAR]*.

Shri Mataji: No, not, it's not... it's true, I was also a Jew once upon a time, for your information.

Seeker: What?

Shri Mataji: I was also a Jew in one of My lives. Alright? And I was sympathies with them, but they are foolish to say that they should suffer: why should they suffer? Lady: Suffering is ridiculous.

Shri Mataji: Alright, alright. Then they say that “We don't believe in Christ": what right have they got to say so? They have to believe, because Christ was a Jew Himself. You know, I was born in an Indian Christian family in India. No Indian Christian believes in Me. You'll be surprised, not a single Indian Christian. All are Muslims, Hindus, Jains, Parsis, everybody. You will believe Me or

Americans, but Indian Christians don't believe in Me. That's what.

Seeker: Indian Christians don't believe in You.

Shri Mataji: No.

Warren: That's what She's talking about.

Shri Mataji: I couldn't believe it! They are the only people who don't believe in Me.

Gentleman: They are too close. Too close.

Shri Mataji: Eh?

Seeker: Too close.

Shri Mataji: It's jealousy, I think. I don't know what it is. It's funny. But if I was, say, if I was the President of India, they would have been all very close to Me. My nearest relations would have been there.

You see, because then they think materially they can have advantage.

But believing in Me for them is very difficult. Except for My own brothers and sisters, because they know Me from My childhood. And My father himself and My mother. I don't think any Indian Christian really believes in Me. There are people who have cast My horoscope and he said: “You are tremendous I mean, just can't believe it that this is Your horoscope" and all that, but he cannot believe in Me.

See, there's still a barrier, because he's an Indian Christian. Perhaps they think to be Indian Christian is very low and how can I be something so great? Maybe that, or they don't believe in themselves, I don't know what it is. But it's a fact. And that's why Jews did not believe in Christ.

And even today they are trying very funny things, like there was a questionnaire, I will tell you, in London; the Jews are trying you see, they have money, so they told the Times people to put some sort of an article against Christ.

And what they said was that in the Bible it was said that a girl is going to give birth to Christ according to the Hebrew language, but not a Virgin. Now, in those days, girl meant a virgin; even today in India `kanya' means a virgin and also means a girl.

Means they didn't have eighty-year-old girls as we have in America [laughter] in those days, you see.

And it means that. And now another logical thing one can see that if the girl was not going to give birth, then is a man going to give birth? Why did they say “girl” if it was just a woman, why did they say particularly girl? Such absurd things about this shroud of Christ also, they created another controversy for nothing at all, that the shroud of Christ. It is His shroud, no doubt, but when He died, He was tied with it, means from both the sides it was pulled out, so very longish face and all that, He was not that longish type of a person.

And because you see after all the colour is smearing, is part of the body, it cannot be three-dimensional, so it looks very thin and sickly and pulled out stuff.

It is His shroud, no doubt, but this was the shroud that was, that covered Him when He was just taken out and was covered and put in the grave.

Now they are saying this was the shroud they used, is a proof that He was taken and smuggled into another country and He never resurrected.

This is the speciality of these Jews they are establishing now. I said, “Now, anybody who has common sense if they have to smuggle a body from one country to another, will they cover it with a shroud which has got all the bloodstains on it?" Think of these people how they are after Christ.

They talk of Yehowa, who is an abstract God and they are the grossest people, I can tell you, they think of money, money, money, money, five times.

They talk of the abstract, now we have many, many Sahaja Yogis who are Jews.

Seeker: [asks to repeat].

Shri Mataji: Sahaja Yogis who are Jews. And they feel it. And they feel so worried, so worried, two of them had come here, now they have gone away, about their parents and about other people, what's going to happen to these people.

They see, because Christ exists there [points to Āgñyā], I can prove it to you on Kuṇḍalinī. I'll prove it to you on Kuṇḍalinī, Kuṇḍalinī won't rise unless and until you accept Jesus Christ Himself, nobody else but Jesus Christ, I'll prove it to you.

Seeker: [something like I accept this theory].

Shri Mataji: No, no, this you are accepting at this level. Is not the point.

At that level you'll accept. At that level when you'll become the Spirit. At this level, whatever you are accepting is your own concept, because you are born as a Jew.

If you were born as a Christian, you would have been: “I'm Jesus Christ." There are many like that, who are saying like that. There's one gentleman who is saying “I'm Jesus Christ" now. I said, “Put him on the water." [Laughter.] Can he walk? Just let him walk, one foot up and one foot down! [Laughter.] It's very simple, you know, to believe into anything.

Khomeini believes he is God himself.

I mean, how can you say that? There is nothing absolute about it, you have to find the absolute.

Alright? When you find your absolute, then you should say: “This is the truth” not believe. Alright? Many Jews now have become Sahaja Yogis, they have become the Spirit.

Lady: I haven't yet *[UNCLEAR]*.

Shri Mataji: No, no, I'm just telling you that many Jews have become and they are following it up and understanding.

You are nothing, you are the Spirit, I know that, I see you are the Spirit, but you have to become that.

Spirit has to come in your awareness, it has to come in your central nervous system, it exists, I see that, clearly.

Lady: *[UNCLEAR]*.

Warren [repeats to Shri Mataji]: She is asking for You to comment on child abuse and all the dreadful things that happen and she is wondering why, if there are so many of these young children who are realised Souls, why do they suffer so much?

Shri Mataji: You see, in these countries, only the extremely highly developed people will be born, or the

absolutely the most negative, the anti-Christ will be born. The mediocres are not going to take birth in this country, where the children are treated like this. They'll be born in India. That's why we are having population problem!

Seeker: [says something, probably abuse, that happened to her when she was ten years old].

Shri Mataji: That's why you see why we have a population problem in India: because you ill-treat your children! And the children don't want to be born here. In England a radio fellow came and asked Me, as usual sinister, as usual, he asked Me that: “What about your population problem?" I said, “You are responsible, I'm sorry for that." He said, “How are we responsible?" I said: “In England two children are killed every week, statistically; which sane child would be born in that horrible country, except for somebody who is of a very *[UNCLEAR* dervish] temperament, dynamic, who'll come and put them right?" And these children are born to take over, let them grow. They'll teach them all of them a lesson.

[To the lady seeker:] Don't you worry. You'll pass through all that. You'll overcome that.

Seeker: *[UNCLEAR]*.

Shri Mataji: I know they are Satanic. I know they are Satanic. They are Satanic people. But they'll be put right. Don't you worry.

These children will surpass them. They are great. They are dynamic. They are special people. Don't you worry about them. They'll be all looked after. They'll get over it.

Warren: Any other questions or shall we have it now? The thing is to get it. And then the questions get answered.

Shri Mataji [to somebody]: Now what about your `bhagawan'? Better take out from your dresses.

Better take it out. This is no, no...

Warren: Take it off. It's going to absorb vibrations and stop your Kuṇḍalinī from rising.

Shri Mataji: Absolutely you'll feel so hot in the beginning only. You'll feel terribly hot.

Seeker: Bhagawan once was my Guru, but then I left.

Shri Mataji: But you better leave him!

Seeker:... wear the beads, what about it?

Shri Mataji: Why? No, no no! Beads also, no no, nothing, nothing, anything that you might from him, throw it away in the sea! Horrible fellow he's already finished.

Seeker: Yes? Tell me something about Bhagawan, who is he? [Laughter, laughs.]

Shri Mataji: Tomorrow [laughter] I'll tell him who he is.

Seeker: [says something about America].

Shri Mataji: You Americans are very, very liberal people, you have asked all the anti-Christ to come and settle down here. And their vibrations are going to explode and all earthquakes are going to come in this country if you don't throw them away. Your media is not going to listen to Me, they don't want to come to Me and listen to this. This country will be destroyed, you take it from Me. You give them ranches and all that.

Seeker: [says it was bought].

Shri Mataji: He bought it?

Seeker: [asks about the beads].

Shri Mataji: Nothing, nothing, you give up this dirty cloth! Horrible, everything is horrible, very bad vibrations. I'll tell you tomorrow who he is. Alright? All of them were devils, very well known to Me, long time back. About fourteen thousand years back I knew them. One better than the other.

Seeker: He's a devil?

Shri Mataji: He is a devil. Can't you see? What is holiness in him? His whole ashram is gutted and all that, finished. Indians never liked him.

Lady: *[UNCLEAR]*.

Shri Mataji: You can see the pulsation of the Kuṇḍalinī, you can see the rising of the Kuṇḍalinī, you can feel the pulsation on your fontanelle bone here [touches the fontanelle bone area]. Then when the pulsation stops, then you see the Cool Breeze coming out, you can feel it. You see, you should feel.

Lady: [continues and asks if one can feel the devil or the spirit in another person].

Shri Mataji: Yes, you can also feel it. Everyone will feel it. There is no devil in you, none of you: you are all saints. But the trouble is these devils have put some spirits in you, you are possessed. Which you have to cleanse. That you will yourself feel.

Gentleman: My whole body here I felt very hot, my whole body was very hot.

Shri Mataji: I know.

Seeker: And it was cool out.

Shri Mataji: That's it, that's it. Coming to Me you'll feel hot even, I told you, that you better change this dress of yours next time.

Seeker: This colour?

Shri Mataji: Horrible colour this one is, why to announce it?

Seeker: What?

Shri Mataji: Why to announce that you are a Sannyāsī? If you are you are, you don't announce it, do you?

Seeker: You don't need to wear this colour? You should not wear this colour?

Shri Mataji: Throw it away! Throw away all his books, throw away his photographs, throw away everything!

Seeker: But the colour is not Bhagawan, the colour is God. Isn't it?

Shri Mataji: No, no. This colour symbolizes something, na? It symbolizes someone. It's a symbol.

And that gives you, gives you bad vibrations. It does, it does. Moreover, I am deadly against this colour from the very beginning, which I'll tell you tomorrow. Red is first class.

Seeker: Red, not orange?

Shri Mataji: Red one, not orange.

Seeker: I see.

Shri Mataji: Alright? Warren: You'll know that the orange people, all over the world, buy that dress.

Shri Mataji: You don't know. The other day somebody came to Me, he said: “Mother, I have to make one prayer to You": I said, “What?" He said: “Please save all the orange people." I said: “Who are these orange ones?"

Then he said: “These Bhagawans." Bhagawan! Bhagawan can't even smell a flower! Imagine the Bhagawan! In the books of the Viṣhṇu is written He is the one who is fond of flowers. The Goddess is the fond of flowers, She's the one who is fond of lotus. She sits in the lotus, She can't live without the flowers, I can't exist without flowers! And this fellow is, have you ever heard any saintly person to take flowers for that person? Can't you see that? What he wants is gutters, he can't bear the perfumes, he must have gutters.

Dirty fellow he is. Send him to some bathroom and dump him down there. He's already gone to his doom, don't you worry. Horrible dirty, filthy man. Useless.

[To Warren:] You must show them this film: have you got it? Oh, you must see.

Warren: It shows all the nonsense and horrible stuff going on in the ashram.

Shri Mataji: You must see.

Warren: The film was called `The God who has fled'.

Shri Mataji: `The God who has fled'.

Warren: He ran away from India and now he's hiding somewhere near the desert.

Shri Mataji: And your media has even got time to come and see that! You see, what to do with these horrible media that you have here? But the best part of it they published the advertisement, somebody told Me, in the Time magazine of London and you know Time magazine is closed permanently. Is closed.

They are inauspicious people. These clothes are inauspicious. I hope I'll be able to give realisation but with these clothes I don't know. I don't know.

Lady: *[UNCLEAR]*.

Warren [repeats]: What about praying for somebody who is false?

Shri Mataji: You see, when you are praying, to whom are you praying? To God, alright? You should be first connected or not? We are praying without our connection, like we are telephoning without the connection established, we spoil that telephone also. Better first when you are connected, then even if you say it once it works out. But you should be connected. You must enter into the kingdom of God.

For example I am not an American citizen, I have no right as an American citizen, isn't it? You have to become the citizen of God's kingdom, then you have every right to ask for anything, otherwise you have no right.

Unless and until you become a Spirit, you don't have any right, whatever you may say. And if you say: “I'm that, I'm that” people will put you in the jail. That's what it is. You have to become. Then the prayer has meaning.

Kṛiṣhṇa has said clearly that should be Ananya Bhakti . Ananya means when there is not the other, when you are connected; that should be the time when you can worship.

But I see the Hare Rāma people, till they get their throat cancer, they are busy with that: what am I to do? They are not called orange: they are called what? Skinheads [laughter]. [Laughs.] And they are selling in the market

that stuff, you know, which they wear here [mimes a sort of ponytail behind the head]. And they put that down, like a little hair coming out here you see.

Warren: Like a wig.

Shri Mataji: Wig. Is a special wig, Hare Rāma wig. And they dance in that Oxford Circus and it's shameful to see their, they wear those saris and dhotis and everything falls down and they are dancing like mad, “We are mad in the love of Śhrī Kṛiṣhṇa." Imagine. What a caricature. And their Guru used to look like one of our jockeys called Lester Piggott: have you seen his face? Imagine worshipping Śhrī Kṛiṣhṇa looking like that.

Actually Viśhuddhi gives you a face, a special face, Viśhuddhi should. But the face he had was all kinds of wrinkles all over, all over the places, just like Leslie Piggott.

He could be a good jockey but he's died now. Is the person calling himself as “God's devotee." Imagine, a shame for God also to have such devotees who are TB patients.

Seeker: Are other Gurus today negative like Sāi Baba?

Shri Mataji: Which one, this with the hair? He is horrible, he is a big devil.

Seeker: [pronounces another name Meher Baba].

Ah, horrible. There are real Gurus also, I wouldn't say that they are all horrible. They are in the market. The real ones are there, many are there, but they are not in the market. One of them I asked him to come here, he stayed in New York only for two days and ran away. He wouldn't stay here.

But they are very hard taskmasters. There are. And you will become: why are you worried about anybody else? You are going to become even better Gurus than they are.

Lady: *[UNCLEAR]*.

Shri Mataji [to Warren]: About what? Warren: Rāmāna Maharishi.

Shri Mataji [smiling]: He was a realised Soul.

Warren: He was a realised Soul.

Shri Mataji: No doubt. That's true, but not his disciples, are horrid. No, he was a realised Soul, like Christ Himself was an incarnation Himself, but His disciples, the Christians, God save us from them.

Lady: What about Ramakrishna?

Shri Mataji: Not at all, he was not a realised Soul. He was a seeker like you. But he, how he did everything it was too much.

I mean, what was the need to cry like this all the time like a madman, he was dancing and all that? There was no need to do all this drama, I think he was a very dramatic.

Seeker: His was more like a devotional style. Too much left.

Shri Mataji: Too much left. Nonsense. You know, God must have [been] fed up with such people.

Like My granddaughter: we had a, in the neighbourhood there was a temple. And they were dancing and singing like that.

So she told Me: “Grandma, you see, God must have already run away from that temple no doubt, now I'm

going to run away, I'm fed up of these people." You know, you should not pester God also like this. This is too much. And what right have you got? One thing is that, supposing if I want to meet your President, supposing, I even want to meet your President I must have a proper protocol. I just cannot go and start shouting: “Oh President, oh President” as if he is in My pocket. In the same way this is nonsense, absolute nonsense. You can see yourself.

Ramakrishna ashram people mostly dying of cancer, I must say. Cancer. Cancer has taken over, I must say, I'm sorry, but at least I must have seen at least hundred cases, at least hundred cases from that, who are coming with cancer. I mean, he's left-sided.

And this Satya Sāi Baba, this devil, the real one was there, Shirdi Sāi Nāth was real. But the second one, the one who is, he gives you heart attacks.

Lady: May I ask You about Śhrī Aurobindo? Warren: Aurobindo.

Shri Mataji: What do you think? Lady: [says she was a visitor of his ashram but she got very bad vibrations.] [Shri Mataji laughs.] Warren: That's your answer.

Shri Mataji: That French woman of his, was a drunkard. The French woman he had was a drunkard.

And she used to collect nothing but diamonds. And she had such big huge diamonds. And she was going to become young after some time. God knows what happened to her now, she's finished.

And they used to say, if you have to come to their ashram, then you must give all your assets to these

`Johnnies', Aurobindo and his mother or whatever relationship they had, all nonsense.

Lady: [continues by saying she felt terrible].

Shri Mataji: That's what it is! Warren: This means you are a seeker and you are becoming aware of the negativity.

Shri Mataji: Horrible they are. Absolutely horrible people. They make you mad.

Seeker: [says that Bhagawan will make you crazy]. [Shri Mataji laughs aloud, laughter.] [He says every part of his body became in flames and he almost died. He had the pain for three years].

Shri Mataji: I mean, this is nothing.

He has given blisters to people all over. Ask your people, *[UNCLEAR]*, all of you should really write to your newspapers and things and ask them, “What are you doing about this man?" How can he buy anything? You should prohibit.

In India why doesn't he buy anything? He can't. He can't. The government just put down their foot.

Lady: The more realised that you become, do you become like doctors?

Shri Mataji: Of course, of course, the doctors have no place there, you save all your money from the doctors and all that. You become the doctor! You should become more healthy, you should become more wise, you should become more alert, you should become more dynamic, you should become control over everyone else. See? No more you are greedy. I mean, it's a different thing, your priorities change completely. That's what you deserve.

That's what you are. That's what you should have. You have earned it! This is your bank balance I'm telling you about. I'm here just to sign your checks. [Laughter.] If you have the bank balance. That's what you are.

Gentleman: What is Your role in helping one realise himself?

Shri Mataji: What is My? Warren [repeats]: What is your role in all this, in helping one realise oneself?

Shri Mataji: I don't know what is My role is. I don't know.

Seeker [continues]: What do you do to make it rise, the Kuṇḍalinī?

Shri Mataji: I don't do anything either.

Warren: You'll find out yourself after...

Shri Mataji: No no no, I'll tell you what. Is simple: now, will you ask the sun `what is your role'? It is the sun, it has to do it, just do it.

You better do it. What can you do, it's your nature! It's My nature, I mean, there's no role as such, it's nature. What can I do: it just happens! [Laughter, smiles.] I enjoy, I enjoy. I want to share My enjoyment. You are My children, I have to give it to you. Is My love, I enjoy My love: that's all. It's rather difficult to understand a person like that, isn't it? [Smiles.] But there is One: can be One like that. In all this mess there can be One like that, who just does it out of love. That's, that's, it's just love and compassion. Is ocean of compassion. I can't get over it, I'm sorry. [Laughter.] I have a very good husband, very good family, I'm a very happily married woman, everything is there, but without you I cannot enjoy life: cannot.

You all have to get it, it's My job, it's My mission, it's, that's how I'm here, that's how I'm created.

I'm just made for this.

I'm fixed for it, in American language [laughter].

Or we can say: all set for it. Alright? There's no role, nothing: it's just I'm set, I have to do it.

Gentleman: [asks if there is a method to make the Kuṇḍalinī rise].

Shri Mataji: No method, no thing.

As far as... there's a Divine method, you see, which cannot be explained, in ordinary words, like you cannot explain how a flower becomes a fruit. Alright? But I raise your Kuṇḍalinī by My own raising.

Seeker: Beg Your pardon?

Shri Mataji: By raising My own Kuṇḍalinī. I put your Kuṇḍalinī on top of My Kuṇḍalinī *[UNCLEAR* raise both]. This is an immaculate, you can say, immaculate rebirth.

I put you in My heart and give you realisation from My Sahasrāra. Alright? But how I do it, that I can't tell you. But you will also do it. Once you get it, your vibrations will do it automatically.

Gentleman: *[UNCLEAR]*.

Warren [repeats]: How long does it take?

Shri Mataji: Oh, split of a second! Just split of a second, but if you are alright. Otherwise I have to cleanse you little bit.

Gentleman: You have to do what?

Shri Mataji: I have to cleanse you a little bit. Alright?
Gentleman: I felt very hot when I asked You that silly

question? So I'm willing... here You'll be showing... I do not know what to do..., but we'll find out!

Shri Mataji: Ah, that's it.

Warren: Here in America She's going to establish a group, all of you could get together.

Shri Mataji: No, Herman has offered his place for this thing, very sweet of him, to have offered it.

No, Herman has offered his place and I'm going to sanctify it, I'm going to see the place and all that and we'll start our centre there.

Christine is here, she's a very old Sahaja Yogini in the sense that she came to Me one of the first seven I had, for four years, she's one of them. And she knows a lot about Sahaj Yog.

Then in Boston we've got Steve and you all are going to grow very fast and we've got here another one Christine who is in Boston, then I don't know about Tracy if she's going to come down and settle down here. And also, who else? Is Marsha, but Marsha has now gone to Philadelphia and she is going back to England, then she is going to come back with her husband and settle down in Philadelphia.

So you are going to have these people here to help you and give whatever guidance you need. And you yourself will start understanding it very well. Very soon. Four-five days are sufficient to equip you.

So the reaction comes to you as heat, you see, if you try to be... [laughs]. Alright, I didn't do anything, I'm just sitting here, am I doing anything? Alright, now let's have it.

Warren: [asks people to take off their shoes.]

Shri Mataji: Yes, please, that's what is the simplest thing to understand. Now, can I remove this part of the thing that is hanging onto My neck? What, has it improved anything? I don't know: did it? Warren: It's for the television.

Shri Mataji: Aah! That's the one! I don't understand all these things. Whatever you say I will do: only thing be satisfied. Right? Good, is there, still is there, not lost.

Lady: I think I have it most of the time at home now.

Warren [repeats]: She thinks she has it all the time.

Shri Mataji: Good, good, keep it up. Keep it up. And then I'll tell you everything about your theology later on, alright? Lady: [apologizes that she could not come, maybe to the hotel to meet Shri Mataji, but she is going to come tomorrow].

Shri Mataji: Alright. I'll tell you all about it. All about it. Slowly, slowly you will know everything.

You see, there are many things which are true and many things which are false. And with vibrations you can verify it.

Lady: *[UNCLEAR]*.

Shri Mataji: Ah. Nobody *[UNCLEAR]* could be more aware of it than Me.

Lady: And some terrible things are going on in Christianity, they are destroying people.

Shri Mataji: You don't know how much concern I have. You have no idea.

Lady: [says that things that happening in Christianity are worse than...].

Shri Mataji: I mean, you can't say that, is both ways, everywhere just the same, I'm very aware of it, I'm very aware of it.

Jesus Christ came in that fashion and it brings such disgrace.

I'm very much concerned, very much concerned on My own level and work things out in My own way.

Lady: And I was a nun for ten years, I mean, I have seen horrible things.

Warren: She was a nun for ten years, contemplative nun.

Lady: I mean, I got in such spiritual pain... I suffered and I saw no reason that I had for that suffering, but I saw and I mean, it was awful, it was terrible.

Shri Mataji: I know, I know that. You know this Pope of yours, I went to Krakow, I went with My husband to Krakow, just before, before he became the Pope. And you see, he's a big man, so they took Me, they said: “What are you interested in?" I said: “I'm interested in churches” so they took Me to Cracow. And they had a mass, you see, this fellow came and shook My hand and I raised his Kuṇḍalinī alright and it pierced through also.

But it again went back, because he's a Christian like that.

And I worked on him quite a lot, but you know what happened? Recently there was a photograph of Pope. And his hand came out like this [rises right arm] and the hand is missing, this hand is missing.

Lady: I know, I know what you are saying, I know about this.

Shri Mataji: And that photograph was published, they don't know how it was published. Then they have seen

these points. And Rome, in Rome people are very much against him. Very much against all institutions, it's nonsense, they know.

Lady: Horrible.

Shri Mataji: We have somebody here, whom you should talk to, then he'll tell you about it and the one who wrote this book Advent. He was, he was also wanting to become a priest and all that and he is very much against it.

Actually against Catholicism I spoke about three, two years back, isn't it? [To a Sahaja Yogi:] In your wedding I spoke. Very much.

Lady: [asks Shri Mataji that, as She said She had a Christian background, whether it was a Protestant or a Catholic approach.]

Shri Mataji: Lutheran.

Lady seeker: Pardon?

Shri Mataji: Lutheran. I was baptized by Lutherans [laughs]. And then... then My father was a member of the Church of Scotland, Presbyterian. I have no background, neither My father had. My father was a very learned man and a very evolved soul, you see. He knew fourteen languages, then he had mastered Sanskrit language and all that.

Lady: [says something about Shri Mataji being from Madhya Pradesh and She is probably...] Warren [repeats]: She thinks You are from Madhya Pradesh, You are not from Madhya Pradesh?

Shri Mataji: No, actually that time that Madhya Pradesh was in Maharashtra. Now it's on its own.

You see, that part is Maharashtra.

Lady: [says that she thought She was a Catholic, then she saw Her place of origin so she was trying to figure out.]

Shri Mataji: That is the center of India. That hill station is the center of India. That's where I was born. In the Tropic of Cancer.

Lady: I know India very well. That particular area is about fifty miles from Nagpur?

Shri Mataji: That's the place is placed on the Tropic of Cancer, Mecca is also Tropic of Cancer.

***Contents: 1981-09-28*,, Public Program, Day 5, Christ Church, Park Avenue, Manhattan, New York, USA**

.....

There are so many here, I've seen so many. Such strange people I met on the streets, such strange people. There are so many. I mean, I do not know what is the percentage of lunatics in this country. But schizophrenic and all sorts of people, you can't say. I mean, every third person I came across had some sort of funny things going on in his head. I said, “Now what is it?" This is the country which is invaded the most by these negative forces. And if you are going to be destroyed, you are going to be destroyed from inside not from outside. You will not be destroyed from outside, take it from Me. You will be destroyed from inside and that you can see. What's happening, all kinds of destructive forces are working it out. And the worst of all is horrible Gurus who have come from India. You people had invasion on India.

English had their political invasion. You had your monetary invasion on India.

So all these horrible people are having a mental invasion on you. You are not aware of it. It's a mental invasion on, very subtle mental invasion which you can not discern. You are enslaved, as we were enslaved by you for money.

You see for wheat, if they sent horrible wheat to India, Americans used to say “Hey oh, we've been very gracious." And the wheat was so horrible that we could not eat. We threw it on the ground. Imagine we threw it on the ground and horrible types of, what you call, acacia plants grew. We can not destroy them. And then another type of grass, which we call as `congress grass', you see, because it came from America we call it `congress grass', grew all over it, covered all over crops and everything. And we, we did not know why you were so kind to us to send all these.

Somehow it was destroyed then this grass but still this horrible acacia is covering all the villages in India.

People are having a terrible time, they are poisonous. And if they hit you, you see, you are killed.

Children play around, is a very dangerous thing. I mean, if they wanted to send wheat, they've should have been something more gracious than what they have been doing. This is how you have been very very unpopular all over the world.

Whenever you try to help anyone, you think “Oh, you are *[UNCLEAR* good/great], doing too much." While India has helped you in so many ways. First of all, it has helped you when you had wars, we send Indian troops and all

that all over, we never tried to show anything like that. You see, it is surprising how these developed nations are so ego-oriented, so ego-oriented. I mean, so many things they have done that I can not understand how human beings are not afraid of God and His wrath that can come on us. We have oppressed all the people who are already oppressed. We have tried to really *[UNCLEAR* clutch/crush] them down.

Now it is for time being for you people who are born in this country, who are special people born, you are very very special. In America we have the maximum number of *[UNCLEAR]*, you would not know.

It is for you to rise above all these nonsensical things and get over it and join your hands in solving the problems of this worldly thing which has really oppressed the whole universe.

And I really depended very much on you people. I came nine years back but I found that the aggression is still bubbling in. They can not see things. And that's how these Gurus take advantage of it. They took advantage of it. They came here, “Alright, you've got money, pamper your ego you can purchase us." They pampered your ego, you thought you can pay for them, you paid for them and what did you get out of it? Is nothing but all these horrible things out of which it is very difficult to get out. Apart from that, many might have lost the chances of Self-realisation. You are absolutely special people to be born, you have taken birth in this country with a very very special purpose. Because I told you that you are born in this place [points to Viśhuddhi Chakra on the Chakra Chart]. This is America. What a place! I mean,

you had great people like Abraham Lincoln, great people like him. What a man he was in life.

You've have forgotten him completely, his ideals and things. I mean, what a man is Abraham Lincoln.

I mean, If I read about anyone in the beginning, was Abraham Lincoln. I said, “Look at him!" He was a realised Soul, his ideas and all that are all of. Now it is for you to establish for what you have stood, for what God has created this America, this Chakra of Viśhuddhi. And this is what is starting from here [points to Nābhī Chakra on the Chakra Chart] that you rise up to there [points to Viśhuddhi Chakra on the Chakra Chart.]

Contents: 1981-09-29 **Navarātri Pūjā (1st Day), Sahaja Yogi's Home, Staten Island, New York, USA**

It was so preplanned today by *[UNCLEAR* the Divine] that today is a very great day. In the first advent of the Holy Ghost came on this Earth this day. That was about fourteen thousands years back. And today is the day that is celebrated as the first advent. And there are none advents She has had before She came as the Mahālakṣhmī. She first, today I will be telling you about it, how She is placed within us, where She resides, what is Her work, how She protects us. I'll be today telling you on the Heart Chakra. And that's why today they celebrate this special day of Her worship.

Now, today, as some of you are new people, I would just say that you don't think too much about it.

Try to receive more vibrations. Because when all these things are done only My centers start vibrating yours and opening your centers. That's what happens.

And as you know, we have asked very few of you to come here because it is difficult for people to bare the vibrations if they are not fully prepared for it. And because of this preparation, we wanted to have some more time. But we *[UNCLEAR* 've risking] this time.

I hope you'll be able to bare the vibrations. They will open your centers, they'll raise your Kuṇḍalinī much higher, they'll give you a much greater dimension and also powers. But one thing is there, don't think about it. Keep your mind away so that you receive it more and understand it more.

We tried this experiment in Australia and just after realisation, within three days, so many people came not for the Pūjā but for washing of My feet. And they got very well established in Sahaja Yoga.

So it is one of the easiest way to do it. But it is to be understood, in the Western life it's rather difficult to understand adoration, because now I am in form. I've came in form and you should make fully use of Me. Get full advantage by exposing yourself to these powers so that they enter into your being and you are empowered much more. Alright? This is the idea. Now, this is a very secrete ceremony opened to very few Sahaja Yogis and it is done in India everywhere and we select people as I told you. Very few people are allowed to come in. Not all the people. But, as you know we had very little time, we could not sort of do that to you.

So please don't think about it, just be in thoughtless awareness and try to receive as much as you can. I would suggest those who have come for the first time should sit in front.

So that it could be *[UNCLEAR* easier]. Come *[UNCLEAR]*. Tracy, have you attended any Pūjā? Tracy: The one in *[UNCLEAR* Brighton].

Shri Mataji: You had, ya alright. Who else? Christine and..., you haven't been to any Pūjā. You both come forward. [Marathi.] How many are there for the first time? Gavin? Please come, come, come forward, come forward. [Shri Mataji counts in Hindi]. Come along Barbara.

Sahaja Yogi: Nine.

Shri Mataji: Ah?

Sahaja Yogi: Nine.

Sahaja Yogi: Nine.

Shri Mataji: Good number, nine days, nine people. It worked out.

Somehow it worked out. Alright.

Sahaj Yogi: *[UNCLEAR]*.

Shri Mataji: *[UNCLEAR]*. While washing My feet, they will be reading the adoration of Śhrī Gaṇeśh who he incarnated as Jesus Christ. Alright? Who is the embodiment of innocence. And that will be in English. Have you got that one?

Sahaja Yogi: Yes, Mother.

Shri Mataji: So that will be read. And I would like you to pay attention to what is... plus you have to wash My feet so that you receive your vibrations in a clear-cut way. I wish you could have read Hanumāna also. That would have been better than this. Ah, is he coming? Is baptist gentleman?

Sahaja Yogi: Yes. *[UNCLEAR]*. [Short pause.]

Shri Mataji: Alright, bring that. That baptist should come, you know. I *[UNCLEAR* would say that], he should come... because...

Sahaja Yogi: We gave him the address.

Shri Mataji: Is very *[UNCLEAR* true/late] now. What time you called him, ten o'clock?

Sahaja Yogi: Eleven.

Shri Mataji: Eleven. *[UNCLEAR]*. Barbara, you also come here. This here, you see. *[UNCLEAR]*.

Lady: *[UNCLEAR* What we'll be doing here?]

Shri Mataji: *[UNCLEAR]*. *[UNCLEAR* Is three o'clock has started]. Give vibrations *[UNCLEAR]* tremendous. *[UNCLEAR]*. Can you feel it? Try to put your hands, alright? [Pause.] Have you got Devī Purāna? [Marathi.] Mārkandeya's you don't have, otherwise you could have read about Mahāviṣhṇu, about Jesus Christ. Which is alright now. [Pause.] [A lady is asking a few times if the book in Shri Mataji's hand is readily available here.]

Sahaja Yogi: Can you buy it here?

Sahaja Yogi: We certainly, we find if we can get it here.

Shri Mataji: *[UNCLEAR]*. I don't know, I have no idea. But it is translated *[UNCLEAR]*.

[Marathi.]

Sahaja Yogi: Devī Purāna.

Shri Mataji: Ne, ne. Acha, doesn't matter. [Marathi.] This is, this is the boom which he has got. In English language is the, is the praise of the Goddess, you see, of the Holy Ghost, you see, all that is there.

How She was created, then how She get into forms, how She incarnated on this Earth and how She killed these

horrible people who were trying to..., I may say we call them Rākshasas or devils, we can say Satanic forces. And all that is written in this book but it is translated in that book, in the Devī Saptashati. And I do not know if you can get that book in America or not. But these people have got it, we have to find out that one.

Lady: I think Samuel Wiser in the village might be able to order it, if they don't have in stock. They have all those things.

Shri Mataji: Yes, maybe. Because this is the, this is the happening much before. She actually came as a human being on this Earth. You see the first incarnation was of Sītā, then of Rādhā and then of Mother of Jesus.

So She came, thrice She came as a human being, this is as Mahālakṣhmī. But this is the Mahākālī, is the one which is the Primordial and that is. And out of that, these three powers came.

Right? Lady: And this is the next one after Mary?

Shri Mataji: Beg Pardon? Lady: This is the next one after Mary?

Sahaja Yogi: Mahālakṣhmī.

Shri Mataji: Mahālakṣhmī.

Sahaja Yogi: Mahālakṣhmī.

Sahaja Yogi: Mahālakṣhmī was Mary.

Shri Mataji: Mahālakṣhmī. She has three powers. She is one is at Mahākālī, *[UNCLEAR]*. She is the one who exists and when She gets angry, She can kill also. That's the point. That's Mahākālī. And from Her two other powers came out. Was Mahāsaraswatī, who is the creative power. And the third one is the evolutionary power, is

Mahālakṣhmī. And Mother Mary is Mahālakṣhmī. She was born out of the water. That's why She is called as Mary. Even in English language we call Her Mary, Mary words comes from marine, you see. And My name also, the first Nīra means the one born out of water. It's a very funny combination, everything if you see My whole name. Nirmalā means immaculate. And Neela, I have two three names because they're made short and that's how it has a different meaning. But in any case, when you get the book Advent, you might get lots of information. Also, we have a magazine, I don't know if you have that.

Sahaja Yogi: *[UNCLEAR]* downstairs.

Shri Mataji: Alright.

So you also get that magazine from India, they will send it over to you [to the lady questioning]. Alright? That we'll all arrange. Now.

So, Gavin, please start.

[At the end of the Pūjā, as the vibrations from Shri Mataji were not absorbed, six Sahaja Yoginis went into Her room and, as She rested, took vibrations from the Chakras in Her body with the left hand placed on the Chakra and the right hand ventilating away. The energy was so tremendous coming from Her body.

It felt almost like an electric current. Gradually, it put all six Sahaja Yoginis completely to sleep. They slowly drooped, until were completely asleep on the floor.]

***Contents: 1981-09-29*,, Public Program (1st Day and 2nd Day of Navarātri), Day 6, East West Center, 141 5th Avenue, Manhattan, New York, USA**

.....

Then the sustenance starts growing till you become a human being as shown here. In this void, here as carbon then you move into the void and here you go through all the evolution starting from a fish up to the human level where you become a small man. Once you become the small man, Vamana is called that... First the man who came on the Earth was a small statured man. Then a man came who was Parashurama, a very very... Poseidon, a very large man, huge. Two extremes. And then, came the man who was in the center. And the leadership of all this evolution like that, by the Incarnation of the aspect which is the Evolutionary aspect.

.....

One is the one which is the Existence and the other side of the Existence is the Destroyer. And then another aspect is the Creator and the central one is the Sustenance, is the Protector. Out of these, this one incarnates. Only one aspect because it has to give a quality and the leadership. For example, when there was a great flood, then He Incarnated. He incarnated as a fish and the dolphin-fish. Dolphin. I don't know if you know about dolphin or not. But dolphin is a mammal and is a friend of human beings.

So He incarnated as a dolphin-fish and saved the boat. As you know, there was a boat in which people were saved. He saved the boat. Is the dolphin who incarnated on this Earth. One by one, He incarnates. Then He incarnates as a turtle, four legged which comes out of the water to show the fishes that you can come out. Then, gradually

He incarnates as a quadruped. Like that, the Incarnations, He comes as a leader.

Somebody has to give that confidence. One fish comes and takes them out and others come, they follow them up. As they go on improving every time there is an Incarnation. And between one Incarnation and another Incarnation, there is a very great time and that is called as Yugas. Like that the Incarnations come on this Earth.

.....

***Contents: 1981-09-30*,, Public Program, Day 7 (2nd Day and 3rd Day of Navarātri), I Am the Holy Ghost, Christ Church, Park Avenue, Manhattan, New York, USA**

... Believe that how this people are reborn and crucified Him again. And again and again they are crucifying. The crucifixion is not the message of Christ. That's why I also don't like people to wear the cross, I can't see the cross. He's not, cross of course is very helpful, because if the bad spirits see the cross they run away. But it is a reminder of something which was unbearable.

Because the Mother had all the power, She was Mahālakṣhmī. He had eleven powers, eleven powers to destroy. You can imagine, He has still those powers. And He had to go through all that without destruction. He saw to it.

Now, people may say, “How was He resurrected?" First of all there were objections to immaculate conception. I mean, they have objection for everything, He was not a human being. He was the Divine Power. I conceived you in My heart. Do you know that? And I put My Kuṇḍalinī

and I put you, from My heart you do it and *[UNCLEAR* I give you out]. The way you have got your second birth, in the same way Christ was truly immaculate. But She put Him in the heart and into the uterus down below and She created Him. It's very easy to doubt Him and say things against Him, because He is no more.

And the Jews must learn a lesson now. They denied Him once and they have suffered. Now, don't deny Him again. You cannot deny the person, the embodiment of this Divine Power.

Christians may be blown out, with Christians I've tortured you, forget them, they are just the same as you are, fanatics, fanatics, fanatics. Whether they are Christians or they are Muslims so many is the same as any other person. I do not find any difference whatsoever. Dogmatic, ignorant, fanatic. Forget these people, they do not stand for Christ. Christ Himself has said in second chapter of Matthews, “You'll be calling Me, `Christ, Christ,' I won't recognize you. Who are thee?" The people who say, “Christ, we are the solicitors of Christ. We are the people who are in charge of Christ." All of these people will be charged. And they will be thrown away in the hell, the way they have managed things about Christ.

Some of them are genuine, they don't know that this is artificial, they are genuine in it, but they must get their Realisation. They must ask for their real Realisation and they must know what is Christ within themselves, they have to awaken this Christ here.

Now, as I was telling you that Christ said that, “You are to be born again." That, “I've to be born in your heart." Now, the heart center is here as well as here, because

the heart is controlled by this center at the fontanelle bone area. And that's what He said that, “You should get your Realisation." When He said, “You should be put in the heart." Now, the people of various confessions in your country, went down to India. And they never told that Christ was born who was the Mahāviṣhṇu. Because He is already described in the Purānas. That He is the Adhara, He is the One who will be, once awakened, by the Kuṇḍalinī will suck your Karmas. They never went and told, so the Indians went on with their Karma theory and these Gurus have come here to teach you Karma. It is amazing how you accept all these theories of nonsense. Like they say that, “You have to suffer, because you have done bad Karmas." Then they may say that, “Yes, you can give you a balance, but you go this way or that way and you just keep into balance." If that is so, that you have to go to one extreme and to another extreme, then what are they doing here? Why are they talking? They better should shut up, because they cannot do anything. They cannot give you Realisation. They cannot save you from this situation.

So, it's better that you suffer.

But why do they say you should suffer? Why should they say? Because they want to enjoy your suffering.

They want you to suffer, because they enjoy it.

So many of these disciples who came from these horrible Gurus, who said, “You must have your Karmas and you must suffer" told Me that they saw their Gurus giggling at them and mocking at them. And they showed Me some of the photographs they had taken of these Gurus which shows complete mockery of these stupid disciples who

were suffering in their body and suffering in their mind in the presence of these Gurus.

So they have a double enjoyment, one the money, another is the sadism and third, the greatest of all, that their purpose is to kill you all and to destroy you all, because you are God's men. That they achieve by their falsehood, because you are impressed by their falsehood.

Now, see, if there was any false Guru here this hall would be filled, the whole thing would be filled, on the road there would be a jam. But the real Guru, I have seen not only here, everywhere it starts very slowly.

Of course, in a place where people are very simple and who are very sensitive it's a different point, but the people in a city specially they are so insensitive to reality and so sensitive to devils that it is surprising, they feel very much at home with the devils and very much lost with the reality. Because you are *[UNCLEAR* in conflict].

So you must know that you have to become the reality. You have to become that which is the Spirit, which is not so far, is shining in your central nervous system, in your awareness.

And this is the Spirit, is the One, is Christ.

Now, I've spoken before also in the churches, but today for the first time I am speaking about Christ in a church. And that's why I was very happy that at least in this church I would say something that could establish Him and that when people will come here I hope they get their Realisation and that something works out here. They get at least awakening, because so many saints are sitting in front of Me, maybe that one day will come in

this church, maybe. It may work out that people will get their Realisation.

Christ's life was only for three, four years. Nobody allowed Him to live longer than that. Whatever was possible was done, but such stupid people, such stupid people, you could not talk to them. And that's how they killed Him. He could not speak to them any more and that's how His life was finished. But in that small life of His, what a spark it was! What a spark it was! The way people have behaved towards Him is atrocious, I must say! I must say the apostles themselves because this Matthews and this, he was such an intellectual. Such an intellectual, he would not accept the idea of immaculate conception. Very difficult man, he would argue it out. He said, “If a virgin is going to give the child then everybody is going to say that it's a very, very blasphemous thing, it's a very, very illegitimate thing and it should not be spoken of." Horrible fellow and one better than the other. And when they took up about the spreading of Christianity they took it in such a funny way, because they became supraconscious people. They started speaking the languages of so many people. That part of Bible is wrong. Where they became not realised, the wind part is all right, but so many people I've seen who come to My program when they come for Realisation they feel the wind for a while and immediately they shelled out and become supraconscious. Now, we'll see what is supraconscious entry and the subconscious area.

Now you see here there are two buds. These are the two petals, one controls of course the pituitary, that controls the Ego and the pineal, that controls the Superego.

But this also has a capacity to blow this out this way and blow this out this way. Supposing you become supraconscious because you start thinking too much, about, something about the future, what must be the galaxy, we should find out about it and you must find out about the stars and about all these things and about future, about, say, prophecies what else is that is astrology and all these you see futuristic things. You people are mostly futuristic, you try to plan and try to and every plan fails, of course. But this thinking of planning of too much can push this up this side too much. Actually as shown here is this side, but actually when it is placed, it is placed like this. The Ego is placed like this and the Superego is like this. Here we could not show the *[UNCLEAR* pineal gland].

So, from the back to this side is the Superego and from here to here is the Ego. Now, this Ego bloats out this way, into this side.

And when it bloats out this side it goes into the supraconscious area.

So it comes up this way.

Now, the supraconscious area gives you visions, hallucinations. LSD does that, LSD does that. When you start seeing from eye of a person, who is a dead person, but a very ambitious person, for example you might get the vision of Hitler. You might get the vision of, say, all these horrible kings who lived here.

You might get to see colours. You may see auras. And one has to understand here that these auras are coming to us, because we shift, we disintegrate. *[UNCLEAR* What's wrong over these]? That's how we start seeing something

else separated from us. To see auras is not a good sign in Sahaja Yoga. If you are seeing auras we have to bring you back to the same position, because you have to be in the present and not in the future. You get disintegrated. For example, if there is a machine, say, which takes the Auras, I was talking to someone, who has done that work of aura-picturing. Now, before, after Realisation you don't get any Auras in a person, cannot getting auras in a person, because it is integrated, completely integrated, but when he is in a mess, you start getting the auras. Like if he has cancer he'll get auras, if he is an alcoholic he'll get auras, that kind will be crazy auras, a normal person may have auras not so much crazy. But Auras you cannot see when the whole thing is integrated. You can see, in a, say, light this, there is no aberration that means it's a good light. If it is aberrations then it is a bad light. All the seven colours of a light has to be concentrated and has to be integrated. If they are prismatic and if they are giving you separately then it is not one integration. And when it is one integration then you cannot see seven lights.

So the person is not integrated.

Now, all these auras come to us, because we are made of seven type of *[UNCLEAR* docus/lokas] within us. But the people who are on the right side only believe in the five *[UNCLEAR* docus/lokas], they call them Koṣhas, I don't think if I have time for that, but these are the Koṣhas also created by, one is created by the first center, by the second center. By the third center, this is how the *[UNCLEAR* piricle/pericle] goes. By the fourth one, then the fifth one and the sixth and the seventh are the things

that they do not create auras outside, they create inside near the heart. And these are created near the heart, but as soon as you get your Realisation they all become one. They all merge into one and that is the Spirit.

So, as if you can say that the Spirit exists in a prismatic state then you get the auras of seven, but when it becomes integrated that you become one, all the auras become one.

So, integration is the aim of Sahaja Yoga and now, I think, I have told you how you can also go to the subconscious area, the same way. The subconscious area is on the left hand side. If you move into collective subconscious area, say for example, you can be triggered into cancer. By this triggering you might get heart attacks and things like that, diabetes. Now, many people believe sugar gives you diabetes, it is nonsense. Sugar doesn't give you diabetes. What gives the diabetes is too much thinking. Those who do not think too much never get. Indian farmers never get diabetes, they don't know what disease it is. Because you think too much, you work too much, this center works too much. It has to create food for the brain, it has to replace the brain centers. And these brain centers are to be replaced. For that it creates out of fat the new centers, the evolved cells, like *[UNCLEAR* a cent] here. And because of that work, if it is too much it neglects the other things which it has to work out throughout, one of them is the spleen, another is pancreas. And when it neglects the pancreas you get diabetes. Not by sugar. Of course sugar, because it has to convert it into fat. But if you do not have sugar then it's a double work. If you have sugar it converts it into fat

and makes it use the cells for our brain. But if you think too much, then and you don't take sugar it's a double action. But if you just take sugar and do not think also can be problem, I think, because he has to convert too much of, into fat, you see.

So, too much work is given, there is no balance.

So, one has to understand that too much sugar is not good, but you must take sugar, because the sugar is needed and stop your thinking.

How do you stop your thinking? Only by rising above the Āgñyā Chakra. This is a very, very important point at Āgñyā that you must know that the thinking stops. Now, the thinking comes to you like this, like a wave. It rises the thought and falls off. Another thought rises and falls off. In between there is a place called as Vilamba. Now, when the thought rises it automatically falls out. You can see the rising of the thought, but not falling off. Now, this space is the place of present. This rises either from the ego or superego and goes into the past. But in-between space is the Present. One is the future, one is the past.

Now, this place has to increase. When it increases then what happens is that Āgñyā Chakra opens more and you become thoughtlessly aware. You become thoughtlessly aware, you come in the Present. There is no thought. And thought is the barrier between the creation and ourselves. For example you look at this, say, a beautiful stone that is placed there or anything. You watch it. Now, if you want to think, “Oh, it looks like a man, it looks like a devil or it looks like a God" or whatever it is. There is a thought you've put in.

So, what you do when you are realised you just watch, you watch. And whatever the joy is put there of the creator, of an artist, completely is within you, because there is no thought. There is no wave, there is no disturbance in a completely silent lake. All that is around it, all that creation comes into it, absolutely reflected and you enjoy it in thoughtless awareness, called as Nirvichara Samādhi. There is complete Nirvichara, where you have no thought and you start enjoying that creation, complete the joy of that is there, nothing is left.

So, the thoughtless awareness comes in when the Kuṇḍalinī crosses this Āgñyā Chakra. It does double work. First it makes you thoughtlessly aware.

Secondly because the Kuṇḍalinī, if it has pierced through it pushes it and She fills this with the grace.

The grace falls on this. When the grace comes in, you start relaxing, this centers also relax. These centers are in a tension. But when the grace comes in, they go back into normal.

So, there is more, sort of, expansion and the thoughtless awareness starts establishing itself at the Āgñyā Chakra.

Now, the mantra of Āgñyā is the Lord's Prayer. It has got two sides, Ham and Ksham. Ham means `I am' and Ksham means `I forgive.' So, if supposing this is catching, you have to say, `I forgive.' If there is Ego within us you should say, `I forgive.' If there is superego within us you should say, `I am! I am!' So, it is Ham and Ksham, is the bīja, is the seed. Is a seed of the prayer, Lord's Prayer.

Now, there are people who are talking the Lord's Prayer is not all right. I mean, who are you, what do you know about it? Everybody is telling Me, every one. What do you

know? What is your authority? The trouble is everybody is entitled to do what they like with religion and with God. Though they do not know anything about it, they are absolutely ignorant but they think they have a right. Because there is no political control over it. Even Hitler can talk about Christ, anybody can talk about Him.

And about the Prayer that He taught you, who are you to challenge it? Who are you to challenge Him? I can't understand how do you challenge a person without knowing your own position and relation to Him? But this is a very, very common thing that people do and is due to ego. Ego makes you high-handed.

And this is the worst type of high-handedness that you challenge God, you challenge Christ, you challenge everything which you don't understand. Your mind is limited. It's a very limited *[UNCLEAR* way/vision].

You cannot do anything with this mind of yours. You have to go beyond it.

Somebody has to trigger you into this state, you have to go into there. You have to become the Spirit, only by realizing your Spirit you can get connected with God. And before that you cannot connect it. That's why you have to become the Spirit. And the Spirit is the connection, is the link with God.

There is no other way you can be linked with God. If you want to keep yourself in delusion you go ahead with it. But this is the real thing I'm telling you, it's the true thing I'm telling you, for which you should know, you cannot pay, you cannot purchase it, you cannot demand it and you cannot work it out.

The grace of God has to come, fall upon you to do it, or a person who is enlightened can only enlighten you.

Now, about Christ, if I have to speak. I've spoken once on Christ for seven days, one after the other.

There's no end to it. He is such a great incarnation, that I just do not know how to say that, I've spoken all about it. As it is we have many tapes in London, you can send for it. We are now going to have a center here. Herman has offered his place. And we will be sending those tapes there, at least 300 tapes you have got in London, which you can listen to and see for yourself. And all of these tapes are very good, because they are actually mantras. They work out the mantras and you also get, listening to them, opening of your centers and all that.

Now, the last one which is embarrassing, because she already has told you that, I'm supposed to have been here at least. It is the integration. The end of it is the integration of all this seven centers. All these seven centers are placed around this area called as the Limbic. This is the Limbic Area. Now, if you cut it, the brain, like this transfer section of the brain you'll find it, it's like a lotus. You can find it that there in the marking it's like a lotus, opened out. And it's 1,000 petals as called, are like this. But the colouring is not all right, you people are so fond of these special colours, so they have used it, but we can say that it's kind of a 1,000 petals, it's there. Now it is said in the Bible that, “I will appear before you like tongues of flames." And these are, they appear, they all appear. But these are very large ones and they appear as living, living flames in different colours, starting from one to another and they are 1,000 in number.

Now, the doctors argue that, “They cannot be thousand, there have to be 992." I mean, just imagine this foolish people, to argue on that. But they do not know they're 1,000 in number and they are placed here. Not in the limbic area. All the seven centers are surrounded here. Like we have got now, you see, from here, this is the Āgñyā Chakra. Here. Behind it here at the back, just exactly at the back is the Mūlādhāra. Surrounding it is this Swādhiṣhṭhāna. Surrounding the Mūlādhāra is the Swādhiṣhṭhān. If you are catching on Swādhiṣhṭhāna you can feel it in yourself, the heaviness here. If you are catching, say you have diabetes, give an example. Diabetes people get blind after some time. They loose the power of the eyes, because this thing oppresses the optic cloth, which is controlled by the Mūlādhāra Chakra, you call it as Back Āgñyā, this portion at the back.

So, this is the Swādhiṣhṭhāna Chakra here at the back.

In the center here you find a bone, that's the Mūlādhāra and around it is the Swādhiṣhṭhāna Chakra.

Then here is the Viśhuddhi Chakra, is the Virāta. Is the Viśhuddhi Chakra here. When you catch cold you'll find you'll have a problem here. But if you apply something here you'll feel better. And this is the Viśhuddhi Chakra which is related to your throat, this one. Now, if you have problems with collectivity also you might find a big block here.

Now, at the back of it is the Nābhī here, at the back. This Nābhī has a left and a right side as we have shown here. The left Nābhī and the right Nābhī, there are two, left and right Nābhī, I don't know if I have told about that, left and

right Nābhī, but, I mean, you can find out from the book that there's left and right Nābhī.

So, you have got a left and a right Nābhī. And also, you sometimes feel the Nābhī in here.

Some people do feel who have problems with their Gurus and things like that, you see. Then you feel it.

But the whole Void is here. And this Void is called as Ekādaśha Rudra. This Void. The whole. It goes like a main round. And this range is very important, because this you get it from the Void. If you go to a bad Guru or someone you get this. And this is the one that is of the rider, the rider, the one who has eleven powers of destruction, the one who's going to come to slash out. Then He's not going to give you a counsel, He is not going to redeem you, no Realisation. He'll slash out those who are not realised. And He will emancipate the one who are realised. See, that's the last that you don't ask just now. You've some time more to save some more people, because He is not going to question anyone, He is not going to allow you any more time and that will be the time of complete destruction of all the Satanic forces.

So that is the Ekādaśha here. That collects, because all these horrible Gurus are here. These are the Ekādaśhas. And this is one thing is to be understood that one should get rid of this very easily.

Now, these two children of Rāma who were born here. And they are endowed on the Sun and the Moon. The Sun and the Moon both are here. And the sun became, as I told you, Buddha ultimately here and he became the, not ultimately, the Mahāvīra, there. But when they were on this earth Buddha talked about non-violence and people

thought non-violence to chickens, to bugs. These Mahāvīra people, the Jains, we have got horrible community called Jains in India and they believe in vegetarianism to this extent that they get a Brahmin, pay him money and put him in a hut and bring all the bugs of the village, put those in the hut and the bugs live on that blood. Is a fact, even today they do it. And then they pay some money to the Brahmin, because the bugs are *[UNCLEAR* biting].

Now, you just tell Me this kind of a nonsensical vegetarianism. Am I going to give Realisation to chickens? Just think of it. Or to the bugs or to the earthworms? You are human beings, you should eat a flesh which is not of a bigger animal than yourself, because that's horrid. But you can eat the flesh of the animals which are smaller than you. There's no harm in eating that and this kind of a nonsensical vegetarianism, “Don't do any harm to the animals” but they don't mind doing this. Jains are the greatest, they are, you see, such... just like suckers. And they don't mind killing people for their money. They don't mind going for, what you call, *[UNCLEAR* shikars], in hunting. And killing anything, but they will not eat a chicken or even the garlic. Now, garlic, as you know, is very good for the heart. But they don't eat garlic. It's very good for the heart, it's very good for people who have got a tendency towards hardening of the arteries, when the circulation is a problem. Is very good to eat that and for cold. Those people who suffer from cold, if they regularly eat a fresh garlic thing in the night, brush their teeth, they'll be much better off.

So, while talking about it I would say.

Now, these seven centers are here. Now, at the fontanelle bone is the center of the heart. Now, just imagine, it is at the center.

So, where do I exist? I mean, all of them are seven centers, so I am just like a *[UNCLEAR* puppet/pauper]. But if I am in your heart, I'm here.

So, the key of Sahaja Yoga is that you have to recognize Me. If you cannot recognize Me you cannot progress in Sahaja Yoga, I have to frankly admit it. Because *[UNCLEAR* he's already behoves] Me, I don't tell this in My first lectures, but I have to say it that, “Please, now recognize Me." As your Mother I would request you to recognize Me. And you don't have to give Me anything, just take things from Me.

Just have it yourself. But recognize Me. If you deny Me then this won't open, this will be always troubled.

That's why at the end when you say, `Mother, give me my Realisation.' Because I have come on this earth to give you Realisation. That's My job. It's one of the worst jobs that one can have. [Laughter.] Because it is so difficult with people: to talk to them, to tell them about it and they are all the time up in arms, they are so aggressive and they start fighting. It's a Mother's job. It is a thankless job, absolutely thankless job. I have to do it. And also only Mother can do it. Because if you have Christ, he would have taken those eleven things and finished off everyone. If you had asked Kṛiṣhṇa He had also some *[UNCLEAR* how rushed up people and] killed. But to use the whole thing with integrated idea and balancing, with understanding human beings you have to

have a Mother. And that's why sometimes people try to become very familiar and start taking advantage or taking liberties, which is a wrong thing.

Whatever I am I am and I'm Love, I can't help it. I really can't help it. I'm Compassion. One day I did feel very disgusted, really. Once I did feel very disgusted with people the way they were and I was just saying that, “Forget it!" And then suddenly I saw My photograph and I saw My eyes, then I said, “Nirmalā, you are Compassion, you're Compassion, you can't help it. You just can't help it. I have to work it out." I know it means, it means sometimes too much, too much, but I have to work it out.

Now, some people come out with a question, “Why You, Mother?" I said, “Why not you, it's a good idea! Come along and do it!" [Laughter.] It will be the best for Me to retire, My husband might give you a pension for it, he will so happy that I've found out somebody who will replace Me. But I have not yet found out somebody who will replace Me, I wish you could, will be a good idea.

Now, the name Nirmalā itself is, means Immaculate. Means, the one who is the cleansing power. Is a name of the Goddess also. My, actually sign name is Lalitā, is the name of the Primordial Mother, that is the name of the Primordial Mother. But to be a human being with all these centers around you working, for example for the last three days you don't know how much I am vibrating, you can ask Warren and other people, I asked them to take the vibrations and they were doing like this, where they couldn't touch Me. The tried to put the hand on the head and they were just, they didn't know how to touch Me, even it is so much vibrating.

So, it's not easy to carry with all this load on this human body, appear like a human being, to act like a human being, to behave like a human being, so that there is a report, why an incarnation is needed, there has to be a report, because the unconscious cannot talk to you, whatever you see in a dream comes back to you afterwards from the subconscious area, all the ideas will be such a mess, such a confusion and you cannot decide anything.

So, it has to come on this earth as a human being and tell you with a language. I never knew English all My life.

So, first time I learnt English, but still I don't know American English. I hope I'll be able to learn something more when I travel around and it's a thing that, it's God's desire that you have to be realised. It's all written in the Bible, it's all written in all the books of the scriptures. It is very largely written in the books of Ādi Shañkarāchārya. Who has described Me fully, in a very full way. And it's easy for Indians to get to Me. I mean, though I have not much disciples in the cities, but they are aware of My Advent and they know that I am there. Most of them know about it. But they can't understand why I have come to America. They say that, “Why you come here? People here won't accept it." But I don't think so, because I think you are great seekers, very great seekers, born seekers, you are a special type. I have to work for you. I must say the transformation that has taken place in the Western Sahaja Yogis has not been achieved by Indians so much. Though they have an advantage because they are born in a country which has basis, which keeps the attention intact.

The attention is very much intact.

So, it is easy to work it out there, here it is difficult, it doesn't appeal to people, but still, you are all great people, so many of you are lost, but they can be all saved. But those who are here should know that you have the greatest opportunity in your life today to be realised and to give Realisation to others. First of all you have to become all right. Then you can give light to others.

Now, the greatest thing that is needed for Sahaja Yoga is wisdom. And logically you will reach at a conclusion and understand that Sahaja Yoga is the end of all the problems of the world. Of all the problems of the world. For example take the capitalism and communism. Now, I am a capitalist, because I have all the powers and I am the communist, because I cannot enjoy it without giving it to you. But it's spontaneous I have not to do it, because I think about it, it just works. It is like that. All the problems: political problems, economic problems, everything can be solved. Kṛiṣhṇa has said, “Yogakshemam vahāmyaham” “When you get your Yoga you get your well-being." He has promised. He could have said it, “KshemaYogam vahāmyaham." He did not, he said, “Yogakshemam vahāmyaham." First do Yoga, first unite. Unite with the Spirit then you are blessed by all these things. This is the center of even material wealth, of Lakṣhmī, which works out. And all the Sahaja Yogis who have been to Me are blessed by material wealth also, but not too much like Mister Ford, that's an extreme case, that's a headache, but they get well-being from every angle in a balanced way and integrated way.

So the last method is of integration, that you get completely integrated. Whatever you do your heart supports it, your mind supports it and your body supports it. You're completely integrated in one being, that is your Spirit.

May God bless you all! So, now this is the last lecture and I am going to Philadelphia and you pray that Philadelphia people get Realisation more and we get more people into Sahaja Yog and that they become enlightened. Then I'll be going to Houston, then to Los Angeles and Vancouver for a day. If you have any friends or relatives there you can write to them, take the address so that they contact and they come down to the program.

May God bless you all! Normally I don't tell about Myself, but today he exposed Me as soon as I came I had to tell, because it's not tactful. It's not tactful to say anything. It's better that you discover Me than I tell you, because Christ was crucified, everybody was tortured. I do not want to hamper My work, because it makes no difference by telling you anything before Realisation. It's better to tell you after Realisation that, “I am the Holy Ghost, no doubt. I am the one about which Christ has talked." I have told them, I had never said this on, from a platform and I told, they have been telling Me, “Mother, You must say that once." I said, “In America I'll declare it." So, today I declare that, “I am the Holy Ghost, I am the Holy Spirit, who has incarnated on this earth for your Realisation." May God bless you! Now, any questions?

Sahaja Yogi: Mother, I just like to say, `I love You!'

Sahaja Yogi: How can I still my thoughts?

Shri Mataji: You just say Lord's Prayer. Now, before My photograph. All right? It will work out.

Lord's Prayer is the entry, it's the entry, no doubt! [Sahaja Yogi announces about sale of photographs and the book The Advent and giving Realisation in some districts.]

Shri Mataji: And Steve is in Boston.

[Sahaja Yogi announces about contacts in American cities.]

Shri Mataji: And at Herman's place. Herman, can you stand up? I'm going to see his place tomorrow.

Sahaja Yogini: You mentioned on the right side the superego, on he right side of the brain.

Shri Mataji: No, I mean in the sense that it moves like this, you see? And like this, now, this way.

But more it goes to the right side, it presses more on the right side. When the movement is like, you see, the thing is, the division is like this, all right?

Sahaja Yogini: What sort of thinking would increase the activity on this side? Would increase the superego?

Shri Mataji: What sort of thinking.

Sahaja Yogini: Is it too much thinking?

Shri Mataji: Now, you don't think now. You see, it's the whole thing. You have to become thoughtlessly aware, first of all, don't think. But once you are realised, once you are realised, whatever you think happens. Whatever you want happens, because your attention is enlightened. Your attention is enlightened.

Like I went to Orleans. There was a lady who was suffering from breast cancer. And I cured her, she was all

right. And I was then in Switzerland, recently, about after a year and somebody came from Orleans, Robert and he told Me that, “Mother, she is all right." And she is a Sahaja Yogini, but now she has got terrible trouble in her kidney and she's got terrible pain and she's in the hospital. And as soon as he told Me, the pain stopped and the stone came out. And since that day she's all right.

So, it just works that moment. Whatever you ask for, it will work, whatever you want for, it will work, because you become collectively conscious and the collective being helps you. Apart from that all the angels, like Saint Michael, who resides on this side, His birthday was day before yesterday, the Saint Michael works out, this left side here. And Saint Gabriel is on the right hand side. And all their armies are with you, they all look after you. For example, a realised Soul, established realised Soul is travelling by a train there will not be an accident. If there is an accident all will be saved. They are saved in such miraculous manners. I mean, the thousand and one things you will see that you'll be amazed how you are helped.

So, you don't think, leave it to God. Let His things work.

Sahaja Yogi: How do you know whether somebody is a realised Soul, is a true teacher?

Shri Mataji: You see, unless and until you are your Spirit you cannot. You have to become your Spirit. Then you get your vibratory awareness. You get the Cool Breeze coming in. Now, this Cool Breeze is nothing but is the All-pervading Power, which you start feeling on your, you've come for the first time? That's fine. The question is justified, but I've told about it. Then you start feeling the

All-pervading power, all right? Then you can also feel whether a person is realised or not. But if you are not the Spirit you cannot. Even logically, for a person, who is a realised Soul, devil can't take anything from you. He cannot be at the ascent. He doesn't live by your own. Such a person, it's all right, you can pay for this hall, all right. You can pay for the travelling of the person, it's all right. But you cannot live on the money of other people.

Contents: **1981-10-0x Watching the first Video, Room without Roof, Brompton Square, London, UK**

[At the end of video:] She speaks with such sincerity! What a sincere, genuine person! You are all so lucky.

You have Me. I do not have anyone like this to be with in that way.

Contents: 1981-10-04**,, Public Program, Day 1 (6th Day of Navarātri), Becoming the Truth, Houston, TX, U.S.A.**

It is really very kind of you to have invited Me to this beautiful meeting of such seekers who look so truthful. When I read about Unity Church and what they were doing, I felt this is the place where it is going to trigger first, because here founder himself was a realised Soul. He was a realised Soul. But perhaps he did not realise that others were not realised up to his level and whatever he talked was the truth, nothing but the truth. But you cannot imagine about truth, you have to become, becoming is the main point. Unless and until you become the truth, whatever you talk about it becomes talk, talk, talk.

And we have had talks after talks, after talks.

Now the time has come for us to become. What do we become? What do we have to expect after Self-realisation. As he has told you, I would like to tell you this way that we have heard that God's love is all-pervading. The Divine Love is all-pervading energy. We've heard about it, we've read about it. Now what happens to us, that we are awakened in such a manner that we started feeling that power. Our sensitivity or our awareness becomes so enlightened that we start feeling that Divine Power around us. It exists. For example if I say there is big music going on here and big plays and dramas going on here, you won't believe till I put a television here and say, “Now see for yourself." In the same this All-pervading Power is still imaginary for us, or we can say is not our own experience.

Still people believed it because it was told by great people, great incarnations like Christ. But what it means, what it is, we have not felt it and that's the first thing that should happen to you, is to feel that. That means that our feeling is not so much yet developed, or is not enlightened, or is not evolved to that extent that we can feel. In our evolution, say from animals to this stage, how many feelings we have developed, which the animals don't have. For example if you want to take an animal through a dirty lane, he doesn't feel any dirt, or filth, or doesn't smell anything. He just walks through. Take any horse or any dog they have no problems. But for human beings to go through that will be an impossibility. Our feelings, experiencing power is so much developed that

we can feel the beauty, we can feel the colours, we can see the beauty of this place. They cannot feel.

But now the feeling that has to come to us is the feeling of that All-pervading Power, the Divine Power which in Sanskrit is called as Brahma. That Divine Power is the desire of God. God desired because He loved us. He is complete. He need not have created us at all. What was the need for Him to create us? But He's love and He's compassion. And He wanted to give His compassion, to express His compassion and that's why He created us with what care and with what delicacy. That one has to just see. We take ourselves for granted, our evolution for granted, everything for granted.

As he said that you did not pay anything to become human beings, you did not pay for anything. For example everyday, you see the flowers becoming fruits. How much do you pay to the tree for it? You see a seed sprouting, how much do you pay to the seed for getting sprouted? It's all so spontaneous, it's living.

And we are talking here about the living God, who lives, who does all the living things. What do we do? We do nothing. We do just dead work. Like something is dead, supposing a tree is dead, we make a chair, we can go, “We have made a chair." It's a dead from the dead. We have not done something living so far. Have we been able to convert even one flower into a fruit? And these thousands and thousands and billions and billions of things are happening around us. That's the work of the living God.

And also this evolution that has to go to its epitome now, to its last stage that is your Self-realisation.

Supposing I start collecting some nuts and bolts and start collecting some sort of a machinery. You will say, “What this machinery is meant for? Why are you making it, why this evolution? Why did we evolve to this stage of a human being? What was the need? What was the purpose?" Anybody would ask, “Why? Why there should be a machine made like this?" And that question is not asked by scientists so far because they have no answer for it. They are very honest. Because they have no answer, for the `why' they don't ask that question. Whatever is presented to them they see it and say this is it, this is so, so.

Now to get to God you don't have to go to Saturn or don't have to go to Moon, is within. He's within you, expressed within you, in your heart as spirit. Is all written in the Bible. I mean I am not telling something new.

Christ has said, “You are to be born again." When I came nine years back in America, I gave speeches where I said, “You have to be born again." And it's a happening, it's a becoming, it should happen, it's actualisation, is a real baptism that you should feel the Cool Breeze of the Holy Ghost coming out of your head. It's actually should happen to you.

So they took over and they said, “All right, we are born again." Again self-certification. Is all certifying yourself `we are born again, we are this, we are that.' You are nothing but your spirit and you have to become the spirit. Unless and until you have become it all this certificate is not going to help you nor you are going to feel satisfied because you are seekers. You are a special category of people born on this earth at this special time.

This is a very special time, is an extremely special, because this is the blossom time and this is the last judgment.

Only through Kuṇḍalinī awakening you can judge yourself otherwise there is no way of finding out.

Because when the Kuṇḍalinī awakens, which is settled down here in the triangular bone then your centers get awakened. When they get awakened you get this special sensitivity even on your fingertips. Now these five fingers, six and seven all of them get enlightened. Once they get enlightened, you can feel not only the All-pervading Power but you become, as he said, the collective conscious being. You become again I say you become. Is not that I say, `We are all brothers and sisters. We must love each other.' It's not that way. But you just become. Means you start feeling the another person within yourself.

So much so I was coming to Houston. And there is an Indian Sahaja Yogini who has come from India.

And she told Me, “Mother, why the heart is catching so much in Houston?" I said, “Do you know there are heart specialists here who transplant heart who have got... Also there is Doctor Kuri who is doing operations on the heart patients and there must be many heart patients in this place. And that's why you are catching on the heart." And she said, “It has become stiff my finger is." I said, “All right. There are mantras by which you can put it right." But it affects everyone and everyone can feel it within themselves. You become the other person.

Like people say, “Mother, you take money or what?" I said, “This is something one should understand, you are

part and parcel of My being. I can feel you within Myself. Now supposing My finger, is something wrong with My finger. If I try to help it, am I helping anybody other? Who is the other? Who is the other person?" That's the thing. Is a real unity, is the complete integration of being when you feel everyone within yourself. You start feeling them on your fingers. You start feeling yourself also within yourself, trying to know what's wrong with you. But in that case you don't feel bad. You don't feel bad at all that you have this problem or that problem because you are no more involved.

Today I'm just introducing this method which I called as Sahaja Yoga. Sahaja, Saha means `with', ja means `born', spontaneous Yoga. Means it is a in-born right of every seeker to get this union. Now today it has reached the stage of Mahā Yoga, means thousands can get realisation. It's a fact, it's a truth, people can get it. But it's nothing so difficult. You see, when the blossom time comes how many flowers become fruits. In the beginning may be only one flower or two flowers, but when the blossom time comes people have to see that. And in the same way you have to face that a time has to come where thousands must get realisation, millions must get it; billions must get it. As soon as possible, it is for you. Please try to spread this message that you are to become the spirit. This is a very important time which we miss. For example say our machine is not yet connected. Say a television is not connected what's the use of moving the knobs? You won't get anything. On the contrary, you may spoil the television. Or say a

telephone, when we pray to God also we telephone without connection.

We have to have the connection. That's very important. And that's what it was when Christ said that you are to be born again. As it is, you know, Christ was not allowed to live more than three and half years in that horrible country. He was crucified for saying what? He told the truth. He just told the truth that you have to become the spirit, which is a fact; you have to become the spirit. I mean it is such a simple thing to understand that we have not yet found out our absolute. We do not know why are we here, what is our absolute sense. Unless and until you find your absolute, you will live in relativity. You don't know whether this person is right or that person is right; whether he is a saint, or he is a Satanic force, or what sort of a vibrations he has got. Even to such an extent that I was surprised, in Spain that some people told us that for us vibrations means heat.

I said, “Any machine which it goes out, creates heat, friction, it creates heat. How did you believe that it is heat?" They said, “You feel very heated up." To understand one thing mentally is different than to understand it spiritually. Spiritually means you become the spirit, the absolute. There is no other opinion about it. For example, there is a gentleman sitting here and you get ten children who are realised Souls. There are many realised Souls these days born in America; I must tell you. Many children are born realised. And those children if you put them together and ask them what's wrong with this person, they will all raise this finger, saying this is the finger, that's burning. It's objective, just they say this

is the finger that's burning. Even if you close their eyes, they'll say the same thing. There cannot be two opinions about that person and that means he's suffering from the trouble that is in this center called as cervical plexus. You see this one in Sanskrit is called as `Viśhuddhi Chakra'. But in the gross it manifests as cervical plexus. Now in the universe, America is placed at this point. Is a very important point because it has sixteen sub plexuses. And you'll be amazed that the Saturn, the Saturn is the body of this plexus, Saturn. And now they have discovered that it has got sixteen planets and one that was caught up by them, even the ring and all that is already told about this.

So all these things they're finding out was found out long time back and was described from a subtler level.

Now this is a very, very important thing one has to know that America itself God has created with a special purpose. Abraham Lincoln and all these people, great people who talked about the fraternity and the collectivity and all that. Because this is the center of collectivity, this is the center where people feel the collectivity. Even your Unity Church is the outcome of that unconscious guiding that you have to become the collective beings.

And this collective being is placed here at the Viśhuddhi Chakra which is important because it has got sixteen sub plexuses and that controls all our lymphatic systems and our ears, eyes, nose and all these important thing and neck also. Also from here arises the ego and the superego which is shown from there.

But actually they start coming up from here. When man raised his head from animal stage like this, this center started developing in a very peculiar way. And in that condition this ego and superego started evolving and forming a cup like this. About this I'm going to tell you tomorrow, all about these centers and about the Chakras and all that.

But today I want to tell you about the truth. The truth as it is that God loved us, in His Divine Love He created us. And first thing that He has produced, or first thing that He created for us is His Divine Love, this All-pervading Power. And that Divine Power also resided within us as this Kuṇḍalinī. Now this power within us is the power of desire to be one with God, which is not yet manifested. It is called as a sleeping desire, or we can say a sleeping energy because it has not yet manifested. Supposing I create a machinery and do not put to the mains, it doesn't work.

So though I've put all My effort and everything to create the machinery, unless and until I put it to the mains it is still in a sleeping state.

So it is also called as a residual energy, meaning it has created the whole universe of the human beings but it has not been yet manifested. That's why it is called as a residual energy. This energy is within us.

Now I would say that when I say something to you or if I tell you something, you should not also take Me for granted because I may be telling you lies, gossip But that doesn't mean that you should deny Me.

Like a scientist, you should have an open mind when you come here. It's an hypothesis for you. And once the

hypothesis is proved then you have to accept it. And that's what one should come with that attitude. I would not say that people have ego or rationality too much, but it should be logical. Logically you must reach a point to understand that there are very many things we do not understand. For example, medical science cannot explain that the law is, the health of a person or a human being as he is always reacts to any foreign thing that enters into the body, anything that enters into the body. And when a lady conceives the foetus is not thrown out. Not only but it is nurtured and thrown out at the right time when it is *[UNCLEAR* mature], when it is perfectly matured enough to get out from the mother's womb. How it happens they cannot explain. Even they say that acetylcholine and adrenalin, these are two chemicals, ordinary chemicals as you know as all chemicals are. But in the human body they cannot say why they augment and why they relax. They cannot explain the mode of action of these two. They cannot explain.

Psychology, now take psychology. I mean science has created the stage for Sahaja Yoga. It has created because they cannot jump on to it, so they have definitely created a state from where somebody has to tell them how to jump. Psychology now for example Jung, a person of his calibre, went all out to find out what was universal unconscious. And he studied so many dreams and so many patients and found out that there is an universal unconscious which sends dreams which gives us universal symbols. Whether you are in India or here or anywhere else you get the same symbols. For example, he said that if you see a particular type of triangle which

is downward facing, the apex is downward then it means that you'll be murdered. If you see, the same triangle upward that means you will murder someone.

So the unconscious is giving you a guidance. He also said very clearly how he treated some patients with this understanding that there was a lady who came to see him and the daughter was with her.

And she said that, “I always dream” the daughter said, “that my mother is a witch while my mother is very kind to me, I don't know how to understand this dream that says that my mother is a witch and she is just *[UNCLEAR* draining] me?" So he studied her and he asked the mother, “Do you spoil your daughter very much?" She said, “Yes, I give her lots of money and I give her everything and I give her all the freedom and I say, `Do what you like with yourself,' I'm not bothered about her." And the daughter was very young about fifteen years of age.

So the unconscious was giving the warning to the daughter say that, “Do not take to these things, be careful. If she's spoiling you, be careful." Then another dream, just to match with it, he said, “There was a gentleman who always saw in his dream that he's bowing to his son, all the time bowing to his son." And like a king the son was sitting and he was just going and bowing to him." So he came to him and told him, “I don't know why I get such a dream." He said, “What is your relation with your son?" He said, “The son is just, I would say because he was born to my first wife and my second wife is against him and that's not good relationship and you see

I cannot afford to be very friendly with him” and all sorts of things he, the relationship was not so good.

So then he said, “That's the thing that your son is very much liked by God. He is a saint. He is a good person. And why you are troubling him? So the unconscious giving you all the time the information that you just don't do that." And that's how he calculated what kind of a symbol expresses what. And it was amazing, though he got his realisation very late in life, the way he discovered that there is universal unconscious.

This universal unconscious is nothing but this All-pervading Power. Now it is unconscious, means it is not in our central nervous system. We are not conscious of it.

So we have to be conscious of it. How do we get conscious of it is that, first we have to get connected to our Spirit because spirit is the expression of that universal unconscious within us or you can say the link. Unless and until you get your Self-realisation you cannot be linked, you cannot be linked with this universal power which is within us as Kuṇḍalinī and which is without all over.

It is most surprising to understand that God who has created us with such care with such love, especially as a human being which is the most beautiful thing God has created. We may or may not think so. We may not. We may have self-pity; we may have guilt, all these nonsensical ideas. But you don't know.

You're special thing that God has created. And on top of that the highest human being are not these politicians, or these great successes and geniuses and all that but who? These are the seekers because they have to enter into

the kingdom of God. It is their right first to enter into the kingdom of God. They are a very, very special category. And this is very well described by a great poet William Blake, who says that these are men of God. And he described the modern times and Sahaja Yoga very well.

He says, “These men of God will be born in those days and they will become prophets and they will have powers to make others prophets." And that's the thing he said.

Then when you go to any seeking or any one you must know, “Have you become your own master?" You must have the mastery. Supposing you want to learn a car driving, a simple thing like that, you should know how to drive the car. Supposing you go to somebody for any seeking, you must know, “Have you been able to drive yourself all right towards seeking?" For example, I've seen people who just start jumping. When I went to India, there was gentleman who was sitting and he put his feet forward like that.

So people said, “You can't put your feet towards Mother. That's not proper." He said, “Oh, God. If I put my feet backwards, I will start jumping like a frog." I said, “How? Why? What has happened to you?" He said, “My Kuṇḍalinī is awakened by my Guru and he says after Kuṇḍalinī is awakened you start jumping like a frog." And he showed Me in the book this fellow had written that you start jumping like a frog. Can you imagine? It was written in the book.

I said, “Are you going become now frogs or earthworms? Are you going to jump like that, like a monkey or a frog? Are you going to bark like a dog?" You are going to become a super human being. You are not going to be

driven by these forces, these are all negative forces, which control you and make you mad like this.

You have to understand everything when you get your realisation, every word of it. It's so logical; it's so practical as he says. It is so practical and it is so wonderful.

Gavin Brown who came here first, was one of the first Sahaja Yogis I had in London. And you know English people are rather difficult to crack, I mean, rather difficult people. But they are first class. I mean that's the good thing because they do not get exposed to so many nonsenses that some people who are open can get you. And once they get realisation they're really top class people.

Now this gentleman when he got realisation, he said, “Mother, you said we can be collectively conscious.

I can't believe it. How can I become?" I said, “If I tell you about the television, you won't believe Me till I put it to the mains. You see anybody will think it's just a box. But you are a great instrument and you have started working." He said, “All right! I am rather worried about my father. He didn't telephone to me all these days." I said, “All right. You just telephone to him and find out." I said, “First of all see your vibrations." He said, “Mother, I'm getting a burning here, a terrible burning." Now these are the centers for your father, right hand side, these are the centers.

So, I said “All right. That means, this center that means he must be down with a very bad bronchitis." He telephoned and the mother came in and she said, “I am sorry your father is down with very bad bronchitis." This

telecommunication, this Divine Power knows everything. It understands everything. It knows you very well because it has created you. It organizes everything, it cooperates everything, it puts everything into integration, it works out everything. It works out so many things, even material things it works out; even getting a ticket, it will work out. It's so helpful; all the angels are there. Just to see all that, to witness it itself is so great. From lowest to the highest, it works out everything for you. And the whole, the sum total, the unity of it is that it is love.

So it is so kind, it is so compassionate, it looks after you.

It, you see, hobnobs with you little bit, you see, gives you little lesson here and there, but it never allows you to be ruined. It gives you little lessons if you do wrong; it teaches you little bit then again it brings you back. It is so loving, so kind. Specially for people who are just realised, are like small little children like seedlings. It looks after. It guides you very much, it helps you so much. It's such a wonderful thing to be with it and the whole thing looks like a fun, like a drama.

I went to see a gentleman called Harban in New York and he had three children born realised. One was about seven, another was about five and the little one was about three years. And all one better than the other with sparkling eyes just waiting for Me.

And when I reached there they said, “Mother, aren't there three eyes we have got?" I said, “Yes, where?" “One here, one here and one there. And daddy doesn't believe me." And this one of these Gurus has told him wrong that there is only one eye. No there are three,

three are centers here actually. And they argue with their father.

And they said, “Mother, aren't you tired?" I said, “Why?" “We are tired now because we are watching the story bit too much. We should finish now." Just imagine. Small children of seven years and five years are talking like this. My own grandchildren are realised Souls and they are so wonderful that the one who was three years of age went to school and everywhere these days they are selling God.

So in the school they gave some papers they are saying that, in the paper was saying so, that if you come to a particular hotel and pay about a hundred rupees, you can get your transformation.

So she looked at Me, she said, “Transformation is not possible till you get your Kuṇḍalinī up there, up here." I said, “It's true. It has to happen but they are saying like this." But the elder one says, “It is not possible. They are saying, `You can give a course.' How can you give you course? My father has done fourteen courses. His Kuṇḍalinī has not risen as yet. If by courses if you can raise the Kuṇḍalinī then my father's Kuṇḍalinī should have been there." You see they understand these things so clearly, so clearly. If you talk to them, you'll be amazed. The another granddaughter of Mine, she was five years of age and she went to Ladakh with her father. And there she saw one Lama sitting like this with a *[UNCLEAR]* dress he was wearing. And she told Me he was wearing a maxi. She couldn't understand the dress was the dress of saint so-called.

So she went there and she looked at him and she couldn't bear when... You see when everybody was touching his feet. And the father went and touched his feet and when mother went and touched his feet she just went and stood before him.

And she said, “You are not even a realised Soul, in Hindi *[UNCLEAR]*, you are not even a realised Soul. What do you mean by getting everybody's salutes? You are not even a realised Soul and you have no business to do that." She stood up like that. And these two, My daughter and son-in-law were so embarrassed.

She said, “You get down from there, you are not a realised Soul, you should not allow anybody to touch your feet." Can you imagine a five-year-old child saying that? It happens. These children are coming up within ten years you'll see. They are the ediffice, they are the complete structure, but you are the foundations of these great work, you are the foundations.

So you must get your realisation, that's the main thing. You must get your realisation. Once you get realisation, all other things which I've described that, what, I solve your alcoholism and other problems like mental stress and all that goes without saying. You see once you get your realisation everything will work out.

So first of all you must get your realisation. And as you get realised all these problems get mostly solved by themselves because, why do we take to alcoholism or to drugs? Either for seeking or for escaping. Because you are so bored with yourself and with others that you take to these things, absolutely it is the expression of boredom. You don't know what to do with yourself, you

don't know why are you here, why you are existing and why these boring people are around you. You just get fed up with it.

And you are bored with the matter. You don't understand. Now you've bought your Hoover, you bought you fridge, you bought your house now, what to do now? What to buy? So that's how you start taking to these things and you develop these habits then because everything forms a habit. Anything material forms a habit, even a car. Even a chair can give you a habit that you can't sit on the ground.

So these things form a habit and you are becoming habituated and that's how you get into it.

But as soon as you find your spirit, you know you are beauty, you are so enjoyable, whole thing is such a fun, such a fun, because you become a witness. And then these things drop out, just forget about it.

You just forget about, you don't have to remember that you have to take any drugs.

And some people told us that, “Mother, we just forgot. And the drug was lying with us and we forgot that we were druggists and chemists." They were just relieved of that problem. And how we cure the cancer, how we cure other diseases and how imbalances work out within us. All these things I will tell you tomorrow and explain to you in all details. But just now is a day, is a very great day of Lalitā Pañchami. In India we say that this is first day of the Holy Ghost permeating this power all over and is very great day. And when I came to Houston the vibrations were so great.

I said, “Oh God. This is the place where something has to happen." And I'm very anxious that you first get your realisation and then we'll talk about it. Because if you come in this room there's darkness and you are blind, you can't see anything. What's the use of explaining any colour or anything? First let us have the eyes, let us have the light and then we'll talk about it. It's much easier to talk about that.

But in any case I would like you to ask Me some questions about this part of the lecture.

May God bless you all.

[Shri Mataji and audience laugh.] They are real seekers.

Seeker: [says she is feeling it, she thinks].

Shri Mataji: Yes, yes I know you are great people over here. You must feel it, very, very good. I know you are feeling it. Tremendous, it's tremendous, I am just one with you. It should happen to all of you. It will take hardly any time, but don't be adamant like small children are: “I won't eat." You see. If you are hungry, you'll just have it. I've done the cooking. You just have it and enjoy it. You don't have to bother as to how I have done it. I've really done it, no doubt.

Yes, please.

Gentleman: When the Holy Spirit comes down does that just happen one time?

Shri Mataji: All right. You see the whole working of this is the other way round. First, this Kuṇḍalinī rises, you see, above, because you see, when you put your hands towards Me or anybody who is realised Soul who knows

the job, you see, She knows, because She understands everything.

So the information goes through your fingers because these fingers are actually sleeping centers, the manifestation, the gross manifestation of these centers.

So the information goes down to Her there and then She rises just like a primule or the sprouting in a seed. She rises as you put a seed in the Mother Earth the seed knows and the seed starts sprouting. In the same way She sprouts and this germinating power, first time. Now this one, as I am going to tell you all about it tomorrow very much clearly, but may be one thread out of it might be able to pierce through because if there is problem in the centers, if there's physical, emotional, mental, any problem then the centers are constricted, then She just goes gradually and awakens one center after another, expands it and She makes this bone become soft, just like a child.

As Christ has said you have to become children to enter in to the Kingdom of God. This bone becomes, this really becomes softer and this becomes softer and through that She pierces and you can start feeling the Cool Breeze in the first shot. You start feeling the Cool Breeze in the first shot. Then what happens when She pierces this, All-pervading Power starts pouring down through that and it goes on falling on both the systems here, which I will explain tomorrow, by which these centers also expand.

So the system is built in this way that first this has to open. When it opens then this All-pervading Power falls on these two channels which manifest actually left and right sympathetic nervous system which I'll explain to

you tomorrow. And then by relaxation, by relaxing that, you will feel relaxed after that very much, these centers open out much more. They are thronged together. They open out and then more threads of Kuṇḍalinī can rise.

So in the beginning is the sprouting, it takes place and then some people it is a very great experience.

I've seen some people get it in such a big way. But then the Kuṇḍalinī goes to attend to the problems of a person, but you know She is attending because you can feel it on your finger. You can feel the throbbing.

Supposing you have a liver problem She'll go and throb there and you can see the throbbing. You can actually with naked eye see the throbbing there also in some people. If there is an obstruction in the second center or in the third center then you can see the actual throbbing just like a heart. `Lub, dub, lub, dub,' it goes on. You can feel it with the stethoscope also. The rising throbbing and here also you can feel the throbbing when it comes. With your hands you can, with your fingers, you can feel the throbbing and then that throbbing stops when She pierces through. But She can come down to look after other centers and She... Then we have to learn. Then the Divine technique has to be learnt how to keep it raised, how to increase it, how to do. Before realisation there is no technique, there is no technique. Once you have got the seedling then you have the technique how to make it grow. Before that there's no technique, is a living process, is all built-in, you are just pushed through.

For example in machine, as I said, is very good example, you put it through. But supposing there is something wrong with the plank or something wrong then the little

bit you have to correct it. Then you take a screw and screw it up. But you know everything there then how to screw it up, how to screw, which bolt is missing, whatever is done, it's very simple. And that technique one has to learn which is not at all difficult. Anybody knows it because you just know. Wherever the Kuṇḍalinī is stops, immediately you say, “It is stopped." Like people will come and say, “Mother my Āgñyā is caught." So I will say, “All right. It means that I've got ego." If Āgñyā is caught that means you have got ego.

But that person won't say that, “My, I have caught up with my ego. Such a big ego is on my head." But they will say that Mother my Āgñyā is caught. Now this is the center of Christ which is a very important center, about which I will be telling tomorrow, which is very important, which we have missed the point that He is to be awakened within us. He is to be awakened. Unless and until He is awakened we cannot enter in to the limbic area, our attention cannot enter into it. And that awakening takes place through the Kuṇḍalinī's awakening, She enlightens that.

So the whole mechanism I'll explain to you tomorrow and you will see the whole thing working it out. All right?

Seeker: Yes. Thank you. *[UNCLEAR]*.

Unknown: A Seeker just going to tell everybody an experience and you *[UNCLEAR]*.

Shri Mataji: All right.

Seeker: All right. Thanks a lot. The seeker is describing his experience but it is not very clear.

Shri Mataji: Ya, that's it. You know what happens. You become thoughtlessly aware because Christ is awakened. If Christ is awakened within you, here you see the point, is very important, He sucks your ego and superego. He sucks your conditionings. He sucks your Karmas on which these Gurus are making money now a days. See, they tell you, “These are your Karmas, you have to suffer." Then why are they there? You see, this saying if people had told Indians, it would have been a very different history but the Christians who went to India, I mean they were very funny people. You see they never told this fact that Christ is to be awakened at Āgñyā Chakra because they were just waiting for Him. They knew that this has to happen. When this happens what happens? You become thoughtlessly aware, peace. That's the first thing that happens, that's in Sanskrit called as Nirvichara Samādhi. They say is the most difficult thing but I don't think it's most difficult. I mean if you don't put seed in the mother's land, naturally to pull out the seed is very difficult, isn't it? But otherwise it's so naturally built-in.

So it happens.

That is not another mind. Is the thoughtless awareness where you are beyond the mind. The English language doesn't have a proper concept of a mind. I don't know whether they mean it the intellect or they mean as the emotions because mental patience and all these words they use. But if you mean minds by intelligence or by what you call awareness it goes beyond this awareness, human awareness and takes you to another awareness called `thoughtless awareness' that is `enlightened awareness.' Even with this you can cure people, even

with this. But once it jets out and once it is stationed that's the second stage in which you can give awakening to others just like this. Under your finger it will move. You'll see it move.

You can do it from tomorrow, today if you get realisation, yes. You can do it. You just feel it here. It's there. Ya, most of you have got it, just see.

Put your right hand towards Me perhaps.

Seeker:... heat...

Shri Mataji: Heat? Yes some heat has to come out because lots of frictions are inside. Like this, you put another hand towards Me, like this. Heat has to come, you see, because there is lot of frictions. But heat is jetting out. Now there is a chimney created. That's all right. You should accept that part. It's still on. It will work. You put your left hand towards Me and right hand there, left hand. But you can put both the hands towards Me. Now, we'll, it's very simple. By asking few questions, you can achieve.

Close your eyes. Just close your eyes and put your left hand towards Me and right hand on your heart because the spirit resides in the heart. And now ask a question, `Mother, am I the Spirit?' Just ask the question. `Mother, am I the Spirit?' Ask that, put the hand like this as if you are asking for something.

Like this, not that but like this. Say, `Mother, am I the Spirit?' Keep your eyes closed. Ask the question in your heart, `Am I the Spirit?' Then you can ask another question: `Mother, am I my own Guru?' Ask three times. You will feel a little cool. Now put another hand towards Me closing your eyes and just say, `Mother I forgive

everyone.' That is very important. We must forgive. Just say that. Saying is very easy.

Actually what do we do? We do nothing. It's a myth. When we say “we forgive" we just do nothing.

When we say “we don't forgive" we torture ourselves for others. Why should we torture ourselves? We should say, `We forgive everyone,' so we have no loads on ourselves. This is a self-torture system. Now say, `Mother, we forgive him.' Say it again and again, will be good idea to relieve you of the problems.

Now, again put your right hand on your heart and ask the question, `Mother, am I my own Guru? Am I my own master? Am I my own teacher?' Because you become, you become your own teacher. Once you become that discretion power, you don't have to ask anyone. You know it yourself.

Now another problem, which Western people have, is to feel guilty. I don't know from where it has come. Why should you feel guilty or why should you suffer? Christ has suffered for you, isn't it? Or there is something left for you to suffer? Why should you suffer? Why should you feel guilty? He's there to look after you. He has already promised that all your sins, blasphemy, everything will be forgiven.

So just say, `Mother I am not guilty.' Really, say it twice. That's very important. Just say, `Mother, I am not guilty.' This is self-torture again to say that, “I'm guilty." What's the use of feeling that you are guilty? The whole system is wrong to torture yourself all the time saying that you are guilty. You are not guilty.

Christ has suffered for you, you don't have to suffer. If you ask for suffering, you will have that.

So you have to say that, `Mother I'm not guilty.' Now last of all, you have to say, `Mother, please give me my realisation,' you have to ask for it. Nobody can force it on you. It's your freedom. If you want it, you can have it. If you don't want to have it, you can, just don't have it. For example, somebody asked Me very mischievously, “How do we go to hell?" I said, “Take two running jumps and you can go there." [Audience laughs.] Very simple.

So if you want to have realisation, just say, “Mother, I want to have realisation. Please give me my Self-realisation." You have to humble about it, you're asking for the ultimate and it will just work out.

Now don't think about it. Just, it will go beyond thinking. You just become thoughtlessly aware. It will work out. Now feel your, on the right hand, with the right hand you can feel your cool. Ask for it, “Mother, please give me my realisation." I cannot challenge your freedom that's given to you. In your glory of freedom, you should ask for a greater freedom, for a greater liberation, for real liberating. See.

There? You start first feeling on the head, then you start feeling on the hands also. Just keep it like this for a while. Close your eyes. It will work out. It will work out. And also to say that, `If we have done any mistakes in our seeking, please forgive' without feeling guilty, of course, without feeling guilty. Don't feel guilty. That's a big problem. And also know that God is responsible for you. He has to be responsible about creation and He has to come in a very special way to give you realisation. He

has to save His creation, He has to save you. You are His creation, all right? Got it? [Laughs.] All of you? Those who didn't get also will get, slowly. See, like one fruit becomes then another becomes, like that, yes, you can feel each other also, you can feel each other, vibrations. It works out. Close your eyes and enjoy. Closing of the eyes is important because when the Kuṇḍalinī rises, see, the pupils of the, they dilate, of the eyes. It's better to keep the eyes closed. Otherwise the Kuṇḍalinī may not rise. It's just the opposite of mesmerism. Hm. Good. You have found it. Now to believe that you have found it is very difficult because Guru shopping is on in America, I think. You see they are all busy shopping and this is a temple you enter into. And then you can't believe this is a temple, there's still the Guru shopping is on.

So now you have to stop this rat race for one minute and see for yourself. You've got it. Otherwise, you will not grow. You have to become your own Guru. You don't have to go to anybody else. It's you who knows everything now. You'll know gradually now. You'll be amazed how much you know.

Like in America they said, “Mother, are your disciples all scholars?" I said, “No." They said, “They are such scholars. They know about so many things." I said, “You become the knowledge. Truth is the knowledge. You become the knowledge, just become." Those who haven't got can raise their hands.

Some of the Sahaja Yogis can go and help them also.

Because they can talk to you, it's better to talk to you.

Not to think bad. Because some people don't get it if they have physical problem.

Or mental problem, doesn't matter. Those who have not felt, it's better to be honest about it because you must get it. It is your right to have it all right? Now let's see, can you go and help them? Can they come on the stage I can help them, those who haven't got? How many are there? If they could come here on the stage and be seated all here in the front line then we can work it out.

You must get it. You must get it, all of you.

On the stairs will be all right. They will work it out. On the stairs...

Just sit down anywhere, they can come round and see for yourself.

Anywhere. I would like to see all of them because those who are realised are really great, I feel that.

And also those who have to get realisation. Now can we remove this? *[UNCLEAR]*. Can you get the light? I'll work out with the light maybe. St. Michael's method this one is. You will also learn very soon. *[UNCLEAR]*. Too many...

[Now follows an ongoing conversation of Shri Mataji with single different seekers who came on the stage not always clearly audible. Also Mother speaks to the total audience through the microphone.] Just watch it. Watch My hand, without thinking. Just watch My hand without thinking. Can you get *[UNCLEAR]* please? You can sit on the chair. Put your hand *[UNCLEAR* straight]. You got it.

[UNCLEAR]. You may not feel today but if *[UNCLEAR* Siddhi] can feel it then tomorrow you can feel it yourself. Because of the sensitivity in the hand, you know, may not be so good. You got it too. You got it, yes, I know. You sit down. Those who have got it should sit down, sit back.

Because we'll have to get one by one. Got it, see yourself. *[UNCLEAR]*. Just see. Higher. Good. Al right. You got it. Just put both your hands towards Me. Like this, like this, ya. See. All right? Got it now. All right. You have got it also. Can you feel him? Yes him. Hmm? *[UNCLEAR]*. Are you feeling? Not on the head? Just see here. You got it also now. You got it now. Watch your hands, watch your head also. You got it. Just see yourself.

Is it? *[UNCLEAR]* I would like to be closer to you also. Who is this? Most of you've got it. I think in the Nābhī. Hmm. Those who haven't really got it. [Laughs.] Let's see this gentleman behind the *[UNCLEAR]* got it. You, you only. Just see him. No, no, no. This one with the *[UNCLEAR]*. He's got it. He too has, the one...

Yes. You can feel it, just feel it. You see, it's a very small thread, it's very subtle.

Some people get it in a big way but it's very subtle. Ha. Now. All right? Now this gentleman? What about you? Just put your hands like this, let's see. Watch Me, watch Me here. Got it now. All right? [Laughs.] It's very simple, just go on feeling *[UNCLEAR]* it. Start's now, what about you? Feeling it or not? In the Nābhī; You have been to some Gurus or someone? No one? You have got. You have got. You got it. All right.

[Laughs.] You didn't go to any spiritualist? Did you?

Seeker: *[UNCLEAR]*.

Shri Mataji: Ah, they can be very dangerous also, these spiritualists, I'll tell about all of these people tomorrow. You got it, there, with the red? All right? Good. [Laughs.] One by one, how you get it, you see now. Everybody has to get it, everybody's going to get it. All of you all are

going to get it, so don't be worried. Just don't be worried, that's the main point. He should get it, *[UNCLEAR]*. Most of you have got it. Hmm. Now? Got it?

Seeker: Warm...

Shri Mataji: Warm, warmth will go away, will become cool. It has opened out, you see never warm coming out from here. *[UNCLEAR]*. Now. Better? Hmm. You got it too. Now just feel it. You all got it. All right? Feels great. Look at that. How it's happening. Just like... [Laughs.] What about you? Did you feel? There. No. Just see him. It will work out. Just watch My hand. Don't think about it, all right? It is the beyond, it triggers into the state. All right. We work it out.

Somebody here, this side. Hmm, should be cool. It will cool down, it will cool down, little bit. You put your left hand on your liver, left hand, this side. Now put your right hand towards Me. Cool? All right? Hmm, That. Right. You have a little liver problem. Liver. Little liver. You see.

Seeker: *[UNCLEAR]*.

Shri Mataji: What is happened?

Seeker: *[UNCLEAR]*.

Shri Mataji: Is it? That's the heart. Now put your right hand and go on saying with your left hand towards Me that, without feeling guilty, `Mother please forgive me if I have done any mistakes,' and say that, `I'm the Spirit.' If you just say that, it will work out. All right?

Seeker: All right.

Shri Mataji: Just say. Go on saying. She has got it at the end there. All right?

Seeker: *[UNCLEAR]*.

Shri Mataji: Now he'll feel it, he'll feel it. It takes time because our fingers are not used to this. We have not felt it before.

Seeker: *[UNCLEAR]*.

Shri Mataji: Hmm. I told you, you had liver, that's why, that's why the heat is there. Doesn't matter, the heat is going out. It's good, it's clearing out, it's so clear. You don't have to tell Me about you suffer from. I just know, all right? And you will know too. Are you feeling?

Seeker: *[UNCLEAR]*.

Shri Mataji: You have pain? You have pain in the back.

Seeker: *[UNCLEAR]*.

Shri Mataji: All right! Not now, all right. Good. Most of the, you've got it now. What about you? I tell you. *[UNCLEAR]*. The lady behind. Hah. You got it? Did you feel? Yes, try to feel it. It's there.

It's again very subtle. You have got it. What about you have got it now. Don't worry now. Tell Me *[UNCLEAR]* put your hands like this, got it. Fine. Got it now. It's cooler, very much cooler, see. It was hepatitis, it was hepatitis. I could see that, you see and the hepatitis is cured as well, it's that. The heat had to go away. You see so much accumulation of heat in the liver. You see liver is the one which sorts out your all poisons, you see. But that shows. Tomorrow I'll be telling you all about diseases and things like that and if there are any doctors it will be good idea for them to come and see. *[UNCLEAR]* My child.

Seeker: *[UNCLEAR]*.

Shri Mataji: Now can you put your left hand on your navel, left hand, yes. You got it.

Seeker:... got very bad damage here... from a Guru...

Shri Mataji: Which Guru you went to?

Seeker:... Maharishi...

Shri Mataji: sākṣhāt Narakasura Mardini Om Sakhsat, Narakasura Mardini Om Sakhsat Narakasura Mardini. You must understand *[UNCLEAR]*, My child. It's very simple to find out these things, isn't it? He is going to teach you to fly. Are we going to become birds now? Why not make you fly himself? Put him on that Leaning Tower of Pisa. That's the best. If he can fly even one inch, you can photo. Horrible people they tell you all stories.

Seeker: *[UNCLEAR]*.

Shri Mataji: All right, just. sākṣhāt Narakasura Mardini Om sākṣhāt, Narakasura Mardini Om sākṣhāt. Keep your eyes open. Just say, put your right hand on your heart and say, `Mother I am sorry for this...' You see, after all you are a seeker, you have made mistakes, all right?

Seeker: *[UNCLEAR]*.

Shri Mataji: He's horrible I tell you. He has given epilepsy to people, you won't believe, epilepsy to people. The head of their academy in Scotland came to Me with epilepsy, daughter, his wife, all of them got epilepsy. Horrid person. If you want to read about him. This lady went to some broker News of the World and she's published all about it. Horrible people. *[UNCLEAR]*. Such a seeker, you'll get it. Don't you worry.

Seeker: *[UNCLEAR]*.

Shri Mataji: You are going to get it. Whatever let them try. I know all their tricks and the trades, all right? Ha,

you got it, now, all right. Now close your eyes. Enjoy yourself. Yes please?

Seeker: *[UNCLEAR]*. What is this sensation on the whole of the hand?

Shri Mataji: You get a Cool Breeze and *[UNCLEAR]*.

Seeker: Cool breeze coming up from top of...

Shri Mataji: Like a jet.

Seeker: *[UNCLEAR]*.

Shri Mataji: Yes, heat would be there in the beginning. You see the heat of the body has to come out. He's all right now, this gentleman. We just see this gentleman. Are you better?

Seeker: *[UNCLEAR]*.

Shri Mataji: Hmm. You better forgive him. Better forgive him. All right? Just forgive. Just forgive.

Ha. Keep your eyes open, you better *[UNCLEAR]* watch *[UNCLEAR]*. Ha! All right? She got it? This one. Now who have not got it? This gentleman, look after you. It's very good. Are you a science stud? Are you a science stud?

Seeker: *[UNCLEAR]*.

Shri Mataji: Then what? What have you studied?

Seeker: *[UNCLEAR]*.

Shri Mataji: Let him ask Me, builder of the builder, you see. All right. Good.

[People taking.]

Shri Mataji: Smoke. All right? All right. Keep it down, keep it out. That's all. You won't smoke now any more. All right! Got it, all right. [Laughs loudly.] With a package it was hiding there. He's found it. As soon as he took out

the packet, you see, he's all right. [Laughs.] Otherwise, he was breathing heavily, see. Great. Great. Smoking, you'll give up. Just put in little willpower. Think of Me that time.

It will go out, all right? You too, you have a liver problem? Hmm. You put your left hand on the liver.

I'll tell you tomorrow about liver, everything. How to get it all right, on that. Higher. I will tell why you get livers also, everything, tomorrow. I hope you'll bring up paper and a pencil also to note down few points and also I think they can give you My tapes later on if you want to have the tapes. Hah. Good.

All right? Throw away this in the sea. Just throw away. It will go away. It will go. Are you all right? Did you feel, this gentleman. Did you feel? Not yet, all right! Those who have not yet felt again raise your hands. Just raise your hands.

Warren: If you have not felt it, raise your hands.

Shri Mataji: It must be. Still at the back.

Warren: *[UNCLEAR* The others] just move back and let any others come.

Shri Mataji: Yes, yes, those who have not. Let others come in.

Warren: Everybody should feel it, it's your own.

Shri Mataji: It's your own. Those who have not felt, come along. Come along.

Lady: *[UNCLEAR]*.

Shri Mataji: Yes, he's great. Yes.

Warren: If you can't feel it, *[UNCLEAR]*.

Shri Mataji: Again, again you got it. Now come along.

Warren: It's coming up and down.

Shri Mataji: Please come down. Come here, I will tell you what. You turn round. Turn round. Hmm.

Now you put your hands.

Warren: You put your hands up.

Shri Mataji: Ha. Now your eyesight has to be improved also. Now you feel it? Warren: Don't think about it, *[UNCLEAR* ma'am/now]. Just a...

Shri Mataji: Nābhī. [Short pause.] Is working. Now you are feeling? *[UNCLEAR* Fasten/Fastent it] again. Ha, sit down. We'll see what is catching. Sit down facing Me.

Warren: Turn around.

Shri Mataji: Hmm. Come here. *[UNCLEAR]* now. Close your eyes. [Short pause.] Is working. Do you feel? Warren: *[UNCLEAR* Mother] can I ask him to forgive it, *[UNCLEAR* came up Mother].

Shri Mataji: You have to forgive. With whom are you angry since childhood? Lady: *[UNCLEAR]*.

Shri Mataji: Ha? Alright. Now you just your hand down there and you say `Mother, I forgive everyone.' Just forgive. Forgive. Forgive. Forgive. Forgive. Now you got it. Are you angry? Still? Lady: No, I can feel it now.

Shri Mataji: Now feel it. Now don't be angry with anyone, alright? You have to forgive. Now feel it, now that's it. When you start..., see now you got it again.

Lady: *[UNCLEAR* I know, I...]

Shri Mataji: Not yet yet, now see. [Laughing.] Children are so good. It's alright, it will work out.

You must forgive, alright? Fully forgive. It will work out. Alright? Good.

Warren: Feeling it now? Lady: No.

Shri Mataji: [Laughing.] Again you remembered something. What are you remembering about? You have to forgive, you have to forgive. With whom are you angry? Are you alright? Just see, just put your hands towards Me. You are good. You got it. Hā, now.

Lady: Mhh, now. *[UNCLEAR]*.

***Contents: 1981-10-05*, Public Program (7th Day of Navarātri), Day 2, The Beauty that You Are, Houston, TX, U.S.A.**

Yesterday I told you that God has created us with a purpose and unless and until we find out our purpose, unless and until we find out our absolute, we are going to seek and we are not going to be happy. He has done everything, very beautifully.

Now we should understand what are we really, inside. Moreover, as I explained to you yesterday, that whatever I say is to be taken as a hypothesis, as a scientist who would keep his mind open and see for himself, because everything is not known to you.

And whatever I say, you have to keep your mind open, you need not accept Me blindly because blind faith is of no use. But, if you get your enlightenment, you get your Self-realisation, you actualise it, you become, then you have to verify for yourself whatever I say, is it true or not.

For example, if I say that the Christ, our Lord, is placed in this center of ours, at the Āgñyā Chakra, which I'll explain to you in details. You are not to believe Me that He's placed there, but you have to see for yourself when you

get your realisation, you will be able to raise the Kuṇḍalinī of other people.

And when you start raising the Kuṇḍalinī you will find that it will stop at this point, because you will become your own Gurus, the Kuṇḍalinī will move at your fingers and then when you find the Kuṇḍalinī has stopped here you'll be amazed that you will have to ask the seeker or the subject to say the Lord's Prayer. And that's the only way you can get out the Kuṇḍalinī from that center. It's a mantra. It's a mantra, it's a chanting, which He has given to us.

He could have given the bīja mantra, the seed of that chanting is Ham-ksham. But, He didn't give because He thought people would be, specially Christians would be very rational people, so He thought better give a complete explanation of the whole thing. But every word of it is a mantra. But it is to be awakened; if it is not awakened, it's dead. It is to be awakened, this is the basis of Sahaj Yoga.

`Saha' is `born'. With you, saha-ja. `Ja' means `born' and `Saha' is `with', is born with you, spontaneous, it's living process within you, is your own right, you must have it.

So this is a living process and the living happening should take place.

You should become your absolute; you should become your own Guru; you should get complete integration within yourself; and then you will be able to discriminate because the All-pervading Power, about which I told you yesterday, is surrounding, is everywhere, only you are to be awakened; once you are awakened you can start feeling them, the existence of that, around you, on your

fingers. Imagine on your fingers you start feeling that Cool Breeze of the Holy Ghost. That should happen to all of us and the time has come, the blossom time has come and thousands must get their realisation.

With this today I would explain to you the different centers we have within ourselves and the Chakras that are within us. I was amazed, in New York they said that people are taking lot of money for this Chakra therapy, I mean I just can't understand what they do about it, but all those who came from these Chakra therapies, they had all their Chakras ruined completely.

I mean, you pay to ruin your Chakras, I just couldn't understand. Anybody coming from India is not a saint, on the contrary, as I told you, there could be greatest thuggery in India. Yes. They are very intelligent, cunning people, they can be very good. If they are good, they are very, very good and if they are bad, they are horrid.

So you have to be careful when you think of an Indian that, as we cannot say that all Americans are Mister Ford, in the same way Indians also, you must know how to discriminate.

First of all your discrimination power must come to you, otherwise you won't be able to make out who is the real, who is not the real. That must happen to you. Unless and until that happens the rest of it is, is of no use, because as I said this room is dark and your eyes are closed, when you come inside you see nothing but darkness and I start telling you, “This is this, this is this and I tell you there's one elephant you can't see here and there's one tiger sitting here” you just believe it. And there's nothing like that here. And you people are definitely much more

honest that you can't believe how people could be such fake. Oh, there can be fake people all over the world. I am ashamed of it sometimes when I see that in the great country of Yoga, where such great incarnations came in, such great work of the saints has been done, horrible people also are born in the same place because that's the place they want to harm, they want to attack. They are negative, not only negative but they are very, very dangerous. I may tell about them tomorrow or day after, but today I want to tell you about the good things that you are. The beauty that you are and how beautifully you are made within yourself.

So within us, as I told you, lies this residual power called as Kuṇḍalinī. This is a part of the All-pervading Power which thinks, which understands, which coordinates, which loves. Is the integration of all these powers within us, as this Kuṇḍalinī. Now so many books have been written about Kuṇḍalinī. When I read them I was shocked that how could people write books about Kuṇḍalinī without understanding what it meant, without understanding where it was. Such big books have been written on Kuṇḍalinī, which says, “The Kuṇḍalinī is in the stomach” some say “this Kuṇḍalinī's in the nose." I don't know how could people write, I mean it takes nothing for them to write something and to publish and they are not afraid of God that they are writing all these nonsensical things without understanding it.

So this is the Kuṇḍalinī that is placed in the sacrum bone. Now this bone, even in English is called as sacrum, this word comes from Greek as I told you that Greek people knew about Kuṇḍalinī. Sacrum means sacred. This bone

is a sacred bone. And why is it a sacred bone because the Kuṇḍalinī, the primordial desire within us to be one with the Divine, is still unmanifested and sleeping and is the safest place where it has to be.

Now you are paying attention to Me, now if I say you pay attention to yourself, you cannot. You may say, “I'm paying attention” but you cannot, you cannot take your attention inside. But if there is some happening within you, then your attention is drawn inside, so it is built like this that at a human level this happening will take place of sprouting. And when this sprouting takes place, then your attention is pulled inside. This attention has gone out because of the prismatic, as you say the prism here, prismatic action of the brain of a human being. I will not go into the details of it, but there is a big science about that: why we, our attention is outside all the time.

Now below the Kuṇḍalinī, which is three and a half coils, is placed a very important center of innocence, is the center of innocence. The first thing that was emitted out of the All-pervading Power was, it had the form, I should say the All-pervading Power was nothing but just innocence, which is the most powerful thing in this world, is your innocence. And this innocence is placed below the Kuṇḍalinī and is adorned by the deity called as Śhrī Gaṇeśha, who has a trunk like an elephant. This is the bīja; this is the seed of Christ. This forms the seed and then He incarnated on this earth, this is the subtle form, on this earth as Mahāviṣhṇu, is written down in the Devī Purāna, or we call Him as Christ. The name Christ and His name Jesus also has a very big meaning and relates to something that happened before Him.

Now this great incarnation of Christ came on this earth, which was nothing but innocence, innocence itself took the form and it was the All-pervading Power itself which took the form and came on this earth.

That's why this is a very important center, is the beginning. Because it is innocence, is like a lotus and it is placed at a point where the gate to hell are open within us. This center gives rise in the gross...

Now this is a subtle center called as Mūlādhāra Chakra. Chakra Mūlādhāra. Mūlādhāra means the support of the root. Now root is the Kuṇḍalinī. It is the support of the root. Kuṇḍalinī is the Mother and this is your innocence, this is your childhood and that's the Mother. And the Mother is there to give you your realisation, waiting all the time, She is your own individual Mother and She is just waiting, ages together, to give you the experience of Self-realisation, to give you your second birth. Now the last center looks after, in the gross, the Pelvic Plexus, which you have heard of, which has also got four sub-plexuses, this has also got four petals as we call it. There are four petals.

So this center looks after the pelvic plexus in the gross, which looks after the excretion. This center we must consider at length, a little bit, which is very important to understand that this also looks after the sex and reproduction, mainly the sex and other excretions. Now you can see here that it is placed below the Kuṇḍalinī. That means sex does not play any part in your evolution. It does not.

Those people who say that sex has something to do with Kuṇḍalinī, are really blasphemous and very ugly people

because you cannot put sex to your Mother. It's something, even today is not accepted, when people have become so much lenient about sex, is not accepted. And this is what it is when people talk of sex and Kuṇḍalinī together. As a Mother, I give them a little chance or sort of a little grace because to say that they originated all this from deliberate action will be too much.

I would say that maybe they when they were meditating, at the sex point they might have seen Gaṇeśha's trunk which they might have thought to be the Kuṇḍalinī. Possibly that's how they went into a wrong situation. But of course it's a very wrong thing. We have had cases in New York and here also where the private parts of people were touched by some of the people and are having a very bad time with that action. It's your private.

It has nothing to do with sex. Animals are more sex-conscious than you are; are they going to get evolution before you get? Moreover, the whole thing that is worked out in such a way that we have started having the sex through our mental activity, which is a wrong thing.

Christ has said, “Thou shalt not have adultery, thy should not commit adultery. But I say, I say verily to you, `Thou shalt not have adulterous eyes.' " Because He knew this would happen one day that the sex would move from there to the Swādhiṣhṭhāna Chakra, the second Chakra by which we think and then it will come into our thinking and our eyes will start roving around.

And then, actually the sex act minimizes and it becomes a big problem; I mean to be a sex point itself becomes an achievement for people then. It's such an absurd thing to

do. And this is what is a very big confusion today in the modern times. I mean, you cannot make compromises with Christ; what He said is absolute. But unless and until you understand that sex as a married life, as a private thing, is the one that has been sanctioned for our sustenance, for our sustenance as human beings; that has to be looked after, is to be respected, is sacred.

And that's why anything else that we try to do, all kinds of perversions and these things, you won't believe that all kinds of perversions come to us because we are no more there. Mostly we get possessed.

We had one boy who came to us in New York and he told Me, “Mother, I... I'm a man, I have mustaches and everything but I want to be like a woman. I want to be dressed up like a woman” and he talked like a woman. He said, “I want to walk like a woman, I don't know what to do with myself. I am so confused.

And I cannot have any relationship with any woman because she gets confused with me also. And I don't know what is happening to me, why I want to be like this." And I could see he was possessed by a woman.

He was just possessed by a woman, simple thing as that. Very simple, it is extremely simple. And when that possession was removed, he said, “I am a man again." Is so simple, in one day.

He is a different man altogether today, absolutely a different personality and it can happen to a woman.

We had somebody from Australia and she got possessed by a man and she started talking like that and behaviour, the whole thing, her husband got frightened and he couldn't understand what's gone wrong with this lady.

And the whole attitude, the whole beauty of a woman was lost into the style of a man and it was so funny and odd to look at. Same thing: she came to Sahaj Yoga and the spirit ran away. She is a beautiful woman now, extremely beautiful and they're having a very good relationship.

So when you try to do anything perverted with the sex and do not respect it, you do not know what things are awaiting us around.

So before I go to other Chakras, I want to tell you about our other unknown areas which are very important to us and then we'll go to the second Chakra.

As you see here on the left hand side this blue line is there. This blue line is our power of desire by which we desire, by which God has, supposing this is the primordial being because God has made you in His own image, supposing it is the image of God, then it is His desire.

This power of desire gives you existence and when this desire is over, when the Spirit, which is watching the drama of this body, gets fed up, it disappears, then the death comes in. This power of desire is the left side. We call it in Sanskrit as Iḍā Nāḍī, also called as the Moon Nāḍī and in the Haṭha Yoga is the Tha Nāḍī. This is the channel, is a subtle channel. But this gives rise to the gross channel, which is the left sympathetic nervous system.

Now, doctors don't believe that left and right sympathetic nervous systems are two different, but you will find out yourself that they are very different. This looks after our emotional side and also beyond this lies the area which is unknown to us, is the subconscious; it is unknown to us.

Whatever is unknown is not God, is not from God's area. It is an unknown area and beyond that subconscious area, lies the collective subconscious, all that has died from our creation. Recently I was seeing one of the series on cancer, in London on the television and they told that they have discovered some sort of proteins, which they call as protein 58 and 56 and all that, they have given names, which they have also photographed, enter into our being from areas which are built within us, from unknown areas, they do not know if they are known areas, which are built within us since our creation.

Now, I've told this about ten years back in America before. And they trigger the happening of cancer, they trigger it.

So it is from the collective subconscious this attack comes in.

So if you move to the left side, you move to the collective subconscious too much and then all kinds of things can happen to you.

For example, first of all you start getting shaking, you start hearing voices, you start feeling that you are losing your body; you are going on top of some place and seeing things. Is all these spirits are doing.

Now it has reached such a serious state, that in Switzerland I found that many children were killed because of this action.

The mother is, supposing, with some clairvoyant lady or somebody who is doing this spiritual work is a very dangerous thing. One should never take to this kind of a thing. If you take to these things, seven generations suffer. Today only I had a girl who told Me that her

mother was a clairvoyant and all her life she was miserable with her husband and this girl has been always crying and weeping and she cannot conceive or something like that.

Is a very serious thing, one should never go into these unknown areas of the collective subconscious and worry about the dead and control them and look after them and call them. You must give them their freedom. Is a very dangerous area into which you enter. I hope you don't mind it, I have to tell you the truth, I am your Mother and I have to tell you the truth: that you should be very careful about this kind of thing like psychics or the people who try to say that “You can get possessed." They will not say, they say, “It is, it is..." They can even say, “This is Holy Ghost." They can say anything. But in whatever way, when you find that you are not in control of the situation, that means you are not there.

Is very simple as that, supposing your car is driving and suddenly it goes into a khadd [pit]. Now, do you think that you have achieved a greater progress by that? It's just you have moved without your control.

If you have no control upon yourself... If somebody sitting down and he starts jumping, automatically, he cannot control his jumping, then it is not himself, minimum of minimum. Whatever he is, even that control is lost. Anything, any such happening which is beyond your control means that you are enslaved by one of these possessions. But they are never satisfied with what they do to you. I mean like I'll tell you one of the very startling examples of this left side. In London we have, I don't know now if they have but we had, a center called, “Late

Doctor Lang's International Curative Center." I didn't know about it, but a lady came to Me in India to tell Me about this. She said she had some problem with her stomach and she wrote to this organization saying that “Please, help me to get cured." And they wrote back saying that “At five o'clock on such and such date, we'll enter into your body." I mean they were honest, I must say, as English people are honest sometimes.

So he was honest to say that “We'll enter into your body, some of the doctors are there who will enter into your body and they'll cure you." But afterwards, after five years the lady was rattling, rattling just like a junkie car. And she came to Me and then she gave Me the history of this, which I verified.

The Doctor Laing, the Doctor Laing, the one, the one who is the one who is supposed to be running, is late, he's dead. He entered into a soldier in Vietnam, an American and told him that “You go and talk to my son and tell him that I have entered into you and that you should start such and such organization." Now this soldier has never done anything, I mean he has never seen a scalpel also, he doesn't know how to operate, no question. This soldier went to the son and told him and he told him certain secrets which convinced the boy and they started that organization. This organization went on like this. And this soldier, of all the persons, used to do the operation, it's called `psychic operation', all sorts of things and he had never seen anything and he used to be possessed by this man and he did it. But why didn't he go to his son directly? Because he knew about the dangers. And the same son will end up, I am sure, hundred percent, the

same gentleman who is operating and the son, with some trouble, which is of a very serious nature.

Because never play with the fire which is the subconscious, the collective subconscious. You have to be in the present and not in the past.

Now the people who think too much about their past, “What was my previous life?" Why should you worry? Whatever it was is better today because you can get realisation today. You could not get realisation even if you were the King of Egypt, what does it matter? You couldn't get your realisation that day, so why worry about the past? All the time worrying about the past or playing with your emotions, you see. Like we had one gentleman, who used to always cry and weep too much and his mother sent him to Me and I asked him, “What did you do all your life?" He said, “I was very fond of Lord Byron and I just read him." I said, “All right, that's it." This Lord Byron, he led such a horrible life himself, an unholy person and made everybody cry, “You suffer, you must suffer, you must weep." Why should you suffer? The idea of a saint is that a person who is absolutely in bones, walking like a TB patient, is a saint. I mean is something sadistic, I can't see Christ.

I was so happy to see that you showed Him as a resurrection, that is His message. Is resurrection is His message.

Crucifixion is just a means but resurrection is the thing. And a lanky-panky stuff, walking like a saint, how can that be? Is it possible, a person who is bestowed with God's blessings has to be healthy, cheerful and a very happy person, has to be that.

Minimum of minimum should be that and I was happy to see even Mister Paulsen here, who was very healthy and this thing I said, “Now, this is a religious place because wherever I go I find such serious and absolutely sickly people." So the people who believe in sufferings, like... the Jews they denied Christ. Why? Because He was a Jew. Is absolutely true about human nature.

If I was an American, you would not have accepted Me. In India the Indian Christians, in whose community I was born, have not accepted Me at all. Can you imagine? I have got Muslim disciples, Hindus, I've got Parsis and Sikhs, but hardly one or two and maybe My family people. They have not accepted Me. They didn't accept Christ and because they didn't accept they couldn't accept that He suffered for us.

Why should we suffer? Has He suffered less for you in any way: has He left some for you to suffer? So, you want to suffer, all right have Hitler and suffer. That's it! Have him! If you enjoy suffering, why not? And it started like that. Actually when Hitler came, for eleven years, you will be amazed, eleven years, these people were supposed to be suffering among themselves, you see? In France if you go today people are sitting outside and they are talking of their sufferings and money and other nonsensical things. They are waiting for the day, they said that that in '82 in any case we are going to be finished, waiting for that, discussing it very nicely. `Les miserables' I call them, as they are.

So why should you suffer, I just can't understand, when Christ has suffered for you? Only He's to be awakened within us. If He's awakened, He takes away all our

sufferings, all our conditionings, all our so-called Karmas and everything, which I will show you later on how it works out.

So now we come to the left side then to the right side. Right side is the action, the power of action, is the Sūrya Nāḍī, is the channel of the sun. When you want to enact your desire, manifest it, then you use this action power, Icchā Shakti is called in Sanskrit.

Now this power works mainly through this second center, or we call it the third center, actually it is the third because the second one is that. This center is called as Swādhiṣhṭhāna and this center has got six, you can see six plexuses, it's like the Star of David.

Moses preached something and Jews are doing something else. Christ preached something and Christians are doing something else. Ādi Shañkarāchārya taught something and Hindus are doing just the opposite. Mohammed taught something and they did just the opposite.

It's not only in religion, in every way you see how we are perverted. Like this center is used for converting the fat in your stomach for the use of your brain. Now, do we realise that our brain is made of fat.

Do we know all our nerves are made of fat. Now there's a general principle in this country that you should not use any butter, which is very wrong. When you don't use any butter how are you going to supply this brain with something, I mean where will you get it, it's completely drained out.

You use your brain so much, so much so, that this poor center has to work only for your thinking which has no

productivity. You just go on thinking, thinking, thinking, thinking; two horns come out of your head of thinking; still you are thinking and they go on growing, you cannot stop your thinking. And what are you thinking, what have you got out of your thinking? This right side is the one which is our five elements also, five elements within us.

So when we started discovering what is the essence of the five elements, in India we started the Vedas thousands of years back and the effect of that is shown now, is the science, you discovered, the science. That you understood how to master these five elements. But what did you do with it? You created bombs; horrible bombs you have created. You have created these devils and now you are frightened of them. Thank God. That's something good that all such ventures stop by themselves because you create a bomb, it becomes a devil on top of your head. Now you can't start war because as soon as you start means no more existence.

So you are frightened and that is how, where have we gone to? Science has led us to which sensible things, we should think. For example science has given us all these devices by which our life can be made very easy. We can have more time, we can have much more time than our forefathers had, who had to do everything with their own hands and go about it, but here, you see, everything is instant. I mean anything: You want to have food? All right you have instant, everything is made instant. But for what is it instant, is to save time.

Now we have watches also here to save time, everybody's saving time, saving time, everybody `busy' saving time. But what are you doing about the saved

time? What do we do with it? For example there was a gentleman coming from India, very busy man, “Very busy, there's no time to talk to anyone." And I said, “Wanna, why are you in such a great hurry to go?" “Oh, You don't know! I have very important” “What?" “I have to attend a particular ball for five hours there." “Very good. Is that the way you are going to save?" “And then I have to attend a racecourse, I have to do this, I have to do that." This is no saving of time; this is the real waste of time. Real waste of time is this way we do it and how are we going to save our time? Time is to be saved to be realised, to be in meditation, to enjoy the beauties of God. That's why these all things are given to us and that's how we should look at them. But now we have become their slaves.

When we achieve something, for example electricity, it is so important to New York that one day it stopped, the whole thing stopped.

So we become also slaves to these. Apart from that, now we have no time, we are so busy. I don't know. I thought that here people will have more time than we have in India because, you see, if you have to travel we have very funny trains and we have not yet developed as you people are.

Sometimes I have to go to villages in bullock carts and this and this. But people have no time.

This is the trouble in these countries, you have no time at all and I don't know what constructive work they are doing for themselves.

So this is what is the right side where we go wrong. But the worst thing we do is to think. We think all the time

and what do we think? Either we think of aggression or we think of recession.

For example we think that, “Oh, we are guilty." You do something and then you sit down, “Oh, I should not have done it, this is very wrong I should not have done it” and you start wondering about it, correcting about it. But actual correction is not there, actual correction is not there, only by thinking you avoid the main issue.

You have to be in the present but thinking can only take you to the left or to the right, to the past or to the present [future]. You cannot be at the state where you become just yourself, there's no thought.

There is no mental activity at all, you just become. Because a thought rises like this and falls off, another thought rises like that and falls off, in between them is a very little space which is the present.

So the past comes to the future and becomes, again the future comes in and again becomes the past like that. But in between is the present and that present is very small.

Unless and until you know how to stay in that present, you will be always tossing on these waves of past and future while past is finished and future doesn't exist.

You plan out something, it, all plans goes out. You plan anything but how can you plan also, I can't understand. Supposing you don't know the way and you plan that, “I will go right and left." Now supposing you are going to the right and left is the sea, will you jump in the sea? Anything that you have to do new, you cannot plan it out, you have to keep it just open, like a seed when it sprouts,

it has got a living cell at its tip. It goes and sees for itself how it has to move.

When there is hardness, it moves round the hardness, when there is softness, it moves like that.

So when we plan everything we really become rigid and like, I heard of a person who planned everything for his picnic. He had all champagne and everything put together and when he reached the place he had no bottle opener and he had to break the bottles. That's what it is.

Sometimes the planning can be such a headache, I mean, you waste one hour in planning and while it comes to reality you find it's all wrong, it doesn't work out.

So too much planning, like I have to go supposing to Los Angeles, I have to book My ticket, this is today, I have to do it today. I don't have to sit down and plan that on such and such date I'll go and book it.

So in the present if you know how to live, but this cannot be done by saying that “You live in present." It cannot be done, I know because that's not some sort of a thing that can be taught. It has to happen to you, you have to become that. Once you become that, then you become thoughtlessly aware. You become a witness. You see the whole show as a drama and you don't get involved into it.

You just see the waves coming up and going down. Like, I can say, you are standing in the water and there are waves around and you are frightened, but if you are put in the boat you start seeing those things. If you know how to swim you can enjoy those waves. In the same way when you become a master, when you come in the boat in the state of thoughtless awareness then you start

seeing these things and the whole thing appears like a drama. Actually the whole thing is a drama but the drama must end for you to see that it's just a drama and you are unnecessarily worried about it and by worry, you know for definite nothing works out.

But if I say, “Don't worry” you'll worry more, that's not the way. That's not the way. They all tried these tricks to say, “Don't do that and don't do that” it never worked. With human beings it doesn't work out. It's all right with animals, you can work it out, but with human beings, if you tell them, “Don't” they'll do it ten time.

So best is to so make them that.

Unless and until they are made the spirit it's impossible to convince a modern man to do something.

So is best is first let them have their realisation, let them have their light, let them see for themselves what's the problem, let them feel it and correct it. It's let them judge themselves, that is the best way is to do it and that's the time has come for you to have it and see for yourself and be able to discriminate between false and reality.

Now this side beyond is the supraconscious area and beyond this is the collective supraconscious. Now if you take LSD, for example you take LSD, you go onto supraconscious area. I was surprised when I went to Colombia, I asked them, they had a condor as their emblem for navy and I said, “How condor is your emblem?" because condor has nothing to do with the navy.

They said, “Our old Indians have told us that a God called Śhrī Viṣhṇu” just see the name, “came on a condor." And really condor is the conveyance of Viṣhṇu. Can you

imagine? I was amazed, you see, how did these people in thousands of years back saw, but then I said, “What were they doing normally, what was their pastime?" And they showed Me a thing made out of a shell of a fruit and with a little stirring rod in it.

I said, “What is this?" They said, “They used to make some sort of a am[b]rose." “Oh, I see, that's it." And even today Peru is exporting that am[b]rose to you which is nothing but LSD. If you take things like that, of that nature, of LSD nature, you go to the right side. You move to your supraconscious area. Means you get disintegrated.

In the morning I told you that when you are integrated you don't see any auras or anything around the person. When you are disintegrated, only then you see because you become these five elements. When you are integrated you don't see anything. And then you start seeing these things, like an eye and a light and all those things you start seeing and if you go further, further with it into supraconscious areas, you can become horribly possessed by the people who have been ambitious.

Even Hitler can possess you. Hitler did that. Hitler did all supraconscious activity in Germany. How he possessed people was through supraconscious. Because in the supraconscious, collective supraconscious, there are many ambitious people who have died. Like Gauguin was an ambitious man, but he became mad, I don't know how he became mad. Normally an ambitious man doesn't become mad he makes everyone mad, but he doesn't become himself. But this fellow was possessed and we

saw it in the television that a man who was possessed by this Gauguin was painting just like him.

I know, you see Gauguin's paintings, that you must be knowing also that in one line he puts lots of colour and he was doing it very fast. And he said, “I'm possessed by Gauguin." So these ambitious people, like some of the ambitious people could be doctors, could be mathematicians, can be physicians or anything like that, they can possess.

I know of a lady, she is a unique mathematician and she's possessed, definitely possessed. And she can tell you anything you ask her, any square root, anything she can tell you and she's earning lot of money out of it but she's always sick, she has a headache. She came to Me for curing, I said, “You have to give up this nonsense." She said, “Let me make sufficient money, then I'll give up." I said, “By that time I may not be there." So these things can happen to you with the supraconscious activity and this awareness of supraconscious is also very dangerous. The trouble is if you suffer from the superego there, from this side, with the conditionings, you suffer. I mean you get the pains all over the body, you might feel sick, you will cry and weep, you'll be unhappy, it troubles you.

But when you are possessed by this ego business, as it is ego is too much and then if you get possessed by somebody egoistical, then God save that person and God save all the relations, because such a person you cannot even talk, he's so aggressive, he's so aggressive, he'll aggress all the other people; ultimately he himself becomes absolutely stupid fool.

Many people whom we think are very successful in life, really are stupid; if you look at them they are really stupid people. Like we can say, this Kennedy's... a man, what was his name is, whom she married...

Gentleman: Onassis.

Shri Mataji: He was a stupid fool, I have met him. I met him; he was a real fool I tell you. I don't know how this woman married him and she must be another stupid fool to marry him. Both must be foolish. Actually I met him very well, because My husband is with the shipping and I don't know how could she marry this old man like her grandfather and what was the thing? Maybe the money part or whatever it was, I mean it's so stupid, the whole thing is so stupid. And this stupidity you can see, even it grows with your age more and more and you become more stupid.

Like an eighty-year-old woman writing love letters to an eighteen-year-old boy. It's stupidity. Is absolute stupidity, I tell you, if you see it from wisdom point of view. One can't understand an old man, who is like a great-grandfather, writing a love letter to a little girl of eighteen years or an old woman, who could be a great-great-great-grandmother writing to a little boy like that, is absurd. And they are so stupid and they talk like this, “I believe in this." Of course all the donkeys believe like that, so there's nothing new about it.

But they are so starringly stupid that you are amazed, you know. You start looking at them, “What's the matter with them?" This is the blessing of this mister ego, which exists in the head sometimes goes up like a balloon, but

you start seeing it, you start seeing it when you get your realisation.

I had a disciple, one of My sons, who came to Me and one day he said, “Mother, I'm really frightened with one idea." I said, “What is it?" “But You don't tell me if it is true." I said, “What is it?" He said, “Was I Napoleon in my last life?" I said, “What makes you think like that?" “Because I can see such a big ego on my head, this could be only Napoleon and I know how to draw. These two things put together, could I have been Napoleon, but if I was, You don't tell me, otherwise I will commit suicide", even after realisation.

So it is ego becomes then a headache to us. It becomes a headache and we want to get rid of it.

We start seeing it and it presses you, you get a headache and you feel it in the Āgñyā, how it troubles you. Then it starts troubling you, not others so much as it troubles you, because you don't want to accept that you are egoistical, you start seeing it. But you don't say that you have a ego, you will come and tell Me, “Mother I've got an Āgñyā catching” and we have to clear that Āgñyā. Nobody feels bad about it because you are separated from yourself. You don't feel that you are hurt or insulted because you get separated and you see for yourself.

Like this sarī has some sort of a black spot on it, so I see it, I take it out and then I want to wash it, I don't want to keep it black; I am not identified with it.

So all these fixations also drop out when you get realised, because you go in the center, not on the left or to the right. Now movement on the right, actually is the blessing of this center, in the center, because the central

line is the line of our evolution, is the line of sustenance, is the line by which we have become human beings.

First of all we get our sustenance, like we can say the gold is untarnishable. That is the sustenance of gold.

We can say carbon has four valences, in the same way human beings have ten valences, they are in the stomach. These are the ten sustenance described as the Ten Commandments in the Bible. They all can be explained very well in Sahaj Yoga. This is the human sustenance which is around in that part which we call as Void. It's not the same Void, or is the gap, as the Zen, but this is the Void, we mean the space where we exist in our evolutionary state.

Now this center is the one that is presided over, this one, the second one is presided over by the Creator and this one is through the Preserver, the one who preserves.

Now there can be a problem with people who believe that there is one God. I also believe the same thing. I mean, it is true: He, there's only one God, but He has different aspects. God doesn't exist like, say, Rock of Gibraltar. Even Rock of Gibraltar, if you see, it has got aspects. God has aspects like a gentleman, now say for example if a gentleman is a minister here, he could be a husband, he could be a father, he could be a brother, he could be anything.

So God has different aspects and out of that the first aspect, as I told you of the existence, the power of existence, that does not incarnate on this earth, it does not incarnate, it just exist, it watches, it sees and that is in the heart, which is the Spirit, expression of that God Almighty who is watching the spectacle of His Power.

Now the other aspect of God is that He's a Creator, He creates all these galaxies and all these things now as I told you yesterday about the Viśhuddhi Chakra, we are this center which is America, that if this center is awakened here, you don't have to have any missiles or anything. As in the Saturn, you have got a girdle around, you too have that girdle around America and nobody can touch you, but you are to be awakened first of all.

If you are awakened in that center, nobody can touch you. Russia is going to know about it, they have to know about it because they are getting into parapsychology and all these things and they are going to get possessed about this. They have to know through their supraconscious that you are the people who are awakened. Once you are awakened nobody can touch you, because there's a girdle round you and there are sixteen sub-plexuses as there are sixteen, you have seen there are sixteen sub-star, sub, what do you call them? Warren: Moons.

Shri Mataji: Moons, they call them moons, sixteen moons around Saturn. And you are one guided by Saturn. Saturn makes this country. Saturn has made this country and this is the Viśhuddhi Chakra which is a very important Chakra about which I'll tell you later.

So this center we come to of our evolution.

Is presided by the Preserver, the aspect of preservation, He's the Father who looks after us; He's the One who gives us our well-being. He comes on this earth again and again in different forms. According to Indian Purānas, the Ark of Noah was saved by a fish, which was a dolphin and this dolphin fish was this aspect which incarnated.

Then the second aspect came as the tortoise, then the third as a quadruped.

Like that they have described the evolution, how these incarnations had to come to break the barriers of the evolutionary ignorance. These are the people who came for the breakthrough. Ultimately a short man was created called as Vamana, then a very fiery, big man, he's called as Passidon [Poseidon], in Greek language.

Greeks made their gods look like human beings; I mean they never kept their purity. See, everybody was given with some quality of a human being. I don't know why they did it but that's how they spoiled the whole game.

Now this God, the God, which we can say or the incarnation that came on this earth was a fiery man, a man who fought the nature, who fought all the different elements. And then after that came another aspect on this earth, who was Śhrī Rāma, is the ideal king, the king who is a benevolent king, the One who gave us the political idea about how to govern, Śhrī Rāma, this was eight thousand years back.

Then came the incarnation, after that the incarnation came in the center here, before, before Rāma, this incarnation was of the Goddess, of the primordial Mother. She Herself incarnated on this earth before Rāma, because many forces which were negative were collected by the ignorance of human beings and the seekers were very much harmed.

So She came on this earth to kill those horrible, demonic forces and to destroy them and to save the seekers, Her children, to save them from this drowning into the sea of illusion and She came on this earth. As they say she

came thousand times, but actually She came many a times before Śhrī Rāma came in.

Then came Śhrī Rāma who came on the right hand side of the heart. Now this is also a very important center within us. Those people who have problems with the fatherhood. Like today there was a girl who was catching on the right hand, this heart, this is the center.

We asked her what about her father and she told Me, “My father is dead but he's still guiding me." I said, “That's not good, you must give relief to your father. He should be given freedom and you will feel better." And people with this heart get asthma. This side, this problem, on this finger we feel, get asthma, problems with their breathing...

All these things can be cured if you just tell them that, “You ask your father to leave you and to be born again and forget about it." It works wonders, we have seen.

But recently a doctor in England has performed some experiences... experiments with, what you call, anorexia, there's a disease, anorexia, where the girls just don't eat any food. He found out that these girls, when they were told about their father and that a rite can be, I mean, the after death rites can be done and all that, they felt all right and they got rid of it. Can you imagine this is experimented and found out now; I mean this we have been doing for the last ten years, but recently it has been found out that if a girl is suffering from this disease of anorexia, you can cure it; if the father is dead, then only it happens.

So fatherhood, a man who is not a good father, a man who has a bad father, a girl who is too much attached to

the father or a girl who is not treated nicely also by her husband, also the husband is there, if he doesn't look after her well, she can suffer.

Now the center part, this one, the one he's there [Warren is showing on the Chakra Chart], center Heart, it's also a very, very important center where the Goddess, the world, we say the Mother of the World, Jagadambā She's called, has incarnated. Is a very important thing for us, because when you suffer, say, from any insecurity, then this center starts going into palpitations, this center starts vibrating very much.

Till the boy is of twelve years or a girl is of twelve years, in the sternum bone the antibodies are created by this center. This center creates the antibodies and they circulate in the whole body and remain there and whenever there is an attack, either from a entity or from any disease or anything, these antibodies fight it.

And that is the center which is very important, specially for women. If their motherhood is challenged or if they are insecure, if their husbands are making them insecure by any of their behaviour, then they develop this trouble of this center, where they may get breast cancer. Breast cancer comes to women when they are insecure. Only it can be cured when this center is awakened; breast cancer can be very easily cured, if they could be secured through awakening of this center of the Mother of the Universe.

And then we have the center up there, which is the Viśhuddhi Chakra, which is a very important... for you, because it is adorned by the completion of this evolution as called as Virāt, it is Śhrī Kṛiṣhṇa, who is the complete

incarnation of this primordial being. And He is placed there. It is He who is the witness, who is watching. When the Kuṇḍalinī rises over this, you start witnessing the whole thing. It has got sixteen sub plexuses and which look after your face, your nose, eyes, ears and all these places. And when this center is out, then you have all kinds of problems. Say the left side, left side Viśhuddhi Chakra catches when you feel guilty, when you are diffident.

When you start thinking that, “It is very wrong too, I should have not done this” and all that, then the left Viśhuddhi catches. Or also with smoking it catches; smoking spoils this center very much. Imagine in America the percentage of smokers is the maximum. Can you imagine, in this center only where they are born, this is the maximum here? Like England is the heart of the universe, where they are lethargic. Europe is the liver of the world where they are drinking. America is the Viśhuddhi of the world where they are smoking. What a justice done to themselves and to God, their Creator! So smoking is against this center. Thank God now it is established that it causes cancer, but still people are smoking, they say, “What does it matter?" But this is a very, very important center for us because this is the time when we raised our head, this center came up. Now see the ego and superego start developing actually from here.

So this gives rise to ego and superego.

Somebody is a very arrogant person, catches on the right; who is very, very aggressive type he catches on the right Viśhuddhi.

In the center, a person who is against God, who is anti-God, who is against collectivity, who is talking against God, who is openly saying things against God, catches on this center.

So this center, as it is, is very important for you, because if you can awaken this center within you here, as I told you, you become as powerful as Śhrī Kṛiṣhṇa.

Śhrī Kṛiṣhṇa has a Samhara Shakti. He has the power to kill; He has four special things with Him, four weapons by which He kills, but one of them is this, in His hand, is a discus and this discus is shown around the Saturn which you see. And with this discus at any distance He can destroy.

So His destructive powers are built in you. Nobody can destroy you. You have to just get to your Self and become your Self.

You'll become so powerful a nation, but powerful in loving, in being compassionate and affectionate, in the real sense of the word, not the way we are now trying to help others; is not the way. It can be very disgraceful sometimes; the way we try to help others can be very disgraceful. You will be amazed how, sometimes you people have helped and have created problem for others. I'll give you a very simple example which is really surprising and astonishing.

Some years back we had a dearth of wheat and people sent horrible wheat to India, horrible, that even the animals would not eat. Just to help us, you see. We are not so badly off people; we are very fussy about food. We may be poor but we don't eat everything; we are very fussy.

So people threw away that wheat outside. That wheat grew into a grass, which was called as `Congress grass', can you imagine and that grass started moving from the roads to the fields, from the fields to all the trees and started engulfing them. It was like a mad grass, it was like a malignant grass, eating away everything that there was. Imagine, as it is we had dearth of thing and this thing came and we didn't know what to do with it.

So we tried some Sahaj Yoga tricks and it has worked and thank God that grass is now finished. But from that, with that grass you had sent some other seeds of acacia and these also people threw away. Out of this came out such horrible trees of acacia that it has got thorns which are poisonous. And in the villages they have grown so big that children can't play and if they touch that they get very seriously ill. It's a very seri, which you have done so innocently. There's no grace about it, I think, the way it was done and that's how we can create problem through our help to others because what is there to help. Who is the other? If you are the collectivity, if you are Śhrī Kṛiṣhṇa, then what are you helping? You are helping yourself, this is your own finger. If you help your own finger, you don't help it in a different way than you help other fingers. That means you become collective being and you are. People like Abraham Lincoln, as I said yesterday and great people in this country established these great ideals of liberty. And the liberty, they said that, even Roosevelt once said that “Poverty anywhere is a threat to prosperity anywhere." What a great thing to say, to feel that, that oneness with others, that anywhere poverty is a threat to our prosperity! All this collectivity

has been expressed by your great men in this country, not only but the sense of responsibility because it is on your shoulders, the responsibility. Responsibility of making others the Self, realised, is your responsibility.

You are the responsible nation, you are responsible for the whole universe, whatever things you do here that goes outside. You took to rock `n' roll, people started doing rock `n' roll, you did anything nonsensical that started going abroad. Anything nonsensical you do here spreads everywhere because Americans are doing.

Jeans, now everybody wears, even in India! Imagine in that hot country they are wearing very strong, starched ones and they get all kinds of problems with that, circulation problems, but... “Americans are doing” everybody is becoming American in India.

That's it, in every developing country you have put your hand; you have interest in everyone, but should be done after realisation when you feel the pangs of others, you feel the heart, you feel the real pain of others within yourself and you do it, not because you want to do it for others, but do it because you want to save yourself out of that pain. You do it for yourself. If somebody's drowned and you try to save a person who is drowned, then you don't save him, you actually are saving yourself because something in you is getting drowned there. And that happens to you when you become that collective being, when you become the Spirit, then it happens to you. Before that, whatever you do is disgraceful, sometimes can be harmful, can be very ugly and sometimes it can be so grotesque that people say, “All right, you keep your

help to yourself, we don't want to have any more of this." I mean you take away all the self-respect of people.

So one has to understand that you stand here in this world, in this universe as the collective being, as the representative of that collective being at this Viśhuddhi Chakra and you have to give with your hands. For giving. This supplies to your hands and you must give, those hands which have never given are no good, they are very insensitive hands, you must give and that must come into you and not giving for giving's sake, but Nirvach, as they say, without any, any return about it. Nothing, is just giving, just flowing, just like the Sun's rays are coming to you, they don't want anything in return, do they? Just flowing.

And that should happen, if Sahaj Yoga takes to it, I hope it takes to America that Americans accept Sahaj Yog, that it works out. You have already got all kinds of horrible people here. I don't know how you are going to work it out, but God willing, with your determination, I am sure.

This is the first Unity Church I'm visiting and I hope that in other Unity Churches also it will be made convenient for Me and we can save other people also and they can become realised Souls and they can become the Viśhuddhi Chakras, the responsible people, men of God, those who have to become prophets, that they are responsible that they have to make others also prophets and save so many seekers who are gathered in this great country of yours because they know here it will happen and that they should be enabled to enter into the Kingdom of God because the time has come for that.

So we come up to Viśhuddhi Chakra and the last center, Chakra, here is the center of Christ.

[Aside:] Should I go? If I do it tomorrow, would be better. All right? Tomorrow about Christ I'll tell you because I want to take one hour explaining Him very well. I was very much impressed by your whole idea about Christ, the unity, the integration and your symbols are very correct, everything is just there, somebody has to just trigger it and it will work out. First you must get your realisation, grow into it, develop your discrimination, you become your own Guru and then everything that you are doing in this Unity Church will have a great meaning, you can prove it, you can prove it that there is God, there is Christ, there are all these incarnations.

Christ Himself has said that “Those who are not against Me are with Me." These are the people. And I'm sure one day it will happen that Unity Church will show its own worth, its own explanation of its existence, why it came into existence.

Thank you very much. [Applause.] May God bless you.

If you have any questions you may ask and then we'll have the session for realisation.

[Aside Shri Mataji asks Warren to take off the microphone from around Her neck:] It's too much for Viśhuddhi.

Seeker: Sometimes in meditation and in chanting, a person will be rocking. Would you consider that a negative thing? Warren: Sometimes in meditation people will rock or move. Is this a negative thing?

Shri Mataji: Absolutely, absolutely. You should not rock, there should be no movement, the eyes should be

steady, there should be no movement in the eyelids, nothing. This rocking is absolutely wrong.

All these things should not happen to you, that's not meditation. Meditation is where you are absolutely normal, you are always in meditation after realisation, you are in meditation.

Yes? Question: I've studied with Paramahansa Yogananda the SRF, Self-realisation Fellowship and one of the things they teach is to focus the eyes, with the eyes closed only on the *[UNCLEAR]*.

Shri Mataji: I must say that I don't want to start any controversy. That's one thing sure, but I'll tell you that proof of the pudding is in the eating. Let's go this way. First of all logically we should see, we have to get baptism through here, not through here. Do we get baptism through here? If the door is here what's the use of breaking this window? And focusing and effort is not going to give you realisation, is wrong. You see this pampers, human effort, you see it pampers you that you can put in an effort. You cannot. One must accept this position: we cannot put in an effort for a living thing.

For example, as I told you, for a seed if you have to sprout it you have to put it in the Mother Earth.

You cannot pull it out, isn't it? Whatever you may try, you cannot pull it out and sprout. You cannot put in any effort. Any effort is wrong, is against spontaneity and living things.

So no effort is needed as such.

Lady: I'd like to ask Her about that center where the immune bodies develop, at what age and what can we do in order to make that immunity get bigger or...

Warren: She says two questions. At what age does the immune bodies start developing and secondly is there any way in which you can expand the capacity of the immune bodies?

Shri Mataji: Of course, of course. Of course, that is what Sahaj Yoga is. When you become the truth, all untruth falls off, is that is what Sahaj Yoga is; absolutely that is what it is. Tomorrow, I am going to tell you about Christ and about cancer; about all these immune bodies how we fight them. That may be day after tomorrow, I don't know, but tomorrow, may not be, but day after tomorrow I'll tell you how to grow into it. Absolutely. You learn how to protect, you learn how to fight. Absolutely. That is what happens after realisation; then you must learn the Divine technique, not before realisation. After realisation, not before. Before it is connected what's the use of playing with it? It has to be connected first.

What is it? Warren: Any other question? Gentleman: Yes. What are the avenues available to keep these channels open? Warren: What are the avenues available to keep the channels open?

Shri Mataji: To be your Spirit. And we will let you know later on how to work it out, how to balance yourself, how the imbalances are there. This I'll do it on Wednesday. I will tell you how to keep them clear, how to keep your Chakras clear, how to work it out, everything I'll tell you. And also...

[Aside:] We don't have a book about it, isn't it.

But in any case...

Warren: We've got the Advent.

Shri Mataji: Yes. We have a very big book on this Sahaj Yoga, which of course we do not sell to everyone, but we'll see about it. We'll see about it because you people are growing very fast. If you people really grow, then we'll sell it to you also, but normally we don't sell it to everyone.

Question: Do you feel Haṭha Yoga is necessary?

Shri Mataji: Not at all, nothing. On the contrary Haṭha Yoga creates a problem, I told you in the morning, to a lady who was doing Haṭha Yoga. I told her how Haṭha Yoga in the modern times means nothing but physical acrobats. It is not that.

Haṭha Yoga was practiced about, I don't know how many years back, about eight thousand years back, when we had a different system of life, where children from five to twenty-five lived with a Guru who was a realised Soul and led a very celibate life. To such an extent that, that university, any university, say somebody's university was Vishwamitra, then that realised Soul was Vishwamitra and that university people could not marry, even today they cannot marry. Even today they cannot marry each other. The celibacy of that kind was present in those days. And in that time when you were completely celibate, you were innocent, you were given these Ashtang Yogas. There are eightfold paths of Sahaj... of this Haṭha Yoga, out of which eighth one is Yama-Niyama where the discipline and things are there to maintain a proper life that was given to them. And then after that when that was done, the maintenance of the proper life

and all that was taught, also they were told the exercises when according to the movement of the Kuṇḍalinī wherever was the problem.

Supposing the problem is in your particular center, then you have to do that movement, that particular exercise you have to do. But it's, as I told you this morning, that your car has not started, you are still at home and you are paying the toll for what? You must move, to find out where is the obstruction, then you pay the toll. And nowadays it is so absurd that we take the Saha... the Haṭha Yoga in such a manner that we take the whole medicine box without having any disease and get diseased.

It's a big science. Is a very big science one has to understand that everything is correlated: How is your center, which center is catching, what center requires what kind of treatment, how to clear it and this technique you will learn in no time. It's very simple, once you get your realisation.

Question: Is there anything that we can start doing now?

Shri Mataji: Yes, just now I'm going to give you realisation. All right? That's it, that's just like a seeker, just like a seeker.

Warren: On the sheet it tells them how to meditate as well.

Shri Mataji: Oh that I will tell later. Ha. Now what about you? You have been raising your hand.

Question: What kind of a... what kind of a Yoga did Lord Kṛiṣhṇa practice?

Shri Mataji: Sahaj Yoga. [Chuckles.] Question: According to Yogananda, he said that Lord Kṛiṣhṇa practiced Kriya Yoga.

Shri Mataji: Not at all, Is wrong. It is just to apportion himself to Him. You see, Śhrī Kṛiṣhṇa, if I have time I can tell them, He in His Gītā, He has prescribed four things.

But Kṛiṣhṇa was an incarnation of diplomacy; He was an incarnation of Divine diplomacy we should say.

Because when he told Arjuna that you find it within yourself, the first thing, He was not a businessman, so He told the best thing first. He said, “Find it within yourself the Gñyāna, the awareness." In your awareness you should find it, you should find your Spirit, should become that. Is the first thing He told.

But he was that time a mediocre, an intellectual I should say and he said that “You are telling me to fight the war and here You are saying that you find yourself and you become yourself and to be a witness!" What Śhrī Kṛiṣhṇa meant was that you become a witness, then the whole thing becomes a drama, but he didn't understand.

He, being a father, I give an analogy of a father who is telling his son that, “The horse is behind the cart, so put the horse in front so the cart will move." But the son is saying that “Why not sitting down here I move the cart?" So he says, “All right, go ahead." He says, “All right, go ahead” because if you tell them straightforward they don't listen to you so tell them in another way.

So the diplomacy, as the essence that you give absurd conditions, such absurd conditions that people discover later on and find that it was absurd.

So the absurd condition He said that the first thing you do is to do your Karmas, do what you want to do and put it at the lotus feet of the Lord, is an absurd condition. You cannot do it because your ego is intact, you may believe, “I am serving the Lord." You may believe it, `believe' is different from reality, you are not.

Because ego is there and that's why you feel hurt, sometimes you take the credit.

Unless and until you are realised, unless and until you become a holy personality you'll never say like that. After realisation what do you say, what do you say: “It's going, it's coming, Mother it's not working, it just doesn't work." “It” you start talking in a third person. You don't say, “I'm giving you realisation” you don't say so. “It's not working. It has worked. It has come up." “What?" “Realisation." You don't say `I'.

So you become an akarmi, means like the sun shines, it doesn't say, `I shine.' There is no Karma attached, this was the first thing He said. But this absurdity people never saw and they, even today people say, “I am serving the Lord." But you are not even connected, how are you serving Him? That's one thing. Because there is ego, you are identified with ego; actually you are serving your ego.

Unless and until you become realised, you do not serve God. This is one point which was absurd, He told.

Then second point, this is Karma Yoga.

The second point He said was, that “You should do Bhakti Yoga." Bhakti Yoga is that you should worship, worship God, pray to Him. But as usual because He was diplomacy He put a very interesting word called Ananya.

You should do Ananya Bhakti . Ananya means `when there is not the other'. When there is not the other, when you are not the other, when you are one with God. That means all those people who are talking, “Hare Rāma, Hare Kṛiṣhṇa, Hare Rāma, Hare Kṛiṣhṇa" on Oxford Street are not connected. They are spoiling their throat, will get throat cancers. You are not yet connected, you should be ananya. Ananya means you should be realised; you should be connected with God.

Imagine, supposing your President Reagan, I go to him and stand before his house and start calling, “Reagan, Reagan, Reagan” I'll be arrested. I must have a proper protocol, I must have proper permission, I should have a proper way of going there, isn't it? Everybody starts calling God as if He's in his pocket. “God give me a job, give me money, give me a car, give me this” I mean, imagine. You have to be connected with God. That's what He said very clearly, “ananya” but these people, these are blind people they cannot see through.

Then the third thing He said that, “It happens within you that you get these happenings” is the Kuṇḍalinī Yoga. He said that when the Kuṇḍalinī starts, the jalandhara bandha and all these bandhas take place, when the Kuṇḍalinī rises, these granthis go into a particular kind of a formation like a car when you start all the engines starts moving.

So He described all the engine, how it moves.

That, this Mister Yogananda picked up and he said He preached Kriya Yoga. That means if you, say, have a car which has stopped, which has not yet started, you move the wheel and you move all the machines, will it work?

You cannot do it. It happens automatically. It is spontaneous happening within us.

When we eat our food how the food is digested? Automatically. In the same way when Kuṇḍalinī rises, to support its rise, all these bandhas and all these kriyas take place and Kecharī, also your tongue is pulled in, so people they cut their tongues, put it back. Is that the way? Is absolutely artificial, is stupid, to do like that, many people I have seen.

I don't know the early ones who came, of Yogananda they had the tongues wagging like that. Imagine by doing all these things, “Take out your eyes, take out your nose." This is not the way. And that, “You suffer, you shave your heads, wear a kind of a cloth” you cannot. It's a thing that's living within you and acts in a living way. You cannot just manoeuvre it artificially, you cannot. It has to start! Like even this camera, you see, a television, anything, this has to be put to the mains. You cannot start with your finger the camera working, can you? The electricity has to be there, in the same way energy of Kuṇḍalinī has to be there to work it out. This is absurd.

So the Kriya Yoga, which is described by Śhrī Kṛiṣhṇa, is the living process. He said, “Is the living tree." I'm surprised. We can... human beings are very great, I must say, the way they make, make a pai out of everyone.

So all these great incarnations came on this earth; they wrote it very clearly; they said everything very clearly; it was very simple; there was nothing to be so much deluded, of course He used a word like ananya. You see in any dictionary what is the meaning of word ananya is, mean is “when is there is not the other." What have we

made of Christ, what have we made of Kṛiṣhṇa, what have we made of Rāma? When I see this I'm amazed. But you can't make anything out of Me, because you will get your realisation. After that, if you try to do anything to Me, you'll lose your vibrations, straightforward. I can tell you this much.

There was a gentleman who got his realisation from Me, an Indian. Typically he went to New York, started his thing and then in Los Angeles he started a Sahaj Yoga center and he came back to see Me in Bombay [Mumbai] and the Sahaj Yogis told Me that “He is just giving us a fit. Is horrible. His vibrations are horrible." I said, “I know that, you don't talk to him." So I called him, I said, “What do you do?" “Oh, I have started a big thing there in Los Angeles and in New York and this and that." “All right, can I have a brochure?" You won't believe he had written, that for ordinary... for ordinary vibrations seventy-five dollars and for extraordinary, special vibrations hundred and seventy-five dollars.

So I said, “Oh God, what's this?" I said, “How do you do this way?" He says, “Yes Mother, that's what... how we are to do. After all, I have to live." I said, “You have to live, all right, you do your work that you were doing. You were teaching something, you do that, but you cannot sell these vibrations; I didn't give you for selling. Did you buy from Me?" We wouldn't believe. And he was very angry and then he went away.

He said, “There's a Guru who is in Calicut, He's a very wonderful man." I said, “You go and see him." He went and saw him and this Guru wouldn't allow him to enter

into his house. He threw stones at him. He wouldn't allow him to enter even the gate.

So he went back to the station, so he was sitting down there, then somebody met him from the Guru, he said that “Guru was saying that, `he went and insulted Mother and how does he come to be here? I'll not see his face.' " Then he sat there for three days and he was allowed to go and then Guru sent a very good poem about Me in Sanskrit language, which he read it out to Me.

But the fellow is just the same still. He's not changed; he's just the same. Now he has no vibrations, he's not a Sahaj Yogi, he has nothing to do, but he has an ashram, he's making money out of it. Of course we have withdrawn our photographs and everything but he's just the same, what am I to do? He is now making them stand on their heads and do all kinds of things. And he has more people than you are here.

That's the best part of it. People are more attracted to these things than to reality. Is very true.

When I came last time to America there was a lady. I told her that, “Your Guru was believing in all miracles and you better not start it." She said, “No, no, no, no. I want the ultimate, I want the parama, I'm not going to go into it." I said, “All right. Promise Me." She said, “Yes." But then she started getting some sort of a rice falling from her hand and all that and then she started doing her things, you see? She called people told them even the name of the horses which are going to win, all sorts of things. And you won't believe, when I went back to America to My most embarrassed condition, I found that she had three thousand disciples falling at her feet. And she was

absolutely possessed. She came to Me and I told her, “What are you doing?" She said, “Mother, this is the powers You have given me." I said, “I have never given you these powers to beat people and tell them about horses. Is absurd." She said, “But this is happening to me." I said, “All supraconscious, all nonsense." She wouldn't listen. I said, “All right, tell this gentleman about his future." She told him something. He said, “It's all wrong, it's not true." I said, “Tell this lady." She couldn't tell.

She said, “Mother, have you taken away my powers?" I said, “If they were your powers, I would have garlanded, I would have worshiped you, but they are not yours, they have gone, finished." But she would not give up, you see popularity, she was on with it.

Now only thing is she's in a lunatic asylum.

So all these things they do, they know how to make these things, they are so superficial. They don't know what injuries they are doing to themselves and to others.

Now, who were asking some question? Man. I wanted to ask You about the meditations from the Maharishi MahaYoga, what Your opinion was.

Shri Mataji: Now again the controversy, again the controversy, the less said the better. All right? Gentleman: The what?

Shri Mataji: The less said the better. For example, the mantras he gives you. You know what they mean, one of them, inga? It means `the tail of the scorpion'. Now where is the scorpion and where is the tail? When the Kuṇḍalinī has started, then you should know which center it is catching and what mantra to be said.

It is not that you can just give a mantra and charge three hundred pounds and people do pay. And this flying squad that he has started, the head of that flying squad here he is, is sitting down here, he will tell you. The head of that where he went and learnt from him flying, so-called, he suffered from epilepsy, his wife suffered from epilepsy, his daughter suffered from epilepsy and they came to Me and they wrote to him about Me, in that miserable condition. He was the head; he was going to teach them flying.

I told him, “Why don't you ask your Guru to go on this leaning tower of Pisa and make him y? And you pay him some money for that, will be good idea." They paid three thousand pounds for flying. You are not going to become birds now, are you? But it is very difficult, you know, to accept, really, because you have paid so much money. This is like, “We have paid it, so better have it." You see whatever... Like you go to a restaurant, you pay for it and may be bad but you eat it. You see, after all, you have paid for it.

That's human nature, isn't it? Oh, it's terrible. It's terrible and difficult to give realisation to people from all these Gurus, I can tell you, Yogananda... or this, what's his name is? This Bhandasura's name, what is his name? Warren: Muktananda.

Shri Mataji: Muktananda. I know them very well, I know them. I've known them for ages and they know Me too.

Yes? Lady: Are there other sources where you can reach your realisation other than through You? Warren: Are there other sources where you can reach your realisation other than through You?

Shri Mataji: Through Me? It's not a question of through Me or anything; it's through your Kuṇḍalinī, is your Kuṇḍalinī within you.

Lady: Is there someone else that can guide you or...?

Shri Mataji: I don't know, I haven't seen many.

I wish somebody could, like, you see people are very much hurt to see that I'm doing it. I said, “Baba, you do it. I'll be very happy to retire, really." They said, “Why You, Mother?" I said, “Really, I don't know why I was chosen for this. It's a thankless job. You must have tremendous patience, I tell you. The day I retire My husband will pay you for that. I can assure you." He's telling Me that “You are trying to put patches to the heavens which are falling." He doesn't believe that I can do it. Is a thankless job, absolutely a thankless job. But what to do? Once I did feel little frustrated and I said, “Let it be now. Doesn't matter, let the destruction come in." And then you know this clever man, he brought a photograph of Mine, with My eyes so compassionate, such compassion flowing, I said, “Better do it. It's You, what can You do? You can't get out of it, that's what You are." So I have to do it, My children, I have to do it. If you could do it, I'll be very happy. Any one, I'll be extremely happy and retire.

Warren [softly]: Other Sahaja Yogis can.

Shri Mataji: Ha, Of course! Other Sahaj Yogis can give you realisation. For example Warren himself has given realisation to I don't know how many thousand. But I know of a person who has given realisation to more than ten thousand people, in India. Yes! Yes, yes, you can give realisation, you can give it, all right? Gentleman: Is the

lotus position any special advantage over sitting normally? Warren: Is the lotus position any special advantage?

Shri Mataji: Not in Sahaj Yoga, not in Sahaj Yoga. You see now God has decided to give you in any position you sit; He has to save His creation. Many people can't even sit on the ground, so they are not to be forced now.

Whatever position you have, you are all right. You drink, all right. You take drugs, all right. You are a thief, all right. Any kind, come along. Once you get realisation these things will drop out. This is the trick. Better come along and have it. There's no position required, nothing required, only the desire to be the Spirit, that's all.

First one man: We'll take it.

Several people start to echo the request: We'll take it.

Warren: They want it.

Shri Mataji: Now they want it, that's all.

Gentleman: May we have it.

Shri Mataji: So, that's all, that's the best way. All right? Now those who got it yesterday are here, some of them and those who have come for the first time are also here. Two ladies: What's wrong with that? What was that again? Warren: They just want You to repeat that, “Those that have..."

Shri Mataji: No, yesterday some people got realisation and some of you are new people. We'll have to, later on, see them, those who are new. And those who got realisation, specially yesterday, I would like to meet them. As yesterday I couldn't meet them.

So I would like to meet them and those who are new, also we'll see if we can work it out.

Now, if you can put your both the hands towards Me. And put your feet on the ground with your shoes behind you. Those who have got realisation have to know all about it.

You must know about your Chakras, you must know how to raise Kuṇḍalinī, you must know how to give realisation to others, this has to work out. If you do not give realisation to others you may lose your vibrations, you may. Because the light that doesn't give light is of no use. What's the use of giving light to a thing which doesn't give light at all to others? It's not for you, it's for others.

But you also start feeling your Self. Now close your eyes, please, close your eyes.

[Aside:] Are you better today? Better? Left Heart.

Put your right hand, right hand on your heart. Keep your eyes shut. And left hand towards Me. Like this, as if for asking.

Now close your eyes, don't open your eyes. Please don't open your eyes. Now you have to ask a question: Mother, am I the Spirit? Ask in your heart three times, ask the question: Mother, am I the Spirit? [Puts the area above Her left ear to the microphone.] Better. Now ask the question, put your right hand on your left side of the stomach. Left side. Right side of the stomach, sorry..., left side of the stomach. Right hand on the left side of the stomach.

Ask a question, closing your eyes: Mother, am I my own Guru? Left, left side, left side of the stomach.

Mother, am I my own Guru? [Puts the area above Her left ear to the microphone.] Ask the question, ask three times. Better.

Ask ten times, it's better. Put both the feet on the ground, touching properly on the ground. The sole should touch the ground.

[Aside:] Is alright, you are alright.

Ask a question: Mother, am I my own Guru? [Aside:] No, it's alright, if you are sitting on the ground it's alright, you can sit properly, yes, it's alright, you were sitting alright.

If you are sitting on the ground it's just like that *[UNCLEAR]*.

Now put your right hand again on your heart. And without feeling guilty, this I'll say thrice: without feeling guilty, without feeling guilty, you should say that `Please forgive me, if I have done any mistakes in my seeking.' Or just say: `Please, forgive me', for any seeking, or anything you have paid more attention to your body, or anything, for imbalances, anything. Just say thrice without feeling guilty. That is very important, not to feel guilty at all. [Puts the area near Her left ear to the microphone.] Better.

Now put both the hands towards Me. Both the hands. And just please say, `Mother, make me my own Guru.' Say it thrice. [Puts again the microphone next to Her left ear.] Put the fingers towards Me, not towards yourself but towards Me. Alright, good [Snaps Her fingers].

Now you are balanced, now you say `Mother, please give me my realisation.' Is your right to have it.

This is your bank account, you have to just cash it. I cannot force it to you, you have to ask for it. If you don't ask for it I cannot surpass your freedom to ask for it.

You have to ask for it. If you don't ask for it, it won't work. [Puts again the microphone next to Her left ear.] [Aside:] Ekādaśha.

[Shri Mataji puts the microphone on Her Ekādaśha.] Now, as we are in Viśhuddhi Chakra, we have to say: Mother, am I the part and parcel of the whole? Am I the part and parcel of the whole? Or am I the part and parcel of the collective Being? Ask a question.

[Aside:] What's he saying?

Sahaja Yogi: [says that the seeker is asking to repeat.] Ah. You just ask a question: am I the part and parcel of the whole? [Puts again the microphone next to Her left ear.] Keep your eyes shut, otherwise the Kuṇḍalinī won't rise above the Āgñyā. It won't rise above the Āgñyā. Just keep your eyes shut. Those who don't want to shut their eyes should go away, or they should shut eyes, because they spoil the attention of others. Because in the collective being, everybody has to do the same thing. One cell starts doing something else it spoils you.

So to help others please keep your eyes shut.

Now better. Again ask for your realisation: `Mother, please give me my realisation,' as you ask for your right to ask that. But with humility.

[Snaps Her fingers and smiles. Then puts the microphone first on Her Haṁsa and then on Her Ekafidesha.] [Aside:] Where's a candle? [Shri Mataji stands up, She turns

around and works on Her Chakras with the candle: Void, eyes etc.] Good. Good.

[Shri Mataji works with the candle on Her left Viśhuddhi and other Chakras. Then She turns again towards the public.] Now you may raise your right hand, right hand on your head and see if there is a Cool Breeze. Move your hand a little and see. It's a, like a little draft.

There's no air conditioning on. You might, some of you might feel hot. Doesn't matter. If the heat is there, it's all right, the heat is coming out.

Now. You put your hands towards Me again and see if you are getting in your hand. Today I spoke about the Viśhuddhi so must be. It works out better. [Puts the microphone on the center of Her throat.] [Giving the microphone to Warren:] Gives a little shock I think, does it? With this one. [Snaps Her fingers.] Good.

If you are not feeling in your hands you'll feel in your head, again see if this is there. If you are feeling in your hands it's all right, it's perfect. Now those who are not feeling at all, you have to come on the stage, but now I'll go round and see the people who are sitting and individually I'll attend to them.

[To Warren:] Tomorrow morning are we going to have? Warren: No, no workshop.

Shri Mataji: I'm sorry, tomorrow morning we'll not have a workshop, but Wednesday morning we'll have a workshop here. But evening we can have a program. And there I will tell you about Christ and about the last Chakra which is the Sahasrāra.

Warren: Mother would like to meet all those who have gained their realisation.

So those that are feeling it in their hands or above your head, just stay quietly in meditation with your hands resting. Those that haven't felt it, very quietly just come up onto the stage please.

Shri Mataji: And we'll work it out on them also. People will help you. Please come.

Warren: We want to help, so by all means come out if you haven't felt it.

Shri Mataji: Yes, please come, please come. You should not delay. You see, there is... today some people may not get it they'll get it tomorrow.

So it is something you must have, all of you must get it.

Work it out. We have to work, not you, get it. It's very good.

[To a gentleman:] You didn't feel yesterday? Yesterday you did not feel? No? Warren: He is still getting a lot of heat.

Shri Mataji: Still heat, eh? That's from your heart, right Heart, right Heart. *[UNCLEAR]*. Left, left hand on your right Heart. Left, left on the right hand, yes.

[To somebody else:] Are you feeling heat?

Seeker: My hands are sweating.

Shri Mataji: That's it, that's it. That's very true with this Yogananda. Now you just say: Mother, make me my own Guru. You just say that, alright? It will work out. Can you place this photograph towards those people? All of them can sit here, we can work it out on them. But I would like to meet people who have got realisation.

Just sit down, here. Can you remove My seat from here and let them see. Alright, can put a light there.

[Shri Mataji stands up and goes to meet the people in the audience.]

***Contents: 1981-10-06*, Public Program (8th Day of Navarātri), Day 3, The New Age Has Started (From Kṛiṣhṇa to Christ), Houston, TX, U.S.A.**

[Introduction by Doctor Warren MISSING.] Today is a sad day because such a great man like Sadat is dead. He is not great to Me because he was a great politician or he was president, but he was a saint, he was a realised Soul, I knew all about him. The attack of the negativity is on but no more they will crucify a saint this way and will not face the punishment. They will be punished now. All those who tried to do such things will be punished because the new age has started.

Today I wanted to tell you about the Āgñyā Chakra, about Jesus Christ who adorns this center of Āgñyā Chakra, where you see the red mark. Behind that, inside, in the brain on the crossing of the optic chiasm[a] is this subtle center where this great Deity is placed. Through His crucifixion and through His Resurrection, he has created this space for us to enter into the Kingdom of God, which is placed within us.

Is not in without, is the limbic area that surrounds your ego and superego. In the Purānas, in the ancient scriptures of India, Christ is described so very clearly. Actually in the Bible what they saw of Him when He was on this Earth was written down. But nothing what created Him, how He came on this Earth what is the spirit of

Christ, what is the seat of Christ and how He came and what is His purpose and where does He stand within us. All these things are not described in the Bible as I told you the people at that time were not at all aware of His greatness, of His special Incarnation.

But if you read some of these ancient books you'll find that He was called as Mahāviṣhṇu in the Devī Purāna, in the Goddess Purāna, is the ancient scripture of the Goddess. Mahāviṣhṇu was created immaculately. Now when we say that Christ always pointed out this finger is very significant. Actually this, this means Viśhuddhi Chakra and means also America. But this also means Viśhuddhi Chakra stands for Śhrī Kṛiṣhṇa as I told you and He is the Primordial Being and He is the epitome of our evolution in the sense that He is the Primordial Being who is the Father, who is the preserver.

Now in the Purānas He is described that His power was Rādhā, Rādhā. Sanskrit language is absolutely very scientific as far as the Divine Laws are concerned. Ra means the energy, dha means the one that sustains. [Sanskrit.] She is the one who sustains the energy and She was His power. But in India Kṛiṣhṇa is never taken as Kṛiṣhṇa Rādhā but Rādhā Kṛiṣhṇa. The energy is before the deity. The lady is before the gentleman, we can say. Rādhā Kṛiṣhṇa.

Now this special happening took place long time back. This is at the stage of Vaikuṇṭha as we call it, at the stage where nothing existed as far as this world was concerned. At different stages it came up. We see the world in such a way that it was created in seven days, but actually these are seven stages in when this whole

Universe was created and we are at the seventh stage, we can say. Now at the first Vaikuṇṭha stage where it was all decided, how to work it out the creation of this great personality, of the Son of God, the greatest of all, the Adhara, the support of the universe, this Mahāviṣhṇu.

So Rādhā, She's Mahālakṣhmī, She is the central path. First She created Him in the Vaikuṇṭha stage. And at that stage She decided that She'll create It by Herself this great Incarnation and She created this Mahāviṣhṇu. I would like you to get the translation of the description of Mahāviṣhṇu and also the description of Gaṇeśha who is the Spirit of Christ and who incarnated in this, on this earth as our Lord Jesus Christ.

So we have here an Incarnation, a very special one, which was conceived thousands and thousands of years back at this level where it's only the activity of the God's mind was there, Vaikuṇṭha stage, where it was decided that this power called Rādhā will conceive Him in Her heart. And She conceived Him in Her heart. And then He was made like an egg. See the symbolism of Easter, like an egg. Can you recognize it? People knew about it somehow. Why do we have Easter, eggs? We never think about it. He was created like an egg out of which the half of it was kept as the seed, as Śhrī Gaṇeśha, as the Spirit and a half of it was created as Jesus Christ. The whole egg was nothing but the egg of this Divine power, which has to manifest this Divine power on this Earth.

This story is very beautiful, how She created and then He asked: “Who is my Father?" Rādhā is nobody else but Mother Mary Herself. She is Mahālakṣhmī. People may say that they can't believe in immaculate birth of Christ.

They cannot believe in the conception of Christ. I mean you it's easy for people to say: “We don't believe." What do they know about God? What do they know about His mysterious ways of doing it? Can you say how you convert or you transform a flower into a fruit? You don't know anything about living miracles and you start doubting the Immaculate Conception. Here, when you got your Realisation I conceived you in My heart and gave you Realisation through My Sahasrāra. How did you get your Realisation? You never thought of it. Is an impossibility. Thousands of people are getting Realisation. How is it possible? There must be something special about Me and about the way it is done.

In the same way She conceived and gave Him the birth through Her uterus.

You can move it anywhere on your central system. And this great Incarnation came on this Earth with such a special purpose that He was nothing but Praṇava, is the, this integrated power, this great power which has all the powers in it: the Icchā Shakti, the Prāṇa Shakti and the Dharma Shakti is the central path, all of these put together. He was nothing but energy, energy put into an egg because He had to do a very great job.

So this Rādhā Herself, this Mahālakṣhmī, this Mother Mary conceived this child and to name Him after Kṛiṣhṇa who was the Father. She called Him Christ. Christ come from the word... In Indian language is, we call Him Krist, Kṛiṣhṇa. Kṛiṣhṇa means the one who has sown the seed. He is the Father. He points out always to the Father. But in the Purānas it is described that Kṛiṣhṇa said: “You are higher than Me. I placed You higher than Me." He placed

Him, you can imagine that Christ is at this point and Kṛiṣhṇa is at this point. He placed higher Him than Him and He said: “In anywhere people worship Me", Śhrī Kṛiṣhṇa said, “automatically You are worshipped. You will be the support, Adhara, of the whole world." Is wonderful to say that about I think 14,000 years or 12,000 years back, Mārkandeya, such a great saint was born in India. And he has written the complete Gaṇeśha Stotram, means the complete praise of Gaṇeśha. You can see the translation is so beautiful and that he said: “You'll be so humble." He is the one who is the ninth Incarnation called as Bautha among the ten Incarnations. That He will be so humble that He will wash the feet of His disciples. All the miracles of Christ are described in these books. But these books are not translated.

And that He will be the one, when enlightened within you with the Kuṇḍalinī, He will take away all your Karmas and all your conditionings because He will die for your sins, for your Karmas. The world will not have to suffer anymore, if He is awaken within you. These are all the things already written, thousands of years back. Can you imagine? I wish the Christians who went from here to take, explain Christianity to Indians told them that Mahāviṣhṇu is already born and we are preaching about Him, the One who is going to suck your conditioning, the One who is going to suck all your problems of Karmas. They never told. On the contrary, they were so stupid, I must tell you, that they would put a loaf in a well and say that: “You all have become Christians because we have put the meat of the beef, the beef inside the well." Indians don't eat beef, you see. “So you all have become

Christians." Villages after villages they converted into Christianity. They started branding them as Christians. This was absurd. And that's why the people were waiting and waiting for the Advent of Christ.

His name Christ comes from the word Kṛiṣhṇa, Krist and the second one is Jesus. Kṛiṣhṇa had a foster mother whom Rādhā loved very much. Her name was Yeshodā, we also call her as [Jesoda, Jeshoda]. Christ is called also as [Yesu, Yeshu] in India. The short form of [Jesoda, Jeshoda] is [Yesu, Yeshu] or [Jeshu, Jesu] we have both the things. From there the name Jesus has come. She wanted to name Her after the foster mother because she was a lady so she was called as [Jeshoda, Jesoda] but for a man She selected the name [Yesu, Yeshu] and [Jeshu, Jesu]. Moreover the word [Jeshu, Jesu] or [Yeshu, Yesu] is very important.

`J' in Sanskrit language means, every word has a meaning in Sanskrit language, means to know, is to know, the knowledge, Gñyāna. [Sanskrit.] The one who knows. But [Jeshu, Jesu] *[UNCLEAR* `shu'/`su'] means auspicious. *[UNCLEAR* `Shu'/`Su'] means `that brings auspiciousness, that brings blessings'. Jeshu is the one who knows how to bring auspiciousness on this Earth. People never told this, they never knew who went from here with the message that Christ was born.

At the time when Christ came on this Earth with this big message that somebody has to pass through this special problem. Now let's see why the problem was there. We have to understand the problem that faced human beings at that subtle level where they had to work out this special, a very extraordinary Incarnation. The

problem was that human beings had raised their heads. By raising their heads their ego and superego grew up around their limbic area, making it a very hard shell, just like an egg. A man developed his `I'-ness and only way to transform him into a bird, like an egg breaks up into a bird, was to make the Kuṇḍalinī rise.

But how to make that compact stuff where it is crossing, crossable, which can be crossed over, which can be passed through.

So they had to create this special Incarnation, which is nothing but Praṇava, the Om, the Logos as you call it, the sound of the All-pervading Power. To be put at a place where nothing but the power itself can remain, because anybody else, all other Incarnations who came on this Earth had all the five elements within them. But He was just the power, the energy, the complete energy. He didn't have, for example we all human beings are made of five elements on the right hand side as I told you and when we die the part that is our body, means one of the five Koṣhas, as they call the cocoons of the body which is the matter, falls off. Then the water cocoon also falls off and the soul remains with the Spirit on your head and the Kuṇḍalinī also there. But He was the only One who had no earth element in it. And so it was a very special type of an energy engulfed, engulfed into a human being was placed.

Kṛiṣhṇa has said about the eternal life and about the Spirit. In Sanskrit language is very beautiful because it's a mantra: “Nainam chidanti shastrani, nainam dahati pavak, na chainam kledayantya apo, na shosayati

marutah." Means it cannot be killed by anyone, the Spirit cannot be killed. It is eternal.

You cannot crush it. It cannot be own out by any wind. And He had to prove it and to prove that they had to have somebody here, on this Earth, with that energy to come in, with a body, to act like a human being, live like a human being and go through that drama of death to show that He overcomes the death.

The Resurrection is our message, that He resurrects Himself. He had to die and He had to be resurrected because He says that it is beyond death. Kṛiṣhṇa has said that the Spirit is beyond death. And the Spirit had to come on this Earth.

So you understand when we talk of Christ how little we know as to how this worked out. Is the most difficult thing that he did. And His Mother was the Mahālakṣhmī, is the power, which is the central power of sustenance, pure sustenance, pure holiness, pure innocence. Such a powerful woman She was, very powerful. And Himself is endowed with, you won't believe, with eleven powers of Rudra, means of destruction, eleven powers of Rudra. He's Ekādaśha Rudra. Is described, all that is described, I'm not telling it as My own. You can see for yourself. He was endowed with eleven powers of destruction. But He was to go through all this, with all the humility. When you have all these powers with you and when egoistical people behave like this, these donkeys, you see, who could not understand Him, these brainless people in those days, who could not believe Him, He could have destroyed all of them in one *[UNCLEAR* shot/shut]. Absolutely He has got eleven Rudras. You can imagine

His destructive powers, with which He is going to come back. And He had to keep them in control.

But He didn't say about His Mother much, because She was the power and if He had said so, then they would have directed, these negative forces would have directed all their attention towards Her and then He would have used all these eleven powers and the whole drama would have been failed.

So He kept quiet on that.

My father, as I told you, was a learned man and a very great soul and [we] used to discuss about these things and I said: “Martin Luther, who was a realised Soul, when he started his new movement of Protestants, why did he not enhance the glory of the Mother?" As the Catholics knew, because Catholics just followed after Christ so it linked about with them. My father told Me that at that time Martin Luther faced three forces against him. First one was the Christians themselves, the Catholics, who believed in nunneries and all kinds of ritualism and all kinds of nonsense, which he wanted to out, then he had another force, which was facing and that one was the one that came from the Jews because they would not accept Him. Even today they don't accept Him. They are very adamant. And the third force that he had to face was the Islam, Islamic. And the Islam pleaded down the role of a woman though Fātima Herself was the Holy Ghost, is the Mahākālī power, the daughter of Mohammad. But he pleaded down just because the Islam had pleaded down he thought gradually as Protestants will grow up, he will start introducing the greatness of His

Mother. As it is Jews even today are after the Immaculate Conception.

In London, very recently, I think about two years back, as they have money they paid some of the newspapers and published something nonsensical about Christ. They said that it was predicted in the Bible that a child will be born to a girl, but it was not a virgin, the Hebrew word, as it is, is for the girl and not a virgin. I said: “In those days, we didn't have girls of 80 years as we have today." Even in India today if you say a girl, a kanya, means a virgin, kanya and virgin is the same, means the Virgo.

Modern times are funny. We can't judge Christ style Christ's time according to modern times. Even you find a woman who is married ten times they'll call her a girl here. But one should logically understand this point. Is very logical. But if it was to be said that a prophecy means something special, that a child would be born to a girl, of course it is going to be born to a girl and not to a boy. And why was the girl word? It is going to be born to a woman. If it is to a woman it is nothing special. What is there to prophesize and say about it? Is so logical that when the word girl came in it meant the virgin. All kind of things they are talking, doesn't matter.

First of all they say that our, we have to suffer till our Savior comes because Christ didn't suffer for them.

So they are suffering. Now, we have to know that Christ has suffered for us absolutely to the brim.

We don't have to suffer anymore. Is a nonsensical idea coming from people who are sadistic, who have no joy in themselves. They cannot see you happy. And that's why also they make Christ look like a TB patient, I should say.

I went to the Sistine Chapel and Michelangelo was a realised Soul, a great person. He has done complete justice to the image of Christ. Huge big thing like a, we can say, a Texas fellow standing with a Lambodhara, with a big stomach of this kind is described. Gaṇeśha is Lambodhara. Standing there throwing people right and left. Just see the words, how He has spoken. He was not a cabbage like person, He was extremely dynamic, He was full of vigor, He was absolutely fearless. He had nothing to fear. And He's standing there and throwing people to the left and the right and the right ones is accepting them and putting them in the Kingdom of Heaven. Just imagine! It is Michelangelo is the only person who has really done justice to Him and I would say Rubens because of his habits of painting the muscles, he's done a very beautiful painting, I saw, is in the place where he lives, of the ascent and descent of Christ.

Beautiful, one of the best one could think.

Nowhere miseries written on His face. Such people do not feel the misery. They just watch the drama.

They don't suffer. Because of taking up your sufferings it took it upon Himself and He showed to the world that: “Now I ask forgiveness from My Father." He stood as a representative of all the seekers of the world before His Father who is a wrathful Father. I told you Śhrī Kṛiṣhṇa has a Samara Shakti and worse than that is the witness God whom we call as Sadāśhiva. He is only there when He has to destroy. And He asks as your representative: “O Father, please, forgive them." He asks for forgiveness, facing His own Father as your representative that: “Please, forgive them." This is the greatest weapon He

has given us, to forgive. That's one thing none of the Christian nations are doing, is to forgive. Perhaps people have not known the power of love. They do not. They talk. God is love. Just talk, talk, talk, talk. If God is love then love must be the most powerful thing.

When I first started My work I outed all these fake Gurus by names in India and I told them what devils they had been and I've known them for ages. And people told Me that: “They will shoot You this time." I said: “Let them start shooting. I'll see who can shoot Me." And all those I have... always I have outed them anywhere I get the chance. I've told that: “These are horrible people." As Christ has said: “Hot or cold." He doesn't mind, because if it is cold they are realised, if they are hot then we'll fight them.

We can tell them how out. But if they are one lukewarm, you see, there are people: “O, we are in different awareness, they are in different awareness, we must accept this awareness also, we must accept..." Such people are the ones He said: “I'll spout spit them out of My mouth." So clearly.

He's the One who whipped people who were selling things in the temple. He is the One who said: “Don't throw pearls before the swine." So far I've never used this word but He has. He was dynamic. He was not afraid of anyone. And He couldn't bear the mediocrity and this kind of balance: “Oh, we have them also, we can have the devils and also the Gods." People argue: “Why do You criticise them? They don't criticise You." He said: “The devil, the Satan is not going to speak against his own house." This is exactly what is happening today. I've seen

when I say that “This man is a devil” people say: “Mother, why do you call him a devil?" “Because he's a devil, I have to call him a devil. I'm your Mother." When I see a person suffering, he cannot get his Realisation because he went to this devil, I have to say he's a devil whether you like it or not. If you are a true seeker you stand up to that and see for yourself you are a true seeker. And if you are a true seeker you must find your Spirit and you must get to your Realisation.

I'm not here for any elections or pampering. I'm here to give you your own, to have your own Spirit, to enjoy your being. Even if the whole world gets against Me, I'm not bothered about it. I'm here of course to look after you, to tell you in a proper way. But if it comes to the devils I will be the One who will stand against them, every minute. Whatever may they come in, whatever garb, it's very easy to make them out once you get your Realisation. It's very easy to find out. He Himself has said it all these things. He said: “Don't judge anyone." Before Realisation you can't judge anyone, from the appearances. They look very sweet, you know, or they talk very sweetly. They come to you in a band, you see and they walk with such beautiful gait. They are great dramatist, some of them play flutes, jump like Kṛiṣhṇa.

Some say: “We are Incarnation of Christ." There was a gentleman who said: “I'm the Incarnation of Kṛiṣhṇa." I told him: “Why do you make the ladies nude and naked? What religion has taught you this, to make the ladies nude and naked, take out their clothes and make them dance? What is this?" “O, he said, I'm Śhrī Kṛiṣhṇa!" I said: “Really? I never knew Śhrī Kṛiṣhṇa did that." He

said: “No, He did." Once Kṛiṣhṇa was a small child of four years, you can imagine, a naughty little thing. What did He understand of nudity or that? Innocent. And the Gopis, you see, were having their bath in the river Yamuna where Rādhā was putting Her feet, so the water was all vibrated. And He climbed up onto a tree and they had put their clothes on a tree and He hid them.

So they were asking for His clothes: “Now what are you doing? Why have you hidden?" It's a mischief.

It's the fun. But in that fun what He was doing? Was to give them Realisation because He could see their Kuṇḍalinī at the back. *[UNCLEAR* As/And] a child of four years... What does a child of four years know about nudity, or dress or anything? Innocent. Modern children may be very precocious, but not in those days.

But when He was the king in Dwarika, I asked this nonsensical fellow who says he is the Bhagawan and the Śhrī Kṛiṣhṇa, I said when He was a grown up man and a king in Dwarika, which is at least two thousand miles away from Hastinapur Delhi and a lady called Draupadi, who called Him as a brother, was troubled because she was pound *[UNCLEAR* porned] and all that, a big story of Mahābharāta, you might be knowing Draupadi and a devil of a man called Dhuriodhana said that: “I'll make you nude” tried to pull Her sarī. It's a beautiful description of the whole thing. He, He was worried that she will lose her chastity by removing her..., this is called as *[UNCLEAR]*.

So she put it in her mouth like this and she was to call Kṛiṣhṇa. She says: `Kṛi and she was holding because `ṣhṇa' means it falls down. And as soon as she found that

the sarī is going, she said: `ṣhṇa' and the description is so great: "*[UNCLEAR]*." When she did that `ṣhṇa' it echoed in Dwarika where He was ruling. He was the king there.

And with shanka, Chakra, Gada, Padma, these are his four weapons, one better that the other. One is sufficient, the Chakra, I told you, all up of them together on the Garuḍa, on the condor He arrived there to save the chastity of His sister. If He was fond of removing the clothes of women, why did He all the way come and save that? And this fellow didn't know how to answer Me. I told him: "One day your clothes will be taken out like this." Within eight days it happened.

Somebody took out all his clothes and he was dancing on the street and nowadays he's backing back in America with a paralysis. He couldn't smell flowers. One better that the other. But his disciples, if you tell them: "O, don't say, Mother. We love him." This kind of a funny mesmerism it's stupidity. Awake yourself! This kind of emotional nonsensical attachment to one person is not going to give you Realisation. You have to become your Spirit. You have to be actually reborn. There is no place for devilish people. If they are from hell they will go back to that, but many of their disciples are also walking through. *[UNCLEAR* While/Why] they are My children, I would say? They are the children of God, they are the men of God, as described as William Blake. They have been born on this earth for seeking because they know this is the time they are going to achieve their Realisation and these horrible people have mesmerized them.

At this time should I go and garland them and say: “You are very nice people?" If you expect Me to do that, then you have not understood Me at all. No use telling Me: “O, their awareness is different." I see that your Kuṇḍalinī is ruined, you are up to get a blood cancer or some sort of a cancer or you are going to get into the lunatic asylum.

Something horrible is going to happen to you and when I see that am I to say “Yes" the one who has done, go and fall at his feet? But if there's a real Guru I would go and meet him Myself. There are many, but they are hiding. I sent one fellow to New York, he ran away within two days, within two days. He said: “O, these New York people are different." He said: `I have to take a circus with me. They like a circus." But Houston people are different.

Now, so this was the great Incarnation of Christ who came on this Earth, a very dynamic. Those who say that: “I'm the Christ” there's many, you see, self certified people: “I'm the Christ." Now the kind of a Christ they do, He was never like that, He was a healthy man and He was not one of these people who's these cheeks have gone inside, who looks like a miserable, hungry, pitiable man. Anyone of these who say that I'm the Christ, ask them to walk on the water. Immediately: one foot up and one foot down. Ask them to walk on the water, if they can walk, it's alright.

Supposing I say that I am the Holy Ghost. If I say so there is a significance of that, that in the presence of Holy Ghost, the Kuṇḍalinī rises. Is written down. There are thousand things written and every word has to be tallied with that person otherwise you just don't believe. Let

them go and walk on the water, is not far away from here, seventeen miles only and see how far they go. Is the best way to judge these people. We have got a method to judge these people.

Thank God, we are born in modern times when we are not [illiterate] ignorant, we have had Christ, we have had so many people, we can read and we can understand, we should logically reach the position to understand what do we have to expect from a realised Soul. If he talks like a politician who wants to have votes, how can you believe that such a person could be an Incarnation? An Incarnation has not only to be a fearless person, but has to be a holy person. Not the one who is like a parasite living on other people. Like these lamas [are]. They live like parasites in Nepal and also in Lhasa *[UNCLEAR* poor these tibetans] were suffering. They had no food but these lamas were living and taking their special Ambrose, they call it, in golden cups. Today they are driven out so they are on our head in India. We have to support these nonsensical people sitting down there as lamas, these parasites of the worst type.

And those who could not get a place there are now moving about and now they want to live on a marble flooring. They can't live on a carpet flooring. They must have a marble flooring. And people have to starve themselves to create a marble flooring for these horrible parasites.

Why should a saint ask for anything? A saint is a king. He's above all these comforts of life. He's not bothered. I mean, if you ask, I can sleep on the street, I've no problem, no problem, because I'm above the want, I'm

above greed. I don't know what sort of a thing is temptation. If they call themselves as Godly people, look at their faces, worn out, biscuity, serious, nonsensical people. They have no sense of humour of any kind. Not only but I've seen some disciple who came to Me, all their bone was broken, all their back bone was broken, every bone was broken by these people. They use to beat them [these sadists]. They take money from you and finish your Kuṇḍalinī.

Their days have come now. Because they talk well don't believe them. What have they given you? Somebody says: “They have given us the knowledge." All right, what knowledge? What knowledge have they given you? Knowledge, is all mental. What have you got it in your awareness, where you have to evolve, when you rise. Christ has described it so clearly, I did need not say what a realised Soul should be. You become a witness, you become a witness of the whole drama, of the whole show. And this should happen to you. Not only, but you are empowered with the powers of your Spirit. At least your health should be all right. People are suffering from stresses and strain, having a headache all the time, jumping on their sits and they say: “We get very positive results." What are positive results? These make believes if you carry on with them you will have no way of judging as to where you are.

First of all get your Realisation. Get to your discretion power and realise that it is you who can judge them after Realisation, not before. Christ has said `right discretion'. He has used the word: `right discretion'. How do you get `right discretion' unless and until you are realised? And

this is not to be self-certified. As Christ has said: “You'll be calling Me `Christ, Christ.' I will not recognize you." Meaning what? Those who say: “We are Christians” you see, going about with the label: “We are Christians, we go to church, sing our hymns and come back home and quarrel, going to wars, fight. We are the people who drink on a Christmas day. On a Christmas day, we drink!" Now, when Christ said that, they said at the time of Christ, He went to a wedding and He blessed the wine. Is not true. That wine, at that time never meant, even in India today, wine never means an alcohol. But Moses has talked about it very clearly and Abraham has talked about it because they had to deal with this wine void which I told you, the Primordial Masters, they had to deal with the liver, so they talked about it, they called it the `strong drink' and `fermented drink', so clearly.

But everything happens if somebody dies, you must have champagne to celebrate his death perhaps.

If Christ is born we must have champagne. If Christ is born that is the day we should dedicate ourselves to our Spirit, not to get out of your awareness. Anyone of these fermented things take you away from your attention. Your attention is in a way empathized hypnotized. I don't say: `You don't drink!' at this stage but after Realisation you will not. You will not, even if you want to. You will not drink, because you get drunk. Like Me, if I go to a party, you see, they will always say: “Please, have something. O, You must have, please. You have not tested this. You better have." I said: “No, sir, I'm sorry, I'm over drunk already. If I drink more, I don't know what will happen to Me." I mean you can't tell them: “You don't drink." You

see, that would be absolutely *[UNCLEAR* unliarly] unmannerly to tell them: “Please, don't drink today." But they'll go on forcing you and if you say anything against it then absolutely you are no eliteness about you. You are absolutely unsophisticated.

This is the thing in this world. Virtue has no meaning. If you are virtuous, you better hide yourself.

Not in Sahaja Yoga. You enjoy your virtues in Sahaja Yoga. You really enjoy yours and others virtues. Is a very different thing as in the unity church you call it, a New Age is coming, is absolutely true. I find, as I told you the principles of this church are very, very close to that which is the stage on to which you have to jump. And that's why the right conclusion that is reached is absolutely the way to understand where you have to reach logically. But you must know, you have to take a stand. You cannot be a person who's apologetic. There is no place for apologies. If you are a realised Soul, you are a realised Soul. You are not dominating it by that to anyone. You are not dominating. By that you accept your situation with glory and with pride.

But I've seen many Sahaja Yogis also feel shy to accept that they are realised. They understand what's happening. They are giggling, they are laughing at the way people are, but they find it impossible to talk to them about their Realisation, that other should get their Realisation. You have to take a stand in your family, in your surroundings, with your friends and you have to tell them that: “You better all get realised." The reason for that is that the Christ who crucified Himself, He is going to come back, with his eleven forces of destruction. And

then He's not going to tell you anything, not going to ask you to take any Realisation, nor He is bothered whether you go to hell. He will just sort out.

But those who have got Realisation will enter into the Kingdom of God. You have to enter into the Kingdom of God. Here, as I say, is the seventh Chakra. I told you about the sixth Chakra, which is adorned by Jesus Christ and the mantra of the seventh Chakra... sixth Chakra is our Lord's Prayer. That's the way you can solve both the things. But the bīja mantra is Ham Ksham. Ham Ksham. It means that when you are infested with negativity, with depression, with the attack of the superego, as shown here, then you have to say: “I am, I'm going to fight you." If you go to a Guru who makes you a negative person, who makes you feel very shy, who says: “You are all the ego and you are good for nothing, you must pay me more and pay me more." And you all the time say that: “Oh, must be something wrong with me, nothing wrong with this man." If there is self-pity and also there is guilt, then you have to say: `I am not guilty.' Then you have to say that: `I'm my own Guru,' if you have left side problems. But if you have right side problems, then you have to say: `I forgive, Ham Ksham.' These are the bīja mantras of this two, which you have got, your symbol is of these two wings, is actually the Āgñyā Chakra.

It is just like that. Āgñyā Chakra is just like that. But they call it the, what Egyptian, what... no, is not that. You see, this symbol has come to you from unconscious, is the Āgñyā Chakra, is this center.

Egyptians didn't know much about God, I must tell you. Of course pyramid is, pyramid is, pyramid is all vibrated.

But the way they were so much worried about their dead is horrifying. Imagine these bones buried in the one box of gold, then one box of silver, then one box of this and all the ornaments kept with the dead. The dead is finished into bones, the ornaments are there. I've seen that in Egypt. Mad people, I must say. It's Sadat who would have brought it round. But let's see something new will happen there, in that country.

Traditional countries have wisdom, inbuilt wisdom and they go on improving because they have tried all these methods and they know [where to go]. He didn't talk of death. They know it from the people, pharaohs and all that who had all these kinds of a funny mummies going round and keeping the dead in a silver box and as if the dead knows where is the silver. Christ has said many things, which we do not pay attention to. *[UNCLEAR* None/One] of them is about the dead. In every church, I was happy to know that in this church there is no cemetrey. You walk into a cemetrey if you want to go to a church. A lady who came from India, she said: “Everything seems to be upside down in England." I said: “What?" She said: “I went to see a church. And all the dead were laid there under my feet. And I was holding my sarī walking like this. I was thinking I was going to step. And the lady with me said: `What, you should walk straight.' " She said: “How can I, you see? These are dead here. It's like a cemetrey." And she was walking carefully because they must be respected.

You take your children to those churches. I mean I don't know, you don't understand that God has talked about spirits in so clear ways. Of course, maybe it's not so

much in the Bible, maybe, but He showed that He took out the spirits, He talked of spirits of so many people and put them in the pigs and put them in the sea. All this is so clearly given, still, just see the Christian nations. Today's newspaper, was there one free newspaper, witchcraft, devils den, devils angels, this Guru, that Guru, psychic, ESP, all kinds of spirits. Imagine! I mean in Indian picture you won't even find one advertisement like that. Maybe some of the Gurus might try, but in India people know who is real and who is not. Most of them know.

While here I find all kinds of things, which are negative, which have something to do with the spirits we are doing. It is against Christ. Why should we bother ourselves about the spirits? Let them alone.

Like somebody's father is haunting, somebody's mother is haunting. Now, there've been so much for you! Now forget them. Let them be born again to get their Realisation. Then you call somebody's spirit here, somebody's spirit from dead there.

Some spiritualist goes into a funny gesture and you start believing that and asking about your future and this and that. Is all very superuous and absolutely silly against your Spirit. I've told you yesterday, those people who indulge into these, for seven generations they suffer, seven generations. I'm telling you from My experience. And those who go to them also suffer. Even the countries where this is practiced too much.

If a child is born there, I know of a lady whose child was born in a country like that and he had this Āgñyā protruding just like this. And when he saw Me, he started

screaming and shouting, he couldn't bear Me. And today he's a different child, I saw. He's a French child, he's a very different child. Absolutely.

But he was so much and so many spirits in him, you can't imagine. And she told Me that she, she had a nurse who was form that country and perhaps she has done something to him.

So the source of this is already unlimited. You don't have to pay for it. You stand outside and you can get anyone of them. It's very easy to catch on them, very easy. For example, somebody asked Me: “How do you catch a spirit?" I said: “Very simple. You put a light before you, of course you don't try on that stick and make a whole in a black paper, little hole. And through that hole you see the spirit. You see that light and you'll get a spirit into you. You get any name, which is commonly used and go on and chanting that name, you'll get into a spirit. You start saying any absurd thing in the presence of God, in the presence of the picture of God or of Christ, you insult or do anything you get into it." It is the easiest thing to get a spirit in you. You start jumping too much, you get it, you start saying: “Hooo." You get it. You do any funny thing, you get them. They are all around. They are busy bodies. They want to use you for their purpose. They are very easy available. Why do you pay for them? Will you pay such a lot of amount just to get one of them on top of you? You have to be your master, I told you. You have to be in the way Christ was. It's only He has the power to raise the Kuṇḍalinī of people like that, as you do now.

He was created in that immaculate way in which you have been given Realisation, in the same immaculate manner.

So have your self-esteem. You are not going to become slave of these horrible useless sly aggressive people, who are hanging around just to trouble you because their ambitions are not fulfilled or they are sly or they are sadists, or they are masochists and all that kind of thing. You are seekers, of high quality. Rise up to your Self. This is the message of Christ to you, because He resurrected Himself. Did you He dance or did you He say Hu hu, hā? Even He was tempted by Satan. And Uninvited the Satan arrive there and Uninvited. Nobody asked him to be there.

He has fasted for you, so you don't fast. If you fast, you'll get a fasting spirit in you. If you over-do your Haṭha Yoga you'll get a spirit, which will do much more Haṭha Yoga till your ribs break out. Yeah.

They take you to extremes, you see. You see those mad people running, jogging on the road. They will get it very soon. I am worried about them. You see, all these extra things, there is no need to do. Today we saw one of the circus or some sort of thing that was there, they were three people from somewhere, I think from Spain and [all that]. And the Viśhuddhi was so badly catching in them. Poor things were putting all the pressure, going like this, going like that. And they said they are statues, whatever it is. I said, I had simple pity for them. I said: “What are they up to?" I mean, you can have real statues like that. But why make human beings behave so funny, so extra energy consumers? Why? Why? You are human beings,

you are delicate things. Why do you want to stand on your heads? Why do you want to do something that you are not supposed to do? You have to stay in the central path, in a sensible way, in a very normal way, to get your Realisation. We'll Need not do anything that is extreme. Always avoid extremes.

But you tell something to someone. Is impossible. Human beings must start doing it. You give him a cycle, till he breaks his head, he will not give up his cycle. You give them the skates, till he completely is in an accident, he won't give up his skates. It's impossible to deal with them. To be in the center is the easiest thing. Just to be in the center, in the balance. Before going to the Sahasrāra, I want to tell you about the balancing, because tomorrow I'm going to tell you how the diseases are caused.

So the balance is... Because if you use anyone of these powers, for the first power is of superego, through which we run away from places, we avoid, we are frightened, we have fears. The another is of aggression, right hand side, is the ego.

Anyone of them if you use too much, the other one gets frozen. For example, a person who thinks too much and plans too much and thinks that he is responsible for the whole world of affairs, you see and he is doing all the work, while he doesn't do anything, God does everything. In the myth that he is, develops his ego to a great extent by which his left side suffers too much. And then, first thing he develops is all the problems of the left side in the organ. First of all, the poor Swādhiṣhṭhāna cannot look after the liver so he develops a liver, then on the left

hand side it is absolutely useless, so he develops diabetes. Diabetes is not caused by sugar by any chance, I can tell you. Of course, you should not take too much sugar, also. I mean, too much of everything is wrong. But you must take sugar. Is important for your liver to have your sugar diet. But it's the idea in the head that if you take sugar you get diabetes. Not at all. It is caused by over thinking. Absolutely. Not by sugar. In an Indian village, a farmer takes at least every day half a kilo of sugar, for your information. And they do not know what diabetes is because he doesn't think. He just does.

If you want to solve your problem of diabetes, you have to develop your thoughtless awareness, which you get when Christ is awakened within you. He thinks for you. You don't have to think. You just be in that silence, that bliss. And then Swādhiṣhṭhāna can look after the other side. Diabetes is absolutely curable through Sahaja Yoga. Then people who suffer from the troubles of the spleen, like anaemia and all those things. But the worst of all is the blood cancer. Blood cancer is the worst thing you suffer from spleen. Now, how it is caused? A person who's very busy, you see, is big man, he has no time.

So he gets out of his bed, puts on his trousers and he is there for the breakfast, standing he's eating something. All right. Poor this spleen is trying to cooperate that emergency, is trying to give some blood. Suddenly he jumps into his car, he's driving, he goes and meets other who are on the way, have jammed his way, so he's cursing them, doing all kind of things. He is very speedy, you see. He must go and he can't bear that jam. This speediness comes to you because this spleen becomes

mad. It becomes crazy. It doesn't know how to cope with the mad man like that. He has no time to sit down and eat.

Formerly, in India, the husband, of course our system is rather different, which the American women won't like, but we have been very successful with our methods men, you see. It's a trick I will tell you.

The women must know cooking in India. They might be the richest of rich. They must know cooking.

They know very good cooking, excellent. You know, you approach your man through his stomach, always is true. Hundred percent. And then they make the husband sit down comfortably. In India, we sit on, I mean we have a kind of a, what you call a *[UNCLEAR]*, we can say a stool which is very low and the husband sits there and another stool in front of him. And she sits there with a fan, you see, she's fanning him. The rhythm of the food is with the fan. And she serves him and she looks after him and she talks to him very sweetly at that time when he eats his food. That's the sign of a GṛuhaLakṣhmī, of the, of the, what is, the Goddess of the family. She's very kind to him, then he likes those relaxed moments. She feeds him.

Then he gets up and dresses up and goes to his work. This kind of peace we should give to our husbands, if you have to control them. You have not to compete with them always they are like children, I tell you. They are so sweet.

Somebody told Me: “Mother, you must go and describe your self esteem as the Mother of women." I said: “What?" “Yes, there are many women who are expecting

their Mother Goddess to come." I said: “But I'm sorry, I'm Mother of men as well as of women. For Me both of them are just the same, two chariots, the two wheels of a chariot. One is on the left, another in the right." Is great thing to be a woman, I must say. Like this Mother Earth, she bears us because she's so powerful. If you are a powerful person you can bear it up. For example, husband has to get angry with you sometimes. If he gets angry with somebody in the office, he loses his job, he'll be fired. But if he sometimes gets angry with you, it's all right. Doesn't matter. It's just fun. But a woman has to be that playful, that cheerful and that understanding should be in a woman. What is there to compete with them? You are the power, the potential. You have to give that power of love to your husbands. In Sahaja Yoga we have changed the entire system of society, also. It's such a beautiful relationship between husband and wife, such a beautiful one among children and parents and... It's so beautiful, you can't imagine.

That age has to come. We are not to fight for any rights, we have every rights. A woman has every right within herself. She doesn't know how to handle it. And they have gone crazy. They don't know what to do with these men. It's very easy to handle them. You have to learn the art of expressing your love.

That's the thing we lack. *[UNCLEAR* We/Which] should come from your heart to understand that we can't live without each other. This will stop many things that are going wrong in this country and the injustice we are doing to the children who are born to us.

Now this is I am saying because Christ has blessed marriage. Those who believe in nunneries and all that are really nonsensical. And the nuns getting married to this innocence? I mean, how can innocence marry? This is the worst thing you can do to Christ is to say that: “This nun is married to Christ." I just can't bear the idea. Is absurd, is an insult of innocence. And this is what it is, we should understand, that marriage is blessed by Him. Is a sacred thing. We should not make a mess out of it. Is so pure. Is very beautiful. You enjoy each other in company, also in separation you do enjoy. If you know how to be sweet to each other, is so beautiful. It's very beautiful. These traditions will come back as soon as you become the Spirit. I'm sure of it.

Now, so we come, I told you about the imbalances to a great extent, but later on tomorrow also I'm going to tell you because Sahaja Yogis have to look after their imbalances to keep their health all right and to look after the health of other people also.

Now about the tenth Chakra, the last Chakra as called the seventh Chakra, seventh Chakra, which is very important. This Chakra has got all these seven centers in it. It is placed in the brain. The brain, if you have a transverse section of that, you can see it looks like a lotus leaves. It is said there are one thousand nerves, or one thousand centers or plexuses for this particular center called as Sahasrāra. Sahasrāra means one thousand petals. And these petals are shown there. Of course they are not one thousand there, but they look like living flames of different colours. “I will appear before you like tongues of flames." It's said.

Even the other centers look like tongues of flames, you see, the flames were enlighten. But the living flames are very silent. They are placed as a lotus and as the Kuṇḍalinī comes up She pushes this lotus out and you touch the seat of the Spirit, which is on top of your head and you enter into the super consciousness.

Not into the collective subconscious or not into the collective supraconscious, but into the super consciousness, where you become the master, you become the Spirit. And you start feeling the All-pervading Power around you. And through your fontanelle bone area you feel the Cool Breeze, you actually feel it.

It's an actualisation. It is not just that I baptized you, you are being baptized, it is not possible. On the contrary, I've seen some people who touch the fontanelle bone area of the children introduce spirits. Yes. It should be done only by a realised Soul and not by every Dick, Tom and Harry. Is a very dangerous thing.

Now, this Sahasrāra has got all the seven centers, the seats of all the seven centers are there. Start from here is the Āgñyā Chakra. Here is the Viśhuddhi. Then here is the Heart. Now see, it's so simple.

Heart. If it is not heartfelt, if you have not felt it from your heart... Because some people come from other Gurus, I've seen them. They sit here just to mock and laugh at it and make fun of it. They never get Realisation. If your heart is caught up with your ego, also is difficult. If your heart is weak, maybe any problem with the heart, it can be anything, I mean, so the Realisation here stops. Heart has to be strong, you have to have a heartfelt desire. That's the center here of the heart.

So I told you this is the center here of the Āgñyā Chakra, Viśhuddhi Chakra. This is the center is the, is the, we can say, a *[UNCLEAR* satellite/subtle of it], of the Āgñyā Chakra between the two, because here these two also come out a little bit, the Ha Tha, both of them come out here, down below. It's Haṁsa. But main Chakra is this Āgñyā and then there is the center of Viśhuddhi, then here is the center of Heart.

Now, behind here, is the center of Mūlādhāra, here, just in the center. For example today I met a lady who told Me she's losing her eyesight. It could be due to two things only. It could be due to diabetes or it could be due to some possession you can lose your eyesight. Now, if it is in the center, it is a possession.

But diabetes is caused by the Swādhiṣhṭhāna Chakra around it.

So even if it is due to diabetes it can constrict the optic globe by which you can have problem on your eyesight. Your eyes will be open, but suddenly you can't see anything. This is absolutely curable, absolutely curable. Spirits, they *[UNCLEAR* get to/can do] it. How much we have to be careful about spirits that you will realise very soon, as soon as you will take to Sahaja Yoga.

So the center here of the Āgñyā is caught up and when it is caught up it just makes the optic globe ineffective and you can't see. Your eyes are open, you can't see. And when this diabetes is setting, this center around which is the Swādhiṣhṭhāna Chakra, gets affected. Viśhuddhi Chakra is here, is here. I mean Nābhī Chakra, is here. This is Nābhī Chakra, which has got left and right.

So all these centers are in the brain, so the essence of Sahasrāra is integration, unity, complete integration. You cannot integrate nonsensical things together. Integration is only possible of the people who are of the same style, or of the Deities who stand for God.

You cannot have Satanic people and Godly people integrated, can you? You cannot unite these people.

You try it and you'll have problem. That's the best way you see the destruction of every unity.

So in Sanskrit is a very good, good word got for integration, Samagra, beautiful word which means, Agra is the, Agra is the hole in the needle and when a thread passes through this needles, it passes through the Agra, so it is Samagra. And this integration has to take place as soon as you cross over. And because of this you get your Realisation and you feel all the Chakras are enlightened. Unless and until you pass through this fontanelle area you cannot feel the All-pervading Power. With awakening only, with the awakening of the Kuṇḍalinī, you can give Realisation even to people, you may think, but it won't stay there. But, of course, you can cure people, all right. But with Realisation, if you establish yourself, which I'll tell you how to do it tomorrow, then you can give Realisations to others, you can manifest all your powers, even you can control the element, for your information. Yes, after some time.

We have some people in India. There's an ordinary fisherman, again a fisherman, he is educated, he's a graduated, but he's a fisherman. His name is Harishchandra [Koli]. He's a realised Soul. He got his Realisation [in 1979]. He said: “Mother, I never knew you

have given me so many powers." I said: “Really? What happened?" He said: “I was going to a village [Sakhar] across to another island and the whole area was covered with clouds in such a way that a tempest was expected, absolutely a horrible one. And people said: `Don't go out.' " He said: “I was so much frustrated, I just stood up there and I said: `Now see, I'm going for God's work. And will you, please, behave yourself till I come back?' " And he said: “The clouds were removed. Went there and came back, when I reached my home in the night, that time it started raining." And there were twenty-five people other fishermen with him. In India the work is taking up a big form, among the villagers, among the people who are simple. You do not lack behind. Though they are simple people, they are good people. You are the leaders, you are great saints, you have been seeking for ages and now the time has come for you to get it.

So do not miss it.

For anybody's sake, do not plead for any Gurus or anyone. You just plead for yourself. You have paid them, finish it off. Done your duty. It was a mistake. Forget it. Get your Realisation. Get to your Spirit.

The Sahasrāra is opened out, is opened out because of this Sahaja Yoga has become a mass movement now.

Thousands can get Realisation. Thousands. They have been thousand people, six thousand people, as he says this, that's true. It is true. It is true. It has happened. It's so miraculous. But you are miraculous you are great. Just to find out yourself, what a great instrument you are. You'll be amazed what things you can do.

I can write a chapter like a book on Sahasrāra, because that's My place. I know it so well. But today I think that is sufficient and later on I hope you might be able to get the books on this, maybe tomorrow and then you might be able to read about it. But first get your Realisation, because without Realisation if you read you'll again become a scholar good for nothing. That's why we don't sell our books to people who are not realised. We just don't, because they become scholars, you see. They start writing another book. I mean people are so funny. What's the use? Christ has said: “Now, if you want gold, all right, have it, but be zealous. I eat with those who enter into the Kingdom of God." Take to the Kingdom of God and do not worry about your intellectual feeds. You've had enough of it. Take to it.

May God bless you all.

Now today, if you have some questions, you may ask but I think we should go in *[UNCLEAR]* the experience, but if you have questions and if you are not representing any Guru, then please ask. I don't want to talking, answering [in controversy, questions about]... I've already told you about them and I do not want to hear anything about these horrible people. You know, yesterday somebody argued about Yogananda. And this lady *[UNCLEAR]* this little boy went to him and said: “O God, it's steaming hot." The certificate is there. All right, if you have to ask questions, do not be aggressive and just get your Realisation. That's the main thing you should have.

Question: I'd like to know if Mother is a vegetarian.

Shri Mataji: No, not at all.

So, supposing I was Kali once upon a time, I had to drink the blood of these horrible devils. How could I be a vegetarian? Kṛiṣhṇa was not a vegetarian, Rāma was not a vegetarian. Don't become vegetarians, I cannot save chickens and I cannot give them Realisation. That doesn't mean that you all the time eat meat, meat, meat. Also doesn't mean all the time think of food.

You see, I'm not bothered what I eat. If you ask Me what I ate in the morning, I don't know. There's no fuss about food. I'm not a vegetarian. How could I be? Hindu Even Indians know that, that Mother can't be a vegetarian. Kṛiṣhṇa could not be because He had to kill so many people. And you should not be. By becoming vegetarian you won't reach to God, I can tell you. On the contrary, you catch on the left Nābhī if you become these horrible vegetarians like the Jains we have in India. Jains, have you heard about them, Jains? They try to save even the mosquitoes and the bugs. Now, I can't do save, I can't do anything about mosquitoes and bugs. [I mean it has gone and we can go] to that absurd, you *[UNCLEAR* know/saw]? I mean, it has gone to that absurd limit, you know.

Those who talked about it, you read in the book, where were Buddha and Mahāvīra, they couldn't bear the way people were stupid.

So they were born again as Hassan and Hussein, the grandchildren of Mohammad Sāb and they fought in Karbala to show that when it comes to fighting you have to fight.

So, onward Christian soldiers.

Question: Mother Mātājī, when you give somebody a blessing or when you say I am light or I am love, what do you concentrate on?

Shri Mataji: I don't say that, did I? *[UNCLEAR]*.

Question: Do you concentrate on anything when you give somebody a blessing? She is asking.

Shri Mataji: Me, Me? My machinery is too complicated. Don't try to understand it. It's absolutely complicated. Just forget it. Concentrate nowhere, just leave your attention like that, it works out. Do not concentrate, do not put in any effort, just leave it as it is. The Kuṇḍalinī itself rises. If you concentrate you might develop a squint. [Audience laughs.] Yes! Question: What about wives and mothers who work, but really don't have to, outside their home?

Shri Mataji: *[UNCLEAR]*. Your society is like this you see, the women... I don't know. They need not. I mean your husbands earn sufficiently enough. Really. There's no need. But the husband has a separate account, the woman has a separate account, she has to go to the hairdresser, for what? Doesn't matter, if you don't go to the hairdressers. Does it matter? I never go. I've never been. And all these things you have to take slimming diets and you have to become like Marilyn Monroe who committed suicide. Because of these norms you see we are too expensive people.

[Asie:] Is all right? You should be satisfied when you have small children especially. You can look after your children.

That's the greatest work you have to do. Then, when the children are grown up,... You'll be amazed, I, who had

such a great mission, got married My two daughters and then got out of it. Of course, if in My young age I'd have come as a Mother, nobody would have believed Me. But still, that's very important.

Looking after children is the most important work. Absolutely, no doubt about it. But because in this countries who are developed, you do not understand the importance of that. The men also do not attach importance. They do not understand the importance of a wife and importance of a mother who is the *[UNCLEAR* mothering her child] and that's why the women, they find their egos so much challenged.

In olden days, men used to go and cut the wood and the women used to cook in the house. There was no system of earning money. But now the man earns the money and the wife spends it, that's her job.

And he can't bear it. He thinks, I am earning and she is spending! You give money to men to spend, within half of month it's all over. They don't know how to spend the money. No doubt, men don't know anything. Whatever you may say, they really don't know how to spend money, they don't know where to go and buy proper things. I mean really, it's true, you must accept that.

But the way we treat women in the way, I mean in India you'll be amazed. I am very bad at banks, I mean I really I am hopeless, but you see, My husband tries to tell Me how to sign a check, he says, I don't know how your brain works. I mean, it's a complicated one, you know. I don't know how to sign a check, even today. And I don't know where he, what bank he operates, but we are supposed

to be... what do you call that? Both of us are the members of the bank. What do you call it?

Sahaja Yogi: Joint account.

Shri Mataji: Joint account. But I don't know, I'm not bothered, you know. Whatever money I need, I ask him and I spend it. He never asks Me accounts, nothing, he's not bothered. He's not bothered. He's not bothered. He is very sweet that way. He lives very well, we live very well. We have everything that we want, we are very happy people. What is in money and what is this we fight for? For what? You must enjoy your married life. If you decide on this, then the woman need not look like this, you see, like you must have a certain type of a wig. All right.

So a man falls in love with that wig and not with you.

You change the wig, the love is finished. The romance is finished. If you live with artificial attractions, it finishes off. Live with natural, innate inner attraction, the security, the love, the attention. The children same way. I mean you know Indian children are extremely humble. My elder daughter is an architect, My younger one topped the list at university. She is M.A. and they are very obedient. My grandchildren are very obedient. They like to obey. They like it. Once My younger daughter she asked Me, “Mother, my friends all wear sleeveless blouses, should I wear?" I said, “Go ahead if you want to." She asked Me “Why don't you wear?" I said, “I don't want to expose My body." [She] said, “Then why should I? You should have told me. It's not a criteria, if I ask you should say yes to me. It's no criteria, if you don't want to expose your body, then I don't want to expose mine too." Your own behaviour and your own examples create that

respect. You tell lies morning till evening, children cannot respect you.

It's very simple. Actually to do all these wrong things you have to go all out. But to do right things you sit at home and do it. And the women are trying to change their husbands morning till evening, it's simply absurd, absolutely absurd. I can't, I will never change My husband. I mean, I don't know. I have not met a better man than him. I don't see anything better in another man. I cannot see. If you love you would not like to exchange your child, isn't it? Is the same with your husband. You would not like to exchange. It's absurd, I mean horrible.

Somebody was telling Me there's a lady, she is 65 year old and you find her a husband. I said 65 year old? Oh, God. How will she adjust to that man now at... who is 70 years old and she's 65 and they have never known each other. Better give up! Next life! [Audience laughs.] She should serve God. It's better now that she is free.

Yes, My child? What did he say?

Sahaja Yogi: What experiences can he expect to show that his Self-realisation has taken hold?

Shri Mataji: Are you, have you come for the first time?

Sahaja Yogi: No, he's the man who came from TM.

Shri Mataji: Oh, you're... Now I told all this before. That you start feeling the All-pervading Power through your Chakras which are manifested on your fingers. You become collectively conscious. You start feeling the Chakras of another person. You start feeling your own Chakras. You can raise the Kuṇḍalinī of another person.

You can give Realisation to another person. There are so many more, but you become the master. You have the discretionary power, you find out the absolute. For example, you want to ask a question when you're a realised Soul, like a computer if you ask the question: `Mother, is there God?' you ask it thrice and you get a tremendous flow of vibrations. Now, you ask about a certain Guru, who is no good, whom you have given lots of money, `Is he a realised Soul?' You might get even blisters on your hand. Yes. It's true.

Sahaja Yogi: He meant more in his everyday life. What effects can he expect in his everyday life?

Shri Mataji: First of all, your health improves. You become a healthy person. You become a better person. You start enjoying each other's life. You become detached from jealousies, petty-mindedness. You do not become a recluse but you become aware of your social responsibilities to others. You become a person who is balanced. Who is wise. Who doesn't have problems of stresses and strains and problems of feeling the worries of the future. You live in the present. You enjoy every moment of your life. You see a beautiful thing, like a beautiful scene or a beautiful sky, you become silent. You become thoughtlessly aware and the whole joy of that creation comes into you and you start feeling the pouring of that beautiful grace within you. Emotionally, you become very balanced. You do not get into frantic traumas and horrible tempers and sudden outbursts of anger.

One thing if I tell, you won't believe, that Kṛiṣhṇa has said “Yogakshemam vahāmyaham." When you get your Yoga,

when you get realised, then I'll look after your well-being. Because the Lakṣhmī Chakra is the center *[UNCLEAR* gets/that's] awakened, even your material problems are solved. But you don't become Mister Ford? to have a headache, as I told you before. But your material problems get sorted out. All the angels and all the Ganas, that is the Saint Michael's army looks after you. And you see it.

If there is one realised Soul travelling by a train, there will never be an accident and if an accident takes place, because they take place because of the negative forces, then everybody will be saved because of one soul being there. It's tremendous. You become so fantastic that you can't believe it.

So your health improves, your tensions are removed, you become so knowledgeable, so knowledgeable that people think you are scholars. You become the knowledge. Tomorrow, I'm going to tell you about the Spirit before I tell you what is to be done. What is the Spirit and what are the blessings of the Spirit. And once you get that then the source of joy is your Spirit and you don't have to go anywhere out to seek it. This is on a very grosser level I've talked to you. But on a subtler level, you enjoy your peace, enjoy your virtue and enjoy your Spirit and the whole life becomes the fun. It's true.

Sahaja Yogi: Not too many more questions... *[UNCLEAR]*.

Shri Mataji: Then we haven't got time? Is there something?

Sahaja Yogi: Yes, let's have a couple more. What is it? Question: *[UNCLEAR]*.

Shri Mataji: Have you come today?

Sahaja Yogi: Yes, the first time.

Shri Mataji: Then it's not proper. All right, you can write down your question and I'll answer. The thing is, those who have come for the first time are asking the questions which I have already answered.

So it's better that you write down the questions and I'll answer them tomorrow, all right? You give it to Me. What else?

Sahaja Yogi: Anyone else who has been before? Question: *[UNCLEAR]*.

Sahaja Yogi: When he was here earlier your hand or our hand was placed over his head or his hand and he felt it, you said he'd got it. Does that mean he's got it for good?

Shri Mataji: Not ne-ce-ssa-rily. [Audience laughs.] I must say. I told you there is transformation and transmutation. First the transformation takes place. No doubt. But even the transformation takes place, the transmutation has to take place and that's how I said you have to understand the Divine laws and you have to follow them up, which is very simple and it is for good.

Some people have got it for good, no doubt. But this, about, I would say a month time is important. And if you can really look after it, which I'll tell you tomorrow. For this one month you have to depend on certain things that I tell you. Work it out and establish it. But then it is permanently yours because it is really yours. As I said, the butterfly comes out of the cocoon, but some things sticks on you see.

So it has to a little bit kick out these things, that's all. Now, who else? Question: *[UNCLEAR]*.

Sahaja Yogi: In the case of possession, when the Spirit is to be take out who has the capability to of doing that?

Shri Mataji: Every one of you. When you get realised. You can all do it. They run away. I mean, if they know there is a realised Soul, they just run away. We had three people whom I had given realisation and they told Me, “Mother we go on a motorbike in the night at about say 11 o'clock form work. And these spirits used to come into these people and they used to talk. And they said, tell these three people not to go through that road because after 11 o'clock at least allow us to be there on the trees." Imagine.

It's true. The spirits talk. Really they talk. Every one of you is capable of doing exorcism, but don't get into it in the beginning, all right? First, learn it. First become all right yourself. Then it's very easy to do it. Very easy. They are afraid of light. If there is light, the darkness goes away automatically. But you be fully enlightened first of all. That's very important. All right? I forgot to tell you that with realisation you can do exorcism and also cure people. Even from the diseases like cancer. All right? What more do you want? Everything put together.

Sahaja Yogi: Be careful you don't get the spirits.

Shri Mataji: Ha, that's important, not to get the spirit into yourself. [Laughs.] Should we have now the realisation.

Sahaja Yogi: Slip your shoes off if you still have them on and just undo anything that's tight around you. Just rest your hands on your lap. Just be in a mood of wanting it. You're asking for something, this is the purpose of your hands in this position. Humbly ask for it. Ask for your

realisation. Anybody who's got a tight belt on, loosen it. Loosen it.

Shri Mataji: Little. I mean not very loose.

Sahaja Yogi: Take your glasses off.

Shri Mataji: Good idea. Yes, yes, please take out your glasses. Be comfortable. You see you have to be comfortable. Sit very comfortably. It's done already.

Sahaja Yogi: Quite cool.

Shri Mataji: Most of you have got it I think. Just feel it. In your hands are you feeling the Cool Breeze. Today I have completed all the seven Chakras. Hahā, look at that! Just see, today I have completed all the seven Chakras, it should work out. Close your eyes. Just close your eyes.

Sahaja Yogi: Cool. It's cool.

Shri Mataji: Don't think. Please don't think. Your bodies should not shake, your eyes should not shake. If they are, then please open your eyes. There should be no shaking or flickering of the eyelids. It's all right.

Sahaja Yogi: Yes.

Shri Mataji: Are you all right now? What's happening? Better. All right? Good. Eyes are better now. It's good.

Sahaja Yogi: Left Heart.

Shri Mataji: Now put your right hand on your heart. Please. And ask the question: `Mother, am I the Spirit?' In your heart, ask it thrice. What is he doing, this fellow? Better?

Sahaja Yogi: Yes.

Shri Mataji: Those who have been to Gurus, put the right hand on the left side of the stomach. Left side of the stomach. Right hand on the left side of the stomach. And

put the left hand towards Me. To Gurus, or to anyone who is unauthorized. Like this. The hand should be like this. And ask the question: `Mother, am I my own Guru?' You ask it ten times. Now please ask ten times.

Is better.

Now put both the hands towards Me please and say, `Mother, please make me my own Guru.' You have to ask for it. I cannot force it on you. It is within you, it is to be just awakened. The principle of Guru is within you.

Now please say: `Mother, please give me my realisation.' You have to ask again because it cannot be forced on you. Just ask. Say it at least three times. Put your neck straight. Not to push it back or...

Just straight. Not to push it down or push it back. Just close your eyes and say: `Mother, please give me my realisation.' Should I use the blowing? The Prāṇa.... [Shri Mataji blows into the microphone three times, each time for about ten to 15 seconds.] Hm. [Shri Mataji makes two very short blows in the microphone.] Aham sākṣhāt Moksha-dāyinī. Aham sākṣhāt Moksha-dāyinī. Aham sākṣhāt Moksha-dāyinī. Aham sākṣhāt Moksha-dāyinī. Aham sākṣhāt Moksha-dāyinī. Aham sākṣhāt Moksha-dāyinī. Aham sākṣhāt Moksha-dāyinī. Aham sākṣhāt Moksha-dāyinī. Aham sākṣhāt Moksha-dāyinī.

Aham sākṣhāt Nirmalā. Aham sākṣhāt Nirmalā. Aham sākṣhāt Nirmalā. Aham sākṣhāt Nirmalā.

Aham sākṣhāt Nirmalā. Aham sākṣhāt Nirmalā. Aham sākṣhāt Nirmalā. Aham sākṣhāt Nirmalā. Aham sākṣhāt Nirmalā. Aham sākṣhāt Nirmalā. Aham sākṣhāt Nirmalā. Aham sākṣhāt Nirmalā.

It' s done.

Warren: Mahākālī...

Shri Mataji: Got it.

Warren: Mahākālī is still weak.

Shri Mataji: Hm? Warren: A little weak, just slightly.

Shri Mataji: Aham sākṣhāt Mahākālī. Aham sākṣhāt Mahākālī. Aham sākṣhāt Mahākālī. Aham sākṣhāt Mahākālī. Aham sākṣhāt Mahākālī. Aham sākṣhāt Mahākālī. Aham sākṣhāt Ādi Shakti. Aham sākṣhāt Ādi Shakti. Aham sākṣhāt Ādi Shakti. Ha! Alright? Warren: Yes.

Shri Mataji: Alright? *[UNCLEAR* Feel it.] Again those who have not feel it, can try to feel it on your heads if it is coming.

Some people might feel the heat in the beginning, doesn't matter.

Warren: They've all started thinking.

Shri Mataji: Don't think. Don't think. Don't think. You watch Me without thinking if possible.

Don't think. [Pause.] *[UNCLEAR* Is beyond]. [Pause.] Just see if you are getting a Cool Breeze from your fontanelle bone area. Be careful, is to find out clearly. Maybe some heat is coming out. If the heat is coming out, then you put your left hand on your liver on the right side. And put the right hand towards Me. It will work out faster. Now don't think. *[UNCLEAR* Just detach]. I'll tell you how to establish now. You can open your eyes but don't think. Again I will tell you. The technique, the Divine technique, it's flowing from your hands now. It's in a very subtle way in some people, in some people it gets very obvious,

doesn't matter. Now the first thing you have to learn is how to give bondage to your auras or to your personality. Put your left hand towards Me first of all. All of you, just put the left hand. Now with the right hand you start moving like this. Bring it on top of your head. Bring it down, slowly. Then again bring it back here. This is two. Then it's three. Then again back. Is four. Again back. Is five. Six... and seven. This is for your protection. Every time you go out of the house you do that. Now for raising your Kuṇḍalinī, please put your left hand like this, in front of your body. Just like this, left hand please. Now with right hand, right hand is the action. Now this is the desire, you established your desire, with the right hand you start moving upward. Your left hand you move straight, facing you, while the right hand like this take it on top of your head. Take it on top of your head and now give a knot to your Kuṇḍalinī so it stays there. One knot. Again bring it down. Now again please put the left hand in front of you, move the right hand, left hand straight. Move on till you go again on your head, as much as you can lift and give another knot. Now again. This is the third time. You do it, again the same way. Go up, again go up.

Go up here and now you have to do it thrice.

So do it once, then the second one like that and the third one. Now feel your vibration. It's better. You have raised your own Kuṇḍalinī. Ha! You are silent also.

Alright? [Audience laughs, snaps Her hand on the lap.] So simple. Alright. Now, I would say, those who haven't yet got it, who have come for the first time, can come here

and I would like see the people who have got it. Now I will start it from the back side today.

Warren: Any who haven't got it, just quietly come up unto the front here. The others, Mother will just circulate around.

***Contents: 1981-10-07*, Public Program (9th Day of Navarātri), Day 4, The Spirit, Houston, TX, U.S.A.**

Shri Mataji: All right, start it.

Warren Reeves: [gives an introduction of 8.5 minutes.]

Shri Mataji: Good evening.

Audience: Good evening.

Shri Mataji: Today is the last day, when I have to go. And you can understand a mother who has so many children, she has to go from one to another; she has the expectation to meet her children and she has the concern and the longing for whom she has so much love. That's very difficult to express those feelings: like waves as if they are taking out something from you.

I do not know really how to thank you all. Without you I cannot enjoy anything. As I told you, even I may be the Capitalist and I may have all these powers, so-called, I'm a complete Communist, I can't enjoy it alone. I have to share it with you. At the very outset, I would like to thank Mister Sig Paulsen for making it available for Me, this beautiful church. And you all that I could manifest My love, could have a rapport with you, whom I have known before. I'm meeting you again, thanks to him.

I have to thank Betty, specially. She has been so earnest. She wrote to Me letters, she telephoned to Me again and again. Oh, she took so much trouble to see that I come to

Houston. She has made these four days, fantastic visit for Me. You all have to thank her for what she's done, it's a very, very great thing that she thought of you all and of sharing her joy with you all. She got her realisation in Australia. It's a chain of thanking, for which I have to thank Doctor Warren who came to India for his realisation and I got stuck to him... He was running every moment and he got his realisation.

Then we have other people here from India. Nirmalā Modi has come all the way, she's a very wise Sahaj Yogini. And then we have Hugo, you know he came all the way. Went to Japan from Australia, bought these equipments and he's come to New York, then to Houston. Think of them, how much they feel responsible that they should communicate truth to you and that they should arrange this beautiful program. Warren's wife has also come here. We have also, another American, Michael, who is helping a lot.

The best of all, I would say is one of My eldest sons, is Mister Gavin Brown. Who had something to do with Houston. And when I wanted him to put some money for American tour, I don't know why, he put it in Houston Bank. I said, “Why Houston of all the things? I may never go there." He says, “No Mother, Houston is the place." Still the money is lying in the Bank here, for next years program perhaps. He has worked very hard and he's going to stay on here. He's a quiet person. But he knows a lot about Sahaj Yoga. He knows it thoroughly. He'll tell you each and every thing: How to cure you Chakras. How to feel all right.

Now today, on this day, I'm going to tell you about the Spirit. I have told you about the seven Chakras, about the three Nāḍīs, the three channels, that are within us. And today I want to tell you about the nature of the Spirit.

The Spirit resides us in our heart. It's the reflection of God Almighty. In Sanskrit language: this aspect of God which is all-pervading and is the first and the last, is called as Sadāśhiva, is the Father, who does not incarnate. We say Yehova, you can say, or the God who does not incarnate. This great aspect which encompasses everything ultimately and also manifests everything, is reflected within our heart as the Spirit. This aspect is just the witness aspect. It witnesses the play of its power, the Primordial Power, the Holy Ghost, to see what is created by Her. He's the only enjoyer of the game. He sees the game, the leelā, the fun. She organizes everything, it is She who gets divided into three powers, it is She who creates the whole universe, it is She who gives us this evolution, it is She who makes us human beings and it is She who has to make us the higher human being. That's the Holy Ghost, the Primordial Holy Ghost and the reflection of that is this Kuṇḍalinī within us.

These two have to meet. They are separated; the Spirit within you and the Holy Ghost within you have to meet. That is the Yoga, that's the union.

The seat of the Spirit is on top of your head here, but He resides in human beings in the heart; of course it comes out also and watches you. It is not in our conscious mind, it resides and watches the whole field. In San... In Gītā He's called as Kshetragñya, the one who knows the field, the knower of the field.

He knows everything, He watches; He's just watching, where we go, what we do, what compromises we make, how we run after our seeking, how we go to falsehood, what we do; everything it is watching. The Holy Ghost is the one which receives the information and records everything in itself but the information is given by the deity who is the seed or the spirit of Jesus Christ who is sitting down there, Gaṇeśha.

The Spirit itself is Sat-chit-ānanda. He exists in the state of truth. Now we do not know what truth is.

People say, “God is Love, God is Truth." Now what is the truth? The truth is this All-pervading Power.

And this All-pervading Power is the nature of the Spirit, which gives you the absolute knowledge; now mark it; absolute knowledge. For example, if you have to say, “What is the shape of this...?" You will say, “It's a pyramid." All right, but is it a good thing to have a pyramid for a church or not? There could be hundred opinions on that.

But if you ask Me, or ask any Sahaj Yogi, they said, “Yes, it has to be a pyramid." Why? Because in a pyramid there is a coefficients and you feel the vibrations. It's absolutely, absolute knowledge. That's the truth you know.

You want to know if a person is fake or not. You just put your hands like this and ask a question, `Is he true?' Your vibrations will stop, you may even get blisters, if you ask such a question about someone.

So you do not know through your mental activity. A person may look very nice, as I told you, he may behave in such a manner, that you'll feel, “Oh, what a fine man

he is." Is such and such person is a realised Soul or not? How will you know? You'll just put your hands towards that person and you'll start getting the vibrations from that person; you'll enjoy them. Only after realisation only we can really enjoy other person, really enjoy.

One day I was in Calcutta and staying in a hotel on My way to Singapore and there was a very great soul who came to see Me. And he just sneaked into the room. See, sometimes it happens that some of these great souls who live in Himālayas and all that, they come in. And he just saw Me and he fell at My feet. And there were at least five, six Sahaj Yogis staying in other rooms and suddenly they felt tremendous cool, joy falling on them, a cold shower like thing. And they all came running, one after another.

“What's happened, what happened?" And he was at My feet. They opened the door and they said, “Oh, Mother!" “Mother, how did you come?" “Oh, Mother!" And then they started feeling him. He was enjoying Me, I was enjoying him. And they were all enjoying him.

You don't have to tell whether a person is true or not. There is no mental deduction, it just happens.

You start feeling. Even children are like that, even small children. If they are realised Souls, immediately they'll say, “This is this and this is this” finished. There's no compromise, how can you compromise? That's what I told you yesterday that Christ never compromised. He'd never compromised. How can you compromise with darkness if you are light? So the first thing you are, you are the truth. The Spirit tells you what is the truth. It tells you everything about everything. It is the truth; the

knowledge that is pure is the truth. As I told you, Gavin Brown, when he got his realisation, he said, “My father has not telephoned" and he put his hands there and he got a burning here and when they telephoned, he found out that his father was down with bronchitis and I told him the exactly the same thing. Now a person who came to Me the other day who had multiple sclerosis, is a very serious disease according to doctors, but according to Me it is not. And everybody told Me the same centers he was catching. Of course because I have been in the medicine, I have been in the medical college, I know these Chakras means what. And he told Me that he had this problem. Even if he not told Me, I would have known that he had this problem. Everybody will see the same center is catching.

So, you are the truth. Then after some time you cannot bear untruth. You cannot bear falsehood, I mean, we also are like that, I tell you.

For example, if I tell you that, `You come along here there's a very nice chair for you.' Now you don't see any chair there. `Oh you sit down, it is there, believe Me, imagine there's a chair.' I mean, nobody would accept that, will you? You don't see any chair. `There is any,.' `No, no, but the imaginary, there is one, I have placed it, you can't see, I have made it invisible. You see you just see, you sit down you'll get it.' All right you sit down there and you sit in that position and after some time you start getting the pain.

`Where's the chair, how do I get the pain?' That's what Warren told you, it's very practical. You immediately know that this is not the way.

Now the first center is very important, is of the innocence, which gives you the magnetic powers. In the sense not only that you are attractive but, I mean you attract people, but magnetic means that you know whether you are moving to the north or to the south. Birds have this power in them, birds have.

That's how they fly from one place to another. Because they can feel the magnet within. And a person who is pure at that point, he never gets lost because he knows which side he's moving. I mean, I have that power, I have never had a problem like that. I move either to the left or to the right, or to forward. And My husband who is dealing with shipping, he says, “I have never met a better navigator than my wife." And it's so spontaneous, I mean, I don't have to think, I know for definite that you are moving in the wrong direction or in the right direction. Even the material movement I mean to say. All of them have experience, they have great drivers and they have got all the maps and everything. And immediately I know that you are going on the wrong direction because the magnet immediately turns round.

So the magnet is placed within you there, but it is to be awakened. When it is awakened, these deities when they're awakened, you become the truth. Like the light that comes in, you start seeing everything as far as your feelings are concerned, your experiencing is concerned.

So you become the truth.

Now one may say, “How truth could be love?" That's a very common question. Truth cannot be love because, I mean, if you tell somebody something that is truth, he

may not like and he may be unhappy and it may not be dear to him and he might be very, very worried about it.

Manu said, long time back that, “You should speak the truth and you must speak the things which are dear to others." “Satyam vadet, priyam vadet." People said, “It's not possible, it's an absurd situation, how can you do it?" So Kṛiṣhṇa has put something in between, he said, “Satyam vadet, hitam vadet, priyam vadet." You say something that is the truth, always say the truth and say something hitam, means for the pleasing of your Spirit. That's the condition. And ultimately that becomes a very dear thing. In the beginning one may not like it, but ultimately, this will be very much liked, this truth.

So all these three he has put together and said that, “You have to speak the truth, the truth has to be pleasing to the Spirit and ultimately, the person is going to enjoy it." So the truth is: everything is illusion, except for the Divine Love of God that is all-pervading which you can feel through your Spirit. This power has got telecommunication, it has got all that you have created in the science, it can coordinate and cooperates. It has got all the angels and all the great souls to help it and to look after you. And the top, topping the whole thing is the quality that loves, it loves you.

So it doesn't come to you like a sword, it gives you the time to improve, to judge yourself, to rise, to grow, just as a mother would look after her child, forgive mistakes, see that the child rises and grows into complete manhood.

So it is love and the love that is so powerful is the truth; and it never fails, it never fails.

For example you might think now, a man like Sadat has died. [Anwar el Sadat was assassinated the day before this talk.] “Mother how do you explain?" I mean, you never die, that's one thing you do not know.

He can be born again, he would be born in such a condition where he'll be much more effective. He has himself died at the top of his glory. I mean for him, he's a martyr. If you see from his angle, everywhere in the whole world, `Sadat'. Sa-dat, it's a big name too. But supposing he had fallen in his glory and all that, then he would have died, then God would not have been just to him, I would say. But he died in all his glory and he can be born again. And he can take a position from where he can do much better work, in the name of God, in the field of God because now we don't have to do any more work, otherwise in any other field.

We have had enough of trains, we don't want any more now. We have had enough of plastics, now we have mountains. We have got too much of butter around, too much of food, everything bit too much, I mean the house becomes a junk. In any field we have over-done things. We have exhausted this Mother Earth. Now what do we have to do? Only in one field and the field that is of God's work you have to do it. But first you have to get connected and then do the God's work. And that connection is only through your spirit, when you become absolute and you have the truth within you as a built-in awareness. Is the awareness that becomes the truth.

So the first quality of the spirit is that you become the truth, that you know the truth, that you take a stand on the truth. Look at Christ. He had nothing to do with

women like Mary Magdalene, I mean, nothing to do, I mean, He was virtue. He was innocence. But when He saw people were stoning her, He took up a stand. He took up a stand. You have to take up a stand, stand on the truth. And he said, “Those who have not committed any sin can throw and you can throw the stone at Me." And nobody did. He did this because He was standing on the truth. He took a whip and whipped those people who were selling in the temple of God. At the age when he was a little boy, he went and argued with learned people. Such people have no fear of anything. What is there to fear? When you are standing on the truth, what is there to fear? Truth is such a light that it gives you complete picture of the whole thing.

There's nothing to fear. Your Father, He is compassion, He's ocean of compassion. And He's ocean of love and ocean of forgiveness. And He is now within you. Who is more powerful than Him? It's very easy for many human beings to say, “Oh, we don't believe in God." You believe it or not, He's there. Those who say, “We don't believe” it is better that they should come and get their realisation and understand that there is very little time left for such kind of nonsensical statements. I mean you can at the most say that, “I've not felt God so far and I'm open, if I feel." But on what basis do you deny? What basis have you got to say that, “We don't believe in God?" Not only, after realisation you can prove God, but you can show His miracles.

The second thing, the nature of Spirit is that He's Chitta, He's the attention. He's the attention means when you become spiritually enlightened your attention becomes

enlightened. Now enlightenment, what we understand of these lights is that the lights are falling here and we can see things, that's all. But this attention which is being enlightened, acts, it works, it has got loops, it has got weapons, it works. You have to see for yourself how your attention works.

Today there was somebody who went and told one of the Sahaj Yoginis that “I was sitting there and I was getting all negative thoughts and was feeling horrible in my hands and I don't know why it was happening in the program." So she said, “Here you have come to pay attention to Mother and to Her work and pay attention to your Spirit. But if you are paying attention to all the rest of the people here, then you are going to catch them." Is a very simple thing, “Where is your attention?" Ask this question. This is a very common question in an Indian home, a mother will ask the child, “Where is your attention?" The basis of Indian life is Chitta Nirodh, is to fix your attention in a proper way. Where is your attention? Is it on your Spirit? Or is it on somebody else, like, “My brother is sitting here, my mother is sitting there, oh, that woman is very bad, she's jealous of me” all this nonsense. Where is your attention? When you get realised then you start seeing through the window of the Spirit, your position changes. As you're looking at Me now, then you come back here and start looking at you this way. Till you are realised you are sitting before Me, but once you are realised you come here and see others from there, that's your fort. Nobody can touch you there.

From there you see others, your attention is detached.

So the attention becomes enlightened after realisation. You pay attention to anything, it works. It does work, no doubt, you try. Those who have got realisation should try this. Try your attention, but attention has to be pure. You have to purify your attention and the best way to purify it is to keep your Āgñyā Chakra open. When this center is open which is the center of Christ, which I have shown that it can only open through the Lord's Prayer after realisation. When you open that, then you are in that state where your attention is Divine. And you'll be amazed how things work out, even the smallest things, the material things, the useless things and the great things and the subtle and subtlest and how you start growing.

So the growth is to be achieved by purifying your attention and to purify this attention is to keep your Āgñyā Chakra open and be in thoughtless awareness. You watch something, you don't think about it. Zen said the same thing but I think people didn't understand, you see, before realisation it's like telling about colours to a blind man. Zen said the same thing, you watch a thing without thinking about it. They created patterns which didn't mean anything, which you see it without thinking. But that's only possible after realisation.

So the thinking process minimizes and you start witnessing.

The higher state than that of attention is that you jump into Nirvikalpa Samādhi, into the state of doubtless awareness. Now it is not doubtlessness because you've argued it out or anything. But is a state where you're doubtless about things. I mean the way you speak, the

way you behave, the way your attention is, you can make it out that “I'm doubtlessly there." The discrimination becomes so sharp that you can just say, “This is so and so and so” there's no fanaticism about it.

As I told you this morning that if a blind man cross over something and says, “Oh there's a snake here” and he believes it's a snake, he believes that it's a snake, that's fanaticism. Because he has no eyes to see and he believes it's a snake, he says, “Oh, there is a snake here, I believe!" But a person who has eyes sees, “No it's a rope, it's just a rope." And he says, “No, it's not, it's a rope." But he has eyes and when he says with his eyes, which can see that, that it's a rope, he means it, the truth, then he's not a fanatic. But he's standing on the truth. This subtle difference people don't understand. Fanaticism comes through blindness and the truth comes through realisation. And at any cost you'll not give up the truth, any cost.

Now when I started My work in 1970, somehow I knew all about these fake Gurus and fake people, I knew about it. And in My first lecture, we had about, must be having about two, three thousand people, it was a very huge hall and I told the names of all these fake people and who they were in previous lives and what they did, by names. And everybody was amazed at Me, they were frightened. There was a Mahārājah who was a friend of My husband and all that and he came and told Me that, “Oh, I'm so...

I'm very frightened for you." I said, “Why?" He said, “These people are horrid. They mean money, they mean their whole earnings out of it. How did you say these things openly and you took their names? They will shoot

you." I said, “Let them shoot. I'll see who shoots Me." They said, “You see they will prosecute you." I said, “Let them prosecute." So many years have passed, nobody has dared to say that I'm telling the lies.

There is no fear. You love, but you don't love Satanic people, you don't love Satan. The Satan who has spoiled the Kuṇḍalinī of people, who has spoiled all the chances of their getting realisation, as a mother do you think I should say, “They are very good people?" I'm not a political figure and I'm not seeking elections. Cannot be a compromise! That's what happens to you also.

But by your own self-esteem, by your own glory, people see, “Here is the leader." And you become the leader of the people. You can, there is nothing to be frightened of. There should be no halfway, as Christ, as he read it out to you, that lukewarm people he spits them out of the mouth. If you are hot, if you are devils, we'll fight you; if you are cold, you're My children. But lukewarm people are static, because all kinds of forces are pulling, there's no progress of any kind. You come, you come, negative, positive, they are pulled this way, that way. There cannot be compromise with truth. And then you will see you will have the real collective force, the real blessings of God, in every way. You don't have to worry about money, you don't have to worry about anything, it all works out, everything works out. You can't believe it how much it works out.

I will tell you about these Australians: Australians were finding it very difficult to get a place to have an ashram and one day, frantically one of the girls telephoned to Me, “Mother, we cannot have a place now, we don't know

where to go, we have sold our houses, we've no place to go to." I said, “Don't you worry, tomorrow, you'll get it." And she was surprised how I told her, “Tomorrow you'll get it." After telephoning and all that, she went home and she received a call... I mean there was a call from a... estate agent.

When they went to see him next day he said, “There's an ashram available, would you like to have it?" At a very cheap rate, they got a beautiful house for the ashram.

In London, we had a some sort of a small ashram and they were finding it very difficult for all these people to live there, because they wanted to live together. They said, “Mother, we must have some more rooms and some more place." I said, “All right you just pray, it will work out." You won't believe, we had started a co-op in London and they said it will take eight years to get a room out of this co-op. That's London speed, just the opposite of American. And within a month's time, we got a huge house, huge house with fifteen bedrooms and two big halls and we didn't know what to do with it and at such a cheap rate that for the whole week, only seventy pounds were to be paid. But then the Sahaj Yogis went and settled down there because in London we have in thousands.

Then they said, “Mother what about for others?" And within fifteen days we got a huge big hotel with all carpets and with all curtains and everything provided for, cutlery, crockery, anything you say was there.

Every thing, only for ninety pounds a week, for at least twenty people to live very happily and big rooms each and big halls. Just we got it. You won't believe but it has

happened just before Warren's marriage and we didn't know where they are going to stay, all of these who were coming to get married here and they had a nice honeymoon in that hotel. They didn't have to pay anything for it. Yes, it works out.

Kṛiṣhṇa has said, “Yogakshemam vahāmyaham." You get to your Yoga first, he never said, “KshemaYoga", he said, “Yogakshemam vahāmyaham." You get your realisation, you get your Yoga and then the kshema, the well-being works out.

Everything is organized then for you, you are on the stage, everyone works for you, believe Me, it happens that way. What is there to hanker after, what is there to ask for, I mean you ask for one thing, you get thousand, you don't know what to do with them. I don't know really, I don't know with Myself, I don't know what to do, the way, I'm quite generous, I mean I try to give away so many things but still My house, oh God! You can't imagine, you can't imagine. In their wedding I gave fifty-one sarīs, fifty-one, thinking that, “Now I'll some rest from these sarīs." Again I went back, they are still there. I don't know now what am I to do, I brought now some to America to give away and all that, you just give and you get, everything, you get fed up! But only thing that I always, I have been asking for are the seekers, where are they lost? Where are they? That's something still there, they are to be saved. Because as I told you Christ is going to come back with eleven destructive powers and there's going to be no questioning, no realisation, just... All the negative forces will be killed and those who enter into the kingdom of God will reside in the kingdom of

God, will reside there, the residents, the citizens. As He said, “If you want money, I'll give you gold. But I look after those who hanker after Spirit." You enter through the door and He eats with you, He shares with you. For a realised Soul the highest human beings are the seekers. You may be any king or anything, what does it matter, there are so many roaming about. But a seeker is the thing in the eyes of God as the highest human being, who has to become a superhuman being.

So your attention is filled, so many of these miracles, you cannot imagine how many have taken place with Sahaj Yogis. One can write such a big book.

So the attention becomes pure. You just can't see bad things happening, I mean, you just don't like it, I mean, I feel like vomiting sometimes the way things are, sometimes. The things that you enjoy normally become absolutely garbage, you just don't like it, the whole, the priorities change. You become automatically virtuous, I don't have to tell you, `Be virtuous,' you'll just become and you start enjoying your virtues and virtues of others. You start enjoying other people because attention becomes collectively conscious. Our central nervous system is our attention but this central nervous system becomes collectively conscious, becomes.

You are not bothered; somebody has cancer, it's all right, “I'll try to cure you." You are not afraid you'll get cancer, nothing, you are never afraid of it. “I'll try." You put your hands like this, like that and the fellow says, “Oh I'm feeling very much better, I don't know, what have you done to me?" “Nothing." The attention becomes so effective, so powerful; it does tremendous things and the

attention among yourselves has a rapport. They all move like the several drops in an ocean, in a wave of love, it's so beautiful.

The white men came to India long time back as this or that, but when they came with Me, you should see, we have some films how the Indian villagers, you see, took them to their heart, danced with them, fed them, loved them, it's so sweet. And they write to them, it's so beautiful, there's no artificial, it's not just a feeling, `I love you, you love me,' it's not there. It's just the enjoyment of the company of other realised Souls. We talk of big things, “Oh, we are all brothers and sisters” it's all talk, talk, talk, talk, talk. Then you just become, you forget your colour, you forget your nationality, you forget everything, you just feel, “Oh, that's a Sahaj Yogi." It's a very different plane into which you arrive where you feel so happy, joyous, the whole thing is a fun.

And when it comes to helping, all of them come together. When they find a negative force is coming, all of them come together. There is never a discussion among them, never. They try to pull him out. They tell him, all of them will tell by their own ways and method that, “This is wrong, this is wrong." It's such a combination, I never have to tell them. I don't have to tell them that, “I'll give you some lessons now” for example, “How to carry on among yourselves” nothing, they just manage.

Not only that but a person will say, “Now see” A will say to B, “See I'm catching on my Āgñyā, will you please help me there." That means, “I'm ego." And the other fellow he'll say, “I'll... I'll try." They just help each other, without feeling bad, there is no remorse of anything, there's no

heart burning, no jealousy. What a relationship is established like one finger doesn't have jealousy with the other. You have no jealousies with the other cells of the same primordial being. There is no need even to talk of love, you are in love. Everybody can see that your love.

It's really worth seeing how we become so much adaptable, so much silent and happy people, when our attention becomes collectively conscious, because that's the real source of joy. And the greatest quality of the spirit is that you're pure joy. It's pure joy. We talk of unhappiness and happiness, sorrow and ecstasy and all these words. But joy is pure, it hasn't got the duality, it's one, single, absolute.

I'm leaving you and My heart is wrenching. The joy is seeing that. Seeing that this Nirmalā is wrenching, bleeding. The joy is seeing and when I go, this feeling, I will think and I'll think of you and the joy will be again repeated. That joy of oneness, even in separation the oneness I feel it, the concern.

Which cannot be expressed in words, that silent pulling of your heart, that is also joy. Joy is absolute, it comes through seeing. You see it and you get the joy. Joy is the quality when you gradually move from the brain, the attention first goes into the brain, specially in the West, is the brain first, takes place, means you become the attention, I'm sorry, you become the truth. Means you start feeling in the hands, you understand, then you see, “Yes, it is so and this person has got this trouble, so he must be having arthritis if he's catching on this, yes true." You start tallying, finding out and monitoring it and again, again verifying it and you are satisfied with it.

So the attention first is nothing but starts achieving the truth. It's trying to feel the truth but it's dry, at that stage, it's dry, in the West, specially, because we are differently made in the West. Then we read the book, Advent, we like it and we see all these things and knowledge and everything you like, you want to listen to the t, My speech and all that. You all like it. Is the knowledge because you see the truth, the knowledge, that's the gift of the brain. Is the central path as I can say `the awareness'. Then you feel your Chitta, your attention which is enlightened and you're blasted with it. You see the miracles happening, “That's happening..." you are just blasted.

Then the third thing happens; is the joy: that you are in joy all the time. You cannot keep serious for more than two minutes; it's very difficult to keep serious. The sense of humour is so beautiful, you never use vulgarity or hurting things or personal remarks, but the whole thing is so beautiful. When you speak, people feel the flowers throwing their fragrance at you. Every action that you do creates joy, ripple of joy.

Every movement you do, every vision you see, gives you joy. That time you feel perfected. When you see a picture which is beautiful, immediately you go into thoughtless awareness and the complete joy of that creation starts dropping on you, you just feel the joy. Then you become silent, you don't speak... much, you don't think, you become the joy, Ānanda. That's the perfect state in which you should be. It's so beautiful that you want to be there all the time.

This joy is the movement of your ocean of love. Is the beautiful movement of the clouds that you see.

It's fantastic, you just get drenched into it and you do everything for love's sake and you don't think you're doing it for love's sake, you do not feel that way, you just do it because it's so joy-giving, that it is the greatest thing. You may have... anything in the world will not be that much joy-giving as this joy of the Spirit which you become. You never feel lonely, you are never bored. Whether you are alone or with anyone, you are in joy.

One should understand that if you get your Self-realisation or if somebody says that they are giving you to some positive lines, you should know, “Are you peaceful within you? Are you joy?" Forget about the collective consciousness, is your health all right? That's the minimum of minimum. The whole system changes. I just say that all of you should achieve that state of joy by the time I come here next year.

And I hope you grow into it, by taking up a stand on the truth, grow into it. You progress into it. It's so wonderful and so beautiful and that's what your Father wants you to have. He's the most generous Father; He can't enjoy His kingdom unless and until He has given it to you, that He has made you sit on His throne. That's the greatest joy that He wants to have and that's what you should achieve, that's what you should have, that's your right to have.

This is what is Self-realisation, you become just the master. You don't have to consult anyone, you know it. You have to just consult your Spirit through your vibratory awareness and you know it. These are the

blessings of Self-realisation into which you have to grow and as you grow you start manifesting your powers: you can raise the Kuṇḍalinī, you can give realisation at the very outset. Imagine the Kuṇḍalinī moves under your finger, nobody can believe it but it has happened now.

Even very, very great saints, you see, there is a very great saint who is more than hundred and eight years of age and he asked Me, “Mother, I have spent thousands of years to get these vibrations and these people have got it without doing anything." I said, “What did you... why did you do it, who asked you to do it? You should have taken it easy, you would have got it." He's a very sweet fellow, but because he's got it through his effort, see he has that feeling that, “I've got it through my effort." You'll never get it through effort, I tell you. When you are finished with your effort you just get it... [murmurs of laughter from the Audience.]... maybe in an abstract way, or maybe, Yes! When Buddha was tired, finished, fagged out, then he got his realisation. When you stop your efforts then only you will get your realisation. “So why to boast of your efforts?" I told him. He's a very powerful man because he's done lots of things and he always goes on a big, very big tiger and because he's hurt himself, he says that people have beaten him, so he's hurt himself so he always uses a tiger. And he's a man with the idea that he has these powers, that powers.

So when I went to see him, I knew that time because he told people that, “Mother has come, so you go and see Her..." and all that and I knew he was there so I went to see him. When I went to see him, we had to climb about three miles, one had to walk up and I was walking up and

when I reached there it was raining and I got completely drenched. And this fellow is supposed have powers over the rain. And he was so angry when I went there he was sitting on a little seat of his made of some stone. He was doing like this, like this, very angry.

So I didn't say anything, I went inside his cave and sat down there in that drenched condition.

So he came down and he said, “Mother, did you do this to kill my ego?" I said, “What? I didn't do anything. What did I do?" He said, “This rain wouldn't listen to me." I said, “Now, don't be angry” I said, “Sit down. Haven't you bought a sarī for Me and you are a Sannyāsī, I won't take a sarī from a Sannyāsī, *[UNCLEAR* son]. You have got a sarī for Me, isn't it? So I have to get drenched, otherwise I will not take sarī from you." And the whole temper melted away, whole temper melted away. Then I said, “It was necessary the water to flow over My body so that all the plains around you becomes beautiful, is vibrated with water." But he is a very great soul I must say, because he doesn't talk to Me like ordinary human beings talk.

His style is different because he recognizes, he knows who I am. Is a very different thing and a day will come when you will also rise, you will rise and grow and grow and there will see the glory of this great new age, new generation... into the complete newness of the being.

Today I was going to tell you about certain diseases that one has and how to control them and I would suggest that we have a book, are you going to sell it to everyone? Sahaja Yogi [from the side]: There's a few of them Mother.

Shri Mataji: We don't have many.

So we would say those who have been coming for all the four lectures should buy the book. We are sorry we don't have many books but we hope to send you these books later on and is a very good book in which you can see what imbalances can work out, like how you get diabetes, how you get kidney trouble, blood pressure and then how you have to balance your liver and how to look after the security and all these things are written in that book at length. Quite a knowledgeable book I should say.

I took the writer... I should say I really tortured him. And everyday I used to see him coming up pulling his ears, you see, that, “I don't know what mistakes I'm going to do." And every time he would come, I would say, “Now, Gregoire you have to be sweet as well. It's not that sweet, you are still a scholar, you have to be a Sahaj Yogi. And a Sahaj Yogi is different from a scholar so you write this book in such a manner, in such a way that it is sweet, it's loving, it's kind” and I've tried really to curb it down, curb it down.

But he had written two chapters of his scholarliness, all the scholarliness that he had and it was like a... really a big boulder before you when you enter into that book.

So one day I told him. “These two chapters, let us put it at the end of the book” and he really collapsed.

He said, “Mother, how can You do that to me, it's too much." I said, “But why, what's the problem?" He said, “These two chapters are the ones which introduce the book and how can we do it? I mean, it's in the beginning and how can You put it at the end?" I said, “Gregoire, while correcting the book, I saw to it that these chapters have nothing to do with the beginning, so you put them

at the end." And he, when he placed them there he said, “Oh the book has become wonderful." And then he told Me, “It's a very good play of Mother in this, that the intellectuals are never satisfied with the reading once and they would like to go into the intellectual rumination. Like the animals you see, like cows when they eat, then they take it back and again eat it, like that, So is better to put these two chapters for them." I said, “Now you are not angry with Me?" He said, “No, this is a very good thing." But these two chapters definitely prove that he's a very learned man. And I told him, “Gregoire, when did you read all these books that you have quoted?" He said, “Mother, you'll be surprised, these quotations just came to me... I never, I never read them." I said, “You never read them?" “Yes, yes, I had read them before, sometimes I must have read them, but at the right time, I got the right quotation." He's now coming to Los Angeles, he is a diplomat in the Swiss government and he's coming all the way from Rome to Los Angeles and he's a very dynamic person, I'm looking forward to My visit to Los Angeles. If you have any friends there or anything you can write to them, you can take the address from here so that they can come and see Me. We have now booked all our days, I am sorry and still we'll contact somebody from Unity Church, but all the days are booked. It's all right and the people can come in any case wherever you have the programs.

Anything else you want you can write to Me. I'm sorry I can't write to you because every day I work, like this the way I've been working here: morning, the workshop,

evening, the lecture. It has been on and on for years together now.

So, I do write sometimes, but I don't have so much time, but somebody will answer you. Any question, any problem, anything, please write to Me. I'll be very happy to receive letters from you and there are so many people who are sorting them out and looking after it, so you will have an answer no doubt. Please get My address also from the ashram address from these people. Anything that you want you can ask for it. Even sitting down here I know your attention, it will work out. Gradually you will change and your asking will be different and different and different.

May God bless you to blossom into the beauties of your Spirit, so that you glorify your Father and He feels glorified with His gracious love towards you.

Thank you very much.

Today, if you want you can just put your hands, if you had put your hands you would have got the vibrations. I am sure there are some new people today and they should also feel their vibrations on top of their heads; they might be feeling already the Cool Breeze, just take out your shoes and you'll feel it. On top of your head.

The tapes are with the Unity Church here, you can buy them. We have also sending twenty one tapes.

Warren [next to Shri Mataji]: They're already being copied.

Shri Mataji: They are being copied. We have so many tapes in London and you can buy from the gentleman, we don't have to bother about money part, I mean, we are

not bothered. Only thing, as he must, they must have told you, a little problem with our trustees, that you have to just say that we have the copyright, that's all. We are not bothered as to what you charge and what you do it.

So you can buy the tapes as you like and you can listen to them and enjoy them. How many have come for the first time today? Warren [whispers]: Quite a few.

Shri Mataji: Now just take out your shoes please. [Small pause.] Put your right hand on your heart and close your eyes please. As I said, in the heart resides your Spirit. Ask in your heart, `Mother, am I the Spirit?' Actually those who are realised should say `I am the Spirit.' Three times please ask this question, `Mother, am I the Spirit?' Is a very, very powerful question. Hm, done [snaps fingers of Her right hand].

Now feel your Cool Breeze on your head with the right hand. Done.

Warren: It's done.

Shri Mataji: [Laughs.] Those who've come for the first time, are you feeling the Cool Breeze? Good.

Today when you speak about the Spirit, it's boundless. It just works. Tremendous. Again I want to thank all of you and the management of Unity Church and your great leader, Mister Paulsen, may God give him strength from you and let him do the work of God with complete confidence that God is with you and all the powers of God are with you. You all have to strengthen this. You all have to take this stand and have to know that you are realised Souls. May God bless you. You are looking so much better, aren't you.

Thank you. Now, they have some books and I don't know how are they going to manage it since is their show.

Warren [whispers]: I will take it out. *[UNCLEAR* Here we are].

Anyone who just wishes to meet Mother, may just quietly come to the front.

A voice: Sig Paulsen, Sig Paulsen also. Sig Paulsen.

Shri Mataji: Alright, I will *[UNCLEAR]*. *[UNCLEAR* Where is it?] [Voices in the background.]

Shri Mataji: Yes.

[Shri Mataji signs one of the book.]

Contents: 1981-10-09 **Morning Radio Interview with Rafe Maiar, Vancouver, Canada**

Presenter: Well, I have a very interesting last hour for you and I should tell you that if you hear strange noises coming over your radio, is because I am surrounded by private television set, or television recorder, that's recording this interview and we have all kinds of people here that we don't normally have. Reminds me of my first day in the year. My listeners may remember when they had all the television cameras in here; then all the lights were out. I hope that doesn't happen today.

But my, my guest now, for the next hour, I am going to definitely invite your calls very, very soon, is Her Holiness Mātājī Nirmalā Devī and She is leader of the Indian Kuṇḍalinī. And I said before, religion, that is not correct. It is Yoga. And She is, as I told you in the, before of the last hour, married to a former assistant of Mahatma Gandhi and who is now a Senior United Nations Official and, of course, as I say, She is the leader of this particular Yoga.

First of all, before I get in and display all of my ignorance, Mātājī, may I just welcome You to Vancouver, the city where you are. I wonder if You can speak right up to the microphone because it is not very sensitive and I'm going to have to test it to get it little louder for You. OK? There we are. Now, first of all, I've read all of the material that You presented me and it is fascinating. You have a very interesting background.

Would You tell [to] my listeners just a little bit about where You came from and little bit of Your early life history and please tell me a little bit about Mahatma Gandhi?

Shri Mataji: All right. I was born in a Christian family and with a purpose. Now, after that, about say four years of age, My father found that it was an emergency in our country, that we should get our freedom and he joined Mahatma Gandhi, even My mother. All our family was involved with him. Now at the age of seven years I went to see Mahatma Gandhi and he liked Me very much. And I stayed with him. After that, every holiday I used to go and stay with him. He was a very wonderful personality. Apart from that, that is the kind of personality we needed in that time when there was an emergency to get our freedom back and he was greater than many leaders because he could see that God has to play a role in getting our freedom. Not only the weapons, not only the guerrilla warfare, but it is the Spirit that has to fight and we have to take the help of God.

So he took to non-violence, a method that would give him greater strength against the British who were well-equipped and we had no way of fighting them with any

kind of weapons. And the way he did it, it was so practical at that time. I mean, for people it looked as if it was very, very out of date thing to talk of non-violence against the British, but it was so practical that it proved beyond doubt that these things can work out very well, even if they sound impractical but work out very well at a time when you find that you cannot help it otherwise.

Presenter: But Mahatma Gandhi, of course, I read a great deal about him and one of the things I found interesting is that much of the Western world looks upon him as sort of an ascetic, somebody who was a very austere man, but he had by all accounts a very good and lively sense of humour and was a very lively sort of a personal or individual in addition to having a [of course brought] into a refined form, a non-violence as a, as a political weapon.

Shri Mataji: He was not that austere as people think him to be, but only he was austere to himself but not for others. He was very forgiving and a very kind person and very fond of children. He used to call Me Nepali because according to him My face was like a Nepali girl. And sometimes he used to talk to Me in such a manner as if I was his grandmother.

Presenter: Well, I, I gathered that, Mātājī, the two things that my listeners would find interesting to know about You is that first of all, as You say, You did come from a Christian family and secondly, I think it's fair to say, a very wealthy family.

Shri Mataji: Yes, I should say that My forefathers were sort of royal family type and then they lost all that and then My father and his brothers came up very well. They were doing very well. And, My father was a very

enlightened man. Apart from the wealth part of it, he was very enlightened. He knew fourteen languages. He was a master of fourteen languages. And he translated Quran[-e'] Sharif into Hindi and very learned man. And he was the first Indian to be elected to the Constituent Assembly and to the first assembly we had as the Central Assembly, then to the Parliament. My brother is also now a member of the Parliament. My mother was a graduate of Mathematics and she also did *[UNCLEAR* the/her] Law in those days.

So they were quite enlightened, educated. But the great thing about My father was that he was a scholar of Sanskrit. And he had a full knowledge of the philosophy of India, which none of the Christians were allowed to read or to understand. But as he had that background he understood the comprehensiveness of that and the whole thing, that the way that it can comprehend Christianity better, if you see it through that angle of meditation because to understand Christ he always said, you have to first of all become realised, you have to become the Spirit. Otherwise you cannot understand Christ. And, because he himself was a born-realised great soul he could see that. He was a very universal person.

Presenter: Well, Mātājī is a world-wide traveler. As I know, You are having radio material. You'll know that on commercial radio we must take a break every once in a while for some advertisements and we are at that time right now. We are going to be back with Mātājī Nirmalā Devī right after these messages.

Shri Mataji, let me get down to Kuṇḍalinī and if You assume that I know nothing about it really, You will make

a very safe assumption *[UNCLEAR]* and perhaps it's true for some of my listeners. I have a little trouble with the distinction between religion and Yoga and perhaps You can explain to me what that is.

Shri Mataji: Yes.

So I'll talk to you about Kuṇḍalinī first of all.

Presenter: OK.

Shri Mataji: And then it would be easier to make the difference between the two.

Presenter: OK.

Shri Mataji: Now, Kuṇḍalinī, you may not have heard about it because the word Kuṇḍalinī you might not have heard. But it is nothing but the Holy Ghost within you, the Holy Ghost about which every Christian has heard. Now, they do not know much about it. That's a different point. But Holy Ghost is the power within us, which is the power of desire to be one with the Divine. And this power is actually the Primordial Power, which has created this Universe and has created us through our evolution and has brought us to this point where we are human beings and now we have to become something more.

So this power is not yet manifested; that's why it is called as a sleeping power. And that is placed in our sacrum bone. Imagine: it is called sacrum in Greek language. That means Greek knew that it was a sacred bone.

And in that sacred bone it is very nicely placed and when somebody who is authorized, not by any Church or by any Hindu temple or anything, but authorized as a being, as an awareness, as a, we can say a Divine personality, can raise this Kuṇḍalinī like the sprouting of a seed. It's a,

it's a living process. It's a living process. And the living process can spontaneously happen only if there is somebody who has that power to do it. Like the Mother Earth has a power to sprout a seed. In the same way, somebody must have that power to sprout it. And it just arises and awakens within you the different centers, ultimately coming out of your fontanelle bone area, which is on top of your head and actualises your baptism. Actually it's a happening which is a living happening and not a dead happening that we just say, “I baptize you." Presenter: All right. Now I understand that there is a relationship between all of the countries in the world.

Shri Mataji: Absolutely.

Presenter: And and how, how does that work?

Shri Mataji: You see, we are all made as different centers materially. Like, we can say that Canada and America, this is a, these are the countries which we call as the Viśhuddhi Chakra, is the thing placed, which manifests the cervical plexus near the base of the neck. And that's very important because in these countries only we feel that there are people who will take responsibility for spiritual ascent. That's the, that's the faith all the countries of the world have towards you from the unconscious.

Presenter: OK, now is this, this belief compatible with other religious beliefs? In other words, may I be a follower of Yours and still be a practicing Christian or a practicing Buddhist or a practicing Muslim?

Shri Mataji: You see, I've, I've come here to prove all of them, that they are one and they are real.

That's what My job is.

So there's no difference between any one of them. Like Christ has said, “Those who are not against Me, are with Me." And those are the people who are with Him. I'm, I'm, I'm here to tell about that and to prove that they exist because you start feeling them. When you get this Yoga, this is the real Yoga, the real union, then you become collectively conscious. You become. Again I say, it's actualisation. That means you start feeling that on your fingertips. You start feeling the All-pervading Power on your fingertips, which surrounds you. And then you can monitor them and you can find out by raising the Kuṇḍalinī. You can do it. Once you are enlightened you can do it also. It's like one candle enlightening another one.

So you raise the Kuṇḍalinī and you see that what I say it's true or not. Because supposing I say that, at this point, where I have the red mark on My forehead, in the center here, is the, is the center of Christ, is the sign of the center of Christ, now you need not believe Me. But once you are realised you start raising the Kuṇḍalinī. It will flow under your hand. It will start rising. You can see the pulsation rising. You can see the pulsation at the sacred bone with your naked eyes. And once you start rising it, supposing there's an obstruction at that center which is placed in the center of the Optic Chiasma, when Christ is awakened there. That's the point He said, that you have to be born again. And you have to be born again, not just to self-certify yourself that you are born again, but it's a happening. When Christ is awakened, at that point, your ego and superego both are sucked in. And your Karmas or your conditionings, all these are sucked in. It's a

happening. And then the Kuṇḍalinī rises above that and gives you the realisation.

So the thing is that one has to know that when it's an actualisation the whole system is different.

Now the religion is for giving you a balance, a sustenance, sustenance that is human. Thus like blood has, we can say the gold has a sustenance; it is untarnishable. Human beings have those sustenances, which are described as Ten Commandments. There is no difference in any religion as religions. They are all just the same. That can be proved very easily. Only human beings have made this problem.

Presenter: OK, I think that's probably a very appropriate time to take another station break and I'm going to be back and talk much more to Her Holiness Mātājī Nirmalā Devī and I will take some time around the 11:35, Marco. We are taking your calls at 6859181. Right now, some messages.

Mātājī, one thing I am sure confuses many of us and it's, it's semantic, I suppose. What is a religion? What is a sect? What is Yoga? These sort of things. How would you describe Kuṇḍalinī for us? As You said, it is not a religion. You said it's a Yoga. What is that? What does that mean? How can you describe it so Canadians in Vancouver would understand?

Shri Mataji: As I said, it's a living force. As I said, it is placed within us. It's a living force of evolution. How did we become human beings from amoeba? Why did we become human beings? We have become human beings because we have to become something more. Like we can say a Divine instrument is created within us. Now

this Divine has to be put to the mains. As you make any instrument it has to be put to the mains.

So the whole instrument is ready. The human instrument was created by God, not by human beings. We cannot create human beings out of monkeys. We do not do, we do not do any living work. We cannot convert even one flower into a fruit.

So this living work was done by the God's power which is all-pervading and that we have now today become human beings. Now we have to become that for which we were made human beings.

So we have to find our absolute. We have to find our [reason], our purpose. And that's what is Kuṇḍalinī Yoga is. It's a living thing, it's the breakthrough, it's the one, is the revolutionary last step we can say, is what that happens.

Now what is religion? The religion is the sustenance within us, which is also a living force, which is within us. Actually these, all these great people, the great prophets who were born, were the people who were really incarnations. And they were like living flowers on a living tree of life. But people, they plucked all these flowers. They said, “This is mine. This is mine." And these, all these flowers became dead. And now they are fighting with that ugliness. If you are deaden, then everything seems to be absolutely dead to Me, every religion, because whatever they do is nothing but dead things. Like, you see, supposing there's a car. Car has not yet started. You start moving the wheel and [the steering, then steadying] wheel and everything. It doesn't move. On the contrary you break it. Or, say, there's a

telephone. You, you have no connection with the main and you should telephone; the telephone goes out of order. It's something like that. It's all artificial; it's all dead.

Presenter: OK, I think I understand. I hope I understand.

Shri Mataji: Thank you very much.

Presenter: One of the things that I was very interested and we have a sort of *[UNCLEAR* dark/dart] about a little bit because there is so much to talk about. One of the things that interested me was the healing ability that You have. Can You tell me about that? That's something that You discovered rather early in Your life, as I understand and it, something that, that You can, that manifests itself now on a regular basis.

Shri Mataji: Yes, it, it works spontaneously as a by-product of the Kuṇḍalinī awakening within you, because in us there are two systems which are called as sympathetic nervous system and parasympathetic nervous system. Now the sympathetic nervous system comes into play when there is an emergency within us. Supposing we run very fast; so by sympathetic the heartbeat goes up. But when the heartbeat comes down it comes through parasympathetic.

So it's a stored up energy and the stored up energy comes to help us by which we come back to normal. It normalises, it coordinates and supplies more energy and all that.

So when Kuṇḍalinī rises, it connects you to the vital forces, permanently.

Presenter: To, to the what? What forces?

Shri Mataji: To the sources, to the vital sources.

Presenter: I understand. I see.

Shri Mataji: To the vital sources. And by that, you start getting all the energy, all the time.

So there's no exhaustion. Like, if you are going by car, I'll give a very modern example and there is a petrol. There is sufficient petrol but it gets exhausted, gradually. Then you get worried and you mount up your tension also because you are worried that now what to do about the car. It won't move. But supposing you have an arrangement by which you are permanently connected to the source of petrol, you won't have any tension about it. It would be moving. And that's what happens when Kuṇḍalinī rises, She actually connects you to the mains. By that all your exhausted energy gets filled up again with vital force and automatically get cured. Actually, I don't do anything. I just connect you to the mains; that's all.

Presenter: Go at one place during the material that You so kindly provided me, I think, it's said that you don't get exhausted by work but by worry, by concerning.

Shri Mataji: Not at all. Because you are so much connected to your Spirit that the Spirit takes over and the, the Spirit is the one that gives you thoughtless awareness, is a state of bliss and peace and silence, in which you just start seeing, you are not involved anymore, you just see the drama; you become the witness.

Presenter: Oh, Mātājī, You do not have a cult as we would call [actually]; we are having religion.

Shri Mataji: Oh, no, no, no. I'm anti-cult.

Presenter: You are anti-cult.

Shri Mataji: Of course. We cannot organize it. We can't organize God. I'm anti-cult. You cannot.

Presenter: So in other words, You don't have an organization, You're not here raising money or anything [like that].

Shri Mataji: No, no, no, not at all. You can't pay for it. No, no, no, no question.

Presenter: So do You finance Your trips Yourself?

Shri Mataji: Yes, I do. Most of them, I do it.

Sometimes, sometimes, you see, some people who invite Me also pay sometimes for My trip. It's all right. They pay for My trip but not for My work, or for My vibrations, or anything. They pay to the, to the, I should say to the airways, not to Me.

Presenter: I see. Now, so there's no organization, that a person writes to and says, “I want to join.

Please send me my membership."

Shri Mataji: No, we have centers like that. We can say we have centers where you can write to them but you cannot pay and join. You have to become. And you have to grow.

So it's a very different thing altogether. And you cannot just say, `I paid so much money. I can become or you make me a member.' You cannot make anybody a member. Only thing it happens to you, you start growing and you start enjoying it and you start doing it yourself.

Presenter: Oh, how many, can you tell me how many adherents to this philosophy there are in the world? They, are they world-wide?

Shri Mataji: As I said, I have no organization. I have not written it down. I think they can be thousands. I, I must say they are growing on their own. And they contact us and also when I go there they come to My meetings and all that. That's all. But we don't have any hold on them and there's no cult business going on. It's so, such a living thing, you know. You cannot organize living things.

Presenter: Well, I suppose You are saying too that this isn't something that You invented, that this has always been here. You are just speaking at for people to listen.

Shri Mataji: Yes, it is the thing I would say that it's a... Sahaja means born with you. You see, the whole system has worked out like this. But this Yoga today has become a Mahā Yoga. I would say what I have discovered is a human realisation of Mine by which I understood what was wrong with human beings, their permutations and combinations and their complications, how they go wrong, how they go to extremes, how to bring them to the center. And then also I discovered how to overcome that hurdle for them. Then once I do, I do it, say for you I have done it, then you can do it for others. You, you also become empowered with it because you become your Spirit and you are empowered with the powers of the Spirit.

Presenter: All right. I'm gonna take another station break. I'm gonna ask you to give us a call if you are interested in talking to Mātājī Nirmalā Devī. 6859181. 6819181 is the number to call right after we take some break for

some messages. Hi, Mātājī, just before we go to the phone lines, 6859181, there is just one or two things I, I'd like to ask You before we, You know, get into the public part of the program.

How do You practice this particular, I'm, I'm looking for a word, this Yoga? What, what do I do if I, if I follow what You are telling me? Do I meditate? How does it work?

Shri Mataji: As I told you that on our fingertips we have got the potential centers.

So now, for example, now supposing I am an enlightened person. You just place your hands towards Me like this and the, these centers get the information and the Kuṇḍalinī rises by itself. That's all. It's just like exposing yourself, like the leaves expose themselves to the sun, for example; like that we can say. Or if you become the realised Soul, then you can do the same to others. You can raise yourself the Kuṇḍalinī from the back.

It's, it's very simple and spontaneous. Has to be, everything vital it's very simple, like our breathing. You see, we don't go to books or anything. It just happens to us. In the same way, it's very simple.

Presenter: All right. Now, two more things before we go to the lines. First of all, those who are listening to the program, that would like to hear more about this later on, where would they go? Where would they turn?

Shri Mataji: They, they have to put their hands to, towards the radio. It will work out.

Presenter: No, what I mean, Mātājī, can they write some place? Can they, is there any place?

Shri Mataji: Yes, yes, we have our addresses. They can write to Me here and they can write to us in New York or if you want in London. Then we have our places there. We have a center...

Presenter: Do You have, do You have some addresses which You could give me in one of the station breaks?

Shri Mataji: Yes, I can give it to you.

Presenter: One of the station breaks we'll get to get an address so that people can, can contact, You know. What I would like to say and right after that we'll take some calls, that Mātājī is conducting a Public Lecture at Kitsilano Secondary School. We used to call it a high school when I was a kid. What's the matter with high school? Anyway, they now call it Kitsilano Secondary School, at 7. 30 p.m. October the 9th. That's today, I think. Yes, that's tonight, 7:30 tonight, October the 9th at 2550 West 10th Avenue. That's Kitsilano High School, 7:30 tonight, 2550 West 10th Avenue.

Let's go to the lines. Line one, go ahead please.

Person 1: All right. Good morning, Ray. I'd like to welcome Mātājī Nirmalā Devī to Vancouver first of all.

Shri Mataji: Thank you.

Person 1: And I'd like to hear few things about Kuṇḍalinī. I've been studying and experiencing Kuṇḍalinī awakening for five years and I want to assure Ray and the listeners out there for a figment of one's imagination. Kuṇḍalinī has been known in many cultures of the world, India, China, Japan, twenty-five hundred years ago in Mesopotamia and tenth century in Ireland. The Kuṇḍalinī is symbolized in cultures as a serpent. Kuṇḍalinī energy

is universal energy and it is dormant, at the base of the spine in the subtle body.

Shri Mataji: Correct.

Person 1: And I had a, I had the experience of the Kuṇḍalinī awakening, five years ago. I was attending the University of Victoria. I was a student there in the Fine Arts Faculty and one day in a dream an Indian yogi or a master, a swāmī, an orange *[UNCLEAR* clothing/clothed] came to me in this dream and touched me between the eyes, on the bridge of the nose and I didn't know what the heck is going on.

Of course, you can imagine how surprised I was.

So through a little bit of meditation and research in the libraries I found out, I...

Presenter: Just before you go on, were you into, you know, looking into this sort of thing at that time? Person 1: No, not really.

Presenter: It just, it just come to a young University kid who is, you know, used to chasing girls and drinking beer all of the sudden vision. Is it? Person 1: It's exactly right, Ray, you got it. I was chasing girls...

Presenter: All right.

Person 1: I was meditating a little bit with a mantra, as, as so, so-called cosmic word, has a special vibration.

Shri Mataji: No, no, no, no.

Presenter: Oh, so you were in a little bit.

Person 1: Well, just a bit, just for peace of mind.

Presenter: OK.

Person 1: I hadn't pay for it. I hadn't joined a club or anything. But I tell you, it was the most profound thing

that ever happened to me and I'm thirty-five as old right now and I tell you I still haven't got over it. And...

Presenter: May I ask you what you do now? I don't want to, to do it to identify you but you are here and you got a job and so on? Person 1: Yes, I work. I got a job and friends and you know...

Presenter: You're a normal everyday guy. I wouldn't, I wouldn't know what you were if I saw you.

Person 1: No, no, I, you know, I'm clean, shaved and you know...

Presenter: Excellent. That's more than I can say...

Person 1: But I write, you know, Byron. But all I can say is that it is ancient wisdom and it is finally coming to the West and it's not a figment or imagination. I tell you, the all levels of profession, psychiatry, doctors, medical people, every human being on earth must know, must have this knowledge that is within, that is our birthright.

Presenter: OK, you made some very, very good points and we have lot of calls waiting.

So I'm gonna have to cut you up now, but I do want Mātājī to comment upon your call. Thanks for calling.

Person 1: Thanks.

Presenter: Mātājī.

Shri Mataji: For him, I think he should come and see Me in the program. Will be good idea, because I'll tell him actually what it is. I mean, by reading it and by getting all these things from the subconscious could be little vague. But if he comes I'll, I'll tell him all about it.

Presenter: So he should be there tonight at 7:30 at Kitsilano Secondary School and You can teach everything to him.

Shri Mataji: I'll be very happy to meet him and he should tell Me about it.

Presenter: All right, we're going to take another station break. 6859181 is the number to call. 6859181 right after these messages. To the lines, those of you who are interested in writing and learning more about Kuṇḍalinī please make a note of these addresses: Sahaja Yoga Center, 44 Chelsham Road, Clapham London SW1, that's like the postal code. And the other one is...

Shri Mataji: SW5.

Presenter: Well, who's *[UNCLEAR]*, whether SW is. Which one is it, four, five? Person 1: Four.

Presenter: Four. SW4, as the one I said. OK. Now the next one, the other number is H.H., those are initials, Mātājī, 48 Brompton Square, London SW3. Now I will keep this note and if any of you did not get that address, give me a call on Monday during our free four hour portion and I'll give it to you that time. I'll keep it with me. OK, let's go back to the lines. Line two. Good morning.

Person 2: Yes, good morning. Your, your guest mentioned earlier that it is not the work that [worn] a person, not make them tired; it was the worry. I'd like to ask Her a question about healing. In healing, can You do so much healing that You also get exhausted?

Shri Mataji: No, not Me. I don't get exhausted at all.

Person 2: When you get the Kuṇḍalinī working, then...

Shri Mataji: No, I do not get exhausted Myself, at all. I enjoy it.

Person 2: Yeah, that's fine because there are many healers that claim they can only go so far, You know and then they get exhausted.

Shri Mataji: No, not at all. It is, it is a source. When you tap your source you don't get exhausted, isn't it? Presenter: That's like being the perpetually plugged into the servo station, into the petrol station is what I think is what the...

Person 2: It's very nice. That's all we all want.

So we just need to get the Kuṇḍalinī awakened and on the way up. Is that it?

Shri Mataji: Yes, that's it how it works out.

Presenter: OK? Person 2: Thank you very much.

Presenter: Thanks for your call. Line three, go ahead, please.

Person 3: Hello.

Presenter: Hello.

Person 3: Yes, the first question I'd like Madam who, whatever you call Her, to answer who gave Her the title as a Holy Woman or a Holy Guru?

Shri Mataji: Is the...

Person 3: And the second one is, if She lack the Christian religion, why does She even mention Christ in Her [proof], or style or religion, whatever She's trying to bring to Canada? Presenter: OK, you are very tough. I'll get an answer to that. I think you are, I think you are... OK.

Person 3: And the third question is the final one. The sooner She leaves Canada the happier we'll be, we're going up...

Presenter: Oh, go out with you... All right, let's answer those first two questions. The last one is sort of typical some...

Shri Mataji: Some fanatic... ha, yes.

Presenter: Ill feel thinking, fatheads. OK, now let's, let's answer to the first two because I think she raises a kind of an interesting point even though she didn't mean to. She raised it because she couldn't help it. OK.

Shri Mataji: Which is the first one which she said? Presenter: Well, I know that the second one was...

Shri Mataji: About Christianity...

Presenter: Oh, yes, who, who gave you the title of holiness?

Shri Mataji: Yes. You see, actually, it is, it is not given to Me by any church or anything but is given to Me by public. They, they call Me by that name and even the President of India calls Me by that name.

If she has any objections she can write to him there.

Presenter: Well, [then we'll] not insist upon being called. That's, that's something the people just call You.

Shri Mataji: Yeah, yeah. Now, the second thing is that I think I have the more authority to talk about Christ than she has. Christ has already said, “You'll be calling Me `Christ, Christ.' I won't recognize you." And I'm one of them, those who don't recognize people who are fanatics. These are fanatics and they have done no good to Christ. They have crucified Him, many a times. They

have to know that you have to become the Spirit. You have to become the Spirit. I've not left Christ. I have left the so-called Christianity which is not really giving us any answers. And tomorrow all your children are going to do it. Because in England, they should know that people are selling churches now. And the fanaticism one should understand from a person like Khomeini. And you are all becoming like that.

So no use becoming fanatic. Better get to your Spirit.

Presenter: Are, are You saying that, Mātājī, that You haven't left the Christian ethic and You haven't left Christ?

Shri Mataji: No, not at all.

Presenter: But You have left whatever organization men has built a parable.

Shri Mataji: And which church I should belong to? Tell Me. People asked Christ, Mahatma Gandhi once that, “Why don't you become a Christian? You are so much adhering to Christ. Always you refer to Christ." He said, “Which church should I join?" And, that's the answer. You see...

Presenter: So, what, what You really are saying is that You walked away from man's interpretation.

Shri Mataji: In the spirit of Christ. You have to be the Spirit of Christ and not the, just the buildings that these people have erected. These are all dead.

Presenter: Line four. Good morning.

Person 4: Good morning. Say, how do You call that guy, Calagini something? Presenter: Kuṇḍalinī.

Person 4: Kuṇḍalinī. Can this Kuṇḍalinī swallow Gasolini and pray on Mundalini? Presenter: Oh, very funny. Line, line one go ahead please.

Shri Mataji: What is it? Person 5: Hello.

Presenter: Hello.

Person 5: You called the lady a fathead. Are all us white people supposed to be fatheads? Presenter: No, only people who are rude enough not to treat guests of this country as guests are to be treated in your home and in my home and particularly, madam, on my program and if you don't like it, then too bad.

Person 5: Oh, come on... [Fathead].

Presenter: Line two. Good morning. Are you there? Person 6: Yes, I am. I'm also little concerned about you calling, call her a fathead, too. I think, here I was a little shocked. I think everybody has a right to voice an opinion or say what they think and I think this is a little very...

Presenter: All right. Maybe the choice of words was wrong but we have to be polite to our guests and people who are not polite to guests are in my words fatheads. If that's a wrong word I am sorry.

Shri Mataji: This is very unmannered.

Person 6: You are doing the same thing...

Presenter: I have, I have, I have a guest here...

Shri Mataji: You must have manners.

Presenter: I have a guest here and She is your guest as well.

Person 6: You are doing the same thing to your caller by calling her fathead.

Presenter: All right, I apologize for the term, fathead. I'll think of a better one. Now have you a question to ask? Person 6: No, not at all. I haven't...

Presenter: OK, thank you. Line three, go ahead please.

Person 7: My *[UNCLEAR]*...

Shri Mataji: If she doesn't mind can call Me anything...

Presenter: OK.

Person 7: My husband was in the hospital and there was an Hindu seller there and a man who was very, very, a young boy in fact, he was all broken up as [he could but he came around practically]. But there was a Hindu seller coming there and he was rubbing his legs. And we were watching him and I don't know what kind of religion that was.

Presenter: Do You know anything about that?

Shri Mataji: I'm not, I'm not preaching Hindu religion by any chance. I've talked of Christ so long.

I'm not talking of any religion as such. It's a mis... You are not trying to understand, you see. I thought Canadians had more sensitivity to understand it.

Person 7: He was really [feeling a burn] rubbing his legs and his hands.

Shri Mataji: Yeah... You see.

Presenter: OK, She doesn't know the answer. Thanks for your call. Line four. Good morning.

Person 8: Yes, Ray, I agree with what you were saying to those ladies and I just like to welcome the Mahārāji.

Shri Mataji: Thank you.

Person 8: And what She is saying is just exactly what I am looking for. I am right now going from one church to

the other in town here and they are not giving me what I want.

Shri Mataji: It's true.

Person 8: And She is just saying exactly what I am looking for. And I just really, really, I am almost ashamed that being a so-called white woman when these other women phone in.

Presenter: Well, I'm only going to say this once and we are going to put it to rest.

So thank you for your call. As far as I am concerned, if I have people on this program that are holding up an argument for racism, or for one sect or another or one religion or another or for one political party, for another, they may come here and they take their chances. They take their [lumps] like everybody else does. But when I have a guest on my program Who is coming up with an entirely different point of view...

Shri Mataji: It's an universality I'm talking.

Presenter: So means that She's trying to teach, try to give us an idea. Whether we agree whether are not, we must be polite and I insist upon that on my show. And thank you for calling. I think you put it in prospect better than I did. I'm gonna take a break now. I'll be right back after these messages. All right, we are going back to the lines once again for those who are interested in finding out what is this all about. It's Kitsilano High School, as Kitsilano Secondary School, 7.:0, tonight, 2550 West 10th Avenue.

Line, line five. Good morning.

Person 9: Yes, Mister [Miller].

Presenter: Hi.

Person 9: That gentleman that had the awakening with Yoga, he mentioned that the symbolization is a serpent. Now, this very clearly shows that is something devil and he mentioned a mantra which people who have been into Yoga know what mantra is and it is devil worship.

Presenter [whispering to Shri Mataji]: Devil worship.

Person 9: And people that would like the other side of the coin, to, you know, not get themselves into trouble should read the book, `Cult Explosion', by a person by the name of Hunt...

Presenter: OK.

Shri Mataji: All right.

Person 9: And he mentions like incarnation and the evolution. Well, this is the theory that man can become God.

So, You know, if You want for the teaching You can see what it is.

Presenter: So I hope in order to satisfy your own curiosity you will go to the meeting tonight...

Shri Mataji: She should come, ha...

Presenter: But I am going to ask Mātājī to comment on your call. Thank you for your calling.

Shri Mataji: Yes, yes. You see, the serpent is, it is called as serpent because it's an energy, you see, because the energy moves in a wave. That's why it's called as serpent. But in Greece if you see this word Athena, `atha' means primordial. Athena has been shown also, it's a symbol, you see, they have to express the energy and

whenever they show the energy they have to show the waves.

So there also you'll find this Athena is carrying a serpent in her hand, which is a wave-like thing. And actually I have cured so many people who, who have been possessed.

So this question of devil doesn't arise. Now the gentleman who has described his awakening is little far away from the reality.

So he should not be taken as something, as something representing the one I am saying. That's why I asked him to come.

Presenter: He's not typical.

Shri Mataji: No, not at all. On the contrary he's against it, as I told you. It's a different thing that has happened to you. It's correct that it is a possession what she says but she should come and see for herself that it is just the other side of it I am saying, that that's what I told you that it's a possession from the subconscious. I told you after he had called. But I didn't want to disturb him. I wanted him to come and see Me. I would have told him what it is exactly like.

Presenter: OK. Line six. Good morning.

Person 10: Hi, Ray.

Presenter: Hi.

Person 10: I would like to, I just like to make a few comments and then I'd like to hear your guest comment on what I've said.

Presenter: OK, make it really fast `cause I'm almost out of time.

Person 10: OK. I read, just read a book, `Kundalini and the Evolution Energy in Man' by Gopi Krishna.

And he is from India.

Shri Mataji: That's it.

Person 10: And currently he awakened that energy prematurely.

Shri Mataji: No, no, he doesn't.

Person 10: Over expand it about eight years. He almost died about.

Shri Mataji: Yes, I'll tell you.

Presenter: OK, I think, I think that Mātājī knows what you are talking. It's OK to comment just quickly.

Shri Mataji: Now I must tell... Now I will tell you that this Gopi Kṛiṣhṇa is a person who has ruined many people like this. Is not, that's not the way. Kuṇḍalinī is your Holy Mother and She is the One who doesn't give you any trouble whatsoever. I have, I have given realisation to thousands of people. There was no problem. You must be authorized. You yourself have to have a holy life that you can do this job.

Any Dick, Tom, Harry tries these tricks, then the devils come in. You see, that's what it's said; it's a dead work you do.

Presenter: In other words, there are charlatans that can get involved in this sort of thing.

Shri Mataji: Yes, very much. They do it because they are not authorized. You have to be authorized by God at the very outset. I said that you have to be authorized by God and not by any other thing.

Presenter: OK. Thanks very much for your call. I'm sorry we can't take more. The lines are just lit up. I don't know how many were angry with me for calling that lady a fathead and how many wanted to talk to You, but I'll hear from the fatheads next Monday, I am sure. But I want to thank You very much, Mātājī... [MISSING.]

***Contents: 1981-10-09*, Public Program, Kitsilano High School, 2550 West 10th Avenue, Vancouver, Canada**

[Introduction by Warren.] It's very kind of you, all of you to have come today, to meet Me. It was really a very short visit, the shortest that I have ever done, because somebody told Me that in Canada there is an ocean of seekers, there are many many seekers here and very true seekers.

So I just wanted to see what was the situation, to have a look at it. I did not expect. I must say the vibrations in Vancouver, I can't say about the whole country are really wonderful and the people have been so nice and so good, so understanding.

I hope we'll be able to arrange some sort of a center here, very soon, we'll have to get some people from abroad, then you'll have to go abroad.

This work is such, is so simple and so loving. One can't believe that it could be that simple. But as an example, I would say, that if there is a television set with us, I would take it to an Indian village they will say `What sort of a box you are carrying? What sort of a thing it is?', they won't understand what it is, if they have not seen it anywhere. And you tell them that all over here there are

lots of notes of music and plays going on and you can see all that in this one. They won't believe it, they can't believe there could be such a fantastic instrument.

So when you plug in, they start seeing it and they are flabbergasted.

Now, you understand about television quite a lot and you know how far you have gone with your science. But as far as human beings are concerned, the scientists have made no enquiry and there is no pursuit to find out what are we. Why are we here, why have we become human beings from amoeba stage, is there any sense in that evolution or just God was mad or Nature was mad to make us a human being? Nobody asked this question, the scientists never asked why.

We are going to the moon to find out, God knows what, to waste all the money. But we do not want to know what we are actually inside and this is the trouble that scientists have decided to turn their back to all the scriptures and all the things that people, so far, told us.

They think it was all a myth, there is no God and is all falsehood. Despite all that, people feel “There must be something beyond" and the seeking is there, the seeking is there.

Now I would say to you people who are brought up in a Western way that you must have the same attitude of a scientist, that means an open attitude, you should not put a barrier. People say “We are skeptical!", all right, but what are you skeptical about? Or “We don't believe in God" but how can you say you don't believe. You can say, all right, “We have not seen God, we have not felt Him” all right, “We have seen all the wrong things done

in the name of God" that is also correct; but how can you say that there is no God? You must keep yourself open to see whether what these people like great prophets, like Christ, all these people whatever they have said about God is true or not. If you have not yet verified it then you have not been fair, you have not been fair at all, you have not been open at all to find out where these things whatever is said whether these things are true or untrue.

So one has to keep the mind open without a barrier, this I would request you, as a scientist faces a hypothesis and he faces it with an open mind and sees for himself if it works out, if the laws work out, then only he has to believe, not before that. But the area of religion has been so much exploited, so much been ruined by so many agencies working it out, you see, taking the contract; like people think they have all the contracts: somebody has the contract of Christ, somebody has the contract of Śhrī Kṛiṣhṇa, somebody has the contract of Islam. And all of them seem to be becoming very much fanatical about it and everybody think that they are right and the others are wrong, without even paying attention what others have to say.

For example, if you want to hear about Christians go to Jews, if you want to hear about the Jews go to Muslims. I mean, we are seeing what's happening with this fanaticism. Khomeni, you know? sort of a fellow, he is. He thinks he is the incarnation of God almighty himself, he is not afraid of God, he does what he likes and he thinks he is doing in the name of Allah. Imagine! Then there is another one we saw recently, Sadam being killed, because of the fundamentalists or the people who

believe in a particular ideology. It will happen to all of us, if we go on like this, madly from one to another.

So one has to understand that, if there is God, if there is somebody like that, then He cannot discriminate between anyone: human beings are human beings. How can He discriminate between people who say that we are Christians, we are this, we are that, this is all brands people are carrying with them.

Some people say “We are atheists” whether you believe in God or not, if He exists, He will exist, despite the fact that you don't believe in Him.

So we have to keep ourselves open, entirely open and see for ourselves if there is any truth or not.

Now we have reached such a state where the time has come to prove that all these scriptures are the Truth; that human beings are specially meant to be those higher self and that all those prophets and Incarnations who came on this Earth, they all reside within us and they exist. It can be proved absolutely.

How it can be proved, what we have to expect and what are we, these are the points I would like to touch today. Because you can understand that the time is very short and I am here only for a day, but I will try My level best to cover all these points.

Moreover, about Kuṇḍalinī, I hope we have books which we can pass it over to you. You can see for yourself all these books and read them and understand the mechanism behind it.

But it is as simple as you understand electricity. If you have to come to this room, just to make the whole room

enlightened, you have just to press one button, that's all. You do not have to do much. But for a person who has never known electricity it's too much. For an Indian villager is not too much to feel that he becomes that great thing, the Spirit; he doesn't feel it's fantastic to have this, because he knows about it, he's brought up that way.

But for a westernized Indian or, we say, the Western people is something so fantastic, they can't believe how can it happen. They think they have to go from happiness to unhappiness, unhappiness to happiness.

They can't think that there is any way of getting out of it and that's how the people in the west still doubt when you say “You are fantastic and you have to become that and you can become." Now one has to understand that your evolution has come through a living process, a living process within us and whatever is living happens spontaneously. For example, if you have to sprout a seed, now you do not stand on your head for that or you do not do any Haṭha Yoga and all these horrible things: it sprouts by itself! In the same way, if it is going to be any evolution, it is going to be a living thing. That means it exists within you and it is going to manifest itself at the right moment.

Now we have to offer you a certain concept about these things, which is a concept for you today, but it will be the truth for you tomorrow.

We have within us this subtle being.

[Aside:] Yes, if you can pull it back.

Within us, there is placed, in the triangular bone here called as sacrum. Just imagine the word sacrum, itself

suggests it's sacred, that means the Greeks knew about this. Is this Mother Kuṇḍalinī.

Now you must have read, some of you must have read some books about it. And, you see, the people who are nowhere near the truth always first start writing books, I have seen them. I mean, when I started reading about Kuṇḍalinī I was shocked, because they had no idea as to where the Kuṇḍalinī was.

Somebody said it is in the stomach, somebody said this in the head, somebody said is in the nose.

They have no idea and they wrote such contradictory things that one can't understand how did they take to write into it. And some of them wrote that they had an experience of a Kuṇḍalinī, which is not an experience of a Kuṇḍalinī, but it is some sort of a spirit or some sort of mesmerizing power which worked it out.

Because this is your Mother and she is your own Mother, she is your individual Mother. And she is the power that is the All-pervading Power around us. She is the part of that, or the reflection of that; and she resides there waiting for the occasion when, somebody who is authorized, authorized by God, not by churches or by, say, by some organized things like a temple, or something like that or a mosque, but by God Himself, a person who is an enlightened person, an evolved person, such a person can only awaken this Kuṇḍalinī and she is just waiting for that moment, because she knows: she is the one who knows, she is the one who organizes, she is the one who coordinates and she is the one who loves... and she is the one who is waiting for this moment when she can give you your second birth.

It is a living process, second birth is a living process, just like an egg becomes the bird, just like a caterpillar becomes a butterfly. It is a living thing of metamorphosis, we can say like that. It is a transformation and a transmutation.

But people do not understand, they think that by doing some sort of a dead thing, or some sort of a thing that you can manoeuvre. For example, you see, some people say that “I have started dancing” now you can always dance, what is so great about it? Some people say that “We got a feeling of shivering or some sort of a thing or then we felt horrible heat coming out." All these things are quite possible, maybe because there is some sort of a possession in you, it happens with a person who gets possessed and it is nothing new. Or anything that happens to you beyond your control cannot be Self-realisation. One should understand this simple fact.

If it is Self-realisation it has to be in your own control. That some people just start jumping on the seat, sometimes I have seen them and they think their Kuṇḍalinī's are arisen. I said “How? How can it be?" They said, “Our Guru has said that, our Kuṇḍalinī has arisen and that we are realised Souls and that we are jumping like frogs." I said “How can you jump like frogs now, are you going to become frogs after becoming human beings? Or are you going to become *[UNCLEAR]*?" We must keep our logic intact to see what should happened to us when, we want to think, when we get our realisation. First thing that you have to be your own master. Say for example. I will give you all modern example which you will understand. You are going in a car and the car

suddenly slips by itself into some sort of a gorge or something, you are coming down. Do you think you are progressing? It is positive? Do you think that this is done because you are a master of the car? Whatever should happen to you, should be you... known to you, you should be able to manoeuvre it, you should be able to master it. Otherwise is not Self-realisation, it is some sort of a hypnosis, or some sort of a possession or fixation that is working out.

So, first thing is you have to be the master of the whole thing. We should not be sort of fixed into an idea.

For example, today there was some ladies who were very angry with Me and they said “You'd better get out of Vancouver." I did not know why she was angry with Me. You see, to say that we are Christians is no sufficient. We are have been Christians, our forefathers have been Christians, so many years we have been Christians, what have we achieved? By going to church did we achieve anything? We should face the facts, have you got your own powers? Now what should happen to you? When it happens to you what really happens to your awareness is the point. When you evolved, your awareness became higher than the awareness of the animals.

For example, now, if you bring an animal here, for him it does not matter what colour you have, what thing you have, whether it is dirty, it is clean, it makes no difference to it. But for a human being, it makes a tremendous difference.

So our awareness has improved, in our awareness we have achieved something.

So we must know what we get in our own awareness. Now you have clearly said that “If you have to get realised, then you must become collectively conscious." Now I am saying “You must become, it is an actualisation” which is the problem and people who are forming groups and things without that, think that I am against them, I am not against them, I am actually trying to give them the meaning of the word.

For example we say that “I am born again” all right, it is self-certification! If you are born again, if you are a realised Soul then what should happen to you, you should be collectively conscious, you should be. What is the use of wasting your energy believing in something that is not truth? You have to become collectively conscious, a simple thing is like that. You have to be, I should say, `selfish', in the sense that you should know what you have got out of it.

Now, once you become collectively conscious, once you become collectively conscious, you should be able to feel another person within yourself. As he said, that you can feel, you can feel what is the center that another gentleman is catching, what are the centers you are catching. That is Self-realisation, to know about yourself and to know about others is part of it, because Self is the Universal Being within us.

We have to become the Spirit. Now to become the Spirit does not mean you start dancing, anybody can dance on the streets. I mean, you must have logic behind it. We become recluses, that somebody who has spent thousands and thousands of pounds just to fly, I mean, why do you want to fly now? I can't understand, I mean,

birds were flying, now you settled down as human beings and get your realisation and become a superhuman being.

All these ideas about realisation are first to be neutralised and to be understood logically that when you become the Spirit, you have the power yourself, you must manifest the power of that love of that All-pervading Power.

First of all it is said that there is an All-pervading Power around us. It is said in every scripture, any scripture you read it is said that there is an All-pervading Power. Now, do you feel it? Anyone of you? You do not feel it, all right.

Something has to happen to your awareness that you should feel it.

Actually what happens that when this Kuṇḍalinī rises through this, these centers are represented in our hands, in our fingers, like one, two, three, four, five, six, seven [touching the points on Her hand]. It is shown here [indicating the Chakras], you can see and in the book that they will give you, you will also see these things written down.

Now this centers get enlightened [points to the center of the hand], means there are deities in all these centers. These are the milestones of our evolution. And these deities, when they get enlightened, what happens is that also these fingers get enlightened.

Because they are enlightened, now in the new awareness, they start feeling the All-pervading Power.

Then you are surprised, as you grow that that is the only truth, the rest is all falsehood.

And after this, only you start doing the living work. That means you can raise the Kuṇḍalinī.

Now you can see the pulsation of the Kuṇḍalinī, here, in some people [indicates the Sacred Bone and the Chakras], if there is an obstruction here, or an obstruction there. Otherwise it shoots off, it shoots off.

But if there is an obstruction, it takes time, it just stops here and it tries to pump, like a...

Sometimes I have seen like a big balloon, or like a heart itself, pulsating. It pulsates, even with a stethoscope you can see the pulsation going up.

Now it reaches the apex here, at this fontanelle bone area, where you feel the pulsation also, not in everyone, because I have seen people getting it in a shot. Like today we had a television program with this Vancouver show and the lady who was doing it just told Me “Mother, how will I get it?" and in a second she got it, just she got it and she said “Yes, I can feel the Cool Breeze in my hands." She felt it, she did feel it. Now she cannot deny that she did not. And she felt the Cool Breeze coming out of here [indicating over Her Sahasrāra].

Now, this you cannot do, you can jump, you can do all these things, but can you do this? Make the Cool Breeze come out of your head and feel the Cool Breeze around.

That is not the only thing that happens to you. When it arises, then immediately you feel thoughtlessly aware, means you become absolutely silent.

When the Kuṇḍalinī passes through that center [indicates her Āgñyā], which is a very very important center for all of us to know, I may not able to tell you about all these

centers, but you can find out from the book. It is very simple to find out and to verify. But this center is very important, where you see the red mark, but actually it is the marketing a point in Optic Chiasma, in the center of it, is a very important subtle center, called as Āgñyā Chakra. Now this Āgñyā Chakra is the center which is adorned by Jesus Christ. “This is the door" He said, this is the gate through which He has passed. And this is a very important center, because this center, you see, leads you to the limbic area and the limbic area is the Kingdom of God.

So to cross this... I mean all kinds of nonsensical people, things people say that you should concentrate here... you should not, this is the window [touches the forehead], the door is here [Shri Mataji touches the top of the head], so those who concentrate here also spoil their Āgñyā Chakra.

You do not have to do any effort for it, the more you do effort the worse it is. If you have done any effort, it will be difficult for Kuṇḍalinī to rise; because it is spontaneous, it is living, there is no effort needed. She just sprouts by herself.

Example is like this. Supposing, now, you have a seed and you want to sprout it. Now supposing you try to pull out the primule out of it, the sprouting part out of it, will it sprout? No, it won't, it cannot do it artificially, it is a dead thing. You have to just put it into the Mother Earth and it will sprout by itself.

Or people have such ideas as to do all kind of fixations here, like they can say “Oh, we can fix the stomach thing and we can fix this and fix that” it would be like a car,

which has not yet started and you are just trying to move the wheels and the steering wheel and everything and then you say “Oh, the car will have started." Actually you have spoiled it completely.

If there is no connection, say, in the telephone and you try to telephone, you spoil the telephone. You have to have the connection with your Spirit. Without getting to the Spirit, you cannot have connection to the Divine. That's the point where you have to reach. And the Spirit resides in your Heart and the Spirit is the one that is watching you, is the Kshetragñya, as called as, means he's the one who is the knower of the field, is the witness within us. He is witnessing us, looking at us, how we are, noticing what we are doing.

The seat of the Spirit is on top of your head, here, the seat.

So when the Kuṇḍalinī rises, first she informs the seat and when the seat is informed, immediately the first manifestation of knowledge comes to you, that you start knowing there is All-pervading Power, you start knowing what Chakras you are catching, you start knowing what others are catching, you start knowing how to raise the Kuṇḍalinī and how to give realisation.

The first thing that should happen to you is that physically you should feel all right.

Now she asked Me, “How do you cure cancer and how do you cure all these things?" I said “I do not cure, it's a by-product." Because when the Kuṇḍalinī rises, she passes through these centers. Now these centers are placed on this parasympathetic nervous system; and the sympathetic nervous system left and right, the left for

our emotional side and this one for our physical and this one for our mental, this one on one side [the right side], are acting all the time and in emergency they try to drag the energy from these centers.

When the energy from these centers is taken out, then the centers become constricted, like, I would say, these are the centers here [joins in a circle the left and right thumbs and forefingers] and left and right. But when the centers are pulled out like this [moves the hands aside], they are made to work too much on the sides and they get exhausted, they get constricted and the deities also sleep off absolutely.

Now the disease starts like that. Diseases are, specially cancer, cancer is started because, when you make them completely constricted, this part or this part [indicates the left and right side of the Nābhī Chakra], specially this part [indicates the left part] becomes absolutely independent and start working on its own. There is no relationship with the whole and the thing becomes on its own, a cell becomes on its own; and when it becomes on its own, it goes on increasing and sort of dominating other cells, that is how malignant is setting.

Now when the Kuṇḍalinī rises, what she does is to awaken this [indicates the Nābhī Chakra center]. By the awakening of this, it gets again its vitality, it becomes normal, it opens up and it gives energy that side and it becomes a normal being.

But the main thing that happens with Kuṇḍalinī is that, she connects you to the whole, she connects you to the whole, the All-pervading Power and by that, all the time,

the energy flows within you and you cannot get any disease; because there is no exhaustion.

Also diseases are caused because of imbalances. For example, today I met two people who had liver problem. The liver problem, you'll be surprised, is caused by overthinking. It is not caused by anything else but overthinking. Those people who think all the time, I mean, here people are too organized, I mean, before going to any place, sit down for one hour and organize it. How can you organize anything, if you have to go to an unknown place, what is the use of organizing? Supposing you have to go from here to some place and you do not know the road, do you fix your [steering] wheel accordingly? I mean supposing you have to turn to the left and you have fixed to the right, will you go to the right? The way we plan out everything to details and use our brains really we have exhausted the energy of our brains. And people have made it such a crazy thing it does not know what, it is confused.

But the main thing that happens that this center that is such as an important center, which looks after our attention and it goes around the whole [indicates the Swādhiṣhṭhān and then around the Void], is the center of creativity; and supplies the energy to all: the liver, then to your pancreas, then to your spleen and then to your kidneys and uterus. This poor liver has to also convert the fat for the use of the brain, because brain and nerves are made of fat.

And nowadays there is another thing started, that we should not have any fats, because they say that we develop diabetes, or something, is it? But you do not

develop diabetes with fat or sugars: what you develop diabetes because of overthinking.

Again, a man in a village never knows about diabetes, because he doesn't think.

Now what happens that this Chakra which has to do this important work, of converting your fat for your brain, becomes exhausted, it doesn't look after these major organs within you and you have all these problems. Because if the pancreas goes out of order, then you develop a disease called diabetes.

Then your spleen, is very very important, which people do not know how important it is. Like it comes into play in emergencies; supposing you are eating your food and then you just run off, then it does not know what to do, it starts now pumping more blood cells, first it is working out your digestion, then it has to work out your running about and then you are thinking: so three things you are doing at the same time. That poor, that spleen becomes a crazy spleen. And such people develop a very serious disease, can develop: first become very speedy, extremely speedy, they do not know, they are telescopically moving and they actually move so fast that sometimes they miss everything. But the worst thing that happens to them is the blood cancer, they develop blood cancer, because of this bad... or we should say this crazy spleen.

All such diseases can be easily cured through the awakening of the Kuṇḍalinī. Cancer can only be cured by Sahaja Yoga, by awakening of the Kuṇḍalinī. There is no way out. I mean, they can remove your nose, eyes, everything, but they cannot cure your cancer.

Recently I went to Houston. We had about three and fifty people over there, because I cured a multiple sclerosis fellow. Now you will be amazed, most of these left side diseases, as I call them, like cancer, multiple sclerosis, madness and, you can say, this schizophrenic and all these people. This is caused mostly by the people who go to false Gurus, who read such books like, about the dead, about the past...

all such people get these diseases. Psychologist, who go to psychologists, because psychology is also an unauthorized thing to be done. Psychologist, psychosis and, what are they called as?, analyst, those who analyze you and go into your mind, they have no authority to do it.

Now recently I saw a very nice film about cancer and now the doctors have admitted, that they have seen some sort of protein which attack or trigger, or trigger, this is the word they used, trigger cancer.

And these proteins they call as protein 58, protein 59, they have given some names to them... they have even photographed them. And they said, now, that it comes from an area which is there, but it is an unknown area, but built within us since our creation.

Now beyond this point [indicates the left side] is our subconscious and beyond that is collective subconscious.

Now if you try to do anything extreme as far as your emotional side is concerned, most of these Gurus used this, because they mesmerize you, once they mesmerize you they start throwing you into collective subconscious, then you get possessed. Like mad you are moving, you are recluses... I have seen some people who are even

afraid of a garlic, can you imagine? There is one Guru who has created such disciples, they are mostly epileptic and they are afraid of a garlic, if you show them the garlic they start shaking. They are even afraid of a vegetable. I mean, to make a human being into that state is the limit, I should think, one can harm others.

So they push you so much into your left hand side, that you become a recluse, you are always crying, you think you must suffer, you must do all the penance and all these things.

Why should you do any penance and why should you suffer? Christ has already suffered for you. Did He keep anything for you to be suffering. Even Christians believe that they should suffer, it's most surprising. If Jews believe, I can understand, because they did not accept Christ, so they suffer; in Germany, they did suffer! They said “We'll suffer, we'll suffer" for eleven years, they just were suffering and then they had it.

So to believe in such nonsensical thing that we have to suffer is to deny Christ. We should not deny Christ. If we deny Christ means we accept suffering. We have to... They denied because he was a Jew.

Now we have many young Jews who have come to us in Sahaja Yoga, who can find it, they can see for themselves that these artificial methods of suffering does not help, it gives you problems, you get sick, you get depressed, you go into problems. And now they are the people, they said “If we are real Jews, we must save Jews from this idea." Same with Christians, same with Hindus, same with all kinds of people that are getting in this absurd ideas that they must suffer or they must feel guilty or they should

be this. This is the left-sided problem and then, once you get into the left side, you can go to such a limit that ultimately you end up into epilepsy or into a lunatic asylum. This is the only thing that can happen to you.

Like people would say come and confess. What is there to confess? To whom are confessing? Who has asked you to confess? Where is written in the bible that you have to confess something to a man. It is not written anything. All these things are done because they have organized themselves and they do not know what to do with themselves.

So one has to know that Christ has already suffered for us and that He resides in our Āgñyā Chakra.

What was the thing was to awaken Him within us. That is what He said. You have to awaken Christ within us and that can only happen through Kuṇḍalinī rising. And when He is awakened, He sucks these two institutions there, one is the ego created by this activity of action and by activity of desire the superego is created. Both these are sucked in and once these are sucked in, then there is an opening and you feel extremely relaxed and the Kuṇḍalinī opens the All-pervading Power or sort of touches it.

Then the All-pervading Power starts coming down as he has explained to you, a shower starts coming in.

When it comes down on a sympathetic nervous system here, the Chakras also get relaxed. Then again more of the Kuṇḍalinī threads rise and give you a greater and a greater opening into the All-pervading Power.

Now this is what is Self-realisation. It is not just a certificate, that you are realised. You cannot give a

certificate and I cannot do it to people who are not true seekers, who are not seeking, who are just still having some fixations about themselves. It cannot work out.

It can only work out in people who are true seekers, who are wanting their Spirit, who have self esteem, who want to have it. It is as simple as that. If you are already fixed with an idea, say, “I am born a Christian” now I have a fixed idea about Christ or if I am a Jew I have a fixed idea about Judah, if I am a fixed Islam or anything like that... then it does not work out.

You have to see for yourself what is, where and how it works out.

Now if I say there is Christ here [in the Āgñyā Chakra]. Now supposing I say, it could be wrong, yes possibly, I mean I may be telling you lies, possibly. Possibly. There is no reason for Me to tell you lies, but supposing for some reason, maybe I might be telling you lies. Now, how will you make it out? When you, yourself get your realisation, when you raise you Kuṇḍalinī, supposing it gets stuck here [Āgñyā Chakra], you can feel it. When you raise your Kuṇḍalinī, you hand will stop there, you will know is not going further. Then you have to say Lord's Prayer, you have to take Jesus name, otherwise it won't rise.

For example, if you are against Jews, the Jehovah's place is here [indicates just above the bindi in Her forehead], if the Kuṇḍalinī stops here because you do not believe in Jehovah, or maybe you do not believe in Moses, then the Kuṇḍalinī will stop here.

They all have places, all these ten prophets are here: Moses, Abraham, Mohammad and all these people are here. And you can see for yourself, it is so clear-cut.

Supposing you have been to a wrong Guru who has given you diffidence, then you have to say that `Mother, I am my own Guru,' it works out. Supposing you have been to a Guru who has given you ego.

This is, some Gurus are like that, they pamper your ego or superego. And you think no end of yourself, you are a great person, you are this and that; then you have to say on the right hand side, `Mother, make me my own Guru.' It works out. You will be amazed, the Kuṇḍalinī will go and pulsate there, you can see with your naked eyes. It is a reality that you should ask for. If you are a real person, how can you be satisfied with something unreal? Because your father and mother were this, all right they were, but do you want to be the same? You are seekers, born in these modern times to become something great, to become that higher Self.

Even if you do not try today, you will try again. You will never be satisfied unless and until you have found out the reality.

So Kuṇḍalinī awakening is the only way which is the Holy Ghost within us. It rises... they had objection because they said this is a serpent power; now it said serpent because when it moves, it goes like this, it moves like this. Because the movement of any energy shown like that.

But I was amazed at these Greek people, they have got this Athena, which is the Primordial Kuṇḍalinī they have shown, Athena. `Atha' in Sanskrit mean primordial. Most

of their words are Sanskrit. Like for the center they used the word *[UNCLEAR]* and *[UNCLEAR]* is absolutely a Sanskrit word. They told Me this Athena has this power which is like a snake and actually there is a snake in Her hand and she makes with this snakes lots of these Chakras. I mean, snake represents nothing but the energy that moves in a wavy pattern.

Now that of course, sometimes it happens in a way, one gentleman told Me that he suddenly got a feeling that Kuṇḍalinī has been awakened: it never happens like that. This is all done by subconscious, here, the collective subconscious. All these people are trying to mesmerize all the seekers; if they know somebody is a seeker, even in a dream they can come and just make you feel that.

But what you have to expect is collective consciousness, you have to become that. If you have not become that, then you should not be satisfied with these experiences or sensations. Sensations is not the way. You have to be the master, is the point. Now you get a sensation, for example you get a sensation of any kind, what is the use? You do not know anything about it, it is just a sensation, like an electrical shock. You see a villager comes to a city and he puts his hand into a plug and he says “Oh God, electricity is horrible!" You get this sensation from there.

Because these people are not holy people, they are unholy people, they are no right to touch the Kuṇḍalinī. The deity who is sitting here which is the embodiment of innocence, this deity, it tricks in a way that the sympathetic goes into action. Such people even get blister, complete blister from the body, they get burn in

them, heat in them, all sort of things. Because those people who have no authority to touch... even, I mean they, do dirty things like touching your private parts, I mean, how can you do like that? That is a Holy Mother, how can you do such dirty things? There are Gurus who are teaching that sex can take you to God, how can it be? Animals will go there first, before us. If you believe in such absurd things, it is absolutely insulting to your own being.

We are not sex points Are you sex points? We should ask ourselves “We are ill used by these Gurus to a sex-point level." We must have our self esteem and understand that we are not sex points. We are not sex points.

Neither the Kuṇḍalinī awakening can take place because this is the center which is below it looks after the pelvic plexus, which looks after the excretion and the sex. Sex is to be used in a sacred way, in a married life and all that; but the idea of exploiting sex is going to make us mad. Really it will make us mad. No wonder people are suffering from impotency, all kinds of diseases and madness and confusion.

They have gone off their head! How long are you going to live like this? You must understand the proper purpose of everything, because once you start using your sex through your brain, you see people think about sex more than they can do it. Because the position has removed from here [Mūlādhāra], it goes from here [Swādhiṣhṭhān] and then it goes to the brain. And that is why the people are so confused.

We have got Christ before us, who said that “Ten commandments are there that `Thou shalt not do

adultery,' I say “Thou shall not have adulterous eyes." Because He is born there, near the eyes. Why He said that? Because He knew this will happen, that people will start using their eyes for sex.

But what is this joyless sex? It has no meaning. You go on moving your eyes all the time, your attention is finished and without the attention, how are you going to reach to your Spirit? Your attention has to become the Spirit. Or I would say, the Spirit must enlighten your attention. That means in your central nervous system. Whatever you have achieved in your evolution is in your central nervous system, in the same way Spirit starts manifesting, you start feeling that.

Now the physical side I have told you, also the emotional side, the other side. If you get your realisation, your emotional side also gets all right. When you get your enlightened, the darkness goes away, all these possessions go away and you feel all right. We have, I mean I do not know how many people we have cured who are really lunatic, who were really lunatic.

The other day in Norwich, there were three people sitting before Me and they were doing like this and like that [imitates shaking] and so I said “What of sort of people you are? What's the matter? Who has been your Guru?" They said “We went to one Guru" they told Me the name. “But the advantage of those Gurus was that we landed to a lunatic asylum and we are certified mad people." I said “Really? Then why did you come here, to Me?" He said “You have cured one of our friends who was in lunatic asylum, who was suffering from lunacy. And he belongs to a Guru who takes three thousand pounds for putting

one spirit into you." And these three people, poor things, they got all right and I hope, next I go, they will bring more certified lunatic people to get all right.

Because we are fantastic within ourselves, our Spirit is a fantastic thing. When it starts manifesting, we really become such a balanced personality, such a great personality, that what we are. But we have to know that we have to become that. We should not accept a position where we do not know where we are going. It is not darkness, it is light! You should know each and everything, you should be able to monitor everything and you should be able to do it for others.

Now the time has come, some people might say that “How is it? Self-realisation was meant for one or two people." It is true. At the time of Rāma, his father-in-law, Janaka, gave realisation to one fellow called as Nachiketa; but this was 8,000 years back.

Today the time has come, the blossom time has come and everybody has to get realisation. It is a Mahā Yoga. Sahaja Yoga has become a Mahā Yoga, is a great Yoga. It is true that he saw those 6,000 people getting realisation, it's a fact, no doubt. I mean, if we had more people, we had would have given to them, but intellectuals take time to come to Sahaja Yoga.

In London, it was, I mean, I must say Vancouver is much better than London, it took Me four years to crack seven English brains; of course I managed somehow. After that… now we have thousands, but in the beginning I had given up hope, because so much thinking, so much.

This is beyond thinking, it is beyond thought. Because you think to your rationality which is a limited vehicle;

you have to be triggered into the unlimited. You cannot think it out and go there; it has to work out beyond thinking. But then logically you can understand everything, logically you can feel everything and the greatest thing that you have the discrimination power.

Now if supposing Christ appears before you, how will you recognize? is there a way? Supposing God appears before you, how will you recognize? Is there a way? Only way would be when you get this vibratory awareness, you can feel it, people can feel it.

One day, I had gone to Kashmir and I was with My husband, we were going in a jungle, absolutely there was no one, complete wilderness. And suddenly I felt tremendous vibrations around, so I asked the driver I said, “Is there is any temple here, is there any place like that of worshipping?" They said “No no, it is just wilderness and there is nothing here." I said “Just find out, let's go this way!" and I asked him to turn the car and we went round and round. “And there?" “Oh yes, there is some Muslims staying here" and we asked the Muslims “Is there any temple here?" They said “No but there is one big Mosque." I said “Which Mosque is this?" He said “Hazrat bal" means there is one hair of Mohammad, in that place.

Now, I was the only person who knew what it was, the rest of them were just fighting for it, that's all. They had no idea of what it was, what sort of vibrations they were, whether it was true or not, did it belong to Mohammad Sahib or not.

So you get the discrimination by understanding anything that you want to know: you can find out by this new

awareness that you develop. And then you do not depend on anything, you just depend on this new awareness. It is so remarkable, you can't imagine, is so remarkable.

Two days before, Mr. Hugo, who is now picturing Me, was in Houston, they were facing one gentleman who has been to own Guru; and he and another Sahaja Yogi, both of them started this finger [right forefinger], all the time shaking like this.

So they came and they said, “Mother, now, this is too much, this fellow was so bad and we should have not caught up anything from him and we caught up from him and now is all shaking and we are having a bad time." I said “All right, doesn't matter, we'll work it out." So we asked the name of the Guru and all that and we gave them a bandhan and we...

Somebody: [asks Shri Mataji to get closer to the microphone].

Shri Mataji:... and we just worked it and it stopped and the fellow felt all right. And it worked out, it worked out with him and they also felt better with their fingers.

It is so remarkable, you can't imagine. It is very remarkable, you all can become that.

Doctor Warren, has he told you, he came from India with his friend that, you see, of course I do not have any ashram there or anything so far. I go to villages and villages are very difficult to move about, because sometimes you have to go by bullock-carts and things like that and he wanted to come with Me.

And I told him that “It is not going to be easy for you, but it it's all right." But he managed to come with Me and then he saw that simple people get realisation much faster, he saw for himself. He came just to judge and find out things and he saw for himself.

As far for a person who is a holy person is concerned... he does not understand money much, cannot understand much money and, I mean, you can't pay for it. It is something so absurd if we think “We can pay for God, we can pay for everything." It is ego, I think that we think we can pay for it. How can you pay for Love? How can you pay? It is insulting. All right, this hall you can take, you can pay for this hall at the most, but you pay for the hall, but not for vibrations, for your realisation. You can't pay for it.

These people cannot understand, you see they think everything is to be paid for.

I mean, how much did you pay for Christ? Is there anywhere, anywhere in all these scriptures, whether Hindu, English, Muslim, any sort of thing, did you hear that these great people have lived as parasites or other people selling their religion? Did you find anybody saying that? Nobody can say that they took money and they organized themselves and lived on the money of others.

They are parasites, those who take money from you.

Now there are Lamas, these are coming now. I do not know if they have come to Canada. But they have come up to London and they have told people that “You must make a floor of marble otherwise they cannot come." I mean, imagine, holy people are not like that.

Now this life I am born in a very rich family and My husband is well to do, I mean we live with style and everything. But to Me does not matter, I can sleep anywhere, I mean, to Me does not matter, comfort does not come in My mind at all, I do not know what it is.

But if these people want this thing and that thing, so particular material thing, then you must know that they cannot be holy people. Such people cannot be holy. You see, such a person is a king by itself.

As we say the Bhacchha, he's the emperor. He's above all these material things, is above all these material comforts and this greed and things... if I have to buy something I just buy because I have to give to others. Only I think matter has one value that you can express your love through it, that's all, there is no other value it has got. If we cannot express your love through matter, it is useless. It is a useless thing, that's all it is.

And that is how one must to know that the lifestyle of these people, the way they live, the way they behave is so absurd, it's so absurd. But still people are stuck with them.

[A person adjusts the position of the microphone.] Can you hear Me now? It's alright, what can I do? You see I don't understand electricity. I understand Kuṇḍalinī but I do not understand electricity.

Somebody told Me “Mother, why you of all the persons have to do it?" I said “Please, do it! I would be very happy if you can do it!" I would like to retire. But, I mean, I do not know about electricity, but I know about Kuṇḍalinī. What is there to feel bad? If you know something and I do not know anything, it is all right. If I

know something, why should you feel bad about it? If Christ said he was the Son of God, why should they feel bad about it? He was, what can He do? Supposing He was, what should we have done? I am tactful, I am not going to say anything like that, you'd better discover about Me. But whatever I am, I will be, what can I do about it? I mean, why should you feel bad that, if I can raise your Kuṇḍalinī, what should be to feel bad about it? You can also raise the Kuṇḍalinī of another person.

For example, people might feel jealous of a person who gets realisation: there is nothing to be jealous, all of you can get realisation and become the Spirit! Because you are that beautiful thing, you are that, you are the Spirit; you have to just be connected, it is very simple, it will work out and sure it will work out with you people.

Now because the time is so short and I came, we may have some little questioning and then we should have the session, because that takes little time on the first day. And the third thing I have to tell you that expansion of Sahaja Yoga is easier, but consolidation is difficult. You will get your realisation, all right, we will start, but it's like a seed. Then you will have to little bit consolidate it. At least for about 7-8 days you have to consolidate it.

Now we have no center here, we have no way of contacting you, just now. But we are trying to get somebody within a weeks time we'll have somebody here placed permanently forming a center for you, who look after you. You have to give your address to us, so that the growth and the consolidation can be worked out and that you can, yourself, become empowered with it and that you can yourself manage it by yourself and you all

become your own Guru. This can be done very easily, it is not a difficult thing and it can be managed and that is why I have decided to get somebody here from, maybe Australia, we might get somebody here and that person can start this for you.

After that you can yourself manage the whole thing.

If there is any question, if there is please ask Me.

[Aside:] May I have some water? I am sorry for this [the microphone], but this is not My mistake, the one who was organizing should have done it. [Laughs.] Again organize it! Now it is too close. All right? [Aside:] Now give Me some water.

Question: Collective unconscious, he is wondering where you got the phrase from.

Shri Mataji: Oh, I have learned it from one of you. Actually in Sanskrit, it is another word which is called as Vyashti, in Sanskrit. You see, I never knew English language, in this time life I have only picked up this and I read some Jung and I read some things to find out, because Jung was a realised Soul. And I got it from him that he calls as collective unconscious, but in Sanskrit language it is called as Supta-achitar. There's a word for it. I mean it is already there, but I do not know where he got it translated, that we should ask Jung about it. But that is the collective unconscious becomes conscious.

I am saying collective consciousness, the unconscious becomes the conscious. You see, because he found out these symbols which were universal, so it is he who said that... I mean, by science, we can say by psychology he has proved that there is a collective unconscious, which we have to find out. He prepared the stage, quite all

right. But I do not know how many Jungians are going to jump onto the stage. You see, you have to jump onto it, if you just stick on to those ideas, you see he talked of the unconscious, I am talking of the conscious. All right? Jung was great, I must say he was great, but he is not so much respected anywhere as he should be.

Question: He said those who came tonight came because they are seekers, will they be able to have the experience tonight.

Shri Mataji: They should, they should. I am going to work it out. They should. Now it is all right.

Yes, My child.

Question: Is this experience getting stronger and stronger as you practice?

Shri Mataji: You see before realisation you do not have to do anything, just nothing has to be done, it just works spontaneously, only if you have to place your hands towards Me, it works out. But after that you must know that the Kuṇḍalinī though, the first thing it just rushes out and opens it; but then it comes back and supplies the other centers which require attention and you must know what centers are requiring.

You should know about all these things, you should know how you should give attention to these things.

And all is very simple, you can do it. You just feel the all thing, you feel just that this center is catching, that center is catching; and when you know how to clear it out, you just clear it out. And it improves gradually very much, no doubt.

So we are going to establish a center for you, here, I hope to do it within a weeks time, I hope so.

Sahaja Yogi: To specifically answer your question, Mother is going to give the experience tonight.

Shri Mataji: Very true, very true.

Sahaja Yogi: She just wants to get questions out of the way, so that mental activity can be reduced.

Question: How often each day do you practice it and what is involved?

Shri Mataji: No, no, no. There is nothing like rules and regulations about it, you see there are no rules and regulations. It is as it is. What happens is that, you see, to cleanse yourself, every evening we have to do little foot-soaking, we do it. You see, just to cleanse yourself in the water, because water element is a very good thing, which you will know; it is very simple how you do it. And then in the morning time we, just before going out, you have to give a sort of protection like this [shows the bandhan] to your own aura; because it is flowing from your hands.

So it does not involve you much, you live a very normal life, actually become really normal. And it is not necessary do it that way, but if you want to do it, I mean any time you are there, you don't have to meditate, you are in meditation, all the time, because you become a witness, everywhere you are in meditation, it's fine.

There is no involvement of that kind at all. It is such an experience that you do not have to get involved into it, but you start enjoying it, that's all! Question: Does the day of Pentecost and the tongues of flames and so on

that were referred to in the Bible, have anything to do with it?
